

APPENDIX 8: Old Town Masterplan Equalities Analysis

Old Town Masterplan Initial Equality Analysis

An Equality analysis enables us to target our services, and our budgets, more effectively and understand how they affect all our communities. It also helps us comply with the Equalities Act 2010.

For more information about when you should carry out an equality analysis, who should do this and the support available, go to the equality analysis intranet page.

This form has four sections

- 1: decide whether a full equality analysis is needed. If not, you do not complete sections 2-4.
- 2: gathering evidence
- 3: determining actions
- 4: decision and next steps

Appendix One – Decision-making process

Appendix Two - data broken down by Protected Characteristics

Name of document			Old Town Masterplan Equality Analysis	
Version	Date reviewed	Date of next review	Reviewed by	Changes made
1				

1. Decide whether a full equality analysis is needed

1.1 What are you analysing?

Question	Guidance	Answer
What is the name of your change or review?	<p>The change or review may involve:</p> <ul style="list-style-type: none"> o policies, strategies and frameworks o budgets o plans, projects and programmes o staff structures (including outsourcing) o the use of buildings o commissioning (including re-commissioning and de-commissioning) o services (for example, how and where they are delivered) o processes (for example thresholds, eligibility, entitlements, and access criteria) 	<p>The Old Town Masterplan will be a Supplementary Planning Document (SPD) that provides guidance for development of the built environment in the Old Town area of Croydon. It conforms to Croydon Local Plan: Strategic Policies Development Plan Document and the Croydon Opportunity Area Planning Framework SPD. It covers the area known as Old Town in Croydon Town Centre that is centred around Croydon's historic core. The masterplan study area covers parts of the wards of Fairfield, Broad Green and Waddon.</p>
Why are you doing this?	<p>For example, we are considering cutting a service.</p>	<p>The overarching objective for the Old Town Masterplan is to provide clear guidance to assist and accelerate the regeneration of Old Town and improve the quality of life of people who live, work, shop and visit the area.</p> <p>Individual objectives are:</p>

		<ul style="list-style-type: none"> -To ensure that Old Town’s valuable historic buildings are protected and enhanced - That the streets and public spaces in the area are made more attractive, including areas around bus and tram stops. - To provide design guidance for possible sites for residential development. - To provide guidance on development that will make the area feel safer in the evening. (We envisage that by making the area more attractive, there will be more natural surveillance and the area will therefore feel safer – particularly for physically vulnerable groups visiting Old Town –namely old people, disabled people and women – in particular those that are pregnant. -To improve walking and cycling routes to encourage more people to take these forms of transport to reduce congestion and pollution, improve health and reduce CO2 emissions. - To remove one-way streets where possible to improve vehicular access to the area but without creating through routes.
<p>What is likely to be different when you have finished?</p>		<p>There will be clear planning guidance in place that will give developers certainty over what they can and can’t get planning permission for in Old Town. Public realm improvement projects are also prioritised for as and when funding becomes available.</p>

What will be the main outcomes or benefits from making this change?		This should accelerate the regeneration of Old Town and help achieve the objectives for the project described above.
What stage is your change at now?	See appendix one for the main stages at which equality analyses need to be started or updated. In many instances, an equality assessment will be started when a report is being written for a committee. If that report recommends that a project or programme takes place, the same equality assessment can be updated to track equality impacts as it progresses. If the project or programme include commissioning or de-commissioning, the same equality assessment can be updated again.	We have produced a draft Old Town Masterplan for consultation.

An equality analysis must be completed before any decisions are made.

If you are not at the beginning stage of your decision making process, you must inform your Director that you have not yet completed an equality analysis.

