This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

The proposal to develop Coombe Lodge Nurseries, Conduit Lane as a residential development for a Gypsy and travelers site does not fall within the Strategic Objectives because:-

Objective 2: This development will not Foster an environment where existing enterprise can prosper, but will reduce enterprise

Objective 4: This development will not reduce social, economic and environmental deprivation. It will not reduce unemployment, improve skills and education and improve environmental conditions, the development is not in keeping with the surrounding area.

Objective 5: This development is not high quality and will not enhance the borough's natural environment but will reduce the natural environment by turning a farm into a travelers housing site

Objective 7: This development will reduce the area as a safe, healthy and cohesive community.

Objective 10: This development will reduce the quality and accessibility of green space and nature.

This development will compromise the ability of future generations to meet their own needs. The development will change the outlook and community within the South Croydon area and future generation will suffer because of this. This proposed development of a travelers site within the Coombe Road area is not within keeping of the current development within this area. Shirley comprises of large semi and detached houses with large green areas. This development is in no way in keeping with out housing in the area.

Changing a green area to an area of residential housing will cause harm and reduce the outlook of the area and is not in keeping with the surrounding area. Building a travelers site will increase noise levels and ruin the character of the area and this development would overwhelm this green area. Paragraph 64 of the National Planning Policy Framework states that permission should be refused for development of poor design that fails to take the opportunities available for improving the character and quality of an area and the way it functions. This development would diminish the striking view of the area of Addington Hills and Coombe Farm area.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

3485/01/004/DM44.2/O	Mr Alnoor Visram	Object	DM44.2 661	<p>SP2.7 makes no mention of impacts on the surroundings of the site and nearby residents.</p> <p>Accordingly, an additional criterion should be added "f. Must be entirely acceptable in relation to its impact on nearby public spaces and residents and businesses in the area".</p> <p>If this were included the proposals ref 502, Coombe Farm, and Ref. 661, Coombe Lodge Nurseries, would immediately be seen to be inappropriate.</p> <p>Coombe Lodge Nursery is by the lovely gardens of Coombe Wood with its popular tea room and wooded area. Coombe Farm is green belt land in Lloyd Park, left to the people of Croydon by the Lloyd family and where families enjoy the open space, kids play in the play area, joggers, dog walkers and of other walkers exercise, spots are played, families snack in the café and everyone feels reasonably safe.</p>	Change	<p>This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.</p>
3487/01/002/DM44.2/O	Mr G von Gerard	Object	DM44.2 661	<p>I wish to register my objection to the proposed locations for traveller sites, namely Coombe Farm (Ref 502) and Coombe Lodge Nurseries (Ref 661) in the Local Plan proposals. These sites are in the Green Belt and, as the Government's policy (Policy E of Planning Policy for Traveller Sites) states, 'Traveller Sites (temporary or permanent) in the Green Belt are inappropriate development'.</p>	Change	<p>This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.</p>

Objections raised to the use of the following locations as Gypsy/Traveller sites:-

Coombe Farm off Oaks Road  
Reference Number 502  
Coombe Lodge Nurseries off Conduit Lane Reference Number 661

1. How has the London Borough of Croydon involved its Community in the planning of the Coombe Farm and Coombe Gardens Traveller Sites? What opportunity was given by Croydon Council for the local residents to put forward their own ideas and participate in the development of the Sites? See - London Borough of Croydon's "Statement of Community Involvement - October 2012" (<https://www.croydon.gov.uk/sites/default/files/articles/downloads/involvement-oct12.pdf>) Reference 2.11 & 2.12 - these Guidance Rules have been ignored

2. There is no pavement access to either of the proposed sites therefore most travel to and from these sites to local amenities, (shops/doctors/schools) would be by vehicle – causing even greater traffic problems to the Coombe and Oaks Road junction.

3. Residents call for an independent (i.e non-Labour) lead enquiry into the full extent Dr Anwar Ansari (owner of Coombe Farm, a proposed traveller site) has been able to influence Croydon Council specifically & Labour Government more broadly through financial bribery?

4, Under the freedom of information act, can you please confirm how planning applications Dr Anwar Ansari or a member of his family have submitted to Croydon Council and how many have been accepted/approved ( including those with conditions).

5, the restrictive Covenants for Coombe Farm, (defined as 80 Oaks Road) which are for "the Settlers and their successors in title" states "No part of the Property shall be used for any offensive noisy, dangerous pursuit or occupation or for any purpose which shall or may grow to be in any way a nuisance damage grievance or annoyance to neighbouring properties or the neighbourhood."

Quote from the 2011 Localism Act; "Through the Localism Act, the Government has abolished the Standards Board regime. Instead, local authorities will draw up their own codes, and it will become a criminal offence for councillors to deliberately withhold or misrepresent a financial interest. "

Tens of thousands of pounds including cash equivalent goods &

3495/01/009/DM44.2/O	Mr Ian Harris	Object	DM44.2 661	<p>I would also ask: Why are the two sites in very close proximity to one another being proposed? What is the rationale for creating an imbalance across the borough with all sites being proposed in the South of Croydon? Why not expand the existing Permanent Gypsy Site in Lathams Way off Beddington Farm Road? If one has to select one of the proposed sites, the preference is for Pear Tree Farm &amp; Pear Tree Farm Cottage, Featherbed Lane</p>	Change	<p>This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.</p>
3496/01/007/DM44.2/O	Mr Ian Leggatt	Object	DM44.2 661	<p>This site is in Green Belt and to create a Traveller site here constitutes 'Inappropriate Development' in contravention of Policy E of the Governments Planning Policy for Traveller Sites. I object to the proposal.</p>	Change	<p>This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.</p>

3497/01/001/DM44.2/C	Mr Ian Enlgeback		DM44.2 661	I am writing to object to the use of the following locations as gypsy/traveller sites at Coombe Lodge Nurseries off Conduit Lane (reference number 661). These locations are designated Green Belt and close to sites of Nature Conservation Interest, allocation of such land to gypsy/traveller sites is in contradiction to established government policy as laid out in Planning Policy for Traveller Sites (Policy E).	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
3505/01/001/DM44.2/O	Mr Terry Coleman	Object	DM44.2 661	My objections to the proposed traveller site - plan ref: 661. 1) Close proximity to Coombe Wood Gardens and also the access point to the Vanguard Way nature trail. 2) Close proximity to three prestige eating establishments: Chateau, Coach House Café and Coombe Lodge ( which is also an hotel) 3) The proposed site is not suitable for residential purpose, there is no proper access Road.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
3507/01/003/DM44.2/O	Mrs Jolanta Berry	Object	DM44.2 661	It has come to my attention, that the Council is currently considering to change the designation of areas of Green Belt and Metropolitan Open Land, in particular, that of Coombe Farm off Oaks Road, and Coombe Lodge Nurseries off Conduit Lane.  I am most surprised and disappointed, that people within the Council who have been employed to represent and implement the views and wishes of local residents, are pursuing such ideas.  I am very strongly objecting to the idea, and ask you to withdraw the proposals. They will have a detrimental effect on the quality of life for the local residents, and will forever change the character of the area for the worse.  I would ask you to withdraw any plans to change the current status, and to confirm in writing, that my objection and representation has been received, and will be given a due attention. As I understand, a large majority of residents are opposing the idea and expect that you will respect their wishes and views.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

3508/01/003/DM44.2/O	Jennifer Worstall	Object	DM44.2 661	I urge the Council to re-consider allowing traveller sites in the former Croydon nursery in Coombe Woods and at Coombe farm in Lloyd Park – both unsuitable sites, as they are not near amenities such as shops/schools etc which travellers may need to access. The A23 offers a better location for these traveller sites and has better road access too.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
3510/01/012/DM44.2/O	Katrina Neal	Object	DM44.2 661	I most virulently object against the proposal for gypsy traveller sites on Coombe Lodge Nurseries - Ref 661 . This is because I have been a victim of travellers and their general anti social behavior/culture/damage/ threatening behaviour in the past....most recently when they illegally took over property in Wickham Road (the old La Rijoca site) in 48 hours you cannot believe the damage they did and how awful it was..I will object to anything that is EVER planned to house them near anywhere I live	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
3511/01/003/DM44.2/O	Jenny Hayden	Object	DM44.2 661	Ref nos 502, and 661  I strongly object to the use of either of these sites for gypsy/traveller sites. They are both in the Green Belt and one of them borders a conservation site. Policy E of Planning Policy for Traveller sites, published by the Government in August, states unequivocally " Traveller site, temporary or permanent , in the Green Belt are inappropriate ." The Council's approach is clearly in breach of that policy. Both of these sites are some distance from public services. There is an existing site off the Purley Way, could this site not be increased ? The public services in this area are far better than by the other proposed sites	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

3514/01/008/DM44.2/O	Julia Sims	Object	DM44.2 661	<p>As a local affected resident, I am registering my comments and objections to the proposals as documented in the Croydon Local Plans CLP1.1 and CLP2.</p> <p>6 Proposed Policy DM43 Creation of Gypsy/Traveller sites at Coombe Farm, off Oaks Road, Coombe Lodge Nurseries, off Conduit Lane and Pear Tree Farm and Pear Tree Cottage, Featherbed Lane As a local affected resident, I am registering my comments and objections to the proposals as documented in the Croydon Local Plans CLP1.1 and CLP2.</p> <p>Policy DM43, reference Site 502 Coombe Farm reference Site 661 Coombe Lodge Nurseries and reference Site 755 Pear Tree Farm and Pear Tree Cottage. I object to the use of any of these locations for the creation of Gypsy/Traveller sites. All three locations are within the Green Belt and Coombe Farm is on a site of an Archaeological Priority Zone and contains an area of Nature Conservation Importance. Such development is in breach of Policy E of Planning Policy for Traveller Sites, which says that "Traveller Sites (temporary or permanent) in the Green Belt are inappropriate development". All three sites are also a considerable distance from public services. I believe that the proposal to create three new Gypsy/Traveller sites by 2017, and 39 by 2036 is extremely excessive and will have a significant adverse impact on the borough.</p>	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
3519/01/002/DM44.2/O	Mr G Brooks	Object	DM44.2 661	Both my wife and I formally wish to object to the councils proposals for development to the green belt at Coombe Lodge Nurseries and especially for the creation of Travellers sites to them.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
3523/01/007/DM44.2/O	Mr Mike Rice	Object	DM44.2 661	<p>Dear Sirs,</p> <p>With reference to the recently published 'Croydon Local Plan', as a resident of the past 25 years I give my views as follows:-</p> <p>Policy DM44.2, Table 11.17, site 661 (p179). Objection this is classed as Greenfield belt, refer to Policy E of "Planning Policy for Traveller Sites"..</p>	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Object Soundness - DM44.2  
Justified 661

I wish to voice my concerns regarding the following:

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

I totally object to any reduction of green space in the borough of Croydon in favour of development. I agree wholeheartedly with Garvin Barwell MP and wish to oppose any such plans. In particular, the idea of a travellers site at the suggested sites is preposterous.

There have been problems in this borough with 'travellers' for many years. To the extent that defences, barriers built up grass mounds, have been created to keep out such illegal encampments. Whilst what the Council are proposing is to legalise such sites, I have witnessed the conditions these areas have been left in when travellers have moved on, piles of rubbish including human waste and damaged the area! This has been a massive expense to the council over the years. Areas around Coombe Gardens and Lloyd park are much loved and used recreational areas for the people of Croydon and surrounding areas. A gypsy encampment would be a disaster!!

If there is an obligation for the council to provide facilities for travellers, any such area should be very carefully assessed and considered, taking into account all the attributes of the area and how such a camp would affect it. In this instance the suggested areas are totally inappropriate.

I object to the proposed sites of Coombe Lodge Nurseries 661, and Coombe Farm 502, being used as sites for gypsies and travellers because;

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

1. It will be detrimental to the amenities of adjoining owners.
2. It is inappropriate use of Green Belt Land. Sites that are located on the Green Belt are considered to be inappropriate for Traveller sites (temporary or permanent) and against Government Policy, "Planning policy for Traveller Sites," DCLG, August 2015.
3. There is a total lack of amenities close at hand.
4. There is insufficient Local Infrastructure to accommodate the plans.
5. The selection of Proposed Sites should have a bias towards Brownfield or Industrial Land, not Green Belt.
6. Imbalance across the borough with all Sites being Proposed in the South of Croydon.
7. Why not expand of the existing Site in Lathams Way, off Beddington Farm Road.
8. If one has to select one of the proposed Sites, the preference would be for Pear Tree Farm & Pear Tree Farm Cottage, Featherbed Lane.

Other Sites that the council should consider are:

1. 16 Heath Clark playing fields, Stafford Road, Waddon.
2. 120 Timebridge Community Centre, Field Way, New Addington.
3. 518 Land adjacent to 103 Goodenough Way, The Admirals Walk, Old Coulsdon.
4. 522 Wandle Road surface car park, Wandle Road, Croydon Opportunity Way.
5. 536 Land of former Croydon Airport Runway, south of Imperial Way, Waddon.
6. 552 Land adjacent to Ashburton playing fields, at rear of 2 - 88 Coleridge Road, Addiscombe.
7. 553 By Pavillion Playing Fields, Purley Way, Waddon.
8. 632 Land south of Threehalfpenny Woods, Kent Gate Way, Bridle Way, Addington.
9. 636 Land west of Timebridge Community Centre, Lodge Lane, Elmside, Addington.
10. 767 Cane Hill - south part, Hollymeoak Road / Portnalls Road Coulsdon

3530/01/002/DM44.2/O	Mr & Mrs Webb	Object		DM44.2 661	I wish to object to the gypsy and traveller site on Conduit Lane. For centuries parks and green spaces have been an important part of urban living where people can walk and relax. It would be a sad day if these open spaces were lost for ever. We have enjoyed open places and do not want to see them lost for future generations when with a bit of imagination brownfield sites could be considered ahead of the green belt. Future generations will not thank us for destroying their heritage , and character of their local community. We are aware of the need for housing but here in Sanderstead we have already seen a lot of development in recent years, and its character slowly being eroded.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
3539/01/003/DM44.2/O	Mary Norman	Object		DM44.2 661	I object to plans to de-designate the metropolitan open land on either side of Shirley Oaks Road and all around Shirley Oaks Village as it is Green Belt and precious open land. I also object to gypsy/travellers site Coombe Lodge Nurseries off Conduit Lane (Ref No. 661)), as they are both in the Green Belt and one of them borders a site of Nature Conservation interest. Policy E of Planning Policy for Travellers Sites published by the Government clearly states: 'Travellers sites (temporary or permanent) in the Green Belt are inappropriate development'. The Council is clearly in breach of that policy. Both sites are also some distance from public services. If the Council really needs, as it claims, to quadruple the number of gypsy/travellers sites in the borough - they should look elsewhere (for example, off the Purely Way where the existing site is).	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
3545/01/008/DM44.2/O	Linda Bevin	Object	Soundness - Justified	DM44.2 661	Conduit Lane is a greenbelt site, and it is not appropriate to build a traveller's site here. Policy E of "Planning Policy for Traveller Sites", published by the Government , says : "Traveller sites (temporary or permanent) in the Green Belt are inappropriate development".	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Object Soundness - DM44.2  
Justified 661

5.The use of the following locations as gypsy/traveller sites:

- Coombe Farm off Oaks Road; reference number 502; and
- Coombe Lodge Nurseries off Conduit Lane; reference number 661.

These are both in the Green Belt, where Policy E of Planning for Traveller Sites clearly says that "travellers sites (temporary or permanent) in the Green Belt are inappropriate development".

This is also likely to have a negative effect on the Site of nature conservation interest that one of the sites would border, and both sites are a distance from public services. It is also likely to create increased traffic problems in an area that is not best suited for such sites.

Consideration should be given to the refurbishment of the existing sites, or where this is not possible, alternative and more appropriate sites.

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

I have been a Croydon resident for many years (over 47), and have watched Croydon wax and wane. In all those years, Croydon has often been regarded as rather down at heel and a bit of a joke; it has been misrepresented in the media too many times in my view. Croydon remains a vital communications hub, which seems only recently to have been recognised. Given all the development in and around East Croydon station, your plan for these improvements is beginning to take shape. As we all know, London Victoria in 20 minutes, London Bridge in 20 minutes; not to mention the east/west Tramlink which has become so popular that TfL decided to grab it! Croydon's communications should be more widely acknowledged. You were elected on a ticket to not only improve Croydon for ALL its residents but also to preserve its assets such as the green belt and areas of special scientific interest. Imagine my dismay and great disappointment when I discovered in your proposal that you considered it perfectly legitimate to build on green belt – absolutely at odds with your manifesto. AND that you are prepared to ignore your promises in preserving Croydon's assets to the very people who elected you. How can the electorate trust you in the future, especially at the next council election, if you blatantly disregard your election pledges and set about to destroy the green spaces enjoyed by many of Croydon's residents? All green belt is part of Croydon's assets, it represents the lungs of Croydon, benefitting all and in many cases providing a haven for migratory birds as they stop-over en route and indeed other wild life whose habitat is likely to be destroyed/diminished if the green belt is built on. Altering the status of green belt or areas of special scientific interest enabling it to be built on does NOT alter the fact that once built on it will never revert to green belt and therefore will be lost (to Croydon and its electorate), forever. I would urge you to reconsider you proposals to destroy part of the green belt and to maintain the status of the open spaces as is. Croydon occupies a vast area and I am certain you could find suitable alternatives for the travellers which met their needs of access to public transport and retail amenities without destroying the green belt or areas of special scientific interest if you tried hard enough. I am sure you are aware that Government policy states "Traveller sites temporary or permanent in the Greenbelt are

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

inappropriate development "

3551/01/003/DM44.2/O	Mr & Mrs Halliday	Object	DM44.2 661	POLICY: Sites Proposed for Gypsy and Traveller Sites: Site Ref: Number 661, Site Ref: Number 502 REASONS FOR OBJECTING: 1.Increased Traffic Congestion 2.Detrimental to Amenities of Local Residents 3.Lack of Amenities in Area 4.Not suited for Green Belt Land 5.Preservation Of Green Belt is of Vital Importance 6.Lack of Sufficient Police Services 7.Insufficient Local Infrastructure to Accommodate such a Development 8.Proximity of Many Schools, Infant Nurseries and Restaurants	No change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
3552/01/003/DM44.2/O	Miss Lisa K Hall	Object	DM44.2 661	I write to object to:  •The use of the following locations as gypsy and traveller sites on the basis that both sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b: •Coombe Lodge Nurseries off Conduit Lane, site reference 661; •Coombe Farm off Oaks Road, site reference 502;	No change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
3559/01/005/DM44.2/O	Mr Michael Southwell	Object	DM44.2 661	Regarding the draft local plan I make the following objection- .DM44.2 To suggest a traveller site next to popular Council gardens in Coombe rd will affect considerably the enjoyment of the gardens by local residents.The proposed site is used at present for producing plants for council gardens.This seems utterly senseless and will lead to a loss of jobs locally.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
3561/01/013/DM44.2/O	Linda Hione	Object	DM44.2 661	Gypsy/Traveller site on Conduit Lane, next to Coombe Wood Gardens Policy DM44.2, Table 11.17, site 661 (p179). The council plans to create a Gypsy/Traveller site here. This is a greenbelt site, and it is not appropriate to put a traveller site here as "Traveller sites (temporary or permanent) in the Green Belt are inappropriate development".	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

3566/01/008/DM44.2/O	Maureen Wilcox	Object	Soundness - Justified DM44.2 661	<p>Happy for the Council to replace under-used garages with much-needed homes, but will be objecting to building on precious open space.</p> <p>Objecting to the use of either of these locations as gypsy/traveller sites. As the Council acknowledges, they are both in the Green Belt and one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly:</p> <p>Traveller sites (temporary or permanent) in the Green Belt are inappropriate development.</p> <p>The Council's approach is clearly in breach of that policy. Both sites are also some distance from public services.</p>	If the Council really needs, as it claims, to quadruple the number of gypsy/traveller sites in the borough - which I would question - they should look elsewhere (for example, off the Purley Way where the existing site is).	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
3568/01/003/DM44.2/O	Mr Mike Jones	Object	DM44.2 661	Why build gypsy encampments? They are travellers and should be encouraged to continue travelling. If such land is available then it should be for social or normal housing		Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
3570/01/003/DM44.2/O	Mr & Mrs Adams	Object	DM44.2 661	It is entirely inappropriate to consider creating Gypsy/Traveller sites in these locations. Not only are these greenbelt sites, they are also very close to residential areas and several schools. In August, the Government published "Planning Policy for Traveller Sites" in which Policy E states: "Traveller sites (temporary or permanent) in the Green Belt are inappropriate development".		Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
3574/01/003/DM44.2/O	Mr Peter Newsham	Object	DM44.2 661	<p>I am a resident of Shirley and I wish to register my objection in the strongest possible terms to proposed developments in Shirley and to add my voice to that of my MP, Mr Gavin Barwell, whose views on this matter I echo.</p> <p>The proposed Travellers' site, ref. 661, contravene present legislation because they are in the Green Belt and are therefore classed in Government documents as 'Inappropriate development'. Does the Council propose to break the law as well as ride roughshod over massive public objection to this plan?</p>		Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

3577/01/002/DM44.2/O	Mr Peter West	Object		DM44.2 661	I object to this site as we need space and sensible development that compliments the environment.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
3584/01/007/DM44.2/O	Mrs Margaret Lawless	Object		DM44.2 661	I list below the relevant policy References to which I object. Table 11.17 site 662 (p179)	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
3584/01/006/DM44.2/O	Mrs Margaret Lawless	Object		DM44.2 661	I list below the relevant policy References to which I object. DM44.2 Table 11.17 site 661 (p179)	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
3591/01/010/DM44.2/O	Mr Nick Barnes	Object	Soundness - Justified	DM44.2 661	Having read both local plans for the shirley area, I strongly object to all aspects in both plans, this includes the 750 new homes on Shirley Oaks Village, 35 new homes in Shrublands, the two gypsy sites at Combe Fram and Conduit Nursery and the development for up the four storeys along Wickham Raod.  None of these plans will benefit Shirley and I object to them all.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
3592/01/005/DM44.2/O	Nicola Shipp	Object		DM44.2 661	As a resident of Croydon all my life, I wish to register my opposition to the following "plans".... DM44. 2 SITE 661 – Coombe Woods Gardens, the site would be ruined if Travellers were allowed to have a permanent site in this lovely location. I have experienced the disgusting mess left behind by "Travellers" during my journey to work in Commerce Way, Croydon and the proposed Lidl site on the old BMW SITE, South Croydon.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

I wish to object to some of the proposals in the Croydon Local Plan as follows:

I object to the proposal (policy DM44.2 Table 11,17) to create a Gypsy/Traveller site on Conduit Lane next to Coombe Wood Gardens (site 661) and/or Coombe Farm (site 502). Policy E of "Planning Policy for Traveller Sites" published by the Government in August states that "Traveller sites (temporary or permanent) in the Green Belt are inappropriate development" This would not comply with Policy SP2.7a and SP2.7b Previous scenes from Traveller sites demonstrate that they end up as dump; not the sort of image we want to portray for Croydon.

I object to the proposed loss of Green Belt status for  
(1) Coombe Playing Fields - (site ref 662) and object to the proposal for development in Policy DM44.2 Table 11.17  
(2) Croham Hurst - this is a biological Site of Special Scientific Interest and a Site of Metropolitan Importance for Nature Conservation  
(3) Sanderstead Plantation  
The de-designation of these sites would not comply with Policy SP7.2 and protection of the green grid.

I object to the proposed loss of Local Area of Special Character protection for many roads such as West Hill, Campden and Spencer Roads, the Woodcote Estate and Hartley Farm. Loss of protection will open up these roads to inappropriate development. Roads, such as Oakwood Avenue in Purley should also be included as new Local Heritage Areas.

I object to the possible "Garden Grabbing" that policy DM2 will make much easier. National and London policy classifies gardens as green field, but the proposed new policy DM2 says that the Council will allow building on gardens. We need to keep our green spaces.

I also object to the proposed retail development of the old "Good Companions Pub" site in Hamsey Green, which the proposed policy DM4 1.3 table 11.14 (site 306) would allow. A retail outlet in such a location would cause traffic chaos. It will be far better to develop it as a residential site (with ample parking) and in character with other housing in the area - not a block of flats.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

On the question of parking; I note that some new developments do not seem to cater for this. Green Dragon House being a typical example. All new developments should provide for ample parking for residents and their families.

Please take the above comments into account when assessing the proposed Croydon Local Plan.

Yours faithfully

---

3697/01/001/DM44.2/O Ms J Colvert

Object Soundness - DM44.2  
Justified 661

I think it is important to state a case against the proposal to create a gypsy/traveller site on Conduit Lane which is at present, and has been for centuries, an unspoilt amenity for all who live in the borough.

Our national government has the right idea i.e.'Traveller sites (temporary or permanent) in the Green Belt are inappropriate development', so why is our local government even considering going against this policy ?

Certainly in this instance, the character of the area would be noticeably changed and adversely affect the lives of many, whilst not being a particularly convenient location for the travellers themselves.

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

---

Object	Soundness - Justified	DM44.2 661	All three sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b. I am concerned that all three sites are also some considerable walking distance away from GP practices, shops, schools, public transport and other local services which would be contrary to the Council's Health and Wellbeing Strategy.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
			<p>Furthermore, Policy E of 'Planning Policy for Traveller Sites', published by the Government in August, states very clearly that 'Traveller sites (temporary or permanent) in the Green Belt are inappropriate development'. The provision relating to travellers/gypsies in the Housing and Planning Bill will also remove sections 225 and 226 of the Housing Act 2004 which placed a duty on housing authorities to carry out an assessment of the accommodation needs of this group when reviewing housing conditions and needs within their areas (a process required by section 8 of the Housing Act 1985). Section 8 will also be amended to make it clear that the duty covers consideration of the needs of people residing in, or resorting to the district for, caravan sites and houseboat mooring sites.</p> <p>I am also concerned by the evidence base for these selections, namely the 'Assessment and Selection of Sites for Gypsy and Travellers'. This assessment contains a vast number of very subjective criteria against which to judge site suitability and has been the subject of 'extensive political consultation'. This political consultation has only taken place with the Labour Administration and has not been conducted on a cross party basis. This begs the question as to what undue political influence may have been placed on the particular criteria which have been used and indeed the selection of the preferred sites. There is also some question as to why the same scoring system has not been used for each set of criteria, rather than subjectively giving weight to certain criteria.</p> <p>Furthermore, the scoring for individual sites has not been carried out in accordance with the table shown at 4.1. A number of sites have been marked incorrectly, for example, site 661 has been scored at 5 for Greenbelt/MOL, when the score should be -5. This begs the question as to how many other inaccuracies are in the document</p>		

3699/01/046/DM44.2/C	Cllr J Cummings	Comment	Soundness - Effective	DM44.2 661	Site 661, Coombe Lodge Nurseries, Conduit lane. Transition Town have expressed an interest in restoring this site to a proper nursery facility, utilising the existing greenhouses for the growing of food, which would be a sustainable and appropriate activity within this green belt site.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
3700/01/002/DM44.2/O	Ms J Doran	Object	Soundness - Justified	DM44.2 661	<p>As a supplier to Oaks Farm I am objecting to the use of Coombe Lodge Nurseries as a Gypsy and Traveller site.</p> <p>The site is in Green Belt and is contrary to national policy that says that Gypsy and Traveller sites are inappropriate development in Green Belt.</p> <p>Coombe Park is a beautiful landscape park and contains many memorials to the war dead and would be completely overwhelmed by this enormous traveller development of up to 75 mobile homes.</p> <p>The huge amount of traffic going along Conduit Lane will make access to the park from the parking bays on the other side of the road much more difficult and dangerous.</p> <p>The size of the site will completely overwhelm the nearest settlement of residents on Coombe Road, Oaks Road and Oaks Lane.</p> <p>Local schools are oversubscribed and too far away.</p> <p>Several businesses which make a big contribution to the local economy and also provide much needed amenity to the public will be detrimentally affected by the site.</p>	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
3702/01/003/DM44.2/O	Ms J Fasham	Object		DM44.2 661	I object to the use of these locations as traveller sites, as they are both in green belt land and one of them borders a site of Nature Conservation interest, this is clearly in breach of policy E . Both sites are some distance from Public Services and the road here could not cope with more traffic.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

3704/01/005/DM44.2/C	Mrs J Horton		DM44.2 661	I wish to log my objection to the borough-wide planned changes Croydon Council are proposing to make in their Local Plans for 2016-2036. These proposals are 750 new homes in Shirley Oaks and 35 new homes on the Shrublands Estate. Also the proposed work to the two large gypsy/travellers site in Coombe Farm and the Conduit Nursery of Coombe Road.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
3705/01/003/DM44.2/O	Mr J Lemanski	Object	DM44.2 661	I would like you to note my strong objection to the granting of any Planning Application relating to the following Policy Ref. DM44.2, Table 11.17, Site 661.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
3708/01/007/DM44.2/O	Mrs J McDonald	Object	DM44.2 661	The council plans to create a Gypsy/Traveller site here. This is a greenbelt site, and it is not appropriate to put a traveller site here. Policy E of (Planning Policy for Traveller Sites), published by the Government in August, says very clearly: (Traveller sites (temporary or permanent) in the Green Belt are inappropriate development).	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
3712/01/008/DM44.2/O	Mr Nick Peiris	Object	DM44.2 661	Flouts existing Government guidelines published in August 2015.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
3715/01/008/DM44.2/O	Jenny Tighe	Object	DM44.2 661	would also like to object to the following applications for traveller sites. Application numbers: 502, 661 and 755. All three are in green belt land and therefore inappropriate developments and should not be allowed to go ahead.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

3720/01/003/DM44.2/O	Mr J Wilkinson <i>Jamar</i>	Object	DM44.2 661	I would like to object to these proposals in particular as they seriously impinge on The Green Belt. They would be inappropriate development and not comply with relevant Policy. They are both in the Green Belt and one of them borders a Site of Nature Conservation Interest. Where I live in The Ballards Farm Area there is a significant number of development proposals annually - mainly back garden development - all with negative implications for the valuable Green Belt. Croydon needs more not less. "Protecting the borough's open space and the (sic) distinctive heritage and character, alongside the necessary infrastructure to mitigate the impact of growth" is in everyone's long term interest.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
3723/01/009/DM44.2/O	Mrs j Middleton	Object	DM44.2 661	I object to the site for use for a gypsy and traveller site.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
3724/01/004/DM44.2/O	Mr Mike Marcroft	Object	DM44.2 661	Please do not allow the above to settle on Green Belt land. There must be other sites in the Borough that can be made available. Our Green Belt land is precious to us all.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
3728/01/004/DM44.2/O	Sarah McNamara	Object	DM44.2 661	I would just like to express my concern about Croydon Council's plans to build in these three Green Belt areas. I understand and appreciate the need for more homes across the borough but could you, again, consider using all the empty homes and office spaces instead of filling up beautiful and plentiful land?	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

3734/01/006/DM44.2/O	Mr & Mrs Mott	Object		DM44.2 661	I object to this site allocation.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
3735/01/011/DM44.2/O	Mr Tim Duce	Object	Soundness - Consistent with National	DM44.2 661	I strongly object to the building of gypsy traveller sites on Green Belt, especially as one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly: "Traveller sites (temporary or permanent) in the Green Belt are inappropriate development". Nature Conservation is indeed a very low priority to the travellers that I have seen. I voluntarily clear up the dumping at Addington Hills and have witnessed the appalling environmental destruction wreaked by visiting travellers. Cleaning up after their visits is a very costly exercise, so putting travellers close by a Conservation Site would be extremely foolhardy. Over the next few years, it would cost council tax payers a fortune.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

3739/01/002/DM44.2/O Mr Tom Tannion	Object	DM44.2 661	<p>I wish to register the strongest possible objection to the specific proposals in the Croydon Local Plan proposing a school or gypsy site at Conduit Lane, and a Gypsy site at Coombe Farm.</p> <p>Regarding Conduit Lane, clearly, Niccolo Machiavelli would have been proud of the tactic of proposing a gypsy site or a school there. Presumably, the thought was that people are gullible enough to believe that these are either / or proposals!! They are certainly as different as chalk and cheese. I consider both options to be unhelpful, inappropriate and out of keeping with the current use of the area. I am also generally surprised that they are considered viable options worthy of serious consideration as they appear random in nature and devoid of any real local knowledge.</p> <p>Regarding both gypsy site proposals, neither are in keeping with the existing 'texture' of the areas. They add nothing to the quality of life of local residents (quite the contrary) and generally they are so out of keeping with the current general use enjoyed by those neighbourhoods that one is left wondering how they even made it into a plan? Were the proposals drawn up by someone completely ignorant of the area?</p>	Change	<p>This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.</p>
3743/01/003/DM44.2/C Mr Bryan Baker		DM44.2 661	<p>SP2.7 makes no mention of impact on the surroundings of the site and nearby residents. Accordingly, an additional criterion should be added 'f. Must be entirely acceptable in relation to its impact on nearby public spaces and residents and businesses in the area.' If this were included the proposals Ref. 661, Coombe Lodge Nursery, would immediately be seen to be inappropriate. Coombe Lodge Nursery is by the lovely gardens of Coombe Wood with its popular tea room and wooded area. I consider both Coombe Farm and Coombe Lodge Nursery as wholly inappropriate places to locate</p>	Change	<p>This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.</p>

3744/02/008/DM44.2/O	Diane Simpson	Object	Soundness - Justified	DM44.2 661	<p>Happy for the Council to replace under-used garages with much-needed homes, but will be objecting to building on precious open space.</p> <p>Objecting to the use of either of these locations as gypsy/traveller sites. As the Council acknowledges, they are both in the Green Belt and one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly:</p> <p>Traveller sites (temporary or permanent) in the Green Belt are inappropriate development.</p> <p>The Council's approach is clearly in breach of that policy. Both sites are also some distance from public services.</p>	<p>If the Council really needs, as it claims, to quadruple the number of gypsy/traveller sites in the borough - which I would question - they should look elsewhere (for example, off the Purley Way where the existing site is).</p>	Change	<p>This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.</p>
3748/01/002/DM44.2/O	Juliet Stevenson	Object	Soundness - Justified	DM44.2 661	<p>I am objecting the the proposed sites - Coombe Lodge Nurseries, Coombe Farm, Pear Tree Farm - on the following grounds:</p> <p>It is an inappropriate use of Green Belt land and the proposals are contrary to the Government policy (Policy E of the Planning Policy for Traveller sites) which states that "Traveller Sites (temporary or permanent) in the Green Belt are inappropriate development"</p> <p>Selection of proposed sites should have a bias towards Brownfield or Industrial land not Green Belt</p> <p>It is detrimental to the amenities of the adjoining owners</p> <p>There is a lack of relevant amenities close at hand</p> <p>There is a lack of local infrastructure to accommodate the plans and additional traffic</p> <p>All the proposed sites are in the south of the borough with two being very close together</p> <p>There is already an existing permanent site in Lathams Way which could be expanded</p>	Change	<p>This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.</p>	

3749/01/002/DM44.2/O	Mr Michael Eldridge	Object	DM44.2 661	I am making representations against the proposed Travellers' sites at Coombe Lodge Nurseries, Conduit Lane, Coombe Road, South Croydon,, CR0 5RQ (Site reference number: 661) and at Coombe Farm, Oaks Road, Shirley, CR0 5HL ( Site reference number:502). Both these proposed sites are within the Green Belt and the proposals are contrary to Government policy (Policy E of Planning Policy for Traveller Sites) which states that 'Traveller sites (temporary or permanent) in the Green Belt are inappropriate development.' In addition the areas in question form a particularly precious 'green lung' not far from the centre of Croydon and any development would in my view be deleterious to this amenity. I cannot suggest alternative suggested sites but would prefer one that is not within Green Belt/Metropolitan Open land, of which I understand there are several in the Borough of Croydon.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
3750/01/007/DM44.2/O	Mrs Anne Turner	Object	DM44.2 661	I would like to put in writing my objections to the following local plans: I am listing the relevant Policy Numbers: 6. DM44.2, Table 11.17, site 661Conduit Lane - travellers	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

3753/01/004/DM44.2/O Moyra Ruffell	Object	DM44.2 661	<p>I am emailing you to express my concerns about Croydon Council's Plans to build Gypsy/Traveller sites in Green Belt areas.</p> <p>I understand that there is a great need for housing in the Croydon area and that the number of homeless people in Croydon is high. However, I need assurance that in providing this need we do not destroy our few remaining green spaces as these are vital to the well-being of our environment and people's health.</p> <p>When I received the information about these proposals from my MP and local residents' association I had been away from home and so have not studied these plans in depth. However, with the information I have I cannot visualize how these proposals would work without destroying the character of the Shirley area and the destruction of our few remaining green areas.</p> <p>In order for me to agree to these proposals I would not only require the assurance that these environmental issues were taken into account but the homes that are planned for were affordable to those who are in need of a home, and that they were of good quality, energy efficient homes. Finally, having lived in Shirley for many years I have seen the increase in traffic which has brought about an increase in air pollution which is detrimental to our health. This is another important factor that has to be borne in mind when increasing the density of the population of the area.</p>	Change	<p>This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.</p>
------------------------------------	--------	---------------	---	--------	--

---

3754/01/005/DM44.2/O Myra Rand	Object	DM44.2 661	<p>I fully oppose the proposals to build on green land, especially for travellers' sites.</p>	Change	<p>This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.</p>
--------------------------------	--------	---------------	---	--------	--

---

3756/01/002/DM44.2/O	Mr Neil Stevenson	Object	Soundness - Justified	DM44.2 661	<p>I am objecting the following proposed sites:</p> <ul style="list-style-type: none"> <li>•Coombe Lodge Nurseries (Site Reference Number 661)</li> <li>•Coombe Farm (Site Reference Number 502)</li> </ul> <p>The reasons for my objection are on the following grounds:</p> <p>It is an inappropriate use of Green Belt land and the proposals are contrary to the Government policy (Policy E of the Planning Policy for Traveller sites) which states that "Traveller Sites (temporary or permanent) in the Green Belt are inappropriate development"</p> <p>Selection of proposed sites should have a bias towards Brownfield or Industrial land not Green Belt</p> <p>It is detrimental to the amenities of the adjoining owners</p> <p>There is a lack of relevant amenities close at hand</p> <p>There is a lack of local infrastructure to accommodate the plans and additional traffic</p> <p>All the proposed sites are in the south of the borough with these two in particular being very close together</p> <p>There is already an existing permanent site in Lathams Way which could be expanded</p>	Change	<p>This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.</p>
3757/01/002/DM44.2/O	Kavinda Pelpola	Object	Soundness - Justified	DM44.2 661	<p>I live on Coombe Lane in Croydon and would like to formally object to the proposal to build traveller sites at Coombe Farm (off Oaks Road) and Coombe Lodge Nurseries off Conduit Lane. I believe these proposals will change the character of this area which I live in significantly for the worse. I also understand that the proposals are contrary to Government policy (Policy E of Planning Policy for Traveller Sites) which states that traveller sites, temporary or permanent, may not be built on Green Belt land.</p>	Change	<p>This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.</p>

Object Soundness - DM44.2  
Justified 661

1. This site is also in the green belt and according to Government Policy is deemed inappropriate.
2. Coombe Park which is a beautiful landscaped park and contains many memorials to war dead and families loved ones will be completely overwhelmed by this enormous traveller development for up to 75 mobile homes right next door.
3. The huge amount of traffic going along Conduit Lane will make access to the park from the parking bays on the other side of the road much more difficult and dangerous. These parking bays are used by the very young and the very old to give them easy and safe access to this beautiful public park.
4. Again the size of the site will totally overwhelm the nearest settlement of residents on Coombe Road, Oaks Road and Oaks Lane.
5. The closest schools are oversubscribed so would be unable to meet the needs of so many new children to the area.
6. The council has gone to great expense to protect the site from mobile travellers and this seems to have been a great waste of tax payers money if they now allow a permanent site.
7. Several businesses which make a big contribution to the local economy and also provide much needed amenity to the public will be detrimentally affected by the site.

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Not in line with Government planning policy on the Green Belt Detail:

- Government planning policy with regards to traveller sites wants to ensure that plan-making and decision-taking should protect Green Belt from inappropriate development.
- The proposal to create a permanent traveller site on land designated as Green Belt land is contrary to Policy E of the Planning Policy:

"Inappropriate development is harmful to the Green Belt and should not be approved, except in very special circumstances.". There are no very special circumstances.

- The National Planning Policy Framework makes it clear that unmet housing need (including for traveller sites) is unlikely to outweigh the harm to the Green Belt and other harm to constitute the "very special circumstances" justifying inappropriate development on a site within the Green Belt.
- The local character description is clearly at odds with the proposal.
- The justification acknowledges the Green Belt issue, though insufficiently, but relies on the fact that there are existing structures. These are not in fact substantial "being glasshouses" and could be said to be at least environmentally consistent with the Green Belt. But there is no very special circumstance justification proposed as required by Planning Policies.
- Approving the proposal would set a precedent and open the surrounding areas to be subject to similar development. It is not in the community's interests to allow the erosion of the green spaces surrounding the community and we object to the impact this site could have on the environment and wildlife. In the light of these issues, it is not appropriate simply to weight Green Belt as one of many factors to be considered, but rather it presents an overarching policy objection that cannot be over-ridden in the way proposed. To be considered deliverable, sites should be available now, offer a suitable location for development now and we do not believe that The Assessment and selection of sites for Gypsy and Travellers undertaken was credible. Plan makers have not considered the time it will take to commence development on site need for infrastructure improvements-roadsThere is basis for challenging the way in which this potential site has been selected.

Para 3.1: Green Belt sites included for review of eligible sites "to ensure that all locations for a site considered", but at the same time

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

"Exclusion of sites in Croydon Metropolitan Centre and within District Centres and Strategic Industrial Locations and Conservation Areas due to viability, deliverability and impact on heritage considerations". Is this even-handed? Para 4.1 sets out the criteria and weightings. As indicated above, Green Belt with no built form is given a weighting (-10) which, though high, is not very significant given that there are 29 or 30 criteria and can easily be outweighed by other factors that are less significant in policy terms. SP2.7 on the Council's proposals to deliver 39 additional gypsy and traveller sites indicates that land will be allocated in accordance with the proposals, but that any ADDITIONAL sites that are not so allocated should meet some stated criteria, including good access to local shops and essential services and good transport access; these seem to be criteria that were excluded from the proposed allocation, suggesting that any alternative proposals would need to meet stiffer criteria. Is this fair and even-handed? The bases for site criteria weightings are unclear. Note that paragraph 4.19 in referring to the need for good access to roads, states that "they often need to move larger vehicles as part of their livelihood and way of life"- this may be an assertion relevant to the assessment of sites and the narrowness of Coombe Lane. The objections may be summarized as:  
 -inappropriate use of Green Belt land  
 -lack of relevant amenities close to hand  
 -adverse effect on neighboring businesses and leisure amenities  
 -site has a more appropriate use for a school

3764/01/002/DM44.2/O	Mr & Mrs Chambers	Object	DM44.2 661	The proposed Traveller Sites are totally inappropriate developments for these Green Belt Areas. We strongly object to this part of the Croydon Plan.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
----------------------	-------------------	--------	---------------	--	--------	---

3765/01/003/DM44.2/O	Mr & Mrs Davis	Object	Soundness - Consistent with National DM44.2 661	Please register our objections to the following proposals  Policy DM44.2: this refers to the proposal to allow a gypsy/traveller site, which is not appropriate for the area, and furthermore is against Government policy. We oppose this proposal	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
3769/01/012/DM44.2/O	Mr K George	Object	DM44.2 661	Given what I have recently observed at an illegal Traveller occupation at the former Rioja Tapas bar just outside Shirley I object to the use of areas off Oaks Road and Conduit Lane as Traveller sites. References 502 and 661.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
3773/01/001/DM44.2/O	Mr & Mrs Richardson	Object	DM44.2 661	Coombe Lodge Nurseries and Coombe Road Playing Fields  We note that there are alternative proposals to build a school and a gypsy and traveller site in this area. These we have been able to find on the local plan. We see the pressing need for additional secondary school places and would support the building of a secondary school - the need is sufficiently pressing to justify Coombe Lodge Nurseries being used for this purpose. We do not think the loss of the Coombe Road Playing Fields can be justified - there has been too great a loss of playing fields already, and the new school will need playing fields. Great thought will, however, be needed as to access and transport arrangements. These problems are not insuperable, but : (1) the main road and surrounding roads are already at high capacity in rush hours, and (2) there are great dangers to pedestrian and cyclist safety which will require a cycle path, tunnel or bridge or both, connecting the school to the tram and crossing the main road safely to the school, perhaps via the playing fields. We do not think the loss of Green Belt land can be justified for a gypsy and traveller site. Such a site does not need to be the size of a school - there are brown field sites which could be used for this purpose. The access to the Nurseries is entirely unsuitable for a gypsy and caravan site.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

661

RE: LAND ON EITHER SIDE OF SHIRLEY OAKS ROAD, SHIRLEY OAKS VILLAGE, POPPY LANE; STROUD GREEN PUMPING STATION; COOMBE FARM, COOMBE LODGE NURSERIES off Conduit Lane, land west of Shirley Oaks Road, rear of 5-13 Honeysuckle Gardens OBJECTION TO DE-DESIGNATION GREEN BELT ; SHIRLEY, NEW ADDINGTON, FOREST HILL

We have lived in the Borough of Croydon for 30 years and value its vibrancy and diversity.

As Croydon ratepayers we object to the de-designation of Metropolitan Open Land generally, especially land detailed above, which will change forever Croydon's character.

We would ask you to encourage policies/development to:

1. Build new housing on brown field sites by all means AND preserve invaluable green space for the benefit of the community of Croydon; 2. Protect green belt land and preserve the green corridors we desperately vital for wildlife and biodiversity; 3. Amend the tall buildings policy and keep the tall building zone where it is suited in the centre of town; 4. Utilise brownfield sites for new low-level housing only where it can be developed alongside new GP surgeries, schools and improved public transport; 5. Traveller sites are not appropriate in the green belt and is a clear breach Policy E of Planning Policy for Traveller Sites. When travellers camped on Addington Playing Fields in 2012/13 they left rubbish, debris, waste, and deterioration to a local green space. Sadly true of most traveller sites.

"Nowadays people know the price of everything and the value of nothing". Green Belt is vital and precious. Once lost for future generations and will not be replaced by developers.

We understand the need for housing, schools, hospitals and infrastructure. Are the Developers investing these also alongside their building investments?

Please protect our few remaining green spaces on the borough map, by making better use of brown field sites.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

3778/01/005/DM44.2/O	Mr & Mrs Wakelam	Object	DM44.2 661	A further inappropriate development of the Green Belt which would not comply with Policy SP2.7a and SP2.7b, and to which we also object, is the proposed use of Coombe Lodge Nurseries off Conduit Lane, site reference 661.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
3779/01/006/DM44.2/O	Mr Andrew Frazer	Object	DM44.2 661	Policy DM44.2 Gypsy- Traveller site. This should be restricted to sites other than Green Field sites	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
3782/01/001/DM44.2/O	Mr David Reid	Object	DM44.2 661	I am writing to object to:  Coombe Lodge Nurseries off Conduit Lane, site reference 661 for use as a gypsy and traveller site as this site would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b; or with Policy E of "Planning Policy for Traveller Sites" published by Government in August which states "Traveller sites in the Green Belt are inappropriate development";	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
3784/01/003/DM44.2/O	Jennifer Aarons	Object	DM44.2 661	Both sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

3785/01/010/DM44.2/O Jenny Greenland

Object

DM44.2  
661

I object to the use of either of the two sites in the Shirley locations or Forestdale as gypsy/traveller sites. As the Council acknowledges, they are in the Green Belt and one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly:

“Traveller sites (temporary or permanent) in the Green Belt are inappropriate development”.

The Council's approach is clearly in breach of that policy. Both sites are also some distance from public services. If the Council really needs, as it claims, to quadruple the number of gypsy/traveller sites in the borough they should look elsewhere (for example, off the Purley Way where the existing site is).

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Object Soundness - DM44.2  
Justified 661

Can I remind you of the definition / meaning of "GREEN BELT":

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

The Government formerly set out its policies and principles towards green belts in England and Wales in Planning Policy Guidance Note 2: Green Belts,[4] but this planning guidance was superseded by the National Planning Policy Framework (NPPF) in March 2012. Planning Authorities are strongly urged to follow the NPPF's detailed advice when considering whether to permit additional development in the green belt. In the green belt there is a general presumption against inappropriate development, unless very special circumstances can be demonstrated to show that the benefits of the development will outweigh the harm caused to the green belt. The NPPF sets out what would constitute appropriate development in the green belt. According to the NPPF, there are five stated purposes of including land within the green belt:

- To check the unrestricted sprawl of large built-up areas
- To prevent neighbouring towns from merging into one another
- To assist in safeguarding the countryside from encroachment
- To preserve the setting and special character of historic towns
- To assist in urban regeneration, by encouraging the recycling of derelict and other urban land.

Once an area of land has been defined as green belt, the stated opportunities and benefits include:

- Providing opportunities for access to the open countryside for the urban population
- Providing opportunities for outdoor sport and outdoor recreation near urban areas
- The retention of attractive landscapes and the enhancement of landscapes, near to where people live
- Improvement of damaged and derelict land around towns
- The securing of nature conservation interests
- The retention of land in agricultural, forestry and related uses.

This is a totally preposterous proposition and I am quite frankly astonished that such a ludicrous idea has been proposed.

3789/01/008/DM44.2/O Mr Paul Slaughter

Object Soundness - DM44.2  
Justified 661

Objecting to the use of either of these locations as gypsy/traveller sites. As the Council acknowledges, they are both in the Green Belt and one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly:

Traveller sites (temporary or permanent) in the Green Belt are inappropriate development.

The Council's approach is clearly in breach of that policy. Both sites are also some distance from public services.

If the Council really needs, as it claims, to quadruple the number of gypsy/traveller sites in the borough - which I would question - they should look elsewhere (for example, off the Purley Way where the existing site is).

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Finally, the Council has identified two locations on the edge of Shirley for gypsy/traveller sites:

- Coombe Farm off Oaks Road, which is identified as suitable for 15-20 pitches (pages 449-450, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 502); and
- Coombe Lodge Nurseries off Conduit Lane, which is identified as suitable for 15-25 pitches (pages 468-469, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 661).

I vigorously object to the use of either of these locations as gypsy/traveller sites. As you have to be aware, they are both in the Green Belt and one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly: "Traveller sites (temporary or permanent) in the Green Belt are inappropriate development".

The Council's approach is clearly in breach of that policy. Both sites are also some distance from public services. If the Council really needs, as it claims, to quadruple the number of gypsy/traveller sites in the borough - which I would question - there must be more suitable sites which are closer to local amenities (there is nothing in the way of shops or even a bus-stop at these sites, necessitating extra vehicular traffic on an already busy road at best or pedestrians attempting to cross at a very dangerous point with blind bends and junctions at worst), sites which are not in Green Belt land, perhaps even sites which already exist and could be expanded (such as the one on Purley Way).

