Older residents will give way to young families who require greater social support, yet no additional resources are identified to help manage the changing demographic. 3276/01/002/DM43.4/O	Mr Matthew Carey	Object	DM43.4 504	<p>The area of Shirley Oaks Village and it's adjacent road infrastructure is already at breaking point. Any slight build up of traffic seriously hinders movement for residents. The 2 main arterial routes into Croydon or towards Bromley (being wickham road &amp; lower addiscombe road) are extremely busy with traffic and often lead to extended journey times for those of us who wish to head in to one of these town centres or further afield in to London for work. As proven only yesterday when a traffic accident in the Shirley area led to a 3 hour journey home from bromley back to Shirley. The road network around here is poor. The interlink between Shirley Oaks village and it's surrounding area is poor. To add hundreds of houses within this area will only lead to increased volume of traffic on the surrounding roads and leave Shirley itself in an almost permanent state of gridlock. Shirley Oaks Road is always busy with vehicles parked up. This is due to a number of reasons;</p> <p>The excessive traffic on wickham road leading to people abandoning their vehicles to try and walk nearer to Croydon to catch a tram or bus. The unreliable 367 bus route which is often hindered by traffic or accidents outside of Shirley Oaks Village leading to people driving closer to other bus routes.</p> <p>The use of the local synagogue. Combine these issues above with the additional housing being proposed and the vehicles that come with them, Shirley Oaks will become even cut off than it already is. There are many elderly residents in this area that rely on carers (friends etc) being able to visit them. They often complain about the issues I have raised above and I can only see this getting worse should the proposals for Shirley go ahead.</p> <p>Croydon is a massive borough so there must be other areas that these proposals could be met.</p>	No change	<p>The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances.</p>

This amenity land is owned collectively by the property owners who own 1 share each. The shares are held by the current trust company - First Port, who also maintain this estate. Is compulsory purchase envisaged? If a total of some 700 homes the village would need vast changes to its infrastructure to accommodate these properties. The present main road - Primrose Lane/Shirley Oaks Road is barely able to cope now - with just a single decker bus allied to a growing number of cars. There is a regular flooding problem during heavy downpours - particularly from Primrose Lane into Laburnum Gardens. The loss of a wildlife conservation area is surely against wider interests including many present owners. Effective 504

One of the requirements of the Pitt review of 2007 was for the Environment Agency to provide some warning for surface water flooding, as was already the practise for river and coastal flooding. The result was the LIDAR returns which are provided on the Environment Agency's website under 'what's in my backyard'. This shows clearly how the lie of the land amongst the Shirley Oaks Estate causes surface water to run from South to North joining another stream which runs in from the SW from Shirley road into Primrose Lane. On numerous occasions over recent wet winters we have had a constant stream of water running across the kerb into Primrose Lane which has on occasion caused substantial amounts of ice to form. No doubt your winter maintenance department could confirm this is an area where they have to regularly do spot treatments of rock salt- since they do Primrose lane as it is a bus route, when other parts of the network are totally dry and do not require treatment.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.

From the Pitt Review of 2007- RECOMMENDATION 7: There should be a presumption against building in high flood risk areas, in accordance with PPS2S, including giving consideration to all sources of flood risk, and ensuring that developers make a full contribution to the costs both of building and maintaining any necessary defences. Section 5.14 of the report reiterates that PP525 applies to all sources of flood risk. This states that an SFRA (surface flooding risk assessment) should assess surface water flood risk and identify critical drainage areas. Good information is therefore needed from sewerage undertakers and other sources, including local knowledge, historic flooding and risk modelling. Local authorities should ensure that SFRAs carried out on their behalf adequately address this type of flooding. I find it difficult to believe this has been done as otherwise there would have never been a suggestion of using the remaining green parts of the estate in this way.

Any increase in the built up area around the estate would thus exacerbate the already on occasion saturated surface. Having investigated in detail the benefits in the reduction of flooding by the provision of trees, I have found that Oak trees can use up to 50 gallons a day and some trees on a hot day will utilise 150-200 gallons (wiki-answers.com). Trees admittedly are

most effective when we are in the growing season at excess water removal, but that is also when we tend to have the most extreme rainfall events. Having looked at 'Heavy falls in a day' and 'Heavy falls in short Periods'; both produced in part for British Rainfall by the Met Office (my employer); I have found that invariably the most extreme rainfall happens in SE England between June and September. This is just when a tree is in full leaf so not only intercepts falling rain by the size of its canopy, but also as it is growing, that rain which reaches the soil is quickly extracted for use in the tree's transpiration. Preliminary research results from the University of Manchester indicate that trees can reduce runoff by as much as 80% compared to asphalt. Thus the best way to alleviate summer extreme rainfall surface water flooding is not to remove trees.

The soil on which Shirley Oaks is located is of a clay type and is therefore impervious: another reason why it reacts to surface water flooding the way it does. The large area of grassland is ideal for 'making room for water' as a water storage area, thus to remove this pooling facility will mean the rain will have to find somewhere else to go, which would inevitably mean flooding for Shirley Oaks residents. Also I have learned, from Meteorological Office memorandum No 80-the properties of soils in NW Europe; that the root system of grassland provides a channel through which some rainfall does manage to slowly percolate through beneath the surface even with clay soils. However, without the grassland root system the water just tends to form bodies of water lying on the surface. This effect of our grassland is very helpful in alleviating the surface water flooding in winter, which occurs when prolonged rainfall totally saturates the area, and the trees are no longer as effective at its removal.

So in conclusion  
- We need trees to mitigate effects of extreme rainfall in summer, something which will become increasingly frequent with global warming.  
- We need open grassland for water to accumulate in winter when trees are less effective at water removal from the system, whilst in addition their root systems help to aid percolation beneath the soil reducing surface flooding. Over the last 40 years winter rainfall has been increasing throughout the UK.  
- Soil behaviours also dictate risk of

flooding. We have issues because:  
 1) We are on a clay soil type so low permeability and heavy rain does not soak in but floods.  
 2) We are on sloping ground with tendency for run off to flow south to north across the site.  
 3) We, also because of having a clay soil, have a high water table, so in winter many areas of the site are wet and all parts stay damp throughout. Thus water-logging very quickly occurs and there would with the proposed building work be less and less places for the water to flow to.

Object	Soundness - Justified	DM43.4 504	<p>First, the Council plans to de-designate the Metropolitan Open Land on either side of Shirley Oaks Road and all around Shirley Oaks Village (page 68, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies &amp; Proposals). Metropolitan Open Land has the same protection from development as the Green Belt. The Council is proposing to remove this designation so that most of this land can be used for new housing. the Council won't keep it as MOL, it should at least designate it as Local Green Space so that it has some protection. I will also be objecting to any of these five sites being used for residential development. Not only would this entail the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of the area, the local road infrastructure couldn't cope with the additional traffic.

As you probably already know, our gardens are quite small so it's really nice to have space to take full advantage of. Another thing that disappoints me, is that one of the selling points of our house, is the fact that all the land around the estate is protected from building on. I strongly disagree with any of your plans to build upon this land, and along with other Shirley oaks residents will do my best to get our voices heard.</p>	No change	<p>The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. 3391/01/002/DM43.4/O	Ms Aileen Deeney	Object		DM43.4 504	As a resident of Shirley Oaks Village, I wish to register my objection to the above proposals to allow the development of new homes on the designated Amenity Open Land which is available for my use and that of my fellow residents. This use was allowed by Croydon Council because of the undersized gardens which is a negative feature of the current development and which hinders enjoyment and comfort of my property. For example, it is not possible for children to play with footballs/other toys /play noisily,without disturbing the adjoining and physically very close neighbours. You are no doubt aware that there are no nearby children's parks. Also my garden can easily be overlooked by at least 4 sets of neighbours and which I believe is typical of the other gardens on the development. Having the Amenity Open Land available is some compensation for the above lack of privacy and if it was to be withdrawn it would have a detrimental impact on family life. 3428/01/002/DM43.4/O	Mr Daniel Nuthall	Object	DM43.4 504	I would like to object to the following Metropolitan open land proposals - Poppy Lane - Ref 128 -Stroud Green Pumping Station - Ref 504 -Land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House - ref 541 -land to the west of Shirley Road ref 542 -land to the rear of 5-13 Honeysuckle Gardens ref 548. The Metropolitan land provide several links in the Shirley Garden Chain. Under the Planning Policy Guidance Note 9 the importance of nature conservation is stressed. This combined with the extra traffic seems unacceptable. 3430/01/041/DM43.4/O	Mr Donald Speakman	Object	Soundness - Justified DM43.4 504	Site 504, Stroud Green Pumping Station, 140 Primrose Lane, is identified as suitable for 26 to 68 homes. This land should not be de-designated as Metropolitan Open Land as it is a vital green corridor between Shirley Oaks and the surrounding areas, providing much loved and well used amenity space. This would total change the character of the area and have a great impact on the local road infrastructure impacting Primrose Lane.	No change	The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.

We wish to object in the strongest terms to the plans being discussed regarding the proposed development of land for new housing in the Shirley area, specifically the building of Gypsy/Traveller sites on our doorstep, and the inherent increase in crime and ant-social behaviour that always follows, and can be seen in many examples nationally. Not only this, but the whole 'Village' feel of the area will be completely obliterated, and the very things that attracted us to move to Shirley (off Orchard Ave) will be no more. Of course people need a place to live and raise families, but time and again we have seen the resultant decline of neighbourhoods, with rubbish, noise and theft frequent occurrences. We urge you to think again and take heed of Gavin Barwells very real concerns, and those of what I'm sure are many of his constituents, and other Shirley dwellers. We are particularly concerned that you should take into account the fears of ordinary hard working people like us, who want to enjoy life (we're not 'oldies') in a pleasant community, and think again about the following proposals;

Stroud Green Pumping Station, 140 Primrose Lane, including the conversion of the locally-listed pumping station, is identified as suitable for 26 to 68 homes (pages 451-452, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 504);

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.

3437/01/003/DM43.4/O	Mr & Mrs McAvoy	Object		DM43.4 504	We object to the use of the following locations in Green Belt areas as travellers/gypsy sites: Coombe Farm off Oaks Road (15-20 pitches); Coombe Lodge Nurseries off Conduit Lane (15-20 pitches); Pear Tree Farm on Featherbed Lane (15-20 pitches). National guidelines clearly state 'Travellers Sites (temporary or permanent) in the Green Belt are inappropriate development'. The Council's proposals, therefore, clearly breach such guidelines. Also, we question the Council's assertion that it needs to quadruple the number of travellers/gypsy sites in the Borough. Apart from this major objection, the above sites identified for such use would have: poor access via narrow roads/lanes for large vehicles; consequent impact upon local traffic congestion with movements of large vehicles; no safe paved walking routes to schools, shops, doctors, etc.; additional requirement for services and facilities for hygienic occupation; increased pressure on local schools, medical facilities, waste disposal, etc.; impact upon local facilities and amenities of current residents.		No change	The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.
3438/01/004/DM43.4/O	Mr D Lane	Object		DM43.4 504	I object to the use of Stroud Green Pumping Station, 140 Primrose Lane for use as housing. If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces. Building housing on them would mean the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of this part of Shirley. As far as I can see, these are the only bits of Metropolitan Open Land in the whole borough which the Council is proposing to de-designate and allow housing to be built on. Why has Shirley Oaks been singled out in this way?		No change	The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances.

The proposal to build new houses in Honeysuckle Gardens does not fall within the Strategic Objectives because:-

Objective 2: This development will not Foster an environment where existing enterprise can prosper, but will reduce enterprise

Objective 4: This development will not reduce social, economic and environmental deprivation. It will not reduce unemployment, improve skills and education and improve environmental conditions, the development is not in keeping with the surrounding area.

Objective 5: This development is not high quality and will not enhance the borough's natural environment but will reduce the natural environment by turning a green area into housing

Objective 7: This development will reduce the area as a safe, healthy and cohesive community but making the area overcrowded with residential property

Objective 10: This development will reduce the quality and accessibility of green space and nature.

This development will compromise the ability of future generations to meet their own needs. The development will change the outlook and community within the South Croydon area and future generation will suffer because of this. This proposed development of new housing in Honeysuckle Gardens is not within keeping of the current development within this area. Shirley comprises of large semi and detached houses with large green areas. This development is in no way in keeping with housing in the area. Changing a green area to an area of residential housing will cause harm and reduce the outlook of the area and is not in keeping with the surrounding area. Building a travelers site will increase noise levels and ruin the character of the area and this development would overwhelm this green area. Paragraph 64 of the National Planning Policy Framework states that permission should be refused for development of poor design that fails to take the opportunities available for improving the character and quality of an area and the way it functions. This development would diminish the area of green fields and recreational land within the area.

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.

			504	Ref nos, 128,504,541,542, 548...these relate to the building of additional homes. From the information available in the Council's documentation, this could be up to 800 new homes. I would like to know what sort of homes these are likely to be ...social, housing associations or private ...I doubt that any of them would be affordable homes for first time buyers .How will the local roads cope with the extra traffic. There will be a need for more schools, doctors' surgeries etc to support the intended increase to the local population. I would therefore like to object to the Council's decision to use these five sites for future residential development. Apart from putting extra burden on the local roads, it would also mean losing valuable green spaces. I believe any new residential development should be on brownfield sites . The addition of so many extra homes would have an adverse affect on the character of Shirley, in my opinion.		
3512/01/003/DM43.4/O	Rhodri Flower	Object	DM43.4	I write with reference to your document 'Changes to the Policies Map (Policy DM43)', and in specific reference to sites 541, 542, 548, 128 and 504. These sites are all open space surrounding the development known as Shirley Oaks Village.	No change	The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.
			504	I wish to object to the proposals to re-classify the land and make it eligible for planning permission and the building of homes. In my opinion it is essential to preserve the open space for the use of local residents. It is well used for recreation, dog walking etc. It is also an important part of the character of Shirley Oaks Village and would change the nature of that development.		
				I bought a house on Primrose Lane in June 2015 and a large factor in my decision to buy was the amount of open space available locally. I understand that Croydon Council designated this land as 'Amenity Open Land' in 1985 because of under-sized gardens in Shirley Oaks Village and transferred it to the Shirley Oaks Management Company, which has maintained it ever since. As a house owner I am a shareholder in that company.		
				I strongly object to your proposals.		

SHIRLEY OAKS VILLAGE-  
I refer to the proposed changes to the planning policies to allow Croydon Council to build new homes on the Amenity Open Land at the above. The Amenity Open Land was granted in part, due to the extremely small rear gardens. Also I and other people in the village for many years here contributed to its up keep at no cost to Croydon Council. To lose this land will greatly impact on the peaceful enjoyment that I and my neighbours have in using this land as well as the general impact on the area of high density building, changing the character of our village forever.  
No doubt this development will result in many trees and flowers being sacrificed which help to sustain the urban wildlife such as various birds, bats, foxes, badgers and bees etc. There seems to be little consideration for this urban oasis!  
Whilst I understand central government's drive for more houses, I find it hard to believe that Croydon Council needs this land in order to fulfil its housing quota, given the Westfield and other developments proposed in Croydon. There are also other lands, such as those owned by the local NHS hospital that would be suitable for development and at the same time give ready money to the NHS.  
Furthermore, the existing main roads are already inadequate to service the village without adding a further 751 homes along with the years of road works that will be associated with upgrading the utilities, make travelling through the village more difficult and dangerous.  
I urge you to reconsider your plans

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.

3546/01/005/DM43.4/O	Mr Mark Hawkins	Object	DM43.4 504	<p>Kindly note that as a homeowner (and shareholder) of Shirley Oaks Village, resident here for over 25 years, I am deeply concerned that Croydon Council seems to think it has the right to change the nature of the estate from being protected Metropolitan land to being unprotected land ripe for excessive building.</p> <p>Not only is the green space around the current estate, a much loved feature, it also provides a sanctuary for wildlife and allows for nice walks for local people. The road was built to be narrow and already there are problems with passing places for traffic to the hospital and synagogue. Last year the council allowed a resident to build a fence which obstructs drivers vision when turning out of Cornflower Lane and has caused several minor incidents. Simply put, the roads here were not built for traffic!</p> <p>The idea of ruining my neighbourhood by cramming more housing onto unsuitable roads, lacking shops and facilities whilst depriving me of the green spaces I love and part own makes me sick to my stomach.</p> <p>There are so many brownfield sites that could be built on and provide more suitable housing in and around Croydon that I feel that this attack on Shirley is politically motivated. 3568/01/005/DM43.4/O	Mr Mike Jones	Object		DM43.4 504	The de-designation of the Metropolitan Open Land around Shirley Oaks Village in particular such as the use of the following for housing:-  land at Poppy Lane Stroud Green Pumping Station, 140 Primrose Lane land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House land to the west of Shirley Oaks Road land to the rear of 5-13 Honeysuckle Gardens Building housing on them would mean the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of this part of Shirley. There is a lot of history around here and the loss of the Shirley Lodge in the late 1990s was a big mistake. Generally in Croydon there is no room for more traffic that new building will generate and judging from what I have seen around Croydon squeezed housing units with small garages not fit to store cars and little or no off street parking will only add to stress and problems in the future.		No change	The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. 3574/01/008/DM43.4/O	Mr Peter Newsham	Object		DM43.4 504	I wish to register my objection in the strongest possible terms to the proposal for new housing, (ref. 504), in these areas of Metropolitan Open Land, which is essential for recreational purposes in an already overcrowded place, is unacceptable and the proposed re-designation of the land so that it can be used for high-density urban development will find no local support, but instead, a huge and vocal opposition.	No change	The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances.
3591/01/005/DM43.4/O	Mr Nick Barnes	Object	Soundness - Justified	DM43.4 504	Having read both local plans for the Shirley area, I strongly object to all aspects in both plans, this includes the 750 new homes on Shirley Oaks Village, 35 new homes in Shrublands, the two gypsy sites at Combe Fram and Conduit Nursery and the development for up the four storeys along Wickham Raod.  None of these plans will benefit Shirley and I object to them all. 3593/01/005/DM43.4/O	Mrs Margaret Hawkins	Object		DM43.4 504	Ref. 504 – Land at Stroud Green Pumping Station Development of this site as housing would be problematic and expensive. Is there any evidence that it will ever not be needed by Thames Water? It has also been referred to in your document “Assessment and Selection of Sites for Gypsies and Traveller” as suitable for a traveller site (page 15, ref 504). Use of it as a traveller site would be wholly inappropriate and inconsistent with preserving the locally listed status of the building. 3713/01/002/DM43.4/O	Ms J Stokes	Object	DM43.4 504	I object to the proposals to completely change Shirley Oaks Road which is a green lung for that part of the Borough. The amount of car ownership will rise significantly as the bus service is infrequent. The traffic will clog up the Wickham Road even more than now., St. John's school has already plans for more classrooms and the intake will rise in all the local schools. Also pulling down established houses and putting up more flats is detrimental to the character of the area. We had a once in a lifetime chance to improve the look of Croydon, on a human scale. Instead of which we are building hideous tower blocks, while in other parts of the country they are pulling them down. Nobody should have to raise a family in a block 44 stories high. I am also concerned that up you consider there is space for up to to 751 houses in the Shirley Oaks Road area. References 128. 504 541 542 548. This would lead to the elimination of green space in that area and therefore I think at least 3 of these areas should be Local Green Spaces if not Metropolitan open land.

We have lived in the Borough of Croydon for 30 years and value its vibrancy and diversity.

As Croydon ratepayers we object to the de-designation of Metropolitan Open Land generally, especially land detailed above, which will change forever Croydon's character.

We would ask you to encourage policies/development to:

1. Build new housing on brown field sites by all means AND preserve invaluable green space for the benefit of the community of Croydon; 2. Protect green belt land and preserve the green corridors we desperately vital for wildlife and biodiversity; 3. Amend the tall buildings policy and keep the tall building zone where it is suited in the centre of town; 4. Utilise brownfield sites for new low-level housing only where it can be developed alongside new GP surgeries, schools and improved public transport; 5. Traveller sites are not appropriate in the green belt and is a clear breach Policy E of Planning Policy for Traveller Sites. When travellers camped on Addington Playing Fields in 2012/13 they left rubbish, debris, waste, and deterioration to a local green space. Sadly true of most traveller sites.

"Nowadays people know the price of everything and the value of nothing". Green Belt is vital and precious. Once lost for future generations and will not be replaced by developers.

We understand the need for housing, schools, hospitals and infrastructure. Are the Developers investing these also alongside their building investments?

Please protect our few remaining green spaces on the borough map, by making better use of brown field sites.

I am writing this email to voice my deep concern about the planned development in the private estate that I have lived in for many years , namely:

•Ref 541, Ref 542, Ref 548, Ref 128 and Ref 504 – all on Shirley Oaks Village private estate.

Firstly, it would have been nice to be informed about any planning ideas in writing rather than see small notices pinned to lamp post around the estate. I would also like to draw your attention that our land was designated by Croydon Council in 1985 as 'Amenity Open Land' for the residents and for which we pay a quarterly fee for maintenance of the green open land, but more importantly can I bring to your notice that this land was transferred to the Shirley Oaks Management Company, with each property owner as a shareholder in that company. This land is for our use and not for developing a concrete jungle on every single green inch of land in Croydon.

The Shirley Oaks estate has a great community spirit and has become a real sought after location for families to live due to the community nature and the lovely open land that we have, by developing on this land you will be taking away all of the good that has been built up over the years by the many residents we have as well as making the village overcrowded, bringing in more traffic thus resulting in more danger on the main Primrose Lane for people crossing and driving, congestion for parking and so on. I can also bring to your attention that we have already had a couple of fatalities on that main road that runs through the village and this will make it worse for the safety of our kids.

I am sure you have now had many hundreds of emails from residents like myself voicing the same concerns with your planning proposals!

This land belongs to us as residents so I feel its harsh to take this away and start your own developments.

I write to you with my objections to the proposed Croydon Local Plan, specifically on the points below.

- the land at Poppy Lane is identified as suitable for 51 to 107 homes (pages 445-446, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 128);
- Stroud Green Pumping Station, 140 Primrose Lane, including the conversion of the locally-listed pumping station, is identified as suitable for 26 to 68 homes (pages 451-452, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 504);
- land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House is identified as suitable for 80-215 homes (pages 453-454, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 541);
- land to the west of Shirley Oaks Road is identified as suitable for 88-236 homes (pages 455-456, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 542); and
- land to the rear of 5-13 Honeysuckle Gardens is identified as suitable for 59-125 homes (pages 457-458, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 548).

I object to the decision to de-designate this land as Metropolitan Open Land (MOL). If the Council won't keep it as MOL, it should at least designate it as Local Green Space so that it has some protection. I also be object to any of these five sites being used for residential development. Not only would this entail the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of the area, the local road infrastructure couldn't cope with the additional traffic.

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.

The land has been set aside for our use as we have very undersized gardens on the estate and we have also paid to keep those areas in a well maintained condition. 3885/01/003/DM43.4/O	Mrs Barbara Cumming	Object	DM43.4 504	I object to the planned site being used for residential development in Shirley, Croydon: - Stroud Green Pumping Station, 140 Primrose Lane, including the conversion of the locally listed pumping station, is identified as suitable for 26 to 68 homes. Not only would this entail the loss of a vital green corridor between Shirely Oaks and the surrounding areas, changing the character of the area, the local road infrastructure will not be able to cope with the additional traffic.  Whilst I agree that we desperately need new housing, it should be built on brownfield sites - not our remaining precious green spaces!	No change	The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.

3892/01/002/DM43.4/O	Ms M Bailey	Object	DM43.4 504	The Metropolitan Open Land on either side of Shirley Oaks and all around Shirley Oaks Village should not be de-designated, but designated as Local Green space. It is very important that Croydon needs green spaces as these give the feeling of openness and a pleasant environment in which to live. Upwards of approximately 700 hundred odd homes could be built in this area which will lead to possible flooding of areas as rain water will not be able to drain away as easily as it would if it was left as a green belt area. Secondly the local road infrastructure would not be able to cope with the additional traffic stemming from these additional homes, and this includes public transport. Thirdly are the NHS facilities in the area able to cope with this large influx?	No change	The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances.

3895/01/002/DM43.4/O	Mr & Mrs Asfahani	Object	Soundness - Justified	DM43.4 504	Every year we get proposals and consultations for building more homes or structures on Shirley Oaks green land. But must admit the above proposal is the worst and the most ridiculous so far. From what we read, the proposal suggests to build around 750 new homes on what's left of green patches in the village.	No change	The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.
					The village is already over crowded with Shirley Oaks road and Primrose road looking like a huge PARKING LOT throughout the day. One cannot begin to imagine what it would like with more residents and obviously with at least double the number of cars to that of the number of the new homes proposed.		
					We bought our property back in 1989, paying above market value at the time, for the sole purpose that the village is quiet and has some green land. Our home was one of the last phases of any buildings to be erected in the village, or so we were promised and confirmed in writing. Since then, a synagogue was built, bus 367 goes through the narrow winding road, every year for the last few years we get proposals to use our green land for one suggestion or another and now this proposal.		
					We completely oppose this proposal and hope that the council will appreciate that it's not all about the money and just building more houses, but quality of life matters just the same. On one hand the government and councils encourage and push people to plant more trees, grow their veg, recycle etc... Yet on the other hand come up with proposals to use every last green patch to build more structures and homes.. Doesn't make any sense.

				I am a resident of Shirley and strongly object to the current proposals to build on green belt land on the Shirley Oaks and surrounding areas.		
				There are plenty of brown sites that are unoccupied and could fulfill the purpose of providing new homes. Shirley is already tight for school places. St John's, in Spring Park Road, is increasing to 2 form entry already with the number of children living locally requiring education. The 367 bus serving the Shirley Oaks Village is infrequent and much more transport will be required. Parking is already a nightmare and with the lack of parking contemplated with the new build supply the problem will only get worse. There will be an incredible build up of traffic on the already congested Wickham Road and other local roads.		
				I believe this proposed building of traveller's sites and homes will change the whole ethos of Shirley and cause resentment and the lowering of living standards. This is a particular area of standard housing and should not be changed by the building of blocks of houses. Garden land should not be built on and this is an inappropriate development and should not be allowed to go ahead. Metropolitan Open Land has the same protection as the Green Belt and the rules should be followed accordingly..		
3954/01/006/DM43.4/O	Mrs L McLoughlin	Object	DM43.4 504	Having lived on Shirley Oaks for almost 30 years, I strongly feel that any changes to the current planning policies would have serious and negative consequences for the current residents. Not only would properties lose significant value, the estate would also lose its 'village-like' feel that lead us to move there in the first place. We were also told at the time of purchase that Shirley Oaks would always remain as metropolitan open land, and this also heavily influenced our purchase. To add to this, there is also the issue of increased traffic through the estate. There was a fatal accident only a couple of years ago by the bend of Poppy Lane and I feel that with the prospect of even more houses being added to the estate there will be a significantly higher risk of further accidents	No change	The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. 3968/01/002/DM43.4/O	Ms M D Chandler	Object	DM43.4 504	<p>I object on the grounds of appalling over crowding, your plan would bring at least 2000 more vehicles onto the estate. It is already nearly impossibly to get in and out of the estate by car at rush hours. The roads on the estate can barely cope as it is with the bus route. Theextra vehicles would include many commercial vans which would be parked over night and weekends causing havoc on the narrow roads of the estate. A single bus route as at present running every 20mins.causes problems how do you intend to increase public services more bus routes and more frequent timetables....more chaos! I along with others pay to maintain and the open space as a share holder. Your proposal would seriously devalue our properties and I for one will be seeking serious compensation for this, I trust Croydon has very big capital reserves to meet our legal challenges and compensation. Our gardens are small this is why the land has been designated open land so we have some open space in common with the surrounding houses. Your plans are ill conceived and will effektivly destroy Croydon further. There are large areas of open land in Addington which Croydon could use and I presume already own without spending our money attempting to purchase land which will be extremely costly to Croydon in terms of the compensation that you will need to pay out and in the legal fees entailed.</p>	No change	<p>The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances.</p>

3970/01/002/DM43.4/O	Mr N Oratis	Object	DM43.4 504	<p>I object to the decision to de-designate this land as metropolitan open land for the use of residential development for the following reasons. These areas are also being used every day and regularly by myself, family members, neighbours friends and many visitors wanting to take there dog for a walk or spending time with family and kids. Ref 548, 542, 541, and 128 are owned by Shirley oaks management. 488 residents are shareholders in this company. There was a decision in 1985 for this land to be open for use by the local residents because the gardens of all homes were considered small. I would also like to mention the increase in road traffic and pollution due to the development. So for those reasons I would once again like to object to building on this land.</p>	No change	<p>The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances.</p>

These changes, if implemented, will change the very nature of our village. It will not only deprive the residents of very essential open green areas, but it will make the whole place very crowded, much more polluted and quite uglier. This would rob us of essential attractions that made us come to this village in the first place.</p> <p>I strongly object to any of these changes and trust that every resident on this estate feels the way I feel. I did not speak to everyone, but the many I spoke with feel as strongly as I do towards this unfair proposal.</p> <p>I have been living in this village with my family since 1985, I would like to see the Croydon Council improve it rather than ruin it. I hope the Council will reconsider its plans.</p>	No change	<p>The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.</p>

I am grateful to the Council for consulting on the detailed policies and proposals that will make up the Croydon Local Plan. There is much in the document that I agree with, but some of the proposals would, in my opinion, change the character of parts of Croydon very much for the worse. I hope you will forgive me if I focus on these areas of contention. I am therefore writing to formally object to:

1. de-designation of the Metropolitan Open Land around Shirley Oaks Village;

2. the use of the following five sites for housing:

- land at Poppy Lane reference number 128;

- Stroud Green Pumping Station, 140 Primrose Lane reference number 504;

- land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House reference number 541;

- land to the west of Shirley Oaks Road reference number 542; and

- land to the rear of 5-13 Honeysuckle Gardens reference number 548.

If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces. Building housing on them would mean the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of this part of Shirley. As far as I can see, these are the only bits of Metropolitan Open Land in the whole borough which the Council is proposing to de-designate and allow housing to be built on. Why has Shirley Oaks been singled out in this way?

3. the use of the following locations as gypsy/traveller sites:

- Coombe Farm off Oaks Road reference number 502;

- Coombe Lodge Nurseries off Conduit Lane reference number 661; and

- Pear Tree Farm and Pear Tree Farm Cottage on Featherbed Lane reference number 755;

As the Council acknowledges, all three of these sites are in the Green Belt and one of them borders a Site

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.

of Nature Conservation Interest.  
Policy E of Planning Policy for  
Traveller Sites, published by the  
Government in August, says very  
clearly:

“Traveller sites (temporary or  
permanent) in the Green Belt are  
inappropriate development”.

The Council's approach is clearly in  
breach of that policy. All three sites  
are also some distance from public  
services and they are all in the same  
part of the borough (two are in  
Heathfield ward, one just over the  
border in Croham). Why has  
Heathfield been singled out in this  
way? If the Council really needs, as  
it claims, to quadruple the number of  
gypsy/traveller sites in the borough -  
which I would question - they should  
look elsewhere (for example, off the  
Purley Way where the existing site is);

4.focussed intensification associated  
with gradual change of an area's  
local character under Policy DM31.4  
of the Shirley Road Shopping  
Parade, Shirley local centre and  
Forestdale. Shirley Road Shopping  
Parade is surely worthy of protecting  
rather than replacing with medium-  
rise blocks? Shirley local centre is  
defined not just as a stretch of the  
Wickham Road (where some  
intensification may be appropriate)  
but Ridgemount Avenue, Wickham  
Avenue, Peregrine Gardens, West  
Way Gardens, the northern section of  
Hartland Way and the western parts  
of Bennetts Way and Devonshire  
Way. Replacing the largely semi-  
detached buildings in these  
residential roads with medium-rise  
blocks would completely change the  
character of Shirley. Replacing the  
largely terraced housing and small  
blocks of flats in Forestdale with  
medium-sized blocks would  
completely change that area too;

5.Policy DM2 on development on  
garden land, which is too subjective  
and therefore too weak. There  
should be a much stronger  
presumption against development on  
garden land; and

6.Policy DM28, which should allow  
higher levels of parking in  
developments of low public transport  
accessibility. Restricting parking  
spaces in such areas doesn't lead to  
fewer people owning their own car; it  
just leads to greater competition for  
existing spaces.

Wickham Road already gets gridlocked at rush hours and school start/end times. The roads into Shirley Oaks are already too narrow for cars to pass if there are any cars parked, which there are always many of since the majority of driveways are too short to accommodate reasonable size car parking for many.</p> <p>Shirley Road also has a problem with queuing traffic towards Long Lane which will also be compounded by these proposals.</p> <p>These developments would increase the drainage issues this area suffers from. The whole area is built on London clay and regularly these areas suffer standing water which has gone through our property in the past. Increasing the density of building in Shirley Oaks will increase this problem too.</p> <p>The lands around Shirley Oaks remain because of the compact nature of the village, whose properties, as well as our own, have small garden areas and as such these areas are used daily for sports activities, exercise and dog walking.</p>	No change	<p>The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. 4145/01/003/DM43.4/O	Mr & Mrs Andrews	Object	Soundness - Justified	DM43.4 504	<p>I am grateful to the Council for consulting on the detailed policies and proposals that will make up the Croydon Local Plan. There is much in the document that I agree with, but some of the proposals would, in my opinion, change the character of parts of Croydon very much for the worse. I hope you will forgive me if I focus on these areas of contention. I am therefore writing to formally object to:</p> <p>2. the use of the following five sites for housing:</p> <ul style="list-style-type: none"> <li>• land at Poppy Lane reference number 128;</li> <li>• Stroud Green Pumping Station, 140 Primrose Lane reference number 504;</li> <li>• land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House reference number 541;</li> <li>• land to the west of Shirley Oaks Road reference number 542; and</li> <li>• land to the rear of 5-13 Honeysuckle Gardens reference number 548.</li> </ul>	<p>If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces. Building housing on them would mean the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of this part of Shirley. As far as I can see, these are the only bits of Metropolitan Open Land in the whole borough which the Council is proposing to de-designate and allow housing to be built on. Why has Shirley Oaks been singled out in this way?</p>	No change	<p>The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.</p>
4146/01/003/DM43.4/O	Mr & Mrs Carpenter	Object		DM43.4 504	<p>These proposals to build up to 750 homes on land (assuming it is de-designated) will mean the loss of vital open spaces and will place burdens on local transport, roads, schools and medical facilities which are already under pressure.</p>		No change	<p>The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances.</p>

We are writing to object to the proposals to:

1. de-designate the Metropolitan Open Land around Shirley Oaks Village.
2. the use of the following sites for housing:
  - land at Poppy Lane reference number 128;
  - Stroud Green Pumping Station, 140 Primrose Lane reference number 504;
  - land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House reference number 541;
  - land to the West of Shirley Oaks Road reference number 542;
  - land to the rear of 5-13 Honeysuckle Gardens reference number 548;

The Shirley Oaks Village site currently provides a balance of high density housing offset by areas of green space. The proposals for de-designation of the Metropolitan Open Land and additional housing on the areas of green space would disrupt that balance and greatly increase the density of housing to an unacceptable level. Access to the Shirley Oaks site is by way of Poppy Lane and Shirley Oaks Road which feed into Shirley Road and Wickham Road respectively. Both Shirley Road and Wickham Road are used heavily throughout the day and subject of long delays particularly at peak times. This has resulted in Poppy Lane and Shirley Oaks Road experiencing heavier traffic flows than they were designed for as commuters cut through between Shirley Road and Wickham Road.

Public transport within the Shirley Oaks site is limited to a small single decker bus due to the road infrastructure and road system. Whilst there are bus services which serve Shirley Road and Wickham Road these are already oversubscribed and subject to delay due to existing traffic congestion.

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.

4174/01/002/DM43.4/O	Mr B Williams	Object	DM43.4 504	<p>I object to the de-designation of the land as Metropolitan Open Land and its proposed use for housing. The open spaces are collectively designated as Metropolitan Open Land and provide several links in the Shirley Green Chain. They help to form the sort of network necessary to ensure the maintenance of the current range and diversity of our flora and fauna. In addition this is a floodplain. There is a sink pond to the rear of Honeysuckle Gardens and if this overflows any properties would be flooded. There is also the potential for flooding of future planned properties. The one road through Shirley Oaks Village could not cope with the additional traffic and its exit on to the A232 would cause yet another bottleneck on this already congested road.</p>	No change	<p>The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. 3 Proposed Policy DM43 De-designation of Metropolitan Open Land around Shirley Oaks Road

I object to the de-designation of Metropolitan Open Land in the vicinity of Shirley Oaks Road and Shirley Oaks Village. The land should be at least be designated as Local Green Space, for its protection from development.

This open space provides a green corridor between Shirley Oaks and the surrounding areas, and should be retained in its present form.

I also object to the following specific proposals for the building of new homes on this site, as detailed in Changes to the Policies Map arising from Proposals contained within the the Croydon Local Plan; Strategic Policies Partial Review and the Croydon Local Plan, Detailed Policies & Proposals:

- Policy DM43, reference 128 to build new homes at Poppy Lane
- Policy DM43, reference 504 to build new homes at Stroud Green
- Pumping Station (including the conversion of the pumping station which is a locally-listed building)
- Policy DM43, reference 542 to build new homes on land to the west of Shirley Oaks Road
- Policy DM43, reference 548 to build new homes on land to the rear of Honeysuckle Gardens

Not only would these developments entail the loss of the green corridor between Shirley Oaks and the surrounding areas, the local road infrastructure would not be able to cope with the additional traffic. Also, the already-stretched social and healthcare facilities would be overloaded.

Not only would these developments entail the loss of the green corridor between Shirley Oaks and the surrounding areas, the local road infrastructure would not be able to cope with the additional traffic. Also, the already-stretched social and healthcare facilities would be overloaded

For the reasons given above:

1. I do not think that the preferred approach is the most appropriate for Croydon to help us meet our Strategic Objectives set out in Section 3.
2. The preferred approach is deliverable, but not acceptable.
3. I do not think the preferred approach enables sustainable development, because it will compromise the ability of future generations to meet their own needs.
4. I recommend that consultation documents of such importance are given much wider publicity.

I object to the use of the following five sites for housing - land at Poppy Lane reference number 128; Stroud Green Pumping Station, 140 Primrose Lane reference number 504; land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House reference number 541; land to the west of Shirley Oaks Road reference number 542; and land to the rear of 5-13 Honeysuckle Gardens reference number 548; If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces. The Council should focus on developing other land in the Croydon borough such as unused office blocks, derelict corporate buildings/factories/warehouses which have not been occupied for years instead of attacking the green areas which are enjoyed by the residents in their respective areas. The proposals to build circa 700 houses in such a small area will cause the following detrimental effects to the local residents: depreciation of the value of the houses purchased in the relevant areas, too much strain on the water and sewerage systems in the locality where there is already a high water table. This could result in undue flooding and drainage problems, structural problems in years to come as the land is not fit for such intensive building, increase in traffic on Shirley Road, Wickham Road, Lower Addiscombe and Addiscombe which is already congested. This will unduly increase pollution levels which are already toxic. This will undoubtedly cause an increase in the health problems of the people in the locality such as lung cancer and other respiratory illnesses which will in turn place greater stress on the NHS services, cause more people to take sick days which will result in lower incomes obtained and eventually less tax revenue generated. This will have a knock on effect on the economy which is to say at the very least, bleak, the three green spaces in the Shirley Oaks Village are owned by the 488 Freeholders. Each Freeholder owns one share in the nominee company, Shirley Oaks Management Limited which owns the land on behalf of its shareholders. Building upon this land would seriously undermine the value of the land purchased by the Freeholders and reduce quality of life. If the residents wanted to move, it would prove near impossible because of the resulting lower sale prices of their respective houses imposed by the Council's building plans. This would appear to be unfair

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.

for the Council to impose such hardship on the residents. I would urge the council to build upon land in the Croydon borough which is derelict and contains buildings which have not been used for years. These buildings can be knocked down to build the much needed housing for generations to come. These unused or derelict buildings serve no purpose to the local residents and are of no value to the residents. The Council should endeavour to create value where it is needed. This will in turn improve the condition of the abandoned areas. This will also prevent squatting and other unlawful uses of such buildings. I witnessed one example last year where the old post office building next to East Croydon Station was used as a rave containing over 1,000 people. This posed a risk to the safety of the passers by and the increase in crime. The Council's redevelopment of such spaces could be highly beneficial to the area. The green spaces are however of great importance to the local residents. The residents enjoy these spaces for walking their dogs, recreational and outdoor activities, space for children to play, piece of mind for the resident who works in the city and comes home to a peaceful environment and it provides space for those residents who already have very small back gardens.

7284/01/006/DM43.4/O	Dr I Jayamanne	Object	Soundness - Justified	DM43.4 504	I wish to protest vehemently about your plans to destroy Shirley which is a village by building hundred of homes and setting up a Gypsy and Traveller site. You will destroy the Green Belt and increase the traffic in the area thus polluting the environment and the air we breathe.	No change	The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.

The use of the following five sites for housing:  
Land at Poppy Lane (ref number 128)  
Stroud Green Pumping Station, 140 Primrose Lane (ref number 504)  
Land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House (ref number 541)  
Land to the west of Shirley Oaks Road (ref number 542) and land to the rear of 5-13 Honeysuckle Gardens (ref number 548)  
When the London Borough of Lambeth closed the children's home, known as Shirley Oaks, Croydon Council determined to keep the building redevelopment of the site broadly in line with the building density that had existed for most of the previous hundred years and subsequent applications by the then developer for increased housing density were rejected. There were a number of reasons for maintaining the original policy amongst which were the need to maintain the established green corridor, retain the character of the area and to maintain the surrounding traffic volumes at a manageable level. The decision to designate the land as Metropolitan Open Land was to ensure that in future further building on the land could not take place thus re-affirming the principles established by the original policy decisions. Nothing has changed in the ensuing years to justify any variation to that policy.

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.

I am dismayed at the consideration being given to the above, particularly concerning that proposed in the Shirley area.  
I have been a Shirley resident for almost 30 years and to date have enjoyed what the area does offer both for the community and with regard to open green spaces, which are precious to the health and wellbeing of all ages. Why should future generations be unable to continue to benefit from an outdoor environment as hitherto?  
I strongly object to de-designation of the current Metropolitan Open Land and would hope that at least it could be protected as Local Green Space with regard to future development. This is particularly pertinent with regard to the proposals being considered for the Shirley Oaks area. The present road infrastructure through the estate leaves a lot to be desired and any more traffic will be a great cause for concern, to say nothing of the loss of wildlife and spacious living. If we had wanted to live in a highly densely populated area, we would not have chosen the Shirley area to relocate into, rather the centre of the town. The redevelopment of brownfield sites is more acceptable and there must be many of these in the Croydon area to develop without encroaching on valued green spaces.

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.

Object Soundness - DM43.4  
Justified 504

I wish to formally object to:  
 1. All the proposed policies relation to the re-designation of land to allow building development at Shirley Oaks Road and land around Shirley Oaks Village.  
 2. The land at Poppy Lane (reference 128)  
 3. Stroud Green Pumping Station, 140 Primrose Lane including the conversion of the locally listed pumping station (reference 504)  
 4. Land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House (reference 541).  
 5. Land to the West of Shirley Oaks Road (reference 542)  
 6. Land to the rear of 5-13 Honeysuckle Gardens (reference 548)  
 These proposals are NOT appropriate for Croydon to meet its Strategic Objectives.  
 Additionally the proposals are NOT DEUVERABLE or SUSTAINABLE as:  
 • Croydon have already announced that it is not necessary to deliberately destroy MOL to reach their housing requirements.  
 • National and London Plans do NOT require or expect Local Authorities to degrade MOL to generate additional housing.  
 • The loss of this MOL will entail the LOSS of a vital green corridor between Shirley Oaks through to Ashburton Playing fields, across to South Norwood Park and surrounding Areas.  
 • The above areas are vital to sustain the drainage of surrounding flood areas.  
 • The above mentioned areas are referred to the "lungs of Croydon" as they sustain carbon dioxide capture (photosynthesis), oxygen release (photosynthesis) and biodiversity. Local wildlife includes badgers and bats.  
 • Green areas increase the character, desirability and amenity of residential areas.  
 Green areas have a strong positive impact of the character of surrounding residential areas.  
 • The proposed increase in housing will put an additional burden on public transport, roadways and street parking and other services. The additional volume of traffic will create additional road hazards.

7320/01/004/DM43.4/O	Mr Steve Westray	Object	DM43.4 504	The de-designation of Metropolitan Open Land around Shirley Oaks Village and either side of Shirley Oaks Road. At present I understand that Metropolitan Open Land has the same protection as the Green Belt and I believe that it is vitally important to retain the controls around our green spaces in Shirley. If any additional homes were to be considered for this area then they should be restricted in number and carefully planned in order to retain the character of this area. The idea of building up to 750 new homes is totally out of keeping with this objective and would be considerable strain on local infrastructure and resources. New housing on this scale would lead to a significant increase in traffic along the Wickham Road which is already extremely busy not only servicing the residents of Shirley but as an important thoroughfare into Croydon. Re your development plans  
541,542,548,128 and 504.  
Consultation.

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

I am writing in response to your notices for development of the greenfield sites on the Shirley Oaks Village estate, changing the status of this land to allow development of around 700 new homes.

When I bought my house here 18 years ago, it was on the understanding that this had been designated by Croydon Council as metropolitan amenity open land, an attractive feature of the original development, important not least due to the relatively small gardens of some properties, a mixture of unit sizes in an harmonious design. Thus there is a mixture of family unit sizes and age groups at home here. For many years, I and my fellow-resident members of the Shirley Oaks Management Ltd company have contributed regularly to First Port Property Services and their predecessors under our common upkeep obligation, including provision of boundary posts at various points of these areas to ensure that visiting Travellers could not reoccupy them.

As I understand your plans, you now wish to "designate" this as non-metropolitan land, on which purchasers could build however suits their purposes. This does of course risk a complete change in the nature of our Village. I cannot pretend to understand how you can effectively cut a swathe through all of this, even if you do consider it justified. Some residents might I imagine now be considering the impact on their original investment and individual legal aspects. Against these general considerations, I would like to highlight some specific and practical concerns at the outset.

#### ROAD SAFETY

The perimeter road via Primrose Lane and Shirley Oaks Road is arguably no longer fit for purpose, increased car ownership and parking, fast through traffic including commercial and public transport all contributing. Buses on the 367 route for example frequently mount pavements to pass each other. There have been accidents, some serious, even fatal and involving elderly pedestrian residents. The road surface is nowadays subject to excessive heavy usage. Clearly, 700 new homes will surely accentuate these problems and dangers.

#### ENVIRONMENT

Your plans will effectively remove an important green-field area and with it much unique wildlife. Residents will lose many of the valuable areas for walking, exercise and fresh-air, as will visitors. Any balanced village appearance and community feel to the estate will be consumed by so many new properties of different designs.

In summary many will surely feel betrayed by a Council which proposes removing green-fields against all promises. Some might also suspect that, whatever the social arguments, their interests are being sacrificed against political and ultimately commercial imperatives.

1713/02/004/DM43.4/O	Alison Connor	Object	Soundness - Justified	DM43.4 541	<p>Once the area surrounding Shirley Oaks Village is re-designated the Council plans to build 751 homes on 5 separate sites.</p> <p>Supposing the average house is for 4 people, 3000 people in total will move to the area. The housing will attract families - potentially half being children. The Council mention no where in their 700 page document about the building of new schools (primary and secondary) nor the building of doctor surgeries, nor the expanding of the local shopping area let alone the already stretched local road infra structure. Our local area can't cope as it is - St John's primary school has applied for an extension to cope with the current demand on its places. During rush hour buses frequently don't stop at bus stops because they are full. Traffic is often diverted down our road, Shirley Church Road, if there is an accident on Wickham Road or Gravel Hill. The dual carriage way (Shirley Park) is crawling along during rush hour. The council are planning to add another 1000 plus cars to this equation. Shirley is often described according to estate agents as leafy, popular, excellent schools. Prices reflect this. Just walking around the area people look after their houses and take pride in living here. People pay more money to live in this area. By building 751 more homes the character of the area will change completely.</p>	Change	<p>As this site does not have a willing landowner it is unlikely that it would be developed. We are also writing to object to Croydon Council's plans to de-designate the Metropolitan Open Land on either side of Shirley Oaks Road and all around Shirley Oaks Village, changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan:

Your draft Local Plan identifies five sites:

1. the land at Poppy Lane is identified as suitable for 51 to 107 homes (pages 445-446, reference number 128);
2. Stroud Green Pumping Station, 140 Primrose Lane, including the conversion of the locally-listed pumping station, is identified as suitable for 26 to 68 homes (pages 451-452, reference number 504);
3. land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House is identified as suitable for 80-215 homes (pages 453-454, reference number 541);
4. land to the west of Shirley Oaks Road is identified as suitable for 88-236 homes (pages 455-456, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 542);
5. land to the rear of 5-13 Honeysuckle Gardens is identified as suitable for 59-125 homes (pages 457-458, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 548).

I am writing to object to:

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

1.THE DE-DESIGNATION of the following five pieces of land as Metropolitan Open Land around Shirley Oaks Village and their proposed use as housing:

Land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House reference number 541

There is only one narrow very winding road which runs through the village and this could not cope safely with any additional traffic. It is single file around bends as it is and the local road infrastructure would be over-burdened.

These open spaces are collectively designated as Metropolitan Open Land and it would be unacceptable to lose a link to this chain.

Additionally, this area is a flood plain and there is a sink pond to the rear of Honeysuckle Gardens. There would be a detrimental effect and potential flooding of existing and planned properties.

Three of these sites are owned by the residents of Shirley Oaks Village through the Shirley Oaks Management Company in which every freeholder has a share. The three land sites in question are:

- 1.Land to the east of Shirley Oaks Road reference number 541
- 2.Land to the west of Shirley Oaks Road reference number 542
- 3.Land to the rear of 5-13 Honeysuckle Gardens reference number 548

I am writing to voice my full-throated objections to the above proposals because of the irreparable damage it would do to the character of one of the leafier, more pleasant, parts of the borough. The council seeks de-designation of Metropolitan open land that, as a homeowner in Shirley Oaks Village, I own a share of, and it is protected by covenant. Such thoughtless destruction of our precious little green space (we were granted this Amenity Open Land in 1985 by the council due to our under-sized gardens) is obnoxious, ill-conceived and damaging to the value of our properties, as planning blight could linger for a decade. Myriad other neglected parts of the borough are far more appropriate for such massive development and would not stir up so much ire from the current residents, nor would they require the politically-expedient moving of goalposts regarding land use. Our village simply does not currently have the infrastructure nor the capacity to expand in order to cope with these proposals. There is barely enough parking space available in the village at present, so quite where up to 683 other families will park and seek recreation, I do not know. Quite how all the construction vehicles involved in such huge building works would access the proposed sites without further detriment to the quality of life of the residents is another issue I raise. We are served by one bus route that can only use small, single decker buses. The roads are too narrow for larger vehicles. How would this be overcome? Additionally, the fact that the council would seek to house the travelling community so close to the town centre, on land where in 2012 a group of them set up an illegal encampment and defecated in our woodland, beggars belief. If the council has an inexplicable legal obligation to designate land to travellers, then expand capacity at their existing sites in Beddington Lane and Featherbed Lane rather than dispersing them further across the borough into otherwise salubrious areas. I do hope that common sense prevails and that all five of the above proposals are quickly abandoned. I chose to live in this area precisely because it is not blighted by these hideous developments. I am sure that many other residents echo my sentiments.

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

also object to the following specific proposals for the building of new homes on this site, as detailed in Changes to the Policies Map arising from Proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan, Detailed Policies & Proposals:

Policy DM43, reference Site 541 & 542 to build new homes on land to the East & West of Shirley Oaks Road

Policy DM43, reference Site 548 to build new homes on land to the rear of Honeysuckle Gardens

Not only would these developments entail the loss of the green corridor between Shirley Oaks and the surrounding areas, the local road infrastructure would not be able to cope with the additional traffic. Also, the local schools are over-subscribed as well as the already-stretched social and healthcare facilities would be overloaded.

For the reasons given above:

1. I do not think that the preferred approach is the most appropriate for Croydon to help us meet our Strategic Objectives set out in Section 3.
2. The preferred approach is deliverable, but not acceptable.
3. I do not think the preferred approach enables sustainable development, because it will compromise the ability to meet the needs of future generations.
4. I recommend that consultation documents of such importance are given much wider publicity.

1872/01/003/DM43.4/O	Mr C Johnson	Object	DM43.4 541	<p>This land is owned by Shirley Oaks Management limited (SOML). This is the management company for the estate whose shareholders are the home owning residents. The land was transferred to SOML's ownership in 1985</p> <p>whilst the estate was under development. I believe that the developer had infringed planning regulations by reducing the sizes of the gardens included with the dwellings that it was building in order to increase the density of the housing beyond that which had been agreed with the local planning authority. The open land, which is currently being scrutinised as part of the Council's policy proposals review, was effectively, a penalty levied on the developer whereby an amount of green space was given over to SOML to own and manage as redress and compensation to the residents for skimping on the sizes of individual gardens. I am assured by a Director of SOML that the company has documentary proof of all of the above points. The residents pay a service charge that, inter alia, covers the cost of managing and maintaining these open spaces.</p> <p>SOML is bound by its covenants with the residents that this land shall be managed and maintained as communal open areas for the collective enjoyment and benefit of residents as long as the estate should be in existence. Thus, there is no scope on SOML's part for participating in any effort to develop these spaces and any attempt to develop them undermines the importance of those spaces in providing amenity open land, as previously ordered by the local Council.</p>	<p>the land is owned entirely on behalf of the resident shareholders by a resident run management company (SOML) which is bound to preserve that space and which also has a specific object in its Memorandum of Association requiring it to resist any attempt to enforce regulations or plans which impact negatively on the estate. The proposal to build new houses in Shirley Oaks Road does not fall within the Strategic Objectives because:-  
Objective 2: This development will not Foster an environment where existing enterprise can prosper, but will reduce enterprise  
Objective 4: This development will not reduce social, economic and environmental deprivation. It will not reduce unemployment, improve skills and education and improve environmental conditions, the development is not in keeping with the surrounding area.  
Objective 5: This development is not high quality and will not enhance the borough's natural environment but will reduce the natural environment by turning a green area into housing  
Objective 7: This development will reduce the area as a safe, healthy and cohesive community but making the area overcrowded with residential property  
Objective 10: This development will reduce the quality and accessibility of green space and nature.

If this development is undertaken it will not deliver the strategic objective.

This development will compromise the ability of future generations to meet their own needs. The development will change the outlook and community within the South Croydon area and future generation swill suffer because of this.