1.2 Who could be affected and how?

Question	Guidance	Answer
Who are your internal stakeholders?	For example, groups of council staff, members	<ul style="list-style-type: none"> • The Spatial Planning Service • The Development Management Service • The Housing and Regeneration Service • The Greenspaces Team • The Capital Delivery Hub • Children Young People and Learners

<p>Who are your external stakeholders?</p>	<p>For example, groups of service users, service providers, trade unions, community groups and the wider community?</p>	<ul style="list-style-type: none"> • Local residents who live within Old Town Masterplan Study Area and the surrounding area which will include people who have the following Protected Characteristics that the Old Town Masterplan seeks to benefit – Age (specifically old people), Disability, Gender (specifically women), Pregnancy and Maternity • Shop owners in the area • Local developers • BT • Church House Business Centre • Clowater • Croydon Minster • Croydon Old Town Business Association • English Heritage • Greater London Authority (GLA) • House of Reeves • Q-Park • Rosepride • Transport for London • The Whitgift Foundation • The Holiday Inn • The 16th Croydon Scouts Group (Beavers and Cubs) • The Montisorri Scout group • Old Palace School
---	---	---

Does your proposed change relate to a service area where there are known or potential equalities issues?

Please answer either "Yes", "Don't know" or "No" and give a brief reason for your response. If you don't know, you may be able to find out on the Croydon Observatory (<http://www.croydonobservatory.org/>)

No. No equalities issues have been identified in relation to the service area of Planning and Development.

However, consultation on the Old Town Masterplan has identified three current issues that affect all residents and visitors to Old Town but in particular the following protected groups: old people (protected characteristic - age), disabled people, pregnant women and new parents and women (protected characteristic - sex). These groups share the overarching characteristic of being physically vulnerable. (Please see below for a description of the proportion of the population that these groups make up of the wards that the Old Town Masterplan covers.)

The first current issue that affects physically vulnerable groups in particular is that parts of Old Town have been identified as feeling unsafe to walk around, particularly during the evening after the shops close and footfall and natural surveillance decreases. The Old Town Masterplan seeks to address this issue by encouraging more evening activity in Old Town and more residents to live in Old Town. This will increase activity in the area and natural surveillance, thus making it feel safer.

The second current issue is that Roman

		<p>Way, the Croydon Flyover and the railway line that goes being West Croydon and Waddon are barriers to pedestrian movement. The masterplan seeks to increase the number of crossings of these pieces of transport infrastructure and improve the quality of existing crossings.</p> <p>A third current issue identified is that bus waiting facilities on Drummond Road are of a poor quality, with too little space provided for bus waiting and pedestrian movement. The masterplan proposes that Drummond Road is reconfigured to allow more space for bus waiting facilities.</p>
<p>Does your proposed change relate to a service area where there are already local or national equality indicators?</p>	<p>You can find out from the Equality Strategy (http://intranet.croydon.net/corpdept/equalities-cohesion/equalities/docs/equalitiesstrategy12-16.pdf). Please answer either "Yes", "Don't know" or "No" and give a brief reason for your response</p>	<p>The Old Town Masterplan document provides Supplementary Planning Guidance to the Croydon Local Plan for the future development of Old Town. It has been produced by the Spatial Planning Service.</p> <p>The Old Town Masterplan study area lies within parts of 3 Wards - Fairfield, Broad Green and Waddon.</p> <p>In Broad Green there are three Lower Level Super Output Areas that fall within 20% of the most deprived in the country, that are located just outside the Old Town Masterplan study area.</p> <p>A significant number of residents living in the Old Town Masterplan study area and the surrounding area have a disability.</p>

		<p>According to the 2011 Census data 4% of the population of Fairfield Ward, 5% of Broad Green ward and 5% of the population of Waddon are claiming disability living allowance.</p> <p>A significant number of people are over 65 years old who live in the Old Town Masterplan study area and the surrounding area. 7% of the population of Broad Green, 12% of the population of Fairfield and 11% of the population of Waddon are over 65 years old.</p> <p>A large proportion of the population are a black or ethnic minority. 69% of the population of Broad Green, 49% of the population of Fairfield and 44% of the Population of Waddon. The masterplan does not propose reducing facilities for BME residents.</p> <p>The Croydon Observatory does not provide information on the proportion of the female population who are pregnant or have young children (a protected characteristic that that Old Town Masterplan should benefit). However, there are a significant number of young children in the area so it is assumed there are also a significant number of pregnant women. The percentage of the population who are aged 4 and under in Broad Green is 19%, in Fairfield is 17% and in Waddon is 16%. Based on this information, it is</p>
--	--	---