Again, I stress that I am not opposed to development as such, and applaud the efforts that the council is making to build on the work of the previous administration and improve Croydon yet further. But these proposals go too far, and in my opinion they go in the wrong direction.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

3793/01/011/DM44.2/O	Mr Stephen Barnes	Object	DM44.2 661	<p>Fourth, the Council has identified two locations on the edge of Shirley for gypsy/traveller sites:</p> <p>- Coombe Lodge Nurseries off Conduit Lane, which is identified as suitable for 15-25 pitches (pages 468-469, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies &amp; Proposals, reference number 661).</p> <p>I object to the use of either of these locations as gypsy/traveller sites. As the Council acknowledges, they are both in the Green Belt and one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly: "Traveller sites (temporary or permanent) in the Green Belt are inappropriate development". Both sites are also some distance from public services. If the Council really needs, as it claims, to quadruple the number of gypsy/traveller sites in the borough - which I would question - they should look elsewhere (for example, off the Purley Way where the existing site is).</p>	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
3794/01/006/DM44.2/O	Mr Thomas Lawson	Object	DM44.2 661	I strongly object to this policy and the plan to create a traveller site at this location as it is a greenbelt site and not appropriate for this purpose, as per Policy E of "Planning Policy for Traveller Sites".	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
3795/01/007/DM44.2/O	Mr Tony Connor	Object	DM44.2 661	With reference to the Local Plan which has been proposed, please note my objection to the following policies: Gypsy/Traveller site on Conduit Lane, next to Coombe Wood Gardens Policy DM44.2, Table 11.17, site 661	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
3796/01/006/DM44.2/O	Mr Tony Sales	Object	DM44.2 661	I am emailing to record my objection to the following policies within the 'Local Plan'.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

3797/01/002/DM44.2/O	Mr & Mrs Andrews	Object	Soundness - Justified	DM44.2 661	<p>We understand our local Member of Parliament, Mr Gavin Barwell, has produced a comprehensive assessment and objection to the Proposed Croydon Local Plan. We agree and support his objections.</p> <p>In particular the proposed positions of the Gypsy/Travellers' encampments (Refs 502 + 661) would be in suburban residential/Green Belt areas and as such are totally unacceptable. The most suitable positioning could be near Recycling Centres and situated in commercial/factory estates where the Travellers' encampments would not impinge upon residential properties.</p>	Change	<p>This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.</p>
3800/01/002/DM44.2/C	Ann Nussey			DM44.2 661	I object to this site	Change	<p>This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.</p>
3802/01/002/DM44.2/O	Beckie Backham	Object		DM44.2 661	<p>This site is also in the green belt and according to Government Policy is deemed inappropriate. Coombe Park which is a beautiful landscaped park and contains many memorials to war dead and families loved ones will be completely overwhelmed by this enormous traveller development for up to 75 mobile homes right next door. The huge amount of traffic going along Conduit Lane will make access to the park from the parking bays on the other side of the road much more difficult and dangerous. These parking bays are used by the very young and the very old to give them easy and safe access to this beautiful public park. Again the size of the site will totally overwhelm the nearest settlement of residents on Coombe Road, Oaks Road and Oaks Lane. The closest schools are oversubscribed so would be unable to meet the needs of so many new children to the area. The council has gone to great expense to protect the site from mobile travellers and this seems to have been a great waste of tax payers money if they now allow a permanent site. Several businesses which make a big contribution to the local economy and also provide much needed amenity to the public will be detrimentally affected by the site.</p>	Change	<p>This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.</p>

3804/01/047/DM44.2/C	Cllr L Hale <i>London Borough of Croydon</i>	Comment	DM44.2 661	Site 661, Coombe Lodge Nurseries, Conduit lane. Transition Town have expressed an interest in restoring this site to a proper nursery facility, utilising the existing greenhouses for the growing of food, which would be a sustainable and appropriate activity within this green belt site		No change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
3804/01/002/DM44.2/O	Cllr L Hale <i>London Borough of Croydon</i>	Object	DM44.2 661	<p>Policy E of 'Planning Policy for Traveller Sites', published by the Government in August, states very clearly that 'Traveller sites (temporary or permanent) in the Green Belt are inappropriate development'. The provision relating to travellers/gypsies in the Housing and Planning Bill will also remove sections 225 and 226 of the Housing Act 2004 which placed a duty on housing authorities to carry out an assessment of the accommodation needs of this group when reviewing housing conditions and needs within their areas (a process required by section 8 of the Housing Act 1985). Section 8 will also be amended to make it clear that the duty covers consideration of the needs of people residing in, or resorting to the district for, caravan sites and houseboat mooring sites.</p> <p>I am also concerned by the evidence base for these selections, namely the 'Assessment and Selection of Sites for Gypsy and Travellers'. This assessment contains a vast number of very subjective criteria against which to judge site suitability and has been the subject of 'extensive political...consultation'. This political consultation has only taken place with the Labour Administration and has not been conducted on a cross party basis. This begs the question as to what undue political influence may have been placed on the particular criteria which have been used and indeed the selection of the preferred sites. There is also some question as to why the same scoring system has not been used for each set of criteria, rather than subjectively giving weight to certain criteria. Furthermore, the scoring for individual sites has not been carried out in accordance with the table shown at 4.1. A number of sites have been marked incorrectly, for example, site 661 has been scored at 5 for Greenbelt/MOL, when the score should be -5. This begs the question as to how many other inaccuracies are in the document</p>	Not use the location as gypsy and traveller sites	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

3805/01/009/DM44.2/O Ernest Fowler	Object	DM44.2 661	<p>I object to the use of the following sites as gypsy/traveller sites:  Coombe Farm off Oaks Road, which is identified as suitable for 15-20 pitches (pages 449-450, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies &amp; Proposals, reference number 502); and  •Coombe Lodge Nurseries off Conduit Lane, which is identified as suitable for 15-25 pitches (pages 468-469, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies &amp; Proposals, reference number 661).</p> <p>I object to the use of either of these locations as gypsy/traveller sites, they are both in the Green Belt and one of them borders a Site of Nature Conservation Interest. The Council's approach is clearly in breach of that policy. Both sites are also some distance from public services.</p> <p>The Council's approach is clearly in breach of that policy. Both sites are also some distance from public services.</p>	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
------------------------------------	--------	---------------	---	--------	---

3808/01/003/DM44.2/C Mrs Heather Harris		DM44.2 661	<p>object to I am writing to object to:</p> <p>1.The use of the following locations as gypsy and traveller sites:</p> <p>Coombe Lodge Nurseries off Conduit Lane, site reference 661;</p> <p>Coombe Farm off Oaks Road, site reference 502;</p> <p>Policy E of "Planning Policy for Traveller Sites", published by the Government in August, says very clearly: "Traveller sites (temporary or permanent) in the Green Belt are inappropriate development".</p>	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
---	--	---------------	---	--------	---

3809/01/010/DM44.2/O	Mr Ian Leonard	Object	DM44.2 661	Coombe Lodge Nurseries off Conduit Lane, which is identified as suitable for 15-25 pitches (pages 468-469, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 661). I object to the use of either of these locations as gypsy/traveller sites. As the Council acknowledges, they are both in the Green Belt and one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly: Traveller sites (temporary or permanent) in the Green Belt are inappropriate development. The Council's approach is clearly in breach of that policy. Both sites are also some distance from public services. If the Council really needs, as it claims, to quadruple the number of gypsy/traveller sites in the borough, which I believe is questionable, they should look elsewhere (for example, off Purley Way where the existing site is).	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
3810/01/006/DM44.2/O	Joan Sabatini	Object	DM44.2 661	As this site is classed as a Green Belt site, this proposal goes against the Government Planning Policy for Travellers Sites and is totally inappropriate. I oppose the Council Plans to create a Gypsy/Traveler site in this location.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
3812/01/006/DM44.2/O	Mr Peter Spragg	Object	DM44.2 661	6.Gypsy/Traveller site on Conduit Lane, next to Coombe Wood Gardens Policy DM44.2, Table 11.17, site 661 (p179). The council is planning to create a Gypsy/Traveller site here. This is a greenbelt site, and it is not appropriate to put a traveller site here. Policy E of "Planning Policy for Traveller Sites", published by the Government in August, states very clearly: "Traveller sites (temporary or permanent) in the Green Belt are inappropriate development".	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
3813/01/006/DM44.2/O	Mr Brandon Hannan	Object	DM44.2 661	Policy DM44.2, Table 11.17, site 661 (p179). The council plans to create a Gypsy/Traveller site here. This is a greenbelt site, and it is not appropriate to put a traveller site here. Policy E of 'Planning Policy for Traveller Sites', published by the Government in August, says very clearly: 'Traveller sites (temporary or permanent) in the Green Belt are inappropriate development'.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

3814/01/007/DM44.2/O	Mr Jon Adams	Object	DM44.2 661	Policy DM44.2, Table 11.17, site 661 (p179). The council plans to create a Gypsy/Traveller site here. This is a greenbelt site, and it is not appropriate to put a traveller site here. Policy E of "Planning Policy for Traveller Sites", published by the Government in August, says very clearly: "Traveller sites (temporary or permanent) in the Green Belt are inappropriate development".	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
3815/01/004/DM44.2/C	Mr Jon Taylor		DM44.2 661	It is with regret that I feel the need to object to the following proposals:- Purley skyscraper Policy DM40.1. I feel this proposal is completely out of keeping with the surrounding area and I strongly oppose it. Garden acquisition Policy DM2 This will make 'garden grabs' far too easy in my opinion, is far too subjective and is therefore a far weaker form of protection. Sanderstead Lidl site Policy DM41.3 This proposal will likely cause real problems to traffic in the vicinity and I do not it is an appropriate site for retail development. Loss of Green Belt at Coombe Playing Fields and Croham Hurst Policy DM44.2 I believe that both of these locations should remain Green Belt and that re-designation is inappropriate. It will impact the area badly and in conjunction with other changes steadily change the nature of the area for the worse. The Gypsy/Traveller site on Conduit Lane Policy DM44.2 Finally I most strongly object to Council plans to develop a Gypsy/Traveller site here. I feel it is totally inappropriate placing this on Green Belt land and is in direct contravention of the "Planning Policy for Traveller Sites" published by the Government just last August!	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

3816/01/006/DM44.2/O	Lorraine Oakley	Object	DM44.2 661	<p>Policy DM44.2, Table 11.17, site 661 (p179) I object to the changing of this lovely open land into a Gypsy and Traveler site or made into residential land. It is vital some green spaces remain in the area.</p> <p>I could not believe what I was reading on this point; this is a lovely green belt area. I frequently visit Coombe Wood Gardens, in fact I have been visiting it since I was a child. It is a lovely oasis in an increasingly overcrowded Croydon, it is so well maintained and a joy in each different season. I object very strongly to designation of the area next to it as a gypsy and traveler site or school, as it will increase traffic and make the area more noisy and messy. This area MUST stay designated as green belt, it is a jewel in Croydon's crown, and I am appalled that our Council could consider either of these options and I object to this proposal.</p>	Change	<p>This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.</p>
3820/01/009/DM44.2/O	Mrs & Mrs Linter	Object	DM44.2 661	<p>I object to Coombe Lodge Nurseries off Conduit Lane, which is identified as suitable for 15-25 pitches (pages 468-469, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies &amp; Proposals, reference number 661). I object to the use of either of these locations as gypsy/traveller sites. As the Council acknowledges, they are both in the Green Belt and one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly: "Traveller sites (temporary or permanent) in the Green Belt are inappropriate development". The Council's approach is clearly in breach of that policy. Both sites are also some distance from public services. If the Council really needs, as it claims, to quadruple the number of gypsy/traveller sites in the borough - which I would question - they should look elsewhere (for example, off the Purley Way where the existing site is).</p>	Change	<p>This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.</p>

3821/01/002/DM44.2/O	Mr Richard Kellaway	Object		DM44.2 661	am writing to object to the use of the following locations as gypsy and traveller sites at Coombe Lodge Nurseries off Conduit Lane, site reference 661 and Coombe Farm off Oaks Road, site reference 502; as both sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b;	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
3824/01/001/DM44.2/O	Mr Stephen Lambert	Object		DM44.2 661	I object to the use of the site for gypsy and traveller accommodation.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
3825/01/007/DM44.2/S	Yasmeen Hanifa	Support	Soundness - Justified	DM44.2 661	I write to you having received this email from Gavin Barwell MP, the tone of which I find inflammatory and discriminatory towards the Gypsy and Traveller communities, and smacks of "not in my backyard".  I write as a resident of Addiscombe who recognises the huge problem of lack of affordable housing to buy and to rent in London promulgated by this Conservative government and the previous coalition government.  I fully support Croydon Council's proposals.	Welcome support	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
3826/01/002/DM44.2/O	Ms L Pinkney	Object		DM44.2 661	I write in objection to the following Policies and proposals in the draft Croydon Local Plan  Ref. No 661 Coombe Lodge Nurseries - I object to the use of these locations as traveller sites, as they are both in green belt land and one of them borders a site of Nature Conservation interest, this is clearly in breach of policy E . Both sites are some distance from Public Services and the road here could not cope with more traffic.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
3829/01/004/DM44.2/O	Dr L Bowen-Long	Object	Soundness - Justified	DM44.2 661	Traveller site on Conduit Lane – proposal conflicts with government policy E of 'Planning Policy for Traveller Sites', and, as such should not be progressed.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

3830/01/001/DM44.2/O	Ms L Gilbert-Rolfe	Object		DM44.2 661	As a resident in Shirley I am utterly disgusted at the proposal for the gypsy/traveller site being proposed in Coombe Farm & Coombe Lodge Nurseries.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
3833/01/001/DM44.2/O	Mr & Mrs Tye	Object	Soundness - Justified	DM44.2 661	We want to register our horror at the thought of a travellers site being allowed on this land. We feel that this land would be far better used as a school site or for affordable housing. It is a prime piece of land, which is a brownfield site, ripe for the right sort development and can be sold for a significant sum of money. Some of that money could be used to fund a travellers site in an area where the land value is cheaper. In this way funds will be released to the borough. If it is sold for development for housing, the council will also then reap the benefit of council tax.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

I would like to object to object to Policy DM 44 and DM 43 for proposing Gypsy and traveller sites on the Conduit Lane nursey and Coombre Farm off Oaks Road. Both sites are located on the Green Belt and clearly considered to be inappropriate development for Traveller sites (temporary or permanent) and against Government Policy. There are no very special circumstances that have been advanced by the council to allow the use of this land. It is not in the local community's interest to erode the Green Belt and would set a worrying precedent for future planning applications. This is not deliverable on either sites and they are clearly not a suitable location for development and the council has not taken into account the time it would take to bring the plan to fruition. There is a lot of implications for the local area that don't seem to have been taken into account: the road network is at capacity, local amenities are not ready to take an increase in demand (no space in local primary schools). The council has provided little credibility in the assessments that due diligence had been done regarding the sites: do we need an Environmental Impact Assessment to safeguard the local Coombe Gardens ? How much would it cost to mitigate the impact of the sites on this local SNCI ? Impact on Lloyd Park? These two sites are not sustainable in the fact that they do not seem to meet the Gypsies and travellers needs. There are not enough local amenities for this community (where are the local shops they can walk to ? Where are the local doctors they can walk to ? What school would the children go to ?).

The proposed developments also compromise the future of the local area and are therefore not sustainable. There are an awful lot of issues that the council doesn't seem to have taken into account when looking at both sites of Conduit Lane and Oak Farm. The sites seem to be too big for what the travellers community express preference for. The sites are too far for local amenities that they prefer to walk to. The local road network would not be safe for moving larger vehicles. Coombe Lane is incredibly busy all day long and is too narrow to provide safe entrance and exit to larger vehicles. The visibility at the entrance and exit of the sites is not good enough to ensure there will be no accidents. The junction of Coombe Road / Oaks road and Conduit Lane is dangerous enough as it currently is.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

The council doesn't seem to have taken into account that travellers sites are generally mixed-use employment sites and does not address how commercial activities on site would be compatible with surrounding Green belt land and local SNCI. How can the council safeguard these local lands from waste materials and possible hazardous materials ?

3835/01/001/DM44.2/O	Mr & Mrs Brymer	Object	Soundness - Justified	DM44.2 661	I write in connection with the proposals for two traveller sites in South Croydon which have been identified by the Labour Council in the local plan. We are extremely concerned by this; these sites are in close proximity to where we live and we have seen the rubbish and human excrement that has been left around the area when they resided in Conduit Lane in recent years. Furthermore, an individual on the site verbally abused a family member when walking past to Coombe Gardens. Conduit Lane is used extensively by families and residents who are enjoying the footpaths and greenery of South Croydon. This is not an appropriate locality for such sites and we should be defending our green spaces from all threats, including traveller sites.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
3839/01/001/DM44.2/O	Mr & Mrs Posner	Object		DM44.2 661	I have lived in Croydon for nearly 50 years and are now retired. My husband and I are upalled at the proposed plans for Croydon. We have carefully studied the letter from our MP Mr Gavin Barwell and are totally in agreement with all his suggestions. Overall, I would question whether our roads and other services would be able to cope with the proposed building ideas. To assume people will use fewer cars in the future is just plain silly. With regard to creating spaces for travellers by Coombe Wood Gardens, a brilliant and prizewinning park is totally irresponsible. The elimination of green areas by so much development would surely be injurious to the health well being and enjoyment of the citizens of Croydon. . . My husband and I as Council tax payers over many years urge the Council to re-consider their plans in detail .	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Development is on Green Belt The Croydon Plan states 'The Council will seek to protect the special character of wooded hillsides and ridges. Development that would adversely affect the character of the area ... will be refused.' (UDP Policy UD9). We feel very strongly that the character of the wooded hill side would not be maintained as there would not be space to grow trees. This development will simply add a built up area with little thought to conservation or environmental issues. The proposed new house would be visible from two areas of Green Belt: the grounds of Royal Russell School, Croham Hurst and Croham Hurst Golf Course. The Croydon Plan (UDP Policy RO6) states 'Development within or conspicuous from the Metropolitan Green Belt or Metropolitan Open Land will not be permitted if it would harm their visual amenity.' Proposed Sites should be on Brownfield or Industrial Land not Green Belt. It is very odd that the proposed two sites are not only in very close proximity to one another but they are also both in South Croydon. This creates an imbalance across the borough with all sites being proposed in the South of Croydon. We are also concerned that DCLG good practice guidance: Designing Gypsy and Traveller Sites – A Good Practice Guide, 2008 has not been followed:

- Nothing has been done to encourage community cohesion - this is being forced on local residents and will do nothing to encourage social integration.
- These are semi-rural locations and noise from vehicles will disturb residents.
- Both the proposed sites are on green belt land, as stated above and thus the proposal is NOT in accordance with existing planning policies.
- A traveller site at these locations would in no way be in keeping with the local environment of a green belt area.
- Vehicles of this size would require a suitably large turning space to allow entry and exit from the site, high traffic volumes on Coombe Road and Oaks Road often travelling in excess of the speed limit, combined with the regular movement of large slow vehicles at these locations would introduce a substantial safety risk to road users.
- There is no evidence to suggest that there has been any gypsy family who has historically resided at, or near the proposed sites. There is no evidence of local family support existing in the vicinity of these sites.

We believe that instead of both Coombe Lodge Nurseries and Coombe Farm, the Council should expand the Existing Permanent Gypsy Site in Lathams Way off Beddington Farm Road. Alternatively, Pear Tree Farm & Pear Tree Farm Cottage, Featherbed Lane should be considered.

If these are not acceptable then the Council should consider the following sites:

- 16 - Heath Clark playing fields, Stafford Road, Waddon
- 120 - Timebridge Community Centre, Field Way, New Addington
- 518 - Land adjacent to 103 Goodenough Way, The Admirals Walk, Old Coulsdon
- 522 - Wandle Road surface car park, Wandle Road, Croydon Opportunity Area
- 536 - Land of former Croydon Airport runway, south of Imperial Way, Waddon
- 552 - Land adjacent to Ashburton playing fields at rear of 2-88 Coleridge Road, Addiscombe
- 553 - By Pavilion Playing Fields, Purley Way, Waddon
- 632 - Land south of Threehalfpenny Woods, Kent Gate Way, Bridle Way, Addington
- 636 - Land west of Timebridge Community Centre, Lodge Lane, Elmside, Addington
- 767 - Cane Hill-south part, Hollymeoak Road / Portnalls Road, Coulsdon

Although a number of these following Sites may be Green Belt / Metropolitan Open Land, this should not preclude them, as they could be re-designated.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

- Where is the evidence that there is need for a site at these particular locations? This information has not been provided.  
 - When will the detailed site plans be made available? If not available at the start of the consultation period then this is surely a serious breach of government planning guidelines.

3842/00/004/DM44.2/O	Ms M de Villiers	Object	Soundness - Consistent with National	DM44.2 661	I also object to the following policies in relation to Shirley (neighbouring area to where I live):  - Both proposed traveller sites are in the Green Belt and thus inappropriate as they are in breach on the Government Policy E, in relation to Planning Policy for Traveller Sites. They are also far from public services. I suggest the existing site on Purley way is reconsidered.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
3844/01/004/DM44.2/O	Lee Kirby-Walker	Object		DM44.2 661	I am writing to object to: The use of the following locations as gypsy/traveller sites; <ul style="list-style-type: none"> <li>• Coombe Farm off Oaks Road reference number 502</li> <li>• Coombe Lodge Nurseries off Conduit Lane reference number 661</li> </ul>	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
3846/01/001/DM44.2/O	Cllr M Gatland	Object	Soundness - Consistent with National	DM44.2 661	I wish to object to the following The use of the following as traveller or gypsy sites Coombe Lodge Nurseries site ref 661 Coombe Farm. Site ref 502 This is inappropriate development on Greenbelt.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Sites are located on the Green Belt, considered to be inappropriate development for Traveller sites (temporary or permanent) and against Government Policy ("Planning policy for traveller sites", DCLG, August 2015): the proposal to create a permanent traveller site on land designated as Green Belt land is contrary to Policy E of the Planning Policy.

Inappropriate development, harmful to the Green Belt, should only be approved in very special circumstances. There are no very special circumstances that have been, or can be, advanced to allow the use of this land (The National Planning Policy Framework makes it clear that unmet housing need (including for traveller sites) does NOT constitute exceptional circumstance). Inappropriate development is clearly harmful to the Green Belt. It is not in the surrounding community's interest for the Green Belt to be eroded - approving this application would also set a precedent and open the surrounding areas to be subject to similar planning applications.

Negative impact on the local environment and wildlife.

Inappropriate to simply weight Green Belt as one of many factors to be considered in the assessment process, rather it presents a policy objection that cannot be over-ridden in the way proposed.

To be considered deliverable, sites should be available now, and offer a suitable location for development now. The site is clearly not a suitable location for development. Plan makers have not considered the time it will take to commence development on site:

Need for infrastructure improvements (roads), need for local amenities improvement (primary school, doctor)

Plan makers have not considered the time and necessity to show due diligence in assessing the sites:

need for an Environmental Impact Assessment (this would be a schedule 2 development having significant effects on the environment and needing an EIA) need for a Local Biodiversity Action plan to determine the sensitivity of the location

Plan makers have not ensured that the process has credibility and acceptance: the bases for site criteria weightings are unclear.

Plan makers will need to provide robust, up to date evidence to support the deliverability of sites, ensuring that their judgements on deliverability are clearly and transparently set out. Plan makers have not taken the cost and time

Sustainable development is development that meets the needs of the present, without compromising the ability of future generations to meet their own needs. The proposed development does not meet the needs of the present Gypsies and Travellers needs are not addressed: not enough local amenities, sites are too big, unfit local roads.

The proposed development does compromise the future of the local area. Government planning policy is to ensure local planning authorities have due regard to the protection of local amenities and the local environment. It is likely the proposals will have an adverse effect on local businesses Coombe Wood is a Site of Nature Conservation Interest (SNCI) (List of Historical Park and Gardens 2008) and borders the proposed Coombe Lodge Nurseries site, and would be negatively impacted by the plans. Croydon Council has already recognised this in its Development Management Policies document.

The Borough Character Appraisal of 2015, the local area is listed as having special character. The proposed development is not sensitive to, and does not respect, this.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

needed to mitigate the impact of the development on the sites: Croydon Council has already recognised in its Development Management Policies document that the Site of Nature Conservation Interest (SNCI) which borders the Coombe Lodge Nurseries Site, Coombe Wood (List of Historical Park and Gardens 2008) would be negatively impacted by the proposed development.

3849/01/007/DM44.2/O	Maureen Messett	Object	DM44.2 661	I sincerely hope that my objections will be noted. I have lived in this borough for many many years and I hate seeing it gradually destroyed.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
3852/01/002/DM44.2/O	Mr M Mulderry	Object	DM44.2 661	I object to this site allocation.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
3855/01/002/DM44.2/O	Mrs Gill Willis	Object	DM44.2 661	I cannot believe that this proposal has even made it into print. What possible benefits could the local community gain from such a move. This is a beautiful Park area where local families spend their leisure time all year. We have already had a taste of what would happen when the travellers recently parked illegally in Conduit Lane. I was walking past their lines of vans with the residents sitting on the steps watching us. As we proceeded further up the lane, we had to walk through their excrement and toilet paper. On another occasion, we could not pass because they were playing in the lane en masse and to have walked through would not have been possible. This is a community with nothing in common with the local residents who will use the Park. There can be no hope of integration. I would like to hear the rationale behind this proposal.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

3858/01/010/DM44.2/O	Mr Nicholas Barnes	Object	Soundness - Justified	DM44.2 661	Having read both local plans for the Shirley area, I strongly object to all aspects in both plans, this includes the 750 new homes on Shirley Oaks Village, 35 new homes in Shrublands, the two gypsy sites at Combe Fram and Conduit Nursery and the development for up the four storeys along Wickham Raod.  None of these plans will benefit Shirley and I object to them all.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
3861/01/004/DM44.2/O	Mr Neil Walker	Object		DM44.2 661	This is a greenbelt site and not appropriate for such development.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
3862/01/012/DM44.2/O	Mr M Blount	Object	Soundness - Justified	DM44.2 661	I have considered details of the proposed Croydon Local Plan and have the following objections on the basis that they will: detract from the local areas, dramatically change the local areas, dramatically change the character of local areas, have a significant adverse effect on an already overloaded infrastructure, including roads, public transport, public open space, environment and emergency, health and support services.  5. I object to the three proposed provision of Traveller sites at Conduit Lane, Coombe Farm and Featherbed Lane.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
3864/01/006/DM44.2/O	Pauline Morgan	Object		DM44.2 661	Policy DM44.2, Table 11.17, site 661 (p179). The council plans to create a Gypsy/Traveller site here. This is a greenbelt site, and it is not appropriate for this purpose.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

3865/01/004/DM44.2/O	Ms M Kaczanowski	Object	DM44.2 661	Below is a list of our objections: 3. Policy DM 44.2, site 661 Gypsy/Traveller site on Conduit Lane, next to Coombe Wood Gardens - we strongly object to a site to be placed on a green belt. This will certainly have a negative environmental impact on this one and surrounding sites. Such a development will very negatively impact on character of the local area and will ultimately lead to its downgrading.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
3868/01/001/DM44.2/O	Angi Pyart	Object	DM44.2 661	I object to the use of the site for gypsy and traveller accommodation.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
3870/01/002/DM44.2/O	Mr & Ms Fraser & Ann MacDonald	Object	DM44.2 661	We understand that there are plans to change the designation of areas of Green Belt and Metropolitan Open Land - in particular two areas identified as locations for gypsy/traveller sites at Coombe Farm and Coombe Lodge Nurseries off Conduit Lane. Such plans would fundamentally change the character of the area for the worst. We wish to register our objections to these plans since the proposals are contrary to Government policy (Policy E of Planning Policy for Traveller sites) which states that 'Traveller sites (temporary or permanent) in the Green Belt are inappropriate development'.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Object Soundness - DM44.2  
Justified 661

Coombe Lodge Nurseries, Conduit Lane is Green Belt land

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Summary:

Not in line with Government planning policy on the Green Belt

Detail:

- Government planning policy with regards to traveller sites wants to ensure that plan-making and decision-taking should protect Green Belt from inappropriate development.

- The proposal to create a permanent traveller site on land designated as Green Belt land is contrary to Policy E of the Planning Policy: "Inappropriate development is harmful to the Green Belt and should not be approved, except in very special circumstances.". There are no very special circumstances.

- The National Planning Policy Framework makes it clear that unmet housing need (including for traveller sites) is unlikely to outweigh the harm to the Green Belt and other harm to constitute the "very special circumstances" justifying inappropriate development on a site within the Green Belt.

- The local character description is clearly at odds with the proposal.

- The justification acknowledges the Green Belt issue, though insufficiently, but relies on the fact that there are existing structures. These are not in fact substantial – being glasshouses – and could be said to be at least environmentally consistent with the Green Belt. But there is no very special circumstance justification proposed as required by Planning Policies.

- Approving the proposal would set a precedent and open the surrounding areas to be subject to similar development. It is not in the community's interests to allow the erosion of the green spaces surrounding the community and we object to the impact this site could have on the environment and wildlife.

In the light of these issues, it is not appropriate simply to weight Green Belt as one of many factors to be considered, but rather it presents an overarching policy objection that cannot be over-ridden in the way proposed.

The decision making process is contrary to Government guidance.

To be considered deliverable, sites should be available now, offer a suitable location for development

now and we do not believe that The Assessment and selection of sites for Gypsy and Travellers undertaken was credible.

Plan makers have not considered the time it will take to commence development on site  
need for infrastructure improvements  
– roads

There is basis for challenging the way in which this potential site has been selected.

1 Para 3.1 – Green Belt sites included for review of eligible sites “to ensure that all locations for a site considered”, but at the same time “Exclusion of sites in Croydon Metropolitan Centre and within District Centres and Strategic Industrial Locations and Conservation Areas due to viability, deliverability and impact on heritage considerations”. Is this even-handed?

4 Para 4.1 sets out the criteria and weightings. As indicated above, Green Belt with no built form is given a weighting (-10) which, though high, is not very significant given that there are 29 or 30 criteria and can easily be outweighed by other factors that are less significant in policy terms. Furthermore, Coombe Nurseries has been weighted -5 for Green Belt, in recognition of the fact that there are some structures on the site, AND has been given 5 for the fact that (in the assessor's view) such structures as there are can be converted to traveller use (if the buildings had to be demolished, on a green field site, this would have attracted -5).

1 SP2.7 on the Council's proposals to deliver 39 additional gypsy and traveller sites indicates that land will be allocated in accordance with the proposals, but that any ADDITIONAL sites that are not so allocated should meet some stated criteria, including good access to local shops and essential services and good transport access; these seem to be criteria that were excluded from the proposed allocation, suggesting that any alternative proposals would need to meet stiffer criteria. Is this fair and even-handed?

2 The bases for site criteria weightings are unclear.

Inadequate Road Access which is an issue made particularly acute because of the current traffic issues in the area

10.14 Based on survey responses, most Gypsies and Travellers living in the Croydon area would prefer small,

family sized sites. Stakeholder comments suggested that smaller sites have fewer inter-family tensions and are therefore easier to manage.

10.18 The settled community neighbouring the sites should also be involved in the consultation from an early stage. There may be scope for expanding existing sites to meet some of the need. However, the preference is for smaller sites which tend to be easier to manage.

10.19 In terms of identifying broad locations for new sites, there are a number of factors which could be considered including:

☐Social

☐School catchment areas

10.21 Gypsies and Travellers undertaking the survey also suggested that it is important that new sites are located close to amenities such as shops, schools and health facilities – the current proposal does not meet the needs identified by this criteria.

10.22 CLG (2012) guidance suggests that Local planning authorities should strictly limit new traveller site development in open countryside that is away from existing settlements

The Croydon Local Plan Note that paragraph 4.19 in referring to the need for good access to roads, states that “they often need to move larger vehicles as part of their livelihood and way of life” – this may be an assertion relevant to the assessment of sites and the narrowness of Coombe Lane.

Mixed-use employment sites restrict commercial activities on site. Use of public transport amongst Gypsies and Travellers has been noted to be low. By providing sites in more accessible locations

Pressure on public services, local school and medical facilities  
•other needs of Gypsies/Travellers are not met particular concerns for the disabled and elderly, young people A recent study states that: There is a greater incidence of ill-health amongst Gypsies and Travellers adequate services would not be are provided for Gypsies/Travellers It is widely recognised by government sources that literacy can be an issue within the Gypsy/Traveller community, -

extra pressure on local schools who are over-subscribed as it is

- Some evidence of periodic overcrowding on site – year round and at peak in winter months - Scotland

- gypsy-traveller.org - The best type of land is a 'brown field' site, The site should be close to local amenities. It is very important that the site has a safe entrance and exit. There are very strict Highway regulations about visibility at the entrance/exit to sites to ensure there is no danger of accidents and this is very important.

The objections may be summarized as:

- inappropriate use of Green Belt land
- lack of relevant amenities close to hand
- adverse effect on neighbouring businesses and leisure amenities
- site has a more appropriate use for a school
- critical increase in traffic harming the local area
- proposed site does not met the criteria as set down in the guidance

---

661

I am writing to object to:

1.the use of the following locations as gypsy and traveller sites (policy DM44.2, Table 11.17) :

Coombe Lodge Nurseries off Conduit Lane, site reference 661;  
Coombe Farm off Oaks Road, site reference 502;

Both sites are on Green Belt land, in contravention of Policy E of "Planning Policy for Traveller Sites", published by the Government in August, and in addition are in areas devoid of local amenities especially primary schooling

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

---

3875/01/002/DM44.2/O Celia Baughan

3880/01/002/DM44.2/O	Emma Bean	Object	Soundness - Justified	DM44.2 661	<p>I am writing to object to:</p> <p>1. the use of the following locations as gypsy and traveller sites:</p> <p>Coombe Lodge Nurseries off Conduit Lane, site reference 661;</p> <p>Coombe Farm off Oaks Road, site reference 502;</p> <p>as both sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b;</p>	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

3881/01/001/DM44.2/O	Mrs Julia White	Object	DM44.2 661	I am writing to object to the use of Coombe Lodge Nurseries off Conduit Lane, site reference 661 as gypsy and traveller site as this site would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b:	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
3882/01/001/DM44.2/O	Wendy Moulton	Object	DM44.2 661	I object to the use of the site for gypsy and traveller accommodation.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
3883/01/004/DM44.2/O	Mrs Marilyn Arbisman	Object	DM44.2 661	Policy DM 44.- Creating a Gypsy/Travellers site in Conduit Lane would create an absolute blight on this lovely area,I cannot imagine anything more unlikely to put there,please,please don't. Also under this Policy the projected loss of Green Belt around Coombe Playing Fields and Croham Hurst is very worrying, this is one of the last remaining green areas of Croydon,and we should treasure them.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

I object in the strongest possible way to the plans outlined for this development in my local area, Shirley and Addiscombe. In particular, I understand the Council has identified two locations on the edge of Shirley for gypsy/traveller sites:

- Coombe Lodge Nurseries off Conduit Lane, which is identified as suitable for 15-25 pitches (pages 468-469, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 661).

I object to the use of either of these locations as gypsy/traveller sites. As the Council acknowledges, they are both in the Green Belt and one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly:

“Traveller sites (temporary or permanent) in the Green Belt are inappropriate development”.

The Council's approach is clearly in breach of that policy. Both sites are also some distance from public services. If the Council really needs to quadruple the number of gypsy/traveller sites in the borough, I think they should look elsewhere (for example, off the Purley Way where the existing site is).

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

3885/01/008/DM44.2/O	Mrs Barbara Cumming	Object	DM44.2	<p>I understand that Council has identified two new locations on the edge of Shirely for gypsy/traveller sites:</p> <ul style="list-style-type: none"> <li>- CoombCoombe Lodge Nurseries off Conduit Lane, which is identified as suitable for 15-25 pitches.</li> </ul> <p>I object to the use of either of these locations as gypsy/traveller sites. As the Council acknowledges, they are both in the green belt and one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly @Traveller sites (temporary or permanent) in the Green Belt are inappropriate development".</p> <p>The Council's approach is clearly in breach of that policy. Both sites are also some distance from public services. If the Council really needs, as it claims, to quadruple the number of gypsy/traveller sites in the borough - which I would question - they should look elsewhere (for example, off the Purley Way where the existing site is).</p>	Change	<p>This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.</p>
3890/01/002/DM44.2/O	Kathy Coughlan	Object	DM44.2	<p>1. the use of the following locations as gypsy and traveller sites:  Coombe Lodge Nurseries off Conduit Lane, site reference 661;  Coombe Farm off Oaks Road, site reference 502;  as both sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and 5P2.7b;</p>	Change	<p>This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.</p>

3892/01/007/DM44.2/O	Ms M Bailey	Object	DM44.2 661	<p>This site is also in the green belt and according to Government Policy is deemed inappropriate. The council has gone to great expense to protect the site from mobile travellers and this seems to have been a great waste of taxpayer's money if they now allow a permanent site. The site will detrimentally affect several businesses, which make a big contribution to the local economy and also provide much needed amenity to the public. Coombe Park is a beautifully landscaped park and contains many memorials to war dead and families loved ones will be completely overwhelmed by this enormous traveller development for 75 mobile homes right next door. The huge amount of traffic going alone Conduit Lane will make access to the park from the parking bays on the other side of the road much more difficult and dangerous. These parking bays are used by the public to give easy and safe access to the beautiful park. Again the size of the site will totally overwhelm the nearest settlement of residents on Coombe Road Oaks Road and Oaks Lane.</p>	Change	<p>This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.</p>
----------------------	-------------	--------	---------------	---	--------	--

3893/01/012/DM44.2/O	Jan Payne	Object	DM44.2 661	<p>Coombe Lodge Nurseries off Conduit Lane reference number 661; As the Council acknowledges, all three of these sites are in the Green Belt and one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly: "Traveller sites (temporary or permanent) in the Green Belt are inappropriate development". The Council's approach is clearly in breach of that policy. All three sites are also some distance from public services and they are all in the same part of the borough (two are in Heathfield ward, one just over the border in Croham). Why has Heathfield been singled out in this way? If the Council really needs, as it claims, to quadruple the number of gypsy/traveller sites in the borough - which I would question - they should look elsewhere (for example, off the Purley Way where the existing site is).</p>	Change	<p>This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.</p>
----------------------	-----------	--------	---------------	--	--------	--

3894/01/003/DM44.2/O	Mr & Mrs Croxford & Leese	Object	DM44.2 661	We wish to object to the proposal to establish traveller sites at Coombe Lodge Nurseries ( site ref no. 661) and Coombe Farm (site reference 502). Such use of these sites would, we feel, be inappropriate in the Green Belt, and contrary to Policy SP2.7a and SP2.7b, and not consistent with Policy E of the Government's "Planning Policy for Traveller Sites". The road hazards that would be associated with such use would require additional expenditure by the Council to resolve.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
3896/01/013/DM44.2/O	Mr M Veldeman	Object	DM44.2 661	Totally unacceptable that this is even being considered. Policy E of "Planning Policy for Traveller Sites", published by the Government in August, says very clearly: "Traveller sites (temporary or permanent) in the Green Belt are inappropriate development". This is a greenbelt site, and it is not appropriate to put a traveller site here and existing residents of the area should be considered first.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
3897/01/037/DM44.2/O	Cllr M Neal	Object	DM44.2 661	Site 661, Coombe Lodge Nurseries, Conduit lane. Transition Town have expressed an interest in restoring this site to a proper nursery facility, utilising the existing greenhouses for the growing of food, which would be a sustainable and appropriate activity within this green belt site;	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Object	DM44.2	The sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b. Furthermore, Policy E of 'Planning Policy for Traveller Sites', published by the Government in August, states very clearly that 'Traveller sites (temporary or permanent) in the Green Belt are inappropriate development'. The provision relating to travellers/gypsies in the Housing and Planning Bill will also remove sections 225 and 226 of the Housing Act 2004 which placed a duty on housing authorities to carry out an assessment of the accommodation needs of this group when reviewing housing conditions and needs within their areas (a process required by section 8 of the Housing Act 1985). Section 8 will also be amended to make it clear that the duty covers consideration of the needs of people residing in, or resorting to the district for, caravan sites and houseboat mooring sites.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
661		<p>I am also concerned by the evidence base for these selections, namely the 'Assessment and Selection of Sites for Gypsy and Travellers'. This assessment contains a vast number of very subjective criteria against which to judge site suitability and has been the subject of 'extensive political...consultation'. This political consultation has only taken place with the Labour Administration and has not been conducted on a cross party basis. This begs the question as to what undue political influence may have been placed on the particular criteria which have been used and indeed the selection of the preferred sites. There is also some question as to why the same scoring system has not been used for each set of criteria, rather than subjectively giving weight to certain criteria. Furthermore, the scoring for individual sites has not been carried out in accordance with the table shown at 4.1. A number of sites have been marked incorrectly, for example, site 661 has been scored at 5 for Greenbelt/MOL, when the score should be -5. This begs the question as to how many other inaccuracies are in the document.</p>		

3899/02/011/DM44.2/O Ms E Rudduck

Object

DM44.2  
661

I object to the use of the following locations as gypsy/traveller site on Coombe Lodge Nurseries off Conduit Lane ref 661

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

---

1. Central Government is currently reviewing the approach to providing gypsy/traveller sites and so any proposals in the local plan should be subject to future government guidance.

2. Both sites are in the Green Belt and are contrary to Government policy which says that temporary or permanent gypsy/travellers sites in the Green Belt are inappropriate development.

3. Gypsy/traveller sites in both locations are completely out of character with the immediate surroundings - parkland, private schools, hotel, playing fields, golf course, middle/high value housing.

4. Access to public transport is poor - no buses and 15 minutes to the nearest tram stop.

5. Local doctors are difficult to get into.

6. There are no government schools nearby.

7. There are no shops within reasonable distance - closest are in Croydon town centre.

8. The evaluation system used to select the two sites is highly questionable and relies on LBC views of the relative importance of each criteria and then the points given. This form of weighted scoring is useful in giving guidance but not in delivering precise conclusions. It appears as if the wishes of the gypsy/travellers have been given more importance than those of local people. It would be interesting to see which sites were selected if more weight had been given to local interests and therefore how robust the evaluation system is to changes in how the criteria are viewed and scored.

9. Both sites will inevitably have a negative impact on property values.

10. Both sites pose a perceived increased security risk in the area.

11. Re site 661 the local plan in its justification says "the gypsy and traveller site will provide no greater impact on the openness of the Green Belt and the purposes of the Green Belt than the existing buildings". Impact does not only apply to the visual impact. Even on this narrow criteria it is hard to envisage the development from gypsy/traveller sites having a similar impact as the existing use which is periodic during the day and very much related to nature. Using the site for gypsy/travellers would mean a much higher overall impact on the local area - regular access, high activity, and a use out of character with the surrounding area, particularly the Site of Nature Conservation Interest.

12. Re site 502 the comment re "no greater impact" also applies.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

The proximity to a school and existing housing means that this would have a significant impact on the character of the area in terms of increased traffic flow on a very quiet road and increased activity and noise in a very quiet area.

3904/01/002/DM44.2/O	Mr & Mrs Golbourn	Object		DM44.2 661	I am writing to object to the proposed use of Coombe Farm off Oaks Road (reference number 502) and Coombe Lodge Nurseries off Conduit Lane (reference number 661) as gypsy/traveller sites. I believe that both of these sites are in the Green Belt and one of them borders a Site of Nature Conservation Interest. We should not encroach on the Green Belt. Surely there must be brownfield sites that could be used instead.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
3905/01/002/DM44.2/O	Mr & Mrs Kingdom OBE, JP	Object		DM44.2 661	My wife and I were distressed to learn that Croydon Council is considering opening a site for gypsies and travellers in Conduit Lane. Our main concern is using a Green Belt site for these dwellings particularly when other schemes have been turned down in the past. In addition we are concerned about the loss and /or inconvenience caused to a beautiful which is very much enjoyed by the people who visit. Finally there may be a loss or inconvenience to catering sites viz the Chateau Restaurant, the cafe in the grounds of the gardens and finally Coombe Lodge and the Premium Hotel all well used amenities in the area and sources of employment. We do wish to be branded NIMBYs but we are sure there are more appropriate sites in Croydon to fulfil these proposals and obligations.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
3906/01/003/DM44.2/O	Mr & Mrs Blissett	Object	Soundness - Justified	DM44.2 661	DM44.2 Table 11.17 site 661 We oppose the proposal to create a travellers facility in this location.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

3907/01/002/DM44.2/O	Mr & Mrs Foggo	Object	DM44.2 661	We are writing to object to The use of the locations (Coombe farm ref 502 and Coombe lodge nurseries drew 661) as gipsy/travellers sites. It would drastically change the area's local character (policyDM31.4). We are very concerned by these plans and it is our opinion that these areas don't suit for travellers sites at all.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
3918/01/002/DM44.2/O	Mr & Mrs Willis	Object	DM44.2 661	I strongly object to these proposals as they would both be in the Green Belt and one of them borders a site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly: "Traveller sites (temporary or permanent) in the Green Belt are inappropriate development". Therefore the Council's approach is clearly in breach of that policy. The Council should instead consider expanding the existing site off the Purley Way.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

I am writing my objections development on the following sites as a resident as well as in my capacity as Warden of Croydon Ecology Centre. The sites are in areas that are essential foraging grounds for wildlife, including badgers, which are a protected species. I believe that they are also all on Green Belt Land. I realise that local authorities are being given new powers that allows them to build on parts of Green Belt Land, but I sincerely believe that this will be a terrible mistake, for which future generations will not thank us. These sites are also part of one of the very few large stretches of open green spaces so close to the centre of Croydon, which makes an huge difference to the air quality in our town and to the visual aspect thereof. There is ample evidence to prove that these green urban spaces are essential for the mental well-being of crowded cities. All the open green spaces are there for the benefit of all Croydon's residents and those visiting our Borough, by building on them you are taking away this right from people all over the Borough. Please think again and make use of brown field sites instead. By using brown field sites you have the opportunity improve those sites with well planned and laid out housing and amenities. Coombe Lodge Nurseries would be better kept for the day when Croydon Council start to use it again as a nursery. This would save so much money, instead of paying out large sums annually on bedding plants. It could also be used as an extension to Coombe Woods Park. Part of it could be used as Saffron Farm and community garden or new allotments.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

The Council is clearly in breach of "Policy E of Planning Policy for Traveller Sites", published by the Government in August 2015 stating "Traveller sites (temporary or permanent) in the Green Belt are inappropriate development". Local Development Framework policy states: "There are some policy differences in national planning guidance that reflect the nature of the use, for example sites for Gypsies and Travellers can be found in the countryside. However, Green Belt policy also applies and Gypsy and Traveller sites in the Green Belt are normally inappropriate development. Alternatives should be explored. The size of the proposed sites Coombe Farm is 15-20 pitches and Coombe Nurseries 15-25, both exceeds the governments' guidelines - Designing Gypsy and Traveller Sites- Good Practice Guide states sites should not exceed 15 pitches. The Gypsy, Traveller representatives have stated in Government guidelines that sites should not be located too close together due to conflict issues within their social community. Coombe Farm and Coombe Nurseries are situated within yards of each other and are, therefore, unsuitable. It is also worth noting that the existing permanent site at Latham's Way was originally sanctioned for 15 pitches but has enlarged by a further 4 pitches to 19. The Local Residents are fearful of further site expansion and the option of a temporary site provision added to the permanent proposed sites at Coombe Farm and Coombe Nurseries which have already exceeded the recommended volume. Can the Council define the time period on temporary / emergency stopping places/sites, is the 28 days limit on the total use of this land over a yearly period or is it 28 days per Gypsy and Travellers passing through? If the latter is true then the Local Residents could see this land being occupied on a continuous basis although not by the same people so cohesion with the Local Community will be further restricted. Please can the Council be clear and state if the sites will be managed directly by the Council or by a Private Management company? Will the ownership of both sites be under the same Company? Why have the Council contradicted the GLG guide lines and weighted Privacy highly on the scoring methodology for Travellers and Gypsy sites as this sways the scoring on Coombe Farm unfairly but does not take into consideration Local Residents Privacy rights? This site is

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

already owned by the Council so no purchase costs involved. It has a lower risk of the site being exposed to unauthorised encampments due to its enclosed boundaries. Access to the site will be problematic with increased traffic danger to an outdated crossing will still apply. The detrimental affect on Local Businesses also applies. I believe all Local Businesses have lodged their objections due to the nature of their countryside selling point. The Nursery site could be a great revenue earner for the Council. Allotments are a rare opportunity for Londoners. The existing greenhouses could be rented out to encourage the building of local communities, encouraging educational and healthy activities. This would be a huge advantage for the people who live in small flats to grow their own produce. I could see this spot being ideal for small growers to sell directly to Croydon residents. This will then attract and boost the existing businesses, bringing more people to enjoy the public gardens, Lloyd Park and the woods of the beautiful Addington Hills. With the intense regeneration program now being realised within central Croydon- residential flats converted from empty office blocks, increase of commercial premises such as the planned Westfield development, it is hugely important that Croydon Council recognises the future need to keep the integrity of this amazing nature conservation area, its adjoining Green Belt land which leads onto Lloyd Park. This space is for the enjoyment of all Croydon's population and a great tourist attraction who can enjoy the precious natural wildlife environment situated within the M25. This will need to become more apparent as Croydon is embraced into Central London, keeping the integrity of this unspoilt area will provide a unique attraction to Londoners and Croydon residents seeking country walks and open space. We must fight to continue to sustain the precious natural wildlife for everyone to benefit. The area is accessible to many as it's already serviced by a fantastic variety of public transport links to and from many parts of London.

---

3929/01/002/DM44.2/O	Messrs Crawford & Armstrong	Object	Soundness - Justified	DM44.2 661	<p>Coombe Lodge Nurseries site reference 661</p> <p>This site is also in a green belt area and for reasons as described above this proposal would be in contravention of national guidelines.</p> <p>Again the Council has gone to great expense to protect this area, removing travellers from this site and using Council Tax income to do so.</p> <p>The only public transport near this location is the tram which is oversubscribed during peak times. There are no shops, schools or public amenities such as medical centres within walking distance and minimal public footpaths on either side of the road.</p> <p>Adjacent to both of these sites are a beautiful landscaped park and an area of outstanding beauty, home to many species of wild life with unparalleled open green spaces sorely lacking in other parts of South East London.</p> <p>We understand that there is an existing travellers site in the Purley Way that is underused and feel that the energy would be better expended in improving the facilities at this site, which is far better services by public transport et.</p> <p>We strongly object tot the plans for a permanent travellers sit at both of the above locations for the reasons given.</p>	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
----------------------	-----------------------------	--------	-----------------------	---------------	---	--------	---

3933/01/012/DM44.2/O	Mr & Mrs Thacker	Object	DM44.2 661	<p>Coombe Lodge Nurseries off Conduit Lane reference number 661;</p> <p>As the Council acknowledges, all three of these sites are in the Green Belt and one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly: "Traveller sites (temporary or permanent) in the Green Belt are inappropriate development". The Council's approach is clearly in breach of that policy. All three sites are also some distance from public services and they are all in the same part of the borough (two are in Heathfield ward, one just over the border in Croham). Why has Heathfield been singled out in this way? If the Council really needs, as it claims, to quadruple the number of gypsy/traveller sites in the borough - which I would question - they should look elsewhere (for example, off the Purley Way where the existing site is).</p>	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
----------------------	------------------	--------	---------------	---	--------	---

3939/01/004/DM44.2/O	Seema Jain	Object	DM44.2 661		Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
3939/01/003/DM44.2/O	Seema Jain	Object	DM44.2 661	Incorrect calculation in selection criteria for site 661 and 502. If site is in Green Belt/MOL built form then it is marked as Amber/Orange which means a score of -5, +5 has been used which increase the rating by 10 points. Error in calculating site access for 661: There are cars parked on that road and the entrance is through a very busy main road. The site cannot have a rating of "+5". It should be -2. That is a difference of 7 rating points.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
3940/01/005/DM44.2/O	Shirley Shephard	Object	DM44.2 661	Policy DM44.2, Table 11.17, site 661 (p179). The council plans to create a Gypsy/Traveller site here. This is a greenbelt site, and it is not appropriate to put a traveller site here. Policy E of 'Planning Policy for Traveller Sites', published by the Government in August, says very clearly: 'Traveller sites (temporary or permanent) in the Green Belt are inappropriate development'.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
3941/01/006/DM44.2/O	Mr Frances Sell	Object	DM44.2 661	This is a green belt site and is not suitable for a traveller purpose. Government statements have stated greenbelt is not suitable for this purpose	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

3942/01/012/DM44.2/O	Mr Scott Hunter	Object	DM44.2 661	Coombe Lodge Nurseries off Conduit Lane reference number 661; As the Council acknowledges, all three of these sites are in the Green Belt and one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly: "Traveller sites (temporary or permanent) in the Green Belt are inappropriate development". The Council's approach is clearly in breach of that policy. All three sites are also some distance from public services and they are all in the same part of the borough (two are in Heathfield ward, one just over the border in Croham). Why has Heathfield been singled out in this way? If the Council really needs, as it claims, to quadruple the number of gypsy/traveller sites in the borough - which I would question - they should look elsewhere (for example, off the Purley Way where the existing site is).	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
3943/01/012/DM44.2/O	Mr Steve Murray	Object	DM44.2 661	Coombe Lodge Nurseries off Conduit Lane reference number 661; As the Council acknowledges, all three of these sites are in the Green Belt and one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly: "Traveller sites (temporary or permanent) in the Green Belt are inappropriate development". The Council's approach is clearly in breach of that policy. All three sites are also some distance from public services and they are all in the same part of the borough (two are in Heathfield ward, one just over the border in Croham). Why has Heathfield been singled out in this way? If the Council really needs, as it claims, to quadruple the number of gypsy/traveller sites in the borough - which I would question - they should look elsewhere (for example, off the Purley Way where the existing site is).	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
3944/01/002/DM44.2/O	Mr & Ms Gin Pang & D'Archambaud	Object	DM44.2 661	We object to Policy DM44 table 11, 17 site 661 on page 179 - traveller sites temporary or otherwise are inappropriate in the green belt	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

3945/01/001/DM44.2/O	Mr & Mrs Isaac	Object	DM44.2 661	We are writing to object to the above proposals. We have grown up in South Croydon and have been regular visitors to Coombe Wood and gardens, and now with our young daughter. This green belt refuge in dense suburban Croydon would suffer great from any development in Conduit Lane. A traveller site would be inappropriate and adversely affect the character of this special environment. We understand that there are always competing demands and needs for the council to meet in the borough but please recognise the amenity value of precious green areas in Croydon, that would be lost to future generations by insensitive development.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
3951/01/001/DM44.2/O	Mrs Haywood	Object	DM44.2 661	<p>1. This site is in the Green belt and according to Government Policy is deemed inappropriate.</p> <p>2. the council has gone to great expense to protect the site from mobile travellers and this seems to have been a great waste of taxpayers money if they now allow a permanent site.</p> <p>3. Several business which make a big contribution to the local economy and also provide much needed amenity to the public will be detrimentally affected by the site</p> <p>4. Coombe park which is beautiful landscape park and contains many memorials to war dead and families loved ones will be completely overwhelmed by this enormous traveller development for up to 75 mobile homes right next door. The huge amount of traffic going along Conduit Lane will make access to the park from the parking bays on the other side of the road much more difficult and dangerous.</p> <p>5. Again the size of the site will totally overwhelm the nearest settlement of residents, and I am of one of them, I only brought my home a year ago, and if there had been a traveller development there then i would have not purchased the property. And I don't want to have to move from this area. From when travellers that got access to the field opposite Lloyds park a few months ago and the state they left the field in was awful. South croydon is such a lovely area to live in, very quiet with beautiful parks and this should not be ruined. And from point 2 what would have been the point of spending all the money to keep them away then giving them place that we have trying to protect would be such a waste.</p>	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

3957/01/003/DM44.2/O	Mrs P Lamb	Object	DM44.2 661	<p>I wish to appeal against the proposed Traveller Sites in Coombe Farm, off Oaks Road, and Coombe Lodge Nurseries off Conduit Lane.</p> <p>As a resident of Oaks Road for over 20 years, I find this proposal extremely poorly planned. This is a Green Belt area, of which I believe, building is not permitted. Also, an area of Nature Conservation Interest.</p> <p>We have had the misfortune several times over the years, of travellers stopping in this area. We have had to put up with noise, litter, and general bad behaviour, including theft from our property.</p> <p>Since Labour have come into power at the council, the litter collection has been severely depleted, leaving our beautiful road a mess. I fear the unwanted traveller sites would only make things worse.</p> <p>Has anyone checked that the entrance to the site from Oaks Road is extremely narrow, and NOT suitable for large caravans to enter or leave?</p> <p>Also, the transport links from that area are poor.</p> <p>I suggest this is political, as the sites chosen are in a Conservative held part of the borough.</p> <p>Please look again at your proposals, and not attempt to damage one of the few remaining green and pleasant parts of this borough.</p>	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
3960/01/005/DM44.2/O	Mrs R Jennings	Object	DM44.2 661	<p>Policy DM44.2 - Gypsy traveller site on green belt - not appropriate - Policy E of Government Planning Policy for traveller sites states that traveller sites, temporary to permanent are not permitted.</p>	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
3972/01/002/DM44.2/O	Mr & Mrs N Patel	Object	DM44.2 661	<p>The site is in a Green belt area and according to Government policy is deemed inappropriate. The council has gone to great expense to protect the site from travellers and it would be a waste of taxpayers money if a permanent site was allowed. The size of the site will overwhelm the nearest residents.</p>	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Object	Soundness - Justified	DM44.2 661	Coombe Lodge Nurseries, ref. 661;	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
			<p>This site would also constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b;</p> <p>Several businesses which make a big contribution to the local economy and also provide much needed amenity to the public will be detrimentally affected by the site. We have heard from local residents that some gypsies have been threatening staff in a small café near the site. They will not objecting now for fear of reprisal. We have three young children and would not take them to Lloyd Park or Coombe Woods if this traveller site was allowed to go ahead. Many local residents we have spoken would do the same, for the safety of their children. We have a friend living near a gypsy site and they are constantly causing trouble in parks and residents are continually being threatened with physical and verbal abuse. This behaviour is totally unacceptable.</p> <p>Gypsies and Travellers often express their preference to be within walking distance of shops/ health centres/ schools/ local amenities. The proposed sites are not close to any of these. The proposed sites go against Gypsies and Travellers preferences and against environment and climate initiatives by promoting the use of their own vehicles for daily life.</p> <p>Coombe Wood is a Site of Nature Conservation Interest (SNCI) (List of Historical Park and Gardens 2008) and borders the proposed Coombe Lodge Nurseries site, and would be negatively impacted by the plans.</p> <p>Coombe Woods is a beautiful park and this massive traveller development would cause a huge amount of traffic going along Conduit Lane, Coombe Road and Oaks Road. This would make parking on the Conduit Lane and the other side of the road more difficult and very dangerous. These parking bays are used by families and the very old to give them easy access to the park.</p> <p>Also, the size of the site would totally overwhelm the nearest settlement of residents on Coombe Road, Oaks Road and Oaks Lane.</p>		

3978/01/003/DM44.2/O	Ms S Ikpa	Object		DM44.2 661	I am a Croydon resident and am writing to object to the use of the following locations as gypsey and traveller sites: Coombe Lodge Nurseries off Conduit Lane, site reference number 661. policy number DM44: and Coombe Farm off Oaks Road, site reference number 502. policy number DM43 Pear Tree Farm and Pear Tree Farm Cottage on Featherbed Lane, site reference number 755, policy number DM32. All three sites are in the Green Belt, with one bordering a site of Nature Conservation. The proposed use of each of these sites would constitute inappropriate development in the Green Belt and would not comply with Policy 5P2.7a and SP2.7b and would not be consistent with Policy E of 'Planning Policy for Traveller Sites' published by the Government. If additional sites are required in the Borough it would more appropriate to expand existing sites eg the site off the Purley Way. In addition none of the sites has easy access to local school, healthcare, retail and other amenities; the vehicular access into sites 661 and 502 is problematic and egress onto Coombe Lane/Oaks Road at the road junction is likely to create additional road hazards.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
3979/01/003/DM44.2/O	Ms Olive Anne Bowyer	Object	Soundness - Justified	DM44.2 661	Ref. 502. Proposed sites for gypsy/travellers in Green belt land. Government policy published in August says very clearly "travellers sites (temporary or permanent) in the Green Belt are inappropriate development ". This is in breach of this policy. Coombe farm and Ref. 755 Featherbed Lane (Peartree Farm Cottage near to Hutchingsons Nature Reserve) are all Green Belt.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
3982/01/009/DM44.2/O	Mr & Mrs Smith	Object		DM44.2 661	We are strongly against the planning ideas you have over green spaces. Please add these six against to planning ideas with references below  DM40.1 DM2 40.4 DM44.2 DM28 DM31.4	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

3986/01/003/DM44.2/O	Mr & Mrs Crane	Object	Soundness - Justified	DM44.2 661	<p>We are life long residents of Croydon. With reference to the local plan we would like to object to the following proposals:</p> <ul style="list-style-type: none"> <li>•DM40.1 - A skyscraper in Purley is total out of character for the town. Purley needs development but this is not the way to go about it.</li> <li>•DM40.4 - Purley Pool - whilst not objecting to this area being redeveloped it should include a swimming pool. Our children learnt to swim here and it is an important facility to the community. For instance our Farther uses it regularly. It has been vital to maintaining his health and he would not be able to travel to more distant pools.</li> <li>•DM44.2 - It is not appropriate to have a travellers site on green belt land. We believe it is important to protect all Green Belt land from development</li> <li>•DM31.4 - We are opposed to the intensification of these areas.</li> </ul>	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
3989/01/003/DM44.2/O	Mr & Mrs Thomas	Object	Soundness - Consistent with National	DM44.2 661	<p>Please can I object to the Labour Councils plans to build Gypsy/ Traveller Sites in the Green Belt. Why is this Council determined to concrete over the leafy / green areas of Croydon ? We do not need Traveller encampments anywhere near Pear Tree Farm or in Featherbed Lane. There are enough brownfield sites in the Borough for these camps to be built.</p>	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
3995/01/002/DM44.2/O	Mr & Mrs Jarrett	Object		DM44.2 661	<p>We strongly object to any alteration of properties on Forestdale which would prove to be unsightly also the proposed sites on Featherbed Lane and Conduit Lane. We are a green belt area!!! Please let it stay that way.</p>	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

3997/01/009/DM44.2/O Mr P Fitzpatrick	Object	Soundness - Justified	DM44.2 661	<p>I am formally objecting to:</p> <p>3. the use of the following locations as gypsy / traveller sights:</p> <p>Coombe Farm off Oaks Road REFERENCE NUMBER 502;</p> <p>Coombe Lodge Nurseries off Conduit Lane REFERENCE NUMBER 661; and</p> <p>Pear Tree Farm and Pear Tree Farm Cottage on Featherbed Lane REFERENCE NUMBER 755;</p> <p>As the Council acknowledges all three of these sites are in the Green Belt and one of them borders on a Site of Nature Conservation Interest. Policy E of "Planning Policy for Traveller Sites", published by the Government in August says very clearly</p> <p>"Traveller Sites (temporary or permanent) in the Green Belt are inappropriate Development"</p> <p>The Council's approach is clearly in breach of the policy. All three sites are also some distance from public services and they are all in the same part of the borough (two are in Healthfield ward, one just over the border in Croham). Why has Healthfield been singled out in this way? If the Council really needs, as it claims, to quadruple the number of gypsy / traveller sites in the borough - which I would question - they should look elsewhere (for example off the Purley Way where the existing site is).</p>	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
3998/01/004/DM44.2/O Mr P Skuse	Object		DM44.2 661	<p>I personally object to some of the proposals - The Local Plan Policy DM44.2, Table 11.17, site 661 (p179). The council plans to create a Gypsy/Traveller site here on a greenbelt site, which is extremely inappropriate especially as it would be impossible to prevent any spoiling of Coombe Wood garden and woodland by occupants of such a site. The garden and associated land are a delight which should not risk further vandal damage!</p>	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

4002/01/009/DM44.2/O	Mr & Mrs Turner	Object		DM44.2 661	We are writing to object to the following sites for housing and traveller sites. (661)		Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
4007/01/003/DM44.2/O	Mr R Horton	Object		DM44.2 661	I wish to log my objection to the two large gypsy/travellers site in Coombe Farm and the Conduit Nursery of Coombe Road.		Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
4010/01/008/DM44.2/O	Mr R Morley-Smith	Object	Soundness - Justified	DM44.2 661	<p>Happy for the Council to replace under-used garages with much-needed homes, but will be objecting to building on precious open space.</p> <p>Objecting to the use of either of these locations as gypsy/traveller sites. As the Council acknowledges, they are both in the Green Belt and one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly:</p> <p>Traveller sites (temporary or permanent) in the Green Belt are inappropriate development.</p> <p>The Council's approach is clearly in breach of that policy. Both sites are also some distance from public services.</p>	If the Council really needs, as it claims, to quadruple the number of gypsy/traveller sites in the borough - which I would question - they should look elsewhere (for example, off the Purley Way where the existing site is).	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
4014/01/004/DM44.2/O	Mr R Swatton	Object		DM44.2 661	<p>Policy DM42 (note: policy reference is incorrect in representation), Table 11.17</p> <p>To endeavour to establish "Gypsy/Travellers site on this land contravenes Government policy for Greenbelt sites.</p> <p>And due to it's nature this site is totally inappropriate for this area and will have a significant impact on local residents.</p>		Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

4015/01/002/DM44.2/O	Mr R Thurlow	Object		DM44.2 661	Conduit Lane and Coombe Farm sites are on greenbelt land. Government policy states "Traveller sites temporary or permanent in the Greenbelt are inappropriate developments". As well as damaging the local environment, there are not sufficient local amenities to cope with two traveller sites in close proximity.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
4016/01/002/DM44.2/O	Mr R Toomey	Object		DM44.2 661	I would like to object to use of the following sites; Coombe lodge Nurseries, site reference 661 Coombe Farm site reference 502. Both these sites are Green Belt. Also the whole character of the area would change. The doctors surgeries are already overcrowded as are dentists and hospitals. The schools in the area are at bursting point. I use the trams and they are also overcrowded especially during the rush hour. If the Green belt site is de designated this could be the start of many more. There are other sites in Croydon that are not Green Belt. Why can't existing sites be expanded? I hope you take my views into consideration as everybody that I know in the area is of the same view. Yours faithfully,	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
4018/01/004/DM44.2/O	Ms R Magee	Object		DM44.2 661	Proposed Gypsy/Traveller sites proposed for Addiscombe and East Croydon, Addington, Forresdale and Addington and Shirley - This sounds like a dreadful idea. I strongly object to the above proposal – This is a dreadful idea and surely anyone with any love or concern for Croydon would also object strongly.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
4019/01/002/DM44.2/O	Mr R Appadu	Object	Soundness - Justified	DM44.2 661	I would like to lodge my objection to the use of this location as gypsy/traveller sites. As the Council acknowledges, they are both in the Green Belt and one of them borders a Site of Nature Conservation Interest.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

4020/01/002/DM44.2/O	Mr & Mrs Smith	Object		DM44.2 661	<p>I wish to object to the proposed 'Permanent Gypsy &amp; Traveller sites in:</p> <p>Coombe lodge nurseries, conduit lane, coombe road, south Croydon – ref 661 &amp; Coombe farm, oaks road, Shirley – ref 502</p> <p>My main reasons for objecting are that this land is Green belt and we only recently moved to our home in this area due to the fact that we did have this open land, of which at least the green belt we had been lead to believe was 'protected' from development of or for other uses such as permanent homes or structures. I strongly believe that the proposals would be an inappropriate use of Green Belt land and would also actually be against the government's policy for Traveller sites, DCLG aug 2015. I believe any site proposal should look instead at Brownfield or Industrial land.</p> <p>Alternatively, I feel it is much more logical to expand existing permanent Gypsy sites in Lanthams Way off Beddington Farm Road. Other alternatives which would in our view be much more appropriate use of land would be: the land of the former Croydon Airport runway south of Imperial Way, Waddon ref 536 or Cane Hill-south part, Hollymeoak Road/Portnalls Road Coulsdon ref 767.</p>	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
4022/01/010/DM44.2/O	Mr & Mrs Ewin	Object	Soundness - Justified	DM44.2 661	<p>Objection to Croydon Council's proposal to provide sites for travellers &amp; the building of houses, etc on green land in Shirley &amp; other areas.</p>	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
4023/02/001/DM44.2/O	Ms S Amin	Object		DM44.2 661	<p>I am writing to object to the use of the location of site 661 as a gypsy and traveller site. The site would constitute in appropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b.</p>	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

4024/01/001/DM44.2/O	Ms S Bailey	Object		DM44.2 661	<p>I register an objection to both of these proposals on the following grounds. Both are acknowledged to be in the Green Belt and the proposal is contrary to Policy E of Planning Policy for Traveller Sites which was published by the government in August 2015, which says "Traveller sites (temporary or permanent) in the Green Belt are inappropriate development". One of the sites adjoins a Site of Nature Conservation Interest, which would suffer detrimentally as a result of this proposed development and the impact on such a site should be a criteria when assessing potential locations. A lack of suitable criteria, not to have an unacceptable adverse impact on biodiversity, have been used when looking at potential locations which has resulted in the rather perverse selection of two sites in the Green Belt. It seems turning green belt in to a gypsy / traveller site can only have an impact on biodiversity. Additional criteria should also be utilised, including:</p> <ul style="list-style-type: none"> <li>- Not in the Green Belt.</li> <li>- Does not impact upon important open spaces such as a Sites of Nature Conservation Interest / Areas of Outstanding Natural Beauty / SSSI's or other protected locations.</li> <li>- Residential properties or other recreational areas, such as parks and gardens, will not be impacted by the "setting" of gypsy / traveller sites.</li> <li>- Existing services (water, sewerage, highways) and other public services are already in place and easy to access.</li> </ul> <p>Suitable alternatives have not been considered. Even a cursory drive around the area of the existing gypsy / traveller site will reveal much more suitable locations in close proximity to existing facilities.</p>	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
----------------------	-------------	--------	--	---------------	---	--------	---

4026/01/002/DM44.2/O	Mr S Dhanda	Object	Soundness - Justified	DM44.2 661	<p>The use of land to provide pitches at Coombe Farm, Oaks Road or Coombe Lodge Nurseries, Conduit Lane is entirely out of keeping with the character of those areas. Why ruin such beautiful areas so close to central Croydon for future generations? Once gone, that land will be gone forever. We should treasure areas such as these and put them to a much more appropriate use in keeping with the use of similar surrounding land. Housing/Residential/Pitches are not good uses of this land.</p>	The only real alternative if there has to be one is at Pear Tree Farm, Featherbed Lane where there already exists a large scale housing development and appropriate facilities including schools, transport and infrastructure nearby.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
----------------------	-------------	--------	--------------------------	---------------	--	--	--------	---

4027/01/001/DM44.2/O	Debby Stanhope	Object		DM44.2 661	I object to the use of the site for gypsy and traveller accommodation.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
4028/01/002/DM44.2/O	Mrs S Dixon	Object	Soundness - Justified	DM44.2 661	I am writing to object to: 1. the use of the following locations as gypsy and traveller sites: Coombe Lodge Nurseries off Conduit Lane, site reference 661; Coombe Farm off Oaks Road, site reference 502; as both sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b;	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
4029/01/003/DM44.2/O	Mr Islam Hameed	Object		DM44.2 661	SP2.7 makes no mention of impact on the surroundings of the site and nearby residents. Accordingly, an additional criterion should be added 'f.Must be entirely acceptable in relation to its impact on nearby public spaces and residents and businesses in the area.' If this were included the proposals Ref 502, Coombe Farm, and Ref 661, Coombe Lodge Nurseries, would immediately be seen to be inappropriate. Coombe Lodge Nursery is by the lovely gardens of Coombe Wood with its popular tea room and wooded area. Coombe Farm is green belt land in Lloyd Park, left to the people of Croydon by the Lloyd family and where families enjoy the open space, kids play in the play area, joggers, dog walkers and of other walkers exercise, spots are played, families snack in the cafe and everyone feels reasonably safe".	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

4031/01/004/DM44.2/O	Mr S Juggoo	Object	DM44.2 661	<p>As a resident in the area, I am writing to object to, the use of the following locations as gypsy and traveller sites;</p> <p>a) Coombe Lodge Nurseries off Conduit Lane, site reference 661  b) Coombe Farm off Oaks Road, site reference 502</p> <p>as above sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7A and SP2.7B;</p> <p>The de-designation of: Croham Hurst as Green Belt, despite being a biological Site of Special Scientific Interest (SSSI) and a site of Metropolitan Importance for Nature Conservation; Coombe Road Playing Fields as Green Belt, site reference 662; as the de-designation of both sites would not comply with Policy SP7.2 and protection of the green grid.</p> <p>These proposals are clearly harmful for the Green Belt and would have a negative impact on the environment and wildlife in Coombe Wood, Shirley Hills and Lloyd Park. It would create a precedent for further erosion of our valuable local amenity. Coombe Road and Coombe Lane are already very busy roads and one of the main arteries into the town centre. The additional traffic emanating from these two sites, without significant road improvements, would exacerbate the traffic congestion, not to mention the additional pressure on the already stretched local services such as schooling and general practitioners. The access roads to these proposed sites are clearly unsuitable for the larger vehicles that this community use as part of their livelihood and way of life. The junctions at Coombe Road, Oaks Road and Conduit Lane are already dangerous for vehicles and this area has the potential with this proposal to become a major accident black spot without significant very costly improvements to the local road network.</p>	Change	<p>This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.</p>

Therefore, the proposed allocation will be deleted and an alternative site found.