This proposed development of new housing in Shirley Oak Road is not within keeping of the current development within this area. Shirley comprises of large semi and detached houses with large green areas. This development is in no way in keeping with housing in the area.

Changing a green area to an area of residential housing will cause harm and reduce the outlook of the area and is not in keeping with the surrounding area

Building a travelers site will increase noise levels and ruin the character of the area and this development would overwhelm this green area.

Paragraph 64 of the National Planning Policy Framework states that permission should be refused for development of poor design that fails to take the opportunities available for improving the character and quality of an area and the way it functions.

This development would diminish the area of green fields and recreational

2071/01/042/DM43.4/O	Councillor Mario Creatura London Borough of Croydon	Object	Soundness - Justified	DM43.4 541	Site 541, Land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House, Shirley Oaks Road, is identified as suitable for 80-215 homes. This land should not be de-designated as Metropolitan Open Land as it is a vital green corridor between Shirley Oaks and the surrounding areas, providing much loved and well used amenity space. 2081/02/002/DM43.4/O	Stuart & Monique Woodrow	Object		DM43.4 541	We do accept that Croydon does need to provide new housing but this has to be on appropriate sites, i.e. previously developed land and not greenfield/metropolitan open land. 2096/01/005/DM43.4/O	Alfred Lancaster	Object		DM43.4 541	I and many residents in Shirley object to the following. 700 new homes to be built in Shirley oaks village with no provision for extra facilities like schools, doctors etc	Change	As this site does not have a willing landowner it is unlikely that it would be developed. 2128/02/003/DM43.4/O	Cllr Steve O'Connell AM	Object	DM43.4 541	I object to the de-designation of Metropolitan Open Land for the purpose of house building. My objection references MOL bearing the same protection from development as the Green Belt. If the Council will not agree to maintain the MOL status, designation as Local Green Space would lessen the negative impact on the local environment. This land should not be de-designated as Metropolitan Open Land as it is a vital green corridor between Shirley Oaks and the surrounding areas, providing much loved and well used amenity space. This would total change the character of the area and have a great impact on the local road infrastructure impacting Verdayne Avenue and Firsby Avenue. 2131/01/003/DM43.4/O	Ronald H. Street	Object	DM43.4 541	The planning permissions proposals below I object to ref 541 If the Council will not keep the land as MOL it should at least be designated as Local Green Spaces. I am particularly concerned about the effect of local roads that the suggested development will have as, when Heron Homes built the original development some years ago they were prevented by the local council from building the number of houses now proposed because of inadequate access roads onto the estate. Under present conditions the A232 Wickham Road is particularly subject to traffic delays especially in term time. Your proposed developments would also have a detrimental effect on our already crowded local schools and doctor's surgeries.	Change	As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.	

2135/03/002/DM43.4/O	Mrs Susan Lockyer	Object	DM43.4 541	This could not be developed in addition to 542. It would have to be one or the other. The land is privately owned. The local management company has worked hard to maintain the green area and retain areas suitable for wildlife. The privately owned land is used by the residents as the properties do not have private gardens. The road is already congested with private cars making the bus route difficult. I do not consider it deliverable therefore it will not meet the present needs, let alone future needs. It is unrealistic to expect the land to sustain a limitless growth in population on relatively small patches. Transport will reach gridlock, the more land that is covered over limits drainage. More pipes will be channelled underground to bring in services and take away waste. Changes to due to global warming etc will be exacerbated if the population continues to converge on small land masses rather than spreading over the planet. In addition to the physical problems we would be creating, social problems will occur with people living in closer proximity in congested space.	Change	As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

2185/01/003/DM43.4/O	Jonathan E Miller	Object	DM43.4 541	I object to ref 541-I am writing to you with regard to the recent changes in Planning policies by Croydon Council and their impact on the designation of grass areas in Shirley Oaks Village. These areas were formerly designated as Metropolitan Open Land and had protection from being built on. However my understanding is that these areas may now be changed to no Metropolitan Land thus allowing their use for future housing developments. As a resident of Shirley I would like to point out that our land was designated as 'Amenity Open Land' in 1985 by Croydon Council because of our undersized gardens and transferred to a Management Company, with each property owner as a shareholder of the Company. Whilst I fully accept the need for new housing in Croydon, in particular affordable housing for first time owners, it is clear the sheer scale of the proposed development and the resultant destruction of a precious greenfield site in Shirley Oaks Village that I object to. I would have no issue with a much smaller scale development of the village, as part of an overall plan for Croydon where new housing was primarily targeted toward development of brownfield sites under the council's jurisdiction. I urge you to consideration of my suggestions in the weeks ahead and look forward to receiving feedback in due course.	Change	As this site does not have a willing landowner it is unlikely that it would be developed. 2450/02/004/DM43.4/O	Mr & Mrs Jeffrey	Object	DM43.4 541	I will be objecting to the decision to de-designate this land as Metropolitan Open Land (MOL). If the Council won't keep it as MOL, it should at least designate it as Local Green Space so that it has some protection. I will also be objecting to any of these five sites being used for residential development. Not only would this entail the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of the area, the local road infrastructure couldn't cope with the additional traffic.	Change	As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.
2450/01/006/DM43.4/O	Mr & Mrs Jeffrey	Object	DM43.4 541	I thoroughly object to these proposals, the traffic has built up over time and I wouldn't even want to begin to imagine what Shirley Oakd would be like if another 600+ homes where to be built, that would be practically doubling the size of Shirley Oaks as it is at present.	Change	As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

We strongly object to Croydon Council's local planning proposals and plans for development to the site being used for residential development. We strongly object to the de-designation of the Metropolitan Open Land around Shirley Oaks Village. No more housing should be built on MO land and it is inappropriate for development since it would overstretch the local road infrastructure with the additional traffic. The road in and out of Shirley Oaks Village is very narrow and there is hardly enough room for the bus to get by. The increased volume of traffic and parked vehicles would be unmanageable bringing traffic in all directions to a complete standstill. We believe the council needs to rethink its proposals for the sites, but would hope that in any event, an overwhelming majority of homeowners living in the village will reject the council's proposals. Not only would the area be an eyesore, but the proposal to build a whopping 700 new homes is unrealistic as the open green spaces are very small. You would also be destroying the wildlife by cutting down our precious trees and removing the open green spaces. It was agreed, and we believe documented, that after the build of phase 5 on Shirley Oaks Village that no more houses would be built, and this was a deciding factor when individuals bought their properties on Shirley Oaks Village. If over 700 new homes are built, it would no longer be a village but instead an ugly built up housing estate, changing the character of the landscape completely. From our perspective, if the proposals were approved, we would have no choice but to move away from the area. It would be too upsetting to see our open green spaces developed to excess with over 700 new homes. I have no doubt that developing the land would also devalue the property prices in the future. We find the council's proposals ludicrous and unreasonable. It is imperative that we protect the precious remaining green spaces around Shirley Oaks Village. On that basis, we vigorously object to the council's proposal to develop the land.

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

2539/01/002/DM43.4/O	Lydia Benady	Object		DM43.4 541	We strongly object to the changes to designations of our grass areas. Not only would building be detrimental to our health and well being but also to the varied and protected wildlife that we have. There are plenty of rundown places in Croydon which should be regenerated and can be built on without impinging into our green spaces.	Change	As this site does not have a willing landowner it is unlikely that it would be developed. 2560/01/001/DM43.4/O	M.K White	Object	DM43.4 541	<p>I am writing in response to your notice for development of the greenfield sites on the Shirley Oaks Village estate to change the status of this land to allow development of 751 new homes. My husband and I bought our home in 1987 when the estate was being developed the overriding factor in our decision was the village nature of the development and the assurance that the surrounding green fields of the site would ultimately be transferred to a management company and each purchaser of a property would acquire a share in the company.</p> <p>It was agreed that through the management company the owners and occupiers would assume responsibility for the peripheral land and incidental open spaces. Subsequently it was arranged that every quarter a payment is made by each household for the maintenance of the grounds. Your proposed development will completely alter the pleasant aspect of the village and negate the intention of the original development. I fail to understand how you can possibly consider completely ignoring our rights as shareholders of this land.</p> <p>As you are aware, the village has only one through road and there are already problems with buses mounting the pavements and the volume of traffic using the road with the existing housing stock. An additional 751 houses would make the problem so much worse. We have already had one fatality and I understand a number of less serious accidents. Therefore, I strongly object to your proposed development plans.</p>	Change	As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

2565/01/005/DM43.4/O	Ms Karen Fletcher	Object	DM43.4 541	<p>We wish to register our objection to the proposals to change the policy map 43 in relation to Metropolitan Open Land at Shirley Oaks Village. Like many residents we purchased our home on the understanding that the MOL was owned by the residents themselves and would not be developed. It was a strong factor in our decision to purchase our house. The land itself was transferred to the management company by a transfer dating 30 July 1991 made between Heron Homes Limited and Shirley Oaks Management Limited. The third schedule to this transfer contains restrictive covenants and I have attached the relevant clauses. These clauses state that the land is to be used as open space so I do not understand how you can ignore this and grant planning permission to build houses. We understand the need for more housing but feel that this is not the way forward. It would be far better to look at the buildings/land owned by the London Borough of Croydon first to see which could be used as residential properties. The old Ashburton Library in Ashburton Park is such a building that could be redeveloped and used for housing and I am sure there are many more.</p>	Change	As this site does not have a willing landowner it is unlikely that it would be developed. DM43.4  
541

I am concerned about this proposal. When I bought my house in Angelica Gardens, Shirley Oaks Village, it was my understanding that I would also become a communal owner of the surrounding Amenity Open Land. This was guaranteed by each freeholder in Shirley Oaks owning a share of the Shirley Oaks Management Limited, which in turn owns and manages the Amenity Open Land.

Like many residents, I purchased my house partly due to the pleasant areas of green space available in my surroundings. I also think that the character of the current surrounding gives each property the value that it currently has.

I would also object to attempts by Croydon Council or other agencies to attempt to purchase the land from Shirley Oaks Management Limited in the future.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

2580/01/006/DM43.4/O	Mr Steven Hunt	Object	DM43.4	I am emailing to outline my objections to the planning notices in relation to the above reference numbers which concern land near to Shirley Oaks Road, Honeysuckle Gardens, Poppy Lane and Primrose Lane. 			541	<p>I object to these proposed developments for the following reasons:</p> <ol style="list-style-type: none"> <li>1. The move to unravel the protection of Metropolitan open land from significant housing developments is a disappointing and avoidable move by Croydon Council. This sets an unnecessary precedent. This land should be protected by its designation and the council has sufficient options elsewhere in the borough on land that has no such designation.</li> <li>2. Much of the land concerned was designated by Croydon Council in 1985 as "Amenity Open Land" because of the under-sized gardens of many of the Shirley Oaks property. I live with a young family on Shirley Oaks with a very small garden and object to the loss of this open land which is regularly used by young families and residents of the area who do not have large gardens or any gardens at all in some instances.</li> <li>3. Such proposals will unduly change the character and desirability of the local area which is defined by its open space. Shirley Oaks remains one of the few genuine peaceful residential areas within the borough and such thoughtless development will threaten this.</li> <li>4. The roads leading to Shirley Oaks are roads not given to significant volumes of traffic. Increasing the density of the population within the immediate area as substantially as you are proposing creates challenges for traffic and parking. The scale of the developments will exponentially increase the volume of traffic and create challenges for parking.</li> </ol>

The projected number of homes will impact dramatically not only on the existing residents and the open feel of the site, but essentially on the transport infrastructure. Wickham Road is a major route, prone to congestion at peak hours and any significant increase in road users will have a dramatic knock on effect not for residents and also for commuters in all directions. The Trinity roundabout is a major junction with many bus routes passing through, this would grind to even more of a halt. The potential number of proposed properties is unacceptably high. This is because of difficulties encountered in building the foundations of houses in some areas were immense and would have been very expensive. Underground water seems to be a problem. Object to site 541 as the site is undeliverable for the following:

lack of evidence to support de-designation as the report relies entirely on opinion uninformed by actual specifics of land use and forms an important of Shirleys green infrastructure

the land is used for recreation and its loss would be contrary to the Mayors Pan Policy 17.7 which highlights the positive aspects of MOL such as play areas for children and amenity areas for grandparents to play with their children, play areas for kids going home from school and also for others such as dogwalkers

the land should be retained as MOL as it meets the criteria set out by the London Plan

I am writing to object to:

The use of the following five sites for housing:

- Land at Poppy Lane reference number 128
- Stroud Green Pumping Station, 140 Primrose Lane reference number 504
- Land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House reference number 541
- Land to the west of Shirley Oaks Road reference number 542
- Land to the rear of 5-13 Honeysuckle Gardens reference number 548

If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces.

People buy property on Shirley Oaks Village because of the green open spaces, the peace and tranquillity, the beautiful old Oak Trees. You cannot suddenly take that away these surroundings; people have spent hard earned money to live on this Village. Residents also pay for maintaining these green open spaces. The service road will not take any more traffic; two buses can hardly pass, and indeed were not supposed to drive round the estate together because of the small service road. There is a hospital and ambulance station on the estate, and any increase in traffic will interfere with their services.

More houses mean more traffic on our already crowded roads. I no longer go into Croydon because of the journey times. How long would it be before the Council considered bringing in a congestion charge. When you build all these properties do you consider the local amenities and the effect that more people would have on these. Where are the school places for all of these children? Regarding doctors. Unless it is an emergency I have to wait at least a week for an appointment. This waiting time can only increase if there are more patients. **THE SHIRLEY GREEN CHAIN**  
The green open spaces of Shirley Oaks Village provide several links in the Shirley Green Chain. This chain starts at the South Norwood Country Park in the north and runs south through Ryland Fields, Long Lane Woods, Ashburton Playing Fields, the open spaces of Shirley Oaks Village, Trinity School playing fields, Shirley Park Golf Course and up to the Shirley Hills. From there the Green Chain continues through Heathfield, Bramley Bank Nature Reserve, Littleheath Woods and via Selsdon Park to Kings Wood at Hamsey Green. These open spaces are collectively designated as Metropolitan Open Land. It would be disastrous to lose a link in this chain.

**Planning Policy Guidance Note 9**  
This guidance stresses the importance of nature conservation, not only on nationally important sites, but also suggests that many urban sites for nature conservation have enhanced local importance as a consequence of the relative lack of wildlife sites in built up areas. Statutory and nonstatutory sites which provide wildlife corridors, links or stepping stones from one habitat site to another, all help to form a network necessary to endure the maintenance of the current range and diversity of our flora and fauna.

The Green Spaces in Shirley Oaks were designated as Metropolitan Open Land and today still meet the criteria for this protection. The sites (1) contain conservation and habitat interest of value at a metropolitan level and (2) forms part of the Shirley Green Chain. These are two of the criteria for Metropolitan Open Land. The Green Spaces in Shirley Oaks Village were designated as Metropolitan Open Land and today still meet the criteria for this protection.

The sites (1) contain conservation and habitat interest of value at a metropolitan level and (2) form part of the Shirley Green Chain. These are two of the criteria for Metropolitan Open Land.

These sites possibly have a section 52 agreement, and are part of ownerships shared by each of the Shirley Oaks Village residents.

Re-designation of MOL falls foul of

the London Plan.

Existing dwellings to be retained or demolished? If retained the Site Area should be adjusted to take account of the existing dwellings: The Lodge, Beech House & Ash House? On the East site And the Synagogue and the two house (can't read their names) on the West side.

Infrastructure not specified to support development.

Schools are oversubscribed; GP Surgeries oversubscribed

Road system could not cope with the increase in traffic during peak travel times

Area has high water table and is subject to flooding.

London Plan

POLICY 7.17 METROPOLITAN OPEN LAND  
Strategic

A The Mayor strongly supports the current extent of Metropolitan Open Land (MOL), its extension in appropriate circumstances and its protection from development having an adverse impact on the openness of MOL.

Planning decisions

B The strongest protection should be given to London's Metropolitan Open Land and inappropriate development refused, except in very special circumstances, giving the same level of protection as in the Green Belt.

Essential ancillary facilities for appropriate uses will only be acceptable where they maintain the openness of MOL.

LDF preparation

C Any alterations to the boundary of MOL should be undertaken by Boroughs through the LDF process, in consultation with the Mayor and adjoining authorities.

D To designate land as MOL

boroughs need to establish that the land meets at least one of the following criteria:

- a) it contributes to the physical structure of London by being clearly distinguishable from the built up area
- b) it includes open air facilities, especially for leisure, recreation, sport, the arts and cultural activities, which serve either the whole or significant parts of London
- c) it contains features or landscapes (historic, recreational, biodiversity) of either national or metropolitan valued it forms part of a Green Chain or a link in the network of green infrastructure and meets one of the above criteria.

The London Plan 7.56  
 The policy guidance of paragraphs 79-92 of the NPPF on Green Belts applies equally to Metropolitan Open Land (MOL). MOL has an important role to play as part of London's multifunctional green infrastructure and the Mayor is keen to see improvements in its overall quality and accessibility. Such improvements are likely to help human health, biodiversity and quality of life. Development that involves the loss of MOL in return for the creation of new open space elsewhere will not be considered appropriate. Appropriate development should be limited to small scale structures to support outdoor open space uses and minimise any adverse impact on the openness of MOL. Green chains are important to London's open space network, recreation and biodiversity. They consist of footpaths and the open spaces that they link, which are accessible to the public. The open spaces and links within a Green Chain should be designated as MOL due to their London-wide importance.

Object Soundness - DM43.4  
Justified 541

I object to the use of the following five sites for housing:  
•Land at Poppy Lane reference number 128;  
•Stroud Green Pumping Station, 140 Primrose Lane reference number 504;  
•Land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House reference number 541;  
•Land to the west of Shirley Oaks Road reference number 542; and  
•Land to the rear of 5-13 Honeysuckle Gardens reference number 548;  
If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

I write concerning Croydon Council's proposals contained in the consultation document of the Croydon Local Plan that includes the re-designation of Metropolitan Open Land in Shirley and specifically within the confines of Shirley Oaks. I consider these proposals and others listed above to be inappropriate as they would significantly change the character of the area in which I have lived all 61 years of my life and I wish to add my voice to those already expressing concerns and objections about these proposals.

I strongly object to the proposal to re-designate Metropolitan Open Land to facilitate the building of new homes on land in Shirley Oaks and the provision of temporary or permanent traveller/gypsy sites in areas that are acknowledged by the Council to be in the green belt at Coombe Farm and Coombe Lodge Nurseries in Conduit Lane.

These proposals are totally out of keeping with the character of the area which predominantly comprise owner-occupied semi and detached homes. Surely areas considered to be brownfield sites are more appropriate than the unacceptable use of Metropolitan Open Land?

The proposals affecting the area surrounding Shirley Library are also of concern as this would adversely change the character of the area and potentially result in the establishment of additional unsightly car- parking sites on the south side of Wickham Road, similar to that at the front of the Shirley Medical Centre at 370 Wickham Road.

The proposal to build new houses in Shirley Oaks Road does not fall within the Strategic Objectives because:-  
Objective 2: This development will not Foster an environment where existing enterprise can prosper, but will reduce enterprise  
Objective 4: This development will not reduce social, economic and environmental deprivation. It will not reduce unemployment, improve skills and education and improve environmental conditions, the development is not in keeping with the surrounding area.  
Objective 5: This development is not high quality and will not enhance the borough's natural environment but will reduce the natural environment by turning a green area into housing  
Objective 7: This development will reduce the area as a safe, healthy and cohesive community but making the area overcrowded with residential property  
Objective 10: This development will reduce the quality and accessibility of green space and nature.  
This proposed development of new housing in Shirley Oak Road is not within keeping of the current development within this area. Shirley comprises of large semi and detached houses with large green areas. This development is in no way in keeping with housing in the area. Changing a green area to an area of residential housing will cause harm and reduce the outlook of the area and is not in keeping with the surrounding area  
Building a travelers site will increase noise levels and ruin the character of the area and this development would overwhelm this green area.  
Paragraph 64 of the National Planning Policy Framework states that permission should be refused for development of poor design that fails to take the opportunities available for improving the character and quality of an area and the way it functions.  
This development would diminish the area of green fields and recreational land within the area.

this development will compromise the ability of future generations to meet their own needs. The development will change the outlook and community within the South Croydon area and future generation will suffer because of this.

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

The Council mention no where in their 700 page document about the building of new schools (primary and secondary) nor the building of doctor surgeries, nor the expanding of the local shopping area let alone the already stretched local road infrastructure. Our local area can't cope as it is - St John's primary school has applied for an extension to cope with the current demand on its places. During rush hour buses frequently don't stop at bus stops because they are full. Traffic is often diverted down our road, Shirley Church Road, if there is an accident on Wickham Road or Gravel Hill. The dual carriage way (Shirley Park) is crawling along during rush hour. The council are planning to add another 1000 plus cars to this equation. I have lived here all my life and have seen a steady influx of people, and a massive reduction in the green space in the area. The roads are already far too congested and the social infrastructure is already struggling to cope with the number of residents. There are many areas in the Croydon borough much more suited to such large scale development. I am thinking particularly of areas around Purley Way. There are also many brown field sites in the borough that could be put to more effective use as housing without affecting the green areas. I guess the council prefers to redevelop the green areas rather than the brown field areas due to cost. 3087/01/009/DM43.4/O	Mrs Halina Tutt	Object	DM43.4 541	This lovely part of Croydon seems to be the worst affected by the Council's proposals. Croydon Council plans to de-designate the Metropolitan Open Land on either side of Shirley Oaks Road and all around Shirley Oaks Village. Metropolitan Open Land has the same protection from development as the Green Belt. The Council are proposing to remove this designation so that most of this land can be used for new housing. I am objecting to the decision to de-designate this land as Metropolitan Open Land. I am writing to lodge my objection to some of the proposals contained in the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals.  
In particular:  
1. Shirley Oaks  
The proposal to re-designate the Metropolitan Open Land on Shirley Oaks Road and around Shirley Oaks Village so that it can be used for new housing (page 68, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals).  
My main objections are:  
This would result in the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of the area.  
The local road network could not cope with the additional traffic.  
Insufficient local infrastructure to cope with the increased population.  
Conclusion  
The proposals I have highlighted can only be viewed as negative. If adopted, they will increase the local population - and the density of that population - without providing any supporting infrastructure. The new residents from the planned apartment blocks and traveller sites will need additional public services such as schools, medical services and shops. Older residents will give way to young families who require greater social support, yet no additional resources are identified to help manage the changing demographic. Traffic congestion along already busy roads will increase, as will pollution and accident black-spots. The few remaining green spaces will disappear. Overall, the proposals signal a reduction in the quality of life for both the existing residents and the newcomer

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

3154/01/001/DM43.4/O	Mr Graeme Monk	Object		DM43.4 541	I have read some of the planning proposals for Croydon, and I fear that some would seem to be poorly thought through. Any development around the Shirley Road area would need major road development also, which, in a major residential area would be catastrophic. Shirley Road has serious traffic congestion in both directions from the Lower Addiscombe Road to the Wickham Road; Addiscombe Road has congestion in both directions from Croydon; the Lower Addiscombe is congested from Croydon & towards Beckenham. If you add the number of houses in the green areas which you are proposing, we will have total gridlock. To think that these new developments will not own cars is living in a dream world. Buses will be in no better position to get through as there is no space for bus lanes. There are more suitable areas in Croydon for necessary housing which will cause less chaos for current residents, and a more pleasant environment for new residents. This is the main reason we invested in this property. The grassed areas are in constant use and development of these areas would change the natural village atmosphere that exists here and is one of the few areas of Croydon that there is an abundance of wildlife close to an urban area. The proposed development and designation of our grass areas is unacceptable and would infringe our rights as in our original contracts with Heron homes who built the site.</p>	Change	As this site does not have a willing landowner it is unlikely that it would be developed. 3276/01/003/DM43.4/O	Mr Matthew Carey	Object	DM43.4 541	<p>The area of Shirley Oaks Village and it's adjacent road infrastructure is already at breaking point. Any slight build up of traffic seriously hinders movement for residents. The 2 main arterial routes into Croydon or towards Bromley (being wickham road &amp; lower addiscombe road) are extremely busy with traffic and often lead to extended journey times for those of us who wish to head in to one of these town centres or further afield in to London for work. As proven only yesterday when a traffic accident in the Shirley area led to a 3 hour journey home from bromley back to Shirley. The road network around here is poor. The interlink between Shirley Oaks village and it's surrounding area is poor. To add hundreds of houses within this area will only lead to increased volume of traffic on the surrounding roads and leave Shirley itself in an almost permanent state of gridlock. Shirley Oaks Road is always busy with vehicles parked up. This is due to a number of reasons;</p> <p>The excessive traffic on wickham road leading to people abandoning their vehicles to try and walk nearer to Croydon to catch a tram or bus. The unreliable 367 bus route which is often hindered by traffic or accidents outside of Shirley Oaks Village leading to people driving closer to other bus routes.</p> <p>The use of the local synagogue. Combine these issues above with the additional housing being proposed and the vehicles that come with them, Shirley Oaks will become even cut off than it already is. There are many elderly residents in this area that rely on carers (friends etc) being able to visit them. They often complain about the issues I have raised above and I can only see this getting worse should the proposals for Shirley go ahead.</p> <p>Croydon is a massive borough so there must be other areas that these proposals could be met.</p>	Change	<p>As this site does not have a willing landowner it is unlikely that it would be developed. 3278/01/002/DM43.4/O Tracey Lewin	Object	DM43.4 541	It has been brought to my attention they there are proposals for new houses to be built on the green space behind my house in Shirley Oaks. Whilst I understand the need for new housing surely this can be built in brownfield spaces! I chose to live in my house because of the green area behind my garden, we are not over looked at all and have the trees and wildlife. I do not wish to be overlooked and have the added noise, this will have a direct input into the value of my property or are you going to compensate for the loss of value to my house? It will increase the traffic in the area and we already struggle with traffic jams in the rush hours! It is a struggle to get children into local schools now and the strain on the local Dr's surgeries are also apparent. This amenity land is owned collectively by the property owners who own 1 share each. The shares are held by the current trust company - First Port, who also maintain this estate. Is compulsory purchase envisaged? If a total of some 700 homes the village would need vast changes to its infrastructure to accommodate these properties. The present main road - Primrose Lane/Shirley Oaks Road is barely able to cope now - with just a single decker bus allied to a growing number of cars. There is a regular flooding problem during heavy downpours - particularly from Primrose Lane into Laburnum Gardens. The loss of a wildlife conservation area is surely against wider interests including many present owners. Object Soundness - DM43.4  
Effective 541

One of the requirements of the Pitt review of 2007 was for the Environment Agency to provide some warning for surface water flooding, as was already the practise for river and coastal flooding. The result was the LIDAR returns which are provided on the Environment Agency's website under 'what's in my backyard'. This shows clearly how the lie of the land amongst the Shirley Oaks Estate causes surface water to run from South to North joining another stream which runs in from the SW from Shirley road into Primrose Lane. On numerous occasions over recent wet winters we have had a constant stream of water running across the kerb into Primrose Lane which has on occasion caused substantial amounts of ice to form. No doubt your winter maintenance department could confirm this is an area where they have to regularly do spot treatments of rock salt- since they do Primrose lane as it is a bus route, when other parts of the network are totally dry and do not require treatment.

From the Pitt Review of 2007- RECOMMENDATION 7: There should be a presumption against building in high flood risk areas, in accordance with PPS2S, including giving consideration to all sources of flood risk, and ensuring that developers make a full contribution to the costs both of building and maintaining any necessary defences. Section 5.14 of the report reiterates that PP525 applies to all sources of flood risk. This states that an SFRA (surface flooding risk assessment) should assess surface water flood risk and identify critical drainage areas. Good information is therefore needed from sewerage undertakers and other sources, including local knowledge, historic flooding and risk modelling. Local authorities should ensure that SFRAs carried out on their behalf adequately address this type of flooding. I find it difficult to believe this has been done as otherwise there would have never been a suggestion of using the remaining green parts of the estate in this way.

Any increase in the built up area around the estate would thus exacerbate the already on occasion saturated surface. Having investigated in detail the benefits in the reduction of flooding by the provision of trees, I have found that Oak trees can use up to 50 gallons a day and some trees on a hot day will utilise 150-200 gallons (wiki-answers.com). Trees admittedly are

most effective when we are in the growing season at excess water removal, but that is also when we tend to have the most extreme rainfall events. Having looked at 'Heavy falls in a day' and 'Heavy falls in short Periods'; both produced in part for British Rainfall by the Met Office (my employer); I have found that invariably the most extreme rainfall happens in SE England between June and September. This is just when a tree is in full leaf so not only intercepts falling rain by the size of its canopy, but also as it is growing, that rain which reaches the soil is quickly extracted for use in the tree's transpiration. Preliminary research results from the University of Manchester indicate that trees can reduce runoff by as much as 80% compared to asphalt. Thus the best way to alleviate summer extreme rainfall surface water flooding is not to remove trees.

The soil on which Shirley Oaks is located is of a clay type and is therefore impervious: another reason why it reacts to surface water flooding the way it does. The large area of grassland is ideal for 'making room for water' as a water storage area, thus to remove this pooling facility will mean the rain will have to find somewhere else to go, which would inevitably mean flooding for Shirley Oaks residents. Also I have learned, from Meteorological Office memorandum No 80-the properties of soils in NW Europe; that the root system of grassland provides a channel through which some rainfall does manage to slowly percolate through beneath the surface even with clay soils. However, without the grassland root system the water just tends to form bodies of water lying on the surface. This effect of our grassland is very helpful in alleviating the surface water flooding in winter, which occurs when prolonged rainfall totally saturates the area, and the trees are no longer as effective at its removal.

So in conclusion  
- We need trees to mitigate effects of extreme rainfall in summer, something which will become increasingly frequent with global warming.  
- We need open grassland for water to accumulate in winter when trees are less effective at water removal from the system, whilst in addition their root systems help to aid percolation beneath the soil reducing surface flooding. Over the last 40 years winter rainfall has been increasing throughout the UK.  
- Soil behaviours also dictate risk of

flooding. We have issues because:  
 1) We are on a clay soil type so low permeability and heavy rain does not soak in but floods.  
 2) We are on sloping ground with tendency for run off to flow south to north across the site.  
 3) We, also because of having a clay soil, have a high water table, so in winter many areas of the site are wet and all parts stay damp throughout. Thus water-logging very quickly occurs and there would with the proposed building work be less and less places for the water to flow to.

Object	Soundness - Justified	DM43.4 541	<p>First, the Council plans to de-designate the Metropolitan Open Land on either side of Shirley Oaks Road and all around Shirley Oaks Village (page 68, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies &amp; Proposals). Metropolitan Open Land has the same protection from development as the Green Belt. The Council is proposing to remove this designation so that most of this land can be used for new housing. the Council won't keep it as MOL, it should at least designate it as Local Green Space so that it has some protection. I will also be objecting to any of these five sites being used for residential development. Not only would this entail the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of the area, the local road infrastructure couldn't cope with the additional traffic.

Another thing that disappoints me, is that one of the selling points of our house, is the fact that all the land around the estate is protected from building on. For example, it is not possible for children to play with footballs/other toys /play noisily,without disturbing the adjoining and physically very close neighbours. You are no doubt aware that there are no nearby children's parks. Also my garden can easily be overlooked by at least 4 sets of neighbours and which I believe is typical of the other gardens on the development. Having the Amenity Open Land available is some compensation for the above lack of privacy and if it was to be withdrawn it would have a detrimental impact on family life.</p>	Change	<p>As this site does not have a willing landowner it is unlikely that it would be developed. Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

The proposal to build new houses in Shirley Oaks Road does not fall within the Strategic Objectives because:-

Objective 2: This development will not Foster an environment where existing enterprise can prosper, but will reduce enterprise

Objective 4: This development will not reduce social, economic and environmental deprivation. It will not reduce unemployment, improve skills and education and improve environmental conditions, the development is not in keeping with the surrounding area.

Objective 5: This development is not high quality and will not enhance the borough's natural environment but will reduce the natural environment by turning a green area into housing

Objective 7: This development will reduce the area as a safe, healthy and cohesive community but making the area overcrowded with residential property

Objective 10: This development will reduce the quality and accessibility of green space and nature.

This development will compromise the ability of future generations to meet their own needs. The development will change the outlook and community within the South Croydon area and future generation will suffer because of this. This proposed development of new housing in Shirley Oak Road is not within keeping of the current development within this area. Shirley comprises of large semi and detached houses with large green areas. This development is in no way in keeping with housing in the area. Changing a green area to an area of residential housing will cause harm and reduce the outlook of the area and is not in keeping with the surrounding area. Building a travelers site will increase noise levels and ruin the character of the area and this development would overwhelm this green area. Paragraph 64 of the National Planning Policy Framework states that permission should be refused for development of poor design that fails to take the opportunities available for improving the character and quality of an area and the way it functions. This development would diminish the area of green fields and recreational land within the area.

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

We already have problems with the road through the estate and it cannot possibly take any more traffic. The allowed parking on this road particularly on the curves gives cause for real concern. I have avoided two accidents only by making a emergency stop. If the council goes ahead with these proposals then we will fight and please note we are depending on support from local councilars and our MP. 3508/01/006/DM43.4/O	Jennifer Worstall	Object	DM43.4 541	I object to proposals to destroy open green spaces in Shirley Village. The Council wants to take away the status of Metropolitan Open Land for some of these green spaces, to make them easier to build on. What is the necessity or precedent for this? If all the open spaces in Shirley Village are to be built over with blocks of flats, the character of the area (green spaces with 2/3 storey houses/flats) will be changed forever. There is potentially a problem with drainage too as the open green spaces absorb much of the heavy rainfall we experience now. The local roads in this development as it is now, are far too small to cope with the increase there would be in traffic.	Change	As this site does not have a willing landowner it is unlikely that it would be developed. DM43.4

I am writing to object to the Council's proposals to allow the land in Shirley Oaks Village to be acceptable for development. The areas have been Metropolitan Open Land and had protection from being built upon. Our land was designated by the Council in 1985 as "Amenity Open Land" because of our under-sized gardens and transferred to the Management Company. Each property owner is a shareholder in the Management Company and we pay towards the upkeep and maintenance of the land. I object to the Council's proposal to change the title of the land in order to proceed with development plans. This is Our land and for our use.

When I bought my house I paid a higher price because of the sought after location and the appeal of the well kept green areas and the privacy of the land in my area. I feel that by allowing development of so many more houses on our land, it is going to affect house prices and my house will loose value. Roads will be congested and property values will decrease and much more. I am concerned how so many houses can be justified and how additional parking on dangerous bends will affect the bus route, extra traffic and especially emergency vehicles and therefore I object to the Council's plans of development.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

The policy relating to Shirley should not be read in isolation. It should be read in conjunction with other policies contained within the Local Plan such as but not limited to policies in the Transport and Communication section of the plan.

Matters relating to the house valuations are not matters that can be considered through the Local Plan process.

SHIRLEY OAKS VILLAGE-  
I refer to the proposed changes to the planning policies to allow Croydon Council to build new homes on the Amenity Open Land at the above. The Amenity Open Land was granted in part, due to the extremely small rear gardens. Also I and other people in the village for many years here contributed to its up keep at no cost to Croydon Council. To lose this land will greatly impact on the peaceful enjoyment that I and my neighbours have in using this land as well as the general impact on the area of high density building, changing the character of our village forever.

No doubt this development will result in many trees and flowers being sacrificed which help to sustain the urban wildlife such as various birds, bats, foxes, badgers and bees etc. There seems to be little consideration for this urban oasis!

Whilst I understand central government's drive for more houses, I find it hard to believe that Croydon Council needs this land in order to fulfil its housing quota, given the Westfield and other developments proposed in Croydon. There are also other lands, such as those owned by the local NHS hospital that would be suitable for development and at the same time give ready money to the NHS.

Furthermore, the existing main roads are already inadequate to service the village without adding a further 751 homes along with the years of road works that will be associated with upgrading the utilities, make travelling through the village more difficult and dangerous.

I urge you to reconsider your plans

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

The road was built to be narrow and already there are problems with passing places for traffic to the hospital and synagogue. It is a vital part of the green chain and wild-life corridor through Shirley. This can clearly be seen by viewing Google satellite photos of the area. There are mature trees on this land which would be damaged by digging near the roots, as well as woodland, hedgerow and meadow habitats. Badgers, woodpeckers, jays, goldfinches and a huge variety of insects live in this area. This land is used as a local amenity by many local people, not just residents of Shirley Oaks. The land is jointly owned by 500 equal share-holders, which would make "working with the landowner" a complex issue. The council would be unlikely to get the co-operation of all 500 shareholders. I live in Verdayne Avenue, on the odd side, and objecting to these plans sounds like simple "NIMBY ism" but, literally this development is in my back garden. With this development what little is left of the "green" character of Shirley will be lost under a wave of concrete. Surely all the "brown field" sites should be identified and developed first. When the Shirley Oaks estate was first built the fact that the houses had small gardens was compensated by the greenery of the area around them, that "compensation" is now going to disappear. The plans for the new homes seem to show that these buildings will be of greater density and crowding. On the plans there doesn't appear to be any infrastructure planned to go with the homes. The schools, in Shirley, are full, filled by children "bussed" in from other parts of the borough. Does this, then, mean the children from the new homes will have to catch buses out of Shirley to attend schools elsewhere? Though the bus routes through Shirley are good most of the time there is chaos at school times especially in the afternoon as the schools empty and the pupils leave the area to go home. It would appear that the whole of the school population of Croydon will be moving every morning and evening. The transport system on the Wickham Road works at the moment but extra traffic, people and cars, would put it under considerable strain. The tram stops are not close enough to Shirley to help dissipate the human traffic. Will the roads around the area be widened, especially in the Shirley Oaks estate, to take extra vehicle traffic? At present the buses and refuse lorries have difficulty negotiating the narrow road. The same argument goes for doctors. Again the surgeries, in Shirley, are full at present, where in the plans are the provision for this new health centres? Are they suppose to attend the A&E department at "Mayday" hospital which even now has problems coping. There have been previous plans to build on the land but they have failed due to the unsuitability of the ground, high water table etc. These problems, I take it, have "gone" away?

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

We have lived in the Borough of Croydon for 30 years and value its vibrancy and diversity.

As Croydon ratepayers we object to the de-designation of Metropolitan Open Land generally, especially land detailed above, which will change forever Croydon's character.

We would ask you to encourage policies/development to:

1. Build new housing on brown field sites by all means AND preserve invaluable green space for the benefit of the community of Croydon;
2. Protect green belt land and preserve the green corridors we desperately vital for wildlife and biodiversity;
3. Amend the tall buildings policy and keep the tall building zone where it is suited in the centre of town;
4. Utilise brownfield sites for new low-level housing only where it can be developed alongside new GP surgeries, schools and improved public transport;
5. Traveller sites are not appropriate in the green belt and is a clear breach Policy E of Planning Policy for Traveller Sites. When travellers camped on Addington Playing Fields in 2012/13 they left rubbish, debris, waste, and deterioration to a local green space. Sadly true of most traveller sites.

"Nowadays people know the price of everything and the value of nothing". Green Belt is vital and precious. Once lost for future generations and will not be replaced by developers.

We understand the need for housing, schools, hospitals and infrastructure. Are the Developers investing these also alongside their building investments?

Please protect our few remaining green spaces on the borough map, by making better use of brown field sites.

We are objecting to the decision to de-designate this land as Metropolitan Open Land (MOL). If the Council will not keep it as MOL, it should at least designate it as Local Green Space so that it has some protection. We are also objecting to any of these five sites being used for residential development.

Not only would this entail the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of the area, the local road infrastructure could not cope with the additional traffic.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

I am writing this email to voice my deep concern about the planned development in the private estate that I have lived in for many years , namely:

•Ref 541, Ref 542, Ref 548, Ref 128 and Ref 504 – all on Shirley Oaks Village private estate.

Firstly, it would have been nice to be informed about any planning ideas in writing rather than see small notices pinned to lamp post around the estate. I would also like to draw your attention that our land was designated by Croydon Council in 1985 as 'Amenity Open Land' for the residents and for which we pay a quarterly fee for maintenance of the green open land, but more importantly can I bring to your notice that this land was transferred to the Shirley Oaks Management Company, with each property owner as a shareholder in that company. This land is for our use and not for developing a concrete jungle on every single green inch of land in Croydon.

The Shirley Oaks estate has a great community spirit and has become a real sought after location for families to live due to the community nature and the lovely open land that we have, by developing on this land you will be taking away all of the good that has been built up over the years by the many residents we have as well as making the village overcrowded, bringing in more traffic thus resulting in more danger on the main Primrose Lane for people crossing and driving, congestion for parking and so on. I can also bring to your attention that we have already had a couple of fatalities on that main road that runs through the village and this will make it worse for the safety of our kids.

I am sure you have now had many hundreds of emails from residents like myself voicing the same concerns with your planning proposals!

This land belongs to us as residents so I feel its harsh to take this away and start your own developments.

Object Soundness - DM43.4  
Justified 541

With regard to the 'very scant' notices that have been posted on Shirley Oaks Village, in places that are not in visible of all residents, I must object VERY STRONGLY to these plans.  
(1) The land is owned by the residents with a covenant on it. Our houses are condensed with tiny gardens, the compensation for which is the open ground (owned by all residents) that we are able to use. My understanding is that the original development was curtailed by the then council because of the density of housing/population on Shirley Oaks.  
(2) Drainage on Shirley Oaks is very poor. I am given to understand that the water table is very high and indeed during the winter months the open spaces are sodden, holding water which could probably present a flooding problem. It is so bad in some places that the ducks move in!  
(3) Could the services (sewerage etc) really support the number of properties proposed. There have already problems from time to time, especially down Shirley Oaks Road.  
(4) Realistically, whatever type of property would be built, you could expect an average of two cars per dwelling. Shirley Oaks Road/Primrose Lane are extremely hazardous and would not be able to sustain another probably 500/1000 cars. Where would people park. There are enough problems on here already with regard to parking, deliveries etc. Both Shirley Oaks Road at the Wickham Road end and Primrose Road at the Shirley Road end are used as car parks and quite often it takes a bit of delicate manoeuvring to get round, especially if you meet a bus.  
(5) Planning permission has been refused for the plot in Poppy Lane (128) a number of times. The area was declared as a nature reserve some time back and I was unaware that this had changed. Part of the reason for the last planning application was the high water table, so how come there has been a change of mind?

But must admit the above proposal is the worst and the most ridiculous so far. From what we read, the proposal suggests to build around 750 new homes on what's left of green patches in the village.</p> <p>The village is already over crowded with Shirley Oaks road and Primrose road looking like a huge PARKING LOT throughout the day. One cannot begin to imagine what it would like with more residents and obviously with at least double the number of cars to that of the number of the new homes proposed.</p> <p>We bought our property back in 1989, paying above market value at the time, for the sole purpose that the village is quiet and has some green land. Our home was one of the last phases of any buildings to be erected in the village, or so we were promised and confirmed in writing. Since then, a synagogue was built, bus 367 goes through the narrow winding road, every year for the last few years we get proposals to use our green land for one suggestion or another and now this proposal.</p> <p>We completely oppose this proposal and hope that the council will appreciate that it's not all about the money and just building more houses, but quality of life matters just the same. On one hand the government and councils encourage and push people to plant more trees, grow their veg, recycle etc... Shirley is already tight for school places. St John's, in Spring Park Road, is increasing to 2 form entry already with the number of children living locally requiring education. The 367 bus serving the Shirley Oaks Village is infrequent and much more transport will be required. Parking is already a nightmare and with the lack of parking contemplated with the new build supply the problem will only get worse. There will be an incredible build up of traffic on the already congested Wickham Road and other local roads.</p> <p>I believe this proposed building of traveller's sites and homes will change the whole ethos of Shirley and cause resentment and the lowering of living standards. This is a particular area of standard housing and should not be changed by the building of blocks of houses. Garden land should not be built on and this is an inappropriate development and should not be allowed to go ahead. 3954/01/002/DM43.4/O	Mrs L McLoughlin	Object	DM43.4 541	<p>Having lived on Shirley Oaks for almost 30 years, I strongly feel that any changes to the current planning policies would have serious and negative consequences for the current residents. Not only would properties lose significant value, the estate would also lose its 'village-like' feel that lead us to move there in the first place. We were also told at the time of purchase that Shirley Oaks would always remain as metropolitan open land, and this also heavily influenced our purchase. To add to this, there is also the issue of increased traffic through the estate. There was a fatal accident only a couple of years ago by the bend of Poppy Lane and I feel that with the prospect of even more houses being added to the estate there will be a significantly higher risk of further accidents</p>	Change	As this site does not have a willing landowner it is unlikely that it would be developed. 3968/01/003/DM43.4/O	Ms M D Chandler	Object	DM43.4 541	I object on the grounds of appalling over crowding, your plan would bring at least 2000 more vehicles onto the estate. It is already nearly impossibly to get in and out of the estate by car at rush hours. The roads on the estate can barely cope as it is with the bus route. Theextra vehicles would include many commercial vans which would be parked over night and weekends causing havoc on the narrow roads of the estate. A single bus route as at present running every 20mins.causes problems how do you intend to increase public services more bus routes and more frequent timetables....more chaos! I along with others pay to maintain and the open space as a share holder. Your proposal would seriously devalue our properties and I for one will be seeking serious compensation for this, I trust Croydon has very big capital reserves to meet our legal challenges and compensation. Our gardens are small this is why the land has been designated open land so we have some open space in common with the surrounding houses. Your plans are ill conceived and will effektivly destroy Croydon further. There are large areas of open land in Addington which Croydon could use and I presume already own without spending our money attempting to purchase land which will be extremely costly to Croydon in terms of the compensation that you will need to pay out and in the legal fees entailed. 3970/01/003/DM43.4/O	Mr N Oratis	Object	DM43.4 541	I object to the decision to de-designate this land as metropolitan open land for the use of residential development for the following reasons. These areas are also being used every day and regularly by myself, family members, neighbours friends and many visitors wanting to take there dog for a walk or spending time with family and kids. Ref 548, 542, 541, and 128 are owned by Shirley oaks management. 488 residents are shareholders in this company. There was a decision in 1985 for this land to be open for use by the local residents because the gardens of all homes were considered small. I would also like to mention the increase in road traffic and pollution due to the development. So for those reasons I would once again like to object to building on this land. Object

DM43.4  
541

Ref: 541, 542, 548, 128 and 504 in Shirley Oaks Village  
I was shocked to learn about the changes proposed to our grass areas. These changes, if implemented, will change the very nature of our village. It will not only deprive the residents of very essential open green areas, but it will make the whole place very crowded, much more polluted and quite uglier. This would rob us of essential attractions that made us come to this village in the first place.  
I strongly object to any of these changes and trust that every resident on this estate feels the way I feel. I did not speak to everyone, but the many I spoke with feel as strongly as I do towards this unfair proposal.  
I have been living in this village with my family since 1985, I would like to see the Croydon Council improve it rather than ruin it. I hope the Council will reconsider its plans.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

I am grateful to the Council for consulting on the detailed policies and proposals that will make up the Croydon Local Plan. There is much in the document that I agree with, but some of the proposals would, in my opinion, change the character of parts of Croydon very much for the worse. I hope you will forgive me if I focus on these areas of contention. I am therefore writing to formally object to:

1. de-designation of the Metropolitan Open Land around Shirley Oaks Village;

2. the use of the following five sites for housing:

- land at Poppy Lane reference number 128;

- Stroud Green Pumping Station, 140 Primrose Lane reference number 504;

- land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House reference number 541;

- land to the west of Shirley Oaks Road reference number 542; and

- land to the rear of 5-13 Honeysuckle Gardens reference number 548.

If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces. Building housing on them would mean the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of this part of Shirley. As far as I can see, these are the only bits of Metropolitan Open Land in the whole borough which the Council is proposing to de-designate and allow housing to be built on. Why has Shirley Oaks been singled out in this way?

3. the use of the following locations as gypsy/traveller sites:

- Coombe Farm off Oaks Road reference number 502;

- Coombe Lodge Nurseries off Conduit Lane reference number 661; and

- Pear Tree Farm and Pear Tree Farm Cottage on Featherbed Lane reference number 755;

As the Council acknowledges, all three of these sites are in the Green Belt and one of them borders a Site

of Nature Conservation Interest.  
Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly:

“Traveller sites (temporary or permanent) in the Green Belt are inappropriate development”.

The Council's approach is clearly in breach of that policy. All three sites are also some distance from public services and they are all in the same part of the borough (two are in Heathfield ward, one just over the border in Croham). Why has Heathfield been singled out in this way? If the Council really needs, as it claims, to quadruple the number of gypsy/traveller sites in the borough - which I would question - they should look elsewhere (for example, off the Purley Way where the existing site is);

4.focussed intensification associated with gradual change of an area's local character under Policy DM31.4 of the Shirley Road Shopping Parade, Shirley local centre and Forestdale. Shirley Road Shopping Parade is surely worthy of protecting rather than replacing with medium-rise blocks? Shirley local centre is defined not just as a stretch of the Wickham Road (where some intensification may be appropriate) but Ridgemount Avenue, Wickham Avenue, Peregrine Gardens, West Way Gardens, the northern section of Hartland Way and the western parts of Bennetts Way and Devonshire Way. Replacing the largely semi-detached buildings in these residential roads with medium-rise blocks would completely change the character of Shirley. Replacing the largely terraced housing and small blocks of flats in Forestdale with medium-sized blocks would completely change that area too;

5.Policy DM2 on development on garden land, which is too subjective and therefore too weak. There should be a much stronger presumption against development on garden land; and

6.Policy DM28, which should allow higher levels of parking in developments of low public transport accessibility. Restricting parking spaces in such areas doesn't lead to fewer people owning their own car; it just leads to greater competition for existing spaces.

The whole area is built on London clay and regularly these areas suffer standing water which has gone through our property in the past. Increasing the density of building in Shirley Oaks will increase this problem too.</p> <p>The lands around Shirley Oaks remain because of the compact nature of the village, whose properties, as well as our own, have small garden areas and as such these areas are used daily for sports activities, exercise and dog walking.</p>	Change	As this site does not have a willing landowner it is unlikely that it would be developed. 4115/01/002/DM43.4/O	Miss Y Mithiradaas	Object	DM43.4 541	I'm writing in response to your notice for development of the greenfield sites on the Shirley Oaks Village estate to change the status of this. Land to allow development of 751 new homes. When I bought my house 18 months ago it was purchased on the understanding that together with the other householders on the estate that we would have joint ownership in the land directly surrounding the estate and that a quarterly bill would be levied to cover the maintenance of the land. I purchased the property in the knowledge that there were designated areas of green space surrounding the estate and was led to believe that these would remain. I strongly object to the proposal of building any further houses on the land surrounding the estate on the grounds that the main road through the estate is dangerous enough as it is. To more than double the amount of residents using the estate is ludicrous. The road was designed to cope with a certain amount of traffic and is already dangerous at time.	Change	As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

4145/01/004/DM43.4/O	Mr & Mrs Andrews	Object	Soundness - Justified	DM43.4 541	<p>I am grateful to the Council for consulting on the detailed policies and proposals that will make up the Croydon Local Plan. There is much in the document that I agree with, but some of the proposals would, in my opinion, change the character of parts of Croydon very much for the worse. I hope you will forgive me if I focus on these areas of contention. I am therefore writing to formally object to:</p> <p>2. the use of the following five sites for housing:</p> <ul style="list-style-type: none"> <li>• land at Poppy Lane reference number 128;</li> <li>• Stroud Green Pumping Station, 140 Primrose Lane reference number 504;</li> <li>• land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House reference number 541;</li> <li>• land to the west of Shirley Oaks Road reference number 542; and</li> <li>• land to the rear of 5-13 Honeysuckle Gardens reference number 548.</li> </ul>	Change	As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

4146/01/004/DM43.4/O	Mr & Mrs Carpenter	Object	DM43.4 541	These proposals to build up to 750 homes on land (assuming it is de-designated) will mean the loss of vital open spaces and will place burdens on local transport, roads, schools and medical facilities which are already under pressure.	Change	As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.
4147/01/003/DM43.4/O	Mr & Mrs A Catherall	Object	DM43.4 541	The de-designation of Metropolitan Open Land status on Shirley Oak will be vigorously opposed. I can see no reasoned explanation in the planning document for such a course of action nor is there any evidence of the thinking of the Council in the previous plan or 2012 Inspector's Report to explain how MOL status has been revisited with the conclusion that MOL designation be withdrawn. It also seems to have escaped the planning process that Shirley Oaks is governed by a Section 52 Agreement under the 1971 Town and Country Planning Act controlling development of the 'amenity lands' on Shirley Oaks. Further, the land is owned by the 488 Shirley Oaks resident property owners as shareholders of Shirley Oaks Management Ltd that owns the land. There is, therefore, no likelihood of the land ever being sold voluntarily. In summary, this part of the proposed Local Plan is undeliverable.	Change	As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

We are writing to object to the proposals to:

1. de-designate the Metropolitan Open Land around Shirley Oaks Village.
2. the use of the following sites for housing:
  - land at Poppy Lane reference number 128;
  - Stroud Green Pumping Station, 140 Primrose Lane reference number 504;
  - land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House reference number 541;
  - land to the West of Shirley Oaks Road reference number 542;
  - land to the rear of 5-13 Honeysuckle Gardens reference number 548;

The Shirley Oaks Village site currently provides a balance of high density housing offset by areas of green space. The proposals for de-designation of the Metropolitan Open Land and additional housing on the areas of green space would disrupt that balance and greatly increase the density of housing to an unacceptable level. Access to the Shirley Oaks site is by way of Poppy Lane and Shirley Oaks Road which feed into Shirley Road and Wickham Road respectively. Both Shirley Road and Wickham Road are used heavily throughout the day and subject of long delays particularly at peak times. This has resulted in Poppy Lane and Shirley Oaks Road experiencing heavier traffic flows than they were designed for as commuters cut through between Shirley Road and Wickham Road. Public transport within the Shirley Oaks site is limited to a small single decker bus due to the road infrastructure and road system. Whilst there are bus services which serve Shirley Road and Wickham Road these are already oversubscribed and subject to delay due to existing traffic congestion.