		estimated that approximately 10% of women in the Old Town Masterplan study area are pregnant or have young children.
Would your proposed change affect any protected groups more significantly than non-protected groups?	Please answer either "Yes", "Don't know" or "No" and give a brief reason for your response. For a list of protected groups, see Appendix Two.	<p>No. There will not be a <i>significant</i> difference between the benefits to protected and non-protected groups. Everyone will benefit from there being clear guidance available for future change.</p> <p>However, the proposals in the Old Town Masterplan will benefit certain groups a bit more than others, if they are delivered.</p> <p>Women will be more affected by safety and security changes, whilst disability groups will be more affected by accessibility and transport changes to the built environment. Age groups could be affected equally by both safety and security changes and transport changes to the built environment in Old Town.</p>
Would your proposed change help or hinder the council in eliminating unlawful discrimination, harassment and victimisation in relation to any of the protected groups?	Please answer either "Yes", "Don't know" or "No" and give a brief reason for your response	If Old Town becomes a more attractive and popular place to spend time in the evenings then there will be more natural surveillance in the area and crime against more physically vulnerable groups – namely old people, young people, mobility impaired people and women - would be likely to reduce.

<p>Would your proposed change help or hinder the council in advancing equality of opportunity between people who belong to any protected groups and those who do not?</p>	<p>Please answer either "Yes", "Don't know" or "No" and give a brief reason for your response</p>	<p>Indirectly they should help the council in advancing equality of opportunity to physically vulnerable groups - namely old people, mobility impaired people, women generally, pregnant women and women with young children. If development is delivered in line with the guidance in the Old Town Masterplan more people are likely to be attracted to Old Town at all times of day and there will be an increase in natural surveillance and the perception of safety in the Old Town Masterplan study area.</p> <p>The draft Old Town Masterplan recommends improving bus and tram waiting facilities which would mean taking public transport is a more pleasant experience for old people, mobility impaired people, women generally, pregnant women and women with young children.</p>
<p>Would your proposed change help or hinder the council in fostering good relations between people who belong to any protected groups and those who do not?</p>	<p>Please answer either "Yes", "Don't know" or "No" and give a brief reason for your response</p>	<p>Yes. It will help it:</p> <ul style="list-style-type: none"> -The process of holding events as part of consulting on the Old Town Masterplan has brought local people together from different backgrounds to discuss their views on the built environment of Old Town and therefore encourage mixing. Some of these people will belong to protected groups and others will not. An Old Town residents group has been set up by people who have been partly inspired by the Old Town Masterplan. It is called "We are Croydon Old Town".

1.3 Decision

If you answer "yes" or "don't know" to ANY of the questions in section 1.2, you should undertake a full equality analysis. This is because either you already know that your change or review could have a different/significant impact on protected groups (compared to non-protected groups) or because you don't know whether it will (and it might).

Decision	Guidance	Response
No, further equality analysis is not required	Please state why not and outline the information that you used to make this decision. Statements such as 'no relevance to equality' (without any supporting information) or 'no information is available', could leave the council vulnerable to legal challenge. You must include this statement in any report used in decision making, such as a Cabinet report	
Yes, further equality analysis is required	Please state why and outline the information that you used to make this decision. Also indicate <ul style="list-style-type: none"> - when you expect to start your full equality analysis - the deadline by which it needs to be completed (for example, the date of submission to Cabinet). - where and when you expect to publish this analysis (for example, on the council website). You must include this statement in any report used in decision making, such as a Cabinet report.	<p>Yes a further equality analysis is required based on the information provided above.</p> <p>Start date: February 2014. Completion date: November 2014 (when it is anticipated that the document will go to cabinet).</p> <p>We will publish the Equalities Analysis on the Croydon Council website.</p>
Officers that must approve this decision	Name and position	Date
Report author	Ruth Coulson – Project Officer (Urban Design)	17/12/13
Director	Mike Kiely	
Please email this completed form to data.equalities@croydon.gov.uk, together with an email trail showing that the your director has approved it.		