I would like to register my strong objection to the Council's proposals for the consideration of Coombe Farm and Coombe Lodge Nurseries as gypsy/traveller as stated in the above documents and reference numbers. The sites are both in the Green Belt and one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly:

"Traveller sites (temporary or permanent) in the Green Belt are inappropriate development".

The Council's proposals would be in breach of that policy. In addition to this policy breach, these sites are surrounded by parks which are regularly enjoyed by many local residents (including myself) for their natural beauty and relaxing environments. Their positive contributions to our well-being cannot be underestimated and will be significantly impacted by your proposals. It is therefore hard to imagine why such sites have even been considered at all, or in preference to other sites in the Council's document 'Assessment and selection of sites for Gypsy and Travellers August 2015'. The scoring method applied is rather confusing. For example, the GB/MOL criteria in the table in section 4.1 has the possible scores of -10, -5 or +10, yet the two references above have been given a GB/MOL score of 5, which is detrimental to their overall score. I would be grateful if the Council could reconsider its plans. Please explain regarding the issues raised around the above objections.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

I am grateful to the Council for consulting on the detailed policies and proposals that will make up the Croydon Local Plan. There is much in the document that I agree with, but some of the proposals would, in my opinion, change the character of parts of Croydon very much for the worse. I hope you will forgive me if I focus on these areas of contention. I am therefore writing to formally object to:

1. de-designation of the Metropolitan Open Land around Shirley Oaks Village;

2. the use of the following five sites for housing:

- land at Poppy Lane reference number 128;

- Stroud Green Pumping Station, 140 Primrose Lane reference number 504;

- land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House reference number 541;

- land to the west of Shirley Oaks Road reference number 542; and

- land to the rear of 5-13 Honeysuckle Gardens reference number 548.

If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces. Building housing on them would mean the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of this part of Shirley. As far as I can see, these are the only bits of Metropolitan Open Land in the whole borough which the Council is proposing to de-designate and allow housing to be built on. Why has Shirley Oaks been singled out in this way?

3. the use of the following locations as gypsy/traveller sites:

- Coombe Farm off Oaks Road reference number 502;

- Coombe Lodge Nurseries off Conduit Lane reference number 661; and

- Pear Tree Farm and Pear Tree Farm Cottage on Featherbed Lane reference number 755;

As the Council acknowledges, all three of these sites are in the Green Belt and one of them borders a Site

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

of Nature Conservation Interest.  
Policy E of Planning Policy for  
Traveller Sites, published by the  
Government in August, says very  
clearly:

“Traveller sites (temporary or  
permanent) in the Green Belt are  
inappropriate development”.

The Council's approach is clearly in  
breach of that policy. All three sites  
are also some distance from public  
services and they are all in the same  
part of the borough (two are in  
Heathfield ward, one just over the  
border in Croham). Why has  
Heathfield been singled out in this  
way? If the Council really needs, as  
it claims, to quadruple the number of  
gypsy/traveller sites in the borough -  
which I would question - they should  
look elsewhere (for example, off the  
Purley Way where the existing site is);

4.focussed intensification associated  
with gradual change of an area's  
local character under Policy DM31.4  
of the Shirley Road Shopping  
Parade, Shirley local centre and  
Forestdale. Shirley Road Shopping  
Parade is surely worthy of protecting  
rather than replacing with medium-  
rise blocks? Shirley local centre is  
defined not just as a stretch of the  
Wickham Road (where some  
intensification may be appropriate)  
but Ridgemount Avenue, Wickham  
Avenue, Peregrine Gardens, West  
Way Gardens, the northern section of  
Hartland Way and the western parts  
of Bennetts Way and Devonshire  
Way. Replacing the largely semi-  
detached buildings in these  
residential roads with medium-rise  
blocks would completely change the  
character of Shirley. Replacing the  
largely terraced housing and small  
blocks of flats in Forestdale with  
medium-sized blocks would  
completely change that area too;

5.Policy DM2 on development on  
garden land, which is too subjective  
and therefore too weak. There  
should be a much stronger  
presumption against development on  
garden land; and

6.Policy DM28, which should allow  
higher levels of parking in  
developments of low public transport  
accessibility. Restricting parking  
spaces in such areas doesn't lead to  
fewer people owning their own car; it  
just leads to greater competition for  
existing spaces.

4051/01/009/DM44.2/O	Mr Matt Knight	Object	DM44.2 661	I object to the use of the site as a traveller site.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

4054/01/004/DM44.2/C Mr & Mrs Shah

DM44.2

Change

661

We would like to notify you of our objection to the proposed traveller sites at Coombe Farm off Oaks Road and Coombe Lodge Nurseries off Conduit Lane, as described in your consultation on the detailed policies and proposals for The Croydon Local Plan.

We understand that there are plans to change the designation of areas of Green Belt and Metropolitan Open Land. Specifically, we understand that the Council have identified two locations in the Shirley area for gypsy/traveller sites at Coombe Farm off Oaks Road and Coombe Lodge Nurseries off Conduit Lane.

We wish to object to the Council's proposals as both these sites are in the Green Belt and the proposals are contrary to Government policy (Policy E of Planning Policy for Traveller Sites) which states "Traveller Sites (temporary or permanent) in the Green Belt are inappropriate development". Clearly the Council's approach is in breach of this policy.

It is also our understanding that one of these proposed locations for gypsy/traveller sites borders a Site for Nature Conservation Interest. Also both these proposed sites are some distance away from public services.

It is our view that the proposals will change the character of our area very much for the worse.

In the circumstances, these proposals should not be approved.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

4056/01/003/DM44.2/O Mr & Mrs Ferguson

Object

DM44.2

Change

661

We are writing to object to:  
1. the use of the following locations as gypsy and traveller sites:  
Coombe Lodge Nurseries off Conduit Lane, site reference 661;  
Coombe Farm off Oaks Road, site reference 502;  
because both sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b:

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

4058/01/012/DM44.2/O	Mrs Mary Gray	Object	DM44.2 661	Coombe Lodge Nurseries off Conduit Lane reference number 661; As the Council acknowledges, all three of these sites are in the Green Belt and one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly: "Traveller sites (temporary or permanent) in the Green Belt are inappropriate development". The Council's approach is clearly in breach of that policy. All three sites are also some distance from public services and they are all in the same part of the borough (two are in Heathfield ward, one just over the border in Croham). Why has Heathfield been singled out in this way? 4075/01/008/DM44.2/O	Kaljit Gata-Aura	Object	DM44.2 661	I object to the use of following locations as gypsy or traveller site Coombe Lodge Nurseries off Conduit Lane - Ref 661		Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
----------------------	------------------	--------	---------------	---	--	--------	---

---

4078/01/007/DM44.2/O	Mr & Mrs Belsey	Object	DM44.2 661	The area where the travellers site is being suggested is Greenbelt. We must not build on Greenbelt sites, as these are areas for relaxation, wild life and nature. Again this will result in a decrease in wild life and more flooding.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
4079/01/003/DM44.2/O	Melissa Chu	Object	DM44.2 661	I am a Croydon resident and am writing to object to the use of the following locations as gypsey and traveller sites: Coombe Lodge Nurseries off Conduit Lane, site reference number 661. policy number DM44: and Coombe Farm off Oaks Road, site reference number 502. policy number DM43 Pear Tree Farm and Pear Tree Farm Cottage on Featherbed Lane, site reference number 755, policy number DM32. All three sites are in the Green Belt, with one bordering a site of Nature Conservation. The proposed use of each of these sites would constitute inappropriate development in the Green Belt and would not comply with Policy 5P2.7a and SP2.7b and would not be consistent with Policy E of 'Planning Policy for Traveller Sites' published by the Government. If additional sites are required in the Borough it would more appropriate to expand existing sites eg the site off the Purley Way. In addition none of the sites has easy access to local school, healthcare, retail and other amenities; the vehicular access into sites 661 and 502 is problematic and egress onto Coombe Lane/Oaks Road at the road junction is likely to create additional road hazards.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
4080/01/001/DM44.2/O	Natwarlal Patel	Object	DM44.2 661	I object to the use of the site for gypsy and traveller accommodation.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

4081/01/003/DM44.2/O	Mr & Mrs Hyde	Object	DM44.2 661	<p>We object to:</p> <p>the proposed de-designation of Croham Hurst and Coombe Road playing fields as Green Belt.</p> <p>the proposed use of Coombe Lodge Nurseries (site 661) and Coombe Farm (site 502) as gypsy &amp; traveller sites.</p> <p>These linked areas, which connect with Lloyd Park &amp; Shirley Hills, contribute hugely to the amenity of the borough. This public continuum is precious to many from across Croydon and beyond. Development and traveller sites would change the character of the amenity, particularly the Conduit Lane footpath.</p>	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
4082/01/001/DM44.2/O	Philip Jupp	Object	DM44.2 661	I object to the use of the site for gypsy and traveller accommodation.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
4083/01/010/DM44.2/O	Mr Reuben Gata-Aura	Object	DM44.2 661	<p>object to the use of following locations as gypsy or traveller sites:</p> <p>Coombe Farm off Oaks Road - Ref 502</p> <p>Coombe Lodge Nurseries off Conduit Lane - Ref 661</p>	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
4084/01/001/DM44.2/O	Mr & Mrs Millward	Object	DM44.2 661	I just want to register our strong protest at the proposal to have a gipsy camp (no matter what size) at Conduit Lane (or anywhere else in the area for that matter).	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
4085/01/007/DM44.2/O	Mrs Shelley Chatter-Singh	Object	DM44.2 661	DM44.2 Gypsy/traveller site. Whilst this group should be offered a fixed site, this proposal is not a good solution and the chosen site is inappropriate and will adversely affect local business and the environment.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

4089/01/007/DM44.2/O	Victoria Moore	Object	DM44.2 661	the Council has identified two locations on the edge of Shirley for gypsy/traveller sites: Coombe Lodge Nurseries off Conduit Lane, which is identified as suitable for 15-25 pitches (pages 468-469, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 661). "Traveller sites (temporary or permanent) in the Green Belt are inappropriate development". The Council's approach is clearly in breach of that policy. Both sites are also some distance from public services. If the Council really needs, as it claims, to quadruple the number of gypsy/traveller sites in the borough - which I would question - they should look elsewhere (for example, off the Purley Way where the existing site is).	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
4095/01/005/DM44.2/O	Vaughan Pomeroy	Object	DM44.2 661	I realise that proper provision for Travellers is required to stop, hopefully, the abuse of the open spaces unofficially and illegally. I do not understand how Conduit Lne could be an appropriate location for such a site and suggest that one of the many brownfield sites around Croydon could be selected in preference.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

4096/01/003/DM44.2/O	Mr Vince Hemment	Object	DM44.2 661	<p>the use of the following locations as gypsy/traveller sites:</p> <ul style="list-style-type: none"> <li>- Coombe Farm off Oaks Road reference number 502;</li> <li>- Coombe Lodge Nurseries off Conduit Lane reference number 661; and</li> <li>- Pear Tree Farm and Pear Tree Farm Cottage on Featherbed Lane reference number 755;</li> </ul> <p>As the Council acknowledges, all three of these sites are in the Green Belt and one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly:</p> <p>“Traveller sites (temporary or permanent) in the Green Belt are inappropriate development”.</p> <p>The Council's approach is clearly in breach of that policy. All three sites are also some distance from public services and they are all in the same part of the borough (two are in Heathfield ward, one just over the border in Croham). Why has Heathfield been singled out in this way? If the Council really needs, as it claims, to quadruple the number of gypsy/traveller sites in the borough - which I would question - they should look elsewhere (for example, off the Purley Way where the existing site is);</p>	Change	<p>This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.</p>
4100/01/003/DM44.2/O	Mr Tim Newman	Object	DM44.2 661	<p>I particularly object to Coombe Lodge Nurseries, Conduit Lane (ref 661) on the edge of Shirley which the Council has identified for Gypsy/Traveller sites. Both of these sites are in the Green Belt and therefore inappropriate for development in my opinion.</p>	Change	<p>This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.</p>

Proximity to Coombe Woods and a proposed Secondary School in Coombe Road Playing Field and a busy pub/restaurant is totally inappropriate for such use. The result will be a blight on the local area that will affect house prices negatively. We have lived in Melville Avenue since 2011 and on two occasions during this time travellers have set up camp in the Combe Road playing field directly behind our property. In the summer of this year, they parked a generator lorry right up against the hedge next to our garden which ran throughout the night on several occasions and had a noisy party with music and a large bonfire just the other side of this hedge, directly under a large Ash tree at the bottom of our garden. Despite several calls to the council on different occasions we were unable to obtain any help to mitigate the noise and nuisance, despite the fact this was happening on council-owned land, and we were clearing up bottles and other rubbish from our garden for several days after their eventual departure. The local police were also unable to help. Our recent experience is that the council is completely unable or unwilling to enforce any of the normal rules of behaviour to protect its taxpayers where travellers are concerned and how will this be different if travellers are given a site they can visit whenever they wish? The proposed site will be next to a school if that part of the plan goes ahead and will be adjacent to Combe Woods, which attracts many families and senior citizens. There are no local amenities to serve the site and transport links are limited to the tram with stops some distance from the site. This is not a simple NIMBY response based on unfounded prejudice, but a very real worry based on our recent experience of travellers in this area. If the political aim behind this is to assimilate travellers into mainstream society, then any proposed site needs to be close to amenities. This proposal would exacerbate the traffic congestion that is already apparent in this area as the site is some way from any shops or other services. I cannot believe that anyone would seriously consider that locating a traveller site between a school (if that proposal goes ahead, and which we will have no objection to), busy local gardens with café and a busy restaurant/pub was a good idea.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

4104/01/008/DM44.2/O	Terrence & Jacqueline Spriggs	Object	Soundness - Justified DM44.2 661	<p>Happy for the Council to replace under-used garages with much-needed homes, but will be objecting to building on precious open space.</p> <p>Objecting to the use of either of these locations as gypsy/traveller sites. As the Council acknowledges, they are both in the Green Belt and one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly:</p> <p>Traveller sites (temporary or permanent) in the Green Belt are inappropriate development.</p> <p>The Council's approach is clearly in breach of that policy. Both sites are also some distance from public services.</p>	If the Council really needs, as it claims, to quadruple the number of gypsy/traveller sites in the borough - which I would question - they should look elsewhere (for example, off the Purley Way where the existing site is).	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
4105/01/002/DM44.2/O	Mrs Wendy Crayford	Object	DM44.2 661	<p>Objects to site 661 being identified as a gypsy/traveller site for the following reasons:</p> <ul style="list-style-type: none"> <li>- inappropriate use of Green Belt Land</li> <li>- Lack of relevant amenities close to hand</li> <li>- Lack of supportive infrastructure</li> <li>- Adverse effect on neighbouring businesses and leisure amenities</li> <li>- Site has a more appropriate use for a school</li> </ul>		Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
4106/01/002/DM44.2/O	Mr T King	Object	DM44.2 661	<p>We both strongly object to council plans as below</p> <p>1 Plans to create a Travellers site on Conduit Lane Policy DM 44 2 Table 11-17 site661 we object on the grounds that it is in a Green Belt area and not appropriate to put a travellers site here</p>		Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
4107/01/001/DM44.2/O	Mrs Winifred Good	Object	DM44.2 661	<p>I do not consider Coombe Lodge Nurseries an appropriate site to house travellers It is on Green Belt Land which should not be encroached upon. Surely there are Brownfield sites in the borough more appropriate for a settlement of this sort. It is in a part of Croydon where families enjoy country style outings in the beauty and tranquility of the adjacent Coombe Gardens and it would be detrimental to the amenities there and to other adjacent owners. If Conduit Lane is to be used as an access road it could cause chaos as there is limited parking in this lane for the Gardens and it can be very busy at weekends. If access is to be by another route into Coombe Road this would surely create a traffic hazard.</p>		Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

4108/01/006/DM44.2/O	The Chudasama Family	Object	Soundness - Justified	DM44.2 661	<ul style="list-style-type: none"> <li>Policy DM44.2, Table 11.17, site 661 (p179) - This is a greenbelt site, and it is not appropriate to put a traveller site here. Policy E of "Planning Policy for Traveller Sites", published by the Government in August, says very clearly: "Traveller sites (temporary or permanent) in the Green Belt are inappropriate development".</li> </ul>	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
4109/01/003/DM44.2/O	Mr & Mrs Chang	Object		DM44.2 661	<p>We read with dismay and grave concern about Croydon council's plans to build three gypsy/travellers sites in the Green Belt of Shirley. This ill conceived act of allowing housing on some of our precious Green spaces and back gardens will totally decimate and change the character and the environment of this area. The traffic infrastructure will be totally inadequate with traffic problems already a big issue during peak hours as it is. It is already terrifying to see the number of tower blocks going up along East Croydon station resulting in the ever changing skyline of Croydon, turning the town into a massive concrete jungle. We sincerely implore you to reconsider your plans and not to destroy our beautiful green belt and protecting the environment in and around this area. We have lived in Shirley for forty years and over this period we have seen so many new buildings and green open spaces lost to developers.</p>	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
4110/01/003/DM44.2/O	Mr V Bhuwanee	Object	Soundness - Justified	DM44.2 661	<p>I would like to object to the proposed travellers sites for the following reasons which I believe are material grounds to refuse these plans:</p> <ul style="list-style-type: none"> <li>The Council has an obligation to consider all potential sites across the borough. It also needs to demonstrate this, and provide information that details what sites were considered (both private and publicly) together with full assessments on these sites. This I cannot see has been done.</li> <li>The suggested sites are in close proximity to each other in a huge borough. This cannot be correct. Fine, allow one - but all three? This is politically motivated.</li> <li>There is currently not enough amenities locally and no plans to increase them. School places and GPs are already full.</li> <li>Transport concerns. PTAL ratings or similar, where are they?</li> </ul>	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

4112/01/011/DM44.2/O	Ms V Cruickshank	Object		DM44.2 661	<p>5.The use of the following locations as gypsy/traveller sites:</p> <p>I object to the use of the following locations as gypsy/traveller sites: Coombe Farm off Oaks Road; reference number 502; and Coombe Lodge Nurseries off Conduit Lane; reference number 661.</p> <p>These are both in the Green Belt, where Policy E of Planning for Traveller Sites clearly says that travellers sites (temporary or permanent) in the Green Belt are inappropriate development".</p> <p>This is also likely to have a negative effect on the Site of nature conservation interest that one of the sites would border, and both sites are a distance from public services. It is also likely to create increased traffic problems in an area that is not best suited for such sites.</p> <p>Consideration should be given to the refurbishment of the existing sites, or where this is not possible, alternative and more appropriate sites.</p> <p>Consideration should be given to the refurbishment of the existing sites, or where this is not possible, alternative and more appropriate sites.</p>	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
4113/01/002/DM44.2/O	Ms W Mikiel	Object	Soundness - Justified	DM44.2 661	<p>I have been made aware of the proposals for Site References 661, 502 and 755 for use as traveller sites.</p> <p>I object on the grounds that these are Green Belt sites covered by Policy SP2.7a and SP2.7b and are therefore unsuitable for traveller camps. I use both sites near Coombe Lodge fairly regularly and was frightened by loose and dangerous dogs when the site was being used illegally by travellers, and I noticed that the woods were being used as a toilet. The amenities of that area would be lost to everyone else if these proposals were to</p>	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
4114/01/004/DM44.2/O	Mr & Mrs Kaczanowski	Object		DM44.2 661	<p>Below is a list of our objections:</p> <p>3. Policy DM 44.2, site 661 Gypsy/Traveller site on Conduit Lane, next to Coombe Wood Gardens - we strongly object to a site to be placed on a green belt. This will certainly have a negative environmental impact on this one and surrounding sites. Such a development will very negatively impact on character of the local area and will ultimately lead to its downgrading.</p>	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

4116/01/001/DM44.2/O	Mr & Mrs Mitton	Object	DM44.2 661	I am writing to object to the use of Coombe Lodge Nurseries off Conduit Lane, site reference 661 as gypsy and traveller site as this site would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b:	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
4117/01/039/DM44.2/O	Cllr S Brew	Object	DM44.2 661	Site 661, Coombe Lodge Nurseries, Conduit lane. Transition Town have expressed an interest in restoring this site to a proper nursery facility, utilising the existing greenhouses for the growing of food, which would be a sustainable and appropriate activity within this green belt site;	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
4117/01/002/DM44.2/O	Cllr S Brew	Object	DM44.2 661	I object to the use of the following locations as gypsy and traveller site: Coombe Lodge Nurseries off Conduit Lane, site 661;	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

As a local Resident in the Croham Ward of South Croydon the subject area is well known to me and my family, and in my opinion its use as proposed, or indeed for any kind of development, is wholly inappropriate, and accordingly I object. I have carefully reviewed the documentation prepared by the Council, and specifically looked at the Assessment and Selection of Sites for Gypsy and Travellers. Whilst the document is very comprehensive, I am unclear as to whether or not it is a universally adopted one that is used for the whole Country, and in any event question the methodology with its use of selective criteria and the RAG scoring which is very subjective. I noticed that the scoring for the subject site includes a positive  $\pm 5$  under the criteria heading of Green Belt/Metropolitan Open Land. This appears incorrect, and if I am reading and interpreting the document accurately then this score should be a negative -5. Assuming this is an error then it distorts the resultant figure by ten. Given this error, are there indeed others aswell? I also noted in the Gypsy and Traveller Accommodation Needs Assessment prepared by Croydon Council that it highlights a substantially higher level of additional pitches required in the first five years (2013-2018) where 27 pitches are stated, whereas in the subsequent five year periods only 7 or 8 pitches are scheduled for each of the three periods through to 2033. I would suggest that these lower figures in the latter years are unrealistic and in all probability are likely to rise. If so, then the pressure to enlarge the overall area of the subject site will increase, and it will of course be easier for the Council to try and justify it and probably win the argument because of the established use and precedent. Therefore, the size of the subject site and/or another one in the locality, will in all probability substantially increase. Fundamentally, this location is 'Green Belt' land and notwithstanding that it has some development and land use, the proposed use, or indeed for any kind of development, is wrong and in my opinion would not comply with Policy SP2.7a and SP2.7b. It is also my understanding that under Central Government policy if such land is designated as 'Green Belt', then it should enjoy the protection from all forms of development and not favour any particular group or person within the community unless there are special circumstances. In this case there are no such special circumstances. If any private

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

business person or organisation wanted to create a caravan and/or static home site in this location it would not receive Planning Permission - this is the 'test' for such a proposal, and we should not have differing sets of rules for the Council and the Public. In addition to the above I also note a list of other salient points as to why in my opinion the use of the subject land as proposed is inappropriate:

- Notwithstanding some nominal use of the area for local business, housing, and school/education purposes, the general locality is one of woodland, playing fields, parkland, and rural space. Any kind of use for more intense housing, and possibly associated businesses as well, for any sector of the community whether it be caravans, static homes, prefabricated houses, or traditional housing would be inappropriate.
- This area of Coombe is of some historical significance with several notable houses of architectural merit. Notwithstanding that some of the area and buildings have changed and indeed increased over the more recent decades, it still retains a relatively rural and spacious charm which should be respected and retained for current and future generations.
- More intense housing for any sector of the community will increase noise and light pollution and would be inappropriate.
- Local nature and wildlife is present in this area and as such should not be subjected to pressure from an increased resident population. Lloyd Park, Coombe Park, and the woods of Addington Hills which border and/or are in close proximity to the subject development site are of high public interest and could be negatively impacted by the proposals.
- The access road from Oaks Road that will form the route to the subject site is relatively narrow and already used by other residents and those accessing the playing fields. This road would need to be up-graded at considerable expense if the proposal were to proceed.
- Vehicle access onto Oaks Road is restricted with reduced visibility as well as being in very close proximity of the tram/road crossing.
- Notwithstanding the presence of the local Tramlink service, public transport is otherwise very limited and as such will force new residents to use private vehicles and thus cause more environmental pollution in an otherwise rural locality.
- Local amenities and facilities such as shops, health centres, possibly suitable schools are essentially non-existent and will force the residents to

use private vehicles unnecessarily.  
 - The proposed subject site is relatively large, and if approved, would potentially house a significant number of people and which may be further exacerbated by the possible location of another similar site in relatively close proximity. My understanding is that gypsy and traveller families actually prefer smaller sites.  
 - Development of this subject site with new and extended infrastructure in the form of services, sewage, power, fencing, roads, and hardstanding is likely to be very expensive, and indeed disruptive in providing.

Other locations, some thus far dismissed but there may be others, will almost certainly offer better use of the limited public funds available. Partial infrastructure may well be already in place or more readily available in these other locations and help to lessen the burden on the public purse. Also, in comprehensively reviewing other locations, it may be possible to address suitable brownfield sites that in all but easy situations private developers ignore and disregard, but which nevertheless remain a serious blight on the landscape of the Borough.

---

4121/01/004/DM44.2/O	Janet Norris	Object	DM44.2 661	I am writing to object to the use of Coombe Lodge Nurseries off Conduit Lane 661 as a gypsy/traveller site	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Object Soundness - DM44.2  
Justified 661

All three sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b.

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Furthermore, Policy E of 'Planning Policy for Traveller Sites', published by the Government in August, states very clearly that 'Traveller sites (temporary or permanent) in the Green Belt are inappropriate development'. The provision relating to travellers/gypsies in the Housing and Planning Bill will also remove sections 225 and 226 of the Housing Act 2004 which placed a duty on housing authorities to carry out an assessment of the accommodation needs of this group when reviewing housing conditions and needs within their areas (a process required by section 8 of the Housing Act 1985). Section 8 will also be amended to make it clear that the duty covers consideration of the needs of people residing in, or resorting to the district for, caravan sites and houseboat mooring sites.

I am also concerned by the evidence base for these selections, namely the 'Assessment and Selection of Sites for Gypsy and Travellers'. This assessment contains a vast number of very subjective criteria against which to judge site suitability and has been the subject of 'extensive political consultation'. This political consultation has only taken place with the Labour Administration and has not been conducted on a cross party basis. This begs the question as to what undue political influence may have been placed on the particular criteria which have been used and indeed the selection of the preferred sites. There is also some question as to why the same scoring system has not been used for each set of criteria, rather than subjectively giving weight to certain criteria. Furthermore, the scoring for individual sites has not been carried out in accordance with the table shown at 4.1. A number of sites have been marked incorrectly, for example, site 661 has been scored at 5 for Greenbelt/MOL, when the score should be -5. This begs the question as to how many other inaccuracies are in the document

4125/01/046/DM44.2/C	Councillor M Fisher	Comment	Soundness - Effective	DM44.2 661	Site 661, Coombe Lodge Nurseries, Conduit lane. Transition Town have expressed an interest in restoring this site to a proper nursery facility, utilising the existing greenhouses for the growing of food, which would be a sustainable and appropriate activity within this green belt site.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
4126/01/008/DM44.2/O	Mr Christopher Swan	Object		DM44.2 661	Whilst I agree that we desperately need new housing, it should be built on brownfield sites not our remaining precious green spaces! I understand the Council has identified two locations on the edge of Shirley for gypsy/traveller sites: Coombe Farm off Oaks Road, which is identified as suitable for 15-20 pitches (pages 449-450, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 502); and Coombe Lodge Nurseries off Conduit Lane, which is identified as suitable for 15-25 pitches (pages 468-469, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 661). I object to the use of either of these locations as gypsy/traveller sites. As the Council acknowledges, they are both in the Green Belt and one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly: 'Traveller sites (temporary or permanent) in the Green Belt are inappropriate development'. The Council's approach is clearly in breach of that policy. Both sites are also some distance from public services. If the Council really needs, as it claims, to quadruple the number of gypsy/traveller sites in the borough - which I would question - they should look elsewhere (for example, off the Purley Way where the existing site is).	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

4137/01/011/DM44.2/O	Mrs S Rudduck	Object	DM44.2 661	<p>I object to the use of Coombe Lodge Nurseries off Conduit Lane Ref: 661 as a gypsy/traveller site.</p>	Change	<p>This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.</p>
----------------------	---------------	--------	---------------	---	--------	--

4138/01/001/DM44.2/O	Ms S Rao	Object	DM44.2 661	I am a Croydon resident and am writing to object to Coombe Lodge Nurseries off Conduit Lane, (site reference 661 Policy DM44)	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
4139/01/001/DM44.2/O	Mrs S Chandarana	Object	DM44.2 661	<p>Build a school please. School is a viable option as there no schools in our area. The plan makers have missed a big point that existing infrastructure cannot cope with the influx of additional population at such a fast pace. Also it has to be planned over few years. It should never ben on a green belt/attached to a green belt sites as it is disastrous for the environment. There are quite a few brownfield sites in Croydon should be explored. What are the criteria behind selecting two sites within 1 mile of each other? The plan makers do not know the grass root situation. They have just assumed things without actually knowing the facts. This is a grave situation. There are quite a few public and independent schools in the nearby area. Building a new school will support Selsdon and nearby citizens. Besides we do not have a Grammar schol in Croydon. So, it would be ideal if we build a grammar school in Croydon on one of the proposed sites. Existing infrastructure just cannot cope with additional population in Croydon:</p> <ul style="list-style-type: none"> <li>- We have to wait at least 4-5 days to get appointment at doctors- many times do not get appointment</li> <li>- We have to wait at least 15 minutes to get a turn to play swing/slide for my son in any local parkl. The parks are so crowded during summer. Already children are getting very less exercise. If 40 families come over with more than 80 children then it would be extremely over crowded.</li> <li>- There are not enough schools in the area. We should build more schools</li> <li>- There is very limited green space in Croydon. Government policy states that you cannot build temporary or permanent sites on Green Belt. Putting the travellers sites near green belt will endanger.</li> <li>- Conduit lane is a no drive zone. Increased traffic due to a planned school and travellers sites will cause traffic chaos.</li> <li>- We need green belts for good health of the citizens. Steps like these would encourage the encroachment of green belts</li> </ul>	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

4140/01/002/DM44.2/C	Mr S Illingworth			DM44.2 661	There has been a history of unauthorised "pitches" in this area over the past few years, in particular on the field adjacent to the practise area and 5th hole on the golf course. On each occasion these pitches have been accompanied by residual mess, threatening behaviour and mindless theft of golf club property. Each time that Gypsies/Travellers have been in the area, they have trespassed onto the golf course while club members are playing, threatening those members with physical and verbal abuse on numerous occasions. This behaviour is totally unacceptable and very demoralising, and should either of these pitches go ahead I am sure that it will have a serious detrimental affect on both the club and it's members.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
----------------------	------------------	--	--	---------------	--	--------	---

4141/02/002/DM44.2/O	Mrs S Deshpande	Object	Soundness - Consistent with National	DM44.2 661	<p>I am writing to object to:</p> <p>1.The use of the following locations as a gypsy and traveller site:</p> <ul style="list-style-type: none"> <li>•Coombe Lodge Nurseries off Conduit Lane, site reference 661</li> </ul> <p>as the site would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b.</p> <p>There is also an error in the calculation for the Green Belt score in the selection criteria. The site should be scored -5 for being in Green Belt and not +5.</p> <p>There is an error in calculating the site access for this site. There are cars parked on the road and the entrance is through a very busy main road. The site cannot have a rating of +5. It should be -2.</p>	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
----------------------	-----------------	--------	--------------------------------------	---------------	---	--------	---

Object Soundness - DM44.2  
Justified 661

I will oppose the gypsy site on the following grounds:  
1.Mis-calculation of the score while selecting the site:

If a site is Green Belt/MOL- built form then it is marked as (Amber/Orange), which means a score of -5

If you go to page number 9 of the document in the link below, you can find that Amber is scored as +5 as opposed to -5.

[https://www.croydon.gov.uk/sites/default/files/articles/downloads/Gypsy%20and%20Travellers\\_Site\\_search\\_Evidence\\_%20August\\_2015.pdf](https://www.croydon.gov.uk/sites/default/files/articles/downloads/Gypsy%20and%20Travellers_Site_search_Evidence_%20August_2015.pdf)

Also, the score for the site access should be -2 as there are issues with the site access. This brings the overall score down to 12. Please, check the other scores too before finalising this site. This site is clearly not suitable for building on the gypsy site as it is a green belt site.

2.I will be objecting to the use of either of these locations as gypsy/traveller sites. As the Council acknowledges, they are both in the Green Belt and one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly:

“Traveller sites (temporary or permanent) in the Green Belt are inappropriate development”. The Council’s approach is clearly in breach of that policy. Both sites are also some distance from public services. If the Council really needs, as it claims, to quadruple the number of gypsy/traveller sites in the borough - which I would question - they should look elsewhere (for example, off the Purley Way where the existing site is).

Criteria of selection:  
The plan makers have missed a big point that existing infrastructure cannot cope with the influx of additional population at such a fast pace. Also, it has to be planned over few years. It should never be on a green belt/attached to green belt sites as it is disastrous for the environment. There are quite a few brown field sites in Croydon. Those should be explored.  
What are the criteria behind selecting two sites within 1 mile of each other?  
The plan makers do not know the grass root situation. They have just assumed things without actually

My answer: School is a viable option Building a new school will support the Selsdon and nearby citizens. Besides we do not have a Grammar school in Croydon. So, it would be ideal if we build a grammar school in Croydon on one of the proposed sites.

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

knowing the facts. This is a grave situation.

Building a new school will support the seldson and nearby citizens. Besides we do not have a Grammar school in Croydon. So, it would be ideal if we build a grammar school in croydon on one of the proposed sites.

Existing infrastructure just cannot cope with additional population in Croydon:

1. We have to wait for at least 4-5 days to get appointment at doctors – many times we do not get appointment

2. We have to wait for at least 15 minutes to get a turn to play swing/slide for my son in any local park. The parks are so crowded during summer. Already children are getting very less exercise. If 40 families come over with more than 80 children then it would be extremely over crowded.

3. There are not enough schools in the area. We should build more schools

4. There is very limited green space in Croydon. Government policy states that you cannot build temporary or permanent sites on green belt.

Putting the travellers site near green belt will endanger the

5. Conduit lane is a no drive through zone. Increased traffic due to a planned school and travellers sites will cause traffic chaos.

6. We need green belts for good health of the citizens. Steps like these would encourage the encroachment of green belts.

4145/01/008/DM44.2/O	Mr & Mrs Andrews	Object	Soundness - Justified	DM44.2 661	<p>I am grateful to the Council for consulting on the detailed policies and proposals that will make up the Croydon Local Plan. There is much in the document that I agree with, but some of the proposals would, in my opinion, change the character of parts of Croydon very much for the worse. I hope you will forgive me if I focus on these areas of contention. I am therefore writing to formally object to:</p> <p>3. the use of the following locations as gypsy and traveller sites:</p> <ul style="list-style-type: none"> <li>• Coombe Farm off Oaks Road reference number 502;</li> <li>• Coombe Lodge Nurseries off Conduit Lane reference number 661; and</li> <li>• Pear Tree Farm and Pear Tree Farm Cottage on Featherbed Lane reference number 755;</li> </ul> <p>As the Council acknowledges, all three of these sites are in the Green Belt and one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the government in August, says very clearly:</p> <p>“Traveller sites (temporary or permanent) in the Green Belt are inappropriate development”.</p> <p>The Council's approach is clearly in breach of that policy. All three sites are also some distance from public services and they are all in the same part of the borough (two are in Heathfield ward, one just over the border in Croham). Why has Heathfield been singled out in this way? If the Council really needs, as it claims, to quadruple the number of gypsy/traveller sites in the borough - which I would question - they should look elsewhere (for example, off the Purley Way where the existing site is).</p>	Change	<p>This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.</p>
4146/01/009/DM44.2/O	Mr & Mrs Carpenter	Object	Soundness - Justified	DM44.2 661	<p>We object on the basis that both sites are on Green Belt land and one is adjacent to a Site of Nature Conservation Interest. This proposed siting appears to be contrary to the Government's published policy which says that such sites in the Green Belt are inappropriate development.</p>	Change	<p>This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.</p>

4148/01/002/DM44.2/O	Mr & Mrs Dennis	Object	Soundness - Justified DM44.2 661	Under no circumstances do we agree with a Gypsy and Traveller site at this location.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
4150/01/003/DM44.2/O	Mr & Mrs Kennard	Object	DM44.2 661	I am writing to object to The use of Coombe Farm off Oaks Road reference number 502; and Coombe Lodge Nurseries off Conduit Lane reference number 661 as locations for gypsy/traveller sites. Both sites are within the Green Belt, are a substantial distant from public services such doctors and schools and one is adjacent to a Site of Nature Conservation Interest.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
4152/01/003/DM44.2/O	Mr & Mrs Munnery	Object	DM44.2 661	National guidelines clearly state 'Travellers Sites emporary or per,nanent) hi the Green Bell are inappropriate development'. The Council's proposals, therefore, clearly breach such guidelines. Also, we question the Council's assertion that it needs to quadruple the number of travellers/gypsy sites in the Borough. Apart from this major objection, the above sites identified for such use would have: - poor access via narrow roads/lanes for large vehicles; - consequent impact upon local traffic congestion with movements of large vehicles; - no safe paved walking routes to schools, shops, doctors, etc.; - additional requirement for services and facilities for hygienic occupation; - increased pressure on local schools, medical facilities, waste disposal, etc.; - impact upon local facilities and amenities of current residents. Also, we understand that the proposed pitches would accommodate considerably more caravans and associated vehicles than can be controlled by planning restrictions.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
4153/01/002/DM44.2/O	Mr Gary Dean	Object	DM44.2 661	am writing to object to the use of the following locations as gypsy and traveller sites at Coombe Lodge Nurseries off Conduit Lane, site reference 661 and Coombe Farm off Oaks Road, site reference 502; as both sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b;	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

4154/01/006/DM44.2/O	Mr John Gibson	Object	DM44.2 661	Incorrect calculation in the selection criteria for 661 (Conduit Lane)	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
4155/01/001/DM44.2/O	Mr John Male	Object	DM44.2 661	I object to the use of the site for gypsy and traveller accommodation.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

The GTANA report (2013) does not consider why there is a requirement to provide such facilities and refers to the CLG's document 'Planning Policy for Traveller Sites (March 2014)' which states that Local Authorities should in producing their local plans, consider joint development plans that set targets on a cross authority basis. This proposal seems to have been produced in isolation from other neighbouring councils even though the above clearly indicates that nearby councils such as Sevenoaks, Tandridge and Bromley have higher demand. Proposals in the Housing and Planning Bill 2015-2016 are to remove the statutory requirement on local authorities to assess the specific accommodation needs of Gypsies and Travellers - the emphasis being that when authorities are carrying out a review of housing needs that it considers the needs of all the people residing in their district, without any reference to Gypsies and Travellers. We hope this means that Croydon Council will consider our needs and the needs of our neighbours and local services and businesses as weighty as those of Gypsy and Travelling people. We understand that there is a lot of opposition to the proposed sites from people currently residing in the district due to the threat to the Green Belt, increased traffic and increased pressure on local services. Surely such low scores within the "Assessment and Selection of Sites for Gypsy and Travellers" (August 2015) should have resulted in an acceptance that none of the sites are really particularly suitable and that the council will need to liaise with other council if determined to make provision. All three sites are in Green Belt land - Policy E of Planning Policy for Traveller Sites - traveller sites (temporary and permanent) in the Green Belt are inappropriate development. Further concern for the impact upon Green Belt is highlighted in the GTANA Stakeholder consultation. The sites are contrary to the Strategic Policies (April 2013) in terms of access from roads and proximity to bus routes; and access to essential services including health and education facilities.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

4161/01/003/DM44.2/O	Mr Trevor Watkins	Object	DM44.2 661	<p>I am a Croydon resident and am writing to object to the use of the following locations as gypsy and traveller sites: Coombe Lodge Nurseries off Conduit Lane, site reference number 661. policy number DM44: and Coombe Farm off Oaks Road, site reference number 502. policy number DM43 Pear Tree Farm and Pear Tree Farm Cottage on Featherbed Lane, site reference number 755, policy number DM32. All three sites are in the Green Belt, with one bordering a site of Nature Conservation. The proposed use of each of these sites would constitute inappropriate development in the Green Belt and would not comply with Policy 5P2.7a and SP2.7b and would not be consistent with Policy E of 'Planning Policy for Traveller Sites' published by the Government. If additional sites are required in the Borough it would more appropriate to expand existing sites eg the site off the Purley Way. In addition none of the sites has easy access to local school, healthcare, retail and other amenities; the vehicular access into sites 661 and 502 is problematic and egress onto Coombe Lane/Oaks Road at the road junction is likely to create additional road hazards.</p>	Change	<p>This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.</p>
----------------------	-------------------	--------	---------------	---	--------	--

4164/01/001/DM44.2/O	Mr & Mrs Whitehead & Abbott	Object	DM44.2 661	<p>We write to express our objections to the above proposals. We have lived in South Croydon since the late 1980's and have been regular visitors to Coombe Wood and gardens, often walking to them up Conduit Lane from Croham Road. This area is a uniquely rural and beautiful enclave so close to central Croydon. It is well loved and visited by many residents and of great heritage and conservation value to Croydon. To have a traveller site on Conduit Lane would be very detrimental to this lovely place. It is a very confined area and such a development would urbanise and also introduce a high volume of vehicle use. The character of this special place would be lost forever.</p>	Change	<p>This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.</p>
----------------------	-----------------------------	--------	---------------	--	--------	--

4166/01/003/DM44.2/O	Carol Holmes	Object		DM44.2 661	I am writing to you to object to use of Green Belt Land for gypsy/traveller sites (reference numbers 502, 661) Coombe Farm off Oaks Road (reference number 502) and Coombe Lodge Nurseries off Conduit Lane (reference number 661) are both in the Green Belt and one of them borders a Site of Nature Conservation Interest. These proposals are in breach of policy E of Planning Policy for Traveller Sites, published by the Government in August, which says that Traveller Sites in the Green Belt are inappropriate development. Alternative sites should be found.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
4167/01/002/DM44.2/O	Mr A Majeed	Object	Soundness - Justified	DM44.2 661	The proposed Gypsy and Traveller site is contrary to government policy as it is in Green Belt. In addition, based on past experience of unauthorised encampments I think there would be a threat to the safety, security and well-being of my family.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
4168/01/001/DM44.2/O	Catherine Martin	Object		DM44.2 661	I object to the use of the site for gypsy and traveller accommodation.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
4174/01/007/DM44.2/O	Mr B Williams	Object		DM44.2 661	I object to the site being allocated for a gypsy and traveller site. It is in the Green Belt and one of the sites borders a Site of nature Ocnervation Interest. Policy E of Planning Policy for Travellers Sites published by the government in August says very clearly: "Traveller sites (temporary or permanent) in the Green Belt are inappropriate developemtn". The Council's approach is clearly in breach of this policy.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

4178/01/002/DM44.2/O	Mr Brian Mole	Object	DM44.2 661	This site is also in the green belt and according to Government Policy is deemed inappropriate. Coombe Park which is a beautiful landscaped park and contains many memorials to war dead and families loved ones will be completely overwhelmed by this enormous traveller development for up to 75 mobile homes right next door. The huge amount of traffic going along Conduit Lane will make access to the park from the parking bays on the other side of the road much more difficult and dangerous. These parking bays are used by the very young and the very old to give them easy and safe access to this beautiful public park. Again the size of the site will totally overwhelm the nearest settlement of residents on Coombe Road, Oaks Road and Oaks Lane. The closest schools are oversubscribed so would be unable to meet the needs of so many new children to the area. The council has gone to great expense to protect the site from mobile travellers and this seems to have been a great waste of tax payers money if they now allow a permanent site. Several businesses which make a big contribution to the local economy and also provide much needed amenity to the public will be detrimentally affected by the site.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
4184/01/001/DM44.2/O	Krutika Patel	Object	DM44.2 661	I object to the use of the site for gypsy and traveller accommodation.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
4186/01/006/DM44.2/O	LB King	Object	DM44.2 661	Incorrect calculation in the selection criteria for 661 (Conduitt Lane)	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

4188/01/001/DM44.2/O	N K Shaikh	Object	DM44.2 661	I object to the use of the site for gypsy and traveller accommodation.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
4189/01/007/DM44.2/O	Mr Roger Bolton	Object	DM44.2 661	I am writing to object to: 1. the use of the following locations as gypsy and traveller sites: Coombe Lodge Nurseries off Conduit Lane, site reference 661; Coombe Farm off Oaks Road, site reference 502; as both sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
4190/01/001/DM44.2/O	Mr Ronald West	Object	DM44.2 661	I am writing to object to the use of Coombe Lodge Nurseries off Conduit Lane, site reference 661 as gypsy and traveller site as this site would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b:	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
4191/01/001/DM44.2/O	S.R Patel	Object	DM44.2 661	I object to the use of the site for gypsy and traveller accommodation.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
4192/01/002/DM44.2/O	Mrs Annette Merry	Object	DM44.2 661	am writing to object to the use of the following locations as gypsy and traveller sites at Coombe Lodge Nurseries off Conduit Lane, site reference 661 and Coombe Farm off Oaks Road, site reference 502; as both sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b;	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

4193/01/001/DM44.2/O	Claire Green	Object		DM44.2 661	I am writing to object to the use of Coombe Lodge Nurseries off Conduit Lane, site reference 661 as gypsy and traveller site as this site would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b:	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
4199/01/006/DM44.2/O	Mr F Partovi	Object		DM44.2 661	Use of Coombe Lodge Nurseries for a traveller's site	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
4200/01/009/DM44.2/O	Mr G Furmanski	Object	Soundness - Justified	DM44.2 661	I object to 4. the use of the following locations as gypsy/traveller sites a) Ref No. 502 — Coombe Farm off Oaks Road b) Ref No. 661 — Coombe Lodge Nurseries off Conduit Lane	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
4203/01/011/DM44.2/O	Mr J Beaven	Object	Soundness - Justified	DM44.2 661	I am writing to submit my objection to: 5. The use of the following locations as gypsy/traveller sites: - Coombe Farm off Oaks Road, reference number 502; and - Coombe Lodge Nurseries off Conduit Lane, reference number 661.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
4206/01/006/DM44.2/O	Dr K Parke	Object		DM44.2 661	Incorrect calculation in the selection criteria for 661 (Conduit Lane)	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

5. Proposed Policy DM43 Creation of Gypsy / Traveller sites at Coombe Farm, off Oaks Road, Coombe Lodge Nurseries, off Conduit Lane and Pear Tree Farm and Pear Tree Cottage Featherbed Lane.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

I object to the use of any of these locations for the creation of Gypsy/Traveller sites. All three locations are within the Green Belt and one borders a site of Nature Conservation Interest. Such development is in breach of Policy E4 Planning Policy for Traveller Sites, which says that 'Traveller Sites (temporary or permanent) in the Green Belt are inappropriate development'. All three sites are also a considerable distance from public services. I believe that the proposal to create three new Gypsy/Traveller sites now, and 39 by 2036 is excessive and will have an adverse effect on the borough. If the number of Gypsy/Traveller sites really needs to be increased by this amount then a more appropriate location would be around the existing site at Purley Way. The positioning of a Gypsy/Traveller site adjacent to the car park for Coombe Woods, between the Chateau Restaurant and the Hotel/restaurant, would probably deter me from using any of these attractions.

For the reasons given above:

1. I do not think that the preferred approach is the most appropriate for Croydon to help us meet our Strategic Objectives set out in Section 3.
2. The preferred approach is deliverable, but not acceptable.
3. I do not think the preferred approach enables sustainable development, because it will compromise the ability of future generations to meet their own needs.
4. I recommend that consultation documents of such importance are given much wider publicity.

I have restricted my objections to those plans that primarily affect the area of Shirley I which I live, but the same objections apply to other proposals in other parts of the borough.