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

4161/01/009/DM43.4/O	Mr Trevor Watkins	Object	DM43.4 541	The use of the following five sites for housing: land at Poppy Lane site reference number 128, Stroud Green Pumping Station, 140 Primrose Lane site reference number 504, land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House site reference number S41, and to the west of Shirley Oaks Road site reference number 542; and land to the rear of 5-13 Honeysuckle Gardens site reference number 548. If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces. Building housing on them would mean the loss of a vital green corridor between Shirley Oaks and the surrounding areas and change the character of this area.	Change	As this site does not have a willing landowner it is unlikely that it would be developed. 4166/01/006/DM43.4/O	Carol Holmes	Object	DM43.4 541	I object to both the de-designation and also to the subsequent house-building at the following sites: <ul style="list-style-type: none"> <li>•Land at Poppy Lane (reference number 128);</li> <li>•Stroud Green Pumping Station, 140 Primrose Lane (reference number 504);</li> <li>•Land to the east of Shirley Oaks Road and to the rear of beech House and Ash House (reference number 541);</li> <li>•Land to the west of Shirley Oaks Road (reference number 541);</li> <li>•Land to the rear of 5-13 Honeysuckle Gardens (reference number 548).</li> </ul> <p>The very minimum designation for the proposed sites should be as Local Green Spaces, in order to give some protection against over-development</p>	Change	As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.
4174/01/003/DM43.4/O	Mr B Williams	Object	DM43.4 541	I object to the de-designation of the land as Metropolitan Open Land and its proposed use for housing. The open spaces are collectively designated as Metropolitan Open Land and provide several links in the Shirley Green Chain. They help to form the sort of network necessary to ensure the maintenance of the current range and diversity of our flora and fauna. In addition this is a floodplain. There is a sink pond to the rear of Honeysuckle Gardens and if this overflows any properties would be flooded. There is also the potential for flooding of future planned properties. The one road through Shirley Oaks Village could not cope with the additional traffic and its exit on to the A232 would cause yet another bottleneck on this already congested road.	Change	As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

4238/01/003/DM43.4/O	Miss b Hall	Object	DM43.4 541	As 541, 542 & 548 would consist of 750 residences, the present utilities, particularly the drains, are likely to be inadequate. I assume that provision will be made for Shirley Oaks Hospital to function during the building and afterwards with the increase in traffic pollution and NHS ambulance access to their base. Healthcare facilities for such an increase in local residents cannot be sustained for the area. I object to the use of the Land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House reference number 541 for housing.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

---

I object to the use of the following five sites for housing - land at Poppy Lane reference number 128; Stroud Green Pumping Station, 140 Primrose Lane reference number 504; land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House reference number 541; land to the west of Shirley Oaks Road reference number 542; and land to the rear of 5-13 Honeysuckle Gardens reference number 548; If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces. The Council should focus on developing other land in the Croydon borough such as unused office blocks, derelict corporate buildings/factories/warehouses which have not been occupied for years instead of attacking the green areas which are enjoyed by the residents in their respective areas. The proposals to build circa 700 houses in such a small area will cause the following detrimental effects to the local residents: depreciation of the value of the houses purchased in the relevant areas, too much strain on the water and sewerage systems in the locality where there is already a high water table. This could result in undue flooding and drainage problems, structural problems in years to come as the land is not fit for such intensive building, increase in traffic on Shirley Road, Wickham Road, Lower Addiscombe and Addiscombe which is already congested. This will unduly increase pollution levels which are already toxic. This will undoubtedly cause an increase in the health problems of the people in the locality such as lung cancer and other respiratory illnesses which will in turn place greater stress on the NHS services, cause more people to take sick days which will result in lower incomes obtained and eventually less tax revenue generated. This will have a knock on effect on the economy which is to say at the very least, bleak, the three green spaces in the Shirley Oaks Village are owned by the 488 Freeholders. Each Freeholder owns one share in the nominee company, Shirley Oaks Management Limited which owns the land on behalf of its shareholders. Building upon this land would seriously undermine the value of the land purchased by the Freeholders and reduce quality of life. If the residents wanted to move, it would prove near impossible because of the resulting lower sale prices of their respective houses imposed by the Council's building plans. This would appear to be unfair

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

for the Council to impose such hardship on the residents. I would urge the council to build upon land in the Croydon borough which is derelict and contains buildings which have not been used for years. These buildings can be knocked down to build the much needed housing for generations to come. These unused or derelict buildings serve no purpose to the local residents and are of no value to the residents. The Council should endeavour to create value where it is needed. This will in turn improve the condition of the abandoned areas. This will also prevent squatting and other unlawful uses of such buildings. I witnessed one example last year where the old post office building next to East Croydon Station was used as a rave containing over 1,000 people. This posed a risk to the safety of the passers by and the increase in crime. The Council's redevelopment of such spaces could be highly beneficial to the area. The green spaces are however of great importance to the local residents. The residents enjoy these spaces for walking their dogs, recreational and outdoor activities, space for children to play, piece of mind for the resident who works in the city and comes home to a peaceful environment and it provides space for those residents who already have very small back gardens.

7284/01/007/DM43.4/O	Dr I Jayamanne	Object	Soundness - Justified	DM43.4 541	I wish to protest vehemently about your plans to destroy Shirley which is a village by building hundred of homes and setting up a Gypsy and Traveller site. You will destroy the Green Belt and increase the traffic in the area thus polluting the environment and the air we breathe.	Change	As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.
----------------------	----------------	--------	--------------------------	---------------	---	--------	--

The use of the following five sites for housing:  
Land at Poppy Lane (ref number 128)  
Stroud Green Pumping Station, 140 Primrose Lane (ref number 504)  
Land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House (ref number 541)  
Land to the west of Shirley Oaks Road (ref number 542) and land to the rear of 5-13 Honeysuckle Gardens (ref number 548)  
When the London Borough of Lambeth closed the children's home, known as Shirley Oaks, Croydon Council determined to keep the building redevelopment of the site broadly in line with the building density that had existed for most of the previous hundred years and subsequent applications by the then developer for increased housing density were rejected. There were a number of reasons for maintaining the original policy amongst which were the need to maintain the established green corridor, retain the character of the area and to maintain the surrounding traffic volumes at a manageable level. The decision to designate the land as Metropolitan Open Land was to ensure that in future further building on the land could not take place thus re-affirming the principles established by the original policy decisions. Nothing has changed in the ensuing years to justify any variation to that policy.

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

I am dismayed at the consideration being given to the above, particularly concerning that proposed in the Shirley area.  
I have been a Shirley resident for almost 30 years and to date have enjoyed what the area does offer both for the community and with regard to open green spaces, which are precious to the health and wellbeing of all ages. Why should future generations be unable to continue to benefit from an outdoor environment as hitherto?  
I strongly object to de-designation of the current Metropolitan Open Land and would hope that at least it could be protected as Local Green Space with regard to future development. This is particularly pertinent with regard to the proposals being considered for the Shirley Oaks area. The present road infrastructure through the estate leaves a lot to be desired and any more traffic will be a great cause for concern, to say nothing of the loss of wildlife and spacious living. If we had wanted to live in a highly densely populated area, we would not have chosen the Shirley area to relocate into, rather the centre of the town. The redevelopment of brownfield sites is more acceptable and there must be many of these in the Croydon area to develop without encroaching on valued green spaces.

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

Object Soundness - DM43.4  
Justified 541

I wish to formally object to:  
 1. All the proposed policies relation to the re-designation of land to allow building development at Shirley Oaks Road and land around Shirley Oaks Village.  
 2. The land at Poppy Lane (reference 128)  
 3. Stroud Green Pumping Station, 140 Primrose Lane including the conversion of the locally listed pumping station (reference 504)  
 4. Land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House (reference 541).  
 5. Land to the West of Shirley Oaks Road (reference 542)  
 6. Land to the rear of 5-13 Honeysuckle Gardens (reference 548)  
 These proposals are NOT appropriate for Croydon to meet its Strategic Objectives.  
 Additionally the proposals are NOT DEUVERABLE or SUSTAINABLE as:  
 • Croydon have already announced that it is not necessary to deliberately destroy MOL to reach their housing requirements.  
 • National and London Plans do NOT require or expect Local Authorities to degrade MOL to generate additional housing.  
 • The loss of this MOL will entail the LOSS of a vital green corridor between Shirley Oaks through to Ashburton Playing fields, across to South Norwood Park and surrounding Areas.  
 • The above areas are vital to sustain the drainage of surrounding flood areas.  
 • The above mentioned areas are referred to the "lungs of Croydon" as they sustain carbon dioxide capture (photosynthesis), oxygen release (photosynthesis) and biodiversity. Local wildlife includes badgers and bats.  
 • Green areas increase the character, desirability and amenity of residential areas.  
 Green areas have a strong positive impact of the character of surrounding residential areas.  
 • The proposed increase in housing will put an additional burden on public transport, roadways and street parking and other services. The additional volume of traffic will create additional road hazards.

7320/01/005/DM43.4/O	Mr Steve Westray	Object		DM43.4 541	The de-designation of Metropolitan Open Land around Shirley Oaks Village and either side of Shirley Oaks Road. At present I understand that Metropolitan Open Land has the same protection as the Green Belt and I believe that it is vitally important to retain the controls around our green spaces in Shirley. If any additional homes were to be considered for this area then they should be restricted in number and carefully planned in order to retain the character of this area. The idea of building up to 750 new homes is totally out of keeping with this objective and would be considerable strain on local infrastructure and resources. New housing on this scale would lead to a significant increase in traffic along the Wickham Road which is already extremely busy not only servicing the residents of Shirley but as an important thoroughfare into Croydon. Re your development plans  
541,542,548,128 and 504.  
Consultation.

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

I am writing in response to your notices for development of the greenfield sites on the Shirley Oaks Village estate, changing the status of this land to allow development of around 700 new homes.

When I bought my house here 18 years ago, it was on the understanding that this had been designated by Croydon Council as metropolitan amenity open land, an attractive feature of the original development, important not least due to the relatively small gardens of some properties, a mixture of unit sizes in an harmonious design. Thus there is a mixture of family unit sizes and age groups at home here. For many years, I and my fellow-resident members of the Shirley Oaks Management Ltd company have contributed regularly to First Port Property Services and their predecessors under our common upkeep obligation, including provision of boundary posts at various points of these areas to ensure that visiting Travellers could not reoccupy them.

As I understand your plans, you now wish to "designate" this as non-metropolitan land, on which purchasers could build however suits their purposes. This does of course risk a complete change in the nature of our Village. I cannot pretend to understand how you can effectively cut a swathe through all of this, even if you do consider it justified. Some residents might I imagine now be considering the impact on their original investment and individual legal aspects. Against these general considerations, I would like to highlight some specific and practical concerns at the outset.

#### ROAD SAFETY

The perimeter road via Primrose Lane and Shirley Oaks Road is arguably no longer fit for purpose, increased car ownership and parking, fast through traffic including commercial and public transport all contributing. Buses on the 367 route for example frequently mount pavements to pass each other. There have been accidents, some serious, even fatal and involving elderly pedestrian residents. The road surface is nowadays subject to excessive heavy usage. Clearly, 700 new homes will surely accentuate these problems and dangers.

#### ENVIRONMENT

Your plans will effectively remove an important green-field area and with it much unique wildlife. Residents will lose many of the valuable areas for walking, exercise and fresh-air, as will visitors. Any balanced village appearance and community feel to the estate will be consumed by so many new properties of different designs.

In summary many will surely feel betrayed by a Council which proposes removing green-fields against all promises. Some might also suspect that, whatever the social arguments, their interests are being sacrificed against political and ultimately commercial imperatives.

1713/02/005/DM43.4/O	Alison Connor	Object	Soundness - Justified	DM43.4 542	<p>Once the area surrounding Shirley Oaks Village is re-designated the Council plans to build 751 homes on 5 separate sites.</p> <p>Supposing the average house is for 4 people, 3000 people in total will move to the area. The housing will attract families - potentially half being children. The Council mention no where in their 700 page document about the building of new schools (primary and secondary) nor the building of doctor surgeries, nor the expanding of the local shopping area let alone the already stretched local road infra structure. Our local area can't cope as it is - St John's primary school has applied for an extension to cope with the current demand on its places. During rush hour buses frequently don't stop at bus stops because they are full. Traffic is often diverted down our road, Shirley Church Road, if there is an accident on Wickham Road or Gravel Hill. The dual carriage way (Shirley Park) is crawling along during rush hour. The council are planning to add another 1000 plus cars to this equation. Shirley is often described according to estate agents as leafy, popular, excellent schools. Prices reflect this. Just walking around the area people look after their houses and take pride in living here. People pay more money to live in this area. By building 751 more homes the character of the area will change completely.</p>	Change	<p>As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.</p>

We are also writing to object to Croydon Council's plans to de-designate the Metropolitan Open Land on either side of Shirley Oaks Road and all around Shirley Oaks Village, changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan:

Your draft Local Plan identifies five sites:

1. the land at Poppy Lane is identified as suitable for 51 to 107 homes (pages 445-446, reference number 128);
2. Stroud Green Pumping Station, 140 Primrose Lane, including the conversion of the locally-listed pumping station, is identified as suitable for 26 to 68 homes (pages 451-452, reference number 504);
3. land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House is identified as suitable for 80-215 homes (pages 453-454, reference number 541);
4. land to the west of Shirley Oaks Road is identified as suitable for 88-236 homes (pages 455-456, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 542);
5. land to the rear of 5-13 Honeysuckle Gardens is identified as suitable for 59-125 homes (pages 457-458, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 548).

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

I am writing to object to:

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

1.THE DE-DESIGNATION of the following five pieces of land as Metropolitan Open Land around Shirley Oaks Village and their proposed use as housing:

Land to the west of Shirley Oaks Road reference number 542

There is only one narrow very winding road which runs through the village and this could not cope safely with any additional traffic. It is single file around bends as it is and the local road infrastructure would be over-burdened.

These open spaces are collectively designated as Metropolitan Open Land and it would be unacceptable to lose a link to this chain.

Additionally, this area is a flood plain and there is a sink pond to the rear of Honeysuckle Gardens. There would be a detrimental effect and potential flooding of existing and planned properties.

Three of these sites are owned by the residents of Shirley Oaks Village through the Shirley Oaks Management Company in which every freeholder has a share. The three land sites in question are:

- 1.Land to the east of Shirley Oaks Road reference number 541
- 2.Land to the west of Shirley Oaks Road reference number 542
- 3.Land to the rear of 5-13 Honeysuckle Gardens reference number 548

Also on the land to the west of Shirley Oaks Road coming from the Wickham Road there is a Synagogue. The Synagogue, their car park and frontage are owned by the Jewish Community and they have no plans to sell this land. The Synagogue is on consecrated land and is in fact the only Synagogue in Croydon. It is discriminatory to have identified this site without first consulting with the Board of Management.

I am writing to voice my full-throated objections to the above proposals because of the irreparable damage it would do to the character of one of the leafier, more pleasant, parts of the borough. The council seeks de-designation of Metropolitan open land that, as a homeowner in Shirley Oaks Village, I own a share of, and it is protected by covenant. Such thoughtless destruction of our precious little green space (we were granted this Amenity Open Land in 1985 by the council due to our under-sized gardens) is obnoxious, ill-conceived and damaging to the value of our properties, as planning blight could linger for a decade. Myriad other neglected parts of the borough are far more appropriate for such massive development and would not stir up so much ire from the current residents, nor would they require the politically-expedient moving of goalposts regarding land use. Our village simply does not currently have the infrastructure nor the capacity to expand in order to cope with these proposals. There is barely enough parking space available in the village at present, so quite where up to 683 other families will park and seek recreation, I do not know. Quite how all the construction vehicles involved in such huge building works would access the proposed sites without further detriment to the quality of life of the residents is another issue I raise. We are served by one bus route that can only use small, single decker buses. The roads are too narrow for larger vehicles. How would this be overcome? Additionally, the fact that the council would seek to house the travelling community so close to the town centre, on land where in 2012 a group of them set up an illegal encampment and defecated in our woodland, beggars belief. If the council has an inexplicable legal obligation to designate land to travellers, then expand capacity at their existing sites in Beddington Lane and Featherbed Lane rather than dispersing them further across the borough into otherwise salubrious areas. I do hope that common sense prevails and that all five of the above proposals are quickly abandoned. I chose to live in this area precisely because it is not blighted by these hideous developments. I am sure that many other residents echo my sentiments.

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

1872/01/004/DM43.4/O	Mr C Johnson	Object	DM43.4 542	<p>This land is owned by Shirley Oaks Management limited (SOML). This is the management company for the estate whose shareholders are the home owning residents. SOML owns and manages the open spaces on behalf of and for the benefit of the residents for whom the land is 'amenity open land', ie communal, recreational space. The land was transferred to SOML's ownership in 1985</p> <p>whilst the estate was under development. I believe that the developer had infringed planning regulations by reducing the sizes of the gardens included with the dwellings that it was building in order to increase the density of the housing beyond that which had been agreed with the local planning authority. The open land, which is currently being scrutinised as part of the Council's policy proposals review, was effectively, a penalty levied on the developer whereby an amount of green space was given over to SOML to own and manage as redress and compensation to the residents for skimping on the sizes of individual gardens. I am assured by a Director of SOML that the company has documentary proof of all of the above points. The residents pay a service charge that, inter alia, covers the cost of managing and maintaining these open spaces.</p> <p>SOML is bound by its covenants with the residents that this land shall be managed and maintained as communal open areas for the collective enjoyment and benefit of residents as long as the estate should be in existence. Thus, there is no scope on SOML's part for participating in any effort to develop these spaces and any attempt to develop them undermines the importance of those spaces in providing amenity open land, as previously ordered by the local Council.</p>	<p>the land is owned entirely on behalf of the resident shareholders by a resident run management company (SOML) which is bound to preserve that space and which also has a specific object in its Memorandum of Association requiring it to resist any attempt to enforce regulations or plans which impact negatively on the estate. 1993/01/004/DM43.4/O	Graham & Kate Marsden	Object		DM43.4 542	Shocked at the scale of proposals for Shirley and will fundamentally change the nature of the area. Front gardens are an asset to the local street scene. The proposals for focussed intensification associated with gradual change of an area's local character under Policy DM31.4 put this stability at risk, and may have an impact on the services we all need from the Council.  Object to the de-designation of MOL - at a minimum it should be designated as local green space. We object to this site being used for residential use as it would change the character of the area, overload the already difficult local road structure. It would damage the vital green corridor between Shirley Oaks and the surrounding areas and reduce the habitat for wildlife.		Change	As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

2022/01/008/DM43.4/O	Joe Rowe <i>Shirley Hills Residents Association</i>	Object	DM43.4 542	This land is designated as Metropolitan Open Land and there is no justification for re-designation. An increase of up to 741 homes on this land would put local services including schools, transport and already crowded roads under further pressure.	Change	As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.
2035/01/004/DM43.4/O	Mrs Lorraine Cox	Object	DM43.4 542	I have just received a letter about proposals to Shirley Oaks Village open land being built upon. We have lived here happily for 13 years. We want to say we don't want houses or a gypsy site down the road. I will be writing to my local MP Gavin Barwell to defend our way of life in Shirley Oaks village. Leave our open / green spaces alone.	Change	As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

The proposal to build new houses in Shirley Oaks Road does not fall within the Strategic Objectives because:-  
Objective 2: This development will not Foster an environment where existing enterprise can prosper, but will reduce enterprise  
Objective 4: This development will not reduce social, economic and environmental deprivation. It will not reduce unemployment, improve skills and education and improve environmental conditions, the development is not in keeping with the surrounding area.  
Objective 5: This development is not high quality and will not enhance the borough's natural environment but will reduce the natural environment by turning a green area into housing  
Objective 7: This development will reduce the area as a safe, healthy and cohesive community but making the area overcrowded with residential property  
Objective 10: This development will reduce the quality and accessibility of green space and nature.

If this development is undertaken it will not deliver the strategic objective. This development will compromise the ability of future generations to meet their own needs. The development will change the outlook and community within the South Croydon area and future generation will suffer because of this. This proposed development of new housing in Shirley Oak Road is not within keeping of the current development within this area. Shirley comprises of large semi and detached houses with large green areas. This development is in no way in keeping with housing in the area.

Changing a green area to an area of residential housing will cause harm and reduce the outlook of the area and is not in keeping with the surrounding area

Building a travelers site will increase noise levels and ruin the character of the area and this development would overwhelm this green area.

Paragraph 64 of the National Planning Policy Framework states that permission should be refused for development of poor design that fails to take the opportunities available for improving the character and quality of an area and the way it functions.

This development would diminish the area of green fields and recreational land within the area.

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

2081/02/003/DM43.4/O	Stuart & Monique Woodrow	Object		DM43.4 542	We do accept that Croydon does need to provide new housing but this has to be on appropriate sites, i.e. previously developed land and not greenfield/metropolitan open land. 2131/01/004/DM43.4/O	Ronald H. Street	Object	DM43.4 542	The planning permissions proposals below I object to ref 542 If the Council will not keep the land as MOL it should at least be designated as Local Green Spaces. I am particularly concerned about the effect of local roads that the suggested development will have as, when Heron Homes built the original development some years ago they were prevented by the local council from building the number of houses now proposed because of inadequate access roads onto the estate. Under present conditions the A232 Wickham Road is particularly subject to traffic delays especially in term time. Your proposed developments would also have a detrimental effect on our already crowded local schools and doctor's surgeries. 2135/04/002/DM43.4/O	Mrs Susan Lockyer	Object	DM43.4 542	I accept that more housing is needed but this could not be developed in addition to 541. It would have to be one or the other. Some may be achievable but certainly not 236, that is approx. half of the rest of the estate put together! However the land is privately owned. The local management company has worked hard to maintain the green area and retain areas suitable for wildlife. The privately owned land is used by the residents as the properties do not have private gardens. The road is already congested with private cars making the bus route difficult. I do not consider it deliverable as planned, therefore it will not meet the present needs, let alone future needs. It is unrealistic to expect the land to sustain a limitless growth in population on relatively small patches. Transport will reach gridlock, the more land that is covered over limits drainage. More pipes will be channelled underground to bring in services and take away waste. Changes to due to global warming etc will be exacerbated if the population continues to converge on small land masses rather than spreading over the planet. In addition to the physical problems we would be creating, social problems will occur with people living in closer proximity in congested space. 2185/01/004/DM43.4/O	Jonathan E Miller	Object	DM43.4 542	I object to ref 542-I am writing to you with regard to the recent changes in Planning policies by Croydon Council and their impact on the designation of grass areas in Shirley Oaks Village. These areas were formerly designated as Metropolitan Open Land and had protection from being built on. However my understanding is that these areas may now be changed to no Metropolitan Land thus allowing their use for future housing developments. As a resident of Shirley I would like to point out that our land was designated as 'Amenity Open Land' in 1985 by Croydon Council because of our undersized gardens and transferred to a Management Company, with each property owner as a shareholder of the Company. Whilst I fully accept the need for new housing in Croydon, in particular affordable housing for first time owners, it is clear the sheer scale of the proposed development and the resultant destruction of a precious greenfield site in Shirley Oaks Village that I object to. I would have no issue with a much smaller scale development of the village, as part of an overall plan for Croydon where new housing was primarily targeted toward development of brownfield sites under the council's jurisdiction. I urge you to consider my suggestions in the weeks ahead and look forward to receiving feedback in due course. 2450/02/005/DM43.4/O	Mr & Mrs Jeffrey	Object		DM43.4 542	I will be objecting to the decision to de-designate this land as Metropolitan Open Land (MOL). If the Council won't keep it as MOL, it should at least designate it as Local Green Space so that it has some protection. I will also be objecting to any of these five sites being used for residential development. Not only would this entail the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of the area, the local road infrastructure couldn't cope with the additional traffic.	Change	As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

We strongly object to Croydon Council's local planning proposals and plans for development to the site being used for residential development. We strongly object to the de-designation of the Metropolitan Open Land around Shirley Oaks Village. No more housing should be built on MO land and it is inappropriate for development since it would overstretch the local road infrastructure with the additional traffic. The road in and out of Shirley Oaks Village is very narrow and there is hardly enough room for the bus to get by. The increased volume of traffic and parked vehicles would be unmanageable bringing traffic in all directions to a complete standstill. We believe the council needs to rethink its proposals for the sites, but would hope that in any event, an overwhelming majority of homeowners living in the village will reject the council's proposals. Not only would the area be an eyesore, but the proposal to build a whopping 700 new homes is unrealistic as the open green spaces are very small. You would also be destroying the wildlife by cutting down our precious trees and removing the open green spaces. It was agreed, and we believe documented, that after the build of phase 5 on Shirley Oaks Village that no more houses would be built, and this was a deciding factor when individuals bought their properties on Shirley Oaks Village. If over 700 new homes are built, it would no longer be a village but instead an ugly built up housing estate, changing the character of the landscape completely. From our perspective, if the proposals were approved, we would have no choice but to move away from the area. It would be too upsetting to see our open green spaces developed to excess with over 700 new homes. I have no doubt that developing the land would also devalue the property prices in the future. We find the council's proposals ludicrous and unreasonable. It is imperative that we protect the precious remaining green spaces around Shirley Oaks Village. On that basis, we vigorously object to the council's proposal to develop the land.

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

2539/01/003/DM43.4/O	Lydia Benady	Object		DM43.4 542	We strongly object to the changes to designations of our grass areas. Not only would building be detrimental to our health and well being but also to the varied and protected wildlife that we have. There are plenty of rundown places in Croydon which should be regenerated and can be built on without impinging into our green spaces. Plans for residential development:- Ref.No.128- the land at Poppy Lane is identified as suitable for 51-107 homes. Ref.No.504-Stroud Green Pumping Station,140 Primrose Lane including the conversion of the locally-listed pumping station,is identified as suitable for 26-68 homes. 2565/01/006/DM43.4/O	Ms Karen Fletcher	Object		DM43.4 542	We wish to register our objection to the proposals to change the policy map 43 in relation to Metropolitan Open Land at Shirley Oaks Village. Like many residents we purchased our home on the understanding that the MOL was owned by the residents themselves and would not be developed. It was a strong factor in our decision to purchase our house. The land itself was transferred to the management company by a transfer dating 30 July 1991 made between Heron Homes Limited and Shirley Oaks Management Limited. The third schedule to this transfer contains restrictive covenants and I have attached the relevant clauses. These clauses state that the land is to be used as open space so I do not understand how you can ignore this and grant planning permission to build houses. We understand the need for more housing but feel that this is not the way forward. It would be far better to look at the buildings/land owned by the London Borough of Croydon first to see which could be used as residential properties. The old Ashburton Library in Ashburton Park is such a building that could be redeveloped and used for housing and I am sure there are many more. 2578/01/003/DM43.4/O	Mr Tau Wey	Object	DM43.4 542	<p>I am concerned about this proposal. When I bought my house in Angelica Gardens, Shirley Oaks Village, it was my understanding that I would also become a communal owner of the surrounding Amenity Open Land. This was guaranteed by each freeholder in Shirley Oaks owning a share of the Shirley Oaks Management Limited, which in turn owns and manages the Amenity Open Land.</p> <p>Like many residents, I purchased my house partly due to the pleasant areas of green space available in my surroundings. I also think that the character of the current surrounding gives each property the value that it currently has.</p> <p>I would also object to attempts by Croydon Council or other agencies to attempt to purchase the land from Shirley Oaks Management Limited in the future.</p>	Change	As this site does not have a willing landowner it is unlikely that it would be developed. 2580/01/007/DM43.4/O	Mr Steven Hunt	Object	DM43.4	I am emailing to outline my objections to the planning notices in relation to the above reference numbers which concern land near to Shirley Oaks Road, Honeysuckle Gardens, Poppy Lane and Primrose Lane.	Change	As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.
			542	<p>I object to these proposed developments for the following reasons:</p> <ol style="list-style-type: none"> <li>1. The move to unravel the protection of Metropolitan open land from significant housing developments is a disappointing and avoidable move by Croydon Council. This sets an unnecessary precedent. This land should be protected by its designation and the council has sufficient options elsewhere in the borough on land that has no such designation.</li> <li>2. Much of the land concerned was designated by Croydon Council in 1985 as "Amenity Open Land" because of the under-sized gardens of many of the Shirley Oaks property. I live with a young family on Shirley Oaks with a very small garden and object to the loss of this open land which is regularly used by young families and residents of the area who do not have large gardens or any gardens at all in some instances.</li> <li>3. Such proposals will unduly change the character and desirability of the local area which is defined by its open space. Shirley Oaks remains one of the few genuine peaceful residential areas within the borough and such thoughtless development will threaten this.</li> <li>4. The roads leading to Shirley Oaks are roads not given to significant volumes of traffic. Increasing the density of the population within the immediate area as substantially as you are proposing creates challenges for traffic and parking. The scale of the developments will exponentially increase the volume of traffic and create challenges for parking.</li> </ol>

2599/01/005/DM43.4/O	Helen Armstrong	Object	DM43.4 542	I am writing to register my household's objection to the prooposed developments in Shirley. The projected number of homes will impact dramatically not only on the existing residents and the open feel of the site, but essentially on the transport infrastructure. Wickham Road is a major route, prone to congestion at peak hours and any significant increase in road users will have a dramatic knock on effect not for residents and also for commuters in all directions. The Trinity roundabout is a major junction with many bus routes passing through, this would grind to even more of a halt. The potential number of proposed properties is unacceptably high.	Objection to the proposed development of Site 542	Change	As this site does not have a willing landowner it is unlikely that it would be developed. This land is currently protected from development similar to protection of green belt land.</p> <p>The Society objects in principle to the decision of the council to de-designate land currently held as Metropolitan Open Land. Even if parts of the areas were designated as local green space, in accordance with the National Planning Policy Framework, there would still be a huge loss of open space.</p> <p>If development were allowed in these areas it would be detrimental to the amenity value of the area for the benefit of the public.</p>	Change	As this site does not have a willing landowner it is unlikely that it would be developed. 2618/01/007/DM43.4/O	Miss P Jones	Object	DM43.4 542	<p>Having lived in Shirley for over 50 years I strongly object to Croydon Council plans to de-designate the Metropolitan open land so that most of this land can be used for new housing. At the moment it has the same Protection as Green Belt.</p> <p>Firstly, this would entail the loss of a vital green corridor between Shirley Oaks and the surrounding area, changing the character of the area, more importantly the road infrastructure couldn't cope with the additional traffic. 2657/01/030/DM43.4/O	Rebecca Pullinger CPRE London	Object	Soundness - Effective DM43.4 542	<p>The more specific site allocations represent a large reduction in the amount of designated and non-designated open space. While we acknowledge the need to build new homes and associated infrastructure such as schools, Croydon's growing population also needs quality open spaces for all the human amenity and ecosystem services which they provide.</p> <p>We object to the proposed development on green spaces, which are currently designated, and should remain designated, as part of the Shirley Oaks MOL. As mentioned as part of our response to SP7, we feel that most of the site still warrants its MOL designation. We object to the following site allocations as they will fragment the green space impacting on residents' amenity and wildlife's use of the area (both current and potential).</p> <p>The presence of scattered detached housing does not impact the overall openness of the site, and therefore is not a reason to remove the designation of MOL and allocate for further development.</p>	Change	As this site does not have a willing landowner it is unlikely that it would be developed. 2682/01/007/DM43.4/O	Mr & Mrs Kellas	Object	DM43.4 542	I would say to the Council Croydon is full and kindly leave our precious Shirley open spaces and attractive streets alone, we don't need an odd assortment of blocks of flats amongst the semi-detached and small detached properties here, or in similar Croydon suburbs -it would be an architectural disaster along the lines of the 1950s concrete jungle development of the centre of Croydon. And we don't have the infrastructure to cope with more people, or the roads to cope with the traffic we already have. 2729/01/002/DM43.4/C	Mr G Simmonds			DM43.4 542	Object to site 542 as the site is undeliverable for the following:  lack of evidence to support de-designation as the report relies entirely on opinion uninformed by actual specifics of land use and forms an important of Shirley's green infrastructure  the land is used for recreation and its loss would be contrary to the Mayors Pan Policy 17.7 which highlights the positive aspects of MOL such as play areas for children and amenity areas for grandparents to play with their children, play areas for kids going home from school and also for others such as dogwalkers  the land should be retained as MOL as it meets the criteria set out by the London Plan	Change	As this site does not have a willing landowner it is unlikely that it would be developed. 2745/01/007/DM43.4/O	Mrs Frances Pearce	Object	Soundness - Justified	DM43.4 542	I am writing regarding the Council's plans for a massive redevelopment in the Shirley Area. More houses mean more traffic on our already crowded roads. I no longer go into Croydon because of the journey times. How long would it be before the Council considered bringing in a congestion charge. When you build all these properties do you consider the local amenities and the effect that more people would have on these. Where are the school places for all of these children? Regarding doctors. Unless it is an emergency I have to wait at least a week for an appointment. This waiting time can only increase if there are more patients. Is it the Council's policy to build over green belt land to the detriment of locals? I sincerely hope not. I think you need to seriously reconsider these plans. Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

THE SHIRLEY GREEN CHAIN  
The green open spaces of Shirley Oaks Village provide several links in the Shirley Green Chain. This chain starts at the South Norwood Country Park in the north and runs south through Ryland Fields, Long Lane Woods, Ashburton Playing Fields, the open spaces of Shirley Oaks Village, Trinity School playing fields, Shirley Park Golf Course and up to the Shirley Hills. From there the Green Chain continues through Heathfield, Bramley Bank Nature Reserve, Littleheath Woods and via Selsdon Park to Kings Wood at Hamsey Green. These open spaces are collectively designated as Metropolitan Open Land. It would be disastrous to lose a link in this chain.

Planning Policy Guidance Note 9  
This guidance stresses the importance of nature conservation, not only on nationally important sites, but also suggests that many urban sites for nature conservation have enhanced local importance as a consequence of the relative lack of wildlife sites in built up areas. Statutory and nonstatutory sites which provide wildlife corridors, links or stepping stones from one habitat site to another, all help to form a network necessary to endure the maintenance of the current range and diversity of our flora and fauna.

The Green Spaces in Shirley Oaks were designated as Metropolitan Open Land and today still meet the criteria for this protection. The sites (1) contain conservation and habitat interest of value at a metropolitan level and (2) forms part of the Shirley Green Chain. These are two of the criteria for Metropolitan Open Land. The Green Spaces in Shirley Oaks Village were designated as Metropolitan Open Land and today still meet the criteria for this protection.

The sites  
(1) contain conservation and habitat interest of value at a metropolitan level and  
(2) form part of the Shirley Green Chain. These are two of the criteria for Metropolitan Open Land.

These sites possibly have a section 52 agreement, and are part ownerships shared by each of the Shirley Oaks Village residents.

Re-designation of MOL falls foul of

the London Plan.

Existing dwellings to be retained or demolished? If retained the Site Area should be adjusted to take account of the existing dwellings: The Lodge, Beech House & Ash House? On the East site And the Synagogue and the two house (can't read their names) on the West side.

Infrastructure not specified to support development.

Schools are oversubscribed; GP Surgeries oversubscribed

Road system could not cope with the increase in traffic during peak travel times

Area has high water table and is subject to flooding.

London Plan

POLICY 7.17 METROPOLITAN OPEN LAND  
Strategic

A The Mayor strongly supports the current extent of Metropolitan Open Land (MOL), its extension in appropriate circumstances and its protection from development having an adverse impact on the openness of MOL.

Planning decisions

B The strongest protection should be given to London's Metropolitan Open Land and inappropriate development refused, except in very special circumstances, giving the same level of protection as in the Green Belt.

Essential ancillary facilities for appropriate uses will only be acceptable where they maintain the openness of MOL.

LDF preparation

C Any alterations to the boundary of MOL should be undertaken by Boroughs through the LDF process, in consultation with the Mayor and adjoining authorities.

D To designate land as MOL

boroughs need to establish that the land meets at least one of the following criteria:

- a) it contributes to the physical structure of London by being clearly distinguishable from the built up area
- b) it includes open air facilities, especially for leisure, recreation, sport, the arts and cultural activities, which serve either the whole or significant parts of London
- c) it contains features or landscapes (historic, recreational, biodiversity) of either national or metropolitan valued it forms part of a Green Chain or a link in the network of green infrastructure and meets one of the above criteria.

The London Plan 7.56  
 The policy guidance of paragraphs 79-92 of the NPPF on Green Belts applies equally to Metropolitan Open Land (MOL). MOL has an important role to play as part of London's multifunctional green infrastructure and the Mayor is keen to see improvements in its overall quality and accessibility. Such improvements are likely to help human health, biodiversity and quality of life. Development that involves the loss of MOL in return for the creation of new open space elsewhere will not be considered appropriate. Appropriate development should be limited to small scale structures to support outdoor open space uses and minimise any adverse impact on the openness of MOL. Green chains are important to London's open space network, recreation and biodiversity. They consist of footpaths and the open spaces that they link, which are accessible to the public. The open spaces and links within a Green Chain should be designated as MOL due to their London-wide importance.

2791/04/002/DM43.4/O	Peter Staveley	Object		DM43.4 542	The preferred approach is not the most appropriate for Croydon to help us meet our Strategic Objectives set out in Section 3. The land is current Green Belt or Metropolitan Open Land or otherwise designated green land and should not be built on. I disagree that it "does not contribute to the physical structure of London". Just because it has no facilities does not mean that it is not an asset to the life of London. Yes, it is deliverable but should not be delivered on that land. Soundness - DM43.4  
Justified 542

I object to the use of the following five sites for housing:  
•Land at Poppy Lane reference number 128;  
•Stroud Green Pumping Station, 140 Primrose Lane reference number 504;  
•Land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House reference number 541;  
•Land to the west of Shirley Oaks Road reference number 542; and  
•Land to the rear of 5-13 Honeysuckle Gardens reference number 548;  
If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

I write concerning Croydon Council's proposals contained in the consultation document of the Croydon Local Plan that includes the re-designation of Metropolitan Open Land in Shirley and specifically within the confines of Shirley Oaks. I consider these proposals and others listed above to be inappropriate as they would significantly change the character of the area in which I have lived all 61 years of my life and I wish to add my voice to those already expressing concerns and objections about these proposals.

I strongly object to the proposal to re-designate Metropolitan Open Land to facilitate the building of new homes on land in Shirley Oaks and the provision of temporary or permanent traveller/gypsy sites in areas that are acknowledged by the Council to be in the green belt at Coombe Farm and Coombe Lodge Nurseries in Conduit Lane.

These proposals are totally out of keeping with the character of the area which predominantly comprise owner-occupied semi and detached homes. Surely areas considered to be brownfield sites are more appropriate than the unacceptable use of Metropolitan Open Land?

The proposals affecting the area surrounding Shirley Library are also of concern as this would adversely change the character of the area and potentially result in the establishment of additional unsightly car- parking sites on the south side of Wickham Road, similar to that at the front of the Shirley Medical Centre at 370 Wickham Road.

Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

The proposal to build new houses in Shirley Oaks Road does not fall within the Strategic Objectives because:-  
Objective 2: This development will not Foster an environment where existing enterprise can prosper, but will reduce enterprise  
Objective 4: This development will not reduce social, economic and environmental deprivation. It will not reduce unemployment, improve skills and education and improve environmental conditions, the development is not in keeping with the surrounding area.  
Objective 5: This development is not high quality and will not enhance the borough's natural environment but will reduce the natural environment by turning a green area into housing  
Objective 7: This development will reduce the area as a safe, healthy and cohesive community but making the area overcrowded with residential property  
Objective 10: This development will reduce the quality and accessibility of green space and nature.  
This proposed development of new housing in Shirley Oak Road is not within keeping of the current development within this area. Shirley comprises of large semi and detached houses with large green areas. This development is in no way in keeping with housing in the area. Changing a green area to an area of residential housing will cause harm and reduce the outlook of the area and is not in keeping with the surrounding area  
Building a travelers site will increase noise levels and ruin the character of the area and this development would overwhelm this green area.  
Paragraph 64 of the National Planning Policy Framework states that permission should be refused for development of poor design that fails to take the opportunities available for improving the character and quality of an area and the way it functions.  
This development would diminish the area of green fields and recreational land within the area.

this development will compromise the ability of future generations to meet their own needs. The development will change the outlook and community within the South Croydon area and future generation will suffer because of this.

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

Supposing the average house is for 4 people, 3000 people in total will move to the area. The housing will attract families - potentially half being children. The Council mention no where in their 700 page document about the building of new schools (primary and secondary) nor the building of doctor surgeries, nor the expanding of the local shopping area let alone the already stretched local road infrastructure. Our local area can't cope as it is - St John's primary school has applied for an extension to cope with the current demand on its places. During rush hour buses frequently don't stop at bus stops because they are full. Traffic is often diverted down our road, Shirley Church Road, if there is an accident on Wickham Road or Gravel Hill. The dual carriage way (Shirley Park) is crawling along during rush hour. The council are planning to add another 1000 plus cars to this equation. Shirley is often described according to estate agents as leafy, popular, excellent schools. By building 751 more homes the character of the area will change completely.</p>	Change	As this site does not have a willing landowner it is unlikely that it would be developed. 3041/01/004/DM43.4/O	Sarah Minter	Object	DM43.4 542	I strongly object to the proposed development plans for the Shirley Area. I have lived here all my life and have seen a steady influx of people, and a massive reduction in the green space in the area. The roads are already far too congested and the social infrastructure is already struggling to cope with the number of residents. There are many areas in the Croydon borough much more suited to such large scale development. I am thinking particularly of areas around Purley Way. There are also many brown field sites in the borough that could be put to more effective use as housing without affecting the green areas. I guess the council prefers to redevelop the green areas rather than the brown field areas due to cost. As I said I do not want my local area turned into a concrete jungle where there is nowhere for people to relax in the open. 3087/01/010/DM43.4/O	Mrs Halina Tutt	Object	DM43.4 542	This lovely part of Croydon seems to be the worst affected by the Council's proposals. Croydon Council plans to de-designate the Metropolitan Open Land on either side of Shirley Oaks Road and all around Shirley Oaks Village. Metropolitan Open Land has the same protection from development as the Green Belt. The Council are proposing to remove this designation so that most of this land can be used for new housing. I am objecting to the decision to de-designate this land as Metropolitan Open Land. If the Council won't keep it as such, it should at least designate it as Local Green Space so that it has some protection. Not only would this entail the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of the area, but trust me, the local roads couldn't cope with the additional traffic. If you ever travel on Wickham Road, Addiscombe Road or Lower Addiscombe Road at rush hour you will agree with me. The traffic is already horrendous and more housing would simply treble this problem.	Change	As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.
3093/01/004/DM43.4/O	Mr Paul Grosser	Object	DM43.4 542	The planning permissions proposals below I object to ref 542 I have friends who live in Shirley oaks village and I know them and myself along with many others all object to the proposals to build on the green areas. This grass area is used by many and would totally change the area if built on and we don't want it. Part of the charm of this area is those green areas and it has something that you don't find often in Croydon so please let us keep the green areas as we all object to them being built	Change	As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.
3097/01/007/DM43.4/O	Mr Ben Lynam	Object	DM43.4 542	I object to the de-designation of Metropolitan Open Land in the vicinity of Shirley Oaks Road and Shirley Oaks Village. The land should be at least designated as Local Green Space, for its protection from development. This open space provides a green corridor between Shirley Oaks and the surrounding areas, and should be retained in its present form. Not only would these developments entail the loss of the green corridor between Shirley Oaks and the surrounding areas, the local road infrastructure would not be able to cope with the additional traffic. Also, the local schools are over-subscribed as well as the already-stretched social and healthcare facilities would be overloaded.	Change	As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

I am writing to lodge my objection to some of the proposals contained in the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals.  
In particular:  
1. Shirley Oaks  
The proposal to re-designate the Metropolitan Open Land on Shirley Oaks Road and around Shirley Oaks Village so that it can be used for new housing (page 68, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals).  
My main objections are:  
This would result in the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of the area.  
The local road network could not cope with the additional traffic.  
Insufficient local infrastructure to cope with the increased population.  
Conclusion  
The proposals I have highlighted can only be viewed as negative. If adopted, they will increase the local population - and the density of that population - without providing any supporting infrastructure. The new residents from the planned apartment blocks and traveller sites will need additional public services such as schools, medical services and shops. Older residents will give way to young families who require greater social support, yet no additional resources are identified to help manage the changing demographic. Traffic congestion along already busy roads will increase, as will pollution and accident black-spots. The few remaining green spaces will disappear. Overall, the proposals signal a reduction in the quality of life for both the existing residents and the newcomer

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

3154/01/002/DM43.4/O	Mr Graeme Monk	Object		DM43.4 542	I have read some of the planning proposals for Croydon, and I fear that some would seem to be poorly thought through. Any development around the Shirley Road area would need major road development also, which, in a major residential area would be catastrophic. Shirley Road has serious traffic congestion in both directions from the Lower Addiscombe Road to the Wickham Road; Addiscombe Road has congestion in both directions from Croydon; the Lower Addiscombe is congested from Croydon & towards Beckenham. If you add the number of houses in the green areas which you are proposing, we will have total gridlock. To think that these new developments will not own cars is living in a dream world. Buses will be in no better position to get through as there is no space for bus lanes. There are more suitable areas in Croydon for necessary housing which will cause less chaos for current residents, and a more pleasant environment for new residents. This is the main reason we invested in this property. The grassed areas are in constant use and development of these areas would change the natural village atmosphere that exists here and is one of the few areas of Croydon that there is an abundance of wildlife close to an urban area. 3276/01/004/DM43.4/O	Mr Matthew Carey	Object	DM43.4 542	<p>The area of Shirley Oaks Village and it's adjacent road infrastructure is already at breaking point. Any slight build up of traffic seriously hinders movement for residents. The 2 main arterial routes into Croydon or towards Bromley (being wickham road &amp; lower addiscombe road) are extremely busy with traffic and often lead to extended journey times for those of us who wish to head in to one of these town centres or further afield in to London for work. As proven only yesterday when a traffic accident in the Shirley area led to a 3 hour journey home from bromley back to Shirley. The road network around here is poor. The interlink between Shirley Oaks village and it's surrounding area is poor. To add hundreds of houses within this area will only lead to increased volume of traffic on the surrounding roads and leave Shirley itself in an almost permanent state of gridlock. Shirley Oaks Road is always busy with vehicles parked up. This is due to a number of reasons;</p> <p>The excessive traffic on wickham road leading to people abandoning their vehicles to try and walk nearer to Croydon to catch a tram or bus. The unreliable 367 bus route which is often hindered by traffic or accidents outside of Shirley Oaks Village leading to people driving closer to other bus routes.</p> <p>The use of the local synagogue. Combine these issues above with the additional housing being proposed and the vehicles that come with them, Shirley Oaks will become even cut off than it already is. There are many elderly residents in this area that rely on carers (friends etc) being able to visit them. They often complain about the issues I have raised above and I can only see this getting worse should the proposals for Shirley go ahead.</p> <p>Croydon is a massive borough so there must be other areas that these proposals could be met.</p>	Change	<p>As this site does not have a willing landowner it is unlikely that it would be developed. 3278/01/003/DM43.4/O Tracey Lewin	Object	DM43.4 542	It has been brought to my attention they there are proposals for new houses to be built on the green space behind my house in Shirley Oaks. Whilst I understand the need for new housing surely this can be built in brownfield spaces! I chose to live in my house because of the green area behind my garden, we are not over looked at all and have the trees and wildlife. I do not wish to be overlooked and have the added noise, this will have a direct input into the value of my property or are you going to compensate for the loss of value to my house? It will increase the traffic in the area and we already struggle with traffic jams in the rush hours! This amenity land is owned collectively by the property owners who own 1 share each. The shares are held by the current trust company - First Port, who also maintain this estate. Is compulsory purchase envisaged? If a total of some 700 homes the village would need vast changes to its infrastructure to accommodate these properties. The present main road - Primrose Lane/Shirley Oaks Road is barely able to cope now - with just a single decker bus allied to a growing number of cars. There is a regular flooding problem during heavy downpours - particularly from Primrose Lane into Laburnum Gardens. The loss of a wildlife conservation area is surely against wider interests including many present owners. Effective 542

One of the requirements of the Pitt review of 2007 was for the Environment Agency to provide some warning for surface water flooding, as was already the practise for river and coastal flooding. The result was the LIDAR returns which are provided on the Environment Agency's website under 'what's in my backyard'. This shows clearly how the lie of the land amongst the Shirley Oaks Estate causes surface water to run from South to North joining another stream which runs in from the SW from Shirley road into Primrose Lane. On numerous occasions over recent wet winters we have had a constant stream of water running across the kerb into Primrose Lane which has on occasion caused substantial amounts of ice to form. No doubt your winter maintenance department could confirm this is an area where they have to regularly do spot treatments of rock salt- since they do Primrose lane as it is a bus route, when other parts of the network are totally dry and do not require treatment.

From the Pitt Review of 2007- RECOMMENDATION 7: There should be a presumption against building in high flood risk areas, in accordance with PPS2S, including giving consideration to all sources of flood risk, and ensuring that developers make a full contribution to the costs both of building and maintaining any necessary defences. Section 5.14 of the report reiterates that PP525 applies to all sources of flood risk. This states that an SFRA (surface flooding risk assessment) should assess surface water flood risk and identify critical drainage areas. Good information is therefore needed from sewerage undertakers and other sources, including local knowledge, historic flooding and risk modelling. Local authorities should ensure that SFRAs carried out on their behalf adequately address this type of flooding. I find it difficult to believe this has been done as otherwise there would have never been a suggestion of using the remaining green parts of the estate in this way.

Any increase in the built up area around the estate would thus exacerbate the already on occasion saturated surface. Having investigated in detail the benefits in the reduction of flooding by the provision of trees, I have found that Oak trees can use up to 50 gallons a day and some trees on a hot day will utilise 150-200 gallons (wiki-answers.com). Trees admittedly are

most effective when we are in the growing season at excess water removal, but that is also when we tend to have the most extreme rainfall events. Having looked at 'Heavy falls in a day' and 'Heavy falls in short Periods'; both produced in part for British Rainfall by the Met Office (my employer); I have found that invariably the most extreme rainfall happens in SE England between June and September. This is just when a tree is in full leaf so not only intercepts falling rain by the size of its canopy, but also as it is growing, that rain which reaches the soil is quickly extracted for use in the tree's transpiration. Preliminary research results from the University of Manchester indicate that trees can reduce runoff by as much as 80% compared to asphalt. Thus the best way to alleviate summer extreme rainfall surface water flooding is not to remove trees.

The soil on which Shirley Oaks is located is of a clay type and is therefore impervious: another reason why it reacts to surface water flooding the way it does. The large area of grassland is ideal for 'making room for water' as a water storage area, thus to remove this pooling facility will mean the rain will have to find somewhere else to go, which would inevitably mean flooding for Shirley Oaks residents. Also I have learned, from Meteorological Office memorandum No 80-the properties of soils in NW Europe; that the root system of grassland provides a channel through which some rainfall does manage to slowly percolate through beneath the surface even with clay soils. However, without the grassland root system the water just tends to form bodies of water lying on the surface. This effect of our grassland is very helpful in alleviating the surface water flooding in winter, which occurs when prolonged rainfall totally saturates the area, and the trees are no longer as effective at its removal.

So in conclusion  
- We need trees to mitigate effects of extreme rainfall in summer, something which will become increasingly frequent with global warming.  
- We need open grassland for water to accumulate in winter when trees are less effective at water removal from the system, whilst in addition their root systems help to aid percolation beneath the soil reducing surface flooding. Over the last 40 years winter rainfall has been increasing throughout the UK.  
- Soil behaviours also dictate risk of

flooding. We have issues because:  
 1) We are on a clay soil type so low permeability and heavy rain does not soak in but floods.  
 2) We are on sloping ground with tendency for run off to flow south to north across the site.  
 3) We, also because of having a clay soil, have a high water table, so in winter many areas of the site are wet and all parts stay damp throughout. Thus water-logging very quickly occurs and there would with the proposed building work be less and less places for the water to flow to.

For example, it is not possible for children to play with footballs/other toys /play noisily,without disturbing the adjoining and physically very close neighbours. You are no doubt aware that there are no nearby children's parks. Also my garden can easily be overlooked by at least 4 sets of neighbours and which I believe is typical of the other gardens on the development. I wish to lodge a serious objection to the proposals for the building of houses on Shirley Oaks Village That name speaks for itself I have lived on Shirley Oaks Village for 30 years and during that time have paid the management company a contribution to maintain the The amenity open Land The residents each own a share of the Land and over the years the open areas have been enjoyed by families for games walking and enjoying the lovely trees not to mention the wildlife When the land was sold by Lambeth in 1984 the intention was to create a village !! Has any thought been given to the effect on the infrastructure by adding 751 properties? the pressures on the roads in particular.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

The proposal to build new houses in Shirley Oaks Road does not fall within the Strategic Objectives because:-

Objective 2: This development will not Foster an environment where existing enterprise can prosper, but will reduce enterprise

Objective 4: This development will not reduce social, economic and environmental deprivation. It will not reduce unemployment, improve skills and education and improve environmental conditions, the development is not in keeping with the surrounding area.

Objective 5: This development is not high quality and will not enhance the borough's natural environment but will reduce the natural environment by turning a green area into housing

Objective 7: This development will reduce the area as a safe, healthy and cohesive community but making the area overcrowded with residential property

Objective 10: This development will reduce the quality and accessibility of green space and nature.

This development will compromise the ability of future generations to meet their own needs. The development will change the outlook and community within the South Croydon area and future generation will suffer because of this. This proposed development of new housing in Shirley Oak Road is not within keeping of the current development within this area. Shirley comprises of large semi and detached houses with large green areas. This development is in no way in keeping with housing in the area. Changing a green area to an area of residential housing will cause harm and reduce the outlook of the area and is not in keeping with the surrounding area. Building a travelers site will increase noise levels and ruin the character of the area and this development would overwhelm this green area. Paragraph 64 of the National Planning Policy Framework states that permission should be refused for development of poor design that fails to take the opportunities available for improving the character and quality of an area and the way it functions. This development would diminish the area of green fields and recreational land within the area.