1.4 Feedback from the corporate equalities team

Name of equalities officer	Yvonne Okiyo	
Date received by equalities officer	Please send an acknowledgement.	
Should a full equality analysis be carried out?	Yes.	
Please send this document to - the person responsible for making the decision - democratic services, the corporate programme office or procurement as appropriate in time for the relevant decision making meeting		

2. Evidence Considered

List the documents and information that have been considered as part of this review to enable reasonable judgments to be made on the assessment of impact.

This section needs to include consultation data and desktop research (local and national data).

Quantitative Data	Qualitative Data
Croydon Observatory which uses ONS statistic from the 2011 Census.	Consultation events for the Old Town Masterplan: April 2012 – Understanding Old Town. A four-day street-based event asking passers-by their opinions of Old Town October 2012 – A public meeting to introduce the Old Town Masterplan March 2013 – A “Ideas Workshop” to capture local people’s views of Old Town and aspirations for the area. June 2013 – An “Emerging Ideas Exhibition” held in Matthews Yard (a café located in Old Town) February-March 2104 – Formal consultation, 2 drop-in events held at Matthews Yard, the draft Old Town Masterplan was available online and at key locations in Old Town to comment on.

2.2 Is there any evidence missing? If so, how will you gather this missing evidence?
<p>If you do not have all the evidence you need to make an informed decision, talk to your departmental equality lead about practical ways to gather it. For example, if you do not have time to conduct a survey, is there a way can increase your understanding before undertaking more robust research at a later date? Perhaps by meeting with stakeholders. The depth and degree of any consultation or research will be determined by the relevance of the change or review to different groups. Those who are likely to be directly affected should be consulted. Read the corporate public consultation guidelines before you begin (http://intranet.croydon.net/finance/customerservices/public_consultation/default.asp).</p> <p>If you really cannot gather any useful information in time, then note its absence as a potential negative impact and describe the action you will take to gather it in section 3. Insert new rows as required.</p>

Do not continue onto stage 3 until your departmental equality lead is satisfied that you have gathered all the evidence you need.

Protected Group	Evidence missing	Description of potential negative impact

3. Determining Actions

The overall potential impact is the likelihood of the impact multiplied by the strength of that impact. The higher the score, the more significant the impact. The tables below identify actions to be taken to minimise negative impacts or maximise positive impacts within the programme.

Key

Likelihood score

5	Most certain	In more than 80% of the circumstances
4	Most likely	In 51-80% of circumstances
3	Possible	In 21-50% of circumstances
2	Unlikely	In 6-20% of circumstances
1	Rare	In 5% of circumstances or less

Strength score	Degree of impact	Proportion of protected groups affected
5	Very great impact	Several protected groups in more than one category (e.g. religion and gender) would be differently affected (compared to non-protected groups).
4	Great impact	Several protected groups in one category (e.g. religion) would be differently affected (compared to non-protected groups)
3	Some impact	All of one protected group would be differently affected (compared to non-protected groups)
2	Little impact	The majority of one protected group would be differently affected (compared to

Strength score	Degree of impact	Proportion of protected groups affected
		non-protected groups)
1	Minimal impact	A minority of one protected group would be differently affected (compared to non-protected groups).