4211/01/006/DM44.2/O	B Busa	Object	DM44.2 661	Incorrect calculation in the selection criteria for 661 (Conduit Lane)	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
4212/01/006/DM44.2/O	Bhavil Vyas	Object	DM44.2 661	Incorrect calculation in the selection criteria for 661 (Conduit Lane)	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

4213/01/011/DM44.2/O	Mr & Mrs DB Good	Object	DM44.2 661	<p>Proposed Policy DM43 Creation of Gypsy /Traveller sites at Coombe Farm, off Oaks Road, Coombe Lodge Nurseries, off Conduit Lane</p> <p>I object to the use of any of these locations for the creation of Gypsy/Traveller sites. All three locations are within the Green Belt and one borders a site of Nature Conservation Interest. Such development is in breach of Policy Eat Planning Policy for Traveller Sites, which says that 'Traveller Sites (temporary or permanent) in the Green Belt are inappropriate development'. All three sites are also a considerable distance from public services. I believe that the proposal to create three new Gypsy/Traveller sites now, and 39 by 2036 is excessive and will have an adverse effect on the borough. If the number of Gypsy/Traveller sites really needs to be increased by this amount then a more appropriate location would be around the existing site at Purley Way. The positioning of a Gypsy/Traveller site adjacent to the car park for Coombe Woods, between the Chateau Restaurant and the Hotel/restaurant, is totally undesirable. As users of the restaurants, gardens, park and golf course it would be hard to imagine we will wish to visit these attractions if it is blighted in this way. As members of Shirley Park Golf Club we have experienced threatening behaviour, trespass verbal abuse and stonishing residual mess travellers create. The golf club provides social and sporting activity for some 700 members and many visitors including junior players who play during school holidays and weekends. Their safe environment will be endangered. We understand that the proposed sites fail to meet criteria with regard to schooling and medical needs and it seems obvious that these proposals need to be scrapped as soon as possible.</p>	Change	<p>This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.</p>
4214/01/007/DM44.2/O	Mr J Turvey	Object	DM44.2 661	<p>I am writing to object to:</p> <ol style="list-style-type: none"> <li>the use of the following locations as gypsy and traveller sites: Coombe Lodge Nurseries off Conduit Lane, site reference 661; Coombe Farm off Oaks Road, site reference 502; as both sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b</li> </ol>	Change	<p>This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.</p>

4218/02/002/DM44.2/O	Mr & Ms Morgan & Mason	Object	DM44.2 661	<p>- This site is also in the green belt and according to National Government guidelines is therefore deemed inappropriate use for travellers! gypsy sites.</p> <p>- The council has previously gone to great expense to protect the site from mobile travellers and this seems to have been a great waste of taxpayers' money if they now allow a permanent site.</p> <p>- Several local businesses which make a big contribution to the local economy and also provide much needed amenity to the public will be detrimentally affected by the site.</p> <p>- Coombe Park, which is beautifully landscaped park, will be completely overwhelmed by this site of up to 75 mobile homes right next door. The increased traffic going along Conduit Lane will make access to the park from the parking bays more difficult and dangerous.</p> <p>- The size of this site would overwhelm local settlements, with residents on Coombe Road, Oaks Road and Oaks Lane severely affected.</p> <p>We understand the proposed sites are not within the required distance to both schooling and medical needs, therefore am objecting on that basis also. The land is in private ownership at Coombe Farm, and any funds spent on "compulsory or otherwise purchase" could surely be better spent on behalf of the population of Croydon.</p>	Change	<p>This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.</p>
4218/01/002/DM44.2/O	Mr & Ms Morgan & Mason	Object	DM44.2 661	<p>I object to the use of the site for gypsy and traveller accommodation.</p>	Change	<p>This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.</p>

4223/01/008/DM44.2/O	Mrs Mary Lane	Object	DM44.2 661	<p>I object to the use of the following locations as gypsy/traveller sites: Coombe Lodge Nurseries off Conduit Lane (site reference number 661) - As the Council acknowledges, all three of these sites are in the Green Belt and one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly: "Traveller sites (temporary or permanent) in the Green Belt are inappropriate development. The Council's approach is clearly in breach of that policy. All three sites are also some distance from public services and they are all in the same part of the borough (two are in Heathfield ward, one just over the border in Croham). Why has Heathfield been singled out in this way? If the Council really needs, as it claims, to quadruple the number of gypsy/traveller sites in the borough - which I would question - they should look elsewhere (for example, off the Putley Way where the existing site is).</p>	Change	<p>This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.</p>
4228/01/003/DM44.2/O	Sheila Newman	Object	DM44.2 661	<p>I am a Croydon resident and am writing to object to the use of the following locations as gypsy and traveller sites: Coombe Lodge Nurseries off Conduit Lane, site reference number 661. policy number DM44: and Coombe Farm off Oaks Road, site reference number 502. policy number DM43 Pear Tree Farm and Pear Tree Farm Cottage on Featherbed Lane, site reference number 755, policy number DM32. All three sites are in the Green Belt, with one bordering a site of Nature Conservation. The proposed use of each of these sites would constitute inappropriate development in the Green Belt and would not comply with Policy 5P2.7a and SP2.7b and would not be consistent with Policy E of 'Planning Policy for Traveller Sites' published by the Government. If additional sites are required in the Borough it would more appropriate to expand existing sites eg the site off the Purley Way. In addition none of the sites has easy access to local school, healthcare, retail and other amenities; the vehicular access into sites 661 and 502 is problematic and egress onto Coombe Lane/Oaks Road at the road junction is likely to create additional road hazards.</p>	Change	<p>This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.</p>

Object	Soundness - Justified	DM44.2 661	<p>Coombe Lodge Nurseries off Conduit Lane (ref. no. 661)</p> <p>1. This is located in a Green Belt area. Under National Guidelines, Travellers/Gypsy sites in the Green Belt are inappropriate development. This means that planning permission should not be granted.</p> <p>2. The presence of the site will totally overwhelm the nearest settlement of residents on Coombe Road, Oaks Road and Oaks Lane. Residents in these areas greatly value the peaceful and friendly environment they have nurtured in the local neighbourhood over many years and this will be greatly damaged and threatened by the proposed Traveller site.</p> <p>3. Several businesses which make a big contribution to the local economy and also provide much needed amenity to the public will be detrimentally affected by the site such as the Coach House Café, Coombe Lodge Beefeater, The Chateau. This will additionally have a significant adverse impact on the people employed by the businesses and numerous suppliers that service these local businesses.</p> <p>4. The proposed Traveller site is in very close proximity to the award winning Coombe Wood Gardens which attracts visitors and families all year round to enjoy the beautiful gardens and the local wildlife. The presence of the Traveller site would have a severely negative impact on the quiet, tranquil and serene characteristic of the area and drive away visitors from the gardens.</p> <p>5. Previously the Council has gone to great expense to protect the site from mobile Travellers and this seems to have been a great waste of taxpayers' money if they now allow a permanent site.</p> <p>6. Coombe Park is a beautiful landscaped park and contains many memorials to war dead and families' loved ones. It will be completely overwhelmed by this enormous Traveller development for up to 75 mobile homes right next door. The huge amount of traffic going along Conduit Lane will make access to the park from the parking bays on the other side of the road much more difficult and dangerous. These parking bays are used by the very young and the very old to give them easy and safe access to this beautiful public park.</p> <p>7. This is a peaceful area used by the local community and visitors for walking routes, running and leisure activities. The location of a Traveller or Gypsy site here would</p>	Change	<p>This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.</p>

destroy the tranquil nature of the area and drive away visitors upon which the local businesses rely on.

The history of unauthorised "pitches" in this area over the past few years has left a bitter resentment, especially in view of the residual mess and threatening behaviour that has always accompanied their trespass. On each occasion that Gypsies/Travellers have been in the area, the club members here have been threatened with physical and verbal abuse. This behaviour is totally unacceptable and despite the subsequent eviction of the Travellers on each occasion, the residual psychological effect on tax payers and constituents' lives cannot be trivialised. We also have a large Junior Section and children play the course during holidays as well as weekends. They are often unaccompanied and the parents need to know they are in a safe environment. This would certainly not be the case in the parents' minds if there was any chance of aggressive behaviour, as previously experienced, towards these children. I am certain that the Council would not wish to be responsible for putting children in any sort of potentially dangerous situation. Surely these detailed real issues must be taken into account when determining any permanent site. I understand that the proposed sites are not within the required distance to both schooling and medical needs, therefore I also object on this basis. The land is in private ownership at Coombe Farm. Any funds spent on "compulsory or otherwise" purchase clearly could be spent more wisely on behalf of the population of Croydon. No doubt Central Grants will be available, but Council owned land in an area that will not radically impact on established residents' lives would be a sensible and prudent choice.

---

5. Proposed Policy DM43 Creation of Gypsy / Traveller sites at Coombe Farm, off Oaks Road, Coombe Lodge Nurseries, off Conduit Lane and Pear Tree Farm and Pear Tree Cottage Featherbed Lane.

I object to the use of any of these locations for the creation of Gypsy/Traveller sites. All three locations are within the Green Belt and one borders a site of Nature Conservation Interest. Such development is in breach of Policy E4 Planning Policy for Traveller Sites, which says that 'Traveller Sites (temporary or permanent) in the Green Belt are inappropriate development'. All three sites are also a considerable distance from public services. I believe that the proposal to create three new Gypsy/Traveller sites now, and 39 by 2036 is excessive and will have an adverse effect on the borough. If the number of Gypsy/Traveller sites really needs to be increased by this amount then a more appropriate location would be around the existing site at Purley Way. The positioning of a Gypsy/Traveller site adjacent to the car park for Coombe Woods, between the Chateau Restaurant and the Hotel/restaurant, would probably deter me from using any of these attractions.

For the reasons given above:

1. I do not think that the preferred approach is the most appropriate for Croydon to help us meet our Strategic Objectives set out in Section 3.
2. The preferred approach is deliverable, but not acceptable.
3. I do not think the preferred approach enables sustainable development, because it will compromise the ability of future generations to meet their own needs.
4. I recommend that consultation documents of such importance are given much wider publicity.

I have restricted my objections to those plans that primarily affect the area of Shirley I which I live, but the same objections apply to other proposals in other parts of the borough.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

4237/01/001/DM44.2/O	Jagdish Patel	Object		DM44.2 661	I object to the use of the site for gypsy and traveller accommodation.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
4239/01/002/DM44.2/O	Mr & Mrs Feast	Object	Soundness - Consistent with National	DM44.2 661	1. the use of the following locations as gypsy and traveller sites: Coombe Lodge Nurseries off Conduit Lane, site reference 661; Coombe Farm off Oakes Road, site reference 502; because both sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b; Both of these areas are used by people from far and wide who commute on foot and by bus, whilst others drive to the two carparks and then walk, jog and run through the area. Surely Croydon should encourage more people to get out and to take exercise rather than have them suffer the current growing problem of obesity. The attraction for so many of the people who avail of this attractive area is the feeling of getting away to open country.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
4244/01/012/DM44.2/O	Mr & Mrs Kelly	Object		DM44.2 661	Coombe Lodge Nurseries off Conduit Lane reference number 661; As the Council acknowledges, all three of these sites are in the Green Belt and one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly: "Traveller sites (temporary or permanent) in the Green Belt are inappropriate development". The Council's approach is clearly in breach of that policy. All three sites are also some distance from public services and they are all in the same part of the borough (two are in Heathfield ward, one just over the border in Croham). Why has Heathfield been singled out in this way? If the Council really needs, as it claims, to quadruple the number of gypsy/traveller sites in the borough - which I would question - they should look elsewhere (for example, off the Purley Way where the existing site is).	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

4245/01/009/DM44.2/O	Mr & Mrs Maguire	Object	DM44.2 661	I object to the use of the site for gypsy and traveller accommodation. These are both in the Green Belt and one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller sites, published by the Government in August states clearly "Traveller sites (temporary or permanent) in the Green Belt are inappropriate development". Both sites are also some distance from public services, schooling and medical needs. Coombe Park, a beautiful landscaped park, containing many war and family memorials will be completely overwhelmed by the enormous traveller development right next door and access to the parking bays will also be compromised. A preferred siting would be off the Purley Way where the existing site could be enlarged.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
4254/01/006/DM44.2/O	Mr A Dawe	Object	DM44.2 661	Incorrect calculation in the selection criteria for 661 (Conduitt Lane)	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
4257/01/006/DM44.2/O	Mr A Rulkalai	Object	DM44.2 661	Incorrect calculation in the selection criteria for 661 (Conduitt Lane)	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
4261/01/001/DM44.2/O	Mr B Pope	Object	DM44.2 661	I object to the use of the site for gypsy and traveller accommodation.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

4265/01/007/DM44.2/O	Mr D Anderson	Object		DM44.2 661	I am writing to object to: 1. the use of the following locations as gypsy and traveller sites: Coombe Lodge Nurseries off Conduit Lane, site reference 661; Coombe Farm off Oaks Road, site reference 502; as both sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
4266/01/007/DM44.2/O	Mr D Bigglestone	Object		DM44.2 661	I am writing to object to: 1. the use of the following locations as gypsy and traveller sites: Coombe Lodge Nurseries off Conduit Lane, site reference 661; Coombe Farm off Oaks Road, site reference 502; as both sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. 4294/01/009/DM44.2/O S Wallace	Object	DM44.2 661	I object to Coombe Lodge Nurseries off Conduit Lane, which is identified as suitable for 15-25 pitches (pages 468-469, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 661). I object to the use of either of these locations as gypsy/traveller sites. As the Council acknowledges, they are both in the Green Belt and one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly: "Traveller sites (temporary or permanent) in the Green Belt are inappropriate development". The Council's approach is clearly in breach of that policy. Both sites are also some distance from public services. If the Council really needs, as it claims, to quadruple the number of gypsy/traveller sites in the borough - which I would question - they should look elsewhere (for example, off the Purley Way where the existing site is).	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
4301/01/006/DM44.2/O Mr K MacKenzie	Object	DM44.2 661	Incorrect calculation in the selection criteria for 661 (Conduit Lane)	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

5. Proposed Policy DM43 Creation of Gypsy / Traveller sites at Coombe Farm, off Oaks Road, Coombe Lodge Nurseries, off Conduit Lane and Pear Tree Farm and Pear Tree Cottage Featherbed Lane.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

I object to the use of any of these locations for the creation of Gypsy/Traveller sites. All three locations are within the Green Belt and one borders a site of Nature Conservation Interest. Such development is in breach of Policy E4 Planning Policy for Traveller Sites, which says that 'Traveller Sites (temporary or permanent) in the Green Belt are inappropriate development'. All three sites are also a considerable distance from public services. I believe that the proposal to create three new Gypsy/Traveller sites now, and 39 by 2036 is excessive and will have an adverse effect on the borough. If the number of Gypsy/Traveller sites really needs to be increased by this amount then a more appropriate location would be around the existing site at Purley Way. The positioning of a Gypsy/Traveller site adjacent to the car park for Coombe Woods, between the Chateau Restaurant and the Hotel/restaurant, would probably deter me from using any of these attractions.

For the reasons given above:

1. I do not think that the preferred approach is the most appropriate for Croydon to help us meet our Strategic Objectives set out in Section 3.
2. The preferred approach is deliverable, but not acceptable.
3. I do not think the preferred approach enables sustainable development, because it will compromise the ability of future generations to meet their own needs.
4. I recommend that consultation documents of such importance are given much wider publicity.

I have restricted my objections to those plans that primarily affect the area of Shirley I which I live, but the same objections apply to other proposals in other parts of the borough.

4308/01/008/DM44.2/O	Mrs Kathleen Swan	Object	DM44.2 661	<p>I understand the Council has identified two locations on the edge of Shirley for gypsy/traveller sites:</p> <p>Coombe Lodge Nurseries off Conduit Lane, which is identified as suitable for 15-25 pitches (pages 468-469, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies &amp; Proposals, reference number 661).</p> <p>I object to the use of either of these locations as gypsy/traveller sites. As the Council acknowledges, they are both in the Green Belt and one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly: Traveller sites (temporary or permanent) in the Green Belt are inappropriate development. The Council's approach is clearly in breach of that policy. Both sites are also some distance from public services. If the Council really needs, as it claims, to quadruple the number of gypsy/traveller sites in the borough - which I would question - they should look elsewhere (for example, off the Purley Way where the existing site is).</p>	Change	<p>This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.</p>
----------------------	-------------------	--------	---------------	---	--------	--

4309/01/008/DM44.2/O	Mrs Rita Evans	Object	DM44.2 661	<p>The proposals for two Gypsy and Traveller sites on Green Belt land at the periphery of Shirley is in direct contravention of the Government's Planning Policy for Traveller Sites which clearly states that such are 'inappropriate development' in the Green Belt. It has been stated that any such sites must be for true Travellers. Planning Resource highlights that the new Planning Policy document published in August 2015 redefines Traveller to exclude those who no longer travel permanently, thus avoiding the need for static homes which has greatly reduced the number of pitches that Councils are required to provide. Could this be a long-term strategy to de-designate Green Belt land, then when it is under-used, claim it for housing?</p>	Change	<p>This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.</p>
----------------------	----------------	--------	---------------	--	--------	--

4314/01/001/DM44.2/O	J Rayner	Object	DM44.2 661	<p>Coombe Lodge Nurseries off Conduit Lane, Ref No. 661.</p> <p>This site is also green belt and according to Government policy is deemed inappropriate. The Council has gone to great expense to protect the site from mobile travellers and this seems to have been a great waste of taxpayers money if they now allow a permanent site. Several businesses which make a bid contribution to the local economy and also provide much needed amenity to the public will be detrimentally affected by the site.</p> <p>Coombe Park which is a beautiful landscaped park and contains many memorials to the war dead and families' loved ones will be completely overwhelmed by this enormous traveller development for up to 75 mobile homes right next door. The huge amount of traffic going along Conduit Lane will make access to the park from the parking bays on the other side of the road much more difficult and dangerous. These parking bays are used by the very young and the very old to give them easy and safe access to this beautiful public park.</p> <p>Again the size of the site will totally overwhelm the nearest settlement of residents on Coombe Road, Oaks Road and Oaks Lane.</p>	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
4315/01/006/DM44.2/O	Mr M Buja	Object	DM44.2 661	Incorrect calculation in the selection criteria for 661 (Conduit Lane)	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
4318/01/003/DM44.2/O	Mr M Gooch	Object	DM44.2 661	Incorrect calculation in selection criteria for site 661 and 502. If site is in Green Belt/MOL built form then it is marked as Amber/Orange which means a score of -5, +5 has been used which increase the rating by 10 points. Error in calculating site access for 661: There are cars parked on that road and the entrance is through a very busy main road. The site cannot have a rating of "+5". It should be -2. That is a difference of 7 rating points.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

4318/01/004/DM44.2/O	Mr M Gooch	Object		DM44.2 661		Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
4320/01/007/DM44.2/O	Mr N Turnbull	Object		DM44.2 661	I am writing to object to: 1. the use of the following locations as gypsy and traveller sites: Coombe Lodge Nurseries off Conduit Lane, site reference 661; Coombe Farm off Oaks Road, site reference 502; as both sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b Incorrect calculation in the second criteria for 661 (Conduit Lane) and 502 (Coombe Farm) - if a site is green Belt/MOL - built form then it is marked as (Amber/organce), which means it is a score of "-5". "+5" has been used which increases its rating by 10 points. Incorrect calculating site access for 661: there are cars parked on that road and the entrance is through a very busy main road. The site cannot have a rating of "+5". It should be -2. That's a difference of 7 rating points.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
4323/01/001/DM44.2/O	Kim & Jenny Wells & Bartlett	Object		DM44.2 661	I am writing to object to the use of Coombe Lodge Nurseries off Conduit Lane, site reference 661; as a gypsy and traveller site as the site would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
4327/01/009/DM44.2/O	Mrs J Furmanska	Object	Soundness - Justified	DM44.2 661	I object to 4. the use of the following locations as gypsy/traveller sites a) Ref No. 502 — Coombe Farm off Oaks Road b) Ref No. 661 — Coombe Lodge Nurseries off Conduit Lane	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

4330/01/001/DM44.2/O	Mr K Shah	Object	DM44.2 661	I object to the use of the site for gypsy and traveller accommodation.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
4331/01/006/DM44.2/O	Mr N Chanuarana	Object	DM44.2 661	Incorrect calculation in the selection criteria for 661 (Conduit Lane)	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
4332/01/002/DM44.2/O	Ms P Allen	Object	DM44.2 661	I am writing to object to the use of the following locations as gypsy and traveller sites at Coombe Lodge Nurseries off Conduit Lane, site reference 661 and Coombe Farm off Oaks Road, site reference 502; as both sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b;	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
4333/01/003/DM44.2/O	Mr P Bhanji	Object	DM44.2 661	I am a Croydon resident and am writing to object to the use of the following locations as gypsey and traveller sites: Coombe Lodge Nurseries off Conduit Lane, site reference number 661. policy number DM44: and Coombe Farm off Oaks Road, site reference number 502. policy number DM43 Pear Tree Farm and Pear Tree Farm Cottage on Featherbed Lane, site reference number 755, policy number DM32. All three sites are in the Green Belt, with one bordering a site of Nature Conservation. The proposed use of each of these sites would constitute inappropriate development in the Green Belt and would not comply with Policy 5P2.7a and SP2.7b and would not be consistent with Policy E of 'Planning Policy for Traveller Sites' published by the Government. If additional sites are required in the Borough it would more appropriate to expand existing sites eg the site off the Purley Way. In addition none of the sites has easy access to local school, healthcare, retail and other amenities; the vehicular access into sites 661 and 502 is problematic and egress onto Coombe Lane/Oaks Road at the road junction is likely to create additional road hazards.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

4334/01/002/DM44.2/O	Mr P Chapman	Object	DM44.2 661	am writing to object to the use of the following locations as gypsy and traveller sites at Coombe Lodge Nurseries off Conduit Lane, site reference 661 and Coombe Farm off Oaks Road, site reference 502; as both sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b;	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
4337/01/001/DM44.2/O	Mr P Nesbeth	Object	DM44.2 661	I am writing to object to the use of Coombe Lodge Nurseries off Conduit Lane, site reference 661 as gypsy and traveller site as this site would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b:	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
4339/01/004/DM44.2/O	Mr R Indheuser	Object	DM44.2 661		Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
4339/01/003/DM44.2/O	Mr R Indheuser	Object	DM44.2 661	Incorrect calculation in selection criteria for site 661 and 502. 4360/01/003/DM44.2/O	Susana Winter	Object	DM44.2 661	Gypsy and Traveller use is not appropriate development in the Green Belt and would not comply with Policy SP2.7. There is also an error in the scoring for this site in the evidence base.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
4363/01/001/DM44.2/O	Mrs Sarah Moise	Object	DM44.2 661	I object to the use of Coombe Lodge Nurseries off Conduit Lane, Site 661 as a Gypsy and Traveller site.  This site sould constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

5. Proposed Policy DM43 Creation of Gypsy / Traveller sites at Coombe Farm, off Oaks Road, Coombe Lodge Nurseries, off Conduit Lane and Pear Tree Farm and Pear Tree Cottage Featherbed Lane.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

We object to the use of any of these locations for the creation of Gypsy/Traveller sites. All three locations are within the Green Belt and one borders a site of Nature Conservation Interest. Such development is in breach of Policy E4 Planning Policy for Traveller Sites, which says that 'Traveller Sites (temporary or permanent) in the Green Belt are inappropriate development'. All three sites are also a considerable distance from public services. I believe that the proposal to create three new Gypsy/Traveller sites now, and 39 by 2036 is excessive and will have an adverse effect on the borough. If the number of Gypsy/Traveller sites really needs to be increased by this amount then a more appropriate location would be around the existing site at Purley Way. The positioning of a Gypsy/Traveller site adjacent to the car park for Coombe Woods, between the Chateau Restaurant and the Hotel/restaurant, would probably deter me from using any of these attractions.

For the reasons given above:

1. I do not think that the preferred approach is the most appropriate for Croydon to help us meet our Strategic Objectives set out in Section 3.
2. The preferred approach is deliverable, but not acceptable.
3. I do not think the preferred approach enables sustainable development, because it will compromise the ability of future generations to meet their own needs.
4. I recommend that consultation documents of such importance are given much wider publicity.

I have restricted my objections to those plans that primarily affect the area of Shirley I which I live, but the same objections apply to other proposals in other parts of the borough.

5. Proposed Policy DM43 Creation of Gypsy / Traveller sites at Coombe Farm, off Oaks Road, Coombe Lodge Nurseries, off Conduit Lane and Pear Tree Farm and Pear Tree Cottage Featherbed Lane.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

I object to the use of any of these locations for the creation of Gypsy/Traveller sites. All three locations are within the Green Belt and one borders a site of Nature Conservation Interest. Such development is in breach of Policy E4 Planning Policy for Traveller Sites, which says that 'Traveller Sites (temporary or permanent) in the Green Belt are inappropriate development'. Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
4376/01/002/DM44.2/O	Angela Gill	Object	Soundness - Consistent with National	DM44.2 661	I am writing to object to:  1.The use of the following locations as a gypsy and traveller site:  •Coombe Lodge Nurseries off Conduit Lane, site reference 661  as the site would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
4377/01/002/DM44.2/O	Caroline Taperell	Object	Soundness - Consistent with National	DM44.2 661	I am writing to object to:  1.The use of the following locations as a gypsy and traveller site:  •Coombe Lodge Nurseries off Conduit Lane, site reference 661  as the site would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
4378/01/002/DM44.2/O	Jennifer Carrozzo	Object		DM44.2 661	I am writing to object to the use of the following locations as gypsy and traveller sites at Coombe Lodge Nurseries off Conduit Lane, site reference 661 and Coombe Farm off Oaks Road, site reference 502; as both sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b;	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

4384/01/003/DM44.2/O	Ms N Nesterovich	Object	DM44.2 661	I am a Croydon resident and am writing to object to the use of the following locations as gypsey and traveller sites: Coombe Lodge Nurseries off Conduit Lane, site reference number 661. policy number DM44: and Coombe Farm off Oaks Road, site reference number 502. policy number DM43 Pear Tree Farm and Pear Tree Farm Cottage on Featherbed Lane, site reference number 755, policy number DM32. All three sites are in the Green Belt, with one bordering a site of Nature Conservation. The proposed use of each of these sites would constitute inappropriate development in the Green Belt and would not comply with Policy 5P2.7a and SP2.7b and would not be consistent with Policy E of 'Planning Policy for Traveller Sites' published by the Government. If additional sites are required in the Borough it would more appropriate to expand existing sites eg the site off the Purley Way. In addition none of the sites has easy access to local school, healthcare, retail and other amenities; the vehicular access into sites 661 and 502 is problematic and egress onto Coombe Lane/Oaks Road at the road junction is likely to create additional road hazards.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
4435/01/011/DM44.2/O	Mrs Janet Baine	Object	DM44.2 661	I object to the use of Coombe Lodge Nurseries off Conduit Lane Ref: 661 as a gypsy/traveller site.	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
4605/01/008/DM44.2/O	Natalie Sayers	Object	DM44.2 661	the use of the following locations as gypsy/traveller sites: - Coombe Farm off Oaks Road reference number 502; and - Coombe Lodge Nurseries off Conduit Land reference number 661;	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
4689/01/002/DM44.2/O	Kuldip Chana	Object	DM44.2 661	am writing to object to the use of the following locations as gypsy and traveller sites at Coombe Lodge Nurseries off Conduit Lane, site reference 661 and Coombe Farm off Oaks Road, site reference 502; as both sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b;	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

4690/01/007/DM44.2/O	Mr & Mrs Norman	Object	DM44.2 661	I am writing to object to: 1. the use of the following locations as gypsy and traveller sites: Coombe Lodge Nurseries off Conduit Lane, site reference 661; Coombe Farm off Oaks Road, site reference 502; as both sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
4695/01/002/DM44.2/O	Mr Richard Herring	Object	DM44.2 661	am writing to object to the use of the following locations as gypsy and traveller sites at Coombe Lodge Nurseries off Conduit Lane, site reference 661 and Coombe Farm off Oaks Road, site reference 502; as both sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b;	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
4700/01/007/DM44.2/O	Louise Norton	Object	DM44.2 661	I am writing to object to: 1. the use of the following locations as gypsy and traveller sites: Coombe Lodge Nurseries off Conduit Lane, site reference 661; Coombe Farm off Oaks Road, site reference 502; as both sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
4716/01/005/DM44.2/O	Rachel Marland	Object	DM44.2 661	Policy DM44.2 - No, No, No, we should not be losing greenbelt land for a traveller site. No one wants this, greenbelt land should be protected	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

This site is also in the green belt and according to Government policy is deemed inappropriate. The Council has gone to great expense to protect the site from mobile travellers and this seems to have been a great waste of taxpayers' money if they now allow a permanent site.

Several buisnesses which make a big contribution to the local economy and also provide much needed amenity to the public would be detrimentally affected by the site.

Coombe Park which is a beautiful landscaped park and contains many memorials to war dead and families loved ones will be completely overwhelmed by this enormous traveller development for up to 75 mobile homes right next door. The huge amount of traffic going along Conduit Lane will make access to the park from the parking bays on the other side of the road much more difficult and dangerous. These parking bays are used by the very young and the very old to give them easy and safe access to this beautiful public park. Again the size of the site will totally overwhelm the nearest settlement of residents on Coombe Road, Oaks Road and Oaks Lane.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

7286/01/002/DM44.2/O	Miss Jenna Manji	Object	Soundness - Consistent with National DM44.2 661	<p>I am writing to object to the use of the following locations as gypsy/traveller sites:</p> <ul style="list-style-type: none"> <li>• Coombe Farm off Oaks Road reference number 502; and</li> <li>• Coombe Lodge Nurseries off Conduit Lane reference number 661;</li> </ul> <p>These proposals will have a detrimental effect on the settled community and in no way do they take into consideration the 2008 DCLG Designing Gypsy and Traveller Sites: Good Practice Guide, point 3.8, which states 'Consideration must be given to the relationship of sites to the surrounding community. The last time travellers settled in that area my nieces and nephews were confronted by gypsy kids and my sister's property was trespassed by the gypsies who stole her kids' bikes and scooters. So I can vouch for the fact that having gypsies permanently in the area is not good consideration of the relationship of the site to the community already living there. Furthermore, if the Council were not willing to develop the Green Belt land to build more beautiful homes in line with the properties already in the area, how is it possible that there is now a proposal to create gypsy and traveller sites in the area and burden the area and the community there with all that comes with travellers such as anti-social behaviour and loud noise and to top it off destroy the current property prices? I am strongly opposed to this proposal and feel that the gypsy site in Purley Way should be extended to house the more space needed gypsies and travellers there.</p>	Change	<p>This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.</p>
7300/01/009/DM44.2/O	Ann & Alan Gibbs	Object	DM44.2 661	<p>Both of these sites have been identified as potential locations for gypsy/traveller sites. These sites are both within the Green Belt and one borders a site of Nature Conservation Interest and therefore are wholly unsuitable for any form of development. The Government policy on traveller sites explicitly states they are an inappropriate development within the Green Belt. The existing Green Belt should be retained and not be undermined by the local authority.</p>	Change	<p>This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.</p>

7301/01/001/DM44.2/O	Roy & Judy Varley	Object		DM44.2 661	<p>This site is also in the green belt and according to Government Policy is deemed inappropriate. ---

7304/01/009/DM44.2/O	Mr Ian Fraser	Object	Soundness - Justified	DM44.2 661	<p>The proposed use of land to create gypsy/traveller sites (reference 502 and 661) is particularly unwelcome. Residents and the council have bitter experience of disruption and the waste left by travellers when they have visited Croydon. Any encouragement of this situation should be avoided, as it will encourage additional travellers to come to our town.</p>	Change	<p>This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.</p>
----------------------	---------------	--------	--------------------------	---------------	---	--------	--

---

7308/01/008/DM44.2/O	Mr John Carley	Object	Soundness - Justified DM44.2 661	I object to the proposed use of the following locations as gypsy/traveller sites; at Coombe Farm (off Oaks Road) ref Number 502 and at Coombe Lodge Nurseries (off Conduit Lane) ref Number 661 The areas proposed are completely unsuitable for the proposed purpose being adjacent to the Tram link, Lloyd Park, Golf Course, Recreational Woodland, Ornamental Park, School and Small Businesses. Both proposed the sites are in the Green Belt and one borders a Site of Nature Conservation interest, Government Policy E of Planning Policy for Traveller Sites states that "Traveller sites (temporary or permanent) in the Green Belt are inappropriate development".	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
7310/01/002/DM44.2/O	Mr John Mathers	Object	DM44.2 661	We have seen information suggesting that 3 Traveller sites maybe placed around the Forestdale and Shirley Areas, and also plans to Intensify the Housing of Forestdale! We believe the plans for Traveller sites are wholly unfair and building on land which is Green Belt is inappropriate development. Policy E of Planning for Traveller Sites, published by the Government in August indeed states this also. The building of such sites would also be hugely detrimental to house values, and totally unacceptable. We completely object to this so these plans need to be scrapped NOW!	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
7314/01/007/DM44.2/O	P L Johnson	Object	DM44.2 661	I wish to object to the use of the following sites: The use of Coombe Lodge Nurseries for a gypsy/traveller site. This could only be allowed if other facilities were provided. Does the Council propose to import plants from Holland? (Ref 661).	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

7323/01/005/DM44.2/O	Mrs L Woods	Object	DM44.2 661	<p>In particular I have grave concerns about the choice of location for the proposed gypsy and traveller sites and also the building of 750 new homes at Shirley Oaks Village. The local schools are already struggling to cope with ever increasing numbers of children, and the journey from Shirley into Croydon can be extremely congested at peak times.</p> <p>The extra traffic generated by the proposals would cause misery in my opinion. The loss of green spaces in the proposed areas of development would also be most detrimental. I would therefore urge Croydon Council to consider and respect the very real concerns and fears of the majority of residents in the Shirley area.</p>	Change	<p>This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.</p>
----------------------	-------------	--------	---------------	---	--------	--

7326/01/001/DM44.2/O	Mrs Parveen Majeed	Object	DM44.2 661	<p>I am writing to object to the use of the following locations as gypsy/traveller sites: Coombe Farm off Oaks Road reference number 502; and Coombe Lodge Nurseries off Conduit Lane reference number 661;</p> <p>I am so upset to hear of these proposals for my family living close by to Coombe Farm. My daughter who lives in Scotland was also living close to gypsies and every single day she had a different problem. They steal, they fight, they make so much noise and they throw their rubbish all over the place and they have rough dogs who bark at everyone. We stopped visiting her because it was too much trouble.</p> <p>This area you are choosing is so nice and quiet, so clean and pretty. Why would you chose to ruin it with traveller sites. This is a most stupid decision and also very thoughtless to the people who live in that area. They will have to build 6 feet high walls all around their homes. Is the council going to pay for the extra security needed? I cannot stress enough how much I am against this proposal.</p>	Change	<p>This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.</p>
----------------------	--------------------	--------	---------------	---	--------	--

Object Soundness - DM44.2  
Consistent 661  
with National

I am writing to object to the use of the following locations as gypsy/traveller sites:

- Coombe Farm off Oaks Road reference number 502; and
- Coombe Lodge Nurseries off Conduit Lane reference number 661;

I am strongly against these proposals for a number of reasons. Both the proposed sites are on Green Belt land and as such are inappropriate and harmful to the land. The area is pretty and supports plenty of wildlife which we love discovering with the grandchildren. The effect on the community already settled in that area, which includes my daughter and grandchildren, will be detrimental in many ways. I fear for their safety and security if this proposal were to be passed as the gypsies have tried to settle their before. My grandchildren were bullied and my daughter experienced vandalism to her property and theft from the garden. I cannot begin to imagine what it might be like if the travellers became permanent residents in the Coombe Farm and Coombe Lodge area. It would be disastrous. How can you think of placing a gypsy and traveller site in Conduit Lane, in the green belt, next to the award winning Coombe Wood Gardens? That place would be ruined within a very short space of time. If gypsies began frequenting the Coombe Wood it would mean that elderly people such as myself would no longer feel safe taking our grandchildren to the gardens and that would be a huge loss for us in so many ways. I urge you to re-think and place the gypsies and travellers in areas that would be better suited to them and would less infringe upon the lives of already settled and happy communities.

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

7330/01/002/DM44.2/O	Deborah Davis	Object	Soundness - Justified	DM44.2 661	<p>am writing to object to Reference Numbers 502 and 661— Location of Gypsy and Travellers sites in Coombe Lane and Coombe Lodge Nurseries. The reasons of my objections are as follows:</p> <ul style="list-style-type: none"> <li>• They are being built in Green Belt areas.</li> <li>• The sites are built on single track lanes but in your document you state "In addition Gypsy and Traveller sites need good access to the road network as they often need to move larger vehicles as part of their livelihood and way of life" . Neither has good access especially for larger vehicles. If there are to be 39 pitches with at least 2 families on each pitch and an average of 3 vehicles per family that is 234 vehicles. I don't think you could park that many vehicles in these sites let alone access on a one vehicle wide road.</li> <li>• I really do not believe these pitches are within the required distance of schools, doctors, shops.</li> <li>• I understand that Croydon wishes to increase Travellers sites fourfold yet I have seen no explanation why that number is used.</li> </ul>	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
7333/01/002/DM44.2/O	Gisela & Patrick Pachebat & Maguire	Object		DM44.2 661	<p>We are objecting very strongly to a gypsy and traveller site in Conduit Lane and at Coombe Farm. Both sites are green belt and should not be used for any other purposes. You should listen to all the objections of all the people living around these sites. We can not understand why the council has to pick sites in South Croydon when other places would be much more suitable.</p>	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
8812/01/001/DM44.2/O	P A J Galhia	Object	Soundness - Justified	DM44.2 661	<p>A proposed Gypsy and Traveller site next to Croydon's award winning Coombe Wood Gardens and at the end of a bridleway and popular walk beggars belief.</p>	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
8818/01/003/DM44.2/O	Owner of <i>Royal Garden Chinese Bar Restau</i>	Object		DM44.2 661	<p>Object to the te Travellers site as it would be in be in a Green Belt and in breach of government guidance and there would be no services local to the area</p>	Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

8822/01/011/DM44.2/O	Mrs M Davies	Object	DM44.2 661	I object to the following: - The use of the site at Coombe Farm for a gypsy traveller site (502) - The use of the site at Coombe Lodge for a gypsy traveller site (661)		Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
0084/02/005/DM44.2/O	Mr Dale Greetham <i>Sport England</i>	Object	DM44.2 662	All area policies should be in line with Sport England's Land Use Planning Policy Statement 'Planning for Sport Aims and Objectives' and Paragraph 74 of the NPPF and Sport England's Playing Fields Policy. The Coombe Road Playing Fields, Coombe Road site (Ref no 662) in South Croydon includes existing sports facilities. Furthermore, the remainder of the specific sites could also include existing sports facilities (it is unclear as the existing use of these sites is not provided within this document). Planning Policy Objective 1 within Sport England's Land Use Planning Policy Statement 'Planning for Sport Aims and Objectives' aims to prevent the loss of sports facilities and land along with access to natural resources used for sport. Furthermore, It is understood that some of the above sites form part of, or constitute a playing field as defined in The Town and Country Planning (Development Management Procedure) (England) Order 2010 (Statutory Instrument 2010 No.2184). Sport England would be consulted as a statutory consultee on any forthcoming planning applications and they would be considered in light of its Playing Fields Policy. A site allocation and subsequent development on the playing field aspect of these sites (which did not accord with Sport England's Playing Fields Policy) would contravene paragraph 74 of the NPPF, which includes a strong presumption against building on open space. Sport England objects to the allocation of the land unless the above policies are fulfilled.	The site should not be allocated if it involves the loss of sports facilities or playing fields.	Change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.  The proposed allocation will be amended to include the retention of playing pitches.

0092/02/021/DM44.2/O	Riddlesdown Residents Associatio	Object		DM44.2 662	The Coombe Playing Fields, currently Green Belt, are being proposed for development in Policy DM44.2, Table 11.17, site 662. The site should remain as Green Belt.	The site should remain as Green Belt.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
0790/01/149/DM44.2/O	Mr Mathew Frith London Wildlife Trust	Object	Soundness - Justified	DM44.2 662	The Local Plan states that the site "met the criteria for de-designation" from the Green Belt, however, the site is not referenced under Policy SP7. The Council should state clearly what reasons it gives for it no longer meeting criteria for designation as Green Belt.		Change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

1727/01/004/DM44.2/O	Anthony Barber	Object		DM44.2 662	The de-designation of Croham Hurst as Green Belt, despite being a biological Site of Special Scientific Interest (SSSI) and a Site of Metropolitan Importance for Nature Conservation and Coombe Road Playing Fields as Green Belt, site reference 662 as the de-designation of both sites would not comply with Policy SP7.2 and protection of the green grid	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
1737/01/004/DM44.2/O	Brian Carter	Object	Soundness - Justified	DM44.2 662	It would de-designate Coombe Lodge Playing Fields as Green Belt. The re-designation of this site would not comply with Policy SP7.2 and the protection of the Green Belt.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

1755/01/004/DM44.2/O	Ann Kellaway	Object	DM44.2 662	The de-designation of Croham Hurst as Green Belt, despite being a biological Site of Special Scientific Interest (SSSI) and a Site of Metropolitan Importance for Nature Conservation and Coombe Road Playing Fields as Green Belt, site reference 662 as the de-designation of both sites would not comply with Policy SP7.2 and protection of the green grid	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
1771/01/004/DM44.2/O	Amanda Stretton	Object	DM44.2 662	OBJECT to The use of the following location for a Secondary School: Coombe Road Playing Fields, site reference 662 as this site would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

1788/01/010/DM44.2/O	Alice Desira	Object	Soundness - Justified	DM44.2 662	The Coombe Playing Fields, currently Green Belt, are being proposed for development in Policy DM44.2, Table 11.17, site 662 (p179). The site should remain as green belt.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
1793/01/002/DM44.2/O	Amit Patel <i>BK Financial Management Limited</i>	Object		DM44.2 662	The Coombe Playing Fields, currently Green Belt, are being proposed for development in Policy DM44.2, Table 11.17, site 662 (p179). The site should remain as green belt.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

1797/01/008/DM44.2/O	Andrea Telman	Object	DM44.2 662	I totally disagree to the following planning applications which would spoil the character of our local environment and threaten our green belt. I choose to live in an area that is peaceful and quiet and resent the changes that are being forced upon me. In the spirit of true democracy I wish to make clear my objection to the following developments - Policy DM2 (p18);Policy DM40.1 (p166); Policy 40.4, Table 11.3, Site 30 (p168) ; Policy 40.4, Table 11.3, Site 61 (p168). ;Policy DM41.3, Table 11.14, site 306 (p171); Policy DM44.2, Table 11.17, site 661 (p179). ; Policy DM44.2, Table 11.17, site 662 (p179); Policy DM28 (p115-116); Policy DM35, Table 11.8, Site 945 (p146); and Policy DM31.4 (p126)	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
1800/01/007/DM44.2/O	Carly Litchfield	Object	DM44.2 662	The site should remain as green belt. Croham Hurst Woods are being de-designated from Green Belt to Metropolitan Open Land in Policy SP7 of the Strategic Plan. Sanderstead Plantation is also being downgraded from Green Belt to Metropolitan Open Land. Objections are raised to all these downgrades.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

1821/01/003/DM44.2/O	Hina Shavdia	Object	Soundness - Justified	DM44.2 662	Object to the de-designation of: Croham Hurst as Green Belt, despite being a biological Site of Special Scientific Interest (SSSI) and a Site of Metropolitan Importance for Nature Conservation; Coombe Road Playing Fields as Green Belt, site reference 662; as the de-designation of both sites would not comply with Policy SP7.2 and protection of the green grid	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.	
1829/01/010/DM44.2/O	Christine Cafferkey	Object	Soundness - Justified	DM44.2 662	The Coombe Playing Fields, currently Green Belt, are being proposed for development in Policy DM44.2, Table 11.17, site 662 (p179).	The site should remain as green belt.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

1843/01/007/DM44.2/O	Mrs A L Winkley	Object	DM44.2 662	I object to DM44.2 table11.17 site 662,	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
----------------------	-----------------	--------	---------------	---	-----------	--

1853/01/006/DM44.2/O	Brian Matthews	Object	DM44.2 662	These sites should not be downgraded from greenbelt status.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
----------------------	----------------	--------	---------------	---	-----------	--

1856/01/005/DM44.2/C	Chris Sleight		DM44.2	Policy DM44.2, Table 11.17, site 662 (p179): I object to the reclassification of Coombe Playing Fields, Croham Hurst Woods and Sanderstead Plantation from Greenbelt to Metropolitan Open Land. This is not appropriate. It is essential for the character, ecology and biodiversity of the borough that these green spaces remain fully protected and are recognised for what they are - Green Belt. To downgrade them would be an obvious 'thin end of the wedge' to losing them.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
1858/01/004/DM44.2/O	Catherine Pleasance	Object	DM44.2	I object to the de-designation of the site as Green Belt.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

1860/01/003/DM44.2/O	Mrs Cathy Sidholm	Object	DM44.2 662	I am writing to object to the de-designation of Coombe Road Playing Fields as Green Belt, site reference 662; as the de-designation of both sites would not comply with Policy SP7.2 and protection of the green grid.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
1886/01/006/DM44.2/O	David Smith	Object	DM44.2 662	Loss of Green Belt- (1) Coombe Playing Fields, (2) Croham Hurst, (3) Sanderstead Plantation The Coombe Playing Fields, currently Green Belt, are being proposed for development in Policy DM44.2, Table 11.17, site 662. These sites should remain as green belt. Croham Hurst Woods and Sanderstead plantation are being de-designated from Green Belt to Metropolitan Open Land in Policy SP7 of the Strategic Plan. I object to all these downgrades, as they are both easily accessible areas for exercise and recreation that once gone will never be replaced	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

1892/01/006/DM44.2/O	Dennis Carter	Object	DM44.2 662		No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
----------------------	---------------	--------	---------------	--	-----------	--

1894/01/007/DM44.2/O	Mr & Mrs Derek & Sue Reeves	Object	DM44.2 662	We would make the following objections to the proposed Draft Local Plan which is a poorly disguised attack on the southern part of the Borough  Policy DM 44.2, table 11.17, Site 662	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
----------------------	-----------------------------	--------	---------------	---	-----------	--

1896/01/004/DM44.2/O	Divya Kumar	Object	DM44.2 662	I object to the de-designation of the site as Green Belt.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.	
1916/01/006/DM44.2/O	Andrew Hird	Object	DM44.2 662	The Coombe Playing Fields, currently Green Belt, are being proposed for development in Policy DM44.2, Table 11.17, site 662 (p179). The site should remain as green belt. Croham Hurst Woods are being de-designated from Green Belt to Metropolitan Open Land in Policy SP7 of the Strategic Plan (p55 of Policies Map). Sanderstead plantation is also being downgraded from Green Belt to Metropolitan Open Land. All these downgrades should be removed.	he site should remain as green belt.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

1926/01/018/DM44.2/O	Councillor Luke Clancy	Object	Soundness - Justified	DM44.2 662	I also object to the de-designation of the following areas which are not even listed in the table on page 53 of the Policies Map, which highlights the changes to the green grid. This information only becomes apparent when looking at individual sites, which begs the question as what other significant changes have not been detailed in the strategic policy overviews: Coombe Road Playing Fields as Green Belt, site reference 662; The de-designation of all the above sites would not comply with Policy SP7.2 and protection of the green grid	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
1944/01/004/DM44.2/O	Mr Mark Barrows	Object		DM44.2 662	I object to Coombe Road Playing Fields as Green Belt, Policy DM44.2, site reference 662; as the de-designation of both sites would not comply with Policy SP7.2 and protection of the green grid;	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

1982/10/003/DM44.2/O E McNally	Object	DM44.2 662	I object to the de-designation of:  Coombe Road Playing Fields as Green Belt, site reference 662 as the de-designation of both sites would not comply with Policy SP7.2 and protection of the green grid.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
1989/01/004/DM44.2/O S R Samuel	Object	DM44.2 662	The de-designation of Croham Hurst as Green Belt, despite being a biological Site of Special Scientific Interest (SSSI) and a Site of Metropolitan Importance for Nature Conservation and Coombe Road Playing Fields as Green Belt, site reference 662 as the de-designation of both sites would not comply with Policy SP7.2 and protection of the green grid	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

1990/01/004/DM44.2/O	Douglas & Linda Oram	Object	DM44.2 662	I object to the de-designation of the site as Green Belt.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
----------------------	----------------------	--------	---------------	---	-----------	--

2005/01/004/DM44.2/O	J. M Lewis	Object	DM44.2 662	I object to the de-designation of the site as Green Belt.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
2071/01/018/DM44.2/O	Councillor Mario Creatura <i>London Borough of Croydon</i>	Object	Soundness - Justified	DM44.2 662	I also object to the de-designation of the following areas which are not even listed in the table on page 53 of the Policies Map, which highlights the changes to the green grid. This information only becomes apparent when looking at individual sites, which begs the question as what other significant changes have not been detailed in the strategic policy overviews: Coombe Road Playing Fields as Green Belt, site reference 662; The de-designation of all the above sites would not comply with Policy SP7.2 and protection of the green grid	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

2078/01/004/DM44.2/O	Mr Nivaj Sawant	Object	DM44.2 662	I object to the de-designation of the site as Green Belt.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
2093/07/001/DM44.2/O	Lorraine Pond	Object	DM44.2 662	Policy DM44.2, table 11.17, site 662 - this site should not be developed. Policy SP7 of the Strategic Plan - this should not be de-designated from Green Belt to Metropolitan Open Land. Sanderstead plantation should not be downgraded from Green Belt to Metropolitan Open Land. I object to all these proposals.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

2103/01/004/DM44.2/O	Miss DC Smith	Object	DM44.2 662	I object to the de-designation of the site as Green Belt.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.	
2128/02/014/DM44.2/O	Cllr Steve O'Connell AM	Object	DM44.2 662	I object to the loss of Green Belt. The de-designation of all the above sites would not comply with Policy SP7.2 and protection of the green grid.	This site should remain Green Belt.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

2141/01/004/DM44.2/O P Graham	Object	DM44.2 662	I object to Coombe Road Playing Fields as Green Belt, Policy DM44.2, site reference 662; as the de-designation of both sites would not comply with Policy SP7.2 and protection of the green grid;	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
2144/01/004/DM44.2/O P Busby	Object	DM44.2 662	The de-designation of Croham Hurst as Green Belt, despite being a biological Site of Special Scientific Interest (SSSI) and a Site of Metropolitan Importance for Nature Conservation and Coombe Road Playing Fields as Green Belt, site reference 662 as the de-designation of both sites would not comply with Policy SP7.2 and protection of the green grid	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

2150/01/004/DM44.2/O	R. V. Lewis	Object	DM44.2 662	I object to the de-designation of the site as Green Belt.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
----------------------	-------------	--------	---------------	---	-----------	--

2160/01/002/DM44.2/S	Glen Print	Support	DM44.2 662	I have no objection to the building of a secondary school on the site of Coombe Wood playing field, as it does bring benefit to future generations.	Welcome support	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
----------------------	------------	---------	---------------	---	-----------------	--

2175/01/005/DM44.2/O	Mrs Veronica Prigg	Object	DM44.2 662	<p>I wish to object to Policy DM 44.2 Loss of Greenbelt . Proposed development of Coombe playing fields. This is designated Greenbelt so development should not be permitted.</p> <p>Croham Hurst and Sanderstead Plantation both presently Greenbelt redesignated as Metropolitan open land -why? Does this make development easier? These are both precious open spaces, with Croham Hurst having SSSI status and as such should be fully protected.</p> <p>I quite appreciate the need for more housing, but one only has to visit Croydon to see the number of vacant/ derelict sites that could be developed for housing rather than concreting over beautiful open spaces which can never be replaced. I trust you will consider my very valid objections and fears.</p>	No change	<p>There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.</p>
2181/01/008/DM44.2/O	Ray & Anne Smith	Object	DM44.2 662	<p>Object to Loss of Green Belt on all three sites at Coombe Playing Fields, Croham Hurst and Sanderstead Plantation and SP7.</p>	No change	<p>There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. 2607/01/003/DM44.2/O	A&L Issac	Object	DM44.2 662	<p data-bbox="1457 751 1792 842">Re:Proposals for Traveller's Site on Conduit Lane Proposal for School on Coombe Playing Fields</p> <p data-bbox="1457 869 1792 1136">We are writing to object to the above proposals. We have grown up in South Croydon and have been regular visitors to Coombe Wood and gardens, and now with our young daughter. This green belt refuge in dense suburban Croydon would suffer great from any development in Conduit Lane. A traveller site would be inappropriate and adversely affect the character of this special environment .</p> <p data-bbox="1457 1163 1792 1346">We understand that there are always competing demands and needs for the council to meet in the borough but please recognise the amenity value of precious green areas in Croydon, that would be lost to future generations by insensitive development.</p>	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

2608/03/002/DM44.2/S	Jonathan Wilden WCGS Academy Trust	Support	DM44.2 662	<p>To date, the EFA and Cushman &amp; Wakefield have undertaken a detailed search for a site in the area using the following property search criteria:</p> <ul style="list-style-type: none"> <li><input type="checkbox"/> Location within Croydon and location relative to the school catchment area;</li> <li><input type="checkbox"/> Sites available within suitable timescales;</li> <li><input type="checkbox"/> Likelihood of obtaining planning approval for a Secondary School</li> <li><input type="checkbox"/> That the on-going service/maintenance costs offer good value.</li> <li><input type="checkbox"/> Technical risks associated with any redevelopment.</li> <li><input type="checkbox"/> Access to external play areas and open space.</li> <li><input type="checkbox"/> Good pedestrian access for local children to be able to walk to school.</li> <li><input type="checkbox"/> Local transport links and connections to the site.</li> </ul> <p>We have identified a number of sites through this process which are not considered suitable due to size constraints, site ownership/availability, conflicting ('bad neighbor' adjacent uses, , and poor infrastructure linkages.</p>	<p>In summary there are no other suitable, available and deliverable sites in the area at present. WCGS is interested in the site and developing a new secondary school there.</p>	Welcome support	<p>Whilst the Local Plan cannot endorse specific school providers we welcome the support for this site from the WCGS Academy Trust.</p>
----------------------	---------------------------------------	---------	---------------	--	--	-----------------	---

---

2608/02/001/DM44.2/S	Jonathan Wilden WCGS Academy Trust	Support	DM44.2 662	<p>The WCGS Academy Trust would like to register an interest in the following site in response to Croydon's Local Plan. (site number 662)</p> <p>The preferred option stated in the Local Plan is for a 'secondary school'. We would like to register an interest in the 'preferred option' which is for a secondary school.</p> <p>The WCGS Academy Trust has received approval from the Department for Education to open a comprehensive Free School with a sports specialism in the South Croydon area to open in September 2018.</p> <p>Our attached document 'A proposal for a brand new WCGS Academy Trust Secondary School, Coombe Road Playing Fields – Local Plan ref 662' forms our representation to Croydon Council for our Free School with enhanced sports facilities to be located on site 662 and should be read in conjunction with this form.</p> <p>This new secondary school provision with enhanced sports facilities will meet the needs of local people and will support the development of younger generations to achieve their best educationally and through engagement in sporting activity. We aim to provide opportunities for all young people to reach their personal best</p> <p>See our attached document 'A proposal for a brand new WCGS Academy Trust Secondary School, Coombe Road Playing Fields – Local Plan ref 662' for further information.</p>	<p>The WCGS Academy Trust has received approval from the Department for Education to open a comprehensive Free School with a sports specialism in the South Croydon area to open in September 2018.</p> <p>With the support of the Educational Funding Agency (EFA), the Department for Education (DfE) and Croydon Council a new Free School can be delivered by 2018.</p> <p>The phasing of development should be adjusted to reflect the opening of the Free School in 2018 rather than the phased development of 2021-2026 as suggested in the Local Plan.</p>	Welcome support	<p>Whilst the Local Plan cannot endorse specific school providers we welcome the support for this site from the WCGS Academy Trust.</p>
----------------------	---------------------------------------	---------	---------------	---	--	-----------------	---

2617/01/003/DM44.2/O	Richard Parrish <i>Archbishop Tenison's School</i>	Object	DM44.2 662	I am also objecting to the proposal to build a secondary school at site reference 662 where I understand that the preferred approach is to allow an Academy Trust from a neighbouring borough, which currently runs a single sex selective / grammar academy, to run the school on this site. My ground for objecting to this is that this is in conflict with SP5.9 which states that the Council will support investment in the improvement and expansion of primary and secondary schools. I attach in Appendix A a short history of the plans for the proposed move of Archbishop Tenison's school to the Coombe Road site. As you will see in that summary, following the failure to proceed with that proposal, the Council undertook to find an alternative site to relocate and expand Archbishop Tenison's. In fact it has not yet managed to do this and now has to opportunity to deliver on that undertaking by offering this original nursery site to this school and maintaining the playing fields as they are, which are an important facility for sport not just in this school, but for other existing secondary schools in the Borough. It seems completely wrong to make that important sporting site available for building to an out of borough academy trust with no experience of running a coeducational mixed ability school. It is also worth adding that this approach could free up the current Archbishop Tenison's site in Park Hill for residential redevelopment close to central Croydon or for community use as a primary school. For obvious reasons we are strongly opposed to Croydon Council inviting a single sex, grammar / selective school from another borough to build a school on this site rather than meeting its objective under SP5.9 of supporting investment in the expansion of existing secondary schools in the borough	Use the site to relocate and expand the existing Archbishop Tenison's school.	No change	The Local Plan does not endorse specific school providers. It is allocating the site for use as a new secondary school and should the Archbishop Tenison's School wish to open a new secondary school on this site then this would be in line with the proposed allocation. However, given the need for new school places in the borough the Council would not be in favour of the simple relocation of Archbishop Tenison's School and the reuse of their current site for residential use as this would potentially leave the borough with a shortfall in secondary school places.
2629/01/005/DM44.2/S	Jamie McFarland <i>Education Funding Agency</i>	Support	DM44.2 662	The Education Funding Agency has approved 3 new Free Schools currently looking for sites within Croydon. This site has been identified as being potentially suitable options for the permanent location of the WCGS Federation Free School. We would welcome the opportunity to work with Croydon Council and the respective trust to make these sites available options for these schools.		Welcome support	Whilst the Local Plan cannot endorse specific school providers we welcome the support for this site from the Education Funding Agency.

2634/01/007/DM44.2/C	Charlie Fagan ARK	Comment	DM44.2 662	The site does not meet Ark's demographic criteria.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
2635/01/009/DM44.2/O	Paul Sandford <i>Bourne Society</i>	Object	DM44.2 662	I also object to the de-designation of the following areas: Coombe Road Playing Fields as Green Belt, site reference 662; Land to the west of Timebridge Community Centre, Lodge Lane, site reference 636. which are not even listed in the table on page 53 of the Policies Map, which highlights the changes to the green grid. This information only becomes apparent when looking at individual sites, which begs the question as what other significant changes have not been detailed in the strategic policy overviews. The de-designation of all the above sites would not comply with Policy SP7.2 and protection of the green grid	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

2642/02/004/DM44.2/O	Mr John Walsh	Object		DM44.2 662	I object to the de-designation of the site as Green Belt.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
2657/01/033/DM44.2/O	Rebecca Pullinger <i>CPRE London</i>	Object	Soundness - Effective	DM44.2 662	The more specific site allocations represent a large reduction in the amount of designated and non-designated open space. While we acknowledge the need to build new homes and associated infrastructure such as schools, Croydon's growing population also needs quality open spaces for all the human amenity and ecosystem services which they provide. The Local Plan states that the site "met the criteria for de-designation" from the Green Belt however the site is not mentioned the policy SP7 which covers changes in Open Space Designations. The council should state clearly what reasons it gives for it no longer meeting criteria for designation as Green Belt. Even if the site does not meet Green Belt criteria, a change to MOL designation should be considered as the site has recreational use and therefore meets criteria for MOL. The Council should remove the proposed site allocation and designate the site as Metropolitan Open Land.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

2659/01/004/DM44.2/O	Mr Paul Quaintance	Object	DM44.2 662	I object to the de-designation of the site as Green Belt.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
2659/02/002/DM44.2/O	Mr Paul Quaintance	Object	DM44.2 662	Building a secondary school and traveller pitches in this area will not be in keeping with the area. The area is very green and popular as a place to spend time in Croydon's natural areas for many many people. Building these sites on green belt land here would not be appropriate. It would detract from the special characteristics of the local area. It would also bring heavy traffic with regards to the secondary school to an area where there is also difficulty parking in the week with other schools / nursery's also in this area. I believe it would affect negatively the local amenities and also would be inappropriate for people enjoying Lloyd Park, Coombe Lodge Café and the wooded areas around these very important local areas. Coombe Wood and Lloyd Park are some of Croydon's few special places. We should not be building on Green Belt land and detracting from the special characteristics of local areas. We should keep and protect the few special places that Croydon has such as Lloyd Park and its surrounding areas and woodland. This is critical given all the development in the centre of Croydon for people to escape and relax in.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

2662/01/004/DM44.2/O	Mr Terrence Pais	Object	DM44.2 662	I object to the de-designation of the site as Green Belt.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
2662/02/001/DM44.2/O	Mr Terrence Pais	Object	DM44.2 662	The proposal does not meet Strategic Objectives 5, 9 and 10. It will have the greatest impact as the increased traffic, noise, light will affect the fauna of the area, including badgers, deer, owls and pheasants. Increased traffic and impact on tram services will adversely affect the area. Future generations will also need playing fields. Development in the Green Belt is inappropriate because the Green Belt is designed to prevent urban sprawl. The increased development in central Croydon will increase the population of the area and that population will need green space. People do not need to use the playing fields to benefit from them. The visual impact of green space versus a developed space is a benefit. Losing playing field space will have an impact on current users. The site should be retained as a playing field.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

2664/01/003/DM44.2/O	Ms Alison Lawton	Object		DM44.2 662	I object to the de-designation of the site as Green Belt.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
2699/01/003/DM44.2/O	Mr & Mrs Tahir	Object	Soundness - Justified	DM44.2 662	Object to this site for school as it is in Green belt and there are enough schools in the locality. It would cause extra pressure on traffic and parking in this congested area. Alternative sites should be sought that have less impact on the environment	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

We are extremely concerned to learn that proposals are being considered to build a school on the Coombe Lodge playing fields.