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

3486/01/004/DM43.4/O	Mr Gary Stewart	Object	DM43.4 542	Re the above proposals with Ref nos 541, 542, 548, 504, and 128 I wish to object in the possible strongest sense. This land was not designated for this use and hence our homes all have very small gardens to protect this open space. We already have problems with the road through the estate and it cannot possibly take any more traffic. The allowed parking on this road particularly on the curves gives cause for real concern. I have avoided two accidents only by making a emergency stop. If the council goes ahead with these proposals then we will fight and please note we are depending on support from local councilors and our MP. Think again please	Change	As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.
3492/01/004/DM43.4/O	Helen Silk	Object	DM43.4 542	I am writing to object to the plans to build gypsy/traveller sites in the area of Shirley and the building of anything on any area of green belt land, green spaces or back gardens	Change	As this site does not have a willing landowner it is unlikely that it would be developed. 3501/01/007/DM43.4/O	Gaynor Lawrence	Object	DM43.4 542	Please see this email as my objection to the proposed housing. This is ridiculous. The village is small and the road going through the village would NOT suffice the extra traffic! I pay a maintenance charge and moved here as it is a quiet location. I have been burgled a couple years back due I believe to the travellers that squatted on the land here and I do not want that fear again. Please rethink this crazy idea and let me know how I can further stop this.	Change	As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

3502/01/004/DM43.4/O	Mr Gary Smithers	Object		DM43.4 542	The planning permissions proposals below I object to ref 542 I have friends who live in Shirley oaks village and I know them and myself along with many others all object to the proposals to build on the green areas. This grass area is used by many and would totally change the area if built on and we don't want it. Part of the charm of this area is those green areas and it has something that you don't find often in Croydon so please let us keep the green areas as we all object to them being built	Change	As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.
3503/01/007/DM43.4/O	Mr Gary Kenney	Object		DM43.4 542	I am writing to show that I object to a number of your plans around the Shirley area. I contest that you need to build on our green sites and bring in new 'traveler' sites into Shirley.  On top of this I cannot understand the need to bring 'medium' high rise buildings in and around Shirley, including Devonshire way and the new proposals around Hartland way.  Please can you let me know if my objection has been noted and how I can make it more official?	Change	As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.
3506/01/004/DM43.4/O	Mr John Albert	Object	Soundness - Justified	DM43.4 542	As a long term resident and shareholder residing in Shirly Oaks Village, I and my partner object to the proposals to Changes to the Policy Map 43 - REF's 541, 542, 548, 128 & 504 These areas have metropolitan open land and had protection from being built on!  Our land was designated by Croydon Council in 1985, as Amenity Open Land because of our under sized gardens and transferred to the management company whom we our shareholders of and this land is for our use and want it to stay this way!! Having lived here for 20 years we do not want it further condensed by more homes and totally not fit for purpose!	Change	As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

3508/01/007/DM43.4/O	Jennifer Worstall	Object	DM43.4 542	I object to proposals to destroy open green spaces in Shirley Village. The Council wants to take away the status of Metropolitan Open Land for some of these green spaces, to make them easier to build on. What is the necessity or precedent for this? If all the open spaces in Shirley Village are to be built over with blocks of flats, the character of the area (green spaces with 2/3 storey houses/flats) will be changed forever. There is potentially a problem with drainage too as the open green spaces absorb much of the heavy rainfall we experience now. The local roads in this development as it is now, are far too small to cope with the increase there would be in traffic.	Change	As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.
3510/01/003/DM43.4/O	Katrina Neal	Object	DM43.4 542	As a long term resident of Shirley/West Wickham and one who has seen many changes over the years, I am strongly objecting to Land to west of Shirley Oaks Road - ref 542 for housing use. If these are not kept as MOL: then at least keep them as Local Green Spaces.	Change	As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.
3511/01/007/DM43.4/O	Jenny Hayden	Object	DM43.4 542	The proposals for Shirley will have a huge impact on the area, the current infrastructure is already at bursting point and the building of new homes on green spaces will add further stress to the current situation.  Ref nos, 128,504,541,542, 548...these relate to the building of additional homes. From the information available in the Council's documentation, this could be up to 800 new homes. I would like to know what sort of homes these are likely to be ...social, housing associations or private ...I doubt that any of them would be affordable homes for first time buyers .How will the local roads cope with the extra traffic. There will be a need for more schools, doctors' surgeries etc to support the intended increase to the local population. I would therefore like to object to the Council's decision to use these five sites for future residential development. Apart from putting extra burden on the local roads, it would also mean losing valuable green spaces. I believe any new residential development should be on brownfield sites . The addition of so many extra homes would have an adverse affect on the character of Shirley, in my opinion.	Change	As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

3512/01/005/DM43.4/O	Rhodri Flower	Object	Soundness - Justified	DM43.4 542	<p>I write with reference to your document 'Changes to the Policies Map (Policy DM43)', and in specific reference to sites 541, 542, 548, 128 and 504. These sites are all open space surrounding the development known as Shirley Oaks Village.</p> <p>I wish to object to the proposals to re-classify the land and make it eligible for planning permission and the building of homes. In my opinion it is essential to preserve the open space for the use of local residents. It is well used for recreation, dog walking etc. It is also an important part of the character of Shirley Oaks Village and would change the nature of that development.</p> <p>I bought a house on Primrose Lane in June 2015 and a large factor in my decision to buy was the amount of open space available locally. I understand that Croydon Council designated this land as 'Amenity Open Land' in 1985 because of under-sized gardens in Shirley Oaks Village and transferred it to the Shirley Oaks Management Company, which has maintained it ever since. As a house owner I am a shareholder in that company.</p> <p>I strongly object to your proposals.</p>	Change	As this site does not have a willing landowner it is unlikely that it would be developed. 3514/01/006/DM43.4/O	Julia Sims	Object		DM43.4 542	<p>As a local affected resident, I am registering my comments and objections to the proposals as documented in the Croydon Local Plans CLP1.1 and CLP2</p> <p>4 Proposed Policy DM43 De-designation of Metropolitan Open Land around Shirley Oaks Village. I object to the de-designation of Metropolitan Open Land in the vicinity of Shirley Oaks Road and Shirley Oaks Village. The land should be at least designated as Local Green Space, for its protection from development. This open space provides a green corridor between Shirley Oaks and the surrounding areas, and should be retained in its present form.</p> <p>Not only would these developments entail the loss of the green corridor between Shirley Oaks and the surrounding areas, the local road infrastructure would not be able to cope with the additional traffic. Also, the local schools are over-subscribed as well as the already-stretched social and healthcare facilities would be overloaded.</p>	Change	As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

3517/01/002/DM43.4/O	Ms Geraldine Pyatt	Object	DM43.4 542	I am writing to object to the Council's proposals to allow the land in Shirley Oaks Village to be acceptable for development. The areas have been Metropolitan Open Land and had protection from being built upon. Our land was designated by the Council in 1985 as "Amenity Open Land" because of our under-sized gardens and transferred to the Management Company. Each property owner is a shareholder in the Management Company and we pay towards the upkeep and maintenance of the land. I object to the Council's proposal to change the title of the land in order to proceed with development plans. This is Our land and for our use.	Change	As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.
3535/01/004/DM43.4/O	Mr & Mrs Spence	Object	DM43.4 542	SHIRLEY OAKS VILLAGE- I refer to the proposed changes to the planning policies to allow Croydon Council to build new homes on the Amenity Open Land at the above. The Amenity Open Land was granted in part, due to the extremely small rear gardens. Also I and other people in the village for many years here contributed to its up keep at no cost to Croydon Council. To lose this land will greatly impact on the peaceful enjoyment that I and my neighbours have in using this land as well as the general impact on the area of high density building, changing the character of our village forever. No doubt this development will result in many trees and flowers being sacrificed which help to sustain the urban wildlife such as various birds, bats, foxes, badgers and bees etc. There seems to be little consideration for this urban oasis! Whilst I understand central government's drive for more houses, I find it hard to believe that Croydon Council needs this land in order to fulfil its housing quota, given the Westfield and other developments proposed in Croydon. There are also other lands, such as those owned by the local NHS hospital that would be suitable for development and at the same time give ready money to the NHS. Furthermore, the existing main roads are already inadequate to service the village without adding a further 751 homes along with the years of road works that will be associated with upgrading the utilities, make travelling through the village more difficult and dangerous. I urge you to reconsider your plans	Change	As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

3546/01/007/DM43.4/O	Mr Mark Hawkins	Object		DM43.4 542	<p>Kindly note that as a homeowner (and shareholder) of Shirley Oaks Village, resident here for over 25 years, I am deeply concerned that Croydon Council seems to think it has the right to change the nature of the estate from being protected Metropolitan land to being unprotected land ripe for excessive building.</p> <p>Not only is the green space around the current estate, a much loved feature, it also provides a sanctuary for wildlife and allows for nice walks for local people. The road was built to be narrow and already there are problems with passing places for traffic to the hospital and synagogue. Last year the council allowed a resident to build a fence which obstructs drivers vision when turning out of Cornflower Lane and has caused several minor incidents. Simply put, the roads here were not built for traffic!</p> <p>The idea of ruining my neighbourhood by cramming more housing onto unsuitable roads, lacking shops and facilities whilst depriving me of the green spaces I love and part own makes me sick to my stomach.</p> <p>There are so many brownfield sites that could be built on and provide more suitable housing in and around Croydon that I feel that this attack on Shirley is politically motivated. I formally ask the council to re-consider the proposals</p>	Change	As this site does not have a willing landowner it is unlikely that it would be developed. There is a lot of history around here and the loss of the Shirley Lodge in the late 1990s was a big mistake. Generally in Croydon there is no room for more traffic that new building will generate and judging from what I have seen around Croydon squeezed housing units with small garages not fit to store cars and little or no off street parking will only add to stress and problems in the future.</p>	Change	As this site does not have a willing landowner it is unlikely that it would be developed. 3580/02/007/DM43.4/O	Mr Michael Hewish	Object	DM43.4 542	<p>I wish to object to the detailed proposal in Policy DM43 in relation to land west of Shirley Oaks Road, reference number 542 (Site). The Site is owned by Shirley Oaks Management Limited (Company). There are over 480 shareholders of which I am one. The Site is presently protected by the designation of the Metropolitan Open Land. Separate objections have been made in relation to the proposal to de-designate this land as MOL. Those objections are repeated for the purpose of this representation. The designation as MOL should remain. If it is decided de-designation proceeds, the Site should be designated as Local Green Space. Proposed development of the Site in the event that the present designation remains or that re-designation takes place as Local Green Space would not be consistent with national policy under the NPPF and such a proposal would be incompatible. The proposed approach is not appropriate nor would it enable sustainable development for the reasons set out above and those identified in respect to the objection to Policy SP7. 3593/01/007/DM43.4/O	Mrs Margaret Hawkins	Object	DM43.4	<p>Ref. 542 - Land West of Shirley Oaks Road</p> <p>I am objecting to the proposal for de-designation of this area as Metropolitan open land, with a view to "working with the landowner" to bring development of up to 236 houses forward. It is a vital part of the green chain and wild-life corridor through Shirley. This can clearly be seen by viewing Google satellite photos of the area. This land contains hedgerow and meadow habitats as well as some mature trees.. On the Northernmost part of this land meadow flowers have been sown by the management company to encourage insects and other wildlife. Most of this land is jointly owned by 500 equal share-holders, which would make "working with the landowner" a complex issue. The council would be unlikely to get the co-operation of all 500 shareholders. Part of this land is consecrated land owned by the Jewish community. The Synagogue, car park and frontage I understand will not willingly be sold. Development of this area would put extra stress on the road junction between Shirley Oaks Road and the A232 Wickham Road. Traffic in this area is already extremely slow at peak times. If you look back through the records, planning permission was once sought for a supermarket where the synagogue now stands. It was denied on the basis of the increased traffic and stress on the road junction. Putting all the parcels of Shirley Oaks land (for which the council has plans) together (ref 541, 542, 548 and 128) would potentially add 683 new homes. Peak road traffic would be extremely problematic.</p>	Change	<p>As this site does not have a willing landowner it is unlikely that it would be developed. 3704/01/002/DM43.4/C	Mrs J Horton		DM43.4 542	I wish to log my objection to the borough-wide planned changes Croydon Council are proposing to make in their Local Plans for 2016-2036. These proposals are 750 new homes in Shirley Oaks and 35 new homes on the Shrublands Estate. Also the proposed work to the two large gypsy/travellers site in Coombe Farm and the Conduit Nursery of Coombe Road. 3713/01/004/DM43.4/O	Ms J Stokes	Object	DM43.4 542	I object to the proposals to completely change Shirley Oaks Road which is a green lung for that part of the Borough. The amount of car ownership will rise significantly as the bus service is infrequent. The traffic will clog up the Wickham Road even more than now., St. John's school has already plans for more classrooms and the intake will rise in all the local schools. Also pulling down established houses and putting up more flats is detrimental to the character of the area. We had a once in a lifetime chance to improve the look of Croydon, on a human scale. Instead of which we are building hideous tower blocks, while in other parts of the country they are pulling them down. Nobody should have to raise a family in a block 44 stories high. They will eventually become the slums of the future.	Change	As this site does not have a willing landowner it is unlikely that it would be developed. Objecting to the decision to de-designate this land as Metropolitan Open Land (MOL). Also be objecting to any of these five sites being used for residential development. Not only would this entail the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of the area, the local road infrastructure couldn't cope with the additional traffic.

If the Council won't keep it as MOL, it should at least designate it as Local Green Space so that it has some protection.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

I live in Verdayne Avenue, on the odd side, and objecting to these plans sounds like simple "NIMBY ism" but, literally this development is in my back garden. With this development what little is left of the "green" character of Shirley will be lost under a wave of concrete. Surely all the "brown field" sites should be identified and developed first. When the Shirley Oaks estate was first built the fact that the houses had small gardens was compensated by the greenery of the area around them, that "compensation" is now going to disappear. The plans for the new homes seem to show that these buildings will be of greater density and crowding. On the plans there doesn't appear to be any infrastructure planned to go with the homes. The schools, in Shirley, are full, filled by children "bussed" in from other parts of the borough. Does this, then, mean the children from the new homes will have to catch buses out of Shirley to attend schools elsewhere? Though the bus routes through Shirley are good most of the time there is chaos at school times especially in the afternoon as the schools empty and the pupils leave the area to go home. It would appear that the whole of the school population of Croydon will be moving every morning and evening. The transport system on the Wickham Road works at the moment but extra traffic, people and cars, would put it under considerable strain. The tram stops are not close enough to Shirley to help dissipate the human traffic. Will the roads around the area be widened, especially in the Shirley Oaks estate, to take extra vehicle traffic? At present the buses and refuse lorries have difficulty negotiating the narrow road. The same argument goes for doctors. Again the surgeries, in Shirley, are full at present, where in the plans are the provision for this new health centres? Are they suppose to attend the A&E department at "Mayday" hospital which even now has problems coping. There have been previous plans to build on the land but they have failed due to the unsuitability of the ground, high water table etc. These problems, I take it, have "gone" away?

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

I am writing this email to voice my deep concern about the planned development in the private estate that I have lived in for many years , namely:

•Ref 541, Ref 542, Ref 548, Ref 128 and Ref 504 – all on Shirley Oaks Village private estate.

Firstly, it would have been nice to be informed about any planning ideas in writing rather than see small notices pinned to lamp post around the estate. I would also like to draw your attention that our land was designated by Croydon Council in 1985 as 'Amenity Open Land' for the residents and for which we pay a quarterly fee for maintenance of the green open land, but more importantly can I bring to your notice that this land was transferred to the Shirley Oaks Management Company, with each property owner as a shareholder in that company. This land is for our use and not for developing a concrete jungle on every single green inch of land in Croydon.

The Shirley Oaks estate has a great community spirit and has become a real sought after location for families to live due to the community nature and the lovely open land that we have, by developing on this land you will be taking away all of the good that has been built up over the years by the many residents we have as well as making the village overcrowded, bringing in more traffic thus resulting in more danger on the main Primrose Lane for people crossing and driving, congestion for parking and so on. I can also bring to your attention that we have already had a couple of fatalities on that main road that runs through the village and this will make it worse for the safety of our kids.

I am sure you have now had many hundreds of emails from residents like myself voicing the same concerns with your planning proposals!

This land belongs to us as residents so I feel its harsh to take this away and start your own developments.

(1) The land is owned by the residents with a covenant on it. Our houses are condensed with tiny gardens, the compensation for which is the open ground (owned by all residents) that we are able to use. My understanding is that the original development was curtailed by the then council because of the density of housing/population on Shirley Oaks. (2) Drainage on Shirley Oaks is very poor. I am given to understand that the water table is very high and indeed during the winter months the open spaces are sodden, holding water which could probably present a flooding problem. It is so bad in some places that the ducks move in! (3) Could the services (sewerage etc) really support the number of properties proposed. There have already problems from time to time, especially down Shirley Oaks Road. (4) Realistically, whatever type of property would be built, you could expect an average of two cars per dwelling. Shirley Oaks Road/Primrose Lane are extremely hazardous and would not be able to sustain another probably 500/1000 cars. Where would people park. There are enough problems on here already with regard to parking, deliveries etc. Both Shirley Oaks Road at the Wickham Road end and Primrose Road at the Shirley Road end are used as car parks and quite often it takes a bit of delicate manoeuvring to get round, especially if you meet a bus. (5) Planning permission has been refused for the plot in Poppy Lane (128) a number of times. The area was declared as a nature reserve some time back and I was unaware that this had changed. Part of the reason for the last planning application was the high water table, so how come there has been a change of mind?	Change	As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

3885/01/005/DM43.4/O	Mrs Barbara Cumming	Object	DM43.4 542	I object to the planned five sites being used for residential development in Shirley, Croydon: Land to the west of Shirely Oaks Road identified as suitable for 88-236 homes. Not only would this entail the loss of a vital green corridor between Shirely Oaks and the surrounding areas, changing the character of the area, the local road infrastructure will not be able to cope with the additional traffic.  Whilst I agree that we desperately need new housing, it should be built on brownfield sites - not our remaining precious green spaces!	Change	As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.
3892/01/004/DM43.4/O	Ms M Bailey	Object	DM43.4 542	The Metropolitan Open Land on either side of Shirley Oaks and all around Shirley Oaks Village should not be de-designated, but designated as Local Green space. It is very important that Croydon needs green spaces as these give the feeling of openness and a pleasant environment in which to live. Upwards of approximately 700 hundred odd homes could be built in this area which will lead to possible flooding of areas as rain water will not be able to drain away as easily as it would if it was left as a green belt area. Secondly the local road infrastructure would not be able to cope with the additional traffic stemming from these additional homes, and this includes public transport. Thirdly are the NHS facilities in the area able to cope with this large influx?	Change	As this site does not have a willing landowner it is unlikely that it would be developed. 3895/01/004/DM43.4/O	Mr & Mrs Asfahani	Object	Soundness - Justified	DM43.4 542	Every year we get proposals and consultations for building more homes or structures on Shirley Oaks green land. But must admit the above proposal is the worst and the most ridiculous so far. From what we read, the proposal suggests to build around 750 new homes on what's left of green patches in the village.	Change	As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.
					The village is already over crowded with Shirley Oaks road and Primrose road looking like a huge PARKING LOT throughout the day. One cannot begin to imagine what it would like with more residents and obviously with at least double the number of cars to that of the number of the new homes proposed.		
					We bought our property back in 1989, paying above market value at the time, for the sole purpose that the village is quiet and has some green land. Our home was one of the last phases of any buildings to be erected in the village, or so we were promised and confirmed in writing. Since then, a synagogue was built, bus 367 goes through the narrow winding road, every year for the last few years we get proposals to use our green land for one suggestion or another and now this proposal.		
					We completely oppose this proposal and hope that the council will appreciate that it's not all about the money and just building more houses, but quality of life matters just the same. On one hand the government and councils encourage and push people to plant more trees, grow their veg, recycle etc... Yet on the other hand come up with proposals to use every last green patch to build more structures and homes.. Doesn't make any sense.

Shirley is already tight for school places. St John's, in Spring Park Road, is increasing to 2 form entry already with the number of children living locally requiring education. The 367 bus serving the Shirley Oaks Village is infrequent and much more transport will be required. Parking is already a nightmare and with the lack of parking contemplated with the new build supply the problem will only get worse. There will be an incredible build up of traffic on the already congested Wickham Road and other local roads.</p> <p>I believe this proposed building of traveller's sites and homes will change the whole ethos of Shirley and cause resentment and the lowering of living standards. This is a particular area of standard housing and should not be changed by the building of blocks of houses. Garden land should not be built on and this is an inappropriate development and should not be allowed to go ahead. Metropolitan Open Land has the same protection as the Green Belt and the rules should be followed accordingly..</p>	Change	As this site does not have a willing landowner it is unlikely that it would be developed. 3954/01/003/DM43.4/O	Mrs L McLoughlin	Object	DM43.4 542	<p>Having lived on Shirley Oaks for almost 30 years, I strongly feel that any changes to the current planning policies would have serious and negative consequences for the current residents. Not only would properties lose significant value, the estate would also lose its 'village-like' feel that lead us to move there in the first place. We were also told at the time of purchase that Shirley Oaks would always remain as metropolitan open land, and this also heavily influenced our purchase. To add to this, there is also the issue of increased traffic through the estate. There was a fatal accident only a couple of years ago by the bend of Poppy Lane and I feel that with the prospect of even more houses being added to the estate there will be a significantly higher risk of further accidents</p>	Change	As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

3968/01/004/DM43.4/O	Ms M D Chandler	Object	DM43.4	<p>I object on the grounds of appalling over crowding, your plan would bring at least 2000 more vehicles onto the estate. It is already nearly impossibly to get in and out of the estate by car at rush hours. The roads on the estate can barely cope as it is with the bus route. Theextra vehicles would include many commercial vans which would be parked over night and weekends causing havoc on the narrow roads of the estate. A single bus route as at present running every 20mins.causes problems how do you intend to increase public services more bus routes and more frequent timetables....more chaos! I along with others pay to maintain and the open space as a share holder. Your proposal would seriously devalue our properties and I for one will be seeking serious compensation for this, I trust Croydon has very big capital reserves to meet our legal challenges and compensation. Our gardens are small this is why the land has been designated open land so we have some open space in common with the surrounding houses. Your plans are ill conceived and will effektivly destroy Croydon further. There are large areas of open land in Addington which Croydon could use and I presume already own without spending our money attempting to purchase land which will be extremely costly to Croydon in terms of the compensation that you will need to pay out and in the legal fees entailed.</p>	Change	<p>As this site does not have a willing landowner it is unlikely that it would be developed. 3970/01/004/DM43.4/O	Mr N Oratis	Object	DM43.4	<p>I object to the decision to de-designate this land as metropolitan open land for the use of residential development for the following reasons. These areas are also being used every day and regularly by myself, family members, neighbours friends and many visitors wanting to take there dog for a walk or spending time with family and kids. Ref 548, 542, 541, and 128 are owned by Shirley oaks management. 488 residents are shareholders in this company. There was a decision in 1985 for this land to be open for use by the local residents because the gardens of all homes were considered small. I would also like to mention the increase in road traffic and pollution due to the development. These changes, if implemented, will change the very nature of our village. It will not only deprive the residents of very essential open green areas, but it will make the whole place very crowded, much more polluted and quite uglier. This would rob us of essential attractions that made us come to this village in the first place. I strongly object to any of these changes and trust that every resident on this estate feels the way I feel. I did not speak to everyone, but the many I spoke with feel as strongly as I do towards this unfair proposal. I have been living in this village with my family since 1985, I would like to see the Croydon Council improve it rather than ruin it. I hope the Council will reconsider its plans.	Change	As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

I am grateful to the Council for consulting on the detailed policies and proposals that will make up the Croydon Local Plan. There is much in the document that I agree with, but some of the proposals would, in my opinion, change the character of parts of Croydon very much for the worse. I hope you will forgive me if I focus on these areas of contention. I am therefore writing to formally object to:

1. de-designation of the Metropolitan Open Land around Shirley Oaks Village;

2. the use of the following five sites for housing:

- land at Poppy Lane reference number 128;

- Stroud Green Pumping Station, 140 Primrose Lane reference number 504;

- land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House reference number 541;

- land to the west of Shirley Oaks Road reference number 542; and

- land to the rear of 5-13 Honeysuckle Gardens reference number 548.

If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces. Building housing on them would mean the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of this part of Shirley. As far as I can see, these are the only bits of Metropolitan Open Land in the whole borough which the Council is proposing to de-designate and allow housing to be built on. Why has Shirley Oaks been singled out in this way?

3. the use of the following locations as gypsy/traveller sites:

- Coombe Farm off Oaks Road reference number 502;

- Coombe Lodge Nurseries off Conduit Lane reference number 661; and

- Pear Tree Farm and Pear Tree Farm Cottage on Featherbed Lane reference number 755;

As the Council acknowledges, all three of these sites are in the Green Belt and one of them borders a Site

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

of Nature Conservation Interest.  
Policy E of Planning Policy for  
Traveller Sites, published by the  
Government in August, says very  
clearly:

“Traveller sites (temporary or  
permanent) in the Green Belt are  
inappropriate development”.

The Council's approach is clearly in  
breach of that policy. All three sites  
are also some distance from public  
services and they are all in the same  
part of the borough (two are in  
Heathfield ward, one just over the  
border in Croham). Why has  
Heathfield been singled out in this  
way? If the Council really needs, as  
it claims, to quadruple the number of  
gypsy/traveller sites in the borough -  
which I would question - they should  
look elsewhere (for example, off the  
Purley Way where the existing site is);

4.focussed intensification associated  
with gradual change of an area's  
local character under Policy DM31.4  
of the Shirley Road Shopping  
Parade, Shirley local centre and  
Forestdale. Shirley Road Shopping  
Parade is surely worthy of protecting  
rather than replacing with medium-  
rise blocks? Shirley local centre is  
defined not just as a stretch of the  
Wickham Road (where some  
intensification may be appropriate)  
but Ridgemount Avenue, Wickham  
Avenue, Peregrine Gardens, West  
Way Gardens, the northern section of  
Hartland Way and the western parts  
of Bennetts Way and Devonshire  
Way. Replacing the largely semi-  
detached buildings in these  
residential roads with medium-rise  
blocks would completely change the  
character of Shirley. Replacing the  
largely terraced housing and small  
blocks of flats in Forestdale with  
medium-sized blocks would  
completely change that area too;

5.Policy DM2 on development on  
garden land, which is too subjective  
and therefore too weak. There  
should be a much stronger  
presumption against development on  
garden land; and

6.Policy DM28, which should allow  
higher levels of parking in  
developments of low public transport  
accessibility. Restricting parking  
spaces in such areas doesn't lead to  
fewer people owning their own car; it  
just leads to greater competition for  
existing spaces.

4115/01/003/DM43.4/O	Miss Y Mithiradaas	Object	DM43.4 542	I'm writing in response to your notice for development of the greenfield sites on the Shirley Oaks Village estate to change the status of this. Land to allow development of 751 new homes. When I bought my house 18 months ago it was purchased on the understanding that together with the other householders on the estate that we would have joint ownership in the land directly surrounding the estate and that a quarterly bill would be levied to cover the maintenance of the land. I purchased the property in the knowledge that there were designated areas of green space surrounding the estate and was led to believe that these would remain. I strongly object to the proposal of building any further houses on the land surrounding the estate on the grounds that the main road through the estate is dangerous enough as it is. To more than double the amount of residents using the estate is ludicrous. The road was designed to cope with a certain amount of traffic and is already dangerous at time. 4146/01/005/DM43.4/O	Mr & Mrs Carpenter	Object	DM43.4 542	These proposals to build up to 750 homes on land (assuming it is de-designated) will mean the loss of vital open spaces and will place burdens on local transport, roads, schools and medical facilities which are already under pressure.	Change	As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.
4147/01/004/DM43.4/O	Mr & Mrs A Catherall	Object	DM43.4 542	The de-designation of Metropolitan Open Land status on Shirley Oak will be vigorously opposed. I can see no reasoned explanation in the planning document for such a course of action nor is there any evidence of the thinking of the Council in the previous plan or 2012 Inspector's Report to explain how MOL status has been revisited with the conclusion that MOL designation be withdrawn. It also seems to have escaped the planning process that Shirley Oaks is governed by a Section 52 Agreement under the 1971 Town and Country Planning Act controlling development of the 'amenity lands' on Shirley Oaks. Further, the land is owned by the 488 Shirley Oaks resident property owners as shareholders of Shirley Oaks Management Ltd that owns the land. There is, therefore, no likelihood of the land ever being sold voluntarily. In summary, this part of the proposed Local Plan is undeliverable.	Change	As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

We are writing to object to the proposals to:

1. de-designate the Metropolitan Open Land around Shirley Oaks Village.
2. the use of the following sites for housing:
  - land at Poppy Lane reference number 128;
  - Stroud Green Pumping Station, 140 Primrose Lane reference number 504;
  - land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House reference number 541;
  - land to the West of Shirley Oaks Road reference number 542;
  - land to the rear of 5-13 Honeysuckle Gardens reference number 548;

The Shirley Oaks Village site currently provides a balance of high density housing offset by areas of green space. The proposals for de-designation of the Metropolitan Open Land and additional housing on the areas of green space would disrupt that balance and greatly increase the density of housing to an unacceptable level. Access to the Shirley Oaks site is by way of Poppy Lane and Shirley Oaks Road which feed into Shirley Road and Wickham Road respectively. Both Shirley Road and Wickham Road are used heavily throughout the day and subject of long delays particularly at peak times. This has resulted in Poppy Lane and Shirley Oaks Road experiencing heavier traffic flows than they were designed for as commuters cut through between Shirley Road and Wickham Road.

Public transport within the Shirley Oaks site is limited to a small single decker bus due to the road infrastructure and road system. Whilst there are bus services which serve Shirley Road and Wickham Road these are already oversubscribed and subject to delay due to existing traffic congestion.

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

4161/01/010/DM43.4/O	Mr Trevor Watkins	Object	DM43.4 542	The use of the following five sites for housing: land at Poppy Lane site reference number 128, Stroud Green Pumping Station, 140 Primrose Lane site reference number 504, land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House site reference number S41, and to the west of Shirley Oaks Road site reference number 542; and land to the rear of 5-13 Honeysuckle Gardens site reference number 548. If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces. Building housing on them would mean the loss of a vital green corridor between Shirley Oaks and the surrounding areas and change the character of this area.	Change	As this site does not have a willing landowner it is unlikely that it would be developed. 4166/01/007/DM43.4/O	Carol Holmes	Object	DM43.4 542	I object to both the de-designation and also to the subsequent house-building at the following sites: <ul style="list-style-type: none"> <li>•Land at Poppy Lane (reference number 128);</li> <li>•Stroud Green Pumping Station, 140 Primrose Lane (reference number 504);</li> <li>•Land to the east of Shirley Oaks Road and to the rear of beech House and Ash House (reference number 541);</li> <li>•Land to the west of Shirley Oaks Road (reference number 541);</li> <li>•Land to the rear of 5-13 Honeysuckle Gardens (reference number 548).</li> </ul> <p>The very minimum designation for the proposed sites should be as Local Green Spaces, in order to give some protection against over-development</p>	Change	As this site does not have a willing landowner it is unlikely that it would be developed. 4174/01/004/DM43.4/O	Mr B Williams	Object	DM43.4 542	I object to the de-designation of the land as Metropolitan Open Land and its proposed use for housing. The open spaces are collectively designated as Metropolitan Open Land and provide several links in the Shirley Green Chain. They help to form the sort of network necessary to ensure the maintenance of the current range and diversity of our flora and fauna. In addition this is a floodplain. There is a sink pond to the rear of Honeysuckle Gardens and if this overflows any properties would be flooded. There is also the potential for flooding of future planned properties. The one road through Shirley Oaks Village could not cope with the additional traffic and its exit on to the A232 would cause yet another bottleneck on this already congested road.	Change	As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

3 Proposed Policy DM43 De-designation of Metropolitan Open Land around Shirley Oaks Road

I object to the de-designation of Metropolitan Open Land in the vicinity of Shirley Oaks Road and Shirley Oaks Village. The land should be at least be designated as Local Green Space, for its protection from development.

This open space provides a green corridor between Shirley Oaks and the surrounding areas, and should be retained in its present form.

I also object to the following specific proposals for the building of new homes on this site, as detailed in Changes to the Policies Map arising from Proposals contained within the the Croydon Local Plan; Strategic Policies Partial Review and the Croydon Local Plan, Detailed Policies & Proposals:

- Policy DM43, reference 128 to build new homes at Poppy Lane
- Policy DM43, reference 504 to build new homes at Stroud Green
- Pumping Station (including the conversion of the pumping station which is a locally-listed building)
- Policy DM43, reference 542 to build new homes on land to the west of Shirley Oaks Road
- Policy DM43, reference 548 to build new homes on land to the rear of Honeysuckle Gardens

Not only would these developments entail the loss of the green corridor between Shirley Oaks and the surrounding areas, the local road infrastructure would not be able to cope with the additional traffic. Also, the already-stretched social and healthcare facilities would be overloaded.

Not only would these developments entail the loss of the green corridor between Shirley Oaks and the surrounding areas, the local road infrastructure would not be able to cope with the additional traffic. Also, the already-stretched social and healthcare facilities would be overloaded

For the reasons given above:

1. I do not think that the preferred approach is the most appropriate for Croydon to help us meet our Strategic Objectives set out in Section 3.
2. The preferred approach is deliverable, but not acceptable.
3. I do not think the preferred approach enables sustainable development, because it will compromise the ability of future generations to meet their own needs.

I object to the use of the following five sites for housing - land at Poppy Lane reference number 128; Stroud Green Pumping Station, 140 Primrose Lane reference number 504; land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House reference number 541; land to the west of Shirley Oaks Road reference number 542; and land to the rear of 5-13 Honeysuckle Gardens reference number 548; If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces. The Council should focus on developing other land in the Croydon borough such as unused office blocks, derelict corporate buildings/factories/warehouses which have not been occupied for years instead of attacking the green areas which are enjoyed by the residents in their respective areas. The proposals to build circa 700 houses in such a small area will cause the following detrimental effects to the local residents: depreciation of the value of the houses purchased in the relevant areas, too much strain on the water and sewerage systems in the locality where there is already a high water table. This could result in undue flooding and drainage problems, structural problems in years to come as the land is not fit for such intensive building, increase in traffic on Shirley Road, Wickham Road, Lower Addiscombe and Addiscombe which is already congested. This will unduly increase pollution levels which are already toxic. This will undoubtedly cause an increase in the health problems of the people in the locality such as lung cancer and other respiratory illnesses which will in turn place greater stress on the NHS services, cause more people to take sick days which will result in lower incomes obtained and eventually less tax revenue generated. This will have a knock on effect on the economy which is to say at the very least, bleak, the three green spaces in the Shirley Oaks Village are owned by the 488 Freeholders. Each Freeholder owns one share in the nominee company, Shirley Oaks Management Limited which owns the land on behalf of its shareholders. Building upon this land would seriously undermine the value of the land purchased by the Freeholders and reduce quality of life. If the residents wanted to move, it would prove near impossible because of the resulting lower sale prices of their respective houses imposed by the Council's building plans. This would appear to be unfair

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

for the Council to impose such hardship on the residents. I would urge the council to build upon land in the Croydon borough which is derelict and contains buildings which have not been used for years. These buildings can be knocked down to build the much needed housing for generations to come. These unused or derelict buildings serve no purpose to the local residents and are of no value to the residents. The Council should endeavour to create value where it is needed. This will in turn improve the condition of the abandoned areas. This will also prevent squatting and other unlawful uses of such buildings. I witnessed one example last year where the old post office building next to East Croydon Station was used as a rave containing over 1,000 people. This posed a risk to the safety of the passers by and the increase in crime. The Council's redevelopment of such spaces could be highly beneficial to the area. The green spaces are however of great importance to the local residents. The residents enjoy these spaces for walking their dogs, recreational and outdoor activities, space for children to play, piece of mind for the resident who works in the city and comes home to a peaceful environment and it provides space for those residents who already have very small back gardens.

The use of the following five sites for housing:  
Land at Poppy Lane (ref number 128)  
Stroud Green Pumping Station, 140 Primrose Lane (ref number 504)  
Land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House (ref number 541)  
Land to the west of Shirley Oaks Road (ref number 542) and land to the rear of 5-13 Honeysuckle Gardens (ref number 548)  
When the London Borough of Lambeth closed the children's home, known as Shirley Oaks, Croydon Council determined to keep the building redevelopment of the site broadly in line with the building density that had existed for most of the previous hundred years and subsequent applications by the then developer for increased housing density were rejected. There were a number of reasons for maintaining the original policy amongst which were the need to maintain the established green corridor, retain the character of the area and to maintain the surrounding traffic volumes at a manageable level. The decision to designate the land as Metropolitan Open Land was to ensure that in future further building on the land could not take place thus re-affirming the principles established by the original policy decisions. Nothing has changed in the ensuing years to justify any variation to that policy.

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

I am dismayed at the consideration being given to the above, particularly concerning that proposed in the Shirley area.  
I have been a Shirley resident for almost 30 years and to date have enjoyed what the area does offer both for the community and with regard to open green spaces, which are precious to the health and wellbeing of all ages. Why should future generations be unable to continue to benefit from an outdoor environment as hitherto?  
I strongly object to de-designation of the current Metropolitan Open Land and would hope that at least it could be protected as Local Green Space with regard to future development. This is particularly pertinent with regard to the proposals being considered for the Shirley Oaks area. The present road infrastructure through the estate leaves a lot to be desired and any more traffic will be a great cause for concern, to say nothing of the loss of wildlife and spacious living. If we had wanted to live in a highly densely populated area, we would not have chosen the Shirley area to relocate into, rather the centre of the town. The redevelopment of brownfield sites is more acceptable and there must be many of these in the Croydon area to develop without encroaching on valued green spaces.

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

I wish to formally object to:  
 1. All the proposed policies relation to the re-designation of land to allow building development at Shirley Oaks Road and land around Shirley Oaks Village.  
 2. The land at Poppy Lane (reference 128)  
 3. Stroud Green Pumping Station, 140 Primrose Lane including the conversion of the locally listed pumping station (reference 504)  
 4. Land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House (reference 541).

 These proposals are NOT appropriate for Croydon to meet its Strategic Objectives.  
 Additionally the proposals are NOT DEUVERABLE or SUSTAINABLE as:  
 • Croydon have already announced that it is not necessary to deliberately destroy MOL to reach their housing requirements.  
 • National and London Plans do NOT require or expect Local Authorities to degrade MOL to generate additional housing.  
 • The loss of this MOL will entail the LOSS of a vital green corridor between Shirley Oaks through to Ashburton Playing fields, across to South Norwood Park and surrounding Areas.  
 • The above areas are vital to sustain the drainage of surrounding flood areas.  
 • The above mentioned areas are referred to the "lungs of Croydon" as they sustain carbon dioxide capture (photosynthesis), oxygen release (photosynthesis) and biodiversity. Local wildlife includes badgers and bats.  
 • Green areas increase the character, desirability and amenity of residential areas.  
 Green areas have a strong positive impact of the character of surrounding residential areas.  
 • The proposed increase in housing will put an additional burden on public transport, roadways and street parking and other services. The additional volume of traffic will create additional road hazards.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

7308/01/005/DM43.4/O	Mr John Carley	Object	Soundness - Justified	DM43.4 542	I object to the de-designation of the Metropolitan Open Land around Shirley Oaks Village; reference Numbers, 128, 504, 541,542 and 548. This is currently Green Space and provides vital green recreational area and buffer between Shirley Oaks and the surrounding area.	Change	As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.
7314/01/003/DM43.4/O	P L Johnson	Object		DM43.4 542	I wish to object to the use of the following sites for housing: - Land to the east of Shirley Oaks Road (ref no 541) - Land to the west of Shirley Oaks Road (ref no 542) We should preserve these pastoral and woodland sites for environmental reasons; for nature and humanity. Due to high traffic usage of the A232 and Upper Shirley Road - particularly when the M25 gets closed - the air quality in this area is not perfect.	Change	As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.
7320/01/006/DM43.4/O	Mr Steve Westray	Object		DM43.4 542	The de-designation of Metropolitan Open Land around Shirley Oaks Village and either side of Shirley Oaks Road. At present I understand that Metropolitan Open Land has the same protection as the Green Belt and I believe that it is vitally important to retain the controls around our green spaces in Shirley. If any additional homes were to be considered for this area then they should be restricted in number and carefully planned in order to retain the character of this area. The idea of building up to 750 new homes is totally out of keeping with this objective and would be considerable strain on local infrastructure and resources. New housing on this scale would lead to a significant increase in traffic along the Wickham Road which is already extremely busy not only servicing the residents of Shirley but as an important thoroughfare into Croydon.	Change	As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

Development of the site of the former pumping station (reference 504): It was established at the time the Shirley Oaks village was built that this land could not be built on, as there is an Artesian well on the land and any development would risk polluting the water source. The road around Shirley Oaks only has 2 exits as well, so would make it very congested as there are only 2 options for traffic to leave and enter and there are already a lot of problems at the Wickham Road end as people drive in and out.

Re your development plans  
541,542,548,128 and 504.  
Consultation.

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

I am writing in response to your notices for development of the greenfield sites on the Shirley Oaks Village estate, changing the status of this land to allow development of around 700 new homes.

When I bought my house here 18 years ago, it was on the understanding that this had been designated by Croydon Council as metropolitan amenity open land, an attractive feature of the original development, important not least due to the relatively small gardens of some properties, a mixture of unit sizes in an harmonious design. Thus there is a mixture of family unit sizes and age groups at home here. For many years, I and my fellow-resident members of the Shirley Oaks Management Ltd company have contributed regularly to First Port Property Services and their predecessors under our common upkeep obligation, including provision of boundary posts at various points of these areas to ensure that visiting Travellers could not reoccupy them.

As I understand your plans, you now wish to "designate" this as non-metropolitan land, on which purchasers could build however suits their purposes. This does of course risk a complete change in the nature of our Village. I cannot pretend to understand how you can effectively cut a swathe through all of this, even if you do consider it justified. Some residents might I imagine now be considering the impact on their original investment and individual legal aspects. Against these general considerations, I would like to highlight some specific and practical concerns at the outset.

**ROAD SAFETY**

The perimeter road via Primrose Lane and Shirley Oaks Road is arguably no longer fit for purpose, increased car ownership and parking, fast through traffic including commercial and public transport all contributing. Buses on the 367 route for example frequently mount pavements to pass each other. There have been accidents, some serious, even fatal and involving elderly pedestrian residents. The road surface is nowadays subject to excessive heavy usage. Clearly, 700 new homes will surely accentuate these problems and dangers.

**ENVIRONMENT**

Your plans will effectively remove an important green-field area and with it much unique wildlife. Residents will lose many of the valuable areas for walking, exercise and fresh-air, as will visitors. Any balanced village appearance and community feel to the estate will be consumed by so many new properties of different designs.

In summary many will surely feel betrayed by a Council which proposes removing green-fields against all promises. Some might also suspect that, whatever the social arguments, their interests are being sacrificed against political and ultimately commercial imperatives.

1713/02/006/DM43.4/O	Alison Connor	Object	Soundness - Justified	DM43.4 548	<p>Once the area surrounding Shirley Oaks Village is re-designated the Council plans to build 751 homes on 5 separate sites.</p> <p>Supposing the average house is for 4 people, 3000 people in total will move to the area. The housing will attract families - potentially half being children. The Council mention no where in their 700 page document about the building of new schools (primary and secondary) nor the building of doctor surgeries, nor the expanding of the local shopping area let alone the already stretched local road infra structure. Our local area can't cope as it is - St John's primary school has applied for an extension to cope with the current demand on its places. During rush hour buses frequently don't stop at bus stops because they are full. Traffic is often diverted down our road, Shirley Church Road, if there is an accident on Wickham Road or Gravel Hill. The dual carriage way (Shirley Park) is crawling along during rush hour. The council are planning to add another 1000 plus cars to this equation. Shirley is often described according to estate agents as leafy, popular, excellent schools. Prices reflect this. Just walking around the area people look after their houses and take pride in living here. People pay more money to live in this area. By building 751 more homes the character of the area will change completely.</p>	Change	<p>As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.</p>

We are also writing to object to Croydon Council's plans to de-designate the Metropolitan Open Land on either side of Shirley Oaks Road and all around Shirley Oaks Village, changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan:

Your draft Local Plan identifies five sites:

1. the land at Poppy Lane is identified as suitable for 51 to 107 homes (pages 445-446, reference number 128);
2. Stroud Green Pumping Station, 140 Primrose Lane, including the conversion of the locally-listed pumping station, is identified as suitable for 26 to 68 homes (pages 451-452, reference number 504);
3. land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House is identified as suitable for 80-215 homes (pages 453-454, reference number 541);
4. land to the west of Shirley Oaks Road is identified as suitable for 88-236 homes (pages 455-456, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 542);
5. land to the rear of 5-13 Honeysuckle Gardens is identified as suitable for 59-125 homes (pages 457-458, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 548).

I am writing to object to:

Change

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

1.THE DE-DESIGNATION of the following five pieces of land as Metropolitan Open Land around Shirley Oaks Village and their proposed use as housing:

Land to the rear of 5-13 Honeysuckle Gardens reference number 548.

There is only one narrow very winding road which runs through the village and this could not cope safely with any additional traffic. It is single file around bends as it is and the local road infrastructure would be over-burdened.

These open spaces are collectively designated as Metropolitan Open Land and it would be unacceptable to lose a link to this chain.

Additionally, this area is a flood plain and there is a sink pond to the rear of Honeysuckle Gardens. There would be a detrimental effect and potential flooding of existing and planned properties.

Three of these sites are owned by the residents of Shirley Oaks Village through the Shirley Oaks Management Company in which every freeholder has a share. The three land sites in question are:

- 1.Land to the east of Shirley Oaks Road reference number 541
  - 2.Land to the west of Shirley Oaks Road reference number 542
  - 3.Land to the rear of 5-13 Honeysuckle Gardens reference number 548
-

I am writing to voice my full-throated objections to the above proposals because of the irreparable damage it would do to the character of one of the leafier, more pleasant, parts of the borough. The council seeks de-designation of Metropolitan open land that, as a homeowner in Shirley Oaks Village, I own a share of, and it is protected by covenant. Such thoughtless destruction of our precious little green space (we were granted this Amenity Open Land in 1985 by the council due to our under-sized gardens) is obnoxious, ill-conceived and damaging to the value of our properties, as planning blight could linger for a decade. Myriad other neglected parts of the borough are far more appropriate for such massive development and would not stir up so much ire from the current residents, nor would they require the politically-expedient moving of goalposts regarding land use. Our village simply does not currently have the infrastructure nor the capacity to expand in order to cope with these proposals. There is barely enough parking space available in the village at present, so quite where up to 683 other families will park and seek recreation, I do not know. Quite how all the construction vehicles involved in such huge building works would access the proposed sites without further detriment to the quality of life of the residents is another issue I raise. We are served by one bus route that can only use small, single decker buses. The roads are too narrow for larger vehicles. How would this be overcome? Additionally, the fact that the council would seek to house the travelling community so close to the town centre, on land where in 2012 a group of them set up an illegal encampment and defecated in our woodland, beggars belief. If the council has an inexplicable legal obligation to designate land to travellers, then expand capacity at their existing sites in Beddington Lane and Featherbed Lane rather than dispersing them further across the borough into otherwise salubrious areas. I do hope that common sense prevails and that all five of the above proposals are quickly abandoned. I chose to live in this area precisely because it is not blighted by these hideous developments. I am sure that many other residents echo my sentiments.

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

also object to the following specific proposals for the building of new homes on this site, as detailed in Changes to the Policies Map arising from Proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan, Detailed Policies & Proposals:

Policy DM43, reference Site 128 to build new homes at Poppy Lane

Policy DM43, reference Site 504 to build new homes at Stroud Green Pumping Station (including the conversion of the pumping station which is a locally-listed building)

Policy DM43, reference Site 541 & 542 to build new homes on land to the East & West of Shirley Oaks Road

Policy DM43, reference Site 548 to build new homes on land to the rear of Honeysuckle Gardens

Not only would these developments entail the loss of the green corridor between Shirley Oaks and the surrounding areas, the local road infrastructure would not be able to cope with the additional traffic. Also, the local schools are over-subscribed as well as the already-stretched social and healthcare facilities would be overloaded.

For the reasons given above:

1. I do not think that the preferred approach is the most appropriate for Croydon to help us meet our Strategic Objectives set out in Section 3.
2. The preferred approach is deliverable, but not acceptable.
3. I do not think the preferred approach enables sustainable development, because it will compromise the ability to meet the needs of future generations.
4. I recommend that consultation documents of such importance are given much wider publicity.

1872/01/005/DM43.4/O	Mr C Johnson	Object	DM43.4 548	<p>This land is owned by Shirley Oaks Management limited (SOML). This is the management company for the estate whose shareholders are the home owning residents. SOML owns and manages the open spaces on behalf of and for the benefit of the residents for whom the land is 'amenity open land', ie communal, recreational space. The land was transferred to SOML's ownership in 1985 whilst the estate was under development. I believe that the developer had infringed planning regulations by reducing the sizes of the gardens included with the dwellings that it was building in order to increase the density of the housing beyond that which had been agreed with the local planning authority. The open land, which is currently being scrutinised as part of the Council's policy proposals review, was effectively, a penalty levied on the developer whereby an amount of green space was given over to SOML to own and manage as redress and compensation to the residents for skimping on the sizes of individual gardens. I am assured by a Director of SOML that the company has documentary proof of all of the above points. The residents pay a service charge that, inter alia, covers the cost of managing and maintaining these open spaces. SOML is bound by its covenants with the residents that this land shall be managed and maintained as communal open areas for the collective enjoyment and benefit of residents as long as the estate should be in existence. Thus, there is no scope on SOML's part for participating in any effort to develop these spaces and any attempt to develop them undermines the importance of those spaces in providing amenity open land, as previously ordered by the local Council.</p>	<p>the land is owned entirely on behalf of the resident shareholders by a resident run management company (SOML) which is bound to preserve that space and which also has a specific object in its Memorandum of Association requiring it to resist any attempt to enforce regulations or plans which impact negatively on the estate. Regardless of its covenants in this regard, I am told that SOML has no wish to develop or to allow the development of, the land in question.</p>	Change	<p>As this site does not have a willing landowner it is unlikely that it would be developed. 2450/01/003/DM43.4/O	Mr & Mrs Jeffrey	Object		DM43.4 548	I thoroughly object to these proposals, the traffic has built up over time and I wouldn't even want to begin to imagine what Shirley Oakd would be like if another 600+ homes where to be built, that would be practically doubling the size of Shirley Oaks as it is at present. We strongly object to Croydon Council's local planning proposals and plans for development to the site being used for residential development.

We strongly object to the de-designation of the Metropolitan Open Land around Shirley Oaks Village. No more housing should be built on MO land and it is inappropriate for development since it would overstretch the local road infrastructure with the additional traffic. The road in and out of Shirley Oaks Village is very narrow and there is hardly enough room for the bus to get by. The increased volume of traffic and parked vehicles would be unmanageable bringing traffic in all directions to a complete standstill. We believe the council needs to rethink its proposals for the sites, but would hope that in any event, an overwhelming majority of homeowners living in the village will reject the council's proposals. Not only would the area be an eyesore, but the proposal to build a whopping 700 new homes is unrealistic as the open green spaces are very small. You would also be destroying the wildlife by cutting down our precious trees and removing the open green spaces. It was agreed, and we believe documented, that after the build of phase 5 on Shirley Oaks Village that no more houses would be built, and this was a deciding factor when individuals bought their properties on Shirley Oaks Village. If over 700 new homes are built, it would no longer be a village but instead an ugly built up housing estate, changing the character of the landscape completely. From our perspective, if the proposals were approved, we would have no choice but to move away from the area. It would be too upsetting to see our open green spaces developed to excess with over 700 new homes. I have no doubt that developing the land would also devalue the property prices in the future.

We find the council's proposals ludicrous and unreasonable. It is imperative that we protect the precious remaining green spaces around Shirley Oaks Village. On that basis, we vigorously object to the council's proposal to develop the land.

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

2539/01/004/DM43.4/O	Lydia Benady	Object		DM43.4 548	We strongly object to the changes to designations of our grass areas. As a resident and shareholder I point out that our land was designated by Croydon Council in 1985 as Amenity Open Lan because of our under-sized gardens. This land is for our use. Not only would building be detrimental to our health and well being but also to the varied and protected wildlife that we have. There are plenty of rundown places in Croydon which should be regenerated and can be built on without impinging into our green spaces.	Change	As this site does not have a willing landowner it is unlikely that it would be developed. Developing these sites with the amount of homes suggested would increase the volume of traffic in an area which is already congested in morning and afternoon rush hours and would put increased pressures on local schools and public transport.  I am aware that more affordable houses are needed but please reconsider these plans which will totally change the area in which we have chosen to live and definitely not for the better. 2565/01/007/DM43.4/O	Ms Karen Fletcher	Object	DM43.4 548	We wish to register our objection to the proposals to change the policy map 43 in relation to Metropolitan Open Land at Shirley Oaks Village. Like many residents we purchased our home on the understanding that the MOL was owned by the residents themselves and would not be developed. It was a strong factor in our decision to purchase our house. The land itself was transferred to the management company by a transfer dating 30 July 1991 made between Heron Homes Limited and Shirley Oaks Management Limited. The third schedule to this transfer contains restrictive covenants and I have attached the relevant clauses. These clauses state that the land is to be used as open space so I do not understand how you can ignore this and grant planning permission to build houses. We understand the need for more housing but feel that this is not the way forward. It would be far better to look at the buildings/land owned by the London Borough of Croydon first to see which could be used as residential properties. The old Ashburton Library in Ashburton Park is such a building that could be redeveloped and used for housing and I am sure there are many more. 2578/01/004/DM43.4/O	Mr Tau Wey	Object	DM43.4 548	I am concerned about this proposal. When I bought my house in Angelica Gardens, Shirley Oaks Village, it was my understanding that I would also become a communal owner of the surrounding Amenity Open Land. This was guaranteed by each freeholder in Shirley Oaks owning a share of the Shirley Oaks Management Limited, which in turn owns and manages the Amenity Open Land.  Like many residents, I purchased my house partly due to the pleasant areas of green space available in my surroundings. I also think that the character of the current surrounding gives each property the value that it currently has.  I would also object to attempts by Croydon Council or other agencies to attempt to purchase the land from Shirley Oaks Management Limited in the future.	Change	As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

2580/01/008/DM43.4/O	Mr Steven Hunt	Object	DM43.4	I am emailing to outline my objections to the planning notices in relation to the above reference numbers which concern land near to Shirley Oaks Road, Honeysuckle Gardens, Poppy Lane and Primrose Lane. 			548	<p>I object to these proposed developments for the following reasons:</p> <ol style="list-style-type: none"> <li>1. The move to unravel the protection of Metropolitan open land from significant housing developments is a disappointing and avoidable move by Croydon Council. This sets an unnecessary precedent. This land should be protected by its designation and the council has sufficient options elsewhere in the borough on land that has no such designation.</li> <li>2. Much of the land concerned was designated by Croydon Council in 1985 as "Amenity Open Land" because of the under-sized gardens of many of the Shirley Oaks property. I live with a young family on Shirley Oaks with a very small garden and object to the loss of this open land which is regularly used by young families and residents of the area who do not have large gardens or any gardens at all in some instances.</li> <li>3. Such proposals will unduly change the character and desirability of the local area which is defined by its open space. Shirley Oaks remains one of the few genuine peaceful residential areas within the borough and such thoughtless development will threaten this.</li> <li>4. The roads leading to Shirley Oaks are roads not given to significant volumes of traffic. Increasing the density of the population within the immediate area as substantially as you are proposing creates challenges for traffic and parking. The scale of the developments will exponentially increase the volume of traffic and create challenges for parking.</li> </ol>

2599/01/006/DM43.4/O	Helen Armstrong	Object	DM43.4 548	I am writing to register my household's objection to the proposed developments in Shirley. The projected number of homes will impact dramatically not only on the existing residents and the open feel of the site, but essentially on the transport infrastructure. Wickham Road is a major route, prone to congestion at peak hours and any significant increase in road users will have a dramatic knock on effect not for residents and also for commuters in all directions. The Trinity roundabout is a major junction with many bus routes passing through, this would grind to even more of a halt. The potential number of proposed properties is unacceptably high. This land is currently protected from development similar to protection of green belt land.  The Society objects in principle to the decision of the council to de-designate land currently held as Metropolitan Open Land. Even if parts of the areas were designated as local green space, in accordance with the National Planning Policy Framework, there would still be a huge loss of open space.  If development were allowed in these areas it would be detrimental to the amenity value of the area for the benefit of the public. Change

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

THE SHIRLEY GREEN CHAIN  
The green open spaces of Shirley Oaks Village provide several links in the Shirley Green Chain. This chain starts at the South Norwood Country Park in the north and runs south through Ryland Fields, Long Lane Woods, Ashburton Playing Fields, the open spaces of Shirley Oaks Village, Trinity School playing fields, Shirley Park Golf Course and up to the Shirley Hills. From there the Green Chain continues through Heathfield, Bramley Bank Nature Reserve, Littleheath Woods and via Selsdon Park to Kings Wood at Hamsey Green. These open spaces are collectively designated as Metropolitan Open Land. It would be disastrous to lose a link in this chain.