4. Decisions

4.1 Based on the information in sections 1-3, what are you going to do?

Decision	Definition	Yes/no
We will not make any major change to our project because it already includes all appropriate actions	Our assessment shows that there is no potential for discrimination, harassment or victimisation and that our project already includes all appropriate actions to advance equality and foster good relations between groups.	No
We will adjust our project	We have identified opportunities to lessen the impact of discrimination, harassment or victimisation and better advance equality and foster good relations between groups through our project. We are going to take action to change our project to make sure these opportunities are realised.	No
We will continue our project as planned because it will be within the law	We have identified opportunities to lessen the impact of discrimination, harassment or victimisation and better advance equality and foster good relations between groups through your project. However, we are not planning to implement them as we are satisfied that our project will not lead to unlawful discrimination and there are justifiable reasons to continue as planned.	Yes
We will stop our project	Our project would have adverse effects on one or more protected groups that are not justified and cannot be lessened. It would lead to unlawful discrimination and must not go ahead.	No

4.2 Next steps

You may find it useful to consult Appendix One before completing this section.

Does this analysis have to be considered at a scheduled meeting?	If so, please give the name and date of the meeting.	Cabinet meeting 17 November 2014 and Council meeting 1 December 2014
---	--	--

<p>When and where will this equality analysis be published?</p>	<p>An equality analysis should be published alongside the policy or decision it is part of. As well as this, the equality assessment could be made available externally at various points of policy development. This will often mean publishing your analysis before the policy is finalised, thereby enabling people to engage with you on your findings.</p>	<p>This Equality Analysis will be published on the Council's website when the Cabinet papers are published on 10 November 2014. It will also be available internally on the intranet.</p>
<p>When will you update this analysis?</p>	<p>Please state at what stage of your project you will do this and when you expect this update to take place. If you are not planning to update this analysis, say why not.</p>	<p>If any of the large scale public realm projects and/or development projects on Council owned land are taken forward, further and more specific Equality Analyses will be produced.</p>
<p>4.3 I confirm that the information in sections 1 - 4 is accurate, comprehensive and up-to-date</p>

Feedback on decision		
<i>Please send this to the report author and democratic services, corporate programme office and procurement team as appropriate</i>		

Appendix one: decision making processes

You may only need to develop one equality analysis, updating it as you move from proposing the change to monitoring its implementation.

In many instances, an equality assessment will be started when a report is being written for a committee. If that report recommends that a project or programme takes place, the same equality assessment can be updated to track equality impacts as it progresses. If the project or programme includes commissioning or de-commissioning, the same equality assessment can be updated again.

Budget setting

For department budget setting, check that each line will have already have appropriate equality analysis under one of the other decision making processes. The corporate budget will be covered under the process for the report to full council.

How to use this table

This table outlines the key council decision making processes. Select the process on the top row that you are currently involved in, then read down the column to find out what to do when.

Decision making process	Report to committee, cabinet or full council	Project management	Programme management	Commissioning
Key contact	Solomon Agutu	Tony Snook	Tony Snook	Dawn Jolley
Link to process	Report Writing Instructions and Templates	Corporate Programme Office (CPO)	Corporate Programme Office (CPO)	Procurement Board
Develop section one of the equality analysis	When you start writing your report	Business case	Gateway 1/2	When you start writing your procurement strategy report
Develop full equality analysis	Before you submit your report to CMT	Project initiation document	Gateway 3	
Revise full equality analysis	When full council, cabinet or committee decision made or at key stages in any action plan included in the report	At the end of each project stage	At the end of each tranche	If the award report goes to Corporate Services Committee and as part of contract monitoring schedule
Write final full equality analysis	At the final stage of any action plan included in the report	Post project review	Gateway 6	Final monitoring stage
Who to send the equality analysis to	Corporate equality team and democratic services	Corporate equality team and project team	Corporate equality team and programme team	Corporate equality team and procurement team

Appendix two: data broken down by Protected Characteristics

The information below is taken from the 2011 census unless otherwise indicated.

Age groups	Number of people	Percentage
0-4 years	27,972	7.7%
5-7 years	14,388	4.0%
8-9 years	8,708	2.4%