Clearly this would be a significant 'change of use' for a site which is located within the 'Green Belt'. Furthermore, we understand that the area is designated as being 'of Special Character' within the Borough. As such it is protected from any re-development which would be contrary to conservation and local habitat.

As in other neighbouring boroughs, such developments tend to precipitate and accelerate the erosion of natural area which have been protected for many years for use by all residents of the borough as well as countless visitors.

The proposed re-development site is adjacent to Addinton Hills, Coombe Gardens, Lloyd Park and Coombe Farm. We contend that such a development would be totally inappropriate for the area, as the character of these local areas of leisure and relaxation would be negatively affected.

More specifically, the potential re-development may have more obvious negative local impact. It is a matter of record that many inner-city schools and colleges no longer have adequate on-site playing fields to meet their National exercise through sport and physical activities, traditionally in games such as football, athletics and cricket. These are all played at Coombe Lodge. The loss or reduction of the facilities here would further exacerbate this situation within this area of the Borough.

Furthermore, any significant construction project at the proposed location such as a school, would inevitably cause major disruption to the local area for the entire project duration. Large industrial vehicles, construction work and plant deliveries, let alone environmental and noise pollution, would be a blight on the local area for many months, if not years.

No doubt you are aware there are already two schools in Melville Avenue- Old Palace School of John Whitgift and Rutherford Special Needs School. As a consequence, local residents are obliged to endure periods of chaotic traffic movements in Melville Avenue and other connecting roads. It is inevitable that the local roads and side streets

There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

would be even more seriously congested especially at peak periods, due to the significant increase in traffic generated by the construction of a new school on the site of Coombe L Lodge playing fields.

There is currently no bus service along Coombe Road and the only adjacent public transport is the Tram Link, so an increase in private vehicles in the area would be inevitable if the re-development proposal were put into practice.

As Croydon residents for many years, we certainly do not feel that this proposed re-development within our local community is appropriate, nor or in the local interest. It will certainly not benefit our lifestyle. We strenuously object to the proposed re-development of the Coombe Lodge playing fields site and urge the Council to abandon the proposed re-development this plot of land so that it continues to provide a much valued recreation facility whilst enhancing the local environment.

We trust we can count on your vigorous support to counter the local planning changes which have raised these current proposals and also to reject any similar inappropriate schemes within the Croyham Ward of the Borough.

2717/01/004/DM44.2/O	Mrs & Mrs Rutherford	Object	DM44.2 662	I object to Coombe Road Playing Fields as Green Belt, Policy DM44.2, site reference 662; as the de-designation of both sites would not comply with Policy SP7.2 and protection of the green grid;	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

----------------------	-----------------------	--------	-----------------------	---------------	--	-----------	--

2754/01/001/DM44.2/O	Mr P Sowan	Object	DM44.2 662	The new secondary school would require dedesignation and this would be contrary to London policies to protect the Green Belt and would detract from the attractiveness of the open space. It would also cause traffic and access problems in the area. The appropriateness of a school adjacent to a travellers site is questionable.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
2770/01/008/DM44.2/O	Mr Peter May	Object	DM44.2 662	DM44.2, Table 11.17, site 661 Coombe Lodge Nurseries proposes this be used in future as a Gypsy and Travellers site. As I understand it this is currently green belt land and it is totally inappropriate to use green belt land in this way. Such land is precious for wild life and the community as a whole and should not be allowed to be lost for this purpose. Indeed all green belt land should be regarded as sacrosanct and not be allowed to be downgraded. This also applies to site 662 Coombe Road Playing Fields which again should remain as green belt land and not be allowed to be built upon.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

2773/01/001/DM44.2/S	David Peschier	Support	DM44.2 662	<p>Support - The Coombe Road playing field would be a suitable site for a school.</p> <p>1. Endorse the plan to build a school subject to approving the site plan.</p> <p>2. but have concerns about:</p> <ul style="list-style-type: none"> <li>- The lack of transport links serving the proposed new school with approx 1200 pupils and staff - there is currently no bus route along Coombe Road</li> <li>- The tram system has insufficient capacity to cope with additional numbers as is already over-loaded in peak times around Lloyds Park area due to pupils and staff travelling to and from the two established schools in close proximity.</li> <li>- The road layout would need to be amended to enable safe and secure delivery of pupils to the new school</li> <li>- Suggest the school entrance on Conduit Lane with a large new roundabout created at the junction with Oaks Rd to allow access in/out of the school.</li> </ul>	No change	<p>There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.</p>
2774/01/007/DM44.2/O	Cllr Susan Winborn <i>London Borough of Croydon</i>	Object	DM44.2 662	<p>Objects to the de-designation of Coombe Road Playing Fields as green belt</p>	No change	<p>There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Object

DM44.2  
662

Even more concerning is the proposal to use Coombe Playing Fields (currently Green Belt) for a new school (Policy DM 44.2, Table 11.17, site 662 (page 179)). For many people in Croydon, their first open space of any consequence is the land around Lloyd Park. The character of this land has already been tarnished by the tram route running through them, and this proposal can only be seen as part of the insidious erosion of what is surely one of Croydon's prized possessions.

The site should remain Green Belt.

No change

There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

The proposal to build a secondary school at site reference 662 where I understand that the preferred approach is to allow an Academy Trust from a neighbouring borough, which currently runs a single sex selective / grammar academy, to run the school on this site. This is in conflict with SP5.9 which states that the Council will support investment in the improvement and expansion of primary and secondary schools. Croydon Council had a previous proposal, which they could revive, to use this site to relocate and expand Archbishop Tenison's school - the borough's most successful co-educational secondary school which is highly popular with strong leadership and which has already invested time and effort in planning for such a move under the previous proposals. Following the failure to proceed with that previous proposal the council undertook to find an alternative site to relocate and expand Archbishop Tenison's - it has failed to do so and, with this current opportunity of delivering on that undertaking, is now failing to do so by offering this original site to an out of borough academy trust with no experience of running a coeducational mixed ability school. In addition this approach would free up the current Archbishop Tenison's site in Park Hill for residential redevelopment close to central Croydon or for community use as a primary school.

I am deeply opposed to Croydon Council inviting a single sex, grammar / selective school from another borough to build a school on this site rather than meeting its objective under SP5.9 of supporting investment in the expansion of existing secondary schools in the borough.

There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

2886/01/008/DM44.2/O	Mrs Dianne Haile	Object	DM44.2 662	I am writing to object to the de-designation of Coombe Road playing fields because de-designation would not comply with policy SP7.2 and the protection of the Green Belt.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
2888/01/004/DM44.2/O	Mr Phillip Moore	Object	DM44.2 662	I object to the de-designation of Coombe Road Playing Fields as Green Belt - site reference 662.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

2889/01/005/DM44.2/O	Mr Peter Lawton	Object	DM44.2 662	I object to the de-designation of Coombe Road Playing Fields as green belt.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
2906/01/003/DM44.2/O	Mr Gerald Smith	Object	DM44.2 662	Policy DM44.2 (page 179) - Loss of Green Belt Areas I object strongly to the downgrading of Coombe Wood Playing Fields/Croham Hurst and Sanderstead Plantation to facilitate housing development. There is not a lot of greenery in Croydon as a whole (particularly in the north of the borough) so why remove what we have?	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

2913/01/005/DM44.2/O	Wendy Wilkinson	Object	DM44.2 662	I object to the de-designation of Coombe Road Playing Fields as Green Belt as the de-designation of the site would not comply with Policy SP7.2 and protection of the green grid.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
----------------------	-----------------	--------	---------------	---	-----------	--

2931/01/013/DM44.2/O	Mr John Newman	Object	DM44.2 662	I object to the de-designation of the site as it would not comply with Policy SP7.2 and protection of the Green Grid.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
----------------------	----------------	--------	---------------	---	-----------	--

2932/01/003/DM44.2/O	Mr James Lawton	Object	DM44.2 662	I object to the de-designation of Coombe Road Playing Fields as green belt.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
2934/01/005/DM44.2/O	J A Meyer	Object	DM44.2 662	I object to the de-designation of Coombe Road Playing Fields as green belt as it would not comply with Policy SP2.7 and protection of the green grid.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

I understand that the following Policies will threaten our green spaces. I was born in Croydon and have lived in this area all my life (I am now 63). My parents came here from Scotland in the early 1950s. They chose this area specifically for its green spaces and it is quite unique in that facility. I spent more than 35 years in Real Estate in this area and know very well that the reason people continue to move here, is exactly for these facilities and yet remaining within easy reach of other amenities, London, the coast and airports. Of course, more housing is required but I believe the alternative suggestions to these proposals to be very valid and much more in keeping with the neighbourhood thus maintaining its attractiveness and good standard.

These proposals are ill conceived and will change this particular neighbourhood beyond all recognition and take away that for which it is well known and valued. Please hear the voices of people like me and do NOT continue with the proposed policies set out below and which can be found in your Local Plan:

7. The Coombe Playing Fields, currently Green Belt, are being proposed for development in Policy DM44.2, Table 11.17, site 662 (p179). The site should remain as green belt. Croham Hurst Woods are being de-designated from Green Belt to Metropolitan Open Land in Policy SP7 of the Strategic Plan (p55 of Policies Map). This is an area of specific natural beauty and scientific interest. Sanderstead plantation is also being downgraded from Green Belt to Metropolitan Open Land. I object to all these downgrades and

There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

2978/01/006/DM44.2/O	Mr James Marland	Object	DM44.2 662	No downgrade of (1) Coombe Playing Fields. They should remain greenbelt land and protected.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
2982/01/031/DM44.2/O	Mrs Jeanne Driscoll	Object	DM44.2 662	I wish to add my objections made on this document by our local M.P. Chris Philp.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

2985/01/003/DM44.2/O	Jennifer Houghton	Object	DM44.2 662	<p>I object to the proposal to down grade the above site from green belt to Metropolitan. Croydon is a London Borough known for having green spaces and parks which are much appreciated by all the local residents and adds to its positive image.</p> <p>I also object to the proposed provision of. Gypsy/ traveller site at Conduit Lane this is a green belt site. There are limited facilities for families who would be living there - no local shops or health centre. There is a shortage of local primary school places and no primary school within walking distance. I understand it is of paramount importance to encourage traveller family to send their children to school so that they can continue their education.</p>	No change	<p>There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.</p>
2991/01/002/DM44.2/O	Anna Bond	Object	Soundness - Justified DM44.2 662	<p>Loss of Green Belt – (1) Coombe Playing Fields, (2) Croham Hurst, (3) Sanderstead Plantation</p> <p>The Coombe Playing Fields, currently Green Belt, are being proposed for development in Policy DM44.2, Table 11.17, site 662 (p179). The site should remain as green belt. Croham Hurst Woods are being de-designated from Green Belt to Metropolitan Open Land in Policy SP7 of the Strategic Plan (p55 of Polices Map).</p>	No change	<p>There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.</p>

2999/01/006/DM44.2/O	Mr John Harris	Object	DM44.2 662	I am writing to object to the de-designation of: Coombe Road Playing Fields as Green Belt being proposed for development in Policy DM44.2, Table 11.17, site 662 (p179).  The de-designation of these sites would not comply with Policy SP7.2 and protection of the green grid.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
3003/01/007/DM44.2/O	Mr John James	Object	DM44.2 662	I would like to register my objection to DM44.2, Table 11.17, Site 662 (Green Belt development)	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

3011/01/004/DM44.2/O	Mr Joseph Trickey	Object	DM44.2 662	<p>I wish to state my strong objection to any diminution of local green spaces. The draft local plan Policy DM 44.2 and Policy SP7 propose redesignation from Green Belt status to Metropolitan Open Land for Croham Hurst and also for the Sanderstead Plantation and Coombe Playing Field. The value of maintaining protection for these spaces for health and environmental reasons must be evident to everyone responsible for their protection. For many years I, along with many others, have used these open spaces and woodlands to walk around the area and also for walking into Croydon town. One of Croydon's great assets is in the number of green spaces available for the public's recreation, and it is clear from public meetings that the people of Croydon see them as of great benefit. Not only is the public prepared to use them but as is seen from the associations like the Friends of Croham Hurst Woods and the Friends of Wetton Gardens people are also prepared to work for their improvement. I should like reassurance that the redesignation of the land will not result in any erosion of the areas open for walking and for leisure in general</p>	No change	<p>There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.</p>
----------------------	-------------------	--------	---------------	---	-----------	---

3027/01/002/DM44.2/O	Mr Nicholas Hook	Object	DM44.2 662	<p>The Coombe Playing Fields, currently Green Belt, are being proposed for development in Policy DM44.2 Table 11.17, site 662 (pg179). The site should remain as green belt.</p>	No change	<p>There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.</p>
----------------------	------------------	--------	---------------	--	-----------	---

3046/01/008/DM44.2/O	Stephanie Lawson	Object		DM44.2 662	I object to the development plans detailed in this policy and believe the site should remain as green belt. These sites should not be downgraded as proposed.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
----------------------	------------------	--------	--	---------------	---	-----------	--

3070/01/006/DM44.2/O	Christine Denney	Object	Soundness - Consistent with National	DM44.2 662	I should like to protest against the site chosen for gypsy camps and a new secondary school being built on green belt. There must be better sites for them as we must protect our green belt sites.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
----------------------	------------------	--------	--	---------------	---	-----------	--

3074/01/006/DM44.2/O	Christine Younger	Object	DM44.2 662	I strongly object to this council building or using Green Belt sites for this and any other purpose. Also high rise flats will upset the balance of the areas. I do accept that we need more housing but these should be build on existing empty or land filled sites.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
3075/01/003/DM44.2/O	Mr Christopher Andrews	Object	DM44.2 662	Green belt means protected against development. That is the point otherwise the concept of 'Green Belt' and its associated legislation, may as well be scrapped altogether.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

3077/01/005/DM44.2/O	Mrs Clare Gardner	Object	Soundness - Justified	DM44.2 662	2.The de-designation of:  •Croham Hurst as Green Belt, despite being a biological Site of Special Scientific Interest (SSSI) and a Site of Metropolitan Importance for Nature Conservation; •Coombe Road Playing Fields as Green Belt, site reference 662; •Land at Shirley Oaks; •Rowdown Fields site reference 636 (New Addington does not need another secondary school) as the de-designation of these sites would not comply with Policy SP7.2 and protection of the green grid;	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
3081/01/007/DM44.2/O	Mr John Morgan	Object		DM44.2 662	Policy DM44.2, Table 11.17, site 662 (p179).The Coombe Playing Fields, currently Green Belt, are being proposed for development and they should retain their current status.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

3091/01/007/DM44.2/O	Mr Paul Gomm	Object	DM44.2 662	please note my objection to the following policy reference numbers within your current draft plan for planning & development;	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
----------------------	--------------	--------	---------------	---	-----------	--

3103/02/004/DM44.2/O	Mr Varsha Patel	Object	DM44.2 662	I object to the de-designation of the site as Green Belt.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
----------------------	-----------------	--------	---------------	---	-----------	--

I also want to express my total opposition to the idea of a school from another borough running another school on site 662. The idea that a Sutton school might be given a site in Croydon, when there are schools here that would dearly love to expand, is incomprehensible. One of the proposals in the plan (SP5.9) says that the council will support investment in the improvement and expansion of primary and secondary schools.

Archbishop Tenison's School was asked to prepare for a move to the Coombe Lane nursery site back in 2008 and, with the full support of the Education Department, the Governors planned the move in great detail. They were dealt a heavy blow, however, when in 2010 the site was withdrawn. The governors were told at the time that no one could build on the Coombe Lane site, because it was greenbelt land. In the last few years the School has expanded as much as it can and the Selborne Road site has been developed in a number of small ways to accommodate extra pupils, but there is a desperate need for large scale development on the site, or a relocation to another, more suitable site.

I want to express just how deeply opposed I am to the plan to allow a Sutton school to build on Coombe Lane. It would be intensely insulting to Archbishop Tenison's leadership and Governors. They have a prior claim on the site, they have been straining to expand for several years, and they have already demonstrated that they can run a school that is successful and popular. If any school moves to the Coombe Lane site, it should be Archbishop Tenison's.

There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

3124/01/004/DM44.2/O	Mr Gerald Lambert	Object	DM44.2 662	These policies seem to pose considerable threat to the greenbelt, which is a major cause for concern. Degrading the greenbelt for short term expediency is short-sighted. Surely more appropriate areas can be found for redevelopment!	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
3147/01/003/DM44.2/O	Dave Cooper	Object	Soundness - Consistent with National DM44.2 662	<p>I would like to object to parts of the recent Croydon Local Plan with particular reference to the following proposals, as they all will lead to degradation of the natural environment:-</p> <p>DM2 Infill building on existing gardens</p> <p>DM44.2 Table 11.17 site 661 Loss of Green belt (it's there for a reason!) There must be more suitable site</p> <p>DM44.2 Table 11.17 site 662 Loss of Green belt</p> <p>DM31.4 Reclassification of areas of special interest</p>	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

Object Soundness - DM44.2  
Justified 662

The application to develop a secondary free school at site reference 662 where I understand is to permit an Academy Trust from another borough, currently running a single sex grammar academy to manage the school on that site. I feel this is conflict with SP5.9 which states that the Council will support investment in the improvement and expansion of primary and secondary schools. Croydon Council had a previous proposal which could be revived and used to relocate and expand Archbishop Tenison's school. It is the borough's most successful co-educational secondary school, it is highly popular with an excellent leadership and which has already invested time and effort in planning for such a move under the previous proposals. Following the failure to proceed with that previous proposal the council undertook to find an alternative site to relocate and expand Archbishop Tenison's school. I believe it has failed to do so and with this current opportunity of delivering on that undertaking, it is now failing to do so by offering this original site to an out of borough academy trust with absolutely no experience of running a coeducational mixed ability school. In addition this approach would free up the current Archbishop Tenison's site in Park Hill for residential redevelopment which is close to central Croydon or for community use like a primary school. I am totally opposed to Croydon Council inviting a single sex grammar school from another borough to build a school on this site rather than meeting its objectives set under SP5.9 of supporting investment in the expansion of existing secondary schools in the borough.

No change

There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

Object Soundness - DM44.2  
Justified 662

I am objecting to:

No change

There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

The proposal to build a secondary school at site reference 662 where I understand that the preferred approach is to allow an Academy Trust from a neighbouring borough, which currently runs a single sex selective / grammar academy, to run the school on this site.

This is in conflict with SP5.9 which states that the Council will support investment in the improvement and expansion of primary and secondary schools. Croydon Council had a previous proposal, which they could revive, to use this site to relocate and expand Archbishop Tenison's school - the borough's most successful co-educational secondary school which is highly popular with strong leadership and which has already invested time and effort in planning for such a move under the previous proposals. Following the failure to proceed with that previous proposal the council undertook to find an alternative site to relocate and expand Archbishop Tenison's - it has failed to do so and, with this current opportunity of delivering on that undertaking, is now failing to do so by offering this original site to an out of borough academy trust with no experience of running a coeducational mixed ability school.

In addition this approach would free up the current Archbishop Tenison's site in Park Hill for residential redevelopment close to central Croydon or for community use as a primary school.

I am deeply opposed to Croydon Council inviting a single sex, grammar / selective school from another borough to build a school on this site rather than meeting its objective under SP5.9 of supporting investment in the expansion of existing secondary schools in the borough.

3185/01/007/DM44.2/O	Mr Stephen Woodward	Object	DM44.2 662	<p>We have lived in Sanderstead for over 40 years, and have thoroughly enjoyed the areas to the south of Croydon being unspoilt. In our view these ill conceived proposals will change this area beyond recognition and take away that for which it is well known and valued. Please rethink, and do not continue with the proposed policies set out below and which can be found in your Local Plan:</p> <p>The Coombe Playing Fields, currently Green Belt, are being proposed for development in Policy DM44.2, Table 11.17, site 662 (p179). The site should remain as green belt. Croham Hurst Woods are being de-designated from Green Belt to Metropolitan Open Land in Policy SP7 of the Strategic Plan (p55 of Policies Map). This is an area of specific natural beauty and scientific interest. Sanderstead plantation is also being downgraded from Green Belt to Metropolitan Open Land. I object to all these downgrades and feel very strongly about it.</p>	No change	<p>There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.</p>

No change

There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

3277/01/005/DM44.2/O	Mr Terrence McCarthy	Object	DM44.2 662	I object to the de-designation of Coombe Road Playing Fields as Green Belt, site reference 662; as the de-designation of the site would not comply with Policy SP7.2 and protection of the green grid.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
3281/01/005/DM44.2/O	Mr William Wheeler	Object	DM44.2 662	The present status of these areas, which are Green Belt land, should not be downgraded as proposed which would leave them vulnerable to development.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

The proposal to build a secondary school at site reference 662 where I understand that the preferred approach is to allow an Academy Trust from a neighbouring borough, which currently runs a single sex selective / grammar academy, to run the school on this site. This is in conflict with SP5.9 which states that the Council will support investment in the improvement and expansion of primary and secondary schools. Croydon Council had a previous proposal, which they could revive, to use this site to relocate and expand Archbishop Tenison's school - the borough's most successful co-educational secondary school which is highly popular with strong leadership and which has already invested time and effort in planning for such a move under the previous proposals. Following the failure to proceed with that previous proposal the council undertook to find an alternative site to relocate and expand Archbishop Tenison's - it has failed to do so and, with this current opportunity of delivering on that undertaking, is now failing to do so by offering this original site to an out of borough academy trust with no experience of running a coeducational mixed ability school. In addition this approach would free up the current Archbishop Tenison's site in Park Hill for residential redevelopment close to central Croydon or for community use as a primary school.

I am deeply opposed to Croydon Council inviting a single sex, grammar / selective school from another borough to build a school on this site rather than meeting its objective under SP5.9 of supporting investment in the expansion of existing secondary schools in the borough.

There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

3312/01/007/DM44.2/O	Mr Richard Brandwood	Object		DM44.2 662	Loss of Green Belt – (1) Coombe Playing Fields - The status of this site should remain the same - and not be changed.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
3316/01/007/DM44.2/O	Mr David Dudman	Object	Soundness - Justified	DM44.2 662	7) DM44.2 Table 11.17 site 662 p179 Coombe Playing Fields, Croham Playing Fields and Croham Hurst should remain Green Belt and not be downgraded to Metropolitan Open Land which could then be used for development, our green belt is precious and we should protect it.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Object

DM44.2  
662

The changes would change the character of our local area. There for I would like to object to the above policy changes.

No change

There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

---

The proposal to build a secondary school at site reference 662 where I understand that the preferred approach is to allow an Academy Trust from a neighbouring borough, which currently runs a single sex selective / grammar academy, to run the school on this site.

This is in conflict with SP5.9 which states that the Council will support investment in the improvement and expansion of primary and secondary schools. Croydon Council had a previous proposal, which they could revive, to use this site to relocate and expand Archbishop Tenison's school - the borough's most successful co-educational secondary school which is highly popular with strong leadership and which has already invested time and effort in planning for such a move under the previous proposals. Following the failure to proceed with that previous proposal the council undertook to find an alternative site to relocate and expand Archbishop Tenison's - it has failed to do so and, with this current opportunity of delivering on that undertaking, is now failing to do so by offering this original site to an out of borough academy trust with no experience of running a coeducational mixed ability school.

In addition this approach would free up the current Archbishop Tenison's site in Park Hill for residential redevelopment close to central Croydon or for community use as a primary school.  
I am deeply opposed to Croydon Council inviting a single sex, grammar / selective school from another borough to build a school on this site rather than meeting its objective under SP5.9 of supporting investment in the expansion of existing secondary schools in the borough.

There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

The proposal to build a secondary school at site reference 662 where I understand that the preferred approach is to allow an Academy Trust from a neighbouring borough, which currently runs a single sex selective / grammar academy, to run the school on this site. This is in conflict with SP5.9 which states that the Council will support investment in the improvement and expansion of primary and secondary schools. Croydon Council had a previous proposal, which they could revive, to use this site to relocate and expand Archbishop Tenison's school - the borough's most successful co-educational secondary school which is highly popular with strong leadership and which has already invested time and effort in planning for such a move under the previous proposals. Following the failure to proceed with that previous proposal the council undertook to find an alternative site to relocate and expand Archbishop Tenison's - it has failed to do so and, with this current opportunity of delivering on that undertaking, is now failing to do so by offering this original site to an out of borough academy trust with no experience of running a coeducational mixed ability school. In addition this approach would free up the current Archbishop Tenison's site in Park Hill for residential redevelopment close to central Croydon or for community use as a primary school. I am strongly opposed to Croydon Council inviting a single sex, grammar / selective school from another borough to build a school on this site rather than meeting its objective under SP5.9 of supporting investment in the expansion of existing secondary schools in the borough.

There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

3411/01/001/DM44.2/O	Mr Amarjit Kalsi	Object	DM44.2 662	I object to any downgrading of any Green Belt areas, Policy DM44.2, Table 11.17, site 662 (p179) and Open Land in Policy SP7 of the Strategic Plan (p55 of Policies Map) refers. We need to cling on what little there is and downgrading Green Belt areas will only open up the Pandora's Box for developers to exploit, perhaps not now, but certainly in the future as pressure on building new homes grows. Once we go down this route we will lose our precious Green Belt for our future generation and the land is gone for good.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
----------------------	------------------	--------	---------------	--	-----------	--

3415/01/009/DM44.2/O	Ms C Soroczynski	Object	DM44.2 662	Please note my objections to planning Policy DM44.2 , Table 11.14, site 662	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
----------------------	------------------	--------	---------------	---	-----------	--

3416/01/004/DM44.2/O	C Mortreuil	Object	DM44.2 662	Croydon is currently running out of space and actually letting more people in through building more flats is putting pressure on our services: we do not have enough schools in the area to cater for all new arrivals. However taking green belt land is a step too far. Similarly a site for travellers with amenities which would prevent them from invading current green spaces is a good idea, but where to put it needs to be sensibly planned and the current proposal in my view is not adequate.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
3420/01/004/DM44.2/O	Mr & Mrs Tarran	Object	DM44.2 662	We wish to object to the downgrading of status of the following open spaces Coombe Playing Fields Croham Hurst Sanderstead Plantation Under NO circumstances should these open spaces be downgraded	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

3430/01/018/DM44.2/O	Mr Donald Speakman	Object	Soundness - Justified	DM44.2 662	I also object to the de-designation of the following areas which are not even listed in the table on page 53 of the Policies Map, which highlights the changes to the green grid. This information only becomes apparent when looking at individual sites, which begs the question as what other significant changes have not been detailed in the strategic policy overviews: Coombe Road Playing Fields as Green Belt, site reference 662; The de-designation of all the above sites would not comply with Policy SP7.2 and protection of the green grid	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
3444/01/004/DM44.2/O	Mrs E McRoberts	Object		DM44.2 662	I understand that you are planing to change the current status of The plantation and Croham Woods and Coombe Playing Fields from Green belt to Metropolitan Open Land. I can only assume that this would allow these current open spaces to be built on in the future. If this is not the case, I cannot see why the current statuses would need to change. I am unable to understand why, as residents, we have not been told directly of your plan to change the status by Croydon Council. These spaces are key to this local community. We currently enjoy walking in the woods and teaching our children about nature and Eco systems. There is a wealth of wild life which habitat the woods, badgers, rabbits, dear and not to mention the different species of birds. Where would they go if the trees were cut down. Sanderstead is a lovely location because of the woods and open spaces, to build on this would be detrimental to the area and a mistake	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

3447/01/002/DM44.2/O	Ms E Rispin	Object	DM44.2 662	<p>Please note my objection to the following development of land outlined in recent area plans. These open spaces are vital to the quality of life of the area. As someone whose family has been in Sanderstead for three generations I object as I would like to see my children have the same quality of life and access to open space as their parents, grandparents and great grandparents.</p> <p>Loss of Green Belt Coombe Playing Fields.. The Coombe Playing Fields, currently Green Belt, are being proposed for development in Policy DM44.2, Table 11.17, site 662 (p179). I object to all this downgrade.</p>	No change	<p>There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.</p>
3454/01/001/DM44.2/O	Me E Hook	Object	DM44.2 662	<p>The Coombe Playing Fields, currently Green Belt, are being proposed for development in Policy DM44.2 Table 11.17, site 662 (pg179). The site should remain as green belt. Croham Hurst Woods are being de-designated from Green Belt to Metropolitan Open Land in Policy SP7 of the Strategic Plan (p55 of Policies Map). Sanderstead Plantation is also being downgraded from Green Belt to Metropolitan Open Land. I object to all these downgrades.</p>	No change	<p>There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.</p>

3459/01/001/DM44.2/O Ms E Potman	Object	DM44.2 662	<p>As a mother I know how important it is in this day and age to have open green spaces to go in the city, that are natural, unspoiled, spacious and adventurous. In this fast paced and pressured computer era, children and families and everyone else, need spaces to go to unwind, to re-energise, to connect to the real, living world and to have clean air to breath. With down grading green belt land and woods, we jeopardise the physical and mental health of our children and fellow citizens. We disrespect the need for green spaces for wild life and trees to bring healthy air and a healthy eco-system. If we do not teach our children and everyone else the importance of green in a city, we set a bad precedent for the next generation. If we let money be our main aim, choices like this will become easier and easier made and we would be left with no green at all. The strongest thing that Croydon has going for itself are the green spaces and woods. The green belt had been established for a reason. It is not meant to be touched! It is meant to be preserved for the good of all!</p> <p>Please re- consider your plans and leave the green spaces protected in the green belt. Don't let it be eroded in the name of 'progress'.</p>	No change	<p>There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.</p>
----------------------------------	--------	---------------	--	-----------	---

3463/01/006/DM44.2/O Ms F Wood	Object	DM44.2 662	<p>Please do not build on greenbelt areas. There is plenty of space in the empty building in central Croydon and in West Croydon. Spend money on empty land and leave the last green parts of Croydon alone. When those green belt areas are gone so will nature. We are not inner city. We have a history of enjoying our green spaces in Croydon.</p>	No change	<p>There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.</p>
--------------------------------	--------	---------------	---	-----------	---

3477/01/001/DM44.2/O	Mr Derek Smith	Object	DM44.2 662	<p>We are horrified and strongly object to learn recently that Croydon Council has proposals for the re-designation of a number of open areas (public playing fields and woodland) in the Selsdon/Sanderstead, South Croydon area. The purpose of the proposed re-designation is clear to everyone that is to say, new development at some point in time. We recognise the need to increase housing stock, however, the need for adequate public amenities increases with development, and finding the space to provide these becomes increasing more difficult. We should not try solving one problem only to create a more serious one. When public green spaces are no longer available it will become impossible to remove developments to create such spaces. We should therefore treasure the few public open spaces that exist, and not see them as opportunities for development when there are opportunities still existing in brown field sites. It should be kept in mind that the creation of mature woodland etc. would typically take 50 or more years. South Croydon does not have an abundance of such areas, therefore, we need to think seriously when considering changes to any public spaces especially woodland.</p>	No change	<p>There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.</p>
----------------------	----------------	--------	---------------	--	-----------	---

3488/01/005/DM44.2/O	Mr Gregory Taylor	Object	DM44.2 662	<p>Policy DM44.2, Table 11.17, site 662 (p179). For the good of all Londoners greenbelt must be cherished and maintained. As a council in a greenbelt area Croydon Council are responsible for protecting our greenbelt, to reclassify this land goes against that aim. The site should remain as green belt. Croham Hurst Woods are being de-designated from Green Belt to Metropolitan Open Land in Policy SP7 of the Strategic Plan (p55 of Policies Map). Sanderstead planation is also being downgraded from Green Belt to Metropolitan Open Land. I object to all these downgrades.</p>	No change	<p>There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.</p>
----------------------	-------------------	--------	---------------	---	-----------	---

3495/01/006/DM44.2/C	Mr Ian Harris	Comment	DM44.2 662	I am writing to object to the de-designation of: Coombe Road Playing Fields as Green Belt, site reference 662; My objection is based on the fact that such a de-designation of both sites would not comply with Policy SP7.2 and protection of the green grid	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
3496/02/002/DM44.2/O	Mr Ian Leggatt	Object	DM44.2 662	This site is in Green Belt / Metropolitan Open Space and should be retained as such. I object to the proposal.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

3518/01/003/DM44.2/O	Mrs Joesphine Gable	Object	DM44.2 662	Coombe Playing Fields also appears to have no reason to change its status other than to prepare for development in the future. I believe that this de-designation would have a major negative impact on the character of our neighbourhood and would ask you to re-consider this action or further guarantee that these changes will be held for a minimum of 100 years from implementation.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
3523/01/008/DM44.2/O	Mr Mike Rice	Object	DM44.2 662	Dear Sirs,  With reference to the recently published 'Croydon Local Plan', as a resident of the past 25 years I give my views as follows:-  Policy DM44.2, Table 11.17, site 662 (p179).Objection, development of Coombe Playing fields is unacceptable being in a Green belt.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

3526/01/007/DM44.2/O	Linda Stevens	Object	Soundness - Justified	DM44.2 662	I wish to voice my concerns regarding the following:  I totally object to any reduction of green space in the borough of Croydon in favour of development.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
3530/01/003/DM44.2/O	Mr & Mrs Webb	Object		DM44.2 662	I wish to object to site 662. For centuries parks and green spaces have been an important part of urban living where people can walk and relax. It would be a sad day if these open spaces were lost for ever. We have enjoyed open places and do not want to see them lost for future generations when with a bit of imagination brownfield sites could be considered ahead of the green belt. Future generations will not thank us for destroying their heritage, and character of their local community. We are aware of the need for housing but here in Sanderstead we have already seen a lot of development in recent years, and its character slowly being eroded.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

3552/01/007/DM44.2/O	Miss Lisa K Hall	Object	DM44.2 662	<p>I write to object to:  The de-designation of the following sites as green belt on the basis that this would not comply with Policy SP7.2 and protection of the green grid. In addition, Croham Hurst is a biological Site of Special Scientific Interest (SSSI) and a Site of Metropolitan Importance for Nature Conservation and I believe its green belt status should remain to protect it for future generations</p> <ul style="list-style-type: none"> <li>oCroham Hurst</li> <li>oCoombe Road Playing Fields, site reference 662</li> </ul>	No change	<p>There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.</p>
3561/01/012/DM44.2/O	Linda Hione	Object	DM44.2 662	<p>Loss of Green Belt – (1) Coombe Playing Fields, (2) Croham Hurst, (3) Sanderstead Plantation  The Coombe Playing Fields, currently Green Belt, are being proposed for development in Policy DM44.2, Table 11.17, site 662 (p179). The site should remain as green belt. Croham Hurst Woods are being de-designated from Green Belt to Metropolitan Open Land in Policy SP7 of the Strategic Plan (p55 of Policies Map). Sanderstead plantation is also being downgraded from Green Belt to Metropolitan Open Land. I object to all these downgrades. There is no reason to make any changes as these lands need to be protected.</p>	No change	<p>There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.</p>

3562/01/003/DM44.2/O	Mr Michael Steer	Object	DM44.2 662	<p>Policy SP7 Loss of Green Belt - (1) Coombe Playing Fields, (2) Croham Hurst, (3) Sanderstead Plantation</p> <p>Due to the importance of these spaces to local residents and the community I object to all of these proposed downgrades to change the above listed sites from Metropolitan Green Belt to Local Green Space.</p>	No change	<p>There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.</p>
3570/01/006/DM44.2/O	Mr & Mrs Adams	Object	DM44.2 662	<p>It is also of vital importance to retain playing fields where they exist. Increasingly, schools have fewer and fewer playing fields available to practice sport, as so many have been already sold, to the detriment of the health of our children, so where such playing spaces exist, they should be protected. We believe all these plans will devastate our green spaces, and will have a very damaging impact to the character of the local area, and we object strongly.</p>	No change	<p>There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.</p>

3577/01/003/DM44.2/O	Mr Peter West	Object	DM44.2 662	I object to this site as we need space and sensible development that compliments the environment.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
3592/01/006/DM44.2/O	Nicola Shipp	Object	DM44.2 662	As a resident of Croydon all my life, I wish to register my opposition to the following "plans"..... DM44.2 SITE 662 – The change of status for Coombe Playing Fields, Croham Hurst Woods and Sanderstead Plantation is of great concern. Homes must not be built on these site as the whole area would suffer by additional traffic and the already growing strain to services. Not to mention, spoiling lovely open spaces.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

DM44.2  
662

object to the proposed loss of Green Belt status for  
(1) Coombe Playing Fields - (site ref 662) and object to the proposal for development in Policy DM44.2 Table 11.17  
(2) Croham Hurst - this is a biological Site of Special Scientific Interest and a Site of Metropolitan Importance for Nature Conservation  
(3) Sanderstead Plantation  
The de-designation of these sites would not comply with Policy SP7.2 and protection of the green grid.

No change

There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

---

662

I wish to object to some of the proposals in the Croydon Local Plan as follows:

I object to the proposal (policy DM44.2 Table 11,17) to create a Gypsy/Traveller site on Conduit Lane next to Coombe Wood Gardens (site 661) and/or Coombe Farm (site 502). Policy E of "Planning Policy for Traveller Sites" published by the Government in August states that "Traveller sites (temporary or permanent) in the Green Belt are inappropriate development" This would not comply with Policy SP2.7a and SP2.7b Previous scenes from Traveller sites demonstrate that they end up as dump; not the sort of image we want to portray for Croydon.

I object to the proposed loss of Green Belt status for  
(1) Coombe Playing Fields - (site ref 662) and object to the proposal for development in Policy DM44.2 Table 11.17  
(2) Croham Hurst - this is a biological Site of Special Scientific Interest and a Site of Metropolitan Importance for Nature Conservation  
(3) Sanderstead Plantation  
The de-designation of these sites would not comply with Policy SP7.2 and protection of the green grid.

I object to the proposed loss of Local Area of Special Character protection for many roads such as West Hill, Campden and Spencer Roads, the Woodcote Estate and Hartley Farm. Loss of protection will open up these roads to inappropriate development. Roads, such as Oakwood Avenue in Purley should also be included as new Local Heritage Areas.

I object to the possible "Garden Grabbing" that policy DM2 will make much easier. National and London policy classifies gardens as green field, but the proposed new policy DM2 says that the Council will allow building on gardens. We need to keep our green spaces.

I also object to the proposed retail development of the old "Good Companions Pub" site in Hamsey Green, which the proposed policy DM4 1.3 table 11.14 (site 306) would allow. A retail outlet in such a location would cause traffic chaos. It will be far better to develop it as a residential site (with ample parking) and in character with other housing in the area - not a block of flats.

There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

On the question of parking; I note that some new developments do not seem to cater for this. Green Dragon House being a typical example. All new developments should provide for ample parking for residents and their families.

Please take the above comments into account when assessing the proposed Croydon Local Plan.

Yours faithfully

3699/01/018/DM44.2/O	Cllr J Cummings	Object	Soundness - Justified	DM44.2 662	I also object to the de-designation of the following areas which are not even listed in the table on page 53 of the Policies Map, which highlights the changes to the green grid. This information only becomes apparent when looking at individual sites, which begs the question as what other significant changes have not been detailed in the strategic policy overviews: Coombe Road Playing Fields as Green Belt, site reference 662; The de-designation of all the above sites would not comply with Policy SP7.2 and protection of the green grid	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
3705/01/004/DM44.2/O	Mr J Lemanski	Object		DM44.2 662	I would like you to note my strong objection to the granting of any Planning Application relating to the following Policy Ref. DM44.2, Table 11.17, Site 662.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

3707/01/004/DM44.2/O	Ms J MacEvoy	Object	DM44.2 662	I believe that this de-designation would have a major negative impact on the character of our neighbourhood and would ask you to re-consider this action.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
3708/01/008/DM44.2/O	Mrs J McDonald	Object	DM44.2 662	The Coombe Playing Fields, currently Green Belt, are being proposed for development in Policy DM44.2, Table 11.17, site 662 (p179). The site should remain as green belt.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

3712/01/003/DM44.2/O	Mr Nick Peiris	Object	DM44.2 662	I strongly oppose the destruction of any designated "Green Belt" land within our Borough. De-classifying such designated sites is certainly not the answer! A BIG "NO" to DOWNGRADING of existing Green Belt land including 1. Croham Hurst 2. Sanderstead Plantation 3. Coombe Playing Fields 4. Conduit Lane.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
----------------------	----------------	--------	---------------	---	-----------	--

3734/01/007/DM44.2/O	Mr & Mrs Mott	Object	DM44.2 662	I object to this site allocation.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
----------------------	---------------	--------	---------------	-----------------------------------	-----------	--

3739/01/003/DM44.2/O	Mr Tom Tannion	Object	DM44.2 662	<p>I wish to register the strongest possible objection to the specific proposals in the Croydon Local Plan proposing a school or gypsy site at Conduit Lane, and a Gypsy site at Coombe Farm.</p> <p>Regarding Conduit Lane, clearly, Niccolo Machiavelli would have been proud of the tactic of proposing a gypsy site or a school there. Presumably, the thought was that people are gullible enough to believe that these are either / or proposals!! They are certainly as different as chalk and cheese. I consider both options to be unhelpful, inappropriate and out of keeping with the current use of the area. I am also generally surprised that they are considered viable options worthy of serious consideration as they appear random in nature and devoid of any real local knowledge.</p> <p>Regarding both gypsy site proposals, neither are in keeping with the existing 'texture' of the areas. They add nothing to the quality of life of local residents (quite the contrary) and generally they are so out of keeping with the current general use enjoyed by those neighbourhoods that one is left wondering how they even made it into a plan? Were the proposals drawn up by someone completely ignorant of the area?</p>	No change	<p>There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.</p>
3750/01/008/DM44.2/O	Mrs Anne Turner	Object	DM44.2 662	<p>I would like to put in writing my objections to the following local plans: I am listing the relevant Policy Numbers: 7. DM44.2, Table 11.17, site 662 Green belt</p>	No change	<p>There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. Object Soundness - DM44.2  
Justified 662

I have lived in Sanderstead for nearly 30 years and wish to register my strong objection on the proposals which I believe will have an adverse effect on the sits and residential amenity of the neighbourhoods around Sanderstead Plantation, Croham Hurst Woods and Coombe Playing Fields

No change

There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

I strongly object to Croydon Council's proposals to change the status of Sanderstead Plantation from Metropolitan Green Belt to Local Green Space, Croham Hurst Woods de designated from Green Belt to Metropolitan Open Land, and Coombe Playing Fields being proposed for development.

The current designation of Sanderstead Plantation and Croham Hurst Woods sites provides the protection the sites need from unwanted development and there are no benefits to residents in changing the designation. If the proposals for the Coombe Playing Fields are passed Croydon will LOSE one of the few areas of natural beauty. There will be fewer places to go for family walks, fewer oak and beech trees which will have an adverse effect on the health and well being of local residents potentially resulting in detrimental effects of mental health ultimately putting a strain on Croydon Council's Social Service and local NHS.

- Adverse effect on the residential amenity of neighbours, by reason of noise, disturbance, overlooking, loss of privacy, wildlife, overshadowing, etc.
- Unacceptably high density / overdevelopment of Coombe Playing Fields site, especially as it involves loss of the open aspect of the neighbourhoods
- Visual impact of the sites and surrounding neighborhoods and a detrimental effect on the character of our
- As the local plan sets out what the Council will allow to be built over next 20 years , all a planning application on Sanderstead Plantation or Croham Hurst Woods need to do is be consistent with the local plan to be passed thus ruining these sites and the neighborhood amenities forever
- Increased Density of the population of these sites including overcrowding which is also a health and safety concern
- The detrimental effects change of land status of Sanderstead Plantation and Coombe Hurst Woods and the proposed development of Coombe

Playing Fields on the character of the neighbourhood. Coombe Hurst Woods is a mature wood with beech and oak trees which will be under threat eg less trees, increase in noise, litter

- Design (including bulk and massing, detailing and materials, if these form part of the application)
- The proposed development of Coombe Playing Fields would be over-bearing, out-of-scale or out of character in terms of its appearance compared with existing vicinity
- The loss of existing views from neighbouring properties would adversely affect the residential amenity of neighbouring owners

DM44.2  
662

I am emailing you to express my concerns about Croydon Council's Plans to build houses on some of our precious green spaces, back gardens.

I understand that there is a great need for housing in the Croydon area and that the number of homeless people in Croydon is high. However, I need assurance that in providing this need we do not destroy our few remaining green spaces as these are vital to the well-being of our environment and people's health. When I received the information about these proposals from my MP and local residents' association I had been away from home and so have not studied these plans in depth. However, with the information I have I cannot visualize how these proposals would work without destroying the character of the Shirley area and the destruction of our few remaining green areas.

In order for me to agree to these proposals I would not only require the assurance that these environmental issues were taken into account but the homes that are planned for were affordable to those who are in need of a home, and that they were of good quality, energy efficient homes. Finally, having lived in Shirley for many years I have seen the increase in traffic which has brought about an increase in air pollution which is detrimental to our health. This is another important factor that has to be borne in mind when increasing the density of the population of the area.

No change

There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

3754/01/003/DM44.2/O	Myra Rand	Object	DM44.2 662	I fully oppose the proposals to build on green land.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
3770/01/002/DM44.2/O	Mr Malcom Mackenzie	Object	DM44.2 662	We wish to raise objections to a number of the proposals in the draft document which, we feel, will affect the south part of the Borough in particular, but will also make the whole Borough less attractive in which to live. Of particular concern are any proposals which will reduce the "Green Belt" status of an area, such as the Coombe Playing Fields (Policy DM44.2 Table 11.17, site 662 (p179)).	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

3778/01/003/DM44.2/O	Mr & Mrs Wakelam	Object	DM44.2 662	We are opposed to the de-designation of Coombe Road Playing Fields as Green Belt, site reference 662. The de-designation of both sites would not comply with Policy SP7.2 and protection of the green grid.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
3782/01/004/DM44.2/O	Mr David Reid	Object	DM44.2 662	I object to Coombe Road Playing Fields as Green Belt, Policy DM44.2, site reference 662; as the de-designation of both sites would not comply with Policy SP7.2 and protection of the green grid;	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

3784/01/004/DM44.2/O	Jennifer Aarons	Object	DM44.2 662	I am writing to object to the de-designation of Coombe Road Playing Fields as Green Belt, site reference 662 as the de-designation of both sites would not comply with Policy SP7.2 and protection of the green grid.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
3794/01/007/DM44.2/O	Mr Thomas Lawson	Object	DM44.2 662	I object to the development plans detailed in this policy and believe the site should remain as green belt. These sites should not be downgraded as proposed.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

3795/01/008/DM44.2/O	Mr Tony Connor	Object	DM44.2 662	With reference to the Local Plan which has been proposed, please note my objection to the following policies Loss of Green Belt (1) Coombe Playing Fields, (2) Croham Hurst, (3) Sanderstead Plantation The Coombe Playing Fields, currently Green Belt, are being proposed for development in Policy DM44.2, Table 11.17, site 662	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

Once the school buildings are built the remainder of the site will remain designated as Green Belt.</p>

3804/01/006/DM44.2/O	Cllr L Hale <i>London Borough of Croydon</i>	Object	DM44.2 662	I also object to the de-designation of the following areas which are not even listed in the table on page 53 of the Policies Map, which highlights the changes to the green grid. This information only becomes apparent when looking at individual sites, which begs the question as what other significant changes have not been detailed in the strategic policy overviews: Coombe Road Playing Fields as Green Belt, site reference 662.	The de-designation of all the above sites would not comply with Policy SP7.2 and protection of the green grid	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
3808/01/005/DM44.2/C	Mrs Heather Harris		DM44.2 662	object to Coombe Road Playing Fields as Green Belt being proposed for development in Policy DM44.2, Table 11.17, site 662 (p179).		No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

3810/01/007/DM44.2/O	Joan Sabatini	Object	DM44.2 662	Green Belt designated areas such as Coombe Playing Fields are being proposed for development; Croham Hurst Woods down graded designation to Metropolitan Open Land in Policy SP7 of the strategic Plan (p55 of Polices Map); Sanderstead plantation down graded designation to Metropolitan Open Land. I object to all these downgrades.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
3812/01/007/DM44.2/O	Mr Peter Spragg	Object	DM44.2 662	Loss of Green Belt " (1) Coombe Playing Fields, (2) Croham Hurst, (3) Sanderstead Plantation. The Coombe Playing Fields, currently Green Belt, are being proposed for development in Policy DM44.2, Table 11.17, site 662 (p179). The site should remain as green belt. Croham Hurst Woods are being de-designated from Green Belt to Metropolitan Open Land in Policy SP7 of the Strategic Plan (p55 of Polices Map). Sanderstead plantation is also being downgraded from Green Belt to Metropolitan Open Land. I object to all these downgrades.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

3813/01/008/DM44.2/O	Mr Brandon Hannan	Object	DM44.2 662	The Coombe Playing Fields, currently Green Belt, are being proposed for development in Policy DM44.2, Table 11.17, site 662 (p179). The site should remain as green belt. Croham Hurst Woods are being de-designated from Green Belt to Metropolitan Open Land in Policy SP7 of the Strategic Plan (p55 of Polices Map). Sanderstead planation is also being downgraded from Green Belt to Metropolitan Open Land. I object to all these downgrades.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
3814/01/008/DM44.2/O	Mr Jon Adams	Object	DM44.2 662	Policy DM44.2, Table 11.17, site 662 (p179) proposes development of the Coombe Playing Fields, which are currently Green Belt. I object to this proposal as the site should remain as green belt.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

3815/01/005/DM44.2/O	Mr Jon Taylor	Object	DM44.2 662	<p>It is with regret that I feel the need to object to the following proposals:-  Purley skyscraper Policy DM40.1.  I feel this proposal is completely out of keeping with the surrounding area and I strongly oppose it.  Garden acquisition Policy DM2  This will make 'garden grabs' far too easy in my opinion, is far too subjective and is therefore a far weaker form of protection.  Sanderstead Lidl site Policy DM41.3  This proposal will likely cause real problems to traffic in the vicinity and I do not it is an appropriate site for retail development.  Loss of Green Belt at Coombe Playing Fields and Croham Hurst Policy DM44.2  I believe that both of these locations should remain Green Belt and that re-designation is inappropriate. It will impact the area badly and in conjunction with other changes steadily change the nature of the area for the worse. The Gypsy/Traveller site on Conduit Lane Policy DM44.2  Finally I most strongly object to Council plans to develop a Gypsy/Traveller site here. I feel it is totally inappropriate placing this on Green Belt land and is in direct contravention of the "Planning Policy for Traveller Sites" published by the Government just last August!</p>	No change	<p>There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.</p>
3816/01/007/DM44.2/O	Lorraine Oakley	Object	DM44.2 662	<p>Policy DM44.2, Table 11.17, site 662 (p179)  I object to this proposal to remove the green belt status of Coombe Playing Fields, this is a lovely green space and should be maintained as green belt. We need playing fields and green areas.  I strongly object to the downgrading of Croham Hurst Woods by being de-designated from Green Belt to Metropolitan Open Land in Policy SP7 of the Strategic Plan. It is an outrage to remove the green belt status of this mature and beautiful woodland. I also understand Sanderstead Planation is being downgraded from Green Belt to Metropolitan Open Land. I can see no reason to these downgrades and I object to all these downgrades.    Please maintain and respect our existing green spaces.</p>	No change	<p>There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.</p>

3821/01/004/DM44.2/O	Mr Richard Kellaway	Object	DM44.2 662	The de-designation of Croham Hurst as Green Belt, despite being a biological Site of Special Scientific Interest (SSSI) and a Site of Metropolitan Importance for Nature Conservation and Coombe Road Playing Fields as Green Belt, site reference 662 as the de-designation of both sites would not comply with Policy SP7.2 and protection of the green grid	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
----------------------	---------------------	--------	---------------	--	-----------	--

3824/01/004/DM44.2/O	Mr Stephen Lambert	Object	DM44.2 662	I object to the de-designation of the site as Green Belt.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
----------------------	--------------------	--------	---------------	---	-----------	--

3829/01/005/DM44.2/O	Dr L Bowen-Long	Object	Soundness - Justified	DM44.2 662	Loss of Green Belt & Playing Fields – the proposal to alter land use categories for Coombe Playing Fields, Croham Hurst and Sanderstead Plantation are unnecessary and undesirable down-gradings of land areas which help to maintain Croydon Borough as more than just a concrete jungle. There should be balance between the locations of urban sprawl and natural green areas which the local residents can enjoy. Do not progress further with such changes of classification.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
3837/01/003/DM44.2/O	Mr & Mrs Hooper	Object		DM44.2 662	Policy DM44.2 Table 11.17, site 662. I do not agree to the proposal to open Coombe Playing Fields for development. This is quite contrary to the national aim to improve sporting facilities.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

3846/01/006/DM44.2/O	Cllr M Gatland	Object	Soundness - Consistent with National DM44.2 662	I wish to object to the following The use of the following as traveller or gypsy sites Coombe Lodge Nurseries site ref 661 Coombe Farm. Site ref 502 This is inappropriate development on Greenbelt. The de designation from Greenbelt of Croham Hurst Woods Coombe rd Playing Fields Sanderstead Plantation Does not comply with SP7.2 and the protection of the green grid	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
3847/01/004/DM44.2/O	Mr M Hayden	Object	DM44.2 662	The Coombe Playing Fields, currently Green Belt, are being proposed for development in Policy DM44.2, Table 11.17, site 662 (p179). The site should remain as green belt. Croham Hurst Woods are being de-designated from Green Belt to Metropolitan Open Land in Policy SP7 of the Strategic Plan (p55 of Polices Map).	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

3848/01/001/DM44.2/O	Mrs Linda Etheridge	Object	DM44.2 662	<p>It would be extremely detrimental to the local area and in particular detrimental to the environment should the area of Coombe Playing Fields, Croham Hurst and the Sanderstead Plantation be subject to becoming 'a local Green Space' which could then be subject to the possibility of being sold for development by the council. As a resident of Sanderstead I am shocked to learn that these changes are being considered. Your negotiations are being considered at a very busy time of the year when most people do not have time to object. Moreover the preservation of 'open spaces' for our children of the future as well as to stop the flow of climate change should be protected from the dessimation of the council and the builder! It is beyond reason to consider changing three areas in the south of the borough. One can only imagine that the council intends to create an area similar to the concrete spaces of central Croydon. Moreover I am appalled by these proposals and the attitude of town hall councils who lack any consideration of or for the community of South Croydon. Therefore the loss of green belt (1) Coombe Playing Fields, (2) Croham Hurst, (3) Sanderstead Plantation must not go ahead as proposed.</p>	No change	<p>There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.</p>
----------------------	---------------------	--------	---------------	---	-----------	---

---

3849/01/008/DM44.2/O	Maureen Messett	Object	DM44.2 662	<p>I sincerely hope that my objections will be noted. I have lived in this borough for many many years and I hate seeing it gradually destroyed.</p>	No change	<p>There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.</p>
----------------------	-----------------	--------	---------------	--	-----------	---

---

3851/01/003/DM44.2/O	Mr Mike Etheridge	Object	DM44.2 662	Re-designation of Coombe Playing Fields, Croham Hurst Woods, and Sanderstead Plantation from 'Green Belt' to 'Metropolitan Open Land'. I hereby register my objection to the proposals and consider that any development of these areas would be detrimental to the local environments and associated wildlife.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
----------------------	-------------------	--------	---------------	---	-----------	--

3852/01/003/DM44.2/O	Mr M Mulderry	Object	DM44.2 662	I object to this site allocation.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
----------------------	---------------	--------	---------------	-----------------------------------	-----------	--

3855/01/001/DM44.2/O	Mrs Gill Willis	Object	DM44.2 662	These should remain as Green Belt. The whole nature of the area will be destroyed if they are not protected in this way.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
3857/02/003/DM44.2/O	Mr Neil Morrison	Object	DM44.2 662	We as a nation have maintained the principles of "the Green Belt" since its first inception in 1935 when it was part of a plan devised by the Greater London Regional Planning Committee eventually becoming law by virtue of the Town and Country Planning Act 1947. Recently the Government formerly set out its policies and principles towards green belts in England and Wales in Planning Policy Guidance Note 2: Green Belts, but this planning guidance was superseded by the National Planning Policy Framework (NPPF) in March 2012. Planning Authorities are strongly urged to follow the NPPF's detailed advice when considering whether to permit additional development in the green belt. In the green belt there is a general presumption against inappropriate development, unless very special circumstances can be demonstrated to show that the benefits of the development will outweigh the harm caused to the green belt. The NPPF sets out what would constitute appropriate development in the green belt. I can not find any justifiable cause for allowing building on any "Green Belt" having viewed Gavin Barwell's email on the matter. This series of developments cannot seriously be described as "Appropriate Development" under any circumstances. Please do not build on land which we, as a nation, have preserved for future generations	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

3857/01/003/DM44.2/O	Mr Neil Morrison	Object	DM44.2 662	Please do not build on "Green Belt" There is no necessity for it and our parents had the foresight to develop the legislation please don't soil there good intentions.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
----------------------	------------------	--------	---------------	--	-----------	--

3861/01/005/DM44.2/O	Mr Neil Walker	Object	DM44.2 662	This is a greenbelt site and not appropriate for development.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
----------------------	----------------	--------	---------------	--	-----------	--

3864/01/007/DM44.2/O	Pauline Morgan	Object	DM44.2 662	Policy DM44.2, Table 11.17, site 662 (p179).The Coombe Playing Fields, currently Green Belt, are being proposed for development and they should retain their current status.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
3865/01/003/DM44.2/O	Ms M Kaczanowski	Object	DM44.2 662	Below is a list of our objections:  2. Policy DM 44.2 - reclassification of Coombe Playing Fields and Sanderstead Plantations - similarly to the above change of classification will come as threat to character of the area and negatively impact local community.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

3868/01/004/DM44.2/O	Angi Pyart	Object	DM44.2 662	I object to the de-designation of the site as Green Belt.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
3871/01/007/DM44.2/O	Helen Peskett	Object	DM44.2 662	The use of the following location for a Secondary School:  •Coombe Road Playing Fields, site reference 662  as this site would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b.	Change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