Planning Policy Guidance Note 9  
This guidance stresses the importance of nature conservation, not only on nationally important sites, but also suggests that many urban sites for nature conservation have enhanced local importance as a consequence of the relative lack of wildlife sites in built up areas. Statutory and nonstatutory sites which provide wildlife corridors, links or stepping stones from one habitat site to another, all help to form a network necessary to endure the maintenance of the current range and diversity of our flora and fauna.

The Green Spaces in Shirley Oaks were designated as Metropolitan Open Land and today still meet the criteria for this protection. The sites (1) contain conservation and habitat interest of value at a metropolitan level and (2) forms part of the Shirley Green Chain. These are two of the criteria for Metropolitan Open Land. The Green Spaces in Shirley Oaks Village were designated as Metropolitan Open Land and today still meet the criteria for this protection.

The sites  
(1) contain conservation and habitat interest of value at a metropolitan level and  
(2) form part of the Shirley Green Chain. These are two of the criteria for Metropolitan Open Land.

These sites possibly have a section 52 agreement, and are part ownerships shared by each of the Shirley Oaks Village residents.

Re-designation of MOL falls foul of

the London Plan.

Existing dwellings to be retained or demolished? If retained the Site Area should be adjusted to take account of the existing dwellings: The Lodge, Beech House & Ash House? On the East site And the Synagogue and the two house (can't read their names) on the West side.

Infrastructure not specified to support development.

Schools are oversubscribed; GP Surgeries oversubscribed

Road system could not cope with the increase in traffic during peak travel times

Area has high water table and is subject to flooding.

London Plan

POLICY 7.17 METROPOLITAN OPEN LAND  
Strategic

A The Mayor strongly supports the current extent of Metropolitan Open Land (MOL), its extension in appropriate circumstances and its protection from development having an adverse impact on the openness of MOL.

Planning decisions

B The strongest protection should be given to London's Metropolitan Open Land and inappropriate development refused, except in very special circumstances, giving the same level of protection as in the Green Belt.

Essential ancillary facilities for appropriate uses will only be acceptable where they maintain the openness of MOL.

LDF preparation

C Any alterations to the boundary of MOL should be undertaken by Boroughs through the LDF process, in consultation with the Mayor and adjoining authorities.

D To designate land as MOL

boroughs need to establish that the land meets at least one of the following criteria:

- a) it contributes to the physical structure of London by being clearly distinguishable from the built up area
- b) it includes open air facilities, especially for leisure, recreation, sport, the arts and cultural activities, which serve either the whole or significant parts of London
- c) it contains features or landscapes (historic, recreational, biodiversity) of either national or metropolitan valued it forms part of a Green Chain or a link in the network of green infrastructure and meets one of the above criteria.

The London Plan 7.56  
The policy guidance of paragraphs 79-92 of the NPPF on Green Belts applies equally to Metropolitan Open Land (MOL). MOL has an important role to play as part of London's multifunctional green infrastructure and the Mayor is keen to see improvements in its overall quality and accessibility. Such improvements are likely to help human health, biodiversity and quality of life. Development that involves the loss of MOL in return for the creation of new open space elsewhere will not be considered appropriate. Appropriate development should be limited to small scale structures to support outdoor open space uses and minimise any adverse impact on the openness of MOL. Green chains are important to London's open space network, recreation and biodiversity. They consist of footpaths and the open spaces that they link, which are accessible to the public. The open spaces and links within a Green Chain should be designated as MOL due to their London-wide importance.

Object Soundness - DM43.4  
Justified 548

I object to the use of the following five sites for housing:  
•Land at Poppy Lane reference number 128;  
•Stroud Green Pumping Station, 140 Primrose Lane reference number 504;  
•Land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House reference number 541;  
•Land to the west of Shirley Oaks Road reference number 542; and  
•Land to the rear of 5-13 Honeysuckle Gardens reference number 548;  
If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

I write concerning Croydon Council's proposals contained in the consultation document of the Croydon Local Plan that includes the re-designation of Metropolitan Open Land in Shirley and specifically within the confines of Shirley Oaks. I consider these proposals and others listed above to be inappropriate as they would significantly change the character of the area in which I have lived all 61 years of my life and I wish to add my voice to those already expressing concerns and objections about these proposals.

I strongly object to the proposal to re-designate Metropolitan Open Land to facilitate the building of new homes on land in Shirley Oaks and the provision of temporary or permanent traveller/gypsy sites in areas that are acknowledged by the Council to be in the green belt at Coombe Farm and Coombe Lodge Nurseries in Conduit Lane.

These proposals are totally out of keeping with the character of the area which predominantly comprise owner-occupied semi and detached homes. Surely areas considered to be brownfield sites are more appropriate than the unacceptable use of Metropolitan Open Land?

The proposals affecting the area surrounding Shirley Library are also of concern as this would adversely change the character of the area and potentially result in the establishment of additional unsightly car- parking sites on the south side of Wickham Road, similar to that at the front of the Shirley Medical Centre at 370 Wickham Road.

3041/01/005/DM43.4/O	Sarah Minter	Object		DM43.4 548	I strongly object to the proposed development plans for the Shirley Area. I have lived here all my life and have seen a steady influx of people, and a massive reduction in the green space in the area. The roads are already far too congested and the social infrastructure is already struggling to cope with the number of residents. There are many areas in the Croydon borough much more suited to such large scale development. I am thinking particularly of areas around Purley Way. There are also many brown field sites in the borough that could be put to more effective use as housing without affecting the green areas. I guess the council prefers to redevelop the green areas rather than the brown field areas due to cost. As I said I do not want my local area turned into a concrete jungle where there is nowhere for people to relax in the open. I am writing to lodge my objection to some of the proposals contained in the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals.  
In particular:  
1. Shirley Oaks  
The proposal to re-designate the Metropolitan Open Land on Shirley Oaks Road and around Shirley Oaks Village so that it can be used for new housing (page 68, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals).  
My main objections are:  
This would result in the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of the area.  
The local road network could not cope with the additional traffic.  
Insufficient local infrastructure to cope with the increased population.  
Conclusion  
The proposals I have highlighted can only be viewed as negative. If adopted, they will increase the local population - and the density of that population - without providing any supporting infrastructure. The new residents from the planned apartment blocks and traveller sites will need additional public services such as schools, medical services and shops. Older residents will give way to young families who require greater social support, yet no additional resources are identified to help manage the changing demographic. Traffic congestion along already busy roads will increase, as will pollution and accident black-spots. The few remaining green spaces will disappear. Overall, the proposals signal a reduction in the quality of life for both the existing residents and the newcomer

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

3218/01/003/DM43.4/O	Shirley Beddoes	Object	DM43.4 548	We bought our property at the original building phase in Shirley Oaks many years ago and were informed that there would be no further development in this area and that all grassed areas were to remain undeveloped and were for the use of residents and local people at leisure, further to this we have paid yearly a maintenance cost to ensure these areas were up kept for this use. This is the main reason we invested in this property. The grassed areas are in constant use and development of these areas would change the natural village atmosphere that exists here and is one of the few areas of Croydon that there is an abundance of wildlife close to an urban area. The proposed development and designation of our grass areas is unacceptable and would infringe our rights as in our original contracts with Heron homes who built the site. 3276/01/005/DM43.4/O	Mr Matthew Carey	Object	DM43.4 548	<p>The area of Shirley Oaks Village and it's adjacent road infrastructure is already at breaking point. Any slight build up of traffic seriously hinders movement for residents. The 2 main arterial routes into Croydon or towards Bromley (being wickham road &amp; lower addiscombe road) are extremely busy with traffic and often lead to extended journey times for those of us who wish to head in to one of these town centres or further afield in to London for work. As proven only yesterday when a traffic accident in the Shirley area led to a 3 hour journey home from bromley back to Shirley. The road network around here is poor. The interlink between Shirley Oaks village and it's surrounding area is poor. To add hundreds of houses within this area will only lead to increased volume of traffic on the surrounding roads and leave Shirley itself in an almost permanent state of gridlock. Shirley Oaks Road is always busy with vehicles parked up. This is due to a number of reasons;</p> <p>The excessive traffic on wickham road leading to people abandoning their vehicles to try and walk nearer to Croydon to catch a tram or bus. The unreliable 367 bus route which is often hindered by traffic or accidents outside of Shirley Oaks Village leading to people driving closer to other bus routes.</p> <p>The use of the local synagogue. Combine these issues above with the additional housing being proposed and the vehicles that come with them, Shirley Oaks will become even cut off than it already is. There are many elderly residents in this area that rely on carers (friends etc) being able to visit them. They often complain about the issues I have raised above and I can only see this getting worse should the proposals for Shirley go ahead.</p> <p>Croydon is a massive borough so there must be other areas that these proposals could be met.</p>	Change	<p>As this site does not have a willing landowner it is unlikely that it would be developed. This amenity land is owned collectively by the property owners who own 1 share each. The shares are held by the current trust company - First Port, who also maintain this estate. Is compulsory purchase envisaged? If a total of some 700 homes the village would need vast changes to its infrastructure to accommodate these properties. The present main road - Primrose Lane/Shirley Oaks Road is barely able to cope now - with just a single decker bus allied to a growing number of cars. There is a regular flooding problem during heavy downpours - particularly from Primrose Lane into Laburnum Gardens. The loss of a wildlife conservation area is surely against wider interests including many present owners. One of the reason I bought the property was for the nice open spaces that surround the houses.  Building unnecessarily on this land will change the whole look and feel of the community of Shirley Oaks Village. We have one road in and out of the village and cramping in 700+ homes onto our lovely open space will also create congestion on the one road.  Shirley Oaks is privately owned and we take pride in our village and how it looks and will fight against these proposals. One of the requirements of the Pitt review of 2007 was for the Environment Agency to provide some warning for surface water flooding, as was already the practise for river and coastal flooding. The result was the LIDAR returns which are provided on the Environment Agency's website under 'what's in my backyard'. This shows clearly how the lie of the land amongst the Shirley Oaks Estate causes surface water to run from South to North joining another stream which runs in from the SW from Shirley road into Primrose Lane. On numerous occasions over recent wet winters we have had a constant stream of water running across the kerb into Primrose Lane which has on occasion caused substantial amounts of ice to form. No doubt your winter maintenance department could confirm this is an area where they have to regularly do spot treatments of rock salt- since they do Primrose lane as it is a bus route, when other parts of the network are totally dry and do not require treatment.

From the Pitt Review of 2007-  
RECOMMENDATION 7: There should be a presumption against building in high flood risk areas, in accordance with PPS2S, including giving consideration to all sources of flood risk, and ensuring that developers make a full contribution to the costs both of building and maintaining any necessary defences. Section 5.14 of the report reiterates that PP525 applies to all sources of flood risk. This states that an SFRA (surface flooding risk assessment) should assess surface water flood risk and identify critical drainage areas. Good information is therefore needed from sewerage undertakers and other sources, including local knowledge, historic flooding and risk modelling. Local authorities should ensure that SFRAs carried out on their behalf adequately address this type of flooding. I find it difficult to believe this has been done as otherwise there would have never been a suggestion of using the remaining green parts of the estate in this way.

Any increase in the built up area around the estate would thus exacerbate the already on occasion saturated surface. Having investigated in detail the benefits in the reduction of flooding by the provision of trees, I have found that Oak trees can use up to 50 gallons a day and some trees on a hot day will utilise 150-200 gallons (wiki-answers.com). Trees admittedly are

most effective when we are in the growing season at excess water removal, but that is also when we tend to have the most extreme rainfall events. Having looked at 'Heavy falls in a day' and 'Heavy falls in short Periods'; both produced in part for British Rainfall by the Met Office (my employer); I have found that invariably the most extreme rainfall happens in SE England between June and September. This is just when a tree is in full leaf so not only intercepts falling rain by the size of its canopy, but also as it is growing, that rain which reaches the soil is quickly extracted for use in the tree's transpiration. Preliminary research results from the University of Manchester indicate that trees can reduce runoff by as much as 80% compared to asphalt. Thus the best way to alleviate summer extreme rainfall surface water flooding is not to remove trees.

The soil on which Shirley Oaks is located is of a clay type and is therefore impervious: another reason why it reacts to surface water flooding the way it does. The large area of grassland is ideal for 'making room for water' as a water storage area, thus to remove this pooling facility will mean the rain will have to find somewhere else to go, which would inevitably mean flooding for Shirley Oaks residents. Also I have learned, from Meteorological Office memorandum No 80-the properties of soils in NW Europe; that the root system of grassland provides a channel through which some rainfall does manage to slowly percolate through beneath the surface even with clay soils. However, without the grassland root system the water just tends to form bodies of water lying on the surface. This effect of our grassland is very helpful in alleviating the surface water flooding in winter, which occurs when prolonged rainfall totally saturates the area, and the trees are no longer as effective at its removal.

So in conclusion  
- We need trees to mitigate effects of extreme rainfall in summer, something which will become increasingly frequent with global warming.  
- We need open grassland for water to accumulate in winter when trees are less effective at water removal from the system, whilst in addition their root systems help to aid percolation beneath the soil reducing surface flooding. Over the last 40 years winter rainfall has been increasing throughout the UK.  
- Soil behaviours also dictate risk of

flooding. We have issues because:  
 1) We are on a clay soil type so low permeability and heavy rain does not soak in but floods.  
 2) We are on sloping ground with tendency for run off to flow south to north across the site.  
 3) We, also because of having a clay soil, have a high water table, so in winter many areas of the site are wet and all parts stay damp throughout. Thus water-logging very quickly occurs and there would with the proposed building work be less and less places for the water to flow to.

the Council won't keep it as MOL, it should at least designate it as Local Green Space so that it has some protection. Another thing that disappoints me, is that one of the selling points of our house, is the fact that all the land around the estate is protected from building on. For example, it is not possible for children to play with footballs/other toys /play noisily,without disturbing the adjoining and physically very close neighbours. You are no doubt aware that there are no nearby children's parks. Also my garden can easily be overlooked by at least 4 sets of neighbours and which I believe is typical of the other gardens on the development. Not only this, but the whole 'Village' feel of the area will be completely obliterated, and the very things that attracted us to move to Shirley (off Orchard Ave) will be no more. Of course people need a place to live and raise families, but time and again we have seen the resultant decline of neighbourhoods, with rubbish, noise and theft frequent occurrences. We urge you to think again and take heed of Gavin Barwells very real concerns, and those of what I'm sure are many of his constituents, and other Shirley dwellers. I would like to know what sort of homes these are likely to be ...social, housing associations or private ...I doubt that any of them would be affordable homes for first time buyers .How will the local roads cope with the extra traffic. There will be a need for more schools, doctors' surgeries etc to support the intended increase to the local population. I would therefore like to object to the Council's decision to use these five sites for future residential development. Apart from putting extra burden on the local roads, it would also mean losing valuable green spaces. I believe any new residential development should be on brownfield sites . SHIRLEY OAKS VILLAGE-  
I refer to the proposed changes to the planning policies to allow Croydon Council to build new homes on the Amenity Open Land at the above. The Amenity Open Land was granted in part, due to the extremely small rear gardens. Also I and other people in the village for many years here contributed to its up keep at no cost to Croydon Council. To lose this land will greatly impact on the peaceful enjoyment that I and my neighbours have in using this land as well as the general impact on the area of high density building, changing the character of our village forever.

No doubt this development will result in many trees and flowers being sacrificed which help to sustain the urban wildlife such as various birds, bats, foxes, badgers and bees etc. There seems to be little consideration for this urban oasis!

Whilst I understand central government's drive for more houses, I find it hard to believe that Croydon Council needs this land in order to fulfil its housing quota, given the Westfield and other developments proposed in Croydon. There are also other lands, such as those owned by the local NHS hospital that would be suitable for development and at the same time give ready money to the NHS.

Furthermore, the existing main roads are already inadequate to service the village without adding a further 751 homes along with the years of road works that will be associated with upgrading the utilities, make travelling through the village more difficult and dangerous.

I urge you to reconsider your plans

As this site does not have a willing landowner it is unlikely that it would be developed. The road was built to be narrow and already there are problems with passing places for traffic to the hospital and synagogue. Last year the council allowed a resident to build a fence which obstructs drivers vision when turning out of Cornflower Lane and has caused several minor incidents. Simply put, the roads here were not built for traffic!</p> <p>The idea of ruining my neighbourhood by cramming more housing onto unsuitable roads, lacking shops and facilities whilst depriving me of the green spaces I love and part own makes me sick to my stomach.</p> <p>There are so many brownfield sites that could be built on and provide more suitable housing in and around Croydon that I feel that this attack on Shirley is politically motivated. A stream runs through it. The land is jointly owned by 500 equal share-holders, which would make “working with the landowner” a complex issue. The council would be unlikely to get the co-operation of all 500 shareholders. Access to this site is situated on a steep bend on a narrow road. We have lived in the Borough of Croydon for 30 years and value its vibrancy and diversity.

As Croydon ratepayers we object to the de-designation of Metropolitan Open Land generally, especially land detailed above, which will change forever Croydon's character.

We would ask you to encourage policies/development to:

1. Build new housing on brown field sites by all means AND preserve invaluable green space for the benefit of the community of Croydon; 2. Protect green belt land and preserve the green corridors we desperately vital for wildlife and biodiversity; 3. Amend the tall buildings policy and keep the tall building zone where it is suited in the centre of town; 4. Utilise brownfield sites for new low-level housing only where it can be developed alongside new GP surgeries, schools and improved public transport; 5. Traveller sites are not appropriate in the green belt and is a clear breach Policy E of Planning Policy for Traveller Sites. When travellers camped on Addington Playing Fields in 2012/13 they left rubbish, debris, waste, and deterioration to a local green space. Sadly true of most traveller sites.

"Nowadays people know the price of everything and the value of nothing". Green Belt is vital and precious. Once lost for future generations and will not be replaced by developers.

We understand the need for housing, schools, hospitals and infrastructure. Are the Developers investing these also alongside their building investments?

Please protect our few remaining green spaces on the borough map, by making better use of brown field sites.

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

I am writing this email to voice my deep concern about the planned development in the private estate that I have lived in for many years , namely:

•Ref 541, Ref 542, Ref 548, Ref 128 and Ref 504 – all on Shirley Oaks Village private estate.

Firstly, it would have been nice to be informed about any planning ideas in writing rather than see small notices pinned to lamp post around the estate. I would also like to draw your attention that our land was designated by Croydon Council in 1985 as 'Amenity Open Land' for the residents and for which we pay a quarterly fee for maintenance of the green open land, but more importantly can I bring to your notice that this land was transferred to the Shirley Oaks Management Company, with each property owner as a shareholder in that company. This land is for our use and not for developing a concrete jungle on every single green inch of land in Croydon.

The Shirley Oaks estate has a great community spirit and has become a real sought after location for families to live due to the community nature and the lovely open land that we have, by developing on this land you will be taking away all of the good that has been built up over the years by the many residents we have as well as making the village overcrowded, bringing in more traffic thus resulting in more danger on the main Primrose Lane for people crossing and driving, congestion for parking and so on. I can also bring to your attention that we have already had a couple of fatalities on that main road that runs through the village and this will make it worse for the safety of our kids.

I am sure you have now had many hundreds of emails from residents like myself voicing the same concerns with your planning proposals!

This land belongs to us as residents so I feel its harsh to take this away and start your own developments.

I write to you with my objections to the proposed Croydon Local Plan, specifically on the points below.

- the land at Poppy Lane is identified as suitable for 51 to 107 homes (pages 445-446, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 128);
- Stroud Green Pumping Station, 140 Primrose Lane, including the conversion of the locally-listed pumping station, is identified as suitable for 26 to 68 homes (pages 451-452, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 504);
- land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House is identified as suitable for 80-215 homes (pages 453-454, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 541);
- land to the west of Shirley Oaks Road is identified as suitable for 88-236 homes (pages 455-456, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 542); and

Object Soundness - DM43.4  
Justified 548

With regard to the 'very scant' notices that have been posted on Shirley Oaks Village, in places that are not in visible of all residents, I must object VERY STRONGLY to these plans.

(1) The land is owned by the residents with a covenant on it. Our houses are condensed with tiny gardens, the compensation for which is the open ground (owned by all residents) that we are able to use. My understanding is that the original development was curtailed by the then council because of the density of housing/population on Shirley Oaks.

(2) Drainage on Shirley Oaks is very poor. I am given to understand that the water table is very high and indeed during the winter months the open spaces are sodden, holding water which could probably present a flooding problem. It is so bad in some places that the ducks move in!

(3) Could the services (sewerage etc) really support the number of properties proposed. There have already problems from time to time, especially down Shirley Oaks Road.

(4) Realistically, whatever type of property would be built, you could expect an average of two cars per dwelling. Shirley Oaks Road/Primrose Lane are extremely hazardous and would not be able to sustain another probably 500/1000 cars. Where would people park. There are enough problems on here already with regard to parking, deliveries etc. Both Shirley Oaks Road at the Wickham Road end and Primrose Road at the Shirley Road end are used as car parks and quite often it takes a bit of delicate manoeuvring to get round, especially if you meet a bus.

(5) Planning permission has been refused for the plot in Poppy Lane (128) a number of times. The area was declared as a nature reserve some time back and I was unaware that this had changed. Part of the reason for the last planning application was the high water table, so how come there has been a change of mind?

But must admit the above proposal is the worst and the most ridiculous so far. From what we read, the proposal suggests to build around 750 new homes on what's left of green patches in the village.</p> <p>The village is already over crowded with Shirley Oaks road and Primrose road looking like a huge PARKING LOT throughout the day. One cannot begin to imagine what it would like with more residents and obviously with at least double the number of cars to that of the number of the new homes proposed.</p> <p>We bought our property back in 1989, paying above market value at the time, for the sole purpose that the village is quiet and has some green land. Our home was one of the last phases of any buildings to be erected in the village, or so we were promised and confirmed in writing. Since then, a synagogue was built, bus 367 goes through the narrow winding road, every year for the last few years we get proposals to use our green land for one suggestion or another and now this proposal.</p> <p>We completely oppose this proposal and hope that the council will appreciate that it's not all about the money and just building more houses, but quality of life matters just the same. On one hand the government and councils encourage and push people to plant more trees, grow their veg, recycle etc... Yet on the other hand come up with proposals to use every last green patch to build more structures and homes.. Doesn't make any sense.</p>	Change	As this site does not have a willing landowner it is unlikely that it would be developed. Shirley is already tight for school places. St John's, in Spring Park Road, is increasing to 2 form entry already with the number of children living locally requiring education. The 367 bus serving the Shirley Oaks Village is infrequent and much more transport will be required. Parking is already a nightmare and with the lack of parking contemplated with the new build supply the problem will only get worse. There will be an incredible build up of traffic on the already congested Wickham Road and other local roads.</p> <p>I believe this proposed building of traveller's sites and homes will change the whole ethos of Shirley and cause resentment and the lowering of living standards. This is a particular area of standard housing and should not be changed by the building of blocks of houses. Garden land should not be built on and this is an inappropriate development and should not be allowed to go ahead. Metropolitan Open Land has the same protection as the Green Belt and the rules should be followed accordingly..</p>	Change	<p>As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.</p>
3954/01/004/DM43.4/O	Mrs L McLoughlin	Object	DM43.4 548	<p>Having lived on Shirley Oaks for almost 30 years, I strongly feel that any changes to the current planning policies would have serious and negative consequences for the current residents. Not only would properties lose significant value, the estate would also lose its 'village-like' feel that lead us to move there in the first place. We were also told at the time of purchase that Shirley Oaks would always remain as metropolitan open land, and this also heavily influenced our purchase. To add to this, there is also the issue of increased traffic through the estate. There was a fatal accident only a couple of years ago by the bend of Poppy Lane and I feel that with the prospect of even more houses being added to the estate there will be a significantly higher risk of further accidents</p>	Change	<p>As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.</p>

I object on the grounds of appalling over crowding, your plan would bring at least 2000 more vehicles onto the estate. It is already nearly impossibly to get in and out of the estate by car at rush hours. The roads on the estate can barely cope as it is with the bus route. The extra vehicles would include many commercial vans which would be parked over night and weekends causing havoc on the narrow roads of the estate. A single bus route as at present running every 20mins. causes problems how do you intend to increase public services more bus routes and more frequent timetables....more chaos! I along with others pay to maintain and the open space as a share holder. Your proposal would seriously devalue our properties and I for one will be seeking serious compensation for this, I trust Croydon has very big capital reserves to meet our legal challenges and compensation. Our gardens are small this is why the land has been designated open land so we have some open space in common with the surrounding houses. Your plans are ill conceived and will effectively destroy Croydon further. There are large areas of open land in Addington which Croydon could use and I presume already own without spending our money attempting to purchase land which will be extremely costly to Croydon in terms of the compensation that you will need to pay out and in the legal fees entailed.

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

3970/01/005/DM43.4/O	Mr N Oratis	Object	DM43.4 548	I object to the decision to de-designate this land as metropolitan open land for the use of residential development for the following reasons. I would first like to begin with reference number 548. This area sits beautifully behind my home, I have a lovely view of the park as do many of my neighbours. I do not want this area to be demolished as I love the character as do visitors and neighbours. This area is used every day and regularly by myself, family members, neighbours friends and countless visitors wanting to take there dog for a walk or spending time with family and kids. This area has amazing character with huge green, tall trees, a small walk bridge with a lake underneath for people passing by to enjoy. There would also be disturbance and loss of wildlife as there is evidence of badgers in this location and also in the above reference numbers. Ref 548, 542, 541, and 128 are owned by Shirley oaks management. 488 residents are shareholders in this company. There was a decision in 1985 for this land to be open for use by the local residents because the gardens of all homes were considered small.	Change	As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

4041/01/008/DM43.4/O	Mr s Hilu Abdo	Object	DM43.4 548	Ref: 541, 542, 548, 128 and 504 in Shirley Oaks Village I was shocked to learn about the changes proposed to our grass areas. These changes, if implemented, will change the very nature of our village. It will not only deprive the residents of very essential open green areas, but it will make the whole place very crowded, much more polluted and quite uglier. This would rob us of essential attractions that made us come to this village in the first place. I strongly object to any of these changes and trust that every resident on this estate feels the way I feel. I did not speak to everyone, but the many I spoke with feel as strongly as I do towards this unfair proposal. I have been living in this village with my family since 1985, I would like to see the Croydon Council improve it rather than ruin it. I hope the Council will reconsider its plans.	Change	As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

I am grateful to the Council for consulting on the detailed policies and proposals that will make up the Croydon Local Plan. There is much in the document that I agree with, but some of the proposals would, in my opinion, change the character of parts of Croydon very much for the worse. I hope you will forgive me if I focus on these areas of contention. I am therefore writing to formally object to:

1. de-designation of the Metropolitan Open Land around Shirley Oaks Village;

2. the use of the following five sites for housing:

- land at Poppy Lane reference number 128;

- Stroud Green Pumping Station, 140 Primrose Lane reference number 504;

- land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House reference number 541;

- land to the west of Shirley Oaks Road reference number 542; and

- land to the rear of 5-13 Honeysuckle Gardens reference number 548.

If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces. Building housing on them would mean the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of this part of Shirley. As far as I can see, these are the only bits of Metropolitan Open Land in the whole borough which the Council is proposing to de-designate and allow housing to be built on. Why has Shirley Oaks been singled out in this way?

3. the use of the following locations as gypsy/traveller sites:

- Coombe Farm off Oaks Road reference number 502;

- Coombe Lodge Nurseries off Conduit Lane reference number 661; and

- Pear Tree Farm and Pear Tree Farm Cottage on Featherbed Lane reference number 755;

As the Council acknowledges, all three of these sites are in the Green Belt and one of them borders a Site

of Nature Conservation Interest.  
Policy E of Planning Policy for  
Traveller Sites, published by the  
Government in August, says very  
clearly:

“Traveller sites (temporary or  
permanent) in the Green Belt are  
inappropriate development”.

The Council's approach is clearly in  
breach of that policy. All three sites  
are also some distance from public  
services and they are all in the same  
part of the borough (two are in  
Heathfield ward, one just over the  
border in Croham). Why has  
Heathfield been singled out in this  
way? If the Council really needs, as  
it claims, to quadruple the number of  
gypsy/traveller sites in the borough -  
which I would question - they should  
look elsewhere (for example, off the  
Purley Way where the existing site is);

4.focussed intensification associated  
with gradual change of an area's  
local character under Policy DM31.4  
of the Shirley Road Shopping  
Parade, Shirley local centre and  
Forestdale. Shirley Road Shopping  
Parade is surely worthy of protecting  
rather than replacing with medium-  
rise blocks? Shirley local centre is  
defined not just as a stretch of the  
Wickham Road (where some  
intensification may be appropriate)  
but Ridgemount Avenue, Wickham  
Avenue, Peregrine Gardens, West  
Way Gardens, the northern section of  
Hartland Way and the western parts  
of Bennetts Way and Devonshire  
Way. Replacing the largely semi-  
detached buildings in these  
residential roads with medium-rise  
blocks would completely change the  
character of Shirley. Replacing the  
largely terraced housing and small  
blocks of flats in Forestdale with  
medium-sized blocks would  
completely change that area too;

5.Policy DM2 on development on  
garden land, which is too subjective  
and therefore too weak. There  
should be a much stronger  
presumption against development on  
garden land; and

6.Policy DM28, which should allow  
higher levels of parking in  
developments of low public transport  
accessibility. Restricting parking  
spaces in such areas doesn't lead to  
fewer people owning their own car; it  
just leads to greater competition for  
existing spaces.

DM43.4  
548

The de-designation of Metropolitan Open Land status on Shirley Oak will be vigorously opposed. I can see no reasoned explanation in the planning document for such a course of action nor is there any evidence of the thinking of the Council in the previous plan or 2012 Inspector's Report to explain how MOL status has been revisited with the conclusion that MOL designation be withdrawn. It also seems to have escaped the planning process that Shirley Oaks is governed by a Section 52 Agreement under the 1971 Town and Country Planning Act controlling development of the 'amenity lands' on Shirley Oaks. Further, the land is owned by the 488 Shirley Oaks resident property owners as shareholders of Shirley Oaks Management Ltd that owns the land. There is, therefore, no likelihood of the land ever being sold voluntarily. In summary, this part of the proposed Local Plan is undeliverable.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

We are writing to object to the proposals to:

1. de-designate the Metropolitan Open Land around Shirley Oaks Village.
2. the use of the following sites for housing:
  - land at Poppy Lane reference number 128;
  - Stroud Green Pumping Station, 140 Primrose Lane reference number 504;
  - land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House reference number 541;
  - land to the West of Shirley Oaks Road reference number 542;
  - land to the rear of 5-13 Honeysuckle Gardens reference number 548;

The Shirley Oaks Village site currently provides a balance of high density housing offset by areas of green space. The proposals for de-designation of the Metropolitan Open Land and additional housing on the areas of green space would disrupt that balance and greatly increase the density of housing to an unacceptable level. Access to the Shirley Oaks site is by way of Poppy Lane and Shirley Oaks Road which feed into Shirley Road and Wickham Road respectively. Both Shirley Road and Wickham Road are used heavily throughout the day and subject of long delays particularly at peak times. This has resulted in Poppy Lane and Shirley Oaks Road experiencing heavier traffic flows than they were designed for as commuters cut through between Shirley Road and Wickham Road.

Public transport within the Shirley Oaks site is limited to a small single decker bus due to the road infrastructure and road system. Whilst there are bus services which serve Shirley Road and Wickham Road these are already oversubscribed and subject to delay due to existing traffic congestion.

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

3 Proposed Policy DM43 De-designation of Metropolitan Open Land around Shirley Oaks Road

I object to the de-designation of Metropolitan Open Land in the vicinity of Shirley Oaks Road and Shirley Oaks Village. The land should be at least be designated as Local Green Space, for its protection from development.

This open space provides a green corridor between Shirley Oaks and the surrounding areas, and should be retained in its present form.

I also object to the following specific proposals for the building of new homes on this site, as detailed in Changes to the Policies Map arising from Proposals contained within the the Croydon Local Plan; Strategic Policies Partial Review and the Croydon Local Plan, Detailed Policies & Proposals:

- Policy DM43, reference 128 to build new homes at Poppy Lane
- Policy DM43, reference 504 to build new homes at Stroud Green
- Pumping Station (including the conversion of the pumping station which is a locally-listed building)
- Policy DM43, reference 542 to build new homes on land to the west of Shirley Oaks Road
- Policy DM43, reference 548 to build new homes on land to the rear of Honeysuckle Gardens

Not only would these developments entail the loss of the green corridor between Shirley Oaks and the surrounding areas, the local road infrastructure would not be able to cope with the additional traffic. Also, the already-stretched social and healthcare facilities would be overloaded.

Not only would these developments entail the loss of the green corridor between Shirley Oaks and the surrounding areas, the local road infrastructure would not be able to cope with the additional traffic. Also, the already-stretched social and healthcare facilities would be overloaded

For the reasons given above:

1. I do not think that the preferred approach is the most appropriate for Croydon to help us meet our Strategic Objectives set out in Section 3.
2. The preferred approach is deliverable, but not acceptable.
3. I do not think the preferred approach enables sustainable development, because it will compromise the ability of future generations to meet their own needs.
4. I recommend that consultation documents of such importance are given much wider publicity.

The Council should focus on developing other land in the Croydon borough such as unused office blocks, derelict corporate buildings/factories/warehouses which have not been occupied for years instead of attacking the green areas which are enjoyed by the residents in their respective areas. The proposals to build circa 700 houses in such a small area will cause the following detrimental effects to the local residents: depreciation of the value of the houses purchased in the relevant areas, too much strain on the water and sewerage systems in the locality where there is already a high water table. This could result in undue flooding and drainage problems, structural problems in years to come as the land is not fit for such intensive building, increase in traffic on Shirley Road, Wickham Road, Lower Addiscombe and Addiscombe which is already congested. This will unduly increase pollution levels which are already toxic. This will undoubtedly cause an increase in the health problems of the people in the locality such as lung cancer and other respiratory illnesses which will in turn place greater stress on the NHS services, cause more people to take sick days which will result in lower incomes obtained and eventually less tax revenue generated. This will have a knock on effect on the economy which is to say at the very least, bleak, the three green spaces in the Shirley Oaks Village are owned by the 488 Freeholders. Each Freeholder owns one share in the nominee company, Shirley Oaks Management Limited which owns the land on behalf of its shareholders. Building upon this land would seriously undermine the value of the land purchased by the Freeholders and reduce quality of life. If the residents wanted to move, it would prove near impossible because of the resulting lower sale prices of their respective houses imposed by the Council's building plans. This would appear to be unfair

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

for the Council to impose such hardship on the residents. I would urge the council to build upon land in the Croydon borough which is derelict and contains buildings which have not been used for years. These buildings can be knocked down to build the much needed housing for generations to come. These unused or derelict buildings serve no purpose to the local residents and are of no value to the residents. The Council should endeavour to create value where it is needed. This will in turn improve the condition of the abandoned areas. This will also prevent squatting and other unlawful uses of such buildings. I witnessed one example last year where the old post office building next to East Croydon Station was used as a rave containing over 1,000 people. This posed a risk to the safety of the passers by and the increase in crime. The Council's redevelopment of such spaces could be highly beneficial to the area. The green spaces are however of great importance to the local residents. The residents enjoy these spaces for walking their dogs, recreational and outdoor activities, space for children to play, piece of mind for the resident who works in the city and comes home to a peaceful environment and it provides space for those residents who already have very small back gardens.

I wish to protest vehemently about your plans to destroy Shirley which is a village by building hundred of homes and setting up a Gypsy and Traveller site. You will destroy the Green Belt and increase the traffic in the area thus polluting the environment and the air we breathe.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

The use of the following five sites for housing:  
Land at Poppy Lane (ref number 128)  
Stroud Green Pumping Station, 140 Primrose Lane (ref number 504)  
Land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House (ref number 541)  
Land to the west of Shirley Oaks Road (ref number 542) and land to the rear of 5-13 Honeysuckle Gardens (ref number 548)  
When the London Borough of Lambeth closed the children's home, known as Shirley Oaks, Croydon Council determined to keep the building redevelopment of the site broadly in line with the building density that had existed for most of the previous hundred years and subsequent applications by the then developer for increased housing density were rejected. There were a number of reasons for maintaining the original policy amongst which were the need to maintain the established green corridor, retain the character of the area and to maintain the surrounding traffic volumes at a manageable level. The decision to designate the land as Metropolitan Open Land was to ensure that in future further building on the land could not take place thus re-affirming the principles established by the original policy decisions. Nothing has changed in the ensuing years to justify any variation to that policy.

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

I am dismayed at the consideration being given to the above, particularly concerning that proposed in the Shirley area.  
I have been a Shirley resident for almost 30 years and to date have enjoyed what the area does offer both for the community and with regard to open green spaces, which are precious to the health and wellbeing of all ages. Why should future generations be unable to continue to benefit from an outdoor environment as hitherto?  
I strongly object to de-designation of the current Metropolitan Open Land and would hope that at least it could be protected as Local Green Space with regard to future development. This is particularly pertinent with regard to the proposals being considered for the Shirley Oaks area. The present road infrastructure through the estate leaves a lot to be desired and any more traffic will be a great cause for concern, to say nothing of the loss of wildlife and spacious living. If we had wanted to live in a highly densely populated area, we would not have chosen the Shirley area to relocate into, rather the centre of the town. The redevelopment of brownfield sites is more acceptable and there must be many of these in the Croydon area to develop without encroaching on valued green spaces.

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

Object Soundness - DM43.4

I wish to formally object to:  
 1. All the proposed policies relation to the re-designation of land to allow building development at Shirley Oaks Road and land around Shirley Oaks Village.  
 2. The land at Poppy Lane (reference 128)  
 3. Stroud Green Pumping Station, 140 Primrose Lane including the conversion of the locally listed pumping station (reference 504)  
 4. Land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House (reference 541).  
 5. Land to the West of Shirley Oaks Road (reference 542)  
 6. Land to the rear of 5-13 Honeysuckle Gardens (reference 548)  
 These proposals are NOT appropriate for Croydon to meet its Strategic Objectives.  
 Additionally the proposals are NOT DEUVERABLE or SUSTAINABLE as:  
 • Croydon have already announced that it is not necessary to deliberately destroy MOL to reach their housing requirements.  
 • National and London Plans do NOT require or expect Local Authorities to degrade MOL to generate additional housing.  
 • The loss of this MOL will entail the LOSS of a vital green corridor between Shirley Oaks through to Ashburton Playing fields, across to South Norwood Park and surrounding Areas.  
 • The above areas are vital to sustain the drainage of surrounding flood areas.  
 • The above mentioned areas are referred to the "lungs of Croydon" as they sustain carbon dioxide capture (photosynthesis), oxygen release (photosynthesis) and biodiversity. Local wildlife includes badgers and bats.  
 • Green areas increase the character, desirability and amenity of residential areas.  
 Green areas have a strong positive impact of the character of surrounding residential areas.  
 • The proposed increase in housing will put an additional burden on public transport, roadways and street parking and other services. The additional volume of traffic will create additional road hazards.

If any additional homes were to be considered for this area then they should be restricted in number and carefully planned in order to retain the character of this area. The idea of building up to 750 new homes is totally out of keeping with this objective and would be considerable strain on local infrastructure and resources. New housing on this scale would lead to a significant increase in traffic along the Wickham Road which is already extremely busy not only servicing the residents of Shirley but as an important thoroughfare into Croydon. The proposal to build new houses on the Shrublands Estate does not fall within the Strategic Objectives because:-  
Objective 2: This development will not Foster an environment where existing enterprise can prosper, but will reduce enterprise  
Objective 4: This development will not reduce social, economic and environmental deprivation. It will not reduce unemployment, improve skills and education and improve environmental conditions, the development is not in keeping with the surrounding area.  
Objective 5: This development is not high quality and will not enhance the borough's natural environment but will reduce the natural environment by turning a green area into housing  
Objective 7: This development will reduce the area as a safe, healthy and cohesive community but making the area overcrowded with residential property  
Objective 10: This development will reduce the quality and accessibility of green space and nature.

If this development is undertaken it will not deliver the strategic objective.

This development will compromise the ability of future generations to meet their own needs. The development will change the outlook and community within the South Croydon area and future generation will suffer because of this.

This proposed development of new housing in Shrublands Estate is not within keeping of the current development within this area. Shirley comprises of large semi and detached houses with large green areas. This development is in no way in keeping with housing in the area.

Changing a green area to an area of residential housing will cause harm and reduce the outlook of the area and is not in keeping with the surrounding area

Building a travelers site will increase noise levels and ruin the character of the area and this development would overwhelm this green area.

Paragraph 64 of the National Planning Policy Framework states that permission should be refused for development of poor design that fails to take the opportunities available for improving the character and quality of an area and the way it functions.

This development would diminish the area of green fields and recreational

2618/01/009/DM43.4/O	Miss P Jones	Object		DM43.4 938	Having lived in Shirley for over 50 years I strongly object to Croydon Council plans to de-designate the Metropolitan open land so that most of this land eau be ued for new housing. At the moment it has the same Protection as Green Belt.  Firstly, this would entail the loss of a vital green corridor between Shirley Oaks and the surrounding area, changing the character of the area,more Importantly the road infrastractive couldn't cope with the additional traffic. 2657/01/005/DM43.4/O	Rebecca Pullinger <i>CPRE London</i>	Object	Soundness - Effective	DM43.4 938	A large number of the sites allocated for development through Detailed Policies and Proposals may result in the loss of green space. This appears to run counter to the Borough's Strategic Objective 10 (The need to utilise brownfield areas first) and could be replaced with a goal to promote good quality high density developments that protect Croydon's green spaces. Even undesignated green spaces provide important ecosystem services to Croydon's growing population.  The council should provide a map of the site allocation to ensure that it is clear which area is proposed for redevelopment. We object to any proposed development of open spaces in the Estate: any proposals must ensure that the open spaces are protected and enhanced. This should be reflected in this document to guide future planning applications.	The Council should provide additional text in these policies to encourage developers to propose good quality, high density developments which promote the protection and enhancement of green space. Traffic on Bridle Road is already heavy, there have been numerous accidents due to speeding drivers from the Estate. Why add more problems to an existing one. More inhabitants means more cars, more people on an already crowded public transport. I wish to log my objection to the borough-wide planned changes Croydon Council are proposing to make in their Local Plans for 2016-2036. These proposals are 750 new homes in Shirley Oaks and 35 new homes on the Shrublands Estate. Also the proposed work to the two large gypsy/travellers site in Coombe Farm and the Conduit Nursery of Coombe Road.

Change

This site comprised a collection of sites rather than one individual site. It will may come forward through the Council New Build Programme but will not be included in the Local Plan.

The draft identifies two areas of Shirley as locations where 'Medium-rise blocks with associated grounds', 'Large buildings with spacing' and 'Large buildings with strong frontages will be gradually introduced' (page 132).

Shirley Road Shopping Parade and the area around Shirley Library are identified as areas where the Council wants to see "focussed intensification associated with gradual change of area's local character" under Policy DM31.4 (page 129). This includes the Wickham Road, Ridgemount Avenue, Wickham Avenue, Peregrine Gardens, West Way Gardens, Hartland Way, Bennetts Way and Devonshire Way (page 166). In practice, this means that existing family dwellings, mainly semi-detached buildings, will give way to medium-rise blocks in these particular streets.

My main objections are:  
It will depress house prices throughout those streets and the surrounding streets.  
This will in turn result in property developers buying up many of the existing family homes and making a profit by building low quality apartment blocks along narrow side-streets. Those roads will become crowded and overpopulated.  
Insufficient local infrastructure to cope with the increased population.  
Longer term, this will completely change the character of Shirley. Of course, this is the intention.  
However, it will be a change for the worse, not the better. Many of the current residents - some, like myself, brought up on a council estate - have worked hard for many years in order to improve their quality of life and provide a better environment for their children. We will desert the town as it ceases to be the relatively quiet, aspirational location we moved to and transforms into a busier, overcrowded and underfunded suburb.

Conclusion  
The proposals I have highlighted can only be viewed as negative. If adopted, they will increase the local population - and the density of that population - without providing any supporting infrastructure. The new residents from the planned apartment blocks and traveller sites will need additional public services such as schools, medical services and shops. Older residents will give way to young families who require greater social support, yet no additional resources are identified to help manage the changing demographic. Traffic congestion along already busy roads will increase, as will pollution and

accident black-spots. The few remaining green spaces will disappear. Overall, the proposals signal a reduction in the quality of life for both the existing residents and the newcomer

---

The proposal to build new houses on the Shrublands Estate does not fall within the Strategic Objectives because:-

Objective 2: This development will not Foster an environment where existing enterprise can prosper, but will reduce enterprise

Objective 4: This development will not reduce social, economic and environmental deprivation. It will not reduce unemployment, improve skills and education and improve environmental conditions, the development is not in keeping with the surrounding area.

Objective 5: This development is not high quality and will not enhance the borough's natural environment but will reduce the natural environment by turning a green area into housing

Objective 7: This development will reduce the area as a safe, healthy and cohesive community but making the area overcrowded with residential property

Objective 10: This development will reduce the quality and accessibility of green space and nature.

This development will compromise the ability of future generations to meet their own needs. The development will change the outlook and community within the South Croydon area and future generation will suffer because of this. This proposed development of new housing in Shrublands Estate is not within keeping of the current development within this area. Shirley comprises of large semi and detached houses with large green areas. This development is in no way in keeping with housing in the area. Changing a green area to an area of residential housing will cause harm and reduce the outlook of the area and is not in keeping with the surrounding area. Building a travelers site will increase noise levels and ruin the character of the area and this development would overwhelm this green area. Paragraph 64 of the National Planning Policy Framework states that permission should be refused for development of poor design that fails to take the opportunities available for improving the character and quality of an area and the way it functions. This development would diminish the area of green fields and recreational land within the area.

3704/01/003/DM43.4/C	Mrs J Horton		DM43.4 938	I wish to log my objection to the borough-wide planned changes Croydon Council are proposing to make in their Local Plans for 2016-2036. These proposals are 750 new homes in Shirley Oaks and 35 new homes on the Shrublands Estate. Also the proposed work to the two large gypsy/travellers site in Coombe Farm and the Conduit Nursery of Coombe Road.	Change	This site comprised a collection of sites rather than one individual site. It will may come forward through the Council New Build Programme but will not be included in the Local Plan.
3737/01/006/DM43.4/O	Mr J Patel	Object	DM43.4 938	I am writing to record my objection to various planning as follows. Your Ref No 128,504,541,542,548 and 938. I dont think it will be good for the area.	Change	This site comprised a collection of sites rather than one individual site. It will may come forward through the Council New Build Programme but will not be included in the Local Plan.
3769/01/013/DM43.4/O	Mr K George	Object	DM43.4 938	I further object to the use of green space on Shrublands for housing. Reference 938.	Change	This site comprised a collection of sites rather than one individual site. It will may come forward through the Council New Build Programme but will not be included in the Local Plan.
3775/01/007/DM43.4/O	Mr & Mrs Barnes	Object	DM43.4 938	The Council plans to build on under-used garages and open spaces on the Shrublands Estate. These sites are identified as suitable for 35 homes (pages 459-460, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 938).	Change	This site comprised a collection of sites rather than one individual site. It will may come forward through the Council New Build Programme but will not be included in the Local Plan.
3785/01/008/DM43.4/O	Jenny Greenland	Object	DM43.4 938	I am happy for the Council to replace under-used garages with much-needed homes, but I object to building on open space.	Change	This site comprised a collection of sites rather than one individual site. It will may come forward through the Council New Build Programme but will not be included in the Local Plan.
3789/01/018/DM43.4/O	Mr Paul Slaughter	Object	DM43.4 938	Happy for the Council to replace under-used garages with much needed homes, but will be obecting to building on precious open space.	Change	This site comprised a collection of sites rather than one individual site. It will may come forward through the Council New Build Programme but will not be included in the Local Plan.
3792/01/010/DM43.4/O	Mr Simon Bradley	Object	DM43.4 938	By the way, the development of additional housing on underused and poorly maintained garage blocks in Shrublands is exactly what should be happening – leave green spaces alone and simply redevelop existing sites for better use.	Change	This site comprised a collection of sites rather than one individual site. It will may come forward through the Council New Build Programme but will not be included in the Local Plan.

3793/01/009/DM43.4/O	Mr Stephen Barnes	Object		DM43.4 938	Third, the Council plans to build on under-used garages and open spaces on the Shrublands Estate. These sites are identified as suitable for 35 homes (pages 459-460, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 938). 3978/01/012/DM43.4/O	Ms S Ikpa	Object		DM43.4 938	the use of open spaces on the Shrublands Estate for housing site reference number 938	Change	This site comprised a collection of sites rather than one individual site. It will may come forward through the Council New Build Programme but will not be included in the Local Plan.
3983/01/002/DM43.4/O	Mr & Mrs Walsh	Object		DM43.4 938	We also understand that you wish to develop homes on green field sites in the area. One has to question why you cannot use the available brown field areas? The Shrublands area especially should be allowed to maintain their open spaces.	Change	This site comprised a collection of sites rather than one individual site. It will may come forward through the Council New Build Programme but will not be included in the Local Plan.
3992/01/012/DM43.4/O	Patricia Wood	Object	Soundness - Justified	DM43.4 938	Finally I object to the use of open space on the Shrublands Estate for housing reference number 938	Change	This site comprised a collection of sites rather than one individual site. It will may come forward through the Council New Build Programme but will not be included in the Local Plan.
4066/01/011/DM43.4/O	Dr Chandra Pawa	Object	DM43.4 938	I object to the use of open spaces on the Shrublands Estate for housing site reference number 938	Change	This site comprised a collection of sites rather than one individual site. It will may come forward through the Council New Build Programme but will not be included in the Local Plan.
4071/01/005/DM43.4/O	Mr & Mrs Tross	Object	DM43.4 938	Given the existing levels of brownfield sites in the area, these should be exhausted before encroaching on areas that would significantly alter the character of the area.	Change	This site comprised a collection of sites rather than one individual site. It will may come forward through the Council New Build Programme but will not be included in the Local Plan.
4075/01/011/DM43.4/O	Kaljit Gata-Aura	Object	DM43.4 938	Object to the use of open spaces on the Shrublands Estate for housing - Ref 938	Change	This site comprised a collection of sites rather than one individual site. It will may come forward through the Council New Build Programme but will not be included in the Local Plan.
4083/01/015/DM43.4/O	Mr Reuben Gata-Aura	Object	DM43.4 938	object to The use of open spaces on the Shrublands Estate for housing - Ref 938	Change	This site comprised a collection of sites rather than one individual site. It will may come forward through the Council New Build Programme but will not be included in the Local Plan.

4112/01/009/DM43.4/O	Ms V Cruickshank	Object	DM43.4 938	I object to the use of open spaces on the Shrublands Estate for housing: reference number 938.  The loss of more open spaces for yet more housing will create even greater pressures and tensions within the settled community and surrounding areas, while also placing greater strain on existing infrastructure and local services.	Change	This site comprised a collection of sites rather than one individual site. It will may come forward through the Council New Build Programme but will not be included in the Local Plan.
4117/01/057/DM43.4/O	Cllr S Brew	Object	DM43.4 938	I object to the de-designation of land on either side of Shirley Oaks Road and all around Shirley Oaks Village as Metropolitan Open Land, page 68 of the Policies Map.	Change	This site comprised a collection of sites rather than one individual site. It will may come forward through the Council New Build Programme but will not be included in the Local Plan.
4138/02/006/DM43.4/O	Ms S Rao	Object	DM43.4 938	The use of open spaces on the Shrublands Estate (site ref 938) for housing	Change	This site comprised a collection of sites rather than one individual site. It will may come forward through the Council New Build Programme but will not be included in the Local Plan.
4146/01/007/DM43.4/O	Mr & Mrs Carpenter	Object	DM43.4 938	Again open space should be retained. We have no objection to the use of the sites of redundant garages.	Change	This site comprised a collection of sites rather than one individual site. It will may come forward through the Council New Build Programme but will not be included in the Local Plan.
4150/01/009/DM43.4/O	Mr & Mrs Kennard	Object	DM43.4 938	I am writing to show that I object to a number of your plans around the Shirley area. I contest that you need to build on our green sites and bring in new 'traveler' sites into Shirley.  On top of this I cannot understand the need to bring 'medium' high rise buildings in and around Shirley, including Devonshire way and the new proposals around Hartland way.  Please can you let me know if my objection has been noted and how I can make it more official?	Change	This site comprised a collection of sites rather than one individual site. It will may come forward through the Council New Build Programme but will not be included in the Local Plan.
4161/01/012/DM43.4/O	Mr Trevor Watkins	Object	DM43.4 938	the use of open spaces on the Shrublands Estate for housing site reference number 938	Change	This site comprised a collection of sites rather than one individual site. It will may come forward through the Council New Build Programme but will not be included in the Local Plan.
4166/01/009/DM43.4/O	Carol Holmes	Object	DM43.4 938	Shrublands Estate development (reference number 938) Open spaces on this estate should not be used for building.	Change	This site comprised a collection of sites rather than one individual site. It will may come forward through the Council New Build Programme but will not be included in the Local Plan.

4197/01/002/DM43.4/O	Mr E McNulty	Object		DM43.4 938	As a Shrublands resident of over 50 years, I strongly object to plans to use the estate's open spaces for housing. There are plenty of brownfield sites for new developments before resorting to the type of infilling which would change the character of our estate forever, leading to environmental degradation and a worsening of residents' quality of life.	Change	This site comprised a collection of sites rather than one individual site. It will may come forward through the Council New Build Programme but will not be included in the Local Plan.
4200/01/007/DM43.4/O	Mr G Furmanski	Object	Soundness - Justified	DM43.4 938	I object to Ret No. 938 — the use of open spaces on the Shrublands Estate for housing land	Change	This site comprised a collection of sites rather than one individual site. It will may come forward through the Council New Build Programme but will not be included in the Local Plan.
4209/01/008/DM43.4/O	Mr & Mrs King	Object		DM43.4 938	Proposed Policy Development & Under-used Garages and Open Spaces on Shrublands Estate. Policy DM43, reference 938  I am sympathetic to the building of homes on the under-used garages on the Shrublands Estate as detailed In Changes to the Policies Map arising from Proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan, Detailed Policies & Proposals: reference number 938. However, I object to the building of any homes on communal open spaces and loss of amenity on the Shrublands Estate.  For the reasons given above: 1. I do not think that the preferred approach is the most appropriate for Croydon to help us meet our Strategic Objectives set out In Section 3. 2. The preferred approach is deliverable, but not acceptable. 3. I do not think the preferred approach enables sustainable development, because it will compromise the ability to meet the needs of future generations. 4. I recommend that consultation documents of such importance are given much wider publicity.	Change	This site comprised a collection of sites rather than one individual site. the use of open spaces on the Shrublands Estate for housing reference number 938. The Council should focus on developing other land in the Croydon borough such as unused office blocks, derelict corporate buildings/factories/warehouses which have not been occupied for years instead of attacking the green areas which are enjoyed by the residents in their respective areas. The proposals to build circa 700 houses in such a small area will cause the following detrimental effects to the local residents: depreciation of the value of the houses purchased in the relevant areas, too much strain on the water and sewerage systems in the locality where there is already a high water table. This could result in undue flooding and drainage problems, structural problems in years to come as the land is not fit for such intensive building, increase in traffic on Shirley Road, Wickham Road, Lower Addiscombe and Addiscombe which is already congested. This will unduly increase pollution levels which are already toxic. This will undoubtedly cause an increase in the health problems of the people in the locality such as lung cancer and other respiratory illnesses which will in turn place greater stress on the NHS services, cause more people to take sick days which will result in lower incomes obtained and eventually less tax revenue generated. This will have a knock on effect on the economy which is to say at the very least, bleak, the three green spaces in the Shirley Oaks Village are owned by the 488 Freeholders. Each Freeholder owns one share in the nominee company, Shirley Oaks Management Limited which owns the land on behalf of its shareholders. Building upon this land would seriously undermine the value of the land purchased by the Freeholders and reduce quality of life. If the residents wanted to move, it would prove near impossible because of the resulting lower sale prices of their respective houses imposed by the Council's building plans. This would appear to be unfair for the Council to impose such hardship on the residents. I would urge the council to build upon land in the Croydon borough which is derelict and contains buildings which have not been used for years. These buildings can be knocked down to build the much needed housing for generations to come. These unused or derelict buildings serve no purpose to the local residents and are of no value to the residents. The Council should endeavour to create value

where it is needed. This will in turn improve the condition of the abandoned areas. This will also prevent squatting and other unlawful uses of such buildings. I witnessed one example last year where the old post office building next to East Croydon Station was used as a rave containing over 1,000 people. This posed a risk to the safety of the passers by and the increase in crime. The Council's redevelopment of such spaces could be highly beneficial to the area. The green spaces are however of great importance to the local residents. The residents enjoy these spaces for walking their dogs, recreational and outdoor activities, space for children to play, piece of mind for the resident who works in the city and comes home to a peaceful environment and it provides space for those residents who already have very small back gardens.

6177/01/003/DM43.4/O	Marie Hillman	Object	DM43.4 938	I have lived on Shrublands for 54 and a half years. It is known for its fresh and open green areas. It is a small estate and to take that away and build on it is would be a travesty. There is nothing here for us anyway, so take the ball court and the prettyness away from us would be awful for young and old. We don't wish to feel calustrophobic and feeel we have no say where we lived. A very crafty uncaring , disrespectful move on your part for not informing the residents in good time to get our objections in! The main park was removed a year a go and replaced with a smaller one in Fir Tree Gardens which is in adequate for the amount of children up here. Our shops aren't much to speak of either and very depressing for us as there is nothing to do up here. Why don't you try to improve where we lived, instead of taking more away form us by ruining it even further? The proposal to build new houses in Shirley Oaks Hospital, Poppy Lane does not fall within the Strategic Objectives because:-  
Objective 2: This development will not Foster an environment where existing enterprise can prosper, but will reduce enterprise  
Objective 4: This development will not reduce social, economic and environmental deprivation. It will not reduce unemployment, improve skills and education and improve environmental conditions, the development is not in keeping with the surrounding area.  
Objective 5: This development is not high quality and will not enhance the borough's natural environment but will reduce the natural environment by turning a green area into housing  
Objective 7: This development will reduce the area as a safe, healthy and cohesive community but making the area overcrowded with residential property  
Objective 10: This development will reduce the quality and accessibility of green space and nature.

If this development is undertaken it will not deliver the strategic objective. This development will compromise the ability of future generations to meet their own needs. The development will change the outlook and community within the South Croydon area and future generation will suffer because of this.

This proposed development of new housing in Shirley Oaks Hospital is not within keeping of the current development within this area. Shirley comprises of large semi and detached houses with large green areas. This development is in no way in keeping with housing in the area.

Changing a green area to an area of residential housing will cause harm and reduce the outlook of the area and is not in keeping with the surrounding area

Building a travelers site will increase noise levels and ruin the character of the area and this development would overwhelm this green area.

Paragraph 64 of the National Planning Policy Framework states that permission should be refused for development of poor design that fails to take the opportunities available for improving the character and quality of an area and the way it functions.

This development would diminish the area of green fields and recreational land within the area.

Site A546 was an alternative site and had not come forward for development. It is designated in the Local Plan as a site that would be difficult (in terms of character) to integrate with the built up area of the borough and has not been allocated for development on that basis.

In the light of this comment it will be designated as Local Green Space along with the allotments and Peabody Close playing field.

I am writing to you in my capacity as secretary of the Addiscombe Woodside and Shirley Leisure Gardens Ltd, with the full endorsement of the Executive Committee. AWSLF is an allotment society comprising in excess of 400 plots, adjacent to Stoud Green Pumping Station and bounded by Primrose Lane Poppy Lane and Glenthorne Avenue.

I am writing to object to two issues detailed in the above document which are relevant to our land.

Land opposite Shirley Oaks Hospital, Poppy Lane. Policy DM43: Shirely Ref A546

- The land detailed in the map on page 444 is the freehold property of the shareholders of the AWSLG Ltd. On these grounds alone we object to its development.

- In addition to this, in recent years this land has been turned into a nature reserve, now home to numerous flora and fauna including, we understand protected species. This is a vital asset of the Society, much used by its members and visitors and previously prone to flooding before being properly managed.

Change

This site was allocated as an alternative site. It is not considered appropriate to carry this site through to the next stage of the Local Plan and so is therefore removed.

In the light of this comment it will be designated as Local Green Space along with the allotments and Peabody Close playing field.

Change

As set out in the Croydon Local Plan: Changes to the Policies Map document, the reason that the site is not a preferred option is because the site would be difficult to integrate with the built up area of the borough. The site has not come forward as part of the consultation process and will therefore not be carried forward into the proposed submission stage of the plan.

In the light of this comment it will be designated as Local Green Space along with the allotments and Peabody Close playing field.

This appears to run counter to the Borough's Strategic Objective 10 (The need to utilise brownfield areas first) and could be replaced with a goal to promote good quality high density developments that protect Croydon's green spaces. Even undesignated green spaces provide important ecosystem services to Croydon's growing population. 2777/01/001/DM44.2/C	David Melnyk	Comment		DM44.2 345	I would suggest that some of the land is devoted to extending the playing fields of the school next to the property which has itself doubled its intake of children in recent years and probably needs more space. I would also suggest that fewer houses are built, with space for more cars to park away from Normanton Road. The traffic flow on Normanton Rd is really awful now, mainly because most of the road-space is taken up by parked cars. Visitors to, and residents in, the many relatively new flats tend to park on the street because parking area within the apartment complexes is inadequate. When Gypsies and Travellers set up an unauthorised encampment near to Coombe Lane tramstop the Council had to clear up 85 pieces of used toilet paper with faeces on it that were blowing around into people's gardens. It was a health hazard.

A Gypsy and Traveller site will also ruin the countryside. Green space is exactly that. Leave it alone.

Therefore I object to a Gypsy and Traveller site at Coombe Lodge Nurseries.

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Proposals in General:  
Green Belt and Metropolitan Open Land ensure that areas close to high density building, and in particular house, were maintained such that people who lived and worked nearby could benefit from open green space to exercise, relax and maintain a balanced lifestyle. By de-designating the space, not only is a very valuable facility being removed, but the population density that need to benefit from the space is being increase. The proposals fail to identify what alternative facilities of equivalent benefit would be made available and how many people will be affected by the loss of these facilities.

Proposal Ref 661:  
I specifically object to this proposal as they are contrary to Policy E of the Planning Policy for Travellers Sites "Traveller sites (temporary or permanent) in the Green Belt are inappropriate development". If the land is misguidedly de-designated it makes no difference in that the site has not changed, nor have the environment or the reason for it being designated in the first instance. Hence the reasoning for deeming it inappropriate for travellers still stands.

Notwithstanding the reasons for maintaining the current use of the areas in question, the occupation of these areas raises significant security issues for both travellers or any other new inhabitants, and those enjoying the adjacent areas. Access to both Coombe Farm and Coombe Lodge Nurseries have very poor sight lines onto Oaks Road and Coombe Road presenting a traffic hazard to both pedestrians and goods vehicles turning in and out.

The lack of local transport infrastructure in the area and the lack of pedestrian pavements and other walkways would result in a significant increase in vehicle movement.

Notwithstanding the reasons for maintaining the current use of the areas in question, the occupation of these areas raises significant security issues for both travellers or any other new inhabitants.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

I strongly object to the proposed Traveller Site at Coombe Lodge Nurseries. My objections mirror those of Mr Khimji who is also a CR2 resident. I would like to reinforce the exact objections that he has also raised as outline below:

1. Croydon residents have had to endure innumerable hardship as we have been treated – both in practice and reputation – as one of the ‘poor’ London Boroughs, following riots on the trams and the fires in 2011, as well as an illegal rave last year and bad press with the assault of an old lady on a Croydon bus this month. The lodging of this site here will do nothing but increase that reputation at a time when massive amount of investments are due to pour in for the Westfield Regeneration project. It will also serve to put off potential purchasers of property and reduce house prices in what is currently a well-to-do area, with no justification.
2. Rather than serving the travelling community, this site should be used to build new houses and flats to serve the existing, Croydon community, which could also be no doubt sold for profit in what is a ‘win-win’ for all concerned.
3. There is no reason to appease the travelling community when the number of beneficiaries would be largely outweighed by the number of existing Residents that would be adversely affected by the scheme.
4. There will inevitably be a ‘spill-over’ effect to the site, which the Council (and by definition, local tax payers) will have to foot the bill for, and there appears to be no justification for Croydon residents paying for the upkeep of the site – what contributions will we expect to receive in return?

I look forward to receiving feedback on the concerns that I have raised, above.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

I have certain objections to the proposed use of the land, namely:

1. I believe that the proposed site would be against the very essence of the existing Croydon plan to improve the borough, and that the knock-on effects of this will be an adverse impact on the desirability and gentrification of Croydon. I believe this site would undo all the good work the Council have so far achieved and have planned for the coming years.

2. Considering the lack of affordable housing for existing Croydon Residents, this land would be put to better use to build the required housing that is desperately needed for those who have chosen to live within the borough, and who ultimately want to contribute to the community. Any such project will have an undeniably higher value for the Council and for the borough.

3. I find it unfair that Travellers' requirements are put above the needs of existing Croydon residents, when there is no evidence of any community contribution - both economically and in social terms.

4. I am unsure as to the reasoning behind this proposal. What are the economic benefits of the proposal, and how will this serve to improve the Borough of Croydon? Has a cost/benefit analysis been performed?

5. I am concerned at the apparent lack of controls around the encampment proposed, mainly in regards to safety and population limits. What are the criteria for being able to pitch on this site? Will numbers be restricted relating to the space of the site? What infrastructure services will be provided, at what costs, and ultimately who will pay for this? As a taxpaying resident of Croydon, it is unfair for me to be funding these costs when I have similar costs which I pay for myself.

Thank you for taking the time to consider these objections

I have been a resident and homeowner in South Croydon for over 40 years. I was attracted to the area because of the green belt within its boundaries as well as very good railway connections to Central London. I am dismayed to learn that Croydon Council have identified three locations where they propose to set up permanent Gypsy and Traveller sites. I am particularly concerned with the proposed sites on Conduit Lane and Coombe Farm off Oaks Road. Both these are on green belt and in an area of natural beauty that I would have thought our elected council would go out of its way to preserve. How can this be when The Department for Communities and Local Government's Planning policy for traveller sites dated August 2015 states under Policy E: Local Government's Planning policy for traveller sites dated August 2015 Traveller sites in Green Belt paragraph 16 that " Inappropriate development is harmful to the Green Belt and should not be approved, except in very special circumstances. Traveller sites (temporary or permanent) in the Green Belt are inappropriate development. Subject to the best interests of the child, personal circumstances and unmet need are unlikely to clearly outweigh harm to the Green Belt and any other harm so as to establish very special circumstances" ?

What are the very special circumstances that make your proposals "appropriate"? How can you go against current Government Policy so blatantly when surely in Croydon ,with its many industrial estates, brownfield sites and urban sprawl , there are far more suitable sites for such developments. The Government policy/guideline is to have new sites near to existing developments. Clearly this would not be the case with this recommendation.

These proposals are clearly harmful for the Green Belt and would have a negative impact on the environment and wildlife in Coombe Wood, Shirley Hills and Lloyd Park. It would create a precedent for further erosion of our valuable local amenity. Coombe Road and Coombe Lane are already very busy roads and one of the main arteries into the town centre. The additional traffic emanating from these two sites, without significant road improvements , would exacerbate the traffic congestion, not to mention the additional pressure on the already stretched local services such as schooling and general

oes not comply with Government policy of new sites near existing development, is inappropriate development in the Green Belt and very special circumstances are not explained  
Croydon has many industrial, brownfield sites and urban sprawl where there must be more appropriate sites for such developments.  
Sites 661 and 502 will have a negative impact on the environment and wildlife, and impact on traffic congestion, add to an already dangerous junction of Coombe Road and Oaks Road and Conduit Lane. Road improvements would be needed. Will add pressure on local schools and general practitioners. The two sites will not meet the needs of the Traveller community not within walking distance of shops, health centres, schools and other local amenities.  
The traveller community favour smaller sites to avoid risk of inter-family tensions. These sites go against this.

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

practitioners. The access roads to these proposed sites are clearly unsuitable for the larger vehicles that this community use as part of their livelihood and way of life. The junctions at Coombe Road, Oaks Road and Conduit Lane are already dangerous for vehicles and this area has the potential with this proposal to become a major accident black spot without significant very costly improvements to the local road network.

In summary not only do I feel that these proposed sites are very unsuitable for the area but also they would not meet the needs of the traveller community. Neither of the proposed sites are within walking distance of shops, health centres, schools and other local amenities which I believe is their preference. The Traveller Community favour smaller sites as there is less likelihood of inter-family tensions. These plans clearly go against this.

I would urge you to give more thought to and reconsider this planning application as it is my strong opinion that it neither suits the Traveller Community nor the local residents .

---

This is Green Belt land which is inappropriate for traveller sites. Our community does not wish to lose any of its green belt land. We don't want the start of development in green belt leading to a precedent and subsequent further loss. Also there would be a negative effect on the environment, wildlife etc to lose any green belt land. The site does not meet anyone's needs. It would be detrimental to one local community. Also, it doesn't meet the needs requested by gypsy and traveller communities. They prefer smaller family sites. They require good access to roads, especially for their large vehicles. They do not request public transport, which was stated as a benefit, but it is not relevant to these communities. There are not any shops or amenities near by. These community groups request that too. On every level these sites do not fit traveller needs and they would create a negative impact on the local community's needs. This site is unsuitable to develop. There are not adequate roads, schools, shops, health facilities etc to cope with such development. The cost to put this infrastructure in place is huge. I think that overwhelming costs would outweigh any benefits. The site has local, environmental, conservation, historical and natural significance. It is too important to lose. I think that the area doesn't suit the needs of any travellers. As stated there is no infrastructure to cope with these numbers. Our local area would be compromised. It is most likely there will be an adverse reaction on local businesses. The areas (e.g. Coombe Woods, Coombe Lodge Nurseries) would be negatively impacted by the plans.

Object to use of site 661 for gypsy and travellers as not the most appropriate to help Croydon meet Strategic Objectives as in Green Belt. Not in line with Government planning policy on the Green Belt

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

## Detail:

- Government planning policy with regards to traveller sites wants to ensure that plan-making and decision-taking should protect Green Belt from inappropriate development.
- The proposal to create a permanent traveller site on land designated as Green Belt land is contrary to Policy E of the Planning Policy: "Inappropriate development is harmful to the Green Belt and should not be approved, except in very special circumstances.". There are no very special circumstances. •The National Planning Policy Framework makes it clear that unmet housing need (including for traveller sites) is unlikely to outweigh the harm to the Green Belt and other harm to constitute the "very special circumstances" justifying inappropriate development on a site within the Green Belt.
- The local character description is clearly at odds with the proposal.
- The justification acknowledges the Green Belt issue, though insufficiently, but relies on the fact that there are existing structures. These are not in fact substantial – being glasshouses – and could be said to be at least environmentally consistent with the Green Belt. But there is no very special circumstance justification proposed as required by Planning Policies.
- Approving the proposal would set a precedent and open the surrounding areas to be subject to similar development. It is not in the community's interests to allow the erosion of the green spaces surrounding the community and we object to the impact this site could have on the environment and wildlife. In the light of these issues, it is not appropriate simply to weight Green Belt as one of many factors to be considered, but rather it presents an overarching policy objection that cannot be over-ridden in the way proposed. The decision making process is contrary to Government guidance

1752/01/002/DM44.2/O	Alan and Anne Pearson	Object	DM44.2 661	<p>My wife and I wish to object strongly to the proposal for two traveller sites in our local area.</p> <p>As a couple keen on wildlife, we moved to Melville Avenue mainly for its green location and quick access to unspoilt lanes and open areas in what we were led to believe were green belt. Now these are under threat.</p> <p>We have had a fair bit of experience with travellers in the local area in the past, encamped on the Coombe Lodge Playing Fields, in Lloyd Park and on Addington Hills and in all cases have been dismayed by their lack of conscience. They have taken down fences and burnt them as bonfires, destroyed turf on pitches, disturbed our neighbours' beehives, and left considerable amounts of rubbish scattered behind, making no effort even to tidy it into one spot. You will see why then we are less than enthusiastic about the proposals.</p> <p>Both Conduit Lane and Oaks Lane are tranquil places, very good for wildlife which we enjoy watching. There are few such places within easy access of Croydon and we feel very strongly they should be protected.</p>	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. This is a greenbelt site and Policy E of "Planning Policy for Traveller Sites", published by the Government in August, says very clearly: "Traveller sites (temporary or permanent) in the Green Belt are inappropriate development". This is quite a beautiful part of Croydon and having this site here would just ruin the area. I have regular experience of travellers where I work on Imperial Way in Croydon and the rubbish that is left by the travellers is disgusting. I can just see Lloyd Park being used as a dumping ground by travellers and the whole area looking unsightly. The reason being in my opinion it will drastically change the character of our area very much for the worse. We desperately need new housing, but it should be built on brownfield sites not our remaining precious green spaces, particularly in this area. 1812/01/004/DM44.2/O	Grahame Lamb	Object	Soundness - Justified	DM44.2 661	I wish to notify you of my objections to some of the Council's proposals in the Croydon Local Plan, which has recently been brought to my attention. As I understand from Gavin Barwell MP (Croydon Central) there are plans to build three gypsy/traveller camps in the Green Belt (eg Coombe Farm), and to allow large housing developments on some of our precious green spaces. Once gone these are gone forever. The character of parts of the Borough could be dramatically changed for the worse and this might discourage people from living, working, shopping and investing in the area. Whilst I acknowledge that there is a need for more accommodation in Croydon it is preferable to utilise effectively those brownfield sites which I am given to understand do exist in the area. More brownfield sites might become available in the future and I should like to think that the Council is establishing and/or maintaining and updating a list of suitable locations. I object to the use of any of these locations for the creation of Gypsy/Traveller sites. All three locations are within the Green Belt and one borders a site of Nature Conservation Interest. Such development is in breach of Policy E of Planning Policy for Traveller Sites, which says that "Traveller Sites (temporary or permanent) in the Green Belt are inappropriate development". All three sites are also a considerable distance from public services. I believe that the proposal to create three new Gypsy/Traveller sites now, and 39 by 2036 is excessive and will have an adverse effect on the borough. If the number of Gypsy/Traveller sites really needs to be increased by this amount, then a more appropriate location would be around the existing site at Purley Way. The positioning of a Gypsy/Traveller site adjacent to the car park for Coombe Woods, between the Chateau Restaurant and the Hotel/restaurant, would probably deter me from using

I would like to register my concern in relation to the specific proposal to develop a Gypsy/Traveller site on Conduit Lane, next to Coombe Wood Gardens. My objection is based on the following: This is a greenbelt site, and it is not appropriate to put a traveller site here. It is in contravention of Policy E of 'Planning Policy for Traveller Sites', published by the Government in August, says very clearly: 'Traveller sites (temporary or permanent) in the Green Belt are inappropriate development. The site is too close to current and proposed schools in the immediate vicinity and presents safety concerns to the many children who will occupying these schools in addition to them travelling to and from their schools. The impact on businesses close to the proposed site will be severally blighted. The enjoyment of local parks, and in particulate the gardens in Conduit Lane will be adversely impacted and the like loss of very limited parking in the area will be severe. I trust my objections will be duly noted and taken into consideration when taking action on this proposed development.

I am writing to register my objections for the following proposed sites for Gypsy and Travellers Sites:  
Coombe Lodge Nurseries off Conduit Lane - Reference 661

The Policies laid out on the Mayor of London - London Assembly website, and Policy 7.17 clearly states that the Mayor's office truly supports the protection of Metropolitan Open Land, and indeed states that "The strongest protection should be given to London's MOL and inappropriate development refused". The Policy lays out what needs to be established to designate an area as MOL, but does not make it clear how a Council can re-designate an area. I therefore object to any permanent Traveller site being constructed on MOL and especially if the area is simply going to be re-designated without any consultation with the local residents and businesses.

I object strongly that Croydon Council can re-designate Metropolitan Open Land or Green Belt land to suit their needs to accommodate a permanent pitch. I cannot see any Planning justification to change the designation, nor for the intrusion into the lives of the residents of Oaks Road and surrounding area. This will massively affect the urban attractiveness of the area and have both emotional and financial repercussions on many lives.

Policy 7.18 relating to Protection of Open Spaces clearly states that open spaces in London must be protected, and any loss must be resisted. I cannot believe the Council would want to go against both of these policies laid down by The London Assembly.

This Club not only provides sport and social activities to over 700 members in the local vicinity, but also provides an important ecological role in the area. The proposed site of Coombe Farm as a site for Gypsies and Travellers has come as a shock to everyone in the area, as borne out by the recent press coverage and attendance at the Consultation Meetings.

The history of unauthorised "pitches" in this area over the past few years has left a bitter resentment, especially in view of the residual mess and threatening behaviour that has always accompanied their trespass. On each occasion that Gypsies/Travellers have been in the area, the club members here have been threatened with physical and verbal abuse. This behaviour is totally unacceptable and despite the subsequent eviction of the Travellers on each occasion, the residual

psychological effect on tax payers and constituents' lives cannot be trivialised. We also have a large Junior Section and children play the course during holidays as well as weekends. They are often unaccompanied and the parents need to know they are in a safe environment. This would certainly not be the case in the parents' minds if there was any chance of aggressive behaviour, as previously experienced, towards these children. I am certain that you would not wish to be responsible for putting children in any sort of potentially dangerous situation.

Surely these detailed real issues must be taken into account when determining any permanent site.

I understand that the proposed sites are not within the required distance to both schooling and medical needs, therefore I also object on that basis. The land is in private ownership at Coombe Farm, and any funds spent on "compulsory or otherwise" purchase could surely be spent more wisely on behalf of the population of Croydon. No doubt Central Grants will be available, but Council owned land in an area that will not radically impact on established residents' lives would be a sensible and prudent choice.

We want to object to the locating of three traveller sites in and around South Croydon. The building of these sites on green land is wrong and will change significantly the area we live in. I cannot see any Planning justification to change the designation, nor for the intrusion into the lives of the residents of Oaks Road and surrounding area. This will massively affect the urban attractiveness of the area and have both emotional and financial repercussions on many lives.

Policy 7.18 relating to Protection of Open Spaces clearly states that open spaces in London must be protected, and any loss must be resisted. I cannot believe the Council would want to go against both of these policies laid down by The London Assembly.

This Club not only provides sport and social activities to over 700 members in the local vicinity, but also provides an important ecological role in the area. The proposed site of Coombe Farm as a site for Gypsies and Travellers has come as a shock to everyone in the area, as borne out by the recent press coverage and attendance at the Consultation Meetings.

The history of unauthorised "pitches" in this area over the past few years has left a bitter resentment, especially in view of the residual mess and threatening behaviour that has always accompanied their trespass. On each occasion that Gypsies/Travellers have been in the area, the club members here have

been threatened with physical and verbal abuse. This behaviour is totally unacceptable and despite the subsequent eviction of the Travellers on each occasion, the residual psychological effect on tax payers and constituents' lives cannot be trivialised. We also have a large Junior Section and children play the course during holidays as well as weekends. They are often unaccompanied and the parents need to know they are in a safe environment. This would certainly not be the case in the parents' minds if there was any chance of aggressive behaviour, as previously experienced, towards these children. I am certain that you would not wish to be responsible for putting children in any sort of potentially dangerous situation.

Surely these detailed real issues must be taken into account when determining any permanent site.

I understand that the proposed sites are not within the required distance to both schooling and medical needs, therefore I also object on that basis. The land is in private ownership at Coombe Farm, and any funds spent on "compulsory or otherwise" purchase could surely be spent more wisely on behalf of the population of Croydon. No doubt Central Grants will be available, but Council owned land in an area that will not radically impact on established residents' lives would be a sensible and prudent choice.

All three sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b. Furthermore, Policy E of 'Planning Policy for Traveller Sites', published by the Government in August, states very clearly that 'Traveller sites (temporary or permanent) in the Green Belt are inappropriate development'. The provision relating to travellers/gypsies in the Housing and Planning Bill will also remove sections 225 and 226 of the Housing Act 2004 which placed a duty on housing authorities to carry out an assessment of the accommodation needs of this group when reviewing housing conditions and needs within their areas (a process required by section 8 of the Housing Act 1985). Section 8 will also be amended to make it clear that the duty covers consideration of the needs of people residing in, or resorting to the district for, caravan sites and houseboat mooring sites.

I am also concerned by the evidence base for these selections, namely the 'Assessment and Selection of Sites for Gypsy and Travellers'. This assessment contains a vast number of very subjective criteria against which to judge site suitability and has been the subject of 'extensive political consultation'. This political consultation has only taken place with the Labour Administration and has not been conducted on a cross party basis. This begs the question as to what undue political influence may have been placed on the particular criteria which have been used and indeed the selection of the preferred sites. There is also some question as to why the same scoring system has not been used for each set of criteria, rather than subjectively giving weight to certain criteria. Furthermore, the scoring for individual sites has not been carried out in accordance with the table shown at 4.1. A number of sites have been marked incorrectly, for example, site 661 has been scored at 5 for Greenbelt/MOL, when the score should be -5. This begs the question as to how many other inaccuracies are in the document

I am e-mailing you to register total opposition regarding your proposal to put traveller's sites in Coombe Farm and Coombe Lodge. I am and have been a resident of Oaks Road for 20 years and apart from myself being strongly against such an idea, I do not know of one neighbour that is in agreement with this proposal. Apart from there not being adequate amenities in these areas, there is not sufficient transport, road ways, schools to support such a venture. Why would you want to put caravans in these areas, surely in this modern day and age people should live in houses? Also, both these areas are a natural area of beauty with wild life, birds etc... travellers would lower the whole tone of this and bring mess and litter, such as in the past when we had illegal "visits" before they were moved on. I am also informed that these areas are "green belt" and that no such proposal would or should be allowed. I state once again that I am totally against these potential destructive proposals that would spoil a very beautiful part of Croydon if you go ahead with this scheme, or perhaps this is your plan as this is one of the other Conservative Wards that you are targeting to make your changes?

Writing to object to the proposed sites for Gypsy and Travellers at Coombe Lodge Nurseries off Conduit Lane, Reference 661. The Policies laid out on the Mayor of London-London Assembly website and Policy 7.17 clearly state that the Mayor's office truly supports the protection of Metropolitan Open Land and states the strongest protection should be given and inappropriate development refused. The Policy does not make it clear how a Council can de-designate an area. I object to any permanent Traveller site being constructed on MOL and especially if the area is simply going to be de-designated without any consultation with the local residents and businesses. I object strongly that Croydon council can de-designate Metropolitan Open Land or Green Belt land to suit their needs to accommodate a permanent pitch. I cannot see any Planning justification to change the designation, nor for the intrusion into the lives of residents of Oaks Road and surrounding area. The London Plan in Policy 7.17 supports the protection of Metropolitan Open Land and inappropriate development should be refused. This policy sets out the criteria for designation as Metropolitan Open Land but does not make it clear how a Council can re-designate an area. I object to any permanent Traveller site being constructed on MOL.

I cannot see any planning justification to change the designation, nor for the intrusion into the lives of residents of Oaks Road and surrounding area. This will massively affect the urban attractiveness of the area and have both emotional and financial repercussions on many lives.

2022/01/002/DM44.2/O	Joe Rowe Shirley Hills Residents Association	Object	DM44.2 661	<p>I object to the proposal as Coombe Lodge Nurseries is Green Belt Land. Policy E of the Planning Policy for Traveller Sites, published by the Government in August states very clearly that "Traveller sites (temporary or permanent) in the Green Belt are inappropriate development". Previous use does not mitigate this policy. The proximity of this site to the Coombe Farm site, also proposed, would mean a total of up to 45 pitches on 2 sites within a very small area of the Borough. Paragraph 4.19 refers to the need for good access to roads, stating that Gypsies and Travellers "often need to move larger vehicles as part of their livelihood and way of life". Coombe Road junctions with Oaks Road and Conduit Lane are busy and potentially hazardous intersections and are unsuitable for increased, safe movement and manoeuvring of larger vehicles, especially entering and exiting these sites. The proposed Coombe Lodge Nurseries site is adjacent to a Site of Nature Conservation Interest which would be vulnerable.</p> <p>The close proximity of the proposed sites to one another has not been taken into account. All three sites are proposed for a small area in the South of the Borough when there seems to be a successful site at Purley Way which could be expanded. None of three sites proposed has good access to schools, shops and other services. The consequent need for private transport goes against environment and climate initiatives. Government Guidelines ask that local planning authorities policies ensure that children can attend school on a regular basis. These three sites are well away from schools, particularly primary schools and clearly do not reflect the aims of Guidelines or facilitate regular school attendance. The number of Gypsy/Traveller sites in Croydon is to increase from 1 to 4 when our recent experience locally is of travellers responsible for damage, parking illegally, leaving piles of rubbish behind when they are moved on an even engaged in firearms confrontation with the police.</p>	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. The proposal to develop Coombe Lodge Nurseries, Conduit Lane as a residential development for a Gypsy and travelers site does not fall within the Strategic Objectives because:-  
Objective 2: This development will not Foster an environment where existing enterprise can prosper, but will reduce enterprise  
Objective 4: This development will not reduce social, economic and environmental deprivation. It will not reduce unemployment, improve skills and education and improve environmental conditions, the development is not in keeping with the surrounding area.  
Objective 5: This development is not high quality and will not enhance the borough's natural environment but will reduce the natural environment by turning a farm into a travelers housing site  
Objective 7: This development will reduce the area as a safe, healthy and cohesive community.  
Objective 10: This development will reduce the quality and accessibility of green space and nature.

if this development is undertaken it will not deliver the strategic objective. This development will compromise the ability of future generations to meet their own needs. The development will change the outlook and community within the South Croydon area and future generation will suffer because of this.

This proposed development of a travelers site within the Coombe Road area is not within keeping of the current development within this area. Shirley comprises of large semi and detached houses with large green areas. This development is in no way in keeping with out housing in the area.

Changing a green area to an area of residential housing will cause harm and reduce the outlook of the area and is not in keeping with the surrounding area

Building a travelers site will increase noise levels and ruin the character of the area and this development would overwhelm this green area.

Paragraph 64 of the National Planning Policy Framework states that permission should be refused for development of poor design that fails to take the opportunities available for improving the character and quality of an area and the way it functions.

This development would diminish the striking view of the area of Addington

DM44.2  
661

I object to the use of Coombe Lodge Nurseries off Conduit Lane, site 661; as a gypsy and traveller site as it would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b.

Furthermore, Policy E of 'Planning Policy for Traveller Sites', published by the Government in August, states very clearly that 'Traveller sites (temporary or permanent) in the Green Belt are inappropriate development'. The provision relating to travellers/gypsies in the Housing and Planning Bill will also remove sections 225 and 226 of the Housing Act 2004 which placed a duty on housing authorities to carry out an assessment of the accommodation needs of this group when reviewing housing conditions and needs within their areas (a process required by section 8 of the Housing Act 1985). Section 8 will also be amended to make it clear that the duty covers consideration of the needs of people residing in, or resorting to the district for, caravan sites and houseboat mooring sites.

I am also concerned by the evidence base for these selections, namely the 'Assessment and Selection of Sites for Gypsy and Travellers'. This assessment contains a vast number of very subjective criteria against which to judge site suitability and has been the subject of 'extensive political...consultation'. This political consultation has only taken place with the Labour Administration and has not been conducted on a cross party basis. This begs the question as to what undue political influence may have been placed on the particular criteria which have been used and indeed the selection of the preferred sites. There is also some question as to why the same scoring system has not been used for each set of criteria, rather than subjectively giving weight to certain criteria. Furthermore, the scoring for individual sites has not been carried out in accordance with the table shown at 4.1. A number of sites have been marked incorrectly, for example, site 661 has been scored at 5 for Greenbelt/MOL, when the score should be -5. This begs the question as to how many other inaccuracies are in the document.

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Objection to gypsy and traveller site - as not the most appropriate approach- Inappropriate development is clearly harmful to the green belt. It is not in the surrounding communities interests for the greenbelt to be eroded, approving this application would also set a precedent and open the surrounding areas to be subject to similar planning applications. Negative impact on the local environment and wildlife.  
-as not deliverable-Plan makers have not taken the cost and time needed to mitigate the impact of the development on the sides, Croydon Council has already recognised in its development management policies documents that is the site of the nature conserve interest which borders the Coombe Lodge nursery site Coombe Wood would be negatively impacted by the proposed development.  
-as not enabling sustainable development as Coombe wood is a site of nature conservation and borders the proposed Coombe Lodge Nursery side and would be negatively impacted by the plans. Croydon Council has already recognised this and its development management policies document

From the Croydon gypsy and traveller is accommodation needs assessment 2013.gypsies and travellers living in the Croydon area for a small family sized sites, with similar size to size having fewer into family tensions. The plan is clearly go against this. There is evidence of periodic overcrowding on traveller sites throughout the year and at peak during winter months. This would yet further increase demand on local services. The plan makers have made no indication that they would take this into consideration or look to them at overcrowding.

The access into Conduit Lane bridalway has no through vehicle access and is not suitable for the amount of vehicle movement. This is designated as Greenbelt Land and should be for the benefit of residents of the Borough, for the purpose of recreational pursuits. We know for a fact that a travellers site will result in higher crime, flytipping and vandalism. We have recent, recorded evidence. This site could be better used as a school, but even then it has difficult access and Coombe Road would be very dangerous for children. If a traffic and access solution can be found, a school is a far more sustainable development and brings far better benefit to the borough and its community.</p> <p>The Council have chosen two site within 1/2 a mile of each other, both in open green space and adjacent to delicate woodland.</p>	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Object	DM44.2	Change	
661		<p>I consider the development at Coombe Lodge Nurseries to be inappropriate for the following reasons:</p> <ul style="list-style-type: none"> <li>- The site is in a green belt area. National guidelines say that traveller sites in the green belt are inappropriate development.</li> <li>- The access road to the site, Conduit Lane, is completely unsuitable for a large number of such large vehicles - it simply was not designed for the high traffic levels we can expect with the additional residents.</li> <li>- Conduit Lane is used for parking for people to access the beautiful Coombe Gardens. The high levels of traffic that the traveller site will create could not be accommodated while maintaining these parking bays which narrow the road. If these parking bays go and the high traffic levels make the road much more difficult to cross for children and the elderly, then accessibility to the park will be reduced.</li> <li>- The size of the development will completely dwarf Coombe Gardens, which is a wonderful local amenity. It is a beautiful public park containing numerous memorial stones and benches to commemorate war dead and more recently lost loved ones. Many local residents choose this location because it is such a tranquil and beautiful place.</li> <li>- The access to Conduit Lane is from Coombe Road, and is already very congested at rush hour and this will be made worse by the traveller traffic.</li> <li>- The traveller development will damage the three local businesses which thrive as a result of their unusual and rural location so close to Croydon. These being Coombe Lodge - Beefeater and Travel Lodge, Coombe Park, coffee Shop and the Chateau Napoleon restaurant and wedding venue. The Council should be looking to grow the local economy, not hamper these businesses that offer good service to the population.</li> <li>- The proposed size of the traveller site is 15-25 pitches, which can each house 3 mobile homes so there could be up to 75 mobile homes on the site. Should further caravans pitch up to use the site, it is unclear how this could be monitored or controlled - so the numbers could even increase. Even at proposed level, the size of this traveller population, compared to the local community on Coombe Road, Oaks Lane and Oaks Road is totally overwhelming and would not be conducive to social cohesion in the area.</li> <li>- The schools in this area are so over subscribed that there has been some proposals that a new school needs to</li> </ul>	<p>This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. 2191/01/004/DM44.2/O	Mr Rodney Beale	Object	DM44.2 661	Objection to the proposals for gypsy and travellers as not the most appropriate for Croydon and unsuitable for the lovely country area of Croydon visited throughout the year by families, residents and visitors. The approach is deliverable but undesirable and will ruin the only real part of the country area in Croydon, which grows with housing and office blocks almost daily. The preferred approach will not enable sustainable development as it will spoil the existing areas where sites are suggested and which will never be the same again. It will also affect schooling, health, and cause disturbance around all areas. If Croydon must comply, areas such as Purley Way or an extension of facilities at Laythams Farm should be the correct options.		Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

2192/01/001/DM44.2/O	Anthoulla Koutsoudi	Object	Soundness - Justified	DM44.2 661	Croydon has a poor reputation across London as a grey, urban, nasty place. I hear this often. If we are to attract inward investment then we must retain our green spaces in their pristine, green condition, by not permitting any changes to Conduit Lane, Addington Hills or Coombe Wood.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
					The areas around Conduit Lane have seen a recent revival. Many more people are visiting the now attractive teas rooms and are dining there. At the same time they are exploring the very beautiful grounds and also the woods.		
					I adore living in Croydon, and have been paying full council tax as a resident since July 2011, and I love it mainly because of its fabulous woods, hills and green spaces. Let's celebrate and keep them pristine and unaltered. This matters even more now that the town centre is being heavily redeveloped - which I applaud. The green spaces afford a balance and areas of respite from the town centre for many people I know, and many people who we introduce to our green spaces. These proposals would also have a considerable negative impact on local wildlife.		
					Permitting alterations to such wonderful, green spaces is a dangerous precedent to set. Please do not allow this proposal to proceed.		
					This is an inappropriate use of Green Belt. It would be detrimental to the owners of local owners, and there is insufficient local infrastructure to support the planned development. All this goes to show how ill thought out the plans are.		
					It is not deliverable without considerable cost to Council taxpayers, huge disruption to amenities and permanent problems for traffic flows into Croydon which are already very congested and slow, even outside rush hours.

All three sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b. Furthermore, Policy E of 'Planning Policy for Traveller Sites', published by the Government in August, states very clearly that 'Traveller sites (temporary or permanent) in the Green Belt are inappropriate development'. The provision relating to travellers/gypsies in the Housing and Planning Bill will also remove sections 225 and 226 of the Housing Act 2004 which placed a duty on housing authorities to carry out an assessment of the accommodation needs of this group when reviewing housing conditions and needs within their areas (a process required by section 8 of the Housing Act 1985). Section 8 will also be amended to make it clear that the duty covers consideration of the needs of people residing in, or resorting to the district for, caravan sites and houseboat mooring sites.

I am also concerned by the evidence base for these selections, namely the 'Assessment and Selection of Sites for Gypsy and Travellers'. This assessment contains a vast number of very subjective criteria against which to judge site suitability and has been the subject of 'extensive political consultation'. This political consultation has only taken place with the Labour Administration and has not been conducted on a cross party basis. This begs the question as to what undue political influence may have been placed on the particular criteria which have been used and indeed the selection of the preferred sites. There is also some question as to why the same scoring system has not been used for each set of criteria, rather than subjectively giving weight to certain criteria.

Furthermore, the scoring for individual sites has not been carried out in accordance with the table shown at 4.1. A number of sites have been marked incorrectly, for example, site 661 has been scored at 5 for Greenbelt/MOL, when the score should be -5. This begs the question as to how many other inaccuracies are in the document

Both sites are also some distance from public services. If the Council really needs, as it claims, to quadruple the number of gypsy/traveller sites in the borough - which I would question - they should look elsewhere (for example, off the Purley Way where the existing site is).</p>	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. This site is in the Green Belt a and would not comply with Policy SP2.7a and SP2.7b. -inappropriate development is harmful to the Green Belt and should not be approved, except in exceptional circumstances. Traveller sites ( temporary or permanent) in the Green Belt are in appropriate development'. There are no 'very special circumstances' that warrant the proposed use of these Green Belt sites.</p> <p>Exit and entrance to the Conduit Lane site is limited and would have to be improved, resulting in additional cost to the Council and considerable disruption to traffic in Oaks Road (an already busy main road) and the Tram Line, Would such widening of the road (which would have to be implemented) mean concreting over part of historic gardens at Coombe Wood..a site of Nature Conservation Interest (SNCI)? This would clearly have repercussions for the community gardens/ café/park. Additionally, Conduit Lane is part of the Vanguard Way- a historic path used by ramblers, walkers, families etc for generations.</p> <p>The site does not have any local amenities-shops,healthcare,primary schools (I think there is only one secondary school in the immediate area), so will not serve the traveller community. Surely expanding the existing brownfield site in Purley Way would be more cost effective and preferable to the travellers as it provides opportunities for employment, schools and medical care in the immediate vicinity, which the proposed sites do not.</p>	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Site would constitute inappropriate development in the green belt and would not comply with policy SP2.7a &amp; SP2.7b. In the consultation process with the Gypsy &amp; Travellers they requested small sites that are more manageable. Site is close to a busy road and tram lines that could be dangerous to children. They also requested sites near to doctors, primary schools and shops. There is a suitable brownfield site/ existing site along the Purley way, offering more opportunities for employment. It is very important that the sites offer safe entrance and exits to sites to ensure there is no danger of accidents. This site is not suitable and would be costly to the council's already stretched budget. The consultation refers for the need for good access to roads as "they often move larger vehicles as part of their livelihood and way of life". There are adjacent areas of outstanding beauty, sites with biological significance, as well as playing fields for the local community. These would all be affected, not least during the construction of Travellers Sites. The London Plan does not advocate such a development and seems unrealistic for two such sites to be located in the London Borough of Croydon, already over-stretched owing to refugees and asylum seekers arriving at the borough's Home Office. Not only will this proposed development overburden Croydon as a whole, but also our homes (within 2 miles of said sites). Amenities, Schools, GP practices and the like will be inadequate for an influx of such a population.</p> <p>Without adequate provision of facilities more than homes alone, not only will the Travellers be disappointed but also local residents who chose to live, close to this location owing to the outstanding open spaces. We have seen the Riots of 2012. Many foreign visitors have sought to live in our Borough. However, the very nature of the name "Traveller", suggests this new group of people may be transitory; we may find our Schools and Hospitals will be overstretched and with a nomadic population, teachers and doctors to name but a few will be unable to provide continuity of care, to the excellent standard we desire for the existing community</p>	Change	<p>This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Coombe Lodge Nurseries, Conduit Lane is on the Green Belt.

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Summary:

Not in line with Government planning policy on the Green Belt

Detail:

- Government planning policy with regards to traveller sites wants to ensure that plan-making and decision-taking should protect Green Belt from inappropriate development.

- The proposal to create a permanent traveller site on land designated as Green Belt land is contrary to Policy E of the Planning Policy: "Inappropriate development is harmful to the Green Belt and should not be approved, except in very special circumstances.". There are no very special circumstances.

- The National Planning Policy Framework makes it clear that unmet housing need (including for traveller sites) is unlikely to outweigh the harm to the Green Belt and other harm to constitute the "very special circumstances" justifying inappropriate development on a site within the Green Belt.

- The local character description is clearly at odds with the proposal.

- The justification acknowledges the Green Belt issue, though insufficiently, but relies on the fact that there are existing structures. These are not in fact substantial – being glasshouses – and could be said to be at least environmentally consistent with the Green Belt. But there is no very special circumstance justification proposed as required by Planning Policies.

- Approving the proposal would set a precedent and open the surrounding areas to be subject to similar development. It is not in the community's interests to allow the erosion of the green spaces surrounding the community and we object to the impact this site could have on the environment and wildlife.

In the light of these issues, it is not appropriate simply to weight Green Belt as one of many factors to be considered, but rather it presents an overarching policy objection that cannot be over-ridden in the way proposed.

The decision making process is contrary to Government guidance. To be considered deliverable, sites should be available now, offer a suitable location for development now and we do not believe that The

Assessment and selection of sites for Gypsy and Travellers undertaken was credible.

Plan makers have not considered the time it will take to commence development on site need for infrastructure improvements – roads, GPS, schools and transport.

There is basis for challenging the way in which this potential site has been selected.

1 Para 3.1 – Green Belt sites included for review of eligible sites “to ensure that all locations for a site considered”, but at the same time “Exclusion of sites in Croydon Metropolitan Centre and within District Centres and Strategic Industrial Locations and Conservation Areas due to viability, deliverability and impact on heritage considerations”. Is this a balanced view?

4 Para 4.1 sets out the criteria and weightings. As indicated above, Green Belt with no built form is given a weighting (-10) which, though high, is not very significant given that there are 29 or 30 criteria and can easily be outweighed by other factors that are less significant in policy terms. Furthermore, Coombe Nurseries has been weighted -5 for Green Belt, in recognition of the fact that there are some structures on the site, AND has been given 5 for the fact that (in the assessor's view) such structures as there are can be converted to traveller use (if the buildings had to be demolished, on a green field site, this would have attracted -5).

1 SP2.7 on the Council's proposals to deliver 39 additional gypsy and traveller sites indicates that land will be allocated in accordance with the proposals, but that any ADDITIONAL sites that are not so allocated should meet some stated criteria, including good access to local shops and essential services and good transport access; these seem to be criteria that were excluded from the proposed allocation, suggesting that any alternative proposals would need to meet stiffer criteria. Is this a fair view?

2 The bases for site criteria weightings are unclear.

The proposed development does not meet the needs of the present (see further info in section 3): Gypsies and Travellers needs are not addressed: not enough local amenities, sites are too big, unfit

local roads.

The proposed development does compromise the future of the local area.

- Government planning policy is to ensure local planning authorities have due regard to the protection of local amenities and the local environment.
- It is likely the proposals will have an adverse effect on local businesses
- Coombe Wood is a Site of Nature Conservation Interest (SNCI) (List of Historical Park and Gardens 2008) and borders the proposed Coombe Lodge Nurseries site, and would be negatively impacted by the plans. Croydon Council has already recognised this in its Development Management Policies document.
- The Borough Character Appraisal of 2015, the local area is listed as having special character. The proposed development is not sensitive to, and does not respect, this.

Based on survey responses, most Gypsies and Travellers living in the Croydon area would prefer small, family sized sites. Stakeholder comments suggested that smaller sites have fewer inter-family tensions and are therefore easier to manage. The plan goes against these wishes

- The proposed plan does not take into account the need for good access to roads. The Croydon Local Plan paragraph 4.19 refers to the need for good access to roads, stating that Gypsies and Travellers "often need to move larger vehicles as part of their livelihood and way of life". – this may be an assertion relevant to the assessment of sites and the narrowness of Coombe Lane. The proposed sites are not suitable for traveller vehicles.

- It is very important that the site has a safe entrance and exit. There are very strict Highway regulations about visibility at the entrance/exit to sites to ensure there is no danger of accidents. This links into the insufficient local infrastructure and we know how dangerous the junctions Coombe Road/ Oaks Road/ Conduit Lane can be. Both sites are accessed by single lane roads and the proposed plans do not take into consideration the potential extensive alterations needed to the local road network.

10.18 The settled community neighboring the sites should also be involved in the consultation from an early stage. There may be scope for expanding existing sites to meet some of the need. However, the

preference is for smaller sites which tend to be easier to manage.  
•Is there not scope for extending existing sites in the Borough to meet some of the need? It is not clear how much consideration has been given to this.

10.19 In terms of identifying broad locations for new sites, there are a number of factors which could be considered including:

- ☐ Social
- ☐ School catchment areas

•The area is not in a school catchment area.

10.21 Gypsies and Travellers undertaking the survey also suggested that it is important that new sites are located close to amenities such as shops, schools and health facilities

- There are no local shops and amenities
- There are no local buses although there is a Tram
- The GPs in the area are already full to bursting.
- Croydon University hospital cannot cope with the influx of patients already. This would add further nursing and Finance pressures/

10.22 CLG (2012) guidance suggests that Local planning authorities should strictly limit new traveller site development in open countryside that is away from existing settlements

•Gypsies and Travellers often need mixed-use employment sites (as they often run a business from the place where they live). The proposed plan does not address this in a Green Belt location where commercial activities on site could lead to substantial hazardous contaminants and waste materials escaping from the site.

☐

•Gypsies and Travellers often express their preference to be within walking distance of shops/ health centres/ schools/ local amenities. The proposed sites are not close to any of these. The proposed sites go against Gypsies and Travellers preferences and against environment and climate initiatives by promoting the use of their own vehicles for daily life.

•From Government Guidelines, Local planning authorities should ensure that their policies ensure that children can attend school on a regular basis. The site is well away from schools (particularly primary school provision)

and clearly does not reflect the above aim, or facilitate regular school attendance. Widely recognised by Government source that literacy can be an issue within the Travelling community, this would place even more pressure on local schools to provide for support of their needs. Recent studies suggest a greater proportion of ill-health amongst the travelling community, adding more pressure to local health centres. In addition to going against Government Planning Policy for traveller sites, the closest services will therefore have further demands placed on them.

- There is evidence of periodic overcrowding on traveller sites, throughout the year and at a peak during winter months. This would yet further increase demand on local services. The plan makers have made no indication that they would take this into consideration or look to limit overcrowding.

The Croydon Local Plan Note that paragraph 4.19 in referring to the need for good access to roads, states that "they often need to move larger vehicles as part of their livelihood and way of life" – this may be an assertion relevant to the assessment of sites and the narrowness of Coombe Lane. The local roads would not be suitable for the continuous use of "larger" vehicles.

- gypsy-traveller.org - The best type of land is a 'brown field' site, The site should be close to local amenities. It is very important that the site has a safe entrance and exit. There are very strict Highway regulations about visibility at the entrance/exit to sites to ensure there is no danger of accidents and this is very important.

The objections may be summarized as:

- inappropriate use of Green Belt land
- lack of relevant amenities close to hand
- Lack of supportive infrastructure
- adverse effect on neighboring businesses and leisure amenities
- site has a more appropriate use for a school

DM44.2  
661

I object to the use of the following locations as gypsy and traveller sites Coombe Lodge Nurseries off Conduit Lane, site 661; Coombe Farm off Oaks Road, site 502; Pear Tree Farm and Pear Tree Farm Cottage, Featherbed Lane, site 755; as all three sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b. Furthermore, Policy E of 'Planning Policy for Traveller Sites', published by the Government in August, states very clearly that 'Traveller sites (temporary or permanent) in the Green Belt are inappropriate development'. The provision relating to travellers/gypsies in the Housing and Planning Bill will also remove sections 225 and 226 of the Housing Act 2004 which placed a duty on housing authorities to carry out an assessment of the accommodation needs of this group when reviewing housing conditions and needs within their areas (a process required by section 8 of the Housing Act 1985). Section 8 will also be amended to make it clear that the duty covers consideration of the needs of people residing in, or resorting to the district for, caravan sites and houseboat mooring sites.

I am also concerned by the evidence base for these selections, namely the 'Assessment and Selection of Sites for Gypsy and Travellers'. This assessment contains a vast number of very subjective criteria against which to judge site suitability and has been the subject of 'extensive political consultation'. This political consultation has only taken place with the Labour Administration and has not been conducted on a cross party basis. This begs the question as to what undue political influence may have been placed on the particular criteria which have been used and indeed the selection of the preferred sites. There is also some question as to why the same scoring system has not been used for each set of criteria, rather than subjectively giving weight to certain criteria. Furthermore, the scoring for individual sites has not been carried out in accordance with the table shown at 4.1. A number of sites have been marked incorrectly, for example, site 661 has been scored at 5 for Greenbelt/MOL, when the score should be -5. This begs the question as to how many other inaccuracies are in the document.