3871/01/004/DM44.2/O	Helen Peskett	Object	DM44.2 662	I object to the de-designation of the site as Green Belt.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
3874/01/004/DM44.2/O	Carol Winterburn	Object	DM44.2 662	I am writing to object to:  2.The de-designation of several areas of valuable Green Belt: Croham Hurst (currently a Site of Special Scientific Interest (SSSI) and a Site of Metropolitan Importance for Nature Conservation), Coombe Road Playing Fields (site reference 662), and Sanderstead Plantation. This de-designation does not comply with Policy SP7.2 and protection of the green grid.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

3877/01/003/DM44.2/O	Mrs Robin Ward	Object	DM44.2 662	I object to the de-designation of:  Coombe Road Playing Fields as Green Belt, site reference 662 as the de-designation of both sites would not comply with Policy SP7.2 and protection of the green grid.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
----------------------	----------------	--------	---------------	---	-----------	--

3878/01/004/DM44.2/O	Imran Mahmood	Object	DM44.2 662	I object to the de-designation of the site as Green Belt.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
----------------------	---------------	--------	---------------	---	-----------	--

3880/01/004/DM44.2/O	Emma Bean	Object	Soundness - Justified DM44.2 662	<p>I am writing to object to:</p> <p>2.The de-designation of:</p> <p>Croham Hurst as Green Belt, despite being a biological Site of Special Scientific Interest (SSSI) and a Site of Metropolitan Importance for Nature Conservation;</p> <p>Coombe Road Playing Fields as Green Belt, site reference 662;</p> <p>as the de-designation of both sites would not comply with Policy SP7.2 and protection of the green grid;</p>	No change	<p>There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.</p>
----------------------	-----------	--------	--	--	-----------	---

3881/01/003/DM44.2/O	Mrs Julia White	Object	DM44.2 662	<p>I object to the de-designation of:</p> <p>Coombe Road Playing Fields as Green Belt, site reference 662 as the de-designation of both sites would not comply with Policy SP7.2 and protection of the green grid;</p>	No change	<p>There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.</p>
----------------------	-----------------	--------	---------------	--	-----------	---

3890/01/004/DM44.2/O	Kathy Coughlan	Object	Soundness - Justified	DM44.2 662	2. The de-designation of: Croham Hurst as Green Belt, despite being a biological Site of Special Scientific Interest (SSSI) and a Site of Metropolitan Importance for Nature Conservation; Coombe Road Playir Fields as Green Belt, site reference 662; as the de-designation of both sites would not comply with Policy SP7.2 and protection of the green grid;	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
3896/01/016/DM44.2/O	Mr M Veldeman	Object		DM44.2 662	Downgrading of any green spaces is again unacceptable. Our green spaces are valuable for people, the environment and wild life. It is becoming more relevant these days, not a luxury but a necessity and downgrading it is a slippery slope to losing it. Maybe this is the intention.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

3897/01/009/DM44.2/O	Cllr M Neal	Object	DM44.2 662	I also object to the de-designation of the following areas which are not even listed in the table on page 53 of the Policies Map, which highlights the changes to the green grid. This information only becomes apparent when looking at individual sites, which begs the question as what other significant changes have not been detailed in the strategic policy overviews: Coombe Road Playing Fields as Green Belt, site reference 662; The de-designation of all the above sites would not comply with Policy SP7.2 and protection of the green grid.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
3919/01/003/DM44.2/O	Ms L Chatfield	Object	DM44.2 662	I am writing my objections development on the following sites as a resident as well as in my capacity as Warden of Croydon Ecology Centre. The sites are in areas that are essential foraging grounds for wildlife, including badgers, which are a protected species. I believe that they are also all on Green Belt Land. I realise that local authorities are being given new powers that allows them to build on parts of Green Belt Land, but I sincerely believe that this will be a terrible mistake, for which future generations will not thank us. These sites are also part of one of the very few large stretches of open green spaces so close to the centre of Croydon, which makes an huge difference to the air quality in our town and to the visual aspect thereof. There is ample evidence to prove that these green urban spaces are essential for the mental well-being of crowded cities. All the open green spaces are there for the benefit of all Croydon's residents and those visiting our Borough, by building on them you are taking away this right from people all over the Borough. Please think again and make use of brown field sites instead. By using brown field sites you have the opportunity improve those sites with well planned and laid out housing and amenities.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

3930/01/005/DM44.2/O	Mr & Mrs Shutter	Object	DM44.2 662	The de-designation of Green belt land and Metropolitan Open land for building is quite frankly the sort of policy which is incredibly short-sighted; the green belt was put in place to provide open space for local residents, not to provide cheap building land for development	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
3940/01/006/DM44.2/O	Shirley Shephard	Object	DM44.2 662	The Coombe Playing Fields, currently Green Belt, are being proposed for development in Policy DM44.2, Table 11.17, site 662 (p179). The site should remain as green belt. Croham Hurst Woods are being de-designated from Green Belt to Metropolitan Open Land in Policy SP7 of the Strategic Plan (p55 of Policies Map). Sanderstead planation is also being downgraded from Green Belt to Metropolitan Open Land. I object to all these downgrades	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

3941/01/007/DM44.2/O	Mr Frances Sell	Object	DM44.2 662	I disagree with all proposal's, greenbelt area's should not be downgraded in the way suggested.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
----------------------	-----------------	--------	---------------	---	-----------	--

3944/01/003/DM44.2/O	Mr & Ms Gin Pang & D'Archambaud	Object	DM44.2 662	We strongly object to the loss of green belt - Policy DM44.2 table 11, 17 site 662 on page 179.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
----------------------	---------------------------------	--------	---------------	---	-----------	--

3945/01/002/DM44.2/O	Mr & Mrs Isaac	Object	DM44.2 662	We are writing to object to the above proposals. We have grown up in South Croydon and have been regular visitors to Coombe Wood and gardens, and now with our young daughter. We are also concerned about the development of Coombe Playing Fields, which are of great value to the community. A school on this site would exacerbate the already considerable traffic congestion in the immediate vicinity and would be an over development of this area. We understand that there are always competing demands and needs for the council to meet in the borough but please recognise the amenity value of precious green areas in Croydon, that would be lost to future generations by insensitive development.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
3946/01/003/DM44.2/O	Mr & Mrs Burns	Object	Soundness - Justified DM44.2 662	We also object to the fact that the Coombe Playing Fields which are currently Green Belt land is being designated for development This would be a retrograde step and should remain as Green Belt land.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

3963/01/002/DM44.2/O	Mrs Yendall	Object	DM44.2 662	Would like to support her local MP Chris Philp with his concerns regarding Loss of Green Belt - (1)Coombe Playing Fields, (2) Croham Hurst, (3) Sanderstead Plantation. She objects strongly to all these downgrades.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
3975/01/004/DM44.2/O	Niren & Archana Shah	Object	Soundness - Justified DM44.2 662	Object to the de-designation of Coombe Road Playing Fields from Green Belt to Metropolitan Open Land, site reference 662; as the de-designation of both sites would not comply with Policy SP7.2 and protection of the green grid.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

3978/01/005/DM44.2/O Ms S Ikpa	Object	DM44.2 662	the de-designation of Chroham Hurst as Green Belt, despite being a biological Site of Special Scientific Interest (5551) and a Site of Metropolitan Importance for Nature Conservation; Coombe Road Playing Fields as Green Belt, site reference 662; as the de-designation of both sites would not comply with Policy 5P7.2 and protection of the green grid	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
3978/02/003/DM44.2/O Ms S Ikpa	Object	Soundness - Justified DM44.2 662	I object to the de-designation of Coombe Road playing fields as Green Belt. The de-designation would not comply with Policy SP7.2 and protection of the green grid.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

3982/01/010/DM44.2/O	Mr & Mrs Smith	Object	DM44.2 662	We are strongly against the planning ideas you have over green spaces. Please add these six against to planning ideas with references below  DM40.1 DM2 40.4 DM44.2 DM28 DM31.4	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
----------------------	----------------	--------	---------------	--	-----------	--

3990/01/001/DM44.2/O	Mr P Upton	Object	DM44.2 662	I confirm that I object to any changes to the designation of the Coombe Playing Fields	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
----------------------	------------	--------	---------------	--	-----------	--

4022/01/011/DM44.2/O	Mr & Mrs Ewin	Object	Soundness - Justified	DM44.2 662	Objection to Croydon Council's proposal to provide sites for travellers & the building of houses, etc on green land in Shirley & other areas.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
4023/02/004/DM44.2/O	Ms S Amin	Object		DM44.2 662	I am writing to object to the de-designation of Coombe Road Playing Fields as Green Belt, site reference 662.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

4027/01/004/DM44.2/O	Debby Stanhope	Object		DM44.2 662	I object to the de-designation of the site as Green Belt.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
----------------------	----------------	--------	--	---------------	---	-----------	--

4028/01/004/DM44.2/O	Mrs S Dixon	Object	Soundness - Justified	DM44.2 662	Object to the de-designation of: Craham Hurst as Green Belt, despite being a biological Site of Special Scientific Interest (SSSI) and a Site of Metropolitan Importance for Nature Conservation; Coombe Road Playing Fields as Green Belt, site reference 662; as the de-designation of both sites would not comply with Policy SP7.2 and protection of the green grid;	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
----------------------	-------------	--------	--------------------------	---------------	--	-----------	--

As a resident in the area, I am writing to object to, the use of the following locations as gypsy and traveller sites;  
a) Coombe Lodge Nurseries off Conduit Lane, site reference 661  
b) Coombe Farm off Oaks Road, site reference 502  
as above sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7A and SP2.7B;

The de-designation of: Croham Hurst as Green Belt, despite being a biological Site of Special Scientific Interest (SSSI) and a site of Metropolitan Importance for Nature Conservation; Coombe Road Playing Fields as Green Belt, site reference 662; as the de-designation of both sites would not comply with Policy SP7.2 and protection of the green grid.

These proposals are clearly harmful for the Green Belt and would have a negative impact on the environment and wildlife in Coombe Wood, Shirley Hills and Lloyd Park. It would create a precedent for further erosion of our valuable local amenity. Coombe Road and Coombe Lane are already very busy roads and one of the main arteries into the town centre. The additional traffic emanating from these two sites, without significant road improvements, would exacerbate the traffic congestion, not to mention the additional pressure on the already stretched local services such as schooling and general practitioners. The access roads to these proposed sites are clearly unsuitable for the larger vehicles that this community use as part of their livelihood and way of life. The junctions at Coombe Road, Oaks Road and Conduit Lane are already dangerous for vehicles and this area has the potential with this proposal to become a major accident black spot without significant very costly improvements to the local road network.

There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

4032/01/008/DM44.2/O	Ms S Lawson	Object	DM44.2 662	I object to the development plans detailed in this policy and believe the site should remain as green belt. These sites should not be downgraded as proposed.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
----------------------	-------------	--------	---------------	---	-----------	--

4034/01/006/DM44.2/O	Ms S Quy	Object	DM44.2 662	These precious sites should keep their green belt status.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
----------------------	----------	--------	---------------	---	-----------	--

4056/01/005/DM44.2/O	Mr & Mrs Ferguson	Object	DM44.2 662	We are writing to object to 2. the de-designation of; Croham Hurst as Green Belt, despite being a biological Site of Special Scientific Interest (SSSI) and a Site of Metropolitan Importance for Nature Conservation; Coombe Road Playing Fields as Green Belt, site reference 662; because the de-designation of both sites would not comply with Policy SP7.2 and the protection of the Green Belt;	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
4064/01/004/DM44.2/O	Mr Gregory Boyce	Object	DM44.2 662	The de-designation of Croham Hurst as Green Belt, despite being a biological Site of Special Scientific Interest (SSSI) and a Site of Metropolitan Importance for Nature Conservation and Coombe Road Playing Fields as Green Belt, site reference 662 as the de-designation of both sites would not comply with Policy SP7.2 and protection of the green grid	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

4066/01/004/DM44.2/O	Dr Chandra Pawa	Object	DM44.2 662	I object to the de-designation of: -Chroham Hurst as Green Belt, despite being a biological Site of Special Scientific Interest (SSSI) and a Site of Metropolitan Importance for Nature Conservation; -Coombe Road Playing Fields as Green Belt, site reference 662; as the de-designation of both sites would not comply with Policy SP7.2 and protection of the green grid;	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
----------------------	-----------------	--------	---------------	--	-----------	--

4069/01/004/DM44.2/O	Dr Kenneth Lim	Object	DM44.2 662	I object to the de-designation of the site as Green Belt.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
----------------------	----------------	--------	---------------	---	-----------	--

4070/01/003/DM44.2/O	Ann McEvaddy	Object	DM44.2 662	I object to the de-designation of:  Coombe Road Playing Fields as Green Belt, site reference 662 as the de-designation of both sites would not comply with Policy SP7.2 and protection of the green grid.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
4072/01/004/DM44.2/O	Dr Abia Afsar-Siddiqui	Object	DM44.2 662	The de-designation of Croham Hurst as Green Belt, despite being a biological Site of Special Scientific Interest (SSSI) and a Site of Metropolitan Importance for Nature Conservation and Coombe Road Playing Fields as Green Belt, site reference 662 as the de-designation of both sites would not comply with Policy SP7.2 and protection of the green grid	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

4073/01/004/DM44.2/O	Mr Graham Lyon	Object	DM44.2 662	I object to the de-designation of the site as Green Belt.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
4078/01/010/DM44.2/O	Mr & Mrs Belsey	Object	DM44.2 662	Coombe playing fields and other areas MUST remain Greenbelt for exercise and relaxation, after a busy day. Otherwise there will be more medical and psychiatric problems	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

4079/01/005/DM44.2/O	Melissa Chu	Object	DM44.2 662	the de-designation of Chroham Hurst as Green Belt, despite being a biological Site of Special Scientific Interest (5551) and a Site of Metropolitan Importance for Nature Conservation; Coombe Road Playing Fields as Green Belt, site reference 662; as the de-designation of both sites would not comply with Policy 5P7.2 and protection of the green grid	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
4080/01/004/DM44.2/O	Natwarlal Patel	Object	DM44.2 662	I object to the de-designation of the site as Green Belt.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

4082/01/004/DM44.2/O	Philip Jupp	Object	DM44.2 662	I object to the de-designation of the site as Green Belt.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
4085/01/008/DM44.2/O	Mrs Shelley Chatter-Singh	Object	DM44.2 662	DM44.2, 11.17, 662. This proposal will potentially reduce the amount of green belt land. It is not necessary and may open the floodgates.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

4099/01/006/DM44.2/O	Vivienne Murray	Object	DM44.2 662	We need more housing further out from Croydon and surrounding we are already becoming overcrowded - don't spoil our landscapes by building on Green Belt land.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
4106/01/003/DM44.2/O	Mr T King	Object	DM44.2 662	We both strongly object to council plans as below Coombe Playing Fields Policy DM44-2 Table 11 site 662 We object as above as it is on Green Belt land and not appropriate for development	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

4108/01/007/DM44.2/O	The Chudasama Family	Object	Soundness - Justified	DM44.2 662	Policy DM44.2, Table 11.17, site 662 (p179). The site should remain as green belt. Croham Hurst Woods are being de-designated from Green Belt to Metropolitan Open Land in Policy SP7 of the Strategic Plan (p55 of Policies Map). Sanderstead planation is also being downgraded from Green Belt to Metropolitan Open Land. I object to all these downgrades.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
4114/01/003/DM44.2/O	Mr & Mrs Kaczanowski	Object		DM44.2 662	Below is a list of our objections:  2. Policy DM 44.2 - reclassification of Coombe Playing Fields and Sanderstead Plantations - similarly to the above change of classification will come as threat to character of the area and negatively impact local community.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

4116/01/003/DM44.2/O	Mr & Mrs Mitton	Object	DM44.2 662	I object to the de-designation of:  Coombe Road Playing Fields as Green Belt, site reference 662 as the de-designation of both sites would not comply with Policy SP7.2 and protection of the green grid.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
4117/01/009/DM44.2/O	Cllr S Brew	Object	DM44.2 662	I object to the de-designation of the following areas which are not even listed in the table on page 53 of the Policies Map, which highlights the changes to the green grid. This information only becomes apparent when looking at individual sites, which begs the question as what other significant changes have not been detailed in the strategic policy overviews:  Coombe Road Playing Fields as Green Belt, site reference 662;  Land to the west of Timebridge Community Centre, Lodge Lane, site reference 636.  The de-designation of all the above sites would not comply with Policy SP7.2 and protection of the green grid.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

4120/01/001/DM44.2/O	Mr Michael Atkins	Object	DM44.2 662	The open area of Coombe Road Playing Fields (site reference 662) also appears to be de-designated from its status as 'Green Belt'. In both the above cases it is an inappropriate proposal, and any lower classification is considered potentially worrying with the possible intention of making it easier to allow other uses and/or development. Furthermore, such de-designation would not comply with Policy SP7.2 and the protection of the 'Green Grid'.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
4125/01/018/DM44.2/O	Councillor M Fisher	Object	Soundness - Justified DM44.2 662	I also object to the de-designation of the following areas which are not even listed in the table on page 53 of the Policies Map, which highlights the changes to the green grid. This information only becomes apparent when looking at individual sites, which begs the question as what other significant changes have not been detailed in the strategic policy overviews: Coombe Road Playing Fields as Green Belt, site reference 662; The de-designation of all the above sites would not comply with Policy SP7.2 and protection of the green grid	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

4138/02/012/DM44.2/O Ms S Rao	Object	DM44.2 662	Object to the de-designation of Coombe Road Playing Fields (site 662) as Green Belt This site would nto comply with Policy SM7.2 and the protection fo the Green Grid.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
4139/02/004/DM44.2/O Mrs S Chandarana	Object	DM44.2 662	I object to the de-designation of Coombe Road Playing Fields as Green Belt as the de-designation would not comply with Policy SP7.2 and protection of the Green Grid.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

4139/01/004/DM44.2/O	Mrs S Chandarana	Object		DM44.2 662	I object to the de-designation of Coombe Road Playing Fields as Green Belt as the de-designation would not comply with Policy SP7.2 and protection of the Green Grid.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
4141/02/004/DM44.2/O	Mrs S Deshpande	Object	Soundness - Justified	DM44.2 662	I am writing to object to:  2.The de-designation of:  •Coombe Road Playing Fields as Green Belt, site reference 662  as the de-designation of the site would not comply with Policy SP7.2 and protection of the green grid.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

4153/01/004/DM44.2/O	Mr Gary Dean	Object	DM44.2 662	The de-designation of Croham Hurst as Green Belt, despite being a biological Site of Special Scientific Interest (SSSI) and a Site of Metropolitan Importance for Nature Conservation and Coombe Road Playing Fields as Green Belt, site reference 662 as the de-designation of both sites would not comply with Policy SP7.2 and protection of the green grid	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
4154/01/004/DM44.2/O	Mr John Gibson	Object	DM44.2 662	I object to the de-designation of the site as Green Belt.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

4155/01/004/DM44.2/O	Mr John Male	Object	DM44.2 662	I object to the de-designation of the site as Green Belt.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
----------------------	--------------	--------	---------------	---	-----------	--

4157/01/004/DM44.2/O	Mr Mark Walker	Object	DM44.2 662	I object to the de-designation of the site as Green Belt.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
----------------------	----------------	--------	---------------	---	-----------	--

4161/01/005/DM44.2/O	Mr Trevor Watkins	Object	DM44.2 662	the de-designation of Chroham Hurst as Green Belt, despite being a biological Site of Special Scientific Interest (5551) and a Site of Metropolitan Importance for Nature Conservation; Coombe Road Playing Fields as Green Belt, site reference 662; as the de-designation of both sites would not comply with Policy 5P7.2 and protection of the green grid	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
4164/01/002/DM44.2/O	Mr & Mrs Whitehead & Abbott	Object	DM44.2 662	We are also concerned about the development of Coombe playing fields, which are an important resource for those schools lacking their own green fields. Too many playing fields have already been lost. A school on this site would exacerbate the already considerable traffic congestion in the immediate vicinity.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

4168/01/004/DM44.2/O	Catherine Martin	Object	DM44.2 662	I object to the de-designation of the site as Green Belt.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
----------------------	------------------	--------	---------------	---	-----------	--

4184/01/004/DM44.2/O	Krutika Patel	Object	DM44.2 662	I object to the de-designation of the site as Green Belt.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
----------------------	---------------	--------	---------------	---	-----------	--

4186/01/004/DM44.2/O	LB King	Object	DM44.2 662	I object to the de-designation of the site as Green Belt.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
----------------------	---------	--------	---------------	---	-----------	--

4188/01/004/DM44.2/O	N K Shaikh	Object	DM44.2 662	I object to the de-designation of the site as Green Belt.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
----------------------	------------	--------	---------------	---	-----------	--

4189/01/004/DM44.2/O	Mr Roger Bolton	Object	DM44.2 662	The de-designation of Croham Hurst as Green Belt, despite being a biological Site of Special Scientific Interest (SSSI) and a Site of Metropolitan Importance for Nature Conservation and Coombe Road Playing Fields as Green Belt, site reference 662 as the de-designation of both sites would not comply with Policy SP7.2 and protection of the green grid	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
4190/01/003/DM44.2/O	Mr Ronald West	Object	DM44.2 662	I object to the de-designation of:  Croham Hurst as Green Belt, despite being a biological Site of Special Scientific Interest (SSSI) and a Site of Metropolitan Importance for Nature Conservation;  Coombe Road Playing Fields as Green Belt, site reference 662;  as the de-designation of both sites would not comply with Policy SP7.2 and protection of the green grid;	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

4191/01/004/DM44.2/O S.R Patel	Object	DM44.2 662	I object to the de-designation of the site as Green Belt.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
4192/01/004/DM44.2/O Mrs Annette Merry	Object	DM44.2 662	The de-designation of Croham Hurst as Green Belt, despite being a biological Site of Special Scientific Interest (SSSI) and a Site of Metropolitan Importance for Nature Conservation and Coombe Road Playing Fields as Green Belt, site reference 662 as the de-designation of both sites would not comply with Policy SP7.2 and protection of the green grid	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

4193/01/003/DM44.2/O	Claire Green	Object	DM44.2 662	I object to the de-designation of:  Coombe Road Playing Fields as Green Belt, site reference 662 as the de-designation of both sites would not comply with Policy SP7.2 and protection of the green grid.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

4239/01/004/DM44.2/O Mr & Mrs Feast	Object	Soundness - Justified	DM44.2 662	<p>2. The de-designation of:</p> <p>Croham Hurst as Green Belt, despite being a biological Site of Special Scientific Interest (6861) and a site of Metropolitan Importance for nature Conservation; Coombe Road Playing Fields as Green Belt, site reference 662; because the de-designation of both sites would not comply with Policy SP7.2 and the protection of Green Belt. Yet again Croydon should surely be encouraging schools to teach children conservation in all its forms and visits to these sites will have a greater impact on a child's learning than sitting in a class room being taught theory, not practical experience. Croydon School children have a great advantage of having these truly natural sites on their doorstep unlike some Inner London schools, And teaching can be done by parents as well as teachers taking their children at weekends. It will be sad for future generations of Croydon children to be classed in an Inner London School with only a park and no natural areas for children to learn about the world around them. We received the benefits from past generations of Croydon residents, so we should not be destroying it for future generations.</p>	No change	<p>There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.</p>

4340/01/004/DM44.2/O	Mr R Spurgeon	Object	DM44.2 662	I object to the de-designation of the site as Green Belt.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
----------------------	---------------	--------	---------------	---	-----------	--

4342/01/004/DM44.2/O	Mr R Patel	Object	DM44.2 662	I object to the de-designation of the site as Green Belt.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
----------------------	------------	--------	---------------	---	-----------	--

4343/01/004/DM44.2/O	Mr R Venuatakrishna	Object	DM44.2 662	The de-designation of Croham Hurst as Green Belt, despite being a biological Site of Special Scientific Interest (SSSI) and a Site of Metropolitan Importance for Nature Conservation and Coombe Road Playing Fields as Green Belt, site reference 662 as the de-designation of both sites would not comply with Policy SP7.2 and protection of the green grid	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

Once the school buildings are built the remainder of the site will remain designated as Green Belt.
4716/01/006/DM44.2/O	Rachel Marland	Object	DM44.2 662	Policy DM44.2 - No downgrade of (1) Coombe Playing Fields, (2) Croham Hurst, (3) Sanderstead Plantation. They should remain greenbelt land and protected.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

8812/01/003/DM44.2/O	P A J Galthia	Object	Soundness - Justified	DM44.2 662	The proposal to build a secondary school next to the proposed Gypsy and Traveller site seems provocative, as the Croydon planning committee only recently finally rejected a similar proposal for the site. Surely councils should be preserving school playing fields.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.	
1926/01/048/DM45.2/O	Councillor Luke Clancy	Object		DM45.2	A policy should be considered for Portland Road that would help to manage the return of retail units to residential use, thereby concentrating the retail offer.	No change	A number of shopping parades have been designated on Portland Road. These designations aim to concentrate the retail offer and will support the conversion of other retail units to residential.	
2062/01/048/DM45.2/O	Councillor Jason Perry <i>London Borough of Croydon</i>	Object		DM45.2	A policy should be considered for Portland Road that would help to manage the return of retail units to residential use, thereby concentrating the retail offer.	No change	A number of shopping parades have been designated on Portland Road. These designations aim to concentrate the retail offer and will support the conversion of other retail units to residential.	
2071/01/048/DM45.2/O	Councillor Mario Creatura <i>London Borough of Croydon</i>	Object		DM45.2	A policy should be considered for Portland Road that would help to manage the return of retail units to residential use, thereby concentrating the retail offer.	No change	A number of shopping parades have been designated on Portland Road. These designations aim to concentrate the retail offer and will support the conversion of other retail units to residential.	
2128/03/016/DM45.2/O	Cllr Steve O'Connell AM	Object		DM45.2	A policy should be considered for Portland Road that would help to manage the return of retail units to residential use, thereby concentrating the retail offer.	A policy should be considered for Portland Road that would help to manage the return of retail units to residential use, thereby concentrating the retail offer	No change	A number of shopping parades have been designated on Portland Road. These designations aim to concentrate the retail offer and will support the conversion of other retail units to residential.
2448/01/048/DM45.2/O	Andy Stranack <i>Croydon Council</i>	Object		DM45.2	A policy should be considered for Portland Road that would help to manage the return of retail units to residential use, thereby concentrating the retail offer.		No change	A number of shopping parades have been designated on Portland Road. These designations aim to concentrate the retail offer and will support the conversion of other retail units to residential.

2775/01/048/DM45.2/O	Cllr Tim Pollard <i>London Borough of Croydon</i>	Object	DM45.2	A policy should be considered for Portland Road that would help to manage the return of retail units to residential use, thereby concentrating the retail offer.	No change	A number of shopping parades have been designated on Portland Road. These designations aim to concentrate the retail offer and will support the conversion of other retail units to residential.
2776/01/048/DM45.2/O	Cllr Helen Pollard <i>London Borough of Croydon</i>	Object	DM45.2	A policy should be considered for Portland Road that would help to manage the return of retail units to residential use, thereby concentrating the retail offer.	No change	A number of shopping parades have been designated on Portland Road. These designations aim to concentrate the retail offer and will support the conversion of other retail units to residential.
2812/01/048/DM45.2/O	Cllr Jan Buttinger <i>London Borough of Croydon</i>	Object	DM45.2	A policy should be considered for Portland Road that would help to manage the return of retail units to residential use, thereby concentrating the retail offer.	No change	A number of shopping parades have been designated on Portland Road. These designations aim to concentrate the retail offer and will support the conversion of other retail units to residential.
2829/01/048/DM45.2/O	Cllr Margaret Mead <i>Croydon Council</i>	Object	DM45.2	A policy should be considered for Portland Road that would help to manage the return of retail units to residential use, thereby concentrating the retail offer.	No change	A number of shopping parades have been designated on Portland Road. These designations aim to concentrate the retail offer and will support the conversion of other retail units to residential.
2842/01/048/DM45.2/O	Cllr Richard Chatterjee <i>London Borough of Croydon</i>	Object	DM45.2	A policy should be considered for Portland Road that would help to manage the return of retail units to residential use, thereby concentrating the retail offer.	No change	A number of shopping parades have been designated on Portland Road. These designations aim to concentrate the retail offer and will support the conversion of other retail units to residential.
3430/01/048/DM45.2/O	Mr Donald Speakman	Object	DM45.2	A policy should be considered for Portland Road that would help to manage the return of retail units to residential use, thereby concentrating the retail offer.	No change	A number of shopping parades have been designated on Portland Road. These designations aim to concentrate the retail offer and will support the conversion of other retail units to residential.
3699/01/048/DM45.2/O	Cllr J Cummings	Object	DM45.2	A policy should be considered for Portland Road that would help to manage the return of retail units to residential use, thereby concentrating the retail offer.	No change	A number of shopping parades have been designated on Portland Road. These designations aim to concentrate the retail offer and will support the conversion of other retail units to residential.

3804/01/049/DM45.2/C	Cllr L Hale <i>London Borough of Croydon</i>	Comment		DM45.2	A policy should be considered for Portland Road that would help to manage the return of retail units to residential use, thereby concentrating the retail offer		No change	A number of shopping parades have been designated on Portland Road. These designations aim to concentrate the retail offer and will support the conversion of other retail units to residential.
4117/01/041/DM45.2/C	Cllr S Brew	Comment		DM45.2	A policy should be considered for Portland Road that would help to manage the return of retail units to residential use, thereby concentrating the retail offer.		No change	A number of shopping parades have been designated on Portland Road. These designations aim to concentrate the retail offer and will support the conversion of other retail units to residential.
4125/01/048/DM45.2/O	Councillor M Fisher	Object		DM45.2	A policy should be considered for Portland Road that would help to manage the return of retail units to residential use, thereby concentrating the retail offer.		No change	A number of shopping parades have been designated on Portland Road. These designations aim to concentrate the retail offer and will support the conversion of other retail units to residential.
1926/01/047/DM45.3/C	Councillor Luke Clancy	Comment	Soundness - Effective	DM45.3	DM45.3 should refer to South Norwood and Woodside and not South Croydon		Change	This is a typographical mistake and it will be corrected.
2056/01/031/DM45.3/C	Councillor Dudley Mead <i>London Borough of Croydon</i>	Comment		DM45.3	DM45.3 should refer to South Norwood and Woodside and not South Croydon; A policy should be considered for Portland Road that would help to manage the return of retail units to residential use, thereby concentrating the retail offer.		Change	The Proposed Submission draft will be accompanied by a draft Policies Map which should be clearer. In addition the draft will include in the introduction an improved guide on how to use the plan and which policies would apply for different types of development to make it easier to use. It is noted that the Preferred and Alternative Options draft did include a table which showed what type of changes to designations were being made in each Place.
2062/01/047/DM45.3/C	Councillor Jason Perry <i>London Borough of Croydon</i>	Comment	Soundness - Effective	DM45.3	DM45.3 should refer to South Norwood and Woodside and not South Croydon		Change	This is a typographical mistake and it will be corrected.
2071/01/047/DM45.3/C	Councillor Mario Creatura <i>London Borough of Croydon</i>	Comment	Soundness - Effective	DM45.3	DM45.3 should refer to South Norwood and Woodside and not South Croydon		Change	This is a typographical mistake and it will be corrected.
2128/03/015/DM45.3/C	Cllr Steve O'Connell AM	Comment		DM45.3	DM45.3 should refer to South Norwood and Woodside and not South Croydon	DM45.3 should refer to South Norwood and Woodside and not South Croydon	Change	DM45.3 has been changed to reference South Norwood and Woodside.
2448/01/047/DM45.3/C	Andy Stranack <i>Croydon Council</i>	Comment	Soundness - Effective	DM45.3	DM45.3 should refer to South Norwood and Woodside and not South Croydon		Change	This is a typographical mistake and it will be corrected.

2635/01/041/DM45.3/O	Paul Sandford <i>Bourne Society</i>	Object		DM45.3	DM45.3 should refer to South Norwood and Woodside and not South Croydon; A policy should be considered for Portland Road that would help to manage the return of retail units to residential use, thereby concentrating the retail offer	Change	This is typographical error and it will be correct.  The Local Plan does contain policies that concentrate the retail offer to defined areas and manages the change of use in other areas including quality of shop conversions.
2775/01/047/DM45.3/C	Cllr Tim Pollard <i>London Borough of Croydon</i>	Comment	Soundness - Effective	DM45.3	DM45.3 should refer to South Norwood and Woodside and not South Croydon	Change	This is a typographical mistake and it will be corrected.
2776/01/047/DM45.3/C	Cllr Helen Pollard <i>London Borough of Croydon</i>	Comment	Soundness - Effective	DM45.3	DM45.3 should refer to South Norwood and Woodside and not South Croydon	Change	This is a typographical mistake and it will be corrected.
2812/01/047/DM45.3/C	Cllr Jan Buttinger <i>London Borough of Croydon</i>	Comment	Soundness - Effective	DM45.3	DM45.3 should refer to South Norwood and Woodside and not South Croydon	Change	This is a typographical mistake and it will be corrected.
2829/01/047/DM45.3/C	Cllr Margaret Mead <i>Croydon Council</i>	Comment	Soundness - Effective	DM45.3	DM45.3 should refer to South Norwood and Woodside and not South Croydon	Change	This is a typographical mistake and it will be corrected.
2841/01/034/DM45.3/C	Cllr Vidhi Mohan <i>London Borough of Croydon</i>	Comment		DM45.3	DM45.3 should refer to South Norwood and Woodside and not South Croydon; A policy should be considered for Portland Road that would help to manage the return of retail units to residential use, thereby concentrating the retail offer.	Change	The Proposed Submission draft will be accompanied by a draft Policies Map which should be clearer. In addition the draft will include in the introduction an improved guide on how to use the plan and which policies would apply for different types of development to make it easier to use. It is noted that the Preferred and Alternative Options draft did include a table which showed what type of changes to designations were being made in each Place.
2842/01/047/DM45.3/C	Cllr Richard Chatterjee <i>London Borough of Croydon</i>	Comment	Soundness - Effective	DM45.3	DM45.3 should refer to South Norwood and Woodside and not South Croydon	Change	This is a typographical mistake and it will be corrected.
3430/01/047/DM45.3/C	Mr Donald Speakman	Comment	Soundness - Effective	DM45.3	DM45.3 should refer to South Norwood and Woodside and not South Croydon	Change	This is a typographical mistake and it will be corrected.
3699/01/047/DM45.3/C	Cllr J Cummings	Comment	Soundness - Effective	DM45.3	DM45.3 should refer to South Norwood and Woodside and not South Croydon	Change	This is a typographical mistake and it will be corrected.
3804/01/048/DM45.3/C	Cllr L Hale <i>London Borough of Croydon</i>	Comment		DM45.3	DM45.3 should refer to South Norwood and Woodside and not South Croydon	Change	This factual mistake was corrected.

3897/01/038/DM45.3/O	Cllr M Neal	Object		DM45.3	DM45.3 should refer to South Norwood and Woodside and not South Croydon; A policy should be considered for Portland Road that would help to manage the return of retail units to residential use, thereby concentrating the retail offer.	Change	This will be amended as part of the Proposed Submission. The Shopping Parades Policy sets out to consolidate the retail offer as set out.
4117/01/040/DM45.3/O	Cllr S Brew	Object		DM45.3	DM45.3 should refer to South Norwood and Woodside and not South Croydon;	Change	This is a typographical error and it will be corrected.
4125/01/047/DM45.3/C	Councillor M Fisher	Comment	Soundness - Effective	DM45.3	DM45.3 should refer to South Norwood and Woodside and not South Croydon	Change	This is a typographical mistake and it will be corrected.
2166/01/001/DM45.3/O	Mr Clark Dunstan	Object	Soundness - Effective	DM45.3 121	The use of Metropolitan open land as described in reference number 121 is retrospective as this land is already being used/ developed as a school. If this is not a retrospective application then there needs to be no change as the current designation is therefore permissible. It fails to limit any further development of the site by increasing the size and scale of the educational use. The current usage is only 120 pupils yet significant disruption to residents is caused by parents visiting the school for open evenings by car. They have consistently ignored parking restrictions and regulations and the Local Authority either choose to ignore or have insufficient resources to implement the regulations and enforcement. The use of the car park area of MOL is now a MUGA and this should remain the case and any future policy should protect the residents from any development of this area other than an open games area and restrict any further buildings within the designated boundary.	Change	As site 121 is under construction it will be removed from the Local Plan.
2634/01/008/DM45.3/C	Charlie Fagan ARK	Comment		DM45.3 121	Croydon Council have confirmed site has been assigned to another development.	Change	This site is now under construction so it will be removed from the Local Plan As site 121 is under construction it will be removed from the Local Plan.
2657/01/035/DM45.3/S	Rebecca Pullinger CPRE London	Support	Soundness - Justified	DM45.3 121	We support this allocation, and feel it shows appropriate consideration of the value of MOL "any proposed development should seek to ensure that any loss of loss open land is mitigated through alternative provision".	Welcome support	

2177/01/028/DM45.3/C Miss Vanessa Garner  
Network Rail Infrastructure Limited

Comment Soundness - DM45.3  
Effective 137

Network Rail notes that there are a number of sites adjacent to the Railway and attach a standard response which sets out the issues that need to be considered. In particular with large new developments there is a concern about the risk of trespass and all new developments should have proper and suitable boundary fencing. The risk of greater flooding and drainage that new developments could potentially have on the Network Rail infrastructure and we would not want any increase of flooding or the increase in run off onto Railway Infrastructure.

No change

Any development proposals for the site would be subject to consultation and Network Rail would be consulted as required.

The developer must ensure that their proposal, both during construction and after completion of works on site, does not:

- encroach onto Network Rail land
- affect the safety, operation or integrity of the company's railway and its infrastructure
- undermine its support zone
- damage the company's infrastructure
- place additional load on cuttings
- adversely affect any railway land or structure
- over-sail or encroach upon the air-space of any Network Rail land
- cause to obstruct or interfere with any works or proposed works or Network Rail development both now and in the future

The developer should comply with the following comments and requirements for the safe operation of the railway and the protection of Network Rail's adjoining land.

Future maintenance  
The development must ensure any future maintenance can be conducted solely on the applicant's land. The applicant must ensure that any construction and any subsequent maintenance can be carried out to any proposed buildings or structures without adversely affecting the safety of, or encroaching upon Network Rail's adjacent land and air-space, and therefore all/any building should be situated at least 2 metres (3m for overhead lines and third rail) from Network Rail's boundary. The reason for the 2m (3m for overhead lines and third rail) stand off requirement is to allow for construction and future maintenance of a building and without requirement for access to the operational railway environment which may not necessarily be granted or if granted subject to railway site safety requirements and special provisions with all associated railway costs charged to the

applicant. Any less than 2m (3m for overhead lines and third rail) and there is a strong possibility that the applicant (and any future resident) will need to utilise Network Rail land and air-space to facilitate works. The applicant / resident would need to receive approval for such works from the Network Rail Asset Protection Engineer, the applicant / resident would need to submit the request at least 20 weeks before any works were due to commence on site and they would be liable for all costs (e.g. all possession costs, all site safety costs, all asset protection presence costs). However, Network Rail is not required to grant permission for any third party access to its land. No structure/building should be built hard-against Network Rail's boundary as in this case there is an even higher probability of access to Network Rail land being required to undertake any construction / maintenance works. Equally any structure/building erected hard against the boundary with Network Rail will impact adversely upon our maintenance teams' ability to maintain our boundary fencing and boundary treatments.

#### Drainage

Storm/surface water must not be discharged onto Network Rail's property or into Network Rail's culverts or drains except by agreement with Network Rail. Suitable drainage or other works must be provided and maintained by the Developer to prevent surface water flows or run-off onto Network Rail's property. Proper provision must be made to accept and continue drainage discharging from Network Rail's property; full details to be submitted for approval to the Network Rail Asset Protection Engineer. Suitable foul drainage must be provided separate from Network Rail's existing drainage. Soakaways, as a means of storm/surface water disposal must not be constructed near/within 10 – 20 metres of Network Rail's boundary or at any point which could adversely affect the stability of Network Rail's property. After the completion and occupation of the development, any new or exacerbated problems attributable to the new development shall be investigated and remedied at the applicants' expense.

#### Plant & Materials

All operations, including the use of cranes or other mechanical plant working adjacent to Network Rail's property, must at all times be carried out in a "fail safe" manner such that in the event of mishandling, collapse or failure, no plant or materials are

capable of falling within 3.0m of the boundary with Network Rail.

#### Scaffolding

Any scaffold which is to be constructed within 10 metres of the railway boundary fence must be erected in such a manner that at no time will any poles over-sail the railway and protective netting around such scaffold must be installed. The applicant/applicant's contractor must consider if they can undertake the works and associated scaffold/access for working at height within the footprint of their property boundary.

#### Piling

Where vibro-compaction/displacement piling plant is to be used in development, details of the use of such machinery and a method statement should be submitted for the approval of the Network Rail's Asset Protection Engineer prior to the commencement of works and the works shall only be carried out in accordance with the approved method statement.

#### Fencing

In view of the nature of the development, it is essential that the developer provide (at their own expense) and thereafter maintain a substantial, trespass proof fence along the development side of the existing boundary fence, to a minimum height of 1.8 metres. The 1.8m fencing should be adjacent to the railway boundary and the developer/applicant should make provision for its future maintenance and renewal without encroachment upon Network Rail land. Network Rail's existing fencing / wall must not be removed or damaged and at no point either during construction or after works are completed on site should the foundations of the fencing or wall or any embankment therein, be damaged, undermined or compromised in any way. Any vegetation on Network Rail land and within Network Rail's boundary must also not be disturbed. Any fencing installed by the applicant must not prevent Network Rail from maintaining its own fencing/boundary treatment.

#### Lighting

Any lighting associated with the development (including vehicle lights) must not interfere with the sighting of signalling apparatus and/or train drivers vision on approaching trains. The location and colour of lights must not give rise to the potential for confusion with the signalling

arrangements on the railway. The developers should obtain Network Rail's Asset Protection Engineer's approval of their detailed proposals regarding lighting.

**Noise and Vibration**

The potential for any noise/ vibration impacts caused by the proximity between the proposed development and any existing railway must be assessed in the context of the National Planning Policy Framework which hold relevant national guidance information. The current level of usage may be subject to change at any time without notification including increased frequency of trains, night time train running and heavy freight trains.

**Vehicle Incursion**

Where a proposal calls for hard standing area / parking of vehicles area near the boundary with the operational railway, Network Rail would recommend the installation of a highways approved vehicle incursion barrier or high kerbs to prevent vehicles accidentally driving or rolling onto the railway or damaging lineside fencing.

Network Rail strongly recommends the developer contacts [AssetProtectionsSussex@networkrail.co.uk](mailto:AssetProtectionsSussex@networkrail.co.uk) prior to any works commencing on site, and also to agree an Asset Protection Agreement with us to enable approval of detailed works. More information can also be obtained from our website at [www.networkrail.co.uk/asp/1538.aspx](http://www.networkrail.co.uk/asp/1538.aspx).

2657/01/007/DM45.3/O	Rebecca Pullinger CPRE London	Object	Soundness - Effective	DM45.3 486	A large number of the sites allocated for development through Detailed Policies and Proposals may result in the loss of green space. This appears to run counter to the Borough's Strategic Objective 10 (The need to utilise brownfield areas first) and could be replaced with a goal to promote good quality high density developments that protect Croydon's green spaces. Even undesignated green spaces provide important ecosystem services to Croydon's growing population.	The Council should provide additional text in these policies to encourage developers to propose good quality, high density developments which promote the protection and enhancement of green space.	No change	Policies DM10.1 and DM10.2 aims to ensure good quality development that would complement and sensitively responds to its surroundings and improves the quality of the boroughs public spaces and that would include green spaces
					We are concerned about the potential loss of open space through this site allocation			

1926/01/049/DM46.2/O	Councillor Luke Clancy	Object	Soundness - Effective	DM46.2	DM46.2 should avoid buildings up to 6 storeys unless they are on corner plots or landmark sites.	No change	Croydon will have sustainably grown to accommodate homes to contribute to the borough's housing need. Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework. The Thornton Heath Pond Local Centre is one of areas with high level of accessibility to public services, including transport, and therefore suitable to accommodate its share of sustainable growth. The proposed maximum height for new development would enable growth, enhance the local centre and complement local character of surrounding areas.

*Euro Hotels Limited*

Object

DM46.3

We write on behalf of our clients, Euro Hotels Limited, to comment upon the London Borough of Croydon's draft Croydon Local Plan: Detailed Policies and Proposals document. Our client's interest relates to the extent of land that is outlined in the accompanying site plan (see Appendix 1) and we are proposing to shortly submit a planning application to comprehensively redevelop the site. The site (0.94 hectares) includes the recently commenced hotel building at 2 Dunheved Road South, and all of the existing buildings which comprise 585 – 603 London Road. In total, the existing buildings include 256 hotel rooms, however this will increase to 336 upon completion of the development at 2 Dunheved Road South (permitted under LBC ref; 14/03259/P at appeal in September 2015). The buildings within the site are used for hotel accommodation and lawfully fall within Class C1 of the Town and Country Planning (Use Classes) Order 1987 (as amended). The aforementioned development at 2 Dunheved Road is 'Phase 1' of the proposed comprehensive redevelopment of the wider site. The existing buildings have an inefficient layout and an opportunity exists to redevelop the wider site to provide a better quality of hotel accommodation in more sustainable buildings and to provide a more efficient use of the site which is more aligned with the recently renovated Ibis Styles hotel (former Norfolk Hotel). We anticipate submitting an application for the wider masterplan in mid-2016. Our client owns the site in entirety and is committed to delivering a series of new hotel buildings as part of a comprehensive redevelopment. This will result in the demolition of the existing buildings between 585- 603 London Road which are currently occupied by the Ibis Croydon, Gilroy Court Hotel and Croydon Court Hotel. The Proposed Development is anticipated to follow on from the 'Phase 1' redevelopment proposals are currently being constructed at 2 Dunheved Road South and these demonstrate the commitment to provide quality hotel accommodation on this site and to deliver this new development. Euro Hotels Ltd have no plans or strategy to redevelop the site for an alternative use and given the commitment to redevelopment and the identifiable demand for hotel accommodation on this site, we are requesting that the site known as 585 – 603 London Road and 2 Dunheved Road, Croydon is included in Table 11.19 of the draft Croydon Local Plan: Detailed Policies and Proposals

585-603 London Road and 2 Dunheved Road should be included in Table 11.19 as 'Continued hotel use'.

No change

The Plan allocates sites for change of use not continued use and cannot allocate out of centre uses except for where there is no change in size.

Any proposals for development at 585-603 London Road and 2 Dunheved Road will be considered on their merits during the Development Management process

document as Proposed Use of  
'Continued hotel use'.

- cause to obstruct or interfere with any works or proposed works or Network Rail development both now and in the future

The developer should comply with the following comments and requirements for the safe operation of the railway and the protection of Network Rail's adjoining land.

Future maintenance  
The development must ensure any future maintenance can be conducted solely on the applicant's land. The applicant must ensure that any construction and any subsequent maintenance can be carried out to any proposed buildings or structures without adversely affecting the safety of, or encroaching upon Network Rail's adjacent land and air-space, and therefore all/any building should be situated at least 2 metres (3m for overhead lines and third rail) from Network Rail's boundary. The reason for the 2m (3m for overhead lines and third rail) stand off requirement is to allow for construction and future maintenance of a building and without requirement for access to the operational railway environment which may not necessarily be granted or if granted subject to railway site safety requirements and special provisions with all associated railway costs charged to the

applicant. Any less than 2m (3m for overhead lines and third rail) and there is a strong possibility that the applicant (and any future resident) will need to utilise Network Rail land and air-space to facilitate works. The applicant / resident would need to receive approval for such works from the Network Rail Asset Protection Engineer, the applicant / resident would need to submit the request at least 20 weeks before any works were due to commence on site and they would be liable for all costs (e.g. all possession costs, all site safety costs, all asset protection presence costs). However, Network Rail is not required to grant permission for any third party access to its land. No structure/building should be built hard-against Network Rail's boundary as in this case there is an even higher probability of access to Network Rail land being required to undertake any construction / maintenance works. Equally any structure/building erected hard against the boundary with Network Rail will impact adversely upon our maintenance teams' ability to maintain our boundary fencing and boundary treatments.

#### Drainage

Storm/surface water must not be discharged onto Network Rail's property or into Network Rail's culverts or drains except by agreement with Network Rail. Suitable drainage or other works must be provided and maintained by the Developer to prevent surface water flows or run-off onto Network Rail's property. Proper provision must be made to accept and continue drainage discharging from Network Rail's property; full details to be submitted for approval to the Network Rail Asset Protection Engineer. Suitable foul drainage must be provided separate from Network Rail's existing drainage. Soakaways, as a means of storm/surface water disposal must not be constructed near/within 10 – 20 metres of Network Rail's boundary or at any point which could adversely affect the stability of Network Rail's property. After the completion and occupation of the development, any new or exacerbated problems attributable to the new development shall be investigated and remedied at the applicants' expense.

#### Plant & Materials

All operations, including the use of cranes or other mechanical plant working adjacent to Network Rail's property, must at all times be carried out in a "fail safe" manner such that in the event of mishandling, collapse or failure, no plant or materials are

capable of falling within 3.0m of the boundary with Network Rail.

#### Scaffolding

Any scaffold which is to be constructed within 10 metres of the railway boundary fence must be erected in such a manner that at no time will any poles over-sail the railway and protective netting around such scaffold must be installed. The applicant/applicant's contractor must consider if they can undertake the works and associated scaffold/access for working at height within the footprint of their property boundary.

#### Piling

Where vibro-compaction/displacement piling plant is to be used in development, details of the use of such machinery and a method statement should be submitted for the approval of the Network Rail's Asset Protection Engineer prior to the commencement of works and the works shall only be carried out in accordance with the approved method statement.

#### Fencing

In view of the nature of the development, it is essential that the developer provide (at their own expense) and thereafter maintain a substantial, trespass proof fence along the development side of the existing boundary fence, to a minimum height of 1.8 metres. The 1.8m fencing should be adjacent to the railway boundary and the developer/applicant should make provision for its future maintenance and renewal without encroachment upon Network Rail land. Network Rail's existing fencing / wall must not be removed or damaged and at no point either during construction or after works are completed on site should the foundations of the fencing or wall or any embankment therein, be damaged, undermined or compromised in any way. Any vegetation on Network Rail land and within Network Rail's boundary must also not be disturbed. Any fencing installed by the applicant must not prevent Network Rail from maintaining its own fencing/boundary treatment.

#### Lighting

Any lighting associated with the development (including vehicle lights) must not interfere with the sighting of signalling apparatus and/or train drivers vision on approaching trains. The location and colour of lights must not give rise to the potential for confusion with the signalling

arrangements on the railway. The developers should obtain Network Rail's Asset Protection Engineer's approval of their detailed proposals regarding lighting.

#### Noise and Vibration

The potential for any noise/ vibration impacts caused by the proximity between the proposed development and any existing railway must be assessed in the context of the National Planning Policy Framework which hold relevant national guidance information. The current level of usage may be subject to change at any time without notification including increased frequency of trains, night time train running and heavy freight trains.

#### Vehicle Incursion

Where a proposal calls for hard standing area / parking of vehicles area near the boundary with the operational railway, Network Rail would recommend the installation of a highways approved vehicle incursion barrier or high kerbs to prevent vehicles accidentally driving or rolling onto the railway or damaging lineside fencing.

Network Rail strongly recommends the developer contacts [AssetProtectionsSussex@networkrail.co.uk](mailto:AssetProtectionsSussex@networkrail.co.uk) prior to any works commencing on site, and also to agree an Asset Protection Agreement with us to enable approval of detailed works. More information can also be obtained from our website at [www.networkrail.co.uk/asp/1538.aspx](http://www.networkrail.co.uk/asp/1538.aspx).

---

Object	DM46.3 266	<p>We wish to make you aware of a number of strong objections that we have with regard to the Proposed Development in between Torridge Road and Haslemere Road, referred to as the "Proposed Development". As an immediate neighbour to the site of the Proposed Development, we are of the view that the development will have a serious impact on our standard of living and we refer to the Council's rejection in 2012 of the site. The reasons for refusal were which we believe to be valid:</p> <ol style="list-style-type: none"> <li>1) Loss of employment generating use</li> <li>2) Overdevelopment of the site and having inadequate private amenity space for the occupiers</li> <li>3) Development would not provide a high standard of design and layout</li> <li>4) No affordable housing.</li> </ol>	The site should not be allocated for residential development.	Change	The site will not be allocated for residential development as it will result in the loss of a protected employment use.
		<p>The most important point the Council fail to acknowledge in their limited literature is that the site as a whole is currently used by two local businesses, but also their a property upon the 3b Torridge Road site which houses a young family with three children. The site is not derelict or can be classed as a brown field site. In order to densely populate a small area of land, the Council are willing to displace two local businesses which provide employment to local people. The scaffolding yard has been part of the local community for over 25 years and provides an invaluable local amenity. The council in their efforts to push for housing, maybe the efforts should concentrate of land that is disused and help local businesses rather than push them away and potentially destroy a business which is literally vital to the community. It is important to note, that due to the Council's intense takeover of disused land where would the Council suggest the two scaffolding firms be located? Unfortunately for the residents of the surrounding areas, the Council in their proposal have only provided very limited information regarding the intentions for the Proposed Development. However, we are aware that 10-30 homes are planned. Therefore we can only assume, the proposed site of development would overlook our properties from the top rooms of the new development, resulting in a serious invasion of our privacy. We believe that the Proposed Development is a direct contravention our human rights. Any potential design of the proposed development does not afford adequate privacy for the occupants adjacent residential properties,</p>			

particularly with regard to our right to the quiet enjoyment of garden amenities. We would urge you to consider the responsibilities of the Council under the Human Rights Act in particular Protocol 1, Article 1 which states that a person has the right to peaceful enjoyment of all their possessions which includes the home and other land. We believe that any proposed development would have a dominating impact on us and our right to the quiet enjoyment of our property. Article 8 of the Human Rights Act states, that a person has the substantive right to respect for their private and family life. As residents we have a right to light and therefore the maintenance of such light levels we currently enjoy is of vital importance otherwise this would be a direct infringement of our human rights. The natural lights we currently enjoy from sunlight and in particular the evening sunlight would be impacted due to new structures overshadowing our properties which would be an infringement. Therefore, on this basis alone any Proposed Development should be rejected. Upon review of the Council's local plan, we believe the proposed development would be in contravention to current planning policies. Any proposed plan would not be in keeping with the current local context and street pattern or, in particular, the scale and proportions of surrounding buildings and would be entirely out of character of the area, the detriment of the local environment.

The properties facing the proposed development would be seriously impacted if the proposed development is so densely concentrated that properties are built up against our back gardens. We understand the maximum build of the development could potentially be 10 to 30 homes, towering a maximum of 3 storeys tall, which is not in keeping with our homes, which are two storeys tall therefore any planned development would encroach on our properties style and character. We are unable to fully understand what the Council are actually planning or what any potential developer would plan. Therefore, the objections within this letter are purely speculative and do not allow us as residents to fully argue our oppositions - no surveys, site plans and/or architectural designs have been submitted/provided to the residents and we would request more information is provided. It is all well and good to include the site on a local plan - but on what grounds, what advice, what surveys of the neighbouring community, land and

environment surveys/plans. This lack of information is very disturbing and puts residents in the dark of what the council are actually planning. How can the council reject a site planning application one year and then a few years down the line potentially grant permission on the same grounds the application was rejected. However, despite the lack of information any development behind Torridge/Haslemere Road would be a massive stress on local amenities such as transport, parking, hospitals, local schools, GP Clinics, etc. The adverse noise, smell, pollution from the building/new residents would be of serious concern and potentially would impact directly on our daily lives and our health. We believe that the Proposed Development would be in contravention of any local plan and town and planning regulations. The proposed dwellings would significantly alter the fabric of the area and amount to serious 'cramming' in what is a low density roads. The development would allow for very little space currently enjoyed by both roads and we believe that it would lead to gross over-development of the site. The Proposed Development would not result in a benefit to the environment and residents around the area would suffer increased pollution levels as a direct result. In conclusion, the proposal would demonstrably harm the amenities enjoyed by local residents, in particular safe and available on-road parking, valuable enjoyment of privacy and light and the right to enjoy a quiet and safe residential environment. The development of any site would involve vast amounts of digging, excavation and preparing the land – the noise, pollution and fumes, to ensure the land is strong enough to withstand such large structures such as the aforementioned development. Also, any excavation work could have a serious adverse impact upon the stability of the existing structures. In addition, the works will also require the demolition current large structures, these are major works to be carried out on a circa-1960s property and we have serious concerns about the impact that such works could have on the stability of our own adjoining properties, health and safety and potential contamination. We believe that the Proposed Development would not provide sufficient parking space. In addition to this, there is already intense on-street parking pressure on Torridge Road/Haslemere Road and Bensham Lane, and we believe the proposed additional parking provision will damage both highway safety and

residential amenity. We also have serious concerns that the plot size and orientation will not easily accommodate cars within the proposed development if on-site parking is planned. The area concerned is limited in space and the entrance into the development from Torridge Road is very narrow with two houses either side and would make access to the proposed spaces limited and only possible from one direction and would affect the stability of the houses on either side, there would be serious disturbances in noise/vibration from cars at all hours of the day and late night activities. Road safety would be compromised for other road users, pedestrians including the local children who are able to play/run around freely on Torridge Road. We understand the Council have a quota that must be met in respect of affordable housing however there are other sites within the Croydon area that can fulfil the Council's requirements without encroaching on resident's human rights, such as the site on Bridgstock Road opposite the Hindu Temple or the large structure opposite Thornton Heath rail station. We would like to point out that the dwellings proposed would not fall within the definition of affordable housing. House prices on Torridge Road are increasing at a considerable pace and the average price is currently circa in excess of GBP 350,000 and as the new development would inevitably be priced at a value with reference to this, we do not believe the new dwellings would be considered to be affordable to people on a low income.

2794/01/001/DM46.3/O	Nimisha Shah	Object	Soundness - Justified	DM46.3 266	Object to planning application at 3b Torridge Road on grounds of loss of employment and overcrowding	Change	The site is existing Tier 4 site and as a consequence will be removed
2794/02/001/DM46.3/C	Nimisha Shah		Soundness - Justified	DM46.3 266	Please register the attached letter and petition as official objections to any planning of site 3B Torridge Road	Change	The site 3B Torridge Road is an existing Tier 4 site and will be removed from the site allocations list

Object Soundness - DM46.3  
Justified 266

You have incorrectly and illegitimately categorized the site as disused.