Coombe Lodge Nurseries, Conduit Lane is on the Green Belt.  
Not in line with Government Planning policy on the Green Belt.  
- Government Planning Policy with regards to traveller sites wants to ensure that plan-making and decision-taking should protect Green Belt from inappropriate development.  
- The proposal to create a permanent traveller site on land designated as Green Belt land is contrary to Policy E of the Planning Policy  
"Inappropriate development is harmful to the Green Belt and should not be approved, except in very special circumstances. There are no very special circumstances.  
The preferred approach is not deliverable. To be considered deliverable, the sites should be available now, offer a suitable location for development now and we do not believe that the Assessment and selection of the sites for Gypsy and Travellers undertaken was credible.  
Plan makers have not considered the time it will take to commence development on site, need for infrastructure improvements - roads.  
There is basis for challenging the way in which this potential site has been selected.  
1. Para 3.1. Green Belt sites included for review of eligible sites "to ensure that all locations for a site considered" but at the same time "Exclusion of sites in Croydon Metropolitan Centre and within District Centres and Strategic Industrial Locations and Conservation Areas due to viability, deliverability and impact on heritage considerations". Is this even handed?  
4. Para 4.1 sets out the criteria and weightings. As indicated above, Green Belt with no built form is given a weighting (-10) which, though high, is not very significant given that there are 29 or 30 criteria and can easily be outweighed by other factors that are less significant in policy terms.  
Furthermore, Coombe Nurseries has been weighted -5 for green belt, in recognition of the fact that (in the assessors view) such structures as they are can be converted to traveller use (if the buildings had to be demolished, on a green field site, this would have attracted -5).  
1. SP2.7 on the Council's proposals to deliver 39 additional gypsy and traveller sites indicates that land will be allocated in accordance with the proposals, but that any ADDITIONAL sites that are not so allocated should meet some stated criteria, including good access to local shops and essential services and good transport

access; these seem to be the criteria that were excluded from the the proposed allocation, suggesting that any alternative proposals would need to meet stiffer criteria. Is this fair and even handed? The basis of the criteria weightings are unclear.

-The national planning policy framework makes it clear that unmet housing need (including for traveller sites) is unlikely to outweigh the harm to the Green Belt and other harm to constitute the "very special circumstances" justifying inappropriate development on a site within a green belt.

- The local character description is clearly at odds with the proposal.

- The justification acknowledges the green belt issue, though insufficiently, but relies on the fact that there are existing structures.

These are not in fact substantial - being glass houses, and could be said to be at least environmentally consistent with the green belt. But there is no very special circumstance justification proposed as required by planning policies.

- Approving the proposal would set a precedent and open the surrounding areas to be subject to similar development. It is not in the community's interests to allow the erosion of the green spaces surrounding the community and we object to the impact this site could have on the environment and wildlife.

In light of these issues, it is not appropriate simply to weight Green Belt as one of the many factors to be considered, but rather it presents an overarching policy objection that cannot be over-ridden in the way proposed. The decision-making process is contrary to Government guidance.

Building on the green belt does not meet the strategic objectives. The National Planning Policy for Travellers states that temporary and permanent sites are inappropriate development in the green belt. This would set an unwanted precedent and there are no apparent exceptional circumstances that could warrant the proposed use of this green belt site.

The road infrastructure is inadequate to allow caravans and vans in and out of Conduit Lane. The road is already dangerous considering the existing junction with Oaks Road. Conduit Lane is currently used as a car park for the historic gardens at Coombe Wood, which is an SNCI and any impacts on the community gardens and parking arrangements must be considered. The Council has stated it will protect and enhance parks and gardens that are part of the borough's historical heritage.

There are no services such as schools.

Conduit Lane is an important public right of way and part of Vanguard Way, used by many walkers, dog walkers and families. The interests of the local community must be considered equally as part of the planning process.

If sustainable development is a strategic objective for the Council then we must consider returning the site to its former use and develop a local sustainable organic food source. Such a project could be combined with education to enable children from across the borough to learn about food sources and sustainable development for future generations.

National policy states that the Council must relate the number of pitches or plots to the circumstances of the specific size and location of the site and the surrounding population's size and density, when planning for a traveller site. With 10 houses accessed directly from the proposed site, these properties are relatively isolated and would be dominated by a community situated at the north end of Conduit Lane. The interests of residents at the south end of Conduit Lane must also be considered. The interests of local businesses and employees must be considered. An impact assessment must also be considered.

Very special circumstances must be provided if a school is to be delivered on the site. There are existing playing

fields that could be incorporated in to plans for a new school which are currently under-utilised. The area is currently lacking in state school provision. There will be extreme pressure exerted on primary schools and secondary schools. This would suggest that use of the site for a school would be preferable and essential - but very special circumstances would need to be proven.

I am writing to object to: The use of the following locations as traveller sites: Coombe Lodge Nurseries off Conduit Lane Site reference 661, Coombe Farm off Oaks Road Site reference 502, Pear Tree Farm Featherbed Lane 755 Because these sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b

To build so close to award winning gardens such as Coombe Gardens, Heathfield or a picturesque Wedding Venue such as Coombe Farm will be detrimental for the local businesses and residents. People from the wider area also enjoy these places. People travel from miles around -even by the coachload -to see these parks in Croydon. If they are built right up to with mobile homes or prefabs and other semi-permanent residences, they cannot fail to appear less attractive. With regard to homes for Travellers, I do not wish to stereotype any group in our society, but first-hand experience of travellers staying recently in Sunken Lane has shown that they do not respect our precious green areas in the same way as the Heathfield and Ballards Farm residents do. I visited Sunken Lane after their recent departure and I saw bathroom suits, mattresses and piles of other waste including dirty nappies and rubbish dumped in and around the beautiful Shirley Hills area. Pathways were blocked and cars could not turn in Sunken lane. Street lights in the local area had been broken so that this fly tipping could not be filmed by CCTV. In the days before, my sons had felt intimidated when travelling home from school by the travellers' children and had to call me to collect them by car from the Coombe Rd tram stop. I took the time to visit the Layhams Farm Traveller site so that I could make an informed opinion and I was greeted by dogs off leads and groups of men gathering as soon as I approached. They did not trouble me, but I was made to feel decidedly unwelcome. Outside of the area some of the teenagers were crouched in the road and were smashing the top off bottles and then sprinkling glass in the road where cars were passing. If the sites proposed are to be like this, then I would be very unhappy if the plans were to go ahead.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

The assessment and selection of sites for Gypsy and Travellers has been unacceptably skewed in favour of remote and unsustainable sites. Premier Inn Hotel Ltd objectives to the proposed allocation for the following reasons:

- The site is located in Metropolitan Green Belt. The DCLG's Planning Policy for Traveller Sites explicitly states in Policy E that traveller sites are inappropriate development in the Green Belt. It also notes that unmet need is not 'very special circumstances' that would justify development in the Green Belt. The proposed allocation is contrary to this policy.

- In the Council's assessment it states that a score of -5 will be applied to sites with 'built form' in the Green Belt. However, in the assessment a score of +5 was applied to this site. The importance of this site's Green Belt designation has been undervalued. The assessment draws a distinction between Green Belt sites with and without 'built form', a distinction that is not supported by national level policies and guidance. Other assessment criteria (e.g Flood Zone) with -5 is given a "red" status whereas the -5 for Green Belt has only been given "amber". This indicates that the Green Belt has not been properly taken into account.

- The Council notes that the Gypsy and Traveller population prefer to use their own transport and be located away from the existing residential community. This is contrary to CLG guidance.

- The changes proposed in the Housing and Planning Bill are also relevant as this indicates that Central Government is against Gypsy and Traveller housing being treated in isolation from the rest of the population, contrary to the approach adopted by Croydon Council in this assessment.

- The Council's assessment under 'privacy' gives a score of +10 to sites away from existing residential areas and -10 for sites in existing residential areas. Other criteria only have a 5 point swing. The assessment therefore gives a strongly weighted preference to comparatively remote and unsustainable potential sites that are considered to be 'private' while underrating factors that are relevant to the sustainability of potential sites which is directly contrary to the NPPF.

- Premier Inn would also question whether the Gypsy and Traveller community would agree with the assessment that this site is private. The site shares a boundary with the

The site should not be allocated for a Gypsy and Traveller site and the assessment criteria should be reviewed.

Coombe Lodge Beefeater restaurant and Premier Inn hotel. At the nearest point hotel bedrooms are just a few meters from the boundary of the site and the beer garden also faces onto the boundary. The proposed allocation would therefore not deliver the preferences of the Gypsy and Traveller community.

- The site has been given a score of +5 for 'Building on Greenfield site'. A score of +5 indicates that there are 'buildings on site that can possibly be converted for the gypsy and traveller use'. However, the majority of the buildings on site are glass houses associated with the former use which are unlikely to be reused by the Gypsy and Traveller community in any meaningful way. A score of -5, indicating that there are buildings on site that will need to be demolished, is more appropriate for this site.

In conclusion the proposed allocation is the result of a flawed assessment and should be removed from the Local Plan in favour of a more sustainable site.

Oaks Farm Receptions Ltd objects to the proposed allocation of Coombe Lodge Nurseries, Conduit Lane and Coombe Farm, Oaks Road as Gypsy and traveller sites for the following reasons.  
Both sites are located within the Metropolitan Green Belt. Policy E of the DCLG's Planning Policy for Traveller Sites (August 2015) explicitly states in that traveller sites are inappropriate development in the Green Belt. It also notes that unmet need is not a "very special circumstance" that would justify development in the Green Belt. The proposed allocation is therefore contrary to this policy.  
Table 1 of Croydon Council's Assessment and Selection of Sites for Gypsy and Travellers (ASSGT, August 2015) states that a score of -5 will be applied to sites (with "built form") in the Green Belt. However, in the assessment (page 8 for site no.502, Coombe Farm and page 9 for site no.661, Coombe Lodge Nurseries) a score of +5 was actually applied to each site. The importance of this site's Green Belt designation has therefore been undervalued in the assessment that led to these sites' proposed allocation. Further, the assessment methodology draws a distinction between Green Belt sites with and without "built form", a distinction that is not supported by national level policies and guidance. (In other words, the fact that there was pre-existing appropriate development on these sites does not mean that the proposed inappropriate development becomes more acceptable.)

In conclusion, the proposed allocation of Coombe Farm, Oaks Road (site number 502) and Coombe Lodge Nurseries, Conduit Lane (site number 661) as Gypsy and traveller sites is the result of a flawed assessment process. These proposed allocations should be removed from the Local Plan and more sustainable sites that would not result in inappropriate development in the Green Belt should be sought

1.Travellers/Gypsy Sites: We echo concerns raised by other voices in Croydon. While accepting the need for appropriate sites for travellers and gypsies we question the ability of the Council with current levels of resourcing to manage an increased number of sites effectively. With specific reference to Coombe Lodge Nurseries and Coombe Farm:

- The loss of the greenhouses at the Nurseries site (Conduit Lane) has potential significance for community, educational and employment opportunities
- This will be a new, permanent development on green belt land
- Access to and from the site on a dangerous section of Coombe Road will impact on traffic flow and road safety more generally.
- There is no overflow space if and when the site becomes full.
- There is likely Impact on parking for access to Coombe Woods, the café and on the elderly visiting the area
- As the two nearest schools (Royal Russell and Cedars Catholic) are independent, does this satisfy the criteria that travellers sites be located close to schools?
- Similarly, the criteria that sites should be close to shops will not be met.
- There is a real concern that there will be a negative impact on the environment of Coombe Woods, its biodiversity and the contamination of groundwater. Recent experience in Lloyd Park demonstrates a potentially serious problem with litter and lack of rubbish disposal. This leads to the Council having to collect rubbish and the creation of a hazardous refuse collection point

2657/01/032/DM44.2/O	Rebecca Pullinger CPRE London	Object	Soundness - Effective 661	DM44.2	<p>The more specific site allocations represent a large reduction in the amount of designated and non-designated open space. While we acknowledge the need to build new homes and associated infrastructure such as schools, Croydon's growing population also needs quality open spaces for all the human amenity and ecosystem services which they provide.</p> <p>This area of Green Belt has not been removed from the Green Belt via the Review process, therefore it must be assumed that it continues to meet the criteria for designation and the proposed Gypsy and Traveller Site would be inappropriate development: the council would need to prove exceptional circumstances exist to allow development here. The fact that it may in part be brownfield is not a reason in itself to waive this protection. We request clarification that any proposed development at the site would use the same footprint of the building without any height increase, ensuring that the openness of the Green Belt is not affected.</p>	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. It would also bring heavy traffic with regards to the secondary school to an area where there is also difficulty parking in the week with other schools / nursery's also in this area. I believe it would affect negatively the local amenities and also would be inappropriate for people enjoying Lloyd Park, Coombe Lodge Café and the wooded areas around these very important local areas. Coombe Wood and Lloyd Park are some of Croydon's few special places. We should not be building on Green Belt land and detracting from the special characteristics of local areas. 2662/03/001/DM44.2/O	Mr Terrence Pais	Object	DM44.2 661	The proposal will not help to meet strategic objective 5, 9 and 10. The greatest impact will be on Strategic Objective 10 as the increased traffic, noise and light will affect the fauna of the area, including badgers, deer, owl and pheasants. The access road is narrow and currently used for parking for users of Coombe Wood Gardens and the café. Increased regular traffic will adversely affect these users. There is a lack of amenities in the immediate area. Lack of amenities will adversely affect the intended users of the site. 5. Proposed Policy DM43 Creation of Gypsy / Traveller sites at Coombe Farm, off Oaks Road, Coombe Lodge Nurseries, off Conduit Lane and Pear Tree Farm and Pear Tree Cottage Featherbed Lane.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

I object to the use of any of these locations for the creation of Gypsy/Traveller sites. All three locations are within the Green Belt and one borders a site of Nature Conservation Interest. Such development is in breach of Policy E4 Planning Policy for Traveller Sites, which says that 'Traveller Sites (temporary or permanent) in the Green Belt are inappropriate development'. All three sites are also a considerable distance from public services. I believe that the proposal to create three new Gypsy/Traveller sites now, and 39 by 2036 is excessive and will have an adverse effect on the borough. If the number of Gypsy/Traveller sites really needs to be increased by this amount then a more appropriate location would be around the existing site at Purley Way. The positioning of a Gypsy/Traveller site adjacent to the car park for Coombe Woods, between the Chateau Restaurant and the Hotel/restaurant, would probably deter me from using any of these attractions.

For the reasons given above:

1. I do not think that the preferred approach is the most appropriate for Croydon to help us meet our Strategic Objectives set out in Section 3.
2. The preferred approach is deliverable, but not acceptable.
3. I do not think the preferred approach enables sustainable development, because it will compromise the ability of future generations to meet their own needs.
4. I recommend that consultation documents of such importance are given much wider publicity.

I have restricted my objections to those plans that primarily affect the area of Shirley I which I live, but the same objections apply to other proposals in other parts of the borough.

2699/01/001/DM44.2/O	Mr & Mrs Tahir	Object	Soundness - Justified	DM44.2 661	Object to site 661 as it should stay as Green Belt and will have adverse impact on the adjacent wood and the café  The parking of vehicles on Conduit Lane will be a cause for concern	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
2700/01/003/DM44.2/O	Mr & Mrs Thomas	Object	Soundness - Consistent with National	DM44.2 661	It is inappropriate to site a Travellers site at this location. It is contrary to government policy as it is Green Belt.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

We wish to object to the proposal Gypsy/Traveller site Ref 661 for the following reasons

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

- Sustainability of the proposed site and the need for any such provision

The current proposals seem to have been produced in isolation from the other neighbouring Councils even though the above clearly indicated that nearby councils such as Sevenoaks, Tandridge and Bromley have a higher demand. Proposals in the Housing and Planning Bill 2015-16 are to remove the statutory requirement on local authorities to assess the specific accommodation needs of Gypsy and Travellers - the emphasis being that when authorities are carrying out a review of housing need that it considers the needs of all the people residing in or resorting to their district, without any references to Gypsies or Traveller.

We hope that the Council will consider the needs of our neighbours and local services and businesses as weighty as those of the Gypsy and Travelling people. There is a lot of opposition to the proposed sites from people currently residing in the district due to the threat of the Green Belt, increase traffic and increased pressure on local services.

The Assessment selection for the sites for Gypsies and Travellers scored lowly should have resulted in an acceptance that none of the sites are really particularly suitable and that the Council will need to liaise with other Councils if determined to make provision.

With regard to the sustainability of the sites, following on utilising the scoring assessment, we strongly object on a number of grounds:

- All sites lie within the Green Belt. This raises concerns about the impact on the Green Belt as a result of having to provide amenity blocks, communal facilities, safe play areas and areas for grazing horses.
- All three sites are unsuitable because they do not have good means to transport.
- Sites should have access to essential services including health and education facilities and access to local shops. None of the sites have good access to local schools (the nearest primary is over subscribed and the nearest post office is 1.7 miles away).

2703/01/002/DM44.2/O	Mr & Mrs McFeat	Object		DM44.2 661	Objects to the use of the site for gypsy and traveller accommodation as it would have negative impacts on the adjacent golf course and would not encourage others to join the club. There have been instances in the past where illegal encampments have been set up in the area. Also the junction of Oaks Road onto Oaks Lane is not suitable for the amount and type of vehicles that travellers utilise on a daily basis. It would only be a matter of time before an accident would happen.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
2706/01/002/DM44.2/O	Mr & Mrs Panagakis	Object	Soundness - Consistent with National	DM44.2 661	Object to proposed Gypsy and Traveller site at Coombe Lodge Nurseries off Conduit Lane (reference number 661). This site is in the Green Belt and borders a Site of Nature Conservation Importance. Policy E of Planning Policy for Travellers Sites published by the government in August [2015] says very clearly: "Traveller sites (temporary or permanent) in the Green Belt are inappropriate development".  Traffic along Coombe Road is already heavy and the development of these sites would make this even worse. The site is some way from public services. Finally from past experience of Gypsy stays (illegal) in the area, a large amount of rubbish and litter can be expected.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

We enclose our statement of objection to the local development plan which we believe would profoundly damage the Shirley area and the in particular, we wish to oppose the proposed use of the Coombe Farm site Ref 502 for use as a Gypsy/Traveller site.

We have unpleasant first-hand experience of living in close proximity to gatherings of travellers who have from time to time descended on fields neighbouring our house. We believe that allowing large groups to have sites in the same vicinity as the borough is proposing, is likely to bring similar problems. In the past the site of their encampment has been left strewn with litter and with evidence close to the mobile homes themselves, of illegal fly tipping. At times, we found the behaviours of some individuals to be intimidating.

The case against the broader proposals as well as against the choice of the traveller sites as is well made in the documents to which we have added our signatures.

There may in the fullness of time be a case for making a legal objection to the Borough's plans along the lines of a judicial review, given the apparent breach by the borough of regulations designated to protect the green belt in the interest of the wider community, a legal objection we believe would command the support of many local residents who share our views.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

We strenuously object to the redevelopment of Conduit Lane.

We are concerned about the proposals to convert the Coombe Lodge Nurseries at Conduit Lane into a site for gypsies and travellers.

Clearly this would be significant change of use for a site which is located in the green belt. Furthermore it is designated as being of special character and as such merits protection from redevelopment which would be contrary to the conservation of the local habitat. As in other boroughs such development tends to precipitate and accelerate the erosion of natural conservation areas.

The proposed development site is adjacent to Addington Hills, Coombe Gardens, Lloyd Park and Coombe Lodge playing fields. Such development would be totally inappropriate for the area as the character of these local areas of leisure and relaxation would be seriously impacted.

A private contractor proposing to develop the site for residential housing would have been rejected without further consideration. We do not feel that this proposed redevelopment would be desirable nor in the local interest.

It is hard to believe that there are no vacant brownfield sites (such as the former Redgate School site, Cherry Orchard Road/East Croydon Sites etc) in the borough that have remained empty which could be better utilized for a gypsy/traveller site.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

The site is used for the performance of a number of key Quadron Service operations for its operation of the Grounds Maintenance Contract for the London Borough of Croydon. Currently the site houses and facilitates the following:</p> <ul style="list-style-type: none"> <li>- The contract mechanical engineering workshop for all plant and equipment</li> <li>- The handyman workshop</li> <li>- The Rangers operational office and welfare facilities</li> <li>- The contract administration and management offices</li> <li>- The GM staff welfare facilities</li> <li>- The central training facilities</li> <li>- A main central stores</li> <li>- Machinery and equipment storage facilities</li> <li>- Parking and storage for both GM and road going vehicles</li> <li>- An agreed location for the use of a 35 yard skip critical to the cleansing operation</li> <li>- A central hub for all tractor operations</li> </ul> <p>The site is the operational base for up to 60 staff. The site facilitates the use of public transport by these staff or the safe parking of privately owned vehicles. The site's geographical location lends itself to the borough wide operation, this being key to operational performance and service delivery to our client. A substantial amount has been invested in the site by Quadron Services in the past 20 months to improve H&amp;S, security, welfare facilities, storage facilities and office provision. Should the proposal for the site proceed, Quadron Services Limited would require an alternative operational site within the Borough in order to fulfil its contractual obligations to the Borough and the minimum operational requirements are as follows:</p> <ul style="list-style-type: none"> <li>- Office space required of approximately 100sqm</li> <li>- Welfare facilities for 7 depot based staff plus visitors</li> <li>- Welfare facilities for approx 60 staff operating out of the depot</li> <li>- Overnight parking for approx 25 vehicles</li> <li>- Vehicle and plan workshop of approx 700sqm</li> <li>- Secure covered storage of approx 1400sqm</li> <li>- Open yard space of approx 6000sqm</li> </ul>	If the site is to be allocated an alternative site should be found for the existing occupier. This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Criteria of selection:  
The plan makers have missed a big point that existing infrastructure cannot cope with the influx of additional population at such a fast pace. Also, it has to be planned over few years. It should never be on a green belt/attached to green belt sites as it is disastrous for the environment. There are quite a few brown field sites in Croydon. Those should be explored.  
What are the criteria behind selecting two sites within 1 mile of each other?  
The plan makers do not know the grass root situation. They have just assumed things without actually knowing the facts. This is a grave situation.

There are quite a few public and independent schools in the nearby area. Building a new school will support the selsdon and nearby citizens. Besides we do not have a Grammar school in Croydon. So, it would be ideal if we build a grammar school in croydon on one of the proposed sites.

Existing infrastructure just cannot cope with additional population in Croydon:

1. We have to wait for at least 4-5 days to get appointment at doctors – many times we do not get appointment
2. We have to wait for at least 15 minutes to get a turn to play swing/slide for my son in any local park. The parks are so crowded during summer. Already children are getting very less exercise. If 40 families come over with more than 80 children then it would be extremely over crowded.
3. There are not enough schools in the area. We should build more schools
4. There is very limited green space in Croydon. Government policy states that you cannot build temporary or permanent sites on green belt. Putting the travellers site near green belt will endanger the
5. Conduit lane is a no drive through zone. Increased traffic due to a planned school and travellers sites will cause traffic chaos.
6. We need green belts for good health of the citizens. Steps like these would encourage the encroachment of green belts

Incorrect calculation in the selection criteria for 661 (Conduit Lane) and 502 (Coombe Farm) - If a site is Green Belt/MOL- built form then it is marked as (Amber/Orange), which

means a score of "-5". "+5" has been used which increases the rating by 10 points. Error in calculating site access for 661: There are cars parked on that road and the entrance is through a very busy main road. The site cannot have a rating of "+5". It should be -2. That is a difference of 7 rating points.

Furthermore, Policy E of 'Planning Policy for Traveller Sites', published by the Government in August, states very clearly that 'Traveller sites (temporary or permanent) in the Green Belt are inappropriate development'. The provision relating to travellers/gypsies in the Housing and Planning Bill will also remove sections 225 and 226 of the Housing Act 2004 which placed a duty on housing authorities to carry out an assessment of the accommodation needs of this group when reviewing housing conditions and needs within their areas (a process required by section 8 of the Housing Act 1985). Section 8 will also be amended to make it clear that the duty covers consideration of the needs of people residing in, or resorting to the district for, caravan sites and houseboat mooring sites.

I am also concerned by the evidence base for these selections, namely the 'Assessment and Selection of Sites for Gypsy and Travellers'. This assessment contains a vast number of very subjective criteria against which to judge site suitability and has been the subject of 'extensive political consultation'. This political consultation has only taken place with the Labour Administration and has not been conducted on a cross party basis. This begs the question as to what undue political influence may have been placed on the particular criteria which have been used and indeed the selection of the preferred sites. There is also some question as to why the same scoring system has not been used for each set of criteria, rather than subjectively giving weight to certain criteria. Furthermore, the scoring for individual sites has not been carried out in accordance with the table shown at 4.1. A number of sites have been marked incorrectly, for example, site 661 has been scored at 5 for Greenbelt/MOL, when the score should be -5. This begs the question as to how many other inaccuracies are in the document

2804/01/005/DM44.2/O	Jim Gibbons	Object		DM44.2 661	The council plans to create a Gypsy/Traveller site and it is not appropriate to put a traveller site here because of the nature of the existing use. A conspiracy theorist would opine that the proposed development of such a site relieves the Council of the need to maintain the facility. Croydon has one of, if not the densest populations in London and therefore open spaces are at a premium. 'Housing' which a site of this nature is, should be sited on a brown field site and not an area used for recreation and bio-diversity. For this reason, Policy E of 'Planning Policy for Traveller Sites', published by Central Government states very clearly: 'Traveller sites (temporary or permanent) in the Green Belt are inappropriate development'. 2806/01/002/DM44.2/O	John Bannon	Object	Soundness - Justified	DM44.2 661	The proposals to develop this site for Gypsy and Traveller pitches is completely inappropriate because:  - It is in Green Belt and is therefore contrary to Policy E of Planning for Traveller Sites (government guidance) - The site is some distance from public services - A site should be found in the Purley Way area instead where the existing site is - A site here would compromise the ability of the current generation and future generations to enjoy this green space - Damage to this green space would make Croydon a less attractive place to live in and discourage business relocation to Croydon reducing employment opportunities for Croydon's residents - The scoring system does not reflect the importance of green spaces and is highly objectively - There is a mistake in the scoring system and it should be recorded as -5 for being in Green Belt, not +5 - The social deprivation criterion is illogical as pressures on services apply equally across Croydon	The assessment should be reassessed by an independent party. All three sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b. Furthermore, Policy E of 'Planning Policy for Traveller Sites', published by the Government in August, states very clearly that 'Traveller sites (temporary or permanent) in the Green Belt are inappropriate development'. The provision relating to travellers/gypsies in the Housing and Planning Bill will also remove sections 225 and 226 of the Housing Act 2004 which placed a duty on housing authorities to carry out an assessment of the accommodation needs of this group when reviewing housing conditions and needs within their areas (a process required by section 8 of the Housing Act 1985). Section 8 will also be amended to make it clear that the duty covers consideration of the needs of people residing in, or resorting to the district for, caravan sites and houseboat mooring sites.

I am also concerned by the evidence base for these selections, namely the 'Assessment and Selection of Sites for Gypsy and Travellers'. This assessment contains a vast number of very subjective criteria against which to judge site suitability and has been the subject of 'extensive political consultation'. This political consultation has only taken place with the Labour Administration and has not been conducted on a cross party basis. This begs the question as to what undue political influence may have been placed on the particular criteria which have been used and indeed the selection of the preferred sites. There is also some question as to why the same scoring system has not been used for each set of criteria, rather than subjectively giving weight to certain criteria. Furthermore, the scoring for individual sites has not been carried out in accordance with the table shown at 4.1. A number of sites have been marked incorrectly, for example, site 661 has been scored at 5 for Greenbelt/MOL, when the score should be -5. This begs the question as to how many other inaccuracies are in the document

 - Detimental to the amenities of adjoining owners.  
 - Inappropriate use of green belt land.  
 -Site that are located on green belt, considered to be inappropriate development for traveller sites (temporary or permanent) and against Government Policy ("Planning policy for Traveller Sites" DCLG, August 2015).  
 - Lack of relevant amenities close to hand.  
 - insufficient Local Infrastructure to accommodate plans.  
 - Selection of proposed Site should have bias towards brownfield or industiral land not green belt.  
 - Why are two sites in very close proximity to one another being proposed.  
 - Imbalance across the borough with all sites being proposed in the south of Croydon.  
 - Why not expand the existing permanent gypsy site in Lathams Way off Beddington Farm Road.  
 - If one has to select one of the proposed sites, the preference s for Perar Tree Farm and Pear Tree Farm Cottage, Featherbed Lane.

Our client is deeply concerned about the manner in which the Evidence for the Croydon Local Plan: Detailed Policies and Proposals (Preferred and Alternative Options) ("the Evidence Paper") has been prepared. The scoring assessment applied by the Council is reductionist and disregards the wider context (for example outreach programme and supports) within which sites sit. Without that appreciation we do not consider that the Evidence Paper adequately supports the Council's Strategic Objectives. The Evidence Paper identifies four "absolutes" for the initial screening. In the absence of any justification and evidence backed rationale behind these "absolutes" we are left to conclude that there is none. A site should be available and deliverable. We consider that to be an appropriate test in determining the suitability of a site for development. There is little explanation as to what factors the Council has taken into account for the purposes of scoring whether a site is deliverable - particularly over a 20 year period. No consideration is given to the use of CPO powers where a site for example could be suitable save for possible issues over deliverability. The use of CPO powers should be a consideration for the purposes of deliverability. The existence of contamination cannot be considered in isolation. There does not appear to be any detailed analysis of whether the extent of contamination on some sites, and the costs of remediating that contamination, would render that site undeliverable in the plan period. A failure to acknowledge the need for sites to be located in proximity of public transport services does not support the principle of sustainable development. In adopting this flawed approach the Council have failed to consider the contribution that smaller sites could make in delivering sites for gypsy and traveller communities. As a result, the initial screening process was biased towards larger sites despite the evidence base showing that such sites were not supported by the gypsy and traveller community. As a result, the Council has not properly considered if there are exceptional circumstances which justify any of the identified Green Belt sites coming forward for use as traveller sites.

To ensure transparency in the planning process the same tests should be applied to allocated sites and windfall sites.

For the reasons detailed above, the assessment proceeded from an erroneous starting point of "absolute" requirements that were neither justified nor supported by the Council's existing gypsy and traveller policy. The Evidence Paper is lacking in detail, and the scoring criteria overly simplistic. As a result, the evidence put forward by the Council is lacking in transparency and is an unsound base for policy making.

Incorrect calculation in the selection criteria for sites 661 and 502. If a site is Green Belt/MOL built form then it is marked Amber/Orange which means a score of -5 but +5 has been used which increase rating by 10 points. Error in calculating site access for 661, there are cars parked in that road and the entrance is through a very busy main road . The site site cannot have a rating of +5. It should be -2. That is a difference of 7 rating points.

I wish to oppose the proposed gypsy site at Conduit Lane, South Croydon, CR0 5RQ (ref 661) for the following reasons.

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

I suggest that the plan has overlooked some important issues that will affect the site and also the RAG calculation in the Councils 'Policy Designation Assessment' of is mathematically incorrect.

1) The site is a green belt site, which, referring to 4.1.The criteria and scoring is as follows  
..Green Belt/MOL- built form and this carries a weighted score of -5. In the 'Policy Designation Assessment' it is as shown as +5.

This mistake the Council has made alters the final score from +6 to -4.

2) The Gypsy Community by their very nature are users of industrial vehicles including trailers and flatbed lorries and tipper trucks. The access at Conduit Road is not only restricted in width, the entrance is also shared by a Tea Room , The Coach House Café, serving walkers and locals. However, the Council seem to have allowed use of Industrial Vehicles to be classified as 'Private Vehicles' for the purposes of scoring. This is incorrect.

Conduit Lane also exits onto Coombe Road, a narrow main road where there have been several serious accidents in recent times including fatalities. The additional use of a plethora of industrial vehicles presents a real danger of personal injury.

3) The proposed site at Conduit Lane is currently used as a wood reclamation unit which reclaims tree cuttings in wood pellets. This is a green recycling unit and the loss of which will not only mean the wood having to be processed elsewhere but a loss of employment for those working there.

I strongly oppose the development and wish my views to be taken into account when re-evaluating the situation in order to present the true mathematical values and corrected mistakes.

My answer: School is a viable option as there are no schools in our area  
Criteria of selection:  
The plan makers have missed a big point that existing infrastructure cannot cope with the influx of additional population at such a fast pace. Also, it has to be planned over few years. It should never be on a green belt/attached to green belt sites as it is disastrous for the environment. There are quite a few brown field sites in Croydon. Those should be explored.  
What are the criteria behind selecting two sites within 1 mile of each other?  
The plan makers do not know the grass root situation. They have just assumed things without actually knowing the facts. This is a grave situation.

There are quite a few public and independent schools in the nearby area. Building a new school will support the selsdon and nearby citizens. Besides we do not have a Grammar school in Croydon. So, it would be ideal if we build a grammar school in croydon on one of the proposed sites.

Existing infrastructure just cannot cope with additional population in Croydon:

1. We have to wait for at least 4-5 days to get appointment at doctors – many times we do not get appointment
2. We have to wait for at least 15 minutes to get a turn to play swing/slide for my son in any local park. The parks are so crowded during summer. Already children are getting very less exercise. If 40 families come over with more than 80 children then it would be extremely over crowded.
3. There are not enough schools in the area. We should build more schools
4. There is very limited green space in Croydon. Government policy states that you cannot build temporary or permanent sites on green belt. Putting the travellers site near green belt will endanger the
5. Conduit lane is a no drive through zone. Increased traffic due to a planned school and travellers sites will cause traffic chaos.
6. We need green belts for good health of the citizens. Steps like these would encourage the encroachment of green belts.

2837/01/001/DM44.2/O	Mrs Gillian Cubitt	Object	Soundness - Effective	DM44.2 661	The Methodology to assess the sites is flawed: 1)3.8 It does not consider the Public Transport Accessibility Level. This is understood that it was established that the gypsy and traveller population have their own transport. However, the accessibility of the site in Coombe Lodge Nursery is not suitable for high level traffic for heavy vehicles such as those used by the gypsy and traveller community. I do not see how this has been taken into account when deciding on this site. 2)The area is a park that has constant access to the public and children. The higher level of traffic poses a danger for pedestrians and children using the park. 3)The score on the Rag Rating is not accurate. The nursery in Coombe Lodge Nursery is designated green belt/MOL – built form. This should be a rag rating of -5, not 5 as shown in the table. This means the assessment is wrong as it impacts on the final score of suitability. 4)The present area is used for recycling wood. Where would this go?  Heathfield and Coombe Wood is an area of natural beauty, which should be preserved for the enjoyment of Croydon residents. While not directly objecting to the erection of static sites for gypsy and travellers in this area. It is a great concern that passing travellers may over use the site and cause disruption and degeneration. This comes from experience when travellers left a trail of devastation when parked on the current Coombe Field Playing Fields. I am objecting to the following sites being considered as suitable as Permanent Sites for the above use:  
1) Coombe Lodge Nurseries, Conduit Lane, Coombe Road, South Croydon, CR0 5RQ  
2) Coombe Farm, Oaks Road, Shirley, CR0 5HL

I am very disturbed to hear of the proposed plans for providing permanent sites for the Gypsy and Traveller people on these sites, mainly on the grounds that they are both much valued and appreciated areas of natural beauty and relatively unspoiled areas on Green Belt land, which I consider is an inappropriate use of such areas. I understand, in fact, that it is against stated Government Policy ("Planning policy for Traveller Sites" DCLG, August 2015).

My objections are based on the following grounds:

1) Neither of these areas has local amenities nearby, or sufficient infrastructure to accommodate these plans.

2) Whilst it is a statutory duty of local councils to provide these sites for travelling people - and, indeed, an act of common humanity that such groups are catered for - it is usual that brownfield or industrial land is used, rather than open greenbelt land.

3) Both these sites are comparatively close to each other; certainly both are in residential areas in South Croydon, thus impacting on amenities of local owners, and arousing local feelings. What is the reason behind this decision?

4) Can the existing permanent site in Lathams Way off Beddington Farm Road be expanded?

There are many sites which might be considered which are not near areas of heavy residential occupancy, in the Waddon playing fields areas, for example. The Pear Tree Farm area in Featherbed Lane is also more suitable.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

I will oppose the gypsy site on the following grounds:  
1.Mis-calculation of the score while selecting the site:

If a site is Green Belt/MOL- built form then it is marked as (Amber/Orange), which means a score of -5

If you go to page number 9 of the document in the link below, you can find that Amber is scored as +5 as opposed to -5.

[https://www.croydon.gov.uk/sites/default/files/articles/downloads/Gypsy%20and%20Travellers\\_Site\\_search\\_Evidence\\_%20August\\_2015.pdf](https://www.croydon.gov.uk/sites/default/files/articles/downloads/Gypsy%20and%20Travellers_Site_search_Evidence_%20August_2015.pdf)

Also, the score for the site access should be -2 as there are issues with the site access.

This brings the overall score down to 12. Please, check the other scores too before finalising this site. This site is clearly not suitable for building on the gypsy site as it is a green belt site.

2.I will be objecting to the use of either of these locations as gypsy/traveller sites. As the Council acknowledges, they are both in the Green Belt and one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly:

“Traveller sites (temporary or permanent) in the Green Belt are inappropriate development”.  
The Council's approach is clearly in breach of that policy. Both sites are also some distance from public services. If the Council really needs, as it claims, to quadruple the number of gypsy/traveller sites in the borough - which I would question - they should look elsewhere (for example, off the Purley Way where the existing site is).

Criteria of selection:  
The plan makers have missed a big point that existing infrastructure cannot cope with the influx of additional population at such a fast pace. Also, it has to be planned over few years. It should never be on a green belt/attached to green belt sites as it is disastrous for the environment. There are quite a few brown field sites in Croydon. Those should be explored.

What are the criteria behind selecting two sites within 1 mile of each other?  
The plan makers do not know the grass root situation. They have just assumed things without actually

I am writing to register my strongest possible objection to the following proposals for gypsy and travellers sites:

- Coombe Farm, Oaks Road - Reference 502
- Coombe Lodge Nurseries off Conduit Lane - Reference 661

I am an active member of Shirley Park Golf Club and vividly recall the hugely, disruptive presence of the gypsies when they trespassed onto Coombe Farm a couple of years ago. There is sometimes a romantic notion that gypsy/traveller community wish to get on with their lives and not affect the urban population wherever they pitch up; I am afraid that the bare facts reveal that this to be a complete fallacy and the stark reality is far from this rosy, TV documentary image.

It will come as no surprise to you to learn that there were numerous, illegal intrusions onto the golf course during their uninvited stay. Sadly but I am afraid rather predictably, these incursions resulted (of course) in a plethora of petty thefts and incidents of mindless damage to the course as well as necessitating a "marshalling" of parts of the course.

These factors coupled with the constant verbal abuse made play almost untenable and at one point, a decision was made to close certain parts of the course until they were finally evicted.

I think it is important to stress that this is not just about my personal feelings, there are more far reaching implications. Certainly if their presence was to be made permanent, there is no way I personally would continue my membership at Shirley Park Golf Club and I can safely say a lot of the members feel the same way.

It was apparent what the inhabitants of Croydon thought when another historic business at Reeves Corner was attached not so long ago. Shirley Park Gold Club has been a values part of our community for over 100 years providing enjoyment for thousands of members, safe recreation for youngsters and of course valuable employment for many, not to mention the thousands of pounds raised to help Croydon Opportunities.

The success of the club also allowed the purchase of the land in recent history and it often surprises my guests to see this beautiful side of Croydon. Surely it is not right to jeopardise this great part of our local heritage in attempting to temporarily resolve this long running problem? Croydon is attracting huge investment and is seemingly working

The policies laid out on the Mayor of London, policy 7.7 clearly states that the mayor's office fully supports the protection of Metropolitan Open Land , and states that the strongest protection should be given to London MOL and inappropriate development refused. The policy lays out what needs to be established to designate an area as MOL but does not make it clear how Council can de-designate an area.

I therefore object to any permanent traveller site being constructed on MOL, especially if the area is simply going to be de-designated without any consultation with local residents and businesses.

I object strongly that Croydon Council can de-designate MOL or Green Belt to suit their needs to accommodate a permanent pitch. I cannot see any justification to change the designation, and intrude into the lives of the residents of Oaks Road and surrounding area. This will massively affect the attractiveness of the area and both the emotional and financial reprehension for many lives.

Policy 7.18 relating to protection of open spaces clearly states that open spaces within London must be protected and any loss must be resisted. I cannot believe the Council would want to go against both of these policies laid down by London assembly.

The Shirley Gold Club provides sport and social activities for up to 700 members in the local vicinity, and also provides an important ecological node in the area. The proposed sites for gypsies and travelers has come as a shock to everyone in its area, as come out of the recent press coverage and attenance at the consultation meetings.

The history of unauthorised "pitches" in this area over the past four years has left a bitter resentment, especially in view of the residual mess and littering, and crime that is accompaied their trepass. This does not change when the site is official.

On each occasion that gypsies/travellers have been in the area, the residents have been affected by verbal and physcial abuse. We also have a junior section at the club and children play in the comp during holiday period, as well as weekends. They are often unaccompanied and parents need to

I write concerning Croydon Council's proposals contained in the consultation document of the Croydon Local Plan that includes the re-designation of Metropolitan Open Land in Shirley and specifically within the confines of Shirley Oaks. I consider these proposals and others listed above to be inappropriate as they would significantly change the character of the area in which I have lived all 61 years of my life and I wish to add my voice to those already expressing concerns and objections about these proposals.

I strongly object to the proposal to re-designate Metropolitan Open Land to facilitate the building of new homes on land in Shirley Oaks and the provision of temporary or permanent traveller/gypsy sites in areas that are acknowledged by the Council to be in the green belt at Coombe Farm and Coombe Lodge Nurseries in Conduit Lane.

These proposals are totally out of keeping with the character of the area which predominantly comprise owner-occupied semi and detached homes. Surely areas considered to be brownfield sites are more appropriate than the unacceptable use of Metropolitan Open Land?

The proposals affecting the area surrounding Shirley Library are also of concern as this would adversely change the character of the area and potentially result in the establishment of additional unsightly car- parking sites on the south side of Wickham Road, similar to that at the front of the Shirley Medical Centre at 370 Wickham Road.

2922/01/002/DM44.2/O	Elizabeth Wood	Object	DM44.2 661	The planning authorities should protect local amenity and environment. These do the opposite and will do nothing but harm. Travellers sites in the Green Belt are inappropriate development. The scale of such sites should not dominate the nearest settled community whose interest should be respected. These sites will have a highly deleterious effect on four neighbouring businesses namely The Chateau restaurant, Coach House Café in Coombe Wood, the Premier Inn and the Oaks Farm wedding venue. The numbers being housed will be greater than the occupants already living along Oaks Road. In addition there is no nearby public transport, schooling, doctors surgery or shops. There are not even pavements on both sides of the roads involved. They will be damaging to the nearby site of Nature Conservation Interest. The Council has already spent time and money ensuring that travellers could not park in Conduit Lane. They must have had a reason for so doing. If travellers are allowed on the nursery site there is will make Coombe Wood and gardens a no go area. Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
2934/01/002/DM44.2/O	J A Meyer	Object	DM44.2 661	I object to the use of the site for a gypsy and traveller site as it would constitute inappropriate development I nthe green belt and would not comply with Policy SP2.7a and SP2.7b. There are incorrect calculations in the selection criteria for the site. If a site is Geen Belt/MOL - built form then it is marked as (Amber/Orange), which means a score of -5. A score of +5 has been used which increases the rating by 10 points. There is also an error in calculating the site access for the site. There are cars parked on that road and the entrance is thought a very busy main road. The site cannot have a rating of +5. IT should be -2. That is a difference of 7 rating points.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
2935/01/003/DM44.2/O	Mr Ian Cameron	Object	DM44.2 661	The proposed travellers sites are not suitable and are in breach of the Government's statement that "sites are inappropriate in the Green Belt". These sites are also some distance from public services.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

2936/02/003/DM44.2/O	Mr John Lingwood	Object	DM44.2 661	This would be in breach of the Government's intentions - Policy E of the Planning Policies for Traveller Sites and that travellers sites (temporary or permanent) are inappropriate development in the greenbelt. This would drain Council resources and reflect on the quality of other services that the Council is required to provide. It would result in the reduction in free and easy access that is currently enjoyed by many. The proposal would have a considerable effect on the business at Oaks Farm and the Premier Travel Inn, forcing these to close potentially. Extending the site at Purley Way should be considered.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
2950/01/002/DM44.2/O	A Lemell	Object	DM44.2 661	I object to the gypsy and traveller site at Coombe Lodge Nurseries, Conduit Lane.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

The proposal to develop Coombe Lodge Nurseries, Conduit Lane as a residential development for a Gypsy and travelers site does not fall within the Strategic Objectives because:-  
Objective 2: This development will not Foster an environment where existing enterprise can prosper, but will reduce enterprise  
Objective 4: This development will not reduce social, economic and environmental deprivation. It will not reduce unemployment, improve skills and education and improve environmental conditions, the development is not in keeping with the surrounding area.  
Objective 5: This development is not high quality and will not enhance the borough's natural environment but will reduce the natural environment by turning a farm into a travelers housing site  
Objective 7: This development will reduce the area as a safe, healthy and cohesive community.  
Objective 10: This development will reduce the quality and accessibility of green space and nature.  
This proposed development of a travelers site within the Coombe Road area is not within keeping of the current development within this area. Shirley comprises of large semi and detached houses with large green areas. This development is in no way in keeping with out housing in the area.  
Changing a green area to an area of residential housing will cause harm and reduce the outlook of the area and is not in keeping with the surrounding area  
Building a travelers site will increase noise levels and ruin the character of the area and this development would overwhelm this green area.  
Paragraph 64 of the National Planning Policy Framework states that permission should be refused for development of poor design that fails to take the opportunities available for improving the character and quality of an area and the way it functions.  
This development would diminish the striking view of the area of Addington Hills and Coombe Farm area.

this development will compromise the ability of future generations to meet their own needs. The development will change the outlook and community within the South Croydon area and future generation will suffer because of this.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Not in line with Government planning policy on the Green Belt. Sites are located on the Green Belt, considered to be inappropriate development for Traveller sites (temporary or permanent) and against Government Policy ("Planning policy for traveller sites", DCLG, August 2015): the proposal to create a permanent traveller site on land designated as Green Belt land is contrary to Policy E of the Planning Policy. Inappropriate development, harmful to the Green Belt, should only be approved in very special circumstances. There are no very special circumstances that have been, or can be, advanced to allow the use of this land (The National Planning Policy Framework makes it clear that unmet housing need (including for traveller sites) does NOT constitute exceptional circumstance). It is not in the surrounding community's interest for the Green Belt to be eroded - approving this application would also set a precedent and open the surrounding areas to be subject to similar planning applications. Negative impact on the local environment and wildlife. Inappropriate to simply weight Green Belt as one of many factors to be considered in the assessment process, rather it presents a policy objection that cannot be over-ridden in the way proposed.

- Government planning policy with regards to traveller sites wants to ensure that plan-making and decision-taking should protect Green Belt from inappropriate development.
- The proposal to create a permanent traveller site on land designated as Green Belt land is contrary to Policy E of the Planning Policy: "Inappropriate development is harmful to the Green Belt and should not be approved, except in very special circumstances.". There are no very special circumstances.
- The National Planning Policy Framework makes it clear that unmet housing need (including for traveller sites) is unlikely to outweigh the harm to the Green Belt and other harm to constitute the "very special circumstances" justifying inappropriate development on a site within the Green Belt.
- The local character description is clearly at odds with the proposal.
- The justification acknowledges the Green Belt issue, though insufficiently, but relies on the fact that there are existing structures. These are not in fact substantial, being glasshouses and could be said to be at least environmentally consistent with the Green Belt. But

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

there is no very special circumstance justification proposed as required by Planning Policies.

- Approving the proposal would set a precedent and open the surrounding areas to be subject to similar development. It is not in the community's interests to allow the erosion of the green spaces surrounding the community and we object to the impact this site could have on the environment and wildlife. In the light of these issues, it is not appropriate simply to weight Green Belt as one of many factors to be considered, but rather it presents an overarching policy objection that cannot be over-ridden in the way proposed. To be considered deliverable, sites should be available now, offer a suitable location for development now and we do not believe that The Assessment and selection of sites for Gypsy and Travellers undertaken was credible. The site is clearly not a suitable location for development Plan makers have not considered the time it will take to commence development on site:

- ☐ Need for infrastructure improvements (roads), need for local amenities improvement (primary school, doctor)
- ☐ Plan makers have not considered the time and necessity to show due diligence in assessing the sites:
- ☐ need for an Environmental Impact Assessment (this would be a schedule 2 development having significant effects on the environment and needing an EIA)
- ☐ need for a Local Biodiversity Action plan to determine the sensitivity of the location
- ☐ Plan makers have not ensured that the process has credibility and acceptance: the bases for site criteria weightings are unclear.
- ☐ Plan makers will need to provide robust, up to date evidence to support the deliverability of sites, ensuring that their judgements on deliverability are clearly and transparently set out.
- ☐ Plan makers have not taken the cost and time needed to mitigate the impact of the development on the sites: Croydon Council has already recognised in its Development Management Policies document that the Site of Nature Conservation Interest (SNCI) which borders the Coombe Lodge Nurseries Site, Coombe Wood (List of Historical Park and Gardens 2008) would be negatively impacted by the proposed development.

There is basis for challenging the way in which this potential site has been selected.

1 Para 3.1 Green Belt sites included for review of eligible sites "to ensure that all locations for a site considered", but at the same time "Exclusion of sites in Croydon Metropolitan Centre and within District Centres and Strategic Industrial Locations and Conservation Areas due to viability, deliverability and impact on heritage considerations". Is this even-handed?

Para 4.1 sets out the criteria and weightings. As indicated above, Green Belt with no built form is given a weighting (-10) which, though high, is not very significant given that there are 29 or 30 criteria and can easily be outweighed by other factors that are less significant in policy terms. Furthermore, Coombe Nurseries has been weighted -5 for Green Belt, in recognition of the fact that there are some structures on the site, AND has been given 5 for the fact that (in the assessor's view) such structures as there are can be converted to traveller use (if the buildings had to be demolished, on a green field site, this would have attracted -5).

SP2.7 on the Council's proposals to deliver 39 additional gypsy and traveller sites indicates that land will be allocated in accordance with the proposals, but that any ADDITIONAL sites that are not so allocated should meet some stated criteria, including good access to local shops and essential services and good transport access; these seem to be criteria that were excluded from the proposed allocation, suggesting that any alternative proposals would need to meet stiffer criteria. Is this fair and even-handed?

The proposed development does compromise the future of the local area.  
Government planning policy is to ensure local planning authorities have due regard to the protection of local amenities and the local environment.  
It is likely the proposals will have an adverse effect on local businesses  
Coombe Wood is a Site of Nature Conservation Interest (SNCI) (List of Historical Parks and Gardens 2008) and borders the proposed Coombe Lodge Nurseries site, and would be negatively impacted by the plans.  
Croydon Council has already recognised this in its Development Management Policies document.  
The Borough Character Appraisal of 2015, the local area is listed as having special character. The proposed development is not sensitive to, and does not respect, this.

The objections may be summarized as:  
-inappropriate use of Green Belt land  
-lack of relevant amenities close to hand  
-adverse effect on neighbouring businesses and leisure amenities  
-site has a more appropriate use for a school

2962/02/002/DM44.2/O	Charlotte Lewis	Object	DM44.2 661	I object to the council's plans to create a Gypsy/Traveller site on Conduit Lane, next to Coombe Wood Gardens; travelers bring with them a whole host of anti-social problems & criminal activity such as the rubbish they leave behind; also I worry about the safety of people's pets with them around. A colleague of my fiance's was threatened with extreme violence by travelers when he went to their site to try & read their electricity/gas meters.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
2965/01/004/DM44.2/O	Janet Nightingale	Object	DM44.2 661	Recently I have heard of Croydon Council's plans for the borough over the next 20 years. I object strongly to the plans for permanent sites for travellers using green belt land. My experience of travellers is not a happy one. In my opinion they are inclined to make a dreadful mess of any area they occupy. They then move on leaving the Council to clear up after them. If they have to be provided with another permanent site please choose somewhere which is not green belt.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
2967/01/002/DM44.2/O	Janet Willings	Object	DM44.2 661	Government policy excludes green belt land from use as a site for Travellers. Coombe Wood Gardens is green belt land. Coombe Wood and Lloyd Park areas are surely one of the jewels in Croydon's crown. They provide a green space of beauty, peace and fresh air and are well used by the people of Croydon. There are other places where Travellers sites could be located.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

2970/01/007/DM44.2/O	Janet Dean	Object	DM44.2 661	<p>I understand that the following Policies will threaten our green spaces. I was born in Croydon and have lived in this area all my life (I am now 63). My parents came here from Scotland in the early 1950s. They chose this area specifically for its green spaces and it is quite unique in that facility. I spent more than 35 years in Real Estate in this area and know very well that the reason people continue to move here, is exactly for these facilities and yet remaining within easy reach of other amenities, London, the coast and airports. Of course, more housing is required but I believe the alternative suggestions to these proposals to be very valid and much more in keeping with the neighbourhood thus maintaining its attractiveness and good standard.</p> <p>These proposals are ill conceived and will change this particular neighbourhood beyond all recognition and take away that for which it is well known and valued. Please hear the voices of people like me and do NOT continue with the proposed policies set out below and which can be found in your Local Plan:</p> <p>6. Policy DM44.2, Table 11.17, site 661 (p179). This is a greenbelt site, and it is not appropriate to put a traveller site here. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly: "Traveller sites (temporary or permanent) in the Green Belt are inappropriate development". Both Coombe Farm and Coombe Lodge Nurseries are some distance from public services and traveller sites here risk damaging some of the Borough's precious green spaces. I am writing to you to express my objection to potential travellers sites in two locations and to detail the reasons why.

Coombe Lodge Nurseries (Conduit Lane) Ref 661

1. The land is green belt land and therefore deemed inappropriate by national guidelines.
  2. The size of the site would mean that it could not be accommodated by simply demolishing existing structures and hence would spill over into unspoiled land
  3. The area already struggles with amenities such as schooling, doctors etc and this additional influx would be difficult to accommodate
  4. The site would add additional traffic to conduit lane/coombe lane intersection which could not be accommodated without major traffic improvements.
  5. The traveller site would be next to Coombe park and overwhelming in terms of size.
  6. Parking to access the Coombe Park and Coombe woods is already at a premium. The development would bring massive amounts of additional traffic.
  7. The site will totally overwhelm near by residents on Coombe Lane and Oaks Road.
  8. The site is very close to some of Croydon's most unspoilt areas such as Coombe Woods, Combe Park and Lloyd Park. The additional influx of vehicles and residents would have a detrimental effect on the local environment.
  9. The site has no amenities near by - shops, post offices etc and none within walking distance which means a massive increase in traffic to the local area.
- Both locations would massively change the local characteristics of an area of Croydon which is largely unspoilt by development in an area with very few local amenities. Schooling is already an issue in this area. In my view Green Belt land is specifically created to prevent urbanisation of green spaces which this proposal amounts to.

2. Coombe Lodge Nurseries off Conduit Lane, which is proposed as a site for 15-25 pitches (pages 468-469, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 661).

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

I object to this proposal on the following grounds:

1.1 Coombe Lodge Nurseries is Green Belt Land. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly that "Traveller sites (temporary or permanent) in the Green Belt are inappropriate development". Previous use and Council ownership do not mitigate against this policy.

1.2 The proximity of this site to the Coombe Farm site, also proposed, would mean a total of up to 45 pitches on 2 sites within a very small area of the Borough.

1.3 The Croydon Local Plan paragraph 4.19 refers to the need for good access to roads, stating that Gypsies and Travellers "often need to move larger vehicles as part of their livelihood and way of life". Coombe Road junctions with Oaks Road and Conduit Lane are busy and potentially hazardous intersections and are unsuitable for increased, safe movement and manoeuvring of larger vehicles.

1.4 The proposed Coombe Lodge Nurseries site is adjacent to a Site of Nature Conservation interest which would be vulnerable.

All of the three preferred sites are on Green Belt Land, contrary to Government Policy.

The close proximity of the proposed sites to one another has not been taken into account. All three sites are proposed for a small area in the South of the Borough when there seems to be a successful site in Purley Way which could be expanded.

□  
None of the three sites proposed has good access to schools, shops and other services. The consequent need for private transport goes against environment and climate initiatives. Government Guidelines ask that local planning authorities policies ensure that children can attend school on a regular basis. These three sites are well away from schools, particularly

primary schools, and clearly do not reflect the aims of the Guidelines or facilitate regular school attendance

The proposed plan does not take into account the need for good access to roads. The Croydon Local Plan paragraph 4.19 refers to the need for good access to roads." Oaks Road, Coombe Road, Conduit Lane and Featherbed Lane are unsuitable for safe increased movement and manoeuvring of larger vehicles, especially entering and exiting these sites.□

□  
The number of Gypsy/Traveller sites in Croydon is to increase from 1 to 4, when our recent experience locally is of travellers responsible for damage, parking illegally, leaving piles of rubbish behind when they are moved on and even engaged in firearms confrontation with the police.

I am emailing to object to the proposed travellers sites to be built in the shirley/croydon/south croydon areas.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

There are numerous reasons for my objections.

1. This is green belt land and should remain as such. We are lucky to have local green areas that I have enjoyed since my childhood and that my own family benefit from now. Green belt land is not appropriate for any form of dwelling. We need to preserve what we have in the area. Travellers are known to leave their mess around them, this is not what we want on our green belt land
  2. There are insufficient local school places as it is. The children (including my own) in the area will be adversely affected by the influx of travellers who normally have large extended families
  3. Travellers cause trouble, my son was set upon by a group of travellers in Lloyds park recently and we now avoid this area when the travellers are illegally staying there. I would like my children to be able to use the local parks and amenities without worrying about people who regularly do not abide by the law of the land.
  4. My elderly parents who live in the Shirley hills area are vulnerable victims of crime as it is. Do we really need to add to their fears by making the area less safe with a group of people who generally have no regard for the law
  5. Crime rates in Croydon are up as it is. Do we really need more residents for our already overstretched police force to watch over
  6. And finally, the clue is in the name. These people are travellers and therefore travel, meaning there is no need for a permanent dwelling for them

Such development is in breach of Policy E of Planning Policy for Traveller Sites, which says that "Traveller Sites (temporary or permanent) in the Green Belt are inappropriate development". I am writing to object to the use of the following locations as gypsy/traveller sites:-

- Coombe Farm off Oaks Road Reference Number 502
- Coombe Lodge Nurseries off Conduit Lane Reference Number 661

1. What is the Council's rationale for proposing Traveller Sites on the very land previous illegal incursions, fly tipping and theft have occurred?

2. On what basis has Croydon's Labour Council rejected the prior Conservative Councils proposal for a second Traveller site located on the Purley Way, Roundshaw Open Space?

3. Under the Freedom of Information Act, what is the total tax payer investment, Croydon Council has made over the last 5 years securing land, preventing and obstructing illegal incursions?

4. Council representatives are referring to Travellers (universally) as "homeless Croydon residents", yet they are of 'no fixed abode', not registered (with the Council) as homeless, not on the electoral role - let alone contributing to the use of/impact upon local amenities. Please clarify the difference between a 'resident' and a 'visitor'.

5. Council representatives advise 'It is the right of a Traveller to live in a caravan and is part of their ethnic rights'. Has an Equality Impact Assessment (Government Planning Document) been conducted to ensure the rights of the settled community are not being infringed? (It is understood this is a requirement where there has been significant local opposition as in the case of Croydon).

6. Please confirm a) whether a traveller must reside within a given schools catchment area to attend and b) whether the proposed sites were selected with this in mind?

7. Actual number of fixed plots revealed during (verbal) consultation was 49, not 39 as documented, indicating likely expansion of a site(s) at later date. (See Dale Farm, Essex for unauthorised 'sprawl' beyond designated site)  
[https://en.m.wikipedia.org/wiki/Dale\\_Farm](https://en.m.wikipedia.org/wiki/Dale_Farm)

8. What consideration has the Council given to the societal impact of introducing both Romany Gypsy & Irish Travellers (known to feud) into two locations just 500m apart on local community?

9. Government planning for Gypsies & Travellers determined Green Belt Development as 'inappropriate'. (See Dale Farm, Essex eviction from Green Belt land). What is the rationale for Croydon looking at

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Green Belt vs. Brown Field?

9a) Under the Freedom of Information Act, how many Brown Field Development sites have Croydon Council Overlooked before selecting Green Belt?

([http://www.gypsy-traveller.org/wp-content/uploads/2015/10/Changes-to-planning-for-Gypsies-and-Travellers-leaflet\\_v6.pdf](http://www.gypsy-traveller.org/wp-content/uploads/2015/10/Changes-to-planning-for-Gypsies-and-Travellers-leaflet_v6.pdf))

9. Two of proposed sites in same Ward and the third in adjoining area, all held as Conservative seats with 2 locations less than 500m apart. Why are there no suitable locations in Labour held seats?

10. Croydon Council acknowledge these proposals will not prevent further illegal incursions, fly tipping, damage and theft at the residents/tax payer's expense, suggesting more fixed sites are not the solution. The current investments in the prevention of illegal incursions are working to protect the settled community.

11. Coombe Farm itself is a listed building, yet at least one other site was dropped from the shortlist for this very reason. Why has the evaluation criteria for site selection not been applied in an unbiased, uniform manner?

12. Note Basildon Council ended up \*leasing\* land they did not already own to accommodate travellers. If Croydon Council is blocked from using its own land for the purpose of a Traveller Site, can it be confirmed that the Council will uphold Green Belt planning restrictions and decline private planning applications for the same? (Ref: Dr A Ansari).

[https://en.m.wikipedia.org/wiki/Dale\\_Farm](https://en.m.wikipedia.org/wiki/Dale_Farm)

13. 'Homeless' travellers evicted from Dale Farm returned to their \*homes\* in Ireland.

(4:08 onwards.

<http://youtu.be/T253zUOfXe0>). What is Croydon Council's position where a "homeless Traveller" owns property? What investigation is carried out into the legitimacy of their homeless claim?

14. Taxpayers in Essex ended up funding Traveller-only amenities such as a community hall. What societal integration studies have been completed for homes, schools & businesses adjoining Coombe Farm and Coombe Lodge Nurseries? Precedent suggests their needs are greater than just plots.

15. Why was Coombe Farm initially considered for both Residential and Traveller site prior to Consultation only to be changed to Traveller-only during Consultation?

16. The proposed Coombe Farm Traveller site is:-

- a) Green Belt
- b) A listed Historic Property

c) Is within 'panoramic view' of Addington Hills

d) Has a number of covenants on its usage dating back to the 1950's set by the Garwood Family.

17. On what basis has Croydon Council classified these Travellers as homeless? They have the means to purchase their own vehicles, mobile accommodation and plant machinery. Why wouldn't they register with Croydon Council as homeless (if that is indeed their claim) and be 'Means Tested'?

17 a) Council representatives (at the recent Consultation) deemed adding Travellers to the homeless register as 'unworkable' as the housing waiting list was too long. Does this mean Travellers are being given PRIORITY over legitimate refugees and asylum seekers who are already on the housing register?

18. The introduction of a single traveller site (let alone two) in the Green Belt Heathfield Ward will increase localised fly tipping (please see area immediately surrounding the existing fixed site. Latham's Way, CROYDON) and will therefore be in direct contravention to the NATURE CONSERVATION STRATEGY, Supplementary Planning Guidance No.5 for Croydon on the following grounds;

4.41 "Five of the 8 Golf Courses in Croydon (note; Shirley Park adjoins Oaks Farm) contain all or parts of Metropolitan Nature Conservation Importance in Croydon."

4.63 Problems -cites 'pollution' as one of 7 key problems identified which particularly apply to Croydon".

5.5 "96 sites in Croydon are outlined in the Ecology Handbook 32 'Nature Conservation Guidelines for London' (updated in 1994). The criteria have been used by the Council to protect sites from harmful development through the operation of its own town planning powers".

6.9 Have the "Wardens for the green belt" (a role within the Council) a) been appointed in line with this policy and b) been consulted on the potential impact?

6.6 - Access [to the countryside] for All; "There are physiological & physical barriers [...] putting the countryside beyond the reach of some residents [...]. They may be restricted by [list of reasons] or of not feeling safe in the countryside." The presence of at least one Traveller Site will be viewed as a deterrent with valid concerns for the personal safety of local residents and visitors alike.

- What consideration has been given to existing Tree Preservation Orders, Ancient Woodland (Oaks) & Hedgerows both on the Coombe Farm site as well as the shared

access? Development of the access road would lead inevitably to the loss of further wildlife habitat.

- protected species in the area include deer, badgers (sets in and around Coombe Farm) and bats in the listed building & outbuildings. (4.13, 4.15 & 4.16) "Heathland is one of the rarest habitat types in London. The remnants of 'Heather' heathland found on Croham Hurst & Addington Hills [...] are the most significant in London. Heathland is also increasingly rare on a national basis with much of its characteristic wildlife endangered".

19a. How will the provision of a fixed site prevent the issue of illegal incursion, raised in the above consultation document, specifically Question 10, harm caused by intentional unauthorised occupation? Croydon Council representatives concede it will not, therefore please explain what positive outcome this proposal hopes to produce.

"The new policy will help ensure that traveller sites are developed in appropriate places and not on Green Belt land, ensure planning policy is clear and consistent and thus can operate most effectively in a new localist planning system, and reduce community tensions that can arise over perceptions that planning policy for traveller sites is more lenient than planning policy for housing for settled communities." Perception upheld.

20a. During local Consultation, Counsellors advised repeatedly of a Central Government target being applied to Croydon for Traveller Sites. Excerpt from the 'Planning policyholders traveller's sites -

Equality Impact Assessment' suggests otherwise;  
"Now the Localism Act is in place, the current policy points to a process that no longer exists for setting future traveller site targets because the Act removed the framework for regional strategies meaning that no further regional strategies can be created. The Government will expect local authorities to plan for strategic matters, including accommodation for Gypsies and Travellers, in their Local Plans. Through this process, local authorities will have to justify their policies for traveller site provision using robust evidence that will be tested at the Local Plan examination. However, it will not be clear if the circulars were left in place that local authorities should set targets as part of their decisions on the right level of provision in their areas. The new policy, therefore, asks local authorities to set targets based on their evidence of need and to bring forward land in their plans to meet these."

21. Under the Freedom of Information Act, please supply burglary, assault, theft, disturbance, illegal incursion, damage and arrest data relating specifically to Travellers of 'No Fixed' address immediately following their arrival up to and including their eviction.

22. Under the Freedom of Information Act, please provide all Environmental Agency data relating to the treatment of Travellers waste during and after their occupation and specifically how a fixed site (providing basic sanitation & waste collection) will prevent illegally fly tipped builders waste all over the surrounding area. (See reports for all prior illegal incursions).

23. How has the London Borough of Croydon involved its Community in the planning of the Coombe Farm and Coombe Gardens Traveller Sites? What opportunity was given by Croydon Council for the local residents to put forward their own ideas and participate in the development of the Sites? See - London Borough of Croydon's "Statement of Community Involvement - October 2012"

(<https://www.croydon.gov.uk/sites/default/files/articles/downloads/involvement-oct12.pdf>) Reference 2.11 & 2.12 - these Guidance Rules have been ignored

24. In the restrictive Covenants for Coombe Farm, (defined as 80 Oaks Road) which are for "the Settlers and their successors in title" states "No part of the Property shall be used for any offensive noisy, dangerous pursuit or occupation or for any purpose which shall or may be grow

to be in any way a nuisance damage grievance or annoyance to neighbouring properties or the neighbourhood."  
 25. There is no pavement access to either of the proposed sites therefore most travel to and from these sites to local amenities, (shops/schools) would be by vehicle – causing even greater traffic problems to the Coombe and Oaks Road junction.  
 26. If these proposals go ahead will the council be offering 'blight' compensation to all of the affected local residents and businesses?  
 27. Will the travellers be required to pay council tax, rent, gas, electricity, and all other charges?  
 I look forward to your response to the above questions/concerns.

3042/01/002/DM44.2/O	Sarah Stone	Object	Soundness - Justified	DM44.2 661	<p>I am writing to protest in the strongest possible terms to the council's proposals to create traveller sites at Coombe Lodge Nurseries and Coombe Farm.</p> <p>As you know, both of these sites are in the green belt, with one of them bordering a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, states: "Traveller sites (temporary or permanent) in the green belt are inappropriate development."</p> <p>The areas of Coombe Lodge Nurseries and Coombe Farm are not wasteland nor are they brownfield sites (as the current travellers' encampment in Croydon is). Instead, they are precious stretches of green land well loved and well used by Croydon residents for sports and leisure activities. They also provide an invaluable habitat for wildlife, including deer.</p> <p>I urge you to reconsider and will be continuing to campaign against this entirely inappropriate plan which will result in the desecration of two of Croydon's valuable green spaces.</p>	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. 3043/01/007/DM44.2/O	Sarah Stenning	Object	DM44.2 661	The use of Pear Tree Farm and Pear Tree Farm Cottage on Featherbed Lane as a location for a Gypsy/traveller site. (reference number 755) You know that this is Greenbelt Land. It is not appropriate for a site to be placed there particularly as you are planning to make it larger in the future and it has no local amenities close by; No transport links and already there is a vast amount of fly tipping in that area, which is a site of natural beauty with a scout camp nearby. Look at Policy E of planning policy for traveller sites published by the government which states that it is inappropriate development whether temporary or permanent. In all these areas I believe you should be looking at brownfield sites and not greenbelt, let us protect the little greenbelt we have left.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

3046/01/007/DM44.2/O	Stephanie Lawson	Object	DM44.2 661	I strongly object to this policy and the plan to create a traveller site at this location as it is a greenbelt site and not appropriate for this purpose, as per Policy E of "Planning Policy for Traveller Sites".	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
3068/01/001/DM44.2/O	Laura Doughty	Object	DM44.2 661	I believe this is inappropriate use of a green belt site. Brown field sites are better suited to this purpose. In addition government policy states green belt sites are 'inappropriate' for development.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

3070/01/005/DM44.2/O	Christine Denney	Object	Soundness - Consistent with National	DM44.2 661	I should like to protest against the site chosen for gypsy camps and a new secondary school being built on green belt. There must be better sites for them as we must protect our green belt sites.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
3074/01/003/DM44.2/O	Christine Younger	Object		DM44.2 661	I strongly object to this council building or using Green Belt sites for this and any other purpose. Also high rise flats will upset the balance of the areas. I do accept that we need more housing but these should be build on existing empty or land filled sites.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
3075/01/004/DM44.2/O	Mr Christopher Andrews	Object		DM44.2 661	Government planning Policy is clear that Traveler Sites are inappropriate developments within a green belt. The plan to create a Traveler Site is not in accordance with Government policy and should not therefore be under consideration.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
3077/01/003/DM44.2/O	Mrs Clare Gardner	Object	Soundness - Consistent with National	DM44.2 661	I am writing to object to:  1.The use of the following locations as gypsy and traveller sites:  •Coombe Lodge Nurseries off Conduit Lane, site reference 661; •Coombe Farm off Oaks Road, site reference 502; •Pear Tree Farm and Pear Tree Farm Cottage on Featherbed Lane, site reference 755  as all these sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b.  (If the Council really needs to quadruple the number of gypsy/traveller sites in the borough they should look elsewhere, e.g., off the Purley Way where the existing site is).	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

3079/01/002/DM44.2/O	Mr John Kellas	Object	DM44.2 661	<p>The preferred approach would not be appropriate for Croydon to help us meet our Strategic Objectives set out in Section 3 due to the following reasons:</p> <p>1 Green Belt. The proposal to create a permanent traveller site on land designated as Green Belt land is contrary to Policy E of the DCLG "Planning policy for traveller sites" (August 2015) ("the Planning Policy")</p> <p>2 Access to amenities The site is well away from schools (particularly primary school provision), shops, doctors, dentists, etc., and clearly does not reflect the above aim, or facilitate regular school attendance.</p> <p>3 Adverse effect on neighbouring businesses and leisure facilities It would not be practicable to site a traveller site adjacent to the proposed new school in Coombe Road Playing Fields, since the combined effect of additional school and traveller traffic would be too much.</p>	An alternative and appropriate use of the Coombe Lodge Nursery site would be to use it for the school otherwise proposed for Coombe Road Playing Fields. To site the school on the playing fields is entirely inappropriate as it would eliminate a facility that is already used by other schools in the borough. If the school is built on the nursery site, the playing fields would be preserved for the new school's use and for other schools as at present.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
3080/01/010/DM44.2/O	Mr John Mills	Object	DM44.2 661	<p>I object to the use of the site for a gypsy and traveller site. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly: "Traveller sites (temporary or permanent) in the Green Belt are inappropriate development". The Council's approach is clearly in breach of that policy. All three sites are also some distance from public services and they are all in the same part of the borough (two are in Heathfield ward, one just over the border in Croham). Why has Heathfield been singled out in this way? If the Council really needs, as it claims, to quadruple the number of gypsy/traveller sites in the borough - which I would question - they should look elsewhere (for example, off the Purley Way where the existing site is).</p>		Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. 3083/01/003/DM44.2/O	Mr Edward Hart	Object	DM44.2 661	I wish to comment on the proposals for the following sites: Coombe Lodge Nurseries, Conduit Lane (site 661) The proposal to use these sites as gypsy and traveller sites does not comply with Policy SP2.7a and SP2.7b. Both sites are clearly isolated in respect of local services. Site 661 would be unsuitable for school use as it lacks access to nearby public transport. Both sites would be acceptable for residential development and at least would not be worse served than some other housing in the area.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
3084/01/003/DM44.2/O	Mrs Elaine Grant	Object	DM44.2 661	Site reference 661 - Coombe Lodge Nurseries off Conduit Lane and site reference 502 Coombe Farm off Oaks Road - both sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b The proposals conflict with policy. The proposed options does not achieve sustainable development as it will compromise the ability of future generations to sustain Green Belt and SSSI as well as Nature Conservation.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Both sites are also some distance from public services. If the Council really needs to quadruple the number of gypsy/traveller sites in Croydon why don't you develop the existing site at Purley Way? It is an outrage that our diminishing open spaces will be turned into Gypsy sites. Coombe Road is so busy. It is the link between Shirley, Addington, Forestdale, Warlingham, Selsdon etc to central Croydon. It does not need more traffic nor traveller sites on it. We should be trying to diminish traveller sites, not expanding them or using valuable land to allow for more. I currently work for the Department of Work and Pensions and we have a joint operation with the local Police and other local service providers in our area to reduce fraud, rubbish, fly tipping etc. and we have been very successful in concentrating our efforts on gypsy areas. I do not want that for Croydon, especially near to where I live and where my children will grow up. My husband has his own house removals business and the amount of families he is moving from Croydon to other areas in England is astonishing. Such development is in breach of Policy E of Planning Policy for Traveller Sites, which says that "Traveller Sites (temporary or permanent) in the Green Belt are inappropriate development". All three sites are also a considerable distance from public services. 3099/01/001/DM44.2/O	Gillian Custance	Object	DM44.2 661	I oppose to the site of Coombe Lodge Nurseries being used as a travellers' site for the following reasons. Coombe Gardens and café are an area of natural beauty an oasis in the Croydon area. They are our pride and joy not only visited by people who live in Croydon but by people who live outside the area. We, as Croydon residents, are very proud of them. They are a peaceful tranquil area to get refreshments and then followed by a walk around the picturesque gardens. If you allow a travellers' site to be built all this will change. The businesses in the area will suffer huge losses and probably even close down. I can understand the need for a permanent site but this is not the location. It will also have a detrimental affect on adjoining owners. I am asking you to walk around this site and imagine the changes it will bring to the elderly, children and families who value this area, gardens and café. The Plan makers have missed a big point that existing infrastructure cannot cope with the influx of additional population at such a fast pace. Also, it has to be planned over a few years. It should never be on a green belt/attached to a green belt sites as it is disastrous for the environment There are quite a few brownfield sites in Croydon. Those should be explored. What are the criteria behind selecting two sites within 1 mile of each other? The plan makers do not know the grass root situation. They have just assumed things without knowing the facts. This is a grave situation. There are quite a few public and independent schools in the nearby area. Building a new school will support the selsdon and nearby citizens. Besides we do not have a grammar school in Croydon. So it would be ideal if we build a grammar school in Croydon on one of the propsoed sites. --	--------	---------------	--	--------	--

The proposals to locate traveller sites at Coombe Farm, Ref 502 and Coombe Lodge Nurseries, Ref 661, are both inappropriate. As the Council acknowledges, both sites are in the Green Belt and one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly: "Traveller sites (temporary or permanent) in the Green Belt are inappropriate development".

The Council's approach is clearly in breach of that policy. Both sites are also some distance from public services. If the council really needs, as it claims, to quadruple the number of gypsy/traveller sites in the borough - which I would question - they should look elsewhere (for example, off the Purley Way where the existing site is).

The proposals to locate traveller sites at Coombe Farm, Ref 502 and Coombe Lodge Nurseries, Ref 661, if adopted, would compromise the ability of the current generation and future generations to enjoy these green spaces. Enjoyment of green spaces is a basic need of any community.

This is particularly relevant given the redevelopment of Croydon and the fact that many more people will be living in the centre of Croydon and will want and need to use these green spaces ("green lungs" of Croydon).

Companies looking to relocate businesses to Croydon do not only consider factors such as cost. Transport links and housing for staff - they also consider environmental factors. The damage to these two green spaces, which would inevitably arise should these proposals go ahead, would make Croydon a less attractive place to live in and would discourage businesses relocation to the area. This would reduce employment opportunities for Croydon's residents.

SP2.7 makes no mention of impact on the surroundings of the site or local residents. Accordingly, an additional criterion should be added as follows:

"f. Must be entirely acceptable in relation to its impact on nearby public spaces and residents and businesses in the area"

If this were included in the proposals, Ref. 502 Coombe Farm and Ref 661, Coombe Lodge Nurseries, would immediately be inappropriate. Coombe Farm is green belt land in Lloyd Park. Lloyd Park was left to the people of Croydon by the Lloyd Family. At present families enjoy the

open space, children play in the play area, joggers and walkers exercise, people walk their dogs sports are played, and families snack in the café. Coombe Lodge Nursery is by the lovely gardens of Coombe Wood with its popular tea room and wooded area.

The proposals RE 502 and ref 661 if implemented would not be in accordance with the Green Grid concept (reference green Spaces 6.15, 6.16) in that they would significantly damage these two valuable assets and discourage their use by the residents of Croydon. I note under the Plan: "Local Green Spaces which make a contribution to the borough's heritage value, visual character, recreational opportunities, tranquility, and amenity qualities will be protected and safeguarded. These proposals would have exactly the opposite effect.

I would make the following comments on the "Assessment and Selection of Sites for Gypsy and Travellers":

A) The scoring system does not reflect the importance of the preservation of Green Spaces and is inconsistent with the Green Grid concept.

B) For both sites the scoring appears highly subjective.

C) In particular for both sites the scores for "green space", "impact on local character", "privacy", and "local character" need to be reconsidered - they are all quite clearly wrong.

D) Site 502 is on a single track lane with very narrow access to Oaks Road. It would be practically inaccessible for large mobile homes. This fact is not reflected in the assessment.

E) for both sites "GB/MOL" is shown as amber and should therefore be minus 5 not plus 5.

F) The "social deprivation" criterion is illogical as pressures on local services apply equally across Croydon. If one was considering a large area such as a Country this would make sense; it makes no sense at the borough level. This criterion should be removed from the assessment.

I would recommend that this Assessment be reassessed by an independent party. I am sure that such a reassessment would indicate the unsuitability of these two sites.

I value Lloyd Park and Coombe Wood very highly, as, I am sure, do many other residents of Croydon. Lloyd Park and Coombe Wood are important and irreplaceable assets of our town, to be cherished. They should not be damaged by proceeding with these proposals.

3107/01/003/DM44.2/O	Dr Natasha Newlands	Object		DM44.2 661	I am writing regarding two proposed Traveller site developments at the Coombe Lodge Nurseries (661). I am concerned about these developments for a number of reasons: 1) The two sites are proposed to be in locations that are not in easy walking distance of everyday amenities such as shops, schools and health services. This will mean that the Travellers who move in to these sites will have to drive to use these services adding further burden to an already very congested main route in to Croydon, Coombe Road. 2) Local schools and health services are also already stretched in catering for the current local population. 3) I feel it is important to discuss these propositions with local residents as many are unaware of the plans; it may alter how residents and visitors use the park and also the developments are likely to have a significant impact on local businesses. 4) Coombe Farm is situated within Lloyd Park and any change in usage should comply with the conditions with which it was donated. 5) These sites are in Green Belt areas and government publications advise that Traveller sites in the Green Belt are inappropriate developments - Ref: Policy E of Planning Policy for Traveller Sites	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Not in line with government planning policy on the Green Belt.  
Detail:

- Government planning policy with regards to traveller sites wants to ensure that plan-making and decision-taking should protect Green Belt from inappropriate development.
- The proposal to create a permanent traveller site on land designated as Green Belt land is contrary to Policy E of the Planning Policy "Inappropriate development is harmful to the Green Belt and should not be approved, except in very special circumstances". There are no very special circumstances.
- The National Planning Policy Framework makes it clear that unmet housing need (including traveller sites) is unlikely to outweigh the harm to the Green Belt and other harm to constitute the "very special circumstances". Justifying inappropriate development on a site within the Green Belt.
- The local character description is clearly at odds with the proposal.
- The justification acknowledges the Green Belt issue, although insufficiently, but relies on the fact that there are existing structures. These are not in fact substantial, being glass houses - and could be said to be at least environmentally consistent with the Green Belt. But there is no very special circumstance justification proposed as required by the planning policies.
- Approving the proposal would set a precedent and open the surrounding areas to be subject to similar development. It is not in the community's interests to allow the erosion of the green spaces surrounding the community and we object to the impact this site could have on the environment and wildlife. The fact that this is a green belt area should be the end of the discussion. Green belt areas are designated as such, and should not be allowed to be disrupted when it is suitable for the Council. This opens up the area to manipulation, and is not in line with the character of the area. The current residents should be able to decide how they see the area being developed, and the current crisis around school places is much higher on the priority list. The needs of the majority of children and residents should not be swept aside. This is not a democratic outcome.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

3113/01/010/DM44.2/O	Mr Stuart Beaton	Object	DM44.2 661	<p>2.Traveller Sites/ Coombe Farm The proposal to use two locations in Shirley for traveller sites: Coombe Farm off Oaks Road (pages 449-450, reference number 502) and Coombe Lodge Nurseries off Conduit Lane (pages 468-469, reference number 661).</p> <p>My main objections are: Both sites are some distance from the nearest public services, making them inherently inappropriate locations for the purpose intended. Increased congestion in the adjacent, and rather narrow, local roads. In turn, this will result in increased pollution and accident black-spots. Both sites are in the Green Belt and one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, states: "Traveller sites (temporary or permanent) in the Green Belt are inappropriate development". If enacted, the Council would be in breach of that policy.</p> <p>Conclusion The proposals I have highlighted can only be viewed as negative. If adopted, they will increase the local population - and the density of that population - without providing any supporting infrastructure. The new residents from the planned apartment blocks and traveller sites will need additional public services such as schools, medical services and shops. Older residents will give way to young families who require greater social support, yet no additional resources are identified to help manage the changing demographic. Traffic congestion along already busy roads will increase, as will pollution and accident black-spots. The few remaining green spaces will disappear. Overall, the proposals signal a reduction in the quality of life for both the existing residents and the newcomer</p>	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. With reference to the above mentioned document, I am writing to strongly object to the following;  
The use of the following locations as gypsy/traveller sites:  
1. Coombe Farm off Oaks Road (reference no. 502)  
2. Coombe Lodge Nurseries off Conduit Lane (reference no. 661)  
The selection of these sites is clearly in breach of Policy E of the Planning Policy for Traveller Sites - published by Government in August 2015, which clearly states;  
"Traveller sites (temporary or permanent) in the green belt are in inappropriate development."  
Can you please confirm why the Council is considering the use of Green Belt sites over Brownfield sites?  
I live very close to the above mentioned sites and feel that this inappropriate development will destroy the local area and community. I have worked extremely hard to be able to afford to live in this area and would like the Council to re-consider their proposal.

I am writing to object to the use of the following locations as gypsy/traveller sites on Green Belt Land:  
•Coombe Lodge Nurseries off Conduit Lane reference number 661  
This site will very much change the character of the area and should be located on alternative disused industrial sites, not our precious green space.

When camped illegally near the hills, these people have shown no respect for local residents or our beautiful surroundings.  
The children sped across Addington Hills on electric scooters and cars making it very dangerous for families, dog walkers and their dogs who have made good use of this location for many years.  
The rubbish and excrement was abysmal.

The proposed locations of these sites will adversely affect the local businesses such as the Coombe Garden Café, as no doubt the parking bays will be in constant use by the travellers and not available to those people who frequently use the café but who have to drive to that location. It will make Conduit Lane and other local roads a hazard.  
The local schools are also not within walking distance of these sites and as there is very little public transport nearby this will put more pressure on the already overcrowded trams.

As someone who has lived in Shirley for 25 years and a frequent walker in our surrounding area I see these proposals changing our local environment for the worst.

Please, please, please do not proceed with these sites but find alternatives away from our precious green space.

3130/01/002/DM44.2/O	Mr Laurie King	Object	DM44.2 661	Gypsy / Traveller sites in Featherbed Lane and off Coombe Road / Conduit Lane / Oaks Lane - These areas are Green Belt so why would the Council consider these suitable for such developments when this contravenes the current legislation? Additionally, the areas currently have considerable residential and community leisure activities and facilities, so again why would the Council be wanting to destroy the environment to create these Gypsy/Traveller sites for persons of no fixed abode and who are temporary residents to the borough only. It strikes me that this is an imbalance of priorities over the current fixed residents of Croydon and a set of proposals that I object to most strongly. My view of the police has been very jaded since this incident. My son could have been killed in this crash. If the police are too frightened to patrol these sites, these people are above the law, I definitely do not want to see more sites in or around my local area, I feel very strongly about this. I basically do not agree with many of the plans listed in Gavins email. I do agree we need more housing but that is mainly because too many people are being let into the country in the first place, housing them all is not the answer as other amenities will not be able to cope even if we build more houses.</p>	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. I am writing to object to the use of the following locations as travellers / gypsy sites  
Coombe farm site (ref no 502)  
Coombe lodge nurseries (ref no 661)  
Both sites are in a beautiful green belt area which the public use a lot , I believe national guide lines do not agree with the use of green belt areas for these sites  
There are covenants which bind Croydon council to use the Lloyd park area only for recreational purposes which does not include these proposed sites  
The lane from busy oaks rd to Coombe farm is very narrow with pot holes and no pavements , the lighting is poor and obviously this area is not suitable for lots of heavy traffic and caravans  
The families who would live on these sites would have children and need to use the lane to get to all needs facilities such as shops schools buses and trams etc .  
There would be much coming and going along the narrow lane on to busy oaks rd and Coombe rd which are main thoroughfare to Croydon this all creates a dangerous situation  
Nearby is cedars school who use Lloyd park for rugby and other sports and this school is receiving more pupils in the future increasing the number of vehicle and people movement in the area of Lloyd park and the main roads to and from Croydon  
Large number of people use not only Lloyd park but also the nearby conduit lane these visitors need to park in conduit lane to go to Coombe woods and gardens and to the local cafe there  
School parties often visit these woods and have to use conduit lane and it would be crazy and dangerous to have gipsy travellers using this lane to get to a permanent site there  
All of us have seen the terrible mess that these travellers have created wherever they have been and the owner of Coombe farm has himself allowed rubbish accumulation on his land in Lloyd park which the public have had to complain about  
The Coombe farm and conduit lane areas are just not suitable for permanent gypsy travellers sites and the council should find more suitable areas with less problems

3140/01/003/DM44.2/O	Lisa Dinnick	Object		DM44.2 661	I live on the Forestdale Estate and thankfully our management committee via Gavin have advised us of the Councils plans to build three gypsy/traveller sites in the Green Belt. I totally agree with Gavin that these plans will completely change the character of parts of the borough, including where I live. As resident of Croydon and employee of Croydon Council I completely understand the need for more housing and I am looking forward to the regeneration taking place in the town centre over the next few years. However one of the reasons I love Croydon and continue to defend its negative reputation is the mix of 'city' feel and countryside. If the Council continue with these plans you will effect the character of the area and you will ultimately fail in your efforts to change peoples perception of Croydon. This is a totally inappropriate site. The site will disrupt the local cafe in Coombe gardens and also restrict parking for those who want to visit Coombe gardens. Whenever the travellers have illegally set up camp in this site they have left a lot of rubbish and litter behind. In our view these ill conceived proposals will change this area beyond recognition and take away that for which it is well known and valued. Please rethink, and do not continue with the proposed policies set out below and which can be found in your Local Plan: Policy DM44.2, Table 11.17, site 661 (p179). This is a greenbelt site, and it is not appropriate to put a traveller site here. I have seen first-hand in areas in and around parts of Chelmsford where large groups travellers have completely overwhelmed local businesses including bars &amp; restaurants and leisure facilities rendering them unusable by anyone else unconnected with the traveller community.</p> <p>On a couple of occasions recently we have seen Travellers illegally set up camp in Sunken Road next to Coombe lane tram stop. This road and the near surrounding areas become a 'no go ' area with mountains of rubbish dumped in the road and in Shirley hills. We see youths riding around on motorbikes in the parks and woods without helmets apparently unchecked by the local Police force. This coincides with a rise in thefts from Gardens and Sheds in the area, as well as an increase in unsolicited and sometimes aggressive doorstep sales techniques for various building or landscaping works.</p> <p>We are absolutely positive that this area cannot support a large community of people that will not assimilate, and actively distance themselves from the wider community in this area.</p>	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. 3199/01/004/DM44.2/O	Sheila Wicks	Object	DM44.2 661	It is inappropriate to put a Gypsy /Travellers Site here. Policy E of planning policy for travellers site published by government says quite clearly Travellers Site temporary or permanent in Green belt are inappropriate development. Even considering two sites right close to one another is unbelievable .It will kill the trade of the three restaurants close by to the proposed sites stone dead .The smaller restaurant is run by local people who have taken ages to build up their trade. Why not support instead of destroy local businesses? I know of another restaurant not far away who had travellers come into it demanding children's meals for many adults, manager hid and the staff were terrified and the police refused to come . I have seen a shopkeeper in Elmfield visibly upset by travellers coming in en-masse into a shop. Just recently Shortlands have had Travellers coming into shops wanting to change large money notes without buying anything and when the shopkeepers in a small row of shops asked the police for help, nothing . I remember the Sunken Road at the top of Gravel Hill when the Council had to foot the bill of a clean up when the Travellers went . I think the travellers should be housed on an open site where I have previously seen them live unofficially before - Purley Way	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. 3.the use of the following locations as gypsy/traveller sites:

- Coombe Farm off Oaks Road reference number 502;
- Coombe Lodge Nurseries off Conduit Lane reference number 661; and
- Pear Tree Farm and Pear Tree Farm Cottage on Featherbed Lane reference number 755;

As the Council acknowledges, all three of these sites are in the Green Belt and one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly:

“Traveller sites (temporary or permanent) in the Green Belt are inappropriate development”.

The Council's approach is clearly in breach of that policy. All three sites are also some distance from public services and they are all in the same part of the borough (two are in Heathfield ward, one just over the border in Croham). Why has Heathfield been singled out in this way? If the Council really needs, as it claims, to quadruple the number of gypsy/traveller sites in the borough - which I would question - they should look elsewhere (for example, off the Purley Way where the existing site is);

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

The Government's policy is I believe that traveller sites should not be located in the Green Belt, but that hardly needs stating, surely? The location in Green Belt should preclude all development per se apart from GDO rights to the few existing dwellings at Coombe Farm. The Conduit Lane site has been rejected in the past as unsuitable. Such erosion of the Green Belt runs wholly against the interests of the local community. It would set a precedent that can be used to further erode local and national planning policy. The impact would be more pronounced on both sites as the subject Group need mixed use sites. This is because they often run businesses from where they live. This issue is not addressed by the Consultation. Such a mixed use requirement is wholly inappropriate on both sites. Both sites are not deliverable now. Each would require the construction of a new access road as a minimum particularly to Coombe Farm. The construction of a two lane highway here with footpaths either side is bound to change the semi rural nature of this location as the existing access here is a narrow lane. A new access at Conduit Lane might be shorter but would put further pressure onto an already dangerous staggered junction with Oaks Road. This is again contrary to current policy. The Coombe Farm site is bound to require the application of more scarce resources into the maintenance of Lloyd Park if a large number of new residents are located onto its edge. This is a facility that serves the whole Borough, not just the surrounding area. Any impact here due to the development will affect adversely many in the Borough. Coombe Farm is not immediately available and as such again puts it outside Government policy. The proposal highlights the proximity to public transport at both sites. This is a consideration of low importance here as the subject socio economic group concerned are known to be infrequent users of public transport. It ignores however the clear lack of local facilities nearby. The lack of local facilities goes against the stated preference of the particular Group concerned to be within a short walk of everyday amenities. These circumstances will promote the use of personal vehicles which is against environmental policy. The proposal mentions only the number of pitches at each site. No account is taken of the number of people who might use each site due to the tight knit nature of the subject community. The number of residents may therefore result in overcrowding which will be difficult to control. This is detrimental to public health and so in breach of environmental

I am a Croydon resident and am writing to object to the use of the following locations as gypsy and traveller sites: Coombe Lodge Nurseries off Conduit Lane, site reference number 661, policy number DM44; and Coombe Farm off Oaks Road, site reference number 502, policy number DM43 Pear Tree Farm and Pear Tree Farm Cottage on Featherbed Lane, site reference number 755, policy number DM32. All three sites are in the Green Belt, with one bordering a site of Nature Conservation. The proposed use of each of these sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b and would not be consistent with Policy E of 'Planning Policy for Traveller Sites' published by the Government. If additional sites are required in the Borough it would more appropriate to expand existing sites e.g. the site off the Purley Way or by smaller developments on the Croydon Airport site which is currently wasteland. In addition none of the sites has easy access to local school, healthcare, retail and other amenities; the vehicular access into sites 661 and 502 is problematic and egress onto Coombe Lane/Oaks Road at the road junction is likely to create additional road hazards. The current road traffic on Coombe Road is heavy and this will only serve to add to the congestion.

Finally, the Council has identified two locations on the edge of Shirley for gypsy/traveller sites:  
•Coombe Farm off Oaks Road, which is identified as suitable for 15-20 pitches (pages 449-450, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 502); and  
•Coombe Lodge Nurseries off Conduit Lane, which is identified as suitable for 15-25 pitches (pages 468-469, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 661).  
I vigorously object to the use of either of these locations as gypsy/traveller sites. As you have to be aware, they are both in the Green Belt and one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly:

“Traveller sites (temporary or permanent) in the Green Belt are inappropriate development”.

The Council’s approach is blatantly in breach of that policy. Both sites are a considerable distance from public services. If the Council really needs, as it claims, to quadruple the number of gypsy/traveller sites in the borough - which I would question – there must be more suitable sites which are closer to local amenities (there is nothing in the way of shops or even a bus-stop at these sites, necessitating extra vehicular traffic on an already busy road at best or pedestrians attempting to cross at a very dangerous point with blind bends and junctions at worst). There have to be sites which are not in Green Belt land, perhaps even sites which already exist and could be expanded (such as the one on Purley Way).

If planning permission carries with it a responsibility to improve the look of the place from Featherbed Lane, great. However, I doubt it can. What is needed here is a tidy up, not an increase in the mess.</p> <p>I suspect the Council has a duty to provide a site. Therefore, the proposed allocation will be deleted and an alternative site found.	

This is a greenbelt site, and I am strongly opposed to this proposal as it is not appropriate to put a traveller site here. Many local residents, myself included, frequently visit Coombe Wood and Gardens, as well as the very popular Coach House Café. Having a Traveller site within striking distance of these beautiful green spaces will undoubtedly stop people visiting. Additionally, and based on my previous experience with Travellers, they fly tip and pollute sites they use. I doubt that this will be any different if the site is permanently allocated to them. Another reason for my objection is that I frequently walk with my dog along the famous Vanguard Way, which passes through Conduit Lane. I would not feel safe to do this were the Travellers allocated the site, and I imagine that it would put many other walkers and horse-riders off using this path. I also wonder if this historic route will be passable given proposed changes. Policy E of "Planning Policy for Traveller Sites", published by the Government in August, says very clearly: "Traveller sites (temporary or permanent) in the Green Belt are inappropriate development".

The Policies laid out on the Mayor of London - London Assembly website, and Policy 7.17 clearly states that the Mayor's office truly supports the protection of Metropolitan Open Land, and indeed states that "The strongest protection should be given to London's MOL and inappropriate development refused. The Policy lays out what needs to be established to designate an area as MOL, but does not make it clear how a Council can re-designate an area. I therefore object to any permanent Traveller site being constructed on MOL and especially if the area is simply going to be re-designated without any consultation with the local residents and businesses.

I object strongly that Croydon Council can re-designate Metropolitan Open Land or Green Belt land to suit their needs to accommodate a permanent pitch. I cannot see any Planning justification to change the designation, nor for the intrusion into the lives of the residents of Oaks Road and surrounding area. This will massively affect the urban attractiveness of the area and have both emotional and financial repercussions on many lives. Policy 7.18 relating to Protection of Open Spaces clearly states that open spaces in London must be protected, and any loss must be resisted. I cannot believe the Council would want to go against both of these policies laid down by The London Assembly.

I am a member of Shirley Park Golf Club, which not only provides sport and social activities to over 700 members in the local vicinity, but also provides an important ecological role in the area. The proposed site of Coombe Farm as a site for Gypsies and Travellers has come as a shock to everyone in the area, as borne out by the recent press coverage and attendance at the Consultation Meetings.

The history of unauthorised "pitches" in this area over the past few years has left a bitter resentment,

especially in view of the residual mess and threatening behaviour that has always accompanied their trespass. On each occasion that Gypsies/Travellers have been in the area, the club members here have been threatened with physical and verbal abuse. This behaviour is totally unacceptable and despite the subsequent eviction of the Travellers on each occasion, the residual psychological effect on tax payers and constituents' lives cannot be trivialised.

I personally have experienced dreadful behaviour from the travellers. They have damaged the greens, used the golf bunkers as toilets, damaged course furniture & stolen equipment.

We also have a large Junior Section and children play the course during holidays as well as weekends. They are often unaccompanied and the parents need to know they are in a safe environment. This would certainly not be the case in the parents' minds if there was any chance of aggressive behaviour, as previously experienced, towards these children. I am certain that you would not wish to be responsible for putting children in any sort of potentially dangerous situation.

Surely these detailed real issues must be taken into account when determining any permanent site. I understand that the proposed sites are not within the required distance to both schooling and medical needs, therefore I also object on that basis. The land is in private ownership at Coombe Farm, and any funds spent on "compulsory or otherwise" purchase could surely be spent more wisely on behalf of the population of Croydon. No doubt Central Grants will be available, but Council owned land in an area that will not radically impact on established residents' lives would be a sensible and prudent choice.

Finally, and by no means least, I am extremely concerned by the possible establishment of Gypsy/Traveller sites in general and specifically on Conduit Lane. Policy DM44.2, Table 11.17, site 661 (p179). The council plans to create a Gypsy/Traveller site here. This is a greenbelt site, and it is not appropriate to put a traveller site here. Policy E of "Planning Policy for Traveller Sites", published by the Government in August, says very clearly: "Traveller sites (temporary or permanent) in the Green Belt are inappropriate development". Apart from the loss of yet more green belt I believe this would be folly of the highest order at so many levels it simply does not bear thinking about. This proposal should absolutely not be allowed to go forward.

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

I am writing to object to the use of the following locations as gypsy and traveller sites:  
 Coombe Lodge Nurseries off Conduit Lane, site reference 661;  
 Coombe Farm off Oaks Road, site reference 502;  
 as both sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b;

I additionally comment that:

- The proposals are detrimental to the Amenities of Adjoining Owners
- Development is on Green Belt and would therefore require a change of land use
- The proposed Sites should be on Brownfield or Industrial Land not Green Belt
- There is an imbalance, with all sites being proposed in the South of Croydon
- Existing sites could/ should be expanded
- If a new site is to be developed for the travelling community, I would express a preference is for Pear Tree Farm & Pear Tree Farm Cottage, Featherbed Lane. This already virtually developed to the point where there would be no further detriment if the site were to be developed. However, there is no proposal as to where the existing activity would be relocated to.
- The Pear Tree Cottage/ Farm site, provides ample space for all or most to the 39 additional pitches. Any remaining pitches could be located at other, brownfield, sites within the borough.
- If the nurseries site is to be redeveloped, it would be far better for this to be used for the relocation of a school, thus freeing up land elsewhere in the borough for housing.
- The travelling community are by definition mobile whereas the proposed development(s) are permanent and in built form. This is contradictory and may suggest that the council is considering further redevelopment at some future point. If so, the council should either be open about this or unequivocally deny it.

Other Sites that the Council should reconsider instead of both Coombe Lodge Nurseries and Coombe Farm are the following:

- 518 - Land adjacent to 103 Goodenough Way, The Admirals Walk, Old Coulsdon
- 536 - Land of former Croydon Airport runway, south of Imperial Way, Waddon
- 552 - Land adjacent to Ashburton playing fields at rear of 2-88

I am writing to object to the use of the following locations as gypsy and traveller sites:  
 Coombe Lodge Nurseries off Conduit Lane, site reference 661;  
 Coombe Farm off Oaks Road, site reference 502;  
 as both sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b;

No change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

I believe there is also some question about whether the areas being proposed for the traveller sites can be used for this purpose due to a Government policy that states traveller sites (temporary or permanent) in the Green Belt are inappropriate development. As a resident of Shirley for the past 7 years I would be extremely disappointed to see any of these proposed developments come to fruition. Third, the Council has identified two locations on the edge of Shirley for gypsy/traveller sites:  
•Coombe Farm off Oaks Road, which is identified as suitable for 15-20 pitches (pages 449-450, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 502); and  
•Coombe Lodge Nurseries off Conduit Lane, which is identified as suitable for 15-25 pitches (pages 468-469, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 661).  
I will be objecting to the use of either of these locations as gypsy/traveller sites. The Council's approach is clearly in breach of that policy. Both sites are also some distance from public services. The purpose of Green Belt legislation has always been to preserve areas of amenity land for the benefit of local people, and other potential users, against any form of building development. I therefore consider it totally unacceptable, indeed absolutely incredible, that the Council would even consider designating areas of the Green Belt for potential gypsy/traveller sites, as the Plan proposes for Coombe Farm, Coombe Lodge Nurseries and 2 sites on Featherbed Lane. The Coombe Lodge Nurseries site is especially inappropriate as it is very adjacent to Coombe Gardens, an important local amenity, and to the land along Conduit Land that has strong conservation value.

- 1 The area has already suffered from illegal camps on several occasions
- 2 The illegal camps have deposited substantial rubbish , including human waste, on each occasion
- 3 The camps have been noisy and disruptive and thefts have occurred from my garden shed whilst the travellers were in occupation
- 4 This area is Metropolitan Open Land and/or Green Belt and as such is protected from the proposed development. Such proposals are against planning policy at both local and national level
- 5 Coombe Farm is a listed building and the proposed development would be entirely detrimental to its setting even if not actually within its curtilage
- 6 Coombe Farm is within the panoramic view of Addington Hills which is subject to local planning policies
- 7 All land in the are subject to covenants over the freehold titles set by the Garwood family which prohibit the proposed development
- 8 There is little or no public transport provision, no shopping or schools within any reasonable distance of the sites. These are major requirement for any traveller settlement proposal in government guidance and policy
- 9 Why are no brownfield sites proposed which would be far more suitable, comply with planning policies and offer the amenities which are required to support the community of travellers
- 10 What are the findings of an Equality Impact Assessment - which must have been carried out - comparing the alleged benefits to the travelling community and the residents of the area. Have similar assessments been carried out and published on suitable brownfield sites.
- 11 Why has Heathfield Ward been selected as the location for two proposed sites when it is on the fringes of Croydon with little amenity provision suitable to support the traveller sites
- 12 The Local Plan sets no description of the council's statutory duties towards travellers. Do these proposals exceed the statutory responsibility and, if so, what are the council's reasons since none has been provided in the plan or in any consultations. Given the funding cuts leading to threatened reductions in services to residents and tax payers has the council carried out any consultations or sought the views of residents as to the priority to be given to the provision of travellers' sites?
- 13 The council admits that the sites will not deter other illegal

encampments. What measures have been considered to protect vulnerable sites in the area from incursion by travellers if/when the site are full

14 The area has a population of protected wildlife including deer, badgers, owls as well as an abundance of other wildlife. No measures are proposed to minimise the effect of the proposed developments nor any mitigation measures

15 Traffic in the area is already substantial. The junctions at both ends of Oaks Road are congested at peak times and are dangerous for pedestrians at all times. The proposed sites will increase the existing problems

16 Little or no consideration has been given in the plan to the protection of local amenity and the local environment quite apart from the other deviations from or contravention of local and national planning policy

17 It is clear from the plan that the council has ignored many alternative and more suitable sites which do comply with local and national planning policies and do not infringe on Green Belt Land. The proposals are illogical, counter to any tenets of sustainable development and appear to be prejudiced against a single ward - as no other options for location of the sites have been explored or have been dismissed without reason.

Site 661, Coombe Lodge Nurseries, Conduit lane. Transition Town have expressed an interest in restoring this site to a proper nursery facility, utilising the existing greenhouses for the growing of food, which would be a sustainable and appropriate activity within this green belt site.

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

All three sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b.

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Furthermore, Policy E of 'Planning Policy for Traveller Sites', published by the Government in August, states very clearly that 'Traveller sites (temporary or permanent) in the Green Belt are inappropriate development'. The provision relating to travellers/gypsies in the Housing and Planning Bill will also remove sections 225 and 226 of the Housing Act 2004 which placed a duty on housing authorities to carry out an assessment of the accommodation needs of this group when reviewing housing conditions and needs within their areas (a process required by section 8 of the Housing Act 1985). Section 8 will also be amended to make it clear that the duty covers consideration of the needs of people residing in, or resorting to the district for, caravan sites and houseboat mooring sites.

I am also concerned by the evidence base for these selections, namely the 'Assessment and Selection of Sites for Gypsy and Travellers'. This assessment contains a vast number of very subjective criteria against which to judge site suitability and has been the subject of 'extensive political consultation'. This political consultation has only taken place with the Labour Administration and has not been conducted on a cross party basis. This begs the question as to what undue political influence may have been placed on the particular criteria which have been used and indeed the selection of the preferred sites. There is also some question as to why the same scoring system has not been used for each set of criteria, rather than subjectively giving weight to certain criteria. Furthermore, the scoring for individual sites has not been carried out in accordance with the table shown at 4.1. A number of sites have been marked incorrectly, for example, site 661 has been scored at 5 for Greenbelt/MOL, when the score should be -5. This begs the question as to how many other inaccuracies are in the document

3437/01/004/DM44.2/O	Mr & Mrs McAvoy	Object	DM44.2 661	<p>We object to the use of the following locations in Green Belt areas as travellers/gypsy sites: Coombe Farm off Oaks Road (15-20 pitches); Coombe Lodge Nurseries off Conduit Lane (15-20 pitches); Pear Tree Farm on Featherbed Lane (15-20 pitches). National guidelines clearly state 'Travellers Sites (temporary or permanent) in the Green Belt are inappropriate development'. The Council's proposals, therefore, clearly breach such guidelines. Also, we question the Council's assertion that it needs to quadruple the number of travellers/gypsy sites in the Borough. Apart from this major objection, the above sites identified for such use would have: poor access via narrow roads/lanes for large vehicles; consequent impact upon local traffic congestion with movements of large vehicles; no safe paved walking routes to schools, shops, doctors, etc.; additional requirement for services and facilities for hygienic occupation; increased pressure on local schools, medical facilities, waste disposal, etc.; impact upon local facilities and amenities of current residents.</p>	Change	<p>This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. I have heard of Croydon Councils proposals for Traveller sites within the borough. I understand that "favoured sites" are Conduit Lane, Coombe Farm and Featherbed Lane. As a resident of Croydon, I am extremely concerned that this green belt area is being considered for use as residence. Addington hills and Coombe woods are an area of outstanding beauty and home to the largest area of heathland in London. Locating Traveller's encampments sites right on the doorstep of this green belt area would undoubtedly have dire consequences for flora, fauna, the natural habitat and wildlife as a whole, leading to irreversible damage. Please could Croydon Council reconsider this issue and please consider not going ahead with this proposal. The consequences to the natural environment and the delicate socio-ecological balance that currently exists would be damaged permanently with travellers' communities housed in a wildlife locality. There are better options to house people in Croydon and right in the middle of a green belt area which the residents of Croydon hold a lot of regard and pride for is not one of them. I would strongly advocate considering urban areas of the borough which are fit for housing - such proposals must not be made or favoured without a thorough ecological and environmental impact assessment and evaluation. I am very concerned with this proposal also because Croydon Council is meant to work in partnership with the British Trust for Conservation (BTCV) and a regional office is located on the woodland premises. Scrapping this proposal is the right thing to do and the right thing for Croydon.