Change

This site has been incorrectly recorded as a vacant scattered employment site. As is it is still in use it is not a suitable site for housing and the proposed allocation will be removed from the Local Plan.

I can confirm that there is currently, and has since I have been resident there (in 2009) 2 x legitimate companies working out of that yard and employing up to 20 people (NEW ERA scaffold and P.J. MORGAN scaffold.)

I am somewhat confused, you have apparently visited the site [see document detailed record] and surmised that the site is disused, clearly you were not able to see the two legitimate and tax paying scaffold companies both working out of the site. Could you shed some further light on your record of that visit, as the categorized aspect of your assessment is clearly incorrect and most likely a mistake on your part?

Furthermore you go on to assert that the site has been disused for 18 months in the accompanying 'background' document. Again, as we have established you have conveniently overlooked the 2 legitimate companies working out of the site. Could you please provide the site assessment document that must have accompanied this visit and assessment please? Failure to do so renders your assessment of the site mute from this juncture on in the event you are not able to provide evidence that the site is [and has been for at least 18 months] disused.

Finally, I am again surprised to see that there is no reference in your documentation to the previous proposal being refused on the grounds of density and the removal of legitimate business from the site to enable development.

Correspondence from your office informed me that two overarching reasons for refusing the initial proposal of 11 homes on the site were refused on the grounds that it was too dense a proposal for the site in terms of access, and secondly that it would take desired employment out of the area. Please could you address both of those points in detail prior to moving on with this as I can see you have not only overlooked those initially salient points, you have outright contradicted them.

To surmise, you have failed to supply me with any meaningful density calculator as it applies to your estimated 10-37 homes on the site. You have failed to even acknowledge that there are existing businesses working there and your actions will

serve to move those businesses out of the area. You have also failed to address the logic for a U turns on both the density aspect and the removal of legitimate business from the area, as was your position only 2 years ago.

Justified

DM46.3  
286

Site 286 is an outdated factory that has been vacant for many years. It is the only non-residential building on this side of Osborne Road and it is entirely proper that it should be developed for residential use especially as there is a need for more housing and especially affordable homes.

Welcome support

---

2177/01/030/DM46.3/C Miss Vanessa Garner  
Network Rail Infrastructure Limited

Comment Soundness - DM46.3  
Effective 326

Network Rail notes that there are a number of sites adjacent to the Railway and attach a standard response which sets out the issues that need to be considered. In particular with large new developments there is a concern about the risk of trespass and all new developments should have proper and suitable boundary fencing. The risk of greater flooding and drainage that new developments could potentially have on the Network Rail infrastructure and we would not want any increase of flooding or the increase in run off onto Railway Infrastructure.

No change

Any development proposals for the site would be subject to consultation and Network Rail would be consulted as required

The developer must ensure that their proposal, both during construction and after completion of works on site, does not:

- encroach onto Network Rail land
- affect the safety, operation or integrity of the company's railway and its infrastructure
- undermine its support zone
- damage the company's infrastructure
- place additional load on cuttings
- adversely affect any railway land or structure
- over-sail or encroach upon the air-space of any Network Rail land
- cause to obstruct or interfere with any works or proposed works or Network Rail development both now and in the future

The developer should comply with the following comments and requirements for the safe operation of the railway and the protection of Network Rail's adjoining land.

Future maintenance  
The development must ensure any future maintenance can be conducted solely on the applicant's land. The applicant must ensure that any construction and any subsequent maintenance can be carried out to any proposed buildings or structures without adversely affecting the safety of, or encroaching upon Network Rail's adjacent land and air-space, and therefore all/any building should be situated at least 2 metres (3m for overhead lines and third rail) from Network Rail's boundary. The reason for the 2m (3m for overhead lines and third rail) stand off requirement is to allow for construction and future maintenance of a building and without requirement for access to the operational railway environment which may not necessarily be granted or if granted subject to railway site safety requirements and special provisions with all associated railway costs charged to the

applicant. Any less than 2m (3m for overhead lines and third rail) and there is a strong possibility that the applicant (and any future resident) will need to utilise Network Rail land and air-space to facilitate works. The applicant / resident would need to receive approval for such works from the Network Rail Asset Protection Engineer, the applicant / resident would need to submit the request at least 20 weeks before any works were due to commence on site and they would be liable for all costs (e.g. all possession costs, all site safety costs, all asset protection presence costs). However, Network Rail is not required to grant permission for any third party access to its land. No structure/building should be built hard-against Network Rail's boundary as in this case there is an even higher probability of access to Network Rail land being required to undertake any construction / maintenance works. Equally any structure/building erected hard against the boundary with Network Rail will impact adversely upon our maintenance teams' ability to maintain our boundary fencing and boundary treatments.

#### Drainage

Storm/surface water must not be discharged onto Network Rail's property or into Network Rail's culverts or drains except by agreement with Network Rail. Suitable drainage or other works must be provided and maintained by the Developer to prevent surface water flows or run-off onto Network Rail's property. Proper provision must be made to accept and continue drainage discharging from Network Rail's property; full details to be submitted for approval to the Network Rail Asset Protection Engineer. Suitable foul drainage must be provided separate from Network Rail's existing drainage. Soakaways, as a means of storm/surface water disposal must not be constructed near/within 10 – 20 metres of Network Rail's boundary or at any point which could adversely affect the stability of Network Rail's property. After the completion and occupation of the development, any new or exacerbated problems attributable to the new development shall be investigated and remedied at the applicants' expense.

#### Plant & Materials

All operations, including the use of cranes or other mechanical plant working adjacent to Network Rail's property, must at all times be carried out in a "fail safe" manner such that in the event of mishandling, collapse or failure, no plant or materials are

capable of falling within 3.0m of the boundary with Network Rail.

#### Scaffolding

Any scaffold which is to be constructed within 10 metres of the railway boundary fence must be erected in such a manner that at no time will any poles over-sail the railway and protective netting around such scaffold must be installed. The applicant/applicant's contractor must consider if they can undertake the works and associated scaffold/access for working at height within the footprint of their property boundary.

#### Piling

Where vibro-compaction/displacement piling plant is to be used in development, details of the use of such machinery and a method statement should be submitted for the approval of the Network Rail's Asset Protection Engineer prior to the commencement of works and the works shall only be carried out in accordance with the approved method statement.

#### Fencing

In view of the nature of the development, it is essential that the developer provide (at their own expense) and thereafter maintain a substantial, trespass proof fence along the development side of the existing boundary fence, to a minimum height of 1.8 metres. The 1.8m fencing should be adjacent to the railway boundary and the developer/applicant should make provision for its future maintenance and renewal without encroachment upon Network Rail land. Network Rail's existing fencing / wall must not be removed or damaged and at no point either during construction or after works are completed on site should the foundations of the fencing or wall or any embankment therein, be damaged, undermined or compromised in any way. Any vegetation on Network Rail land and within Network Rail's boundary must also not be disturbed. Any fencing installed by the applicant must not prevent Network Rail from maintaining its own fencing/boundary treatment.

#### Lighting

Any lighting associated with the development (including vehicle lights) must not interfere with the sighting of signalling apparatus and/or train drivers vision on approaching trains. The location and colour of lights must not give rise to the potential for confusion with the signalling

arrangements on the railway. The developers should obtain Network Rail's Asset Protection Engineer's approval of their detailed proposals regarding lighting.

**Noise and Vibration**

The potential for any noise/ vibration impacts caused by the proximity between the proposed development and any existing railway must be assessed in the context of the National Planning Policy Framework which hold relevant national guidance information. The current level of usage may be subject to change at any time without notification including increased frequency of trains, night time train running and heavy freight trains.

**Vehicle Incursion**

Where a proposal calls for hard standing area / parking of vehicles area near the boundary with the operational railway, Network Rail would recommend the installation of a highways approved vehicle incursion barrier or high kerbs to prevent vehicles accidentally driving or rolling onto the railway or damaging lineside fencing.

Network Rail strongly recommends the developer contacts [AssetProtectionsSussex@networkrail.co.uk](mailto:AssetProtectionsSussex@networkrail.co.uk) prior to any works commencing on site, and also to agree an Asset Protection Agreement with us to enable approval of detailed works. More information can also be obtained from our website at [www.networkrail.co.uk/asp/1538.aspx](http://www.networkrail.co.uk/asp/1538.aspx).

Our clients would like to make a representation in support of the de-designation of the above land from local open land. Our clients are also broadly supportive of the idea that the land be used as land for residential development.

However, our clients would like the Council to give consideration to the use of part of the site as a parking area for their business.

Rowland Brothers are an established local funeral director and they are a known and trusted company in Croydon. Rowland Brothers are also a major local employer with over 100 employees providing a vital local service to people at a very difficult time in their lives.

Rowland Brothers have operated from their premises on the Whitehorse Road since before the Second World War and have grown and adapted to meet the needs of Croydon's diverse community.

The growth of the service has meant that there are more vehicles using the premises. Not only hearses and funeral cars, but also private ambulances and the vehicles used by family members of the deceased.

This intensification of vehicular activity over the years has resulted in congestion and parking difficulties most particularly in Northbrook Road, but there has also been spillover into Mayo Road and Broadway Avenue opposite Rowland Brothers.

Due to the congestion in and around Rowland Brothers at times it has been necessary to park private ambulances in Northbrook Road after bringing the deceased to Rowland Brothers. The sight of these vehicles can be distressing for the neighbours and Rowland Brothers would like to be in a position to park these vehicles off the public highway.

Rowland Brothers also cater to the needs of various communities and faiths in Croydon and are providing new facilities that will allow different communities and faith to be able to see through the bereavement/funeral process on the premises. There are new facilities that allow family members to wash the deceased and the chapels of rest are now more intensively used by mourners sitting with the deceased until the funeral.

Due to the differing funerary customs of diverse communities sometimes a number of people will

Therefore, Rowland Brothers would like to support the de-designation of this land as local open land, but with the addition of a car parking area on the area marked in red on the attached plan.

No change

A need has been identified for additional Housing sites in Croydon and Pawsons Road meets the criteria. The Council acknowledges that a balance needs to be struck between this need and the impact that additional sites has on the environment and nearby residents

be visiting the premises to take part in customary visits to the deceased's family.

Rowland Brothers would like to add a car park at the rear of their premises to allow relatives and visitors to deceased persons and Rowland Brothers employees to be able to park without causing disruption to their neighbours.

Rowland Brothers have the support of the local community for their suggested car parking area and a petition with 70 local signatures is attached. Rowland Brothers have always tried very hard to maintain good relationships with their neighbours and they feel that it would be a distinct improvement to the area for some off road parking to be provided for their employees and customers, thereby easing parking and congestion problems for the neighbours.

2751/01/001/DM46.3/S	Mr S Parkayasky	Support		DM46.3 468		Welcome support	
2775/01/051/DM46.3/O	Cllr Tim Pollard <i>London Borough of Croydon</i>	Object	Soundness - Justified	DM46.3 468	Site 468, Grass area adjacent to 55 Pawsons Road. 2894/01/001/DM46.3/O	Bev	Object	Soundness - Effective	DM46.3 468	I write as a long standing resident of Saxon Road. I wish to state that parking has been an ongoing issue. And I agree with Rowland Brothers that the TARMAC area should serve a purpose that will ultimately relief the lack of parking spaces and congested situation we face on my road and adjoining streets in particular as train commuters take up most of the spaces; this is worsened during football season.	Please therefore allow Rowland Brothers to use the tarmacked area as a car park.	No change	A need has been identified for additional Housing sites in Croydon and Pawsons Road meets the criteria. The Council acknowledges that a balance needs to be struck between this need and the impact that additional sites has on the environment and nearby residents

2941/01/001/DM46.3/C Mr Donald Douglas

Comment Soundness - DM46.3  
Effective 468

Any loss of green space is a tragedy, however the current use of the space seems to only serve the use of people with dogs which in itself discourages other people using the same in particular children for fear disease resulting from the dog defecation.  
I have noted the proposal put forward by Rowlands Brothers. There proposal extend only to the current tarmac area the intention of which is to secure parking for their business. I appreciate Rowlands Brothers business interest however there evidence that proposal would ease the current parking congestion. I seems the only beneficiary from this proposal would be Rowlands Brothers and this cant represent value for money for the use of a community asset.  
The second proposal in to building housing, There continue to be a shortage of social housing and therefore would support the development of social housing providing that adequate parking so as not to increase current parking congestion.  
The third option should be to make the area dog free and encourage the local community to manage the green area, you have one volunteer!!!

Welcome support

2945/01/001/DM46.3/C Mr and Mrs R Sayer

DM46.3  
468

We would like to support ROWLAND BROTHERS for using some of the land between NORTHBROOK ROAD and PAWSONS ROAD so that they can park their Company Vans and cars to save space in MAYO ROAD/NORTHBROOK ROAD/SAXON ROAD for residential parking.  
  
The residents have very limited space to park in the above roads due to Rowlands leaving their Vans/Cars overnight and at weekends.  
  
Therefore we are totally AGAINST more residential flats being built on this site, as it will cause even more parking problems.

No change

A need has been identified for additional Housing sites in Croydon and Pawsons Road meets the criteria. The Council acknowledges that a balance needs to be struck between this need and the impact that additional sites has on the environment and nearby residents

2896/01/002/DM46.3/O	Mr John Curley <i>Curley Skip Hire</i>	Object	Soundness - Justified	DM46.3 A285	This site is immediately adjacent to, and shares a common boundary with site 286 (which is a preferred proposal site). Site A285 is a waste transfer station which has been in continued, uninterrupted use for many years, and complies with all current regulatory requirements. However the dust and noise created by the operation of the site and the movement of skip lorries is detrimental to the amenity of neighbouring residential properties, 14 of which share a common boundary with the site. There have been a fair number of complaints to the local authority over this matter. The access is not suited to skip lorries either being a narrow road with cars closely parked.	A waste transfer site is not appropriate in a residential area and should be included in the list of preferred sites.	No change	54 Northwood Road is an operational employment site and there is a presumption against the loss of employment uses

Object	Soundness - Effective	DM46.3 A400		Change	
		<p>In regards to Table 11.19 of the Croydon Local Plan: Detailed Policies and Proposals (Preferred and Alternative Options), the preferred option for a continuation of the existing use at site A400 (324-340 Bensham Lane, Thornton Heath) would not facilitate Council in meeting the relevant Strategic Objectives. However, how these objectives would be met were the site's preferred option to be identified for residential uses as outlined below.</p> <p>Strategic Objective 3: As detailed in the attachment to this representation form, the site is ideal for residential development and fulfils the criteria in Appendix 1 identified as factors that are considered when recognising sites as preferred options for new housing. The site is of an appropriate size to accommodate in excess of ten dwellings, and will assist Council in providing housing of various types and tenures throughout the residents' lives.</p> <p>Strategic Objective 4: The existing development has a significant detrimental impact on the streetscape and urban grain. Allocating the site for a preference of residential uses in place of the continuation of the existing use would revitalise the streetscape and create a renewed opportunity for housing. Furthermore, as demonstrated in the attachment to this representation form, the benefits of identifying the site as a preferred option for residential uses would not necessarily result in the loss of employment land or residential uses. Issue is raised over the impact a continuation of the use would have on the amenity achieved at the future residential uses at the 2nd and 3rd floors where prior approval has been granted. Omitting the site as a preferred option for residential uses would be a missed opportunity to renew the site and surrounds.</p> <p>Strategic Objective 5: Permitting residential uses on the site is an excellent opportunity to encourage high quality development that enhances and integrates into the surrounds. The existing warehouse use is out of keeping with the remaining streetscape and would be better located elsewhere within the Borough. This consideration is expanded on in greater detail in the attachment.</p> <p>Strategic Objective 8: As detailed in the attachment to this representation form, the site is ideally located for residential development, being within</p>	<p>As demonstrated in this statement Day Lewis House, 324-340 Bensham Lane should be considered as a preferred option for residential uses within Table 11.19 of the exhibited Croydon Local Plan: Detailed Policies and Proposals (Preferred and Alternative Options).</p> <p>The site presents an exceptional opportunity for residential development and has proven its suitability against the assessment criteria in Appendix 1 (used to identify sites as having a preferred options for residential uses). It has further been confirmed that the site is compatible with such identified sites.</p> <p>The submission has demonstrated that residential uses would revitalise the existing undesirable urban character, and can be accommodated on the site. Furthermore the loss of such an opportunity based on the reasoning that it would result in a loss of employment land and a community facility would be to the detriment of the future growth and development of the site, its surrounds and the Borough.</p>		<p>The lawful use of this site is an office (Class B1a) which, outside of the Office Protection Area in the Metropolitan Centre, is not proposed to be protected in the Local Plan. Therefore, this site is suitable for residential development and can be allocated as such in the Local Plan.</p>

close proximity to a range of sustainable transport modes. Providing dwellings in such locations encourages connectivity to, from and within the Borough.

The approach is not deliverable. The preferred option for land uses at site A400 should be reviewed to ensure the optimum development potential and the accumulative social, economic and environmental benefits for the site, vicinity and Borough are achieved. How identifying the site's preferred option of residential uses can deliver this is demonstrated in greater detail in the attachment to this representation form.

The preferred approach does not encourage sustainable development. As identified in greater detail within the attachment to this response, allocating site A400's preferred land use option as a continuation of the existing use does not capitalise on the opportunities for sustainable development. The site is capable of accommodating a range of residential housing types, is ideally located to sustainable transport options, and (given the availability of alternative sites for the warehousing and community facility, and the expectant release of industrial land within the Borough) would not necessitate a loss of employment land or community uses. Consideration should also be given to the revitalisation and projection of a sense of place new housing could give to the urban design and built environment. The provision of new housing would meet the needs of future generations and contribute to fulfilling the Borough's housing requirements.

Day Lewis House's current use is a large office/ industrial building. Prior approval has been granted for the conversion of the 2nd and 3rd floors from B1 (office) use to C3 (residential) uses. The 1st floor comprises B1 office uses with the exception of a small unit, which is leased to a church user at the moment. The ground floor use is occupied by a warehousing.

Prior Approval (14/01005/GPDO) was granted on 16/05/2014 for the conversion of the site's offices to houses to provide 14 two bedroom and 4 one bedroom flats on the second and third floors.

Council's reasoning for not including the site as a preferred option advised that:

1) 'The site is operational as an employment site and there is a

presumption against non-employment uses; and  
2) The site is an operational community facility and there is a presumption against non-community uses'.

Part 1) of this reasoning should be viewed with regard to paragraph 22 of the NPPF, which requires planning policies to avoid the long term protection of sites allocated for employment uses where there is no reasonable expectation of the continued use for that purpose, and that land allocations should be regularly reviewed.

The London Borough of Croydon's Employment Land Review Update 2013 identifies this type of site as being a 'small pocket of unallocated local market employment land', catering for the needs of small to medium sized business requiring warehousing. The Review projected the land demand for such uses within the Borough to be broadly balanced with supply.

Additionally The Land for Industry and Transport SPG advises that although Croydon is a 'Restricted Transfer' Borough, meaning that despite there being a relatively low level of industrial land, the possibility of small scale releases is not precluded.

A property search identified a number of currently vacant industrial sites within Croydon to which the use could be relocated.

The continuation of the warehouse use would exacerbate the detrimental impact the existing development has on the urban fabric and street's functionality. Indeed, the development of the site would dramatically revitalise the appearance and viability of the streetscape, in which a high standard of urban design can be provided to engage the street, replacing the current hardstand parking, dominating façade and traffic confusion associated with the egress and access of heavy vehicles associated with the use.

The loss of the community facility identified in point 2) is a reference to the RWR Church operating in a single small unit of the six located on the first floor. The Church has been semioperational since 2011. Its D1 use is not a lawful use; and the conversion of offices to places of worship is not permitted under use class orders. Its operational purpose within the existing building was to occupy vacant space. It was not

intended as a long term use.

In considering that this use commenced unlawfully, is not a permanent use and does not fall within Council's use description of the site; restricting the redevelopment for residential uses on the basis community facilities would be lost would be onerous in this instance.

Consideration is additionally given to the appropriateness of this use and impacts of noise, music and traffic movements associated with the worshippers on the occupiers of the future residential uses permitted at the second and third floors. Reference is made to the Black Sheep Bar, Croydon which closed in recognition of being in the wrong location following the evolution of its surrounds and conversions of adjoining uses to residential development.

Dialogue has recently been established with council (in the form of two pre-application meetings held on 01/04/15 and 02/08/15) in which the redevelopment of the site to permit a purely residential scheme was discussed. The initial response received from Council's Place Making Officer over whether the existing uses should be replaced with residential dwellings has been positive.

Appendix 1 of the Croydon Local Plan: Detailed Policies and Proposals (Preferred and Alternative Options) identifies the basic criteria in assessing each site as being preferable for residential uses. Below each criterion is a response as to how the subject site demonstrates it is ideally suited for residential uses.

a. Is the site big enough for 10 or more new homes?  
The site has a total area of 0.25ha. This would permit in excess of 10 homes. Given the size of the site it is considered that there is also sufficient capacity to accommodate a range of units including 3 bedroom dwellings (which are preferred for sustainable development under Policy DM 1 of the Croydon Local Plan: Detailed Policies and Proposals (Preferred and Alternative Options). Furthermore the site is ideally located for residential development, being within close proximity to a range sustainable transport modes, services, commercial premises and job opportunities. The site's orientation will not necessitate an unreasonable loss of solar access or loss of privacy on the adjoining sites were residential uses to be

developed.

b. Are there any existing or proposed policy constraints that would prevent the development of the site altogether?

There are no current policies specifically relevant to the site that would prevent future residential development. However the construction of residential developments on the site would fulfil the relevant national and local policies. The objectives of the NPPF in relation to sustainable development is outlined above. It is considered that the location of the site would adequately uphold these objectives, while the allocation of residential uses would demonstrate compliance with paragraph 151 of the NPPF to encourage sustainable development through plan making. The Housing and Planning Bill 2015-2016 is targeted to be adopted in April 2016. One of the primary objectives of The Draft Bill is to provide Starter Homes for first time buyers. Potential development of the site would facilitate an opportunity for LB Croydon to meet any future starter home requirements likely to be directed from Central Government following the gazettal of The Bill.

c. Is the existing land use protected from development unless certain criteria are met (such as demonstrating lack of demand for an industrial premises or community use);

A property search has identified a number of vacant alternative industrial sites within the Borough, while a practicing church is located next door to the site. This demonstrates an adequate supply of alternative locations for these uses, and that the development of residential uses would not necessitate their loss.

d. Are there any factors that would prevent the site being developed (such as legal covenants or viability issues)

Associated factors which have the potential to affect the development of the site are assessed below:

- Sustainability: The site is located on brownfield land. The location of the site allows easy access to public transport links including the rail stations at Thornton Heath and Selhurst. The location is prime for residential uses and would encourage strengthened economic development.

- Flooding: The site falls outside of any associated flood zones.

- Topography: The site is relatively flat. This permits opportunities for

innovative designs including the potential introduction of defensible space and an upgrade of the Bensham Lane streetscape.  
 - Trees/Vegetation: There are no mature trees on the site. However there is opportunity for future development to introduce planting within the Bensham Lane frontage, upgrading the existing character of the streetscape.  
 - Community: The site is capable of accommodating the level of growth anticipated for Thornton Heath. Associated Section 106 Agreements and Affordable Housing will be included as part of development applications.

e. Could better use be made of the site for another use such as a new school based on the criteria in the following paragraphs?  
 Although Appendix 2 of the Croydon Local Plan: Detailed Policies and Proposals (Preferred and Alternative Options) has identified the north west of the borough as an area in need of primary school classrooms, Ecclesbourne Primary School is located just 300m from the site, while the preferred option for No.843 London Road 700m to the west is additionally identified as a primary school use.

1949/01/025/DM47.2/C	Beth Havelock <i>Transport for London</i>	Comment	DM47.2	TfL is considering the options for improvements to Five Ways. TfL will work with the Council to provide updates on the project and ensure the plans are correctly reflected within the Local Plan.	The Plan should be updated to reflect the improvements to Five Ways.	No change	Improvements to Fiveways are included in the Croydon Local Plan: Strategic Policies (Partial Review).
----------------------	--	---------	--------	--	--	-----------	---

It should be noted, that our client was surprised to see the proposed allocation in the current consultation document. In the era of Localism, engaging with the landowner on the options for future redevelopment would have been expected. Paragraph 155 requires authorities to have early and meaningful engagement with a variety of bodies, including business; the site is occupied by a well-established business and the Council has not sought to establish whether the owner and/or the business has any intentions regarding the sites future within the plan period that makes an allocation deliverable. Moving forward however, the Trust welcomes the opportunity for discussions with the Council regarding any potential allocation.

The garden centre has been put forward as part of these site allocations. The proposed allocation promotes the site for a secondary school to come forward for development between 2021 and 2026, the second phase of development in the emerging local plan. The site is considered by the Council to be of a suitable size for a secondary school albeit at this stage no consideration has been given as to how the listed diving board might impact the design of a new secondary school, given the requirements of national guidance and other plan policies. The supporting sustainability appraisal recommends that the site requires public transport improvements as part of the development to mitigate against the current low public transport accessibility rating.

The Trust does not consider this is a suitable or appropriate allocation for the site which is currently occupied by a successfully trading business; namely the garden centre. Nor has the supporting evidence base been sufficiently provided to justify the allocation in addition to the sites location on the edge of the urban area, its geographical relationship to its potential catchment area. These matters are considered below.

A number of evidence base documents support the emerging Local Plan Part 2. Of note for this site is the Education Evidence Base (September 2015). This provides a vague and preliminary assessment of the anticipated pupil place projections for Croydon. Within this document it is stated that the Borough will need sites to deliver additional school places (at secondary level) in between 2018/19 and 2023/24, which will coincide with the expected

In summary and for the reasons set out above, the Trust objects to the emerging allocation (Site 11) and requests the site should not be allocated for educational purposes. The site is not located in a suitable location for a school, nor does it have the transport infrastructure in place to accommodate delivery. Furthermore, the site is not considered to be a sufficient in size to accommodate a secondary school of the size required and identified in the evidence base document. All of these factors make the site unsustainable in terms of the guidance set out in the NPPF and therefore 'unsound' when factored against the relevant tests for policies and allocations.

I would be grateful if we as agents for the Trust can be kept up-to-date on the process of consideration of these representations, and would also welcome engagement with the Council regarding the options for the site's redevelopment.

Change

There is no willing landowner to bring this site forward as a secondary school. As it has been identified as being undeliverable the allocation for a secondary school has not been taken forward.

deliverability of the site between 2021 and 2026. Borough wide, up to 24 FE are required to be provided by 2022 in the possible configurations of:

- 2 new 8FE and 1 new 6FE school;
- or,
- 4 new 6FE schools

We do not consider the current Education Evidence Base to sufficiently support the allocation. It does not assess site suitability, or approach the assessment of sites for secondary schools. Therefore, there is no assessment of the site nor is there an assessment of other suitable sites. As part of the supporting evidence base, we would expect to see a full site assessment alongside the other preferred or alternative options to ensure that the allocation meets the Soundness Tests of the NPPF, that the allocation and policy is justified. In addition, the projected pupil places has been presented within this document, however there is no evidence presented which details the specific calculations and methodology employed to reach these assumptions in terms of housing and population growth.

Secondly, the Trust questions the suitability of the site for redevelopment as a secondary school and the size of school required. The site is located in a mixed use area, which has a wide range of uses including, retail, leisure and commercial which the current garden centre use complements.

The Department for Education Guidance identifies for a secondary school (11-16 years) the minimum guidance size for a school building as 1050sqm + 6.3sqm per pupil. Based on average school class capacity of 30 pupils and for an average 6 form entry school this equates to approximately 900 pupils. A school of this size would require a building of approximately 7,000sqm, which at one storey would cover the vast majority of the site. Even if a 2-storey school was proposed, there would still be a requirement for external space such as playing fields and associated car parking and servicing. Considering that the development of the site will also need to accommodate the listed structure, and ensure that any proposals preserve and enhance the setting of the listed structure, it is too small to accommodate such development unless the school's design and facilities are to be compromised.

The site presently, has a PTAL rating of 1b which equates to a low accessibility rating. As outlined in the

Sustainability Appraisal  
 transportation improvements are required prior to the site being redeveloped for educational purposes to make the site suitable and accessible. The delivery of these improvements falls to third parties and cannot at this time be guaranteed to ensure the delivery of the school. Moreover, the required improvements to public transport access cannot be funded by a school in the same way as a major development scheme might be expected to do so.

The NPPF places a presumption in favour of sustainable development, but when you look at the location of the site in the context of its catchment area, it is not in a location where you could expect that alternative forms of transport could overcome the lack of public transport. Links to the adjoining residential areas are limited and where walking to the site was an option, the overall proportion of students likely to be within a reasonable walking distance would be small. There can therefore be an expectation that mechanical transport will dominate.

It is therefore considered that the lack of accessibility undermines the deliverability of the site for education purposes.

2629/01/004/DM47.2/S	Jamie McFarland <i>Education Funding Agency</i>	Support	DM47.2 11	The Education Funding Agency has approved 3 new Free Schools currently looking for sites within Croydon. This site has been identified as being potentially suitable options for the permanent location of the Ark Croydon Secondary Academy. We would welcome the opportunity to work with Croydon Council and the respective trust to make these sites available options for these schools.	Welcome support
2634/01/003/DM47.2/S	Charlie Fagan <i>ARK</i>	Support	DM47.2 11	We are confident that a successful secondary school could be developed on this site. - The site is situated in an area which has been identified as requiring additional secondary pupil places in the coming years - The site is a suitable size to accommodate the development of a secondary school - The site is located in an area which meets the demographic criteria for Ark schools - The site is located near Ark Oval Primary Academy and would therefore create an opportunity to establish a link between the two schools.	Welcome support

Residential development if the site is not required for a school by 2021 I am currently applying through Croydon for a free school, the proposed name for the school is MADE academy.  
MADE academy will like to express interest in the site mentioned in section 1. We aim to provide a creative and robust curriculum.  
My question is;  
Will the borough need another school before the dates suggested on the sites?  
Will there be negotiations on the intake size, such as five form entry instead of an eight form entry for the suggested school?

MADE academy will like to express interest in the site mentioned in section 1. We aim to provide a creative and robust curriculum.  
My question is;  
Will the borough need another school before the dates suggested on the sites?  
Will there be negotiations on the intake size, such as five form entry instead of an eight form entry for the suggested school?

Change

The allocation for a school is not being taken forward as it has been identified as not being deliverable.

2622/01/001/DM47.2/S	Frances Wadsworth <i>Croydon College</i>	Support	Soundness - Justified	DM47.2 16	<p>Croydon College is the freehold owner of the site, Title number: SGL 618428. The site is cleared and available for development immediately. Access to the site will hopefully be improved as part, or as a consequence, of the proposed Fiveways junction improvements recently approved by the Council. We believe the site is well suited, given its location, access and surrounding uses, for an extension of the housing development previously granted. We believe that issues related to access and the current designation could be dealt with to free up a very suitable housing site.</p> <p>The College has previously considered the development of a feeder school, either on this site, near its main campus in Fair Field, or elsewhere in the borough, but we are able to confirm that the Heath Clark site is not required by the College for school use and will not be in the future. The College therefore believes that sustainable housing provision should be delivered on this site.</p> <p>Croydon College owns the site freehold and there are no restrictions on its development. It is a cleared, open site. The northern part of the site was developed by Bellway Homes in 1999 and existing access roads can potentially be opened up to service the remainder of the site. The nursery could be relocated within a high density residential led scheme with some community and commercial elements.</p> <p>Access and local open space designations need to be addressed, but the Sustainability Appraisal recommends any loss of open space is mitigated by much needed development.</p> <p>The site is sustainably located, in an urban location with excellent transport links. The proposed improvements to the Fiveways junction will add to the PTAL rating of the site.</p> <p>The site is not restricted by surrounding uses or topography, and a fully sustainable scheme could be developed without risk of high cost. We believe the site is highly suited to sustainable building technologies and amenity spaces.</p> <p>Croydon College is very supportive of the concept of housing development on this site and has made previous representations to this effect, including the call for sites refresh in April 2014. The College can confirm it does not need the site for educational purposes, and in discussions with the Council over recent years, believes that it may be a more sustainable location for housing.</p>	No change	The support for housing is welcome. However, the site will remain allocated for mixed use as a secondary school is required to meet the identified need in the borough.
----------------------	---	---------	--------------------------	--------------	--	-----------	---

The College believes that sustainable housing development in the Borough is extremely important and welcomes the number and quality of sites that are identified by the Council in these documents.

2634/01/006/DM47.2/C	Charlie Fagan ARK	Comment		DM47.2 16	This site would not be suitable for Ark due to being a mixed development.		No change	Comment is noted.
2657/01/008/DM47.2/O	Rebecca Pullinger CPRE London	Object	Soundness - Justified	DM47.2 16	A large number of the sites allocated for development through Detailed Policies and Proposals may result in the loss of green space. This appears to run counter to the Borough's Strategic Objective 10 (The need to utilise brownfield areas first) and could be replaced with a goal to promote good quality high density developments that protect Croydon's green spaces. Even undesignated green spaces provide important ecosystem services to Croydon's growing population. We are concerned about the potential loss of designated Local Open Land.	The Council should provide additional text in these policies to encourage developers to propose good quality, high density developments which promote the protection and enhancement of green space.	No change	The site did not meet the criteria for Local Green Space and is considered appropriate for a mixed use development.
2818/01/002/DM47.2/S	Keisha John	Support		DM47.2 16	I am currently applying through Croydon for a free school, the proposed name for the school is MADE academy. 2177/01/031/DM47.2/C Miss Vanessa Garner  
Network Rail Infrastructure Limited

Comment Soundness - DM47.2  
Effective 25

Network Rail notes that there are a number of sites adjacent to the Railway and attach a standard response which sets out the issues that need to be considered. In particular with large new developments there is a concern about the risk of trespass and all new developments should have proper and suitable boundary fencing. The risk of greater flooding and drainage that new developments could potentially have on the Network Rail infrastructure and we would not want any increase of flooding or the increase in run off onto Railway Infrastructure.

No change

Any development proposals for the site would be subject to consultation and Network Rail would be consulted as required

The developer must ensure that their proposal, both during construction and after completion of works on site, does not:

- encroach onto Network Rail land
- affect the safety, operation or integrity of the company's railway and its infrastructure
- undermine its support zone
- damage the company's infrastructure
- place additional load on cuttings
- adversely affect any railway land or structure
- over-sail or encroach upon the air-space of any Network Rail land
- cause to obstruct or interfere with any works or proposed works or Network Rail development both now and in the future

The developer should comply with the following comments and requirements for the safe operation of the railway and the protection of Network Rail's adjoining land.

Future maintenance  
The development must ensure any future maintenance can be conducted solely on the applicant's land. The applicant must ensure that any construction and any subsequent maintenance can be carried out to any proposed buildings or structures without adversely affecting the safety of, or encroaching upon Network Rail's adjacent land and air-space, and therefore all/any building should be situated at least 2 metres (3m for overhead lines and third rail) from Network Rail's boundary. The reason for the 2m (3m for overhead lines and third rail) stand off requirement is to allow for construction and future maintenance of a building and without requirement for access to the operational railway environment which may not necessarily be granted or if granted subject to railway site safety requirements and special provisions with all associated railway costs charged to the

applicant. Any less than 2m (3m for overhead lines and third rail) and there is a strong possibility that the applicant (and any future resident) will need to utilise Network Rail land and air-space to facilitate works. The applicant / resident would need to receive approval for such works from the Network Rail Asset Protection Engineer, the applicant / resident would need to submit the request at least 20 weeks before any works were due to commence on site and they would be liable for all costs (e.g. all possession costs, all site safety costs, all asset protection presence costs). However, Network Rail is not required to grant permission for any third party access to its land. No structure/building should be built hard-against Network Rail's boundary as in this case there is an even higher probability of access to Network Rail land being required to undertake any construction / maintenance works. Equally any structure/building erected hard against the boundary with Network Rail will impact adversely upon our maintenance teams' ability to maintain our boundary fencing and boundary treatments.

#### Drainage

Storm/surface water must not be discharged onto Network Rail's property or into Network Rail's culverts or drains except by agreement with Network Rail. Suitable drainage or other works must be provided and maintained by the Developer to prevent surface water flows or run-off onto Network Rail's property. Proper provision must be made to accept and continue drainage discharging from Network Rail's property; full details to be submitted for approval to the Network Rail Asset Protection Engineer. Suitable foul drainage must be provided separate from Network Rail's existing drainage. Soakaways, as a means of storm/surface water disposal must not be constructed near/within 10 – 20 metres of Network Rail's boundary or at any point which could adversely affect the stability of Network Rail's property. After the completion and occupation of the development, any new or exacerbated problems attributable to the new development shall be investigated and remedied at the applicants' expense.

#### Plant & Materials

All operations, including the use of cranes or other mechanical plant working adjacent to Network Rail's property, must at all times be carried out in a "fail safe" manner such that in the event of mishandling, collapse or failure, no plant or materials are

capable of falling within 3.0m of the boundary with Network Rail.

#### Scaffolding

Any scaffold which is to be constructed within 10 metres of the railway boundary fence must be erected in such a manner that at no time will any poles over-sail the railway and protective netting around such scaffold must be installed. The applicant/applicant's contractor must consider if they can undertake the works and associated scaffold/access for working at height within the footprint of their property boundary.

#### Piling

Where vibro-compaction/displacement piling plant is to be used in development, details of the use of such machinery and a method statement should be submitted for the approval of the Network Rail's Asset Protection Engineer prior to the commencement of works and the works shall only be carried out in accordance with the approved method statement.

#### Fencing

In view of the nature of the development, it is essential that the developer provide (at their own expense) and thereafter maintain a substantial, trespass proof fence along the development side of the existing boundary fence, to a minimum height of 1.8 metres. The 1.8m fencing should be adjacent to the railway boundary and the developer/applicant should make provision for its future maintenance and renewal without encroachment upon Network Rail land. Network Rail's existing fencing / wall must not be removed or damaged and at no point either during construction or after works are completed on site should the foundations of the fencing or wall or any embankment therein, be damaged, undermined or compromised in any way. Any vegetation on Network Rail land and within Network Rail's boundary must also not be disturbed. Any fencing installed by the applicant must not prevent Network Rail from maintaining its own fencing/boundary treatment.

#### Lighting

Any lighting associated with the development (including vehicle lights) must not interfere with the sighting of signalling apparatus and/or train drivers vision on approaching trains. The location and colour of lights must not give rise to the potential for confusion with the signalling

arrangements on the railway. The developers should obtain Network Rail's Asset Protection Engineer's approval of their detailed proposals regarding lighting.

**Noise and Vibration**  
The potential for any noise/ vibration impacts caused by the proximity between the proposed development and any existing railway must be assessed in the context of the National Planning Policy Framework which hold relevant national guidance information. The current level of usage may be subject to change at any time without notification including increased frequency of trains, night time train running and heavy freight trains.

**Vehicle Incursion**  
Where a proposal calls for hard standing area / parking of vehicles area near the boundary with the operational railway, Network Rail would recommend the installation of a highways approved vehicle incursion barrier or high kerbs to prevent vehicles accidentally driving or rolling onto the railway or damaging lineside fencing.

Network Rail strongly recommends the developer contacts [AssetProtectionsSussex@networkrail.co.uk](mailto:AssetProtectionsSussex@networkrail.co.uk) prior to any works commencing on site, and also to agree an Asset Protection Agreement with us to enable approval of detailed works. More information can also be obtained from our website at [www.networkrail.co.uk/asp/1538.aspx](http://www.networkrail.co.uk/asp/1538.aspx).

2845/01/001/DM47.2/O	UK Land Assets Ltd	Object		DM47.2 301	The allocation of the site for development is supported, but the requirement for community use (in addition to residential use) is opposed. In this regard, UK Land Assets (UKLA) own the land and purchased it after the marketing agents had undertaken soft marketing of the site to community organisations. This marketing exercise failed to attract a suitable community organisation and accordingly, UKLA purchased the site in good faith on the assumption that the land could be redeveloped for a mixture of open market and affordable housing. The site is considered to be ideally suited to open market and affordable housing and therefore the preferred approach would be most appropriate for Croydon if the site were allocated for (open market and affordable) residential development only. Redevelopment of the site is deliverable, but if the site must be delivered for both residential and community use, the amount of affordable housing will not be maximised. If community use is required, the level of affordable housing that can be delivered will significantly decrease, resulting in a less sustainable development.	Change	A need has been identified for additional housing sites in Croydon and the site allocated meets the criteria. The loss of the community use on this site has recently been justified by evidence provided as part of the recent planning approval (reference 16/00879/P) which has given planning approval for the erection of a part four/five/six storey, building to provide 19 one bedroom, 17 two bedroom 6 three bedroom and 6 studio flats.

2708/01/002/DM47.2/O	<i>Sainsbury's Supermarkets Ltd</i>	Object		DM47.2 355	Object to proposed allocation . It should be amended to supports retention of supermarket or mixed use retaining the store	Object to proposed allocation . It should be amended to supports retention of supermarket or mixed use retaining the store	No change	The allocation was incorrectly named with the wrong map and did not in fact include Sainsburys but rather an adjacent site.
2844/01/001/DM47.2/O	<i>Henderson Global Investors</i>	Object		DM47.2 48	The site is part of a well-trading and established retail area. Whilst the opportunity for residential would help the council meet housing strategic objectives we feel that this is less appropriate for the site than an approach offering an improvement and enhancement of the retail offer. Furthermore, commercial space located in Croydon centre (i.e. not on the 294-330 Purley Way site) would be more appropriate in helping the Council meet their Strategic Objectives We feel that a mix of retail, commercial and residential would not be deliverable since commercial tenants are seeking accommodation in Croydon centre rather than out of town and the values in residential accommodation would not be attractive enough in a strong-trading and established retail area.	We consider that the site and surrounding areas would benefit more from an improved and enhanced retail offer since the area is already established as such.	No change	The site has been allocated for a mixed development of residential, retail commercial and community/health uses. The Council acknowledges that a balance needs to be struck between this need and the impact that additional site has on the environment and nearby residents

<i>Ref No</i>	<i>Representor Company or Organisation</i>	<i>Participation at EIP</i>	<i>Object or Support</i>	<i>Soundness</i>	<i>Policy, Site or Paragraph</i>	<i>Summary of Representation</i>	<i>Summary of Proposed Changes</i>	<i>Council's Response</i>	<i>Council's Proposed Action</i>
0203/01/028//C	Mr Charles King <i>East Coulsdon Residents' Associat</i>		Comment			Studies undertaken by McCarthy Stone and others have shown that where older people are forced to move more than a few miles from existing homes, friends and relatives, their quality of life is reduced and they become more isolated and more dependent on social services. To reduce the problem it is best to provide a mixture of housing including retirement homes in every community. The Cane Hill and the Town Centre redevelopments provide an opportunity to provide retirement homes in the Town Centre near to shops, doctors and public transport.	Developments in Coulsdon should provide retirement homes.	Change	The policy states that where there is an identified need within the borough, planning permission for residential care homes will be granted. This would not require residents of the borough to move away from the area to acquire this type of accommodation. The policy has been amended and welcomes supported living schemes in the borough.
1610/02/002//C	Mr Sean Creighton <i>Norbury Residents Association Joi</i>		Comment	Soundness - Effective		Non-housing use of former housing stock  6. Why is there no policy and proposals designed to encourage the return of property originally built as housing currently in office and service use with proposals to encourage and/or assist business owners to move into office and service buildings?		No change	Buildings that were originally constructed as dwellinghouses and are now occupied as offices would have, in most circumstances been subject to applications for changes of use. This means that that lawful use of such buildings are for office space and would therefore require a further change of use application to be submitted.
1610/01/006/Non-specific/C	Mr Sean Creighton <i>Norbury Residents Association Joi</i>		Comment			There is overcrowding in rented homes. This can be seen from the overflowing bins outside some properties, which can also be a sign that these properties are overcrowded. Landlords and their tenants should be compelled to keep clean and tidy their front gardens and the pavement outside their properties.  More family housing is needed. There are too many rental properties and properties turned into flats. The new flats and apartments will need car parking spaces.  There should be a homeless food project with unsold food being collected from Iceland. Lidl and other stores.		No change	The issues of overcrowding or fly tipping are not matters that can be considered through the Local Plan process. Similarly, the suggestion to establish a homeless food project is not something which can be carried out through the planning process.  The Local Plan has within it, policies which seek to provide a choice of housing (including affordable housing) of different sizes. However, the planning system cannot determine if these homes will be rental properties or not.

2839/01/023/Non-specific/O	Cllr Yvette Hopley <i>London Borough of Croydon</i>	Object	Soundness - Effective	Support assisted living and believe that planning policy should tie in with our over 65's commissioning. Keeping older people independent and safe in their own environment without having to keep our elderly in care homes should be a priority. Don't see this in the strategy.	Change	Policy SP2: Homes of the Croydon Local Plan: Strategic Policies seeks to provide a choice of housing for people in socially-balanced and inclusive communities. This policy also makes provision for meeting the borough's need for affordable housing and homes of different sizes. Furthermore, policy DM1 requires that there is a minimum percentage of three bedroom or larger units on sites with ten or more dwellings as set out in Table 4.1 to ensure there is adequate provision of a mix of housing types to satisfy demand. Policy DM3 has been amended and welcomes supported living schemes in the borough.

1956/04/008/4.012/O	Kevin Smith <i>Croydon TUC</i>	Object		4.012	The discussion in Detailed Policies and Proposals para 4.12 seems to mean that if families are allocated two bedrooms one bedroom each for 2 adults and one for 2 children, then the living space for them is going to be the same as for one adult and one child. i.e. much more cramped. Problems with occur when two children of opposite sexes require to have separate bedrooms. Small will continue to be cramped making undertaking homework at home difficult. Such families will find it difficult to transfer to a property with an extra bedroom. This is totally unacceptable. The Council's argument allows developers to argue against providing the larger family sized homes and weakens the Council's negotiating position. Developers should be under pressure to meet the Council's housing objectives to meet locally generated housing needs. The proposed flexibility is contrary to the Council's policy of life-time housing and recognising the changing needs of families as their children grow the Council should require that each child should have their own bedroom.	This paragraph should be deleted.	No change	The policy aims to provide a mix of housing to meet demand. The planning process cannot require that residents vacate a home where a family has out-grown it, but does allow for the provision of a mix of homes to achieve socially-balanced and inclusive communities. To clarify the intention of the policy, this paragraph is redrafted to remove the reference to family homes and now refers to homes more generally.
1956/04/009/4.013/S	Kevin Smith <i>Croydon TUC</i>	Support	Soundness - Justified	4.013	In paras 4.13 and 4.14 the Council spells out some useful detail on the policy to prevent conversions of larger homes.  Given the need for three bedroom plus homes in the Borough, the principle of resisting the conversion of larger houses is supported.		Welcome support	
1956/04/011/4.013/C	Kevin Smith <i>Croydon TUC</i>	Comment	Soundness - Effective	4.013	It is not clear that the basis for the proposed 130m2 internal area in para 4.13?	Could the internal area size figure be larger?	No change	The Replacement Unitary Development Plan (2006) which the Croydon Local Plan: Strategic Policies and the Detailed Policies and Proposals replace; included a policy which protected small family houses. This has been carried through into the Detailed Policies and Proposals document to ensure that there is no loss of smaller units. The figure of 130m2 is considered a reasonably sized 3-4 bedroom property.
0203/03/035/4.014/S	Mr Charles King <i>East Coulsdon Residents' Associat</i>	Support		4.014	Room sizes: We support the larger size rooms for new housing set out in the Mayor's Standards for room sizes in the London plan.		Welcome support	

0320/01/002/4.014/O	Mr Tarsem Flora <i>Flora Associates</i>	Object		4.014	<p>Para 4.14 states that "Gross Internal Area must comply with the National Technical housing stds. This being so, why has the council allowed under, permitted development of office conversion in Croydon to be seriously below any space standard requirements including those set by the Mayor of London ?</p> <p>We have also noted that rear single storey extensions to houses under permitted development are carried out to very 'poor design standards' Hopefully the council will look into this and refine it's strategy.</p>	No change	The National Technical Standards and the London Plan room standards do not apply to office conversions to residential use granted under Permitted Development Orders.
1956/04/010/4.014/S	Kevin Smith <i>Croydon TUC</i>	Support	Soundness - Justified	4.014	<p>In paras 4.13 and 4.14 the Council spells out some useful detail on the policy to prevent conversions of larger homes.</p> <p>Given the need for three bedroom plus homes in the Borough, the principle of resisting the conversion of larger houses is supported.</p>	Welcome support

4.020

This statement would only be possible if there were spare capacity in any defined area which would then allow further residential development in that area. The current infrastructure is already having difficulty coping with current population. In our area, schools are oversubscribed, possibly GP surgeries oversubscribed, the major roads are congested; therefore it would not be appropriate to allow any development proposals in the area until the school places etc. were available for any increase in population. Thus any further residential development or garden development in the area should be rejected. The definition of 'Infrastructure' is: The fundamental facilities and systems serving a country, city, or area, as transportation and communication systems, power plants, and Schools and GP surgeries etc. Thus any proposed development should, in its Design and Access statement, ensure that the services and infrastructure requirements of that proposed development is already available as spare capacity before the proposed development can by this definition, be approved. Data should be made available to potential developers:

- School places availability lists (each level, Primary, Junior, Senior)
- GP Practices availability lists
- Health Services usage rate as % of population
- Usage rate for A&E services as % of population rate
- Usage of public transport as a % of population rate
- Road capacity – number of additional vehicles – congestion periods
- Water Supply capacity
- Electricity supply capacity
- Gas supply capacity
- Sewage provision
- Major road capacity

New development, including backland development, should only be permitted if the impact on infrastructure has been assessed as part of the Design and Access Statement. Data on infrastructure should be made available to developers.

No change

The Infrastructure Delivery Plan for the borough sets out the infrastructure requirements to serve the area. This document is an evidence base to the Croydon Local Plan. Where there is a proposal for development and an identified deficit of service provision within the area, an infrastructure levy is required to be paid to contribute towards delivery of infrastructure upon the grant of planning permission to ensure that the development does not put undue pressure on the existing infrastructure. In other instances a grant of planning permission can be subject to a section 106 contribution.

4.023

Paragraph 4.23 is an inadequate definition. The presumption is against back garden or garden development. This policy statement assumes it is acceptable for 'Back Garden Development' as it is providing parameters by which it would be considered as acceptable. The proposed definition allows inconsistency between requirement for distance between facing windows and a requirement for adequate amenity space for the new development. Also other aspects of overlooking and privacy with adjacent properties should be specified. The policy as stated in para 4.23 could allow either no amenity space at the rear/front garden of the new dwelling (whichever way the new dwelling is actually facing). If the proposed new dwelling is at the bottom of the host rear garden and the distance between facing windows (host to new) were at a minimum of 18m (minimum requirement between facing windows) and the space between the existing dwelling and the subdivided new boundary was 10m (as specified in 4.23) then this would allow the amenity space for the new structure to be only 8m deep- not acceptable! The amenity space between the rear of the new dwelling to the rear boundary could be zero if the existing dwelling, backing onto the property, had facing windows of greater than 18m from those windows in an adjacent dwelling at the rear of the new dwelling. This could mean that, whichever way the new structure is facing, it could have zero amenity space at either the front or rear depending upon its configuration. The proposed policy is detrimental to the amenity of future generations to meet their amenity requirements based upon the design of the host dwellings and the character of the area. The proposed policy would have detrimental implications to the character of an area by reason of overdevelopment compared to the surrounding properties. The proposed policies, if adopted, would allow precedents to be set in a location which once one back garden development were to be allowed, would allow other back garden developments within the area to be built upon, resulting in a gradual degradation of the localities amenity and character. This was the reason why the instruction to chief planners in 2010 was to stop garden grabbing. Allows gradual overcrowding, increased housing and residential density of an area. Planning Officers and the Planning Committee have ignored similar

The policy should set more detailed requirements for the minimum amenity areas for both the host and new dwellings. The minimum distance from facing windows should be at least 21m so that each amenity space is allowed an equal 10.5m equivalent amenity length, irrespective of the width of the plots.

Change

Policy DM2 has been changed as follows:  
The Council will only permit new dwellings or other development within the curtilage or garden of an existing dwelling or the redevelopment of existing dwellings and their curtilage or gardens where:  
a) It is in keeping with and subservient to the original dwelling and the surrounding character of the area; and  
b) A minimum length of 10m and no less than ½ of the existing garden area is retained after the subdivision of the garden of the original dwelling; and  
c) There would not be a detrimental impact on existing and future occupants in terms of overlooking and outlook

All development proposals are considered against all relevant policies of the Local Plan (which include policy DM10: Design and Character).  
Furthermore, the reasoned justification for the policy makes clear that there is no longer a presumption against back garden development. Rather, the London Plan states that borough's may introduce a presumption against development on back gardens where this can be locally justified.

reasons for preventing back- garden development in the past so how would these new proposals make any difference. It would in fact allow more back-garden developments- is that the objective? If so it is unnecessary as Croydon does not need back garden developments to meet their housing targets! If the presumption is against Back Garden Development, any reasoning for invalidating or circumventing this presumption requires specific definitions. The requirement should define the minimum amenity area in hectares to be provided for host and new dwellings- possibly based upon an allocation for the number of occupants for the host dwelling (i.e habitable rooms). It should also include the allowable residential density (hr/ha) and housing unit density (u/ha) requirements for any back garden development with respect to the curtilage of the original host dwelling area in relation to the area (ha) of the host dwelling and the new curtilages. These should be based on the residential and housing densities of surrounding properties. i.e. the area defined by all adjacent abutting properties summation of curtilages and the number of dwellings to give a housing density figure for the area in (u/ha). The minimum distance from facing windows should be at least 21m so that each amenity space is allowed an equal 10.5m equivalent amenity length, irrespective of the width of the plots. Checks should be made with the London Plan density matrix in relation to 'settings' and 'PTAL' for any back garden development proposal to ensure the proposed development, including the host dwelling still meets the residential and housing density requirements for its respective locality. Separate Access arrangements and requirements appropriate to a new development proposal; define the minimum access arrangement requirements. Car parking access and turning head arrangements such that it is possible to enter and exit in forward gear. If space is not provided for car parking (off road) then the development should not be allowed. If the definitions are not specified in sufficient detail, the planning officers and planning committee members can, and do, make subjective judgements which can allow inappropriate developments to be approved and appropriate developments to be refused.

2764/04/001/4.026/O	Mr Derek Ritson <i>Monks Orchard Residents Associa</i>	Object	4.026	Parts of the paragraph should be emphasised within the policy including 'part of wildlife corridors or adjoin local open space in the borough and provide valuable habitats. By developing on garden land this must result in loss of valuable habitats and therefore this statement supports the presumption against development on garden land.	The policy should be amended to protect valuable habitats and support the presumptions against development on garden land.	No change	Within the Plan there is a specific policy that refers to biodiversity (DM25). The Plan should be read as a whole, and in the determination of a planning application, all relevant policies must be applied.
2764/17/001/4.027/O	Mr Derek Ritson <i>Monks Orchard Residents Associa</i>	Object	4.027	There is already a presumption against development on garden land so what criteria will the council require in order to request the provision of an ecology report? What evidence would be required to convince the LPA of the need for an ecology report to be provided and why only "within the curtilage of a dwelling?". Criteria needs to be specified when an ecology report would be required.	The policy should set out the requirement for when an ecology report is required.	No change	DM25 relates to biodiversity and has been amended to make clear where the Council will require an ecological assessment.
2766/01/006/4.027/C	B Wilson <i>W.R. Newland and Sons Ltd</i>	Comment	4.027	Independent verification of ecological assessments should not be required if they are prepared by a suitably qualified person or company. An applicant should also not have to pay for this. The NPPF is clear that applicants should not be overburdened by the requirements of planning policy or obligations.		No change	In order to adequately assess any ecological assessment carried out by consultants on behalf of the applicant, the Council will have the assessment verified independently. This is an added expense on the Council that is not covered by the planning fee.

2764/05/001/4.028/O

Mr Derek Ritson

Monks Orchard Residents Associa

4.028

The presumption is against garden development! However, in the event of an application for garden development, this criterion is NOT specific enough. (and neither are the National Technical Housing Standards). The curtilage area in hectares or sq.m. and the footprint in sq.m. of the host dwelling should always be provided. Also for any back-garden development, the area in hectares or sq.m. of the partitioned new curtilage; the footprint in sq.m of the proposed new development and the proposed number of habitable rooms should all be provided for any new dwelling for any Back-Garden Planning Application, so as to allow calculation of Housing and Residential Densities of the proposed development. These parameters are required in order to determine that the combined Densities are within the limits specified in the London Plan Density Matrix or comparable to the residential (hr/ha) and housing densities (u/ha) of the character of the area. If not specified, the policy is subjective and planning officers or planning committee members would not have adequate information to make a judgement on a proposed development which could be upheld on appeal. "Any proposed back-land or back garden development should not exceed the 'residential' or 'housing' densities as defined in the London Plan Design Guide Density Matrix" or the residential and housing densities of the surrounding properties as this would by definition compromise the character of an area. Loss of garden land to developments is a significant problem for our local residents and any policy to prevent such back-garden developments should be implemented. The number of objection letters for back garden development proposals to the council is evidence that the local population does not want back garden developments changing the character of the area. The fact that Planning Officers and the Planning Committee Members have allowed a number of rear garden proposed developments attest to the ineffectual policies to support the presumption against Back Garden developments. Further relaxation of these policies will have a significant degradation of the character of the Croydon "Places" and would permanently lose garden amenity space for future generations.

The policy should require applicants to provide the curtilage area and the footprint of the host dwelling with any application. The area of the partitioned new curtilage, the footprint of the proposed development and the proposed number of habitable rooms should all be provided for any new dwellings so that the housing and residential densities of Housing and Residential Densities of the proposed development can be calculated to assess the impact on local character.

Change

Policy DM2 has been changed as follows:  
The Council will only permit new dwellings or other development within the curtilage or garden of an existing dwelling or the redevelopment of existing dwellings and their curtilage or gardens where:  
a) It is in keeping with and subservient to the original dwelling and the surrounding character of the area;  
b) A minimum length of 10m and no less than 1/2 of the existing garden area is retained after the subdivision of the garden of the original dwelling; and  
c) There would not be a detrimental impact on existing and future occupants in terms of overlooking and outlook;

The policy is unenforceable. What are the specific definitions of "purpose(s) incidental to the enjoyment of the dwelling house" and the definition of a "Self-Contained Unit"? and; If an application is approved with such conditions i.e. "required for a purpose incidental to the enjoyment of the dwelling house" How can such a condition or requirement subsequently be policed or be enforced? If an 'outbuilding' has all services and facilities necessary for living accommodation and is stated in the application as "incidental to the enjoyment of the 'host' dwelling house" and is subsequently used as "Beds-in-sheds i.e. constant living accommodation" how can that usage be prevented? If an outbuilding is provided with all necessary services to allow constant living accommodation this is surely a new dwelling or an annex! What criteria would be required to define whether an "outbuilding" 'incidental to the enjoyment of the dwelling house' can be used for continuous living accommodation? Could the enforcement team establish whether these criteria are being adopted or whether these criteria are being ignored? Therefore the policy needs to be more specific in its definition and any condition needs to be enforceable.

The policy define what is meant by 'a purpose incidental to the enjoyment of the dwelling house' and what conditions will be used to prevent it becoming a new dwelling or a 'bed in shed'.

No change

This is a comment on the General Permitted Development Order which is produced by national government not Croydon Council.

What is the definition of 'ancillary' to the main residence? Oxford English Dictionary Definition of "ancillary" "Providing necessary support to the primary activities or operation of an organization, system, etc." What usage is encompassed by "necessary support to the primary activities or operation" of the host dwelling and what IS therefore allowable and what is NOT allowable? As "ancillary" usage to the main residence is indeterminable, the meaning cannot be enforced or policed whether its use is, or is not compliant to an interpretation of "ancillary". The annex could be used for continued occupation i.e. "beds-in-sheds" and this could be interpreted as use "ancillary to the main residence" and if such a usage was considered inappropriate, the prevention of such usage could NOT be enforced. If the development contained all necessary services for constant living accommodation, it should be considered as a "self-contained" unit and thus NOT be allowed. The VOA considers a "self-contained" unit as attracting Council Tax and thus is considered as a separate dwelling or an annexe. The policy is undeliverable. The policy is inadequately defined and allows many interpretations. Thus we believe the policy is unenforceable, unusable and unworkable.

The term 'ancillary to the main dwelling' should be defined and the policy should ensure that annexes are not used for continued occupation and become a new dwelling.

No change

This is a comment on the General Permitted Development Order which is produced by national government not Croydon Council.

The inevitable conclusion is that older property will become substandard by the poor quality sub division into flats that has escalated in the last 20 years in "Addiscombe". The policy offers little protection against demolition and re-development as blocks of flats. It should be appropriate to the area by mass/height/spacing.

It will be deliverable because of the need for cheap housing close to the East Croydon transport hub. Land owner and developers can be expected to fuel such development with the generous profit margins. Increase of density means decrease in quality of living. The council is stating the obvious, but not providing protection for the residents who will see deterioration in their quality of life. Some residents will see this as an attractive investment plan.

It seems more important to have specific policies to protect areas that have not yet deteriorated but retain unity of architectural and functional character.

It seems inevitable that older housing stock will be redeveloped under this policy. This will compromise the village atmosphere of the ASPRA area of "Addiscombe". It is likely to destroy the atmosphere of the Whitgift Estate. If the character and quality of the Whitgift Estate is to be preserved, it is essential that the restriction in the covenants to one detached house per plot is maintained through the planning process and, further, that subdivisions are not permitted. This does not prevent substantial extensions, in sympathy with the surroundings, such as have occurred and are occurring.

You mention "sustainable communities"? How would you define them? In simple words we need good quality housing, with amenities. This is not how majority perceives their neighbourhood. We are not feeling safe.

Please add to Option 1  
c. Requiring that in any identified community, for all development, consideration must be given for the provision of or enabling the provision of facilities essential to a sustainable community e.g schools, child care provision, health care centres, green spaces, recycling resources

Change

The policy will be amended so that it refers to re-development of residential units rather than just sub-division so it covers the demolition of three bedroom homes and homes less than 130 sqm in size.

0203/01/021/DM1/O	Mr Charles King <i>East Coulsdon Residents' Associat</i>	Object		DM1	At present in Coulsdon there is a lack of housing mix which is biased towards larger property with large gardens, these are too large and expensive for the children of existing residents, young professional people, young families and also for many older people to maintain. A much better mix of smaller apartments and houses with 2 bedrooms with smaller gardens along with family 3 bedroom houses is needed for both the existing older residents to down size and for young people to start on the housing ladder.	A greater number of smaller houses are required in Coulsdon.	No change	The policy sets out a minimum percentage of three bed homes on sites with ten or more dwellings to ensure there is an appropriate mix on larger sites. This policy is also supported by the Croydon Local Plan: Strategic Policies SP2: Homes, which seeks to achieve socially-balanced and inclusive communities, setting a target for 50% of all new homes up to 2036 to have three or more bedrooms. Policy DM1 also seeks to retain smaller units of less than 130m2 to ensure there is no loss of residential units that serve smaller
1610/01/020/DM1/O	Mr Sean Creighton <i>Norbury Residents Association Joi</i>	Object	Soundness - Effective	DM1	There is a need to control conversions so as not to lose three and four bedroom properties.		No change	Policy DM1 (b) seeks to prevent the loss of homes smaller than 130m2.
1610/02/008/DM1/C	Mr Sean Creighton <i>Norbury Residents Association Joi</i>	Comment	Soundness - Effective	DM1	17.Since the proposed housing policy envisages that new affordable and social two bedroom homes should be able to cater for the needs of one/two parents and up to two children, will this not lead to the undesirable situation where children of the opposite sex above a certain age have to share a bedroom, and to limited space making the undertaking of homework difficult thereby hampering children's educational development?  37.Given the current and future policies regarding the mix of bedroom sizes how do the officers propose to monitor the contribution to the achievement of the desired mix, and what measures will need to be taken to ensure that that any mix imbalance is rectified?		No change	The living arrangements of occupants is not something which can be controlled by the planning system. With regards to the second point, each planning application is judged in its own merits and policies of the Croydon Local Plan: Strategic Policies and the Croydon Local Plan: Detailed Policies and Proposals will be applied. Of particular relevance are policies SP2 Homes of the Strategic Policies and DM1 of the Detailed Policies and Proposals. The effectiveness of policies is monitored through the Authority Monitoring Report which is produced by the Council annually.
2128/01/007/DM1/O	Cllr Steve O'Connell AM	Object		DM1	There is a need to control conversions so as not to lose three and four bedroom properties.	There is a need to control conversions so as not to lose three and four bedroom properties.	No change	DM1 will not permit conversions that will result in the loss of three bedroom houses.

2766/01/007/DM1/C

B Wilson

Comment

DM1

*W.R. Newland and Sons Ltd*

It is considered that the policy is too prescriptive in requiring a specific quantity of 3+bedroom accommodation. The constraints to development in certain locations such as the size of a site may restrict the ability for development to meet the objectives of this policy. The policy should allow for some flexibility to ensure that development is not prevented or of a lower quality as a result of the need to include a set percentage of 3 bedroom accommodation.

An alternative option which is not considered is to let the market determine the housing mix in response to demand. This approach would be more flexible allowing developments to take better account of the constraints to a site, such as whether they are in a town centre or a lower density suburban location which family sized accommodation is more achievable.

No change

The market does not produce what is needed, rather it produces what is believed is most marketable, until such time that there is over-provision of a particular tenure/type and would therefore undermine the market in Croydon.

2942/01/001/DM1/O	Dr Anwar Ansair <i>AA Homes and Housing</i>	Object	DM1	<p>The policy sets out a minimum provision of houses with three bedrooms in developments of over 10 dwellings. It also includes a policy (which was also in the 2006 CRUDP) to retain houses of less than 130 sqm and adds houses that were originally built with three bedrooms. This policy takes no account of houses of under 130sqm as built but which have approval to be made larger via planning permissions or prior approval. The requirement to retain existing 3-bedroom houses which could have larger gardens could limit the opportunity to increase housing supply by redevelopment. The policy to provide an overall target of 50% of homes with 3 or more bedrooms exceeds the level which is demonstrated to be required in the GL Hearn Strategic Housing Market Appraisal which is provided as a background paper to the Plan and identifies a need for 40% of homes to be 3+ bedrooms. It is also higher than the projections in the same document derived from the 2015 Further Alterations to the London Plan. If these documents are correctly based upon housing need, then the policy in the Croydon Plan for 50% overall is excessive. The requirement that all sites over 10 units should provide (except in the retail core or OAPF) at least 40% of homes at 3+ bedrooms and up to 70% in some areas is likely to make schemes less viable as the number of units that can be achieved is reduced. Such units also have a higher requirement for garden/amenity space so that the area required to achieve the same number of units is larger. This may also deter developers from creating much-needed housing when this expected at percentage which is more than can be demonstrated as required in the Further Alterations to the London Plan in all areas except the higher PTAL parts of inner areas. The policy requiring 70% of houses in low PTAL parts of the outer areas of the Borough would not be sustainable. Three bedroom houses or larger are more likely to be family houses and are likely to generate a higher requirement to travel by car including to schools. This would add to pressure on local roads. 60% three bedroom houses in the higher PTAL parts of the outer areas is still a very high percentage of family housing in areas which are not well-located for public amenities. This policy contradicts the requirement in the Further Alterations to the London Plan table 3.2 that higher density housing (including that which has more people living in it) should be</p>	<p>The requirement for 3 bedroom homes should be reduced in line with the Strategic Housing Market Assessment and London Plan, particularly in areas of low PTAL.</p>	No change	<p>The policy (read in conjunction with SP2: Homes of the Croydon Local Plan: Strategic Policies) sets out to achieve an appropriate mix of housing in appropriate locations. The 50% figure is a blended figure taken from the GL Hearn work to incorporate the Council's split between affordable or social rent, intermediate low cost shared ownership or starter homes and private market homes.</p>
-------------------	--	--------	-----	---	---	-----------	---

located in urban typology areas. The policy to seek retention of three bedroom houses and houses of less than 130sqm (some of which could be in large gardens) is likely to reduce the possibility of increasing the housing stock by building more smaller houses on sites.

0320/01/001/DM1/O	Mr Tarsem Flora <i>Flora Associates</i>	Object	DM1	<p>HOMES- Para 4.2 (p.13) states that " there is a growth of single person households which is driving the requirement for smaller homes. This makes me to question the need for such a large proportion of 3 bed + flats/homes (as in Partial Review document.) As mentioned in our experience there is a lot of demand for studio, one and two bed flats particularly in the affordable provision.</p>	No change	<p>There is an established need for 3 bedroom properties in Croydon as evidenced by the Local Housing Market Assessment and the Strategic Housing Market Assessment 2015.</p>
0203/03/030/DM1 (Table 4.1)/O	Mr Charles King <i>East Coulsdon Residents' Associat</i>	Object	DM1 (Table 4.1)	<p>Type of housing: Work undertaken by Croydon Council show that the demographics of the local population have changed considerably over the last decade. Today there is now a large proportion over the age of 55 and Coulsdon has an older population than most other parts of Croydon.</p> <p>Housing mix: At present in Coulsdon there is a lack of housing mix which is biased towards larger property with large gardens, these are too large and expensive for the children of existing residents, young professional people, young families and also for many older people to maintain. A much better mix of smaller apartments and houses with 2 bedrooms with smaller gardens along with family 3 bedroom houses is needed for both the existing older residents to down size and for young people to start on the housing ladder. There is also a need for more affordable and social homes in the area to rebalance the population better.</p>	No change	<p>The policy sets out a minimum percentage of three bed homes on sites with ten or more dwellings to ensure there is an appropriate mix on larger sites. This policy is also supported by the Croydon Local Plan: Strategic Policies SP2: Homes, which seeks to achieve socially-balanced and inclusive communities, setting a target for 50% of all new homes up to 2036 to have three or more bedrooms. Policy DM1 also seeks to retain smaller units of less than 130m2 to ensure there is no loss of residential units that serve smaller</p>

0203/03/010/DM1 (Table 4.1)/C	Mr Charles King <i>East Coulsdon Residents' Associat</i>	Comment	DM1 (Table 4.1)	<p>We note that in the borough as a whole there is a need for more family sized home of 3 or more bedrooms</p> <p>4.2 The need for larger homes for families in Croydon was identified in the Croydon Strategic Housing Market Assessment.</p> <p>However, in a number of areas in the south of the borough such as Coulsdon there are already too many large properties of four and five bedrooms and a lack of smaller two and single bedroom houses and apartments. This is reflected in the number of older large properties that are now being converted into multiple occupancies. There is clearly a need for smaller properties for first time buyers and children of existing families to remain in the area.</p> <p>The area of Coulsdon has a population with higher average age than Croydon as a whole and is in need of smaller accommodation for older people to down size, together with the need to provide more property designed for retired people.</p>	No change	<p>The policy sets out a minimum percentage of three bed homes on sites with ten or more dwellings to ensure there is an appropriate mix on larger sites. This policy is also supported by the Croydon Local Plan: Strategic Policies SP2: Homes, which seeks to achieve socially-balanced and inclusive communities, setting a target for 50% of all new homes up to 2036 to have three or more bedrooms. Policy DM1 also seeks to retain smaller units of less than 130m2 to ensure there is no loss of residential units that serve smaller</p>	
0535/01/003/DM1 (Table 4.1)/O	Mr Peter Morgan	Object	DM1 (Table 4.1)	<p>The footnote states: Public Transport Accessibility Level - a rating of accessibility provided by Transport for London.</p> <p>A site with a lower PTAL than the surrounding sites and adjoining streets shall be considered at the higher PTAL</p>	<p>The respondent objects to this and states - sites should be assessed at the correct PTAL, not at a higher one that may apply to places nearby.</p>	No change	<p>The PTAL ratings are a crude measurement of a site's or area's accessibility to transportation services. Values are calculated using a grid of points at 100m intervals and based on the frequency and reliability of various transport services. It is therefore considered appropriate that in the case of a site falling within a lower PTAL rating, but surrounded or immediately adjacent to a higher PTAL area, that the higher rating is applied.</p>

2691/01/005/DM1 (Table 4.1)/O	Hyde Housing Association	Object	DM1 (Table 4.1)	DM1: Housing Choice for Sustainable Communities: As set out above, Hyde Housing are unsupportive of the proposed borough-wide three bedroom or larger target of 50%. Table 4.1 proposes a minimum of 20% of dwellings to be three bedroom or larger on sites with 10 or more dwellings. This is not considered conducive to delivering the correct housing mix in the appropriate areas. Current policy sets variable targets for dwelling mix across the Opportunity Area, including a 10% target for East Croydon Opportunity Area. We therefore suggest that the same approach is taken forward to the proposed policy, and that it seeks the target of 10% of dwellings delivered as three bedroom or more within the East Croydon Opportunity Area is applied.	No change	The same approach is applied as that within the Croydon Opportunity Area Planning Framework. The only change is with regards to fringe areas where this has been revised to 40% from 45%.	
2843/01/005/DM1 (Table 4.1)/O	Minerva	Object	DM1 (Table 4.1)	20% three bedroom or larger units are proposed in the majority of the Opportunity Area. This includes Mid Croydon where Delancey are in early pre-application discussions with the Council regarding residential development. A requirement for 20% three bedroom units in this location is considered overly restrictive as the actual amount of three bed homes a site is capable of accommodating will vary significantly depending on its nature, location, target market and site specific economics. This proportion of 3 bed units for market housing is not considered appropriate in the Mid-Croydon area and, given their unsuitability, will act as a drag on viability potentially resulting in a lower provision of affordable housing. The OAPF provides for flexibility and a case by case consideration of mix. The Policy should be amended to allow for flexibility and not be a minimum requirement.	The policy should be amended to allow for flexibility in line with the Opportunity Area Planning Framework.	No change	The same approach is applied as that within the Croydon Opportunity Area Planning Framework. The only change is with regards to fringe areas where this has been revised to 40% from 45%.

Jill Kilsby

Object

DM2

1In regard to DM2, I do not agree that building on greenfield sites such as gardens should take place. It removes green space and means that more areas are at risk of surface flooding

Change

The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. The wording of the policy has been amended to further detail the criteria for this type of development. Garden development will only be permitted where it is in keeping with and subservient to the original dwelling and the surrounding character; wb)A minimum length of 10m and no less than 1/2 or 200sqm (whichever is the smaller) of the existing garden area is retained for the host property, after the subdivision of the garden; and where there would not be a detrimental impact on existing and future occupants in terms of overlooking and outlook. The policy does not explicitly refer to biodiversity, flooding and other issues such as amenity. The Plan should be read as a whole and policies with respect to these issues will be applied as relevant to

More weight needs to be given than in the current wording on the quality of life for people in new and existing homes. The guidelines '18 to 21 metres between directly facing, habitable windows' is too weak and will be easily manipulated by developers who will just position windows slightly off directly facing leaving people still intrusively overlooked. Instead emphasis should be put on overlooking and resulting insufficient quality of life for new and existing residents caused by visual intrusion and potential noise.

Change

The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. The wording of the policy has been amended to further detail the criteria for this type of development. Garden development will only be permitted where it is in keeping with and subservient to the original dwelling and the surrounding character; w)A minimum length of 10m and no less than 1/2 or 200sqm (whichever is the smaller) of the existing garden area is retained for the host property, after the subdivision of the garden; and where there would not be a detrimental impact on existing and future occupants in terms of overlooking and outlook. DM2

Policy DM2 (page 18 CLP2) allows "garden grabs" to become much easier. National policy and London policy classifies gardens as greenfield, and there is an assumption against developing on gardens. New Policy DM2 says that the Council will allow building on gardens if "it will complement the local character and biodiversity is protected". This is totally subjective and so is a much weaker form of protection, and will provide cover for developers to be given planning consent to build on gardens. We oppose making it easier to build on gardens as it will remove green space from our neighbourhood. There should be a presumption against building on gardens.

The policy should offer the presumption against building on gardens.

Change

The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. Objection to the policy as not the most appropriate for Croydon to meet Strategic Objectives and not deliverable, and not sustainable.

Change

The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. The wording of the policy has been amended to further detail the criteria for this type of development. Garden development will only be permitted where it is in keeping with and subservient to the original dwelling and the surrounding character; w)A minimum length of 10m and no less than 1/2 or 200sqm (whichever is the smaller) of the existing garden area is retained for the host property, after the subdivision of the garden; and where there would not be a detrimental impact on existing and future occupants in terms of overlooking and outlook. The policy does not explicitly refer to biodiversity, flooding and other issues such as amenity. The Plan should be read as a whole and policies with respect to these issues will be applied as relevant to

As the LSHAA for Croydon assumes that garden land will not be developed; therefore no allowance has been made for developing on residential garden land in the London Plan's housing target for Croydon; Therefore, to meet the LSHAA housing requirements for Croydon, there is no need to provide new housing units on any Croydon Garden Land. Why therefore has the policy Option 1 Preferred Policy for back garden development been relaxed from those previously quoted in the UDP and previous versions of the CLP2? Why therefore have 29% of applications in the year to date for garden developments in the MORA area been approved? What is influencing planning officers or the planning committee members to make these approvals against stated policy?? The proposed policy is detrimental to the amenity of future generations to meet their amenity requirements based upon the design of the host dwellings and the character of the area. The proposed policy would have detrimental implications to the character of an area by reason of overdevelopment compared to the surrounding properties. The proposed policies, if adopted, would allow precedents to be set in a location which once one back garden development were to be allowed, would allow other back garden developments within the area to be built upon, resulting in a gradual degradation of the localities amenity and character. This was the reason why the instruction to chief planners in 2010 was to stop garden grabbing. Allows gradual overcrowding, increased housing and residential density of an area. Relaxation of the presumption against developments on garden land will increase the propensity for surface water flooding as there would be less area for vegetation and trees to absorb and dissipate rainwater, especially in areas where surface water retention is already a problem. Any proposed development on garden land would weaken and have an adverse impact on the local character and would also impact on the amenity of neighbouring properties. It would also impact on the linked gardens biodiversity and geological diversity for wildlife habitat. Residential gardens are the lungs of the area and should be preserved for future generations. On average, one tree produces nearly 260 pounds of oxygen each year. Two mature trees can provide enough oxygen for a family of four. So building on garden land can significantly reduce carbon capture and the generation of

Backgardens should be protected as they are not required to meet Croydon's housing targets. Change

The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. The wording of the policy has been amended to further detail the criteria for this type of development. 0112/03/001/DM2/O	Mr Roy Colbran <i>Whitgift Estate Residents Associati</i>	Object	DM2	The wording "complement the local character" is too vague and too capable of different interpretations to give the protection of gardens proposed in the rest of the document. It needs to be made much stronger e.g. "The Council will only permit (new dwellings etc within the curtilage of existing residences or gardens) very exceptionally where they will have no adverse effect whatsoever on the neighbours nor on the character of the neighbourhood."	Change	The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. The wording of the policy has been amended to further detail the criteria for this type of development. Garden development will only be permitted where it is in keeping with and subservient to the original dwelling and the surrounding character; wb)A minimum length of 10m and no less than ½ or 200sqm (whichever is the smaller) of the existing garden area is retained for the host property, after the subdivision of the garden; and where there would not be a detrimental impact on existing and future occupants in terms of overlooking and outlook. The policy does not explicitly refer to biodiversity, flooding and other issues such as amenity. The Plan should be read as a whole and policies with respect to these issues will be applied as relevant to
-------------------	--	--------	-----	---	--------	---

---

The development of dwellings on gardens has been ongoing in "Addiscombe" and in general has produced property that does not detract from the neighbourhood.

However as the housing stock in "Addiscombe" deteriorates and drops below required energy efficiency standards there will be re-development. This policy does not appear to address the planning regime when multiple large older properties are demolished and higher density development using more of the garden space for dwellings is proposed.

In the north of "Addiscombe" where there is little opportunity to build in back gardens this will work well.

In the south of "Addiscombe" higher density housing will be possible by building on gardens. The wording of the policy does not add any teeth to stop infill and garden development where there is a planning gain by the provision on additional housing (and significant profit for the land owner and developer). It needs to be more specific by street to provide guidance to residents and developers.

It is not at all clear where this policy covers land surrounded by back gardens. Specifically there needs to a presumption against the proposed development behind 1-19 Craven Road.

This policy would also apply to the proposed "intensification" area which will border back gardens in Peabody Close, Shirley Avenue, Valley Walk, Barnfield Avenue, Craigen Avenue and Greencourt Avenue. This should also apply to other such area for which I have not yet seen detailed plans

It should define which areas will not be protected by this policy

The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. The wording of the policy has been amended to further detail the criteria for this type of development. Garden development will only be permitted where it is in keeping with and subservient to the original dwelling and the surrounding character; w)A minimum length of 10m and no less than 1/2 or 200sqm (whichever is the smaller) of the existing garden area is retained for the host property, after the subdivision of the garden; and where there would not be a detrimental impact on existing and future occupants in terms of overlooking and outlook. Whilst we support this, the policy should emphasise a general presumption against development on garden land. In addition to their benefits listed garden greenspaces play a part in contributing to climate change adaptation by regulating the urban heat island effect and ameliorating surface water run-off (including flash- flooding), which should be acknowledged.

Change

The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. The wording of the policy has been amended to further detail the criteria for this type of development. Garden development will only be permitted where it is in keeping with and subservient to the original dwelling and the surrounding character; wb)A minimum length of 10m and no less than ½ or 200sqm (whichever is the smaller) of the existing garden area is retained for the host property, after the subdivision of the garden; and where there would not be a detrimental impact on existing and future occupants in terms of overlooking and outlook. The policy does not explicitly refer to biodiversity, flooding and other issues such as amenity. The Plan should be read as a whole and policies with respect to these issues will be applied as relevant to

Policy DM2 (p18) – the council will allow building on gardens if “it will complement the local character and biodiversity is protected”. I disagree and totally object to this policy. It’s bad enough that builders are pulling down older houses and replacing them with multiple occupancy flats. I had lived in Purley all my life and I’ve seen the changes to Pamisford Road in particular, which used to have single dwelling houses and one by one these houses have been demolished and replaced with flats. Croydon can’t cope as it is with all the new flats being built. Doctors surgeries are full to breaking point with long waiting times and having to wait weeks for an appointment. It’s a struggle to find good quality local schools as the demand is so high for places. The local infrastructure can’t cope either with long traffic queues and grid lock when there are accidents. Allowing gardens to be built on will ruin the area even more. There is a lack of green spaces as it is and to allow this will just mean that green spaces are even less protected. The developments that have already gone up have already taken up garden spaces to build flats and the whole area is changing for the worse.

The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. The wording of the policy has been amended to further detail the criteria for this type of development. Garden development will only be permitted where it is in keeping with and subservient to the original dwelling and the surrounding character; wb)A minimum length of 10m and no less than ½ or 200sqm (whichever is the smaller) of the existing garden area is retained for the host property, after the subdivision of the garden; and where there would not be a detrimental impact on existing and future occupants in terms of overlooking and outlook. The policy does not explicitly refer to biodiversity, flooding and other issues such as amenity. The Plan should be read as a whole and policies with respect to these issues will be applied as relevant to

I totally disagree to the following planning applications which would spoil the character of our local environment and threaten our green belt. I choose to live in an area that is peaceful and quiet and resent the changes that are being forced upon me. In the spirit of true democracy I wish to make clear my objection to the following developments -  
Policy DM2 (p18); Policy DM40.1 (p166);  
Policy 40.4, Table 11.3, Site 30 (p168) ; Policy 40.4, Table 11.3, Site 61 (p168). ; Policy DM41.3, Table 11.14, site 306 (p171); Policy DM44.2, Table 11.17, site 661 (p179). ; Policy DM44.2, Table 11.17, site 662 (p179); Policy DM28 (p115-116); Policy DM35, Table 11.8, Site 945 (p146); and Policy DM31.4 (p126)

The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. The wording of the policy has been amended to further detail the criteria for this type of development. Garden development will only be permitted where it is in keeping with and subservient to the original dwelling and the surrounding character; wb)A minimum length of 10m and no less than 1/2 or 200sqm (whichever is the smaller) of the existing garden area is retained for the host property, after the subdivision of the garden; and where there would not be a detrimental impact on existing and future occupants in terms of overlooking and outlook. The policy does not explicitly refer to biodiversity, flooding and other issues such as amenity. DM2

I understand the draft local plan is out for consultation and feedback is requested. Regarding the consultation my comments are as follows:

Policy DM2: it is wholly wrong to remove protection for gardens (which are Greenfield) and make it easier for exploitation by developers and destruction of the local environment. There should always be a presumption against developing of gardens.

Change

The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. The wording of the policy has been amended to further detail the criteria for this type of development. Any weakening of policy on garden land would greatly affect Shirley as it is an area primarily of two storey family houses, many with large gardens. Although in some circumstances and where it would not affect surrounding properties it might be appropriate, to unleash developers on back gardens would be a catastrophe. Gardens are the lungs of the city and Shirley has suffered more than most.

Change

The policy complies with the provisions of the NPPF and the London Plan. Proposed Policy DM2 Development on Garden Land.  
The criteria for permitting new dwellings or other development within the curtilage of gardens of an existing dwelling are too weak and do not meet the NPPF instructions to Local Planning Authorities. The National Planning Policy Framework Para 48 and 53, and the London Plan require Local Planning Authorities to define policies to "resist developments" on garden land. The relaxation of the criteria in Policy DM2 is contrary to this guidance and directions from the NPPF.

The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. The wording of the policy has been amended to further detail the criteria for this type of development. Garden development will only be permitted where it is in keeping with and subservient to the original dwelling and the surrounding character; w)A minimum length of 10m and no less than 1/2 or 200sqm (whichever is the smaller) of the existing garden area is retained for the host property, after the subdivision of the garden; and where there would not be a detrimental impact on existing and future occupants in terms of overlooking and outlook. The policy does not explicitly refer to biodiversity, flooding and other issues such as amenity. The Plan should be read as a whole and policies with respect to these issues will be applied as relevant to

The criteria for permitting new dwellings or other development within the curtilage of gardens of an existing dwelling are too weak and do not meet the NPPF instructions to Local Planning Authorities.

The NPPF states at para 48 the Local Planning Authorities should set out policies to 'resist' inappropriate development on garden land – the proposed policies gives guidance which needs to be considered for the 'approval' of development on garden land. The first criteria, states "It would complement the local character" is highly subjective and unquantifiable.

The second criteria, "where biodiversity is protected" is also too vague and indeterminable to make any informed judgement.

I object to these criteria being used in the determination of acceptable development on garden land, as they undermine the presumption against development on garden land and therefore we ask for stronger positive criteria "to resist" development on garden land to be defined.

The National Planning Policy Framework Para 48 and 53, and the London Plan require Local Planning Authorities to define policies to "resist developments" on garden land. The relaxation of the criteria in Policy DM2 is contrary to this guidance and directions from the NPPF.

1. I do not think that the preferred approach is the most appropriate for Croydon to help us meet our Strategic Objectives set out in Section 3.

2. The preferred approach is deliverable, but not acceptable.

3. I do not think the preferred approach enables sustainable development, because it will compromise the ability to meet the needs of future generations.

4. Policy DM2 para 4.19 states London's Strategic Housing Land Availability

Assessment, which forms the basis of London Plan housing targets for Croydon,

assumes that garden land will not be developed. Therefore it is unnecessary to build

on garden land to meet Croydon's housing targets.

5. I recommend that consultation documents of such importance are given much wider publicity.

The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. The wording of the policy has been amended to further detail the criteria for this type of development. DM2

I object to the proposals to build on green belt land and to make building on large gardens easier

It seems that the Labour council is only targeting the Tory areas of the borough as they know that is where they will never get in and I find this reprehensible. Whichever party is in power should speak for all the residents of the borough not just their own supporters.

They keep on about how hard up the council is but I understand that they have many thousands of pounds invested. If that money is for a 'rainy day' then I would have thought in times of austerity that would be a good time to cash in some of the savings and rescue some of the facilities that are under pressure

I oppose making it easier to build on gardens as it will remove green space from our neighbourhood. There should be a presumption against building on gardens.

The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. The wording of the policy has been amended to further detail the criteria for this type of development. Garden development will only be permitted where it is in keeping with and subservient to the original dwelling and the surrounding character; w)A minimum length of 10m and no less than 1/2 or 200sqm (whichever is the smaller) of the existing garden area is retained for the host property, after the subdivision of the garden; and where there would not be a detrimental impact on existing and future occupants in terms of overlooking and outlook. The policy does not explicitly refer to biodiversity, flooding and other issues such as amenity. The Plan should be read as a whole and policies with respect to these issues will be applied as relevant to

DM2

Policy DM2 proposes allowing 'garden grabs' to become easier for building whereas National policy and London policy designates gardens as greenfield. These proposals seem a much weaker protection therefore I oppose these as it will making building on gardens easier which will reduce areas of green space in the area.

Change

The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. The wording of the policy has been amended to further detail the criteria for this type of development. DM2

Policy DM2 (p18) allows "garden grabs" to become much easier. National policy and London policy classifies gardens as greenfield, and there is an assumption against developing on gardens. But new Policy DM2 says that the council will allow building on gardens if "it will complement the local character and biodiversity is protected". This is totally subjective and so is a much weaker form of protection, and will provide cover for developers to be given planning consent to build on gardens. I do not agree with building on gardens as it will remove green space from our neighbourhood.

There should be a presumption against building on gardens.

Change

The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. The wording of the policy has been amended to further detail the criteria for this type of development. 1951/01/001/DM2/C

Councillor Steve Hollands

Comment

DM2

Policy DM2 (p18) This proposed change is too subjective and very weak and will not protect residents from developers developing neighbouring gardens. It is not sufficient to state the council will allow building on gardens if "it will complement the local character and biodiversity is protected". Who is to decide and how transparent will the grounds for approval be.

Change

The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. DM2

Paragraph 48 of the NPPF specifically states that residential garden land should not be included as windfall sites in a borough's five year housing supply. Paragraph 53 of the NPPF states that planning authorities should consider the case for setting out policies to resist inappropriate development of residential gardens, for example where it would cause harm to the local area. Whilst Croydon has carried out a borough-wide and local area character studies, no assessment has been made of how many homes this could potentially deliver. In this regard, the Mayor agrees with paragraph 4.21 where it states the need to deliver 31,760 homes does not outweigh the need to respect local character and amenity and to protect biodiversity. In addition to the two criteria set out, the borough is advised to take account of other criteria which should inform the release of garden land as indicated in the Mayor's Housing SPG such as its roles in addressing potential flood risk, protecting London's trees, mitigating the effects of climate change and providing safe, secure and sustainable environments and play spaces.

The policy should take account of the criteria in the Mayor's Housing SPG when deciding whether to release garden land.

Change

The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. DM2

I am writing to register my disappointment and objection to your having rejected our proposal for LHA/LASC status for Oakwood Avenue. As you know, this longstanding proposal has the unanimous support of all Residents, local Councillors, MP and Residents Association.

Your stated reason for rejection is that character is already protected by current policies, including particularly those categorising particular areas. This is wrong because the designated area containing Oakwood Avenue also contains adjacent streets which have garden infills, including closes. Oakwood Avenue is the only remaining road in this part of Purley to consist entirely of substantial detached houses on large plots with no such infills. This broad designation therefore provides no protection against such infills, a matter now of increased concern in the light of the proposed weakening of garden development policy under DM2- to which I also object.

Change

The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. The wording of the policy has been amended to further detail the criteria for this type of development. Garden development will only be permitted where it is in keeping with and subservient to the original dwelling and the surrounding character; w) A minimum length of 10m and no less than 1/2 or 200sqm (whichever is the smaller) of the existing garden area is retained for the host property, after the subdivision of the garden; and where there would not be a detrimental impact on existing and future occupants in terms of overlooking and outlook. The policy does not explicitly refer to biodiversity, flooding and other issues such as amenity. The Plan should be read as a whole and policies with respect to these issues will be applied as relevant to

DM2

Policy DM2 - this email is sent to register my objection to Croydon Council building on gardens within local green space areas.

Change

The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. The wording of the policy has been amended to further detail the criteria for this type of development. Garden development will only be permitted where it is in keeping with and subservient to the original dwelling and the surrounding character; w)A minimum length of 10m and no less than 1/2 or 200sqm (whichever is the smaller) of the existing garden area is retained for the host property, after the subdivision of the garden; and where there would not be a detrimental impact on existing and future occupants in terms of overlooking and outlook. The policy does not explicitly refer to biodiversity, flooding and other issues such as amenity. Cllr Steve O'Connell AM

Object

DM2

The policy flies in the face of national and London policy which classifies gardens as green field and discourages developments on gardens. Thus the assertion in DM2 that building on gardens will be permitted by the Council if "it will complement the local character and biodiversity is protected" is a further cause for concern as there is the potential for green space to be removed from Croydon. The policy is too weak, too subjective and does not comply with the London Plan.

Gardens should be protected from development.

Change

The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. The wording of the policy has been amended to further detail the criteria for this type of development. Mr Rod Davies

*East Croydon Community Organisations*

Support

DM2

ECCO supports limitations on garden developments in order to preserve the green environment and provide sources of food for wildlife, essential for pollination and a balanced environment.  
However ECCO notes that were a policy to be adopted to oppose garden developments, it would further reduce the space available for housing and add even further to the densely developed and inhabited centre.

The requirement to protect biodiversity should not limit garden development as it will reduce the space available for housing.

Change

The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. Where the policy aims to permit development on garden land, if the development complements the local character and does not harm the biodiversity, I refer you to my point about services, as well as local amenities and parking facilities.

Rather than permit valuable garden areas to be developed for housing, I believe that derelict buildings, brownfield sites and under used garages must be used as the first option.

Change

The first of these two tests in particular is highly subjective and therefore very weak. I will be calling for Policy DM2 to include a much stronger presumption against development on garden land.

Change

The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. The wording of the policy has been amended to further detail the criteria for this type of development. Garden development will only be permitted where it is in keeping with and subservient to the original dwelling and the surrounding character; w)A minimum length of 10m and no less than 1/2 or 200sqm (whichever is the smaller) of the existing garden area is retained for the host property, after the subdivision of the garden; and where there would not be a detrimental impact on existing and future occupants in terms of overlooking and outlook. The policy does not explicitly refer to biodiversity, flooding and other issues such as amenity. The Plan should be read as a whole and policies with respect to these issues will be applied as relevant to

Mrs Shirley M Kell

Object

DM2

Front and rear gardens of many properties in Shirley have always been an attractive feature of this area, and I strongly disagree with any proposed developments on garden land. I live in a quiet cul-de-sac where, for some time, a garden development has been ongoing. Described as a 'shed', the garden in which this building is being constructed belongs to two houses which are currently let. The access and frontage is on to our road, and not that of the property in question! The present owner has ignored the details of the planning consent. This situation could easily be replicated throughout our neighbourhood and would inevitably change the very nature of this peaceful area.

DM2

Re Policy DM2 -Shirley Shopping Parade/Library/surrounding roads. Any development should be sympathetic to the existing area. Medium to high rise developments would intrinsically change a well established residential area. As above, the impact on local transport would be unacceptable. Devonshire Way and Hartland Way are already used as a means to avoid Wickham Road and residents are often severely compromised, unable to leave their own driveways at peak times because of the heavy flow of traffic. This would impact way beyond the local area, causing further congestion at the Shirley Library traffic lights, leading to Elmers End, West Wickham and beyond.

Any development should be sympathetic to the existing area- medium to high density development would have unacceptable impact on the local character and local transport.

In addition to their contribution to local character and biodiversity, which is acknowledged, private green spaces also play a part in regulating Croydon's temperature and water flows (including helping prevent flooding) and this should also be acknowledged.

This policy should recognise the wide ranging importance of gardens and should emphasise a presumption against development on garden land.

Cllr Chris Wright  
*London Borough of Croydon*

Comment

DM2

Coulsdon East residents were very vocal in condemning the building of new homes in garden areas and that the policy of preserving the character of areas is so often flouted and wondered why there was no policy to prevent 'garden grabbing'. Policy DM2 was considered too weak and puts areas in Coulsdon East at severe risk of character change. It is also considered that definition of the 'Place' of Kenley and Old Coulsdon was not strong enough in its description and needed to be expanded.

Change

The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. The wording of the policy has been amended to further detail the criteria for this type of development. Garden development will only be permitted where it is in keeping with and subservient to the original dwelling and the surrounding character; w)A minimum length of 10m and no less than 1/2 or 200sqm (whichever is the smaller) of the existing garden area is retained for the host property, after the subdivision of the garden; and where there would not be a detrimental impact on existing and future occupants in terms of overlooking and outlook. The policy does not explicitly refer to biodiversity, flooding and other issues such as amenity. The Plan should be read as a whole and policies with respect to these issues will be applied as relevant to

Proposed Policy DM2 Development on Garden Land.  
The criteria for permitting new dwellings or other development within the curtilage of gardens of an existing dwelling are too weak and do not meet the NPPF instructions to Local Planning Authorities.

The NPPF states at para 46 the Local Planning Authorities should set out policies to 'resist' inappropriate development on garden land — the proposed policies gives guidance by which needs to be considered for 'approval' of development on garden land. The first criteria, where "It would complement the local character?" is highly subjective and unquantifiable. The second criteria, "where biodiversity is protected" is also too vague and indeterminable to make any informed judgement I object to these criteria being used in the determination of acceptable development on garden land, as they undermine the presumption against development on garden land and therefore ask for stronger positive criteria "to resist" development on garden land to be defined.

The National Planning Policy Framework Part 48 and 53, and the London Plan require Local Planning Authorities to define policies to "resist development" on garden land. The relaxation of the criteria in Policy DM2 is contrary to this guidance and directions from the NPPF.

For the reasons given above:

1. I do not think that the preferred approach is the most appropriate for Croydon to help us meet our Strategic Objectives set out in Section 3.
2. The preferred approach is deliverable, but not acceptable,
3. I do not think the preferred approach enables sustainable development, because it will compromise the ability to meet the needs of future generations.
4. I recommend that consultation documents of such importance are given much wider publicity.

The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. The wording of the policy has been amended to further detail the criteria for this type of development. Garden development will only be permitted where it is in keeping with and subservient to the original dwelling and the surrounding character; w)A minimum length of 10m and no less than 1/2 or 200sqm (whichever is the smaller) of the existing garden area is retained for the host property, after the subdivision of the garden; and where there would not be a detrimental impact on existing and future occupants in terms of overlooking and outlook. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. The wording of the policy has been amended to further detail the criteria for this type of development. Garden development will only be permitted where it is in keeping with and subservient to the original dwelling and the surrounding character; w)A minimum length of 10m and no less than 1/2 or 200sqm (whichever is the smaller) of the existing garden area is retained for the host property, after the subdivision of the garden; and where there would not be a detrimental impact on existing and future occupants in terms of overlooking and outlook. The policy does not explicitly refer to biodiversity, flooding and other issues such as amenity. The Plan should be read as a whole and policies with respect to these issues will be applied as relevant to

Policy DM2 allows "garden grabs" to become much easier. Both national policy and London policy classifies gardens as greenfield, and there is an assumption against developing on gardens, but new Policy DM2 says that the council will allow building on gardens if "it will complement the local character and biodiversity is protected". This is totally subjective and so is a much weaker form of protection, and will provide cover for developers to be given planning consent to build on gardens. There should be a presumption against building on gardens.

We are not totally opposed to "infill" development - recently some nice new houses have been built which, because they are in keeping with local styles, blend in well. However, we are also all too well aware of the number of single family houses which have been bought by developers and then turned into multi occupancy dwellings (one family house seems to be reinvented as 6 - 12 flats). Again, comments above about parking apply but also, of greater worry, is the loss of green garden space (if parking is provided it is always at the loss of garden) - mature trees are often removed, and once the development is completed there is very poor maintenance of any landscaping. This makes everything look very shabby. Purley Cross is known to be a pollution black spot and it is absolutely essential that trees, in particular, are retained and planted to help combat pollution. Certainly with all new developments the landscaping should be the starting point for the scheme - not the cheapest, shoddiest option at the end. Also on-going maintenance costs should be protected. We have all lived with the repercussions of poorly maintained and cleaned landscaping - the ongoing rat problem on the Tesco site and roundabout. We do not wish to see this repeated elsewhere.

The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. The wording of the policy has been amended to further detail the criteria for this type of development. Garden development will only be permitted where it is in keeping with and subservient to the original dwelling and the surrounding character; w)A minimum length of 10m and no less than ½ or 200sqm (whichever is the smaller) of the existing garden area is retained for the host property, after the subdivision of the garden; and where there would not be a detrimental impact on existing and future occupants in terms of overlooking and outlook. The policy does not explicitly refer to biodiversity, flooding and other issues such as amenity. The Plan should be read as a whole and policies with respect to these issues will be applied as relevant to

Development on garden land - though there is a case for some - should not be adopted as the 'norm', and only undertaken with local residents approval. 25-30 years ago the then council decreed that garages would be built a little too small to accommodate a motor car to deter residents from owning cars!! This gave a legacy wghich prevails today in many parts of Croydon, that roads became impassable - particularly to emergency/service vehicles. Would it be too much to ask the Council to learn from past mistakes?

This proposal would make it easier for developers to build on gardens, further depleting this resource in the borough. It is designed to make it sound like there will be safeguards when in fact nothing will be measurable or properly protected, allowing the council to "wave proposals through" My understanding is that this proposal also flies in the face of both National and London policy around maintaining gardens and green spaces. There has already been far too much side development and garden grabs in the borough, especially in the south. This is leading to changes in the character of areas like Purley where I have lived for 30 years, and one wonders why the Council think this is a good idea? I oppose any more "garden grabbing" and I do fear that there is also a degree of political motivation here as well. It does nothing to protect our environment, other than diluting national and London safeguards! And there are plenty of planning application fees and levies which the Council can use to bolster funds while this vandalism takes place.

I wish to raise significant concerns about the proposals DM2 - so called 'Garden Grabbing'. The notion that garden grabbing is acceptable if it will "complement the local character and biodiversity" is weak to the point of being meaningless. Such requirements are already in place and have little effect. Character is in the eye of an arbiter whose vision is led by a presumption to say yes, and increasingly gamed by developers who seek permission and then obtain 'variations' once granted. I am copying this response to my local MP.

DM2

The Preferred Policy is NOT following the instructions as required of the NPPF or the London Plan. The NPPF requires LPA's to set out policies "to resist inappropriate development" on garden land, not to set out policies to "permit development" on garden land. Therefore the proposed preferred policy is unacceptable. The Option 1 policy does NOT reflect the intended interpretation and objectives, as outlined in para 48 and 53 of the NPPF, or Policy 3.5 of the London Plan. The evidence at 4.15 requires Local Planning Authorities to set out policies to resist inappropriate developments on garden land whereas the proposed CLP2 preferred policy sets out criteria for accepting development on garden land. The Policy should set out reasons for refusing development on garden land and give reasons to support the presumption against garden development rather than providing criteria for allowing development of garden land. This is too subjective- any development within the curtilage of an existing dwelling will increase the housing density and therefore by definition would be detrimental to the local character. To reduce the curtilage by a development will reduce amenity garden area and by definition reduce the available natural garden habitat for biodiversity. The definition is too "weak" and "subjective" for any LPA refusal to be upheld on appeal by the planning Inspectorate. If the new proposed policy were adopted by the Planning Inspectorate, it would allow developers the opportunity to appeal against any refusal of development on garden land in the London Borough of Croydon, as the policy is so weak in its definition that an LPA refusal would unlikely be upheld by the planning inspectorate. There needs to be a different policy for the subdivision of the curtilage of an existing dwelling, to that of the demolition of an existing dwelling and the re-development of the complete site. The subdivision of the curtilage of an existing dwelling for the development of a new dwelling in an existing garden would impinge on the character of the existing area and would increase the housing and residential density of that area. Whereas demolition and redevelopment of the site would need to meet all the requirements and policies of a completely new development. Relaxation of the presumption against developments on garden land will increase the propensity for surface water flooding as there would be less area for vegetation and trees to absorb and

Back gardens should be protected and the policy should align with the requirements of the NPPF and the London Plan.

Change

The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. The wording of the policy has been amended to further detail the criteria for this type of development. Garden development will only be permitted where it is in keeping with and subservient to the original dwelling and the surrounding character; w)A minimum length of 10m and no less than 1/2 or 200sqm (whichever is the smaller) of the existing garden area is retained for the host property, after the subdivision of the garden; and where there would not be a detrimental impact on existing and future occupants in terms of overlooking and outlook. The policy does not explicitly refer to biodiversity, flooding and other issues such as amenity. The Plan should be read as a whole and policies with respect to these issues will be applied as relevant to

dissipate rainwater, especially in areas where surface water retention is already a problem. Residential gardens are the lungs of the area and should be preserved for future generations. The previous policy in the Detailed Policies has been removed- Why?

Mr Peter May

Comment

DM2

DM2 refers to the proposal for the development of garden land which in effect seeks to make it more likely that planning permission for infill residential property building be allowed. I believe that it should only ever be allowed in very exceptional circumstances. The proposals as set out will cause the reduction in green space and lead to too high density in existing residential areas. It will inevitably lead to more rainwater run-off as greater areas become concreted over and thus add to flooding problems. It will also add further to the problem of street parking in residential areas which in turn leads to roads becoming less safe from a pedestrian and motoring perspective.

Change

The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. The wording of the policy has been amended to further detail the criteria for this type of development. Iain Waterson

Object

DM2

DM2 is a substantial watering down and weakening of a national and regional policy which classifies gardens as greenfield, and there is an assumption against developing on gardens. The new policy is completely subjective, gives substantially less protection and as such will provide a shield under which developers to be given planning consent to build on gardens, removing green space from neighbourhood and therefore changing the character of the area. The base supposition should be against building on gardens.

Change

The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. The wording of the policy has been amended to further detail the criteria for this type of development. DM2

The National and London Policies classify gardens as a green field but the new Policy DM2 appears to make it much easier to allow building to take place on gardens and they therefore have much less protection. In this area there are many large gardens which require protection in order to maintain this area a green and pleasant area in which to live.

Change

The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. The wording of the policy has been amended to further detail the criteria for this type of development. Garden development will only be permitted where it is in keeping with and subservient to the original dwelling and the surrounding character; w)A minimum length of 10m and no less than 1/2 or 200sqm (whichever is the smaller) of the existing garden area is retained for the host property, after the subdivision of the garden; and where there would not be a detrimental impact on existing and future occupants in terms of overlooking and outlook. The policy does not explicitly refer to biodiversity, flooding and other issues such as amenity. The Plan should be read as a whole and policies with respect to these issues will be applied as relevant to

DM 2. Known as colloquially as garden grabbing. Object on the grounds that uncontrolled ad hoc development will change the character of the area and lead to further vehicle congestion as unit take on occupants

The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. The wording of the policy has been amended to further detail the criteria for this type of development. Garden development will only be permitted where it is in keeping with and subservient to the original dwelling and the surrounding character; w)A minimum length of 10m and no less than 1/2 or 200sqm (whichever is the smaller) of the existing garden area is retained for the host property, after the subdivision of the garden; and where there would not be a detrimental impact on existing and future occupants in terms of overlooking and outlook. The policy does not explicitly refer to biodiversity, flooding and other issues such as amenity. The Plan should be read as a whole and policies with respect to these issues will be applied as relevant to

DM2 Development on garden land  
I believe that the proposed policy will effectively change the default from resisting greenfield development to ignoring or even encouraging it, with adverse consequences that the policy is precisely attempting to avoid. I suggest the wording should be more explicit:  
The Council will NOT permit new dwellings or other development within the curtilage or garden of an existing dwelling or the redevelopment of existing dwellings and their curtilage or gardens UNLESS where:  
a. It will complement the local character; and  
b. Biodiversity is protected  
c. Consequences on the local infrastructures (arising from both individual and cumulative similar development) are evaluated and taken into account.  
d. The purpose of the new dwelling is stated explicitly and subsequently checked and enforced (this is to avoid eg. garden grabbing for 'beds-in-sheds' to be rented out etc.).  
However well-intentioned these criteria appear, in practice all except d. are subjective and already not always enforced. If anything, ANY development on garden land violates clause b. as biodiversity is ALWAYS REDUCED (hence also the designation as greenfield).

The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. The wording of the policy has been amended to further detail the criteria for this type of development. Garden development will only be permitted where it is in keeping with and subservient to the original dwelling and the surrounding character; wb)A minimum length of 10m and no less than ½ or 200sqm (whichever is the smaller) of the existing garden area is retained for the host property, after the subdivision of the garden; and where there would not be a detrimental impact on existing and future occupants in terms of overlooking and outlook. The policy does not explicitly refer to biodiversity, flooding and other issues such as amenity. The Plan should be read as a whole and policies with respect to these issues will be applied as relevant to

DM2

Totally opposed to this policy. Local character and retaining biodiversity are entirely subjective and will be decided by groups that do not necessarily have to live with the consequences of this type of intensive development. It is a dangerous policy change. National policy identifies gardens as greenfield and as such there is a presumption against development. It is sacrosanct and fundamental to the quality of life in Croydon mand must not be tampered with whatever the so called safeguards may be.

Change

The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. The wording of the policy has been amended to further detail the criteria for this type of development. Garden development will only be permitted where it is in keeping with and subservient to the original dwelling and the surrounding character; wb)A minimum length of 10m and no less than 1/2 or 200sqm (whichever is the smaller) of the existing garden area is retained for the host property, after the subdivision of the garden; and where there would not be a detrimental impact on existing and future occupants in terms of overlooking and outlook. The policy does not explicitly refer to biodiversity, flooding and other issues such as amenity. The Plan should be read as a whole and policies with respect to these issues will be applied as relevant to

Both National and London policy classifies gardens as greenfield and there is an assumption against developing on gardens for this reason. New Policy DM2 says that the council will allow building on gardens if 'it will complement the local character and biodiversity is protected'. What criteria will be used to determine this protection? Biodiversity is defined as 'the existence of a wide variety of plant and animal species in their natural environments' and there should, therefore be a presumption against building on gardens. Unless the protection criteria is defined the policy is totally subjective and is, therefore a much weaker form of protection.

The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. The wording of the policy has been amended to further detail the criteria for this type of development. Garden development will only be permitted where it is in keeping with and subservient to the original dwelling and the surrounding character; w)A minimum length of 10m and no less than 1/2 or 200sqm (whichever is the smaller) of the existing garden area is retained for the host property, after the subdivision of the garden; and where there would not be a detrimental impact on existing and future occupants in terms of overlooking and outlook. DM2

I believe the criteria and rationale the Council has set-out is somewhat questionable and suspicious. This is deduced from the lack of communication from the council (of their intention) to the people who will be directly affected by such proposed changes, the short consultative "window" (6 weeks) offered and only one meeting to discuss such an important and life changing situation.

Furthermore paragraph 69 of the NPPF states that:

"Local planning authorities should create a shared vision with communities of the residential environment and facilities they wish to see. To support this, local planning authorities should aim to involve all sections of the community in the development of Local Plans and in planning decisions, and should facilitate neighbourhood planning."

I have had no contact from the Council on this issue. I strongly object to the proposal (policy) presented.

Change

The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. The wording of the policy has been amended to further detail the criteria for this type of development. Garden development will only be permitted where it is in keeping with and subservient to the original dwelling and the surrounding character; wb)A minimum length of 10m and no less than ½ or 200sqm (whichever is the smaller) of the existing garden area is retained for the host property, after the subdivision of the garden; and where there would not be a detrimental impact on existing and future occupants in terms of overlooking and outlook. The policy does not explicitly refer to biodiversity, flooding and other issues such as amenity. The Plan should be read as a whole and policies with respect to these issues will be applied as relevant to

I find the criteria given in Policy DM2 for the protection of existing garden land much too weak. I would like to see a much stronger presumption against developments on garden land. Part of the particular character of Addiscombe is produced by there being an abundance of trees and green spaces around the houses and this will be lost if development on garden space is allowed. Not only would this constitute a loss of amenity for residents but it would also have severe environmental consequences. For example: where open land is replaced by buildings and rain water is unable to drain away and the loss of biodiversity in the area. Gardens are an important environmental asset and play a vital part in providing habitats for birdlife, butterflies and, perhaps most importantly, for bees.

The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. The wording of the policy has been amended to further detail the criteria for this type of development. Change

The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. The wording of the policy has been amended to further detail the criteria for this type of development. Garden development will only be permitted where it is in keeping with and subservient to the original dwelling and the surrounding character; w)A minimum length of 10m and no less than 1/2 or 200sqm (whichever is the smaller) of the existing garden area is retained for the host property, after the subdivision of the garden; and where there would not be a detrimental impact on existing and future occupants in terms of overlooking and outlook. The policy does not explicitly refer to biodiversity, flooding and other issues such as amenity. The Plan should be read as a whole and policies with respect to these issues will be applied as relevant to

This policy is far too weak. London's Strategic Housing Land Availability Assessment, which forms the basis of London Plan housing targets, assumes that garden land will not be developed. However, the draft Croydon Local Plan says:  
The Council will permit new dwellings or other development within the curtilage or garden of an existing dwelling or the redevelopment of existing dwellings and their curtilage or gardens where:  
a) it will complement the local character; and  
b) biodiversity is protected" (page 18, Croydon Local Plan Detailed Policies & Proposals).  
The first of these two tests in particular is highly subjective and therefore very weak. I will be calling for Policy DM2 to include a much stronger presumption against development on garden land.

The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. -------------------	-----------	--------	-----	--	--------	--

2963/01/001/DM2/S	Mrs A Djemil	Support	Soundness - Effective DM2	DM2 I support this measure. Many of the large gardens in Purley are underused , and it seems to me that the professional gardeners that carry out the very noisy maintenance work make more use of these green spaces. We need to build over 40000 new houses by 2036 , and unless we agree to allow high quality houses to be built in back gardens we will fail to meet the target. It will also allow local young people to put a foot on the housing ladder by having a house built in the family back garden.	Welcome support	
-------------------	--------------	---------	------------------------------	---	-----------------	--

I understand that the following Policies will threaten our green spaces. I was born in Croydon and have lived in this area all my life (I am now 63). My parents came here from Scotland in the early 1950s. They chose this area specifically for its green spaces and it is quite unique in that facility. I spent more than 35 years in Real Estate in this area and know very well that the reason people continue to move here, is exactly for these facilities and yet remaining within easy reach of other amenities, London, the coast and airports. Of course, more housing is required but I believe the alternative suggestions to these proposals to be very valid and much more in keeping with the neighbourhood thus maintaining its attractiveness and good standard.

These proposals are ill conceived and will change this particular neighbourhood beyond all recognition and take away that for which it is well known and valued. Please hear the voices of people like me and do NOT continue with the proposed policies set out below and which can be found in your Local Plan:

The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. The wording of the policy has been amended to further detail the criteria for this type of development. Garden development will only be permitted where it is in keeping with and subservient to the original dwelling and the surrounding character; wb)A minimum length of 10m and no less than 1/2 or 200sqm (whichever is the smaller) of the existing garden area is retained for the host property, after the subdivision of the garden; and where there would not be a detrimental impact on existing and future occupants in terms of overlooking and outlook. Mr & Mrs Swift

Object

DM2

I am writing to object to the following:  
Policy DM2 re development on garden land.  
The wording chosen for this subject is highly subjective and therefore weak. London's Strategic Housing Land Availability Assessment, which forms the basis of London housing targets, assumes that garden land will not be developed.  
Croydon's draft Local Plan implies that the opposite will happen as the Council intends to permit new dwellings or other development as long as it will "complement the local character" and "bio-diversity" is protected.  
There should be a much stronger presumption against such development.

Change

The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. Back garden developments should not be allowed unless adjacent to open spaces. We need to support our wild life by preserving these areas. Without Birds and pollinating insects etc we shall all be worse off.

Change

The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. The wording of the policy has been amended to further detail the criteria for this type of development. Garden development will only be permitted where it is in keeping with and subservient to the original dwelling and the surrounding character; w)A minimum length of 10m and no less than 1/2 or 200sqm (whichever is the smaller) of the existing garden area is retained for the host property, after the subdivision of the garden; and where there would not be a detrimental impact on existing and future occupants in terms of overlooking and outlook. The policy does not explicitly refer to biodiversity, flooding and other issues such as amenity. The Plan should be read as a whole and policies with respect to these issues will be applied as relevant to

I would like to voice my Objections to the following policies in the Draft local plan.

The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. The wording of the policy has been amended to further detail the criteria for this type of development. Garden development will only be permitted where it is in keeping with and subservient to the original dwelling and the surrounding character; wb)A minimum length of 10m and no less than ½ or 200sqm (whichever is the smaller) of the existing garden area is retained for the host property, after the subdivision of the garden; and where there would not be a detrimental impact on existing and future occupants in terms of overlooking and outlook. The policy does not explicitly refer to biodiversity, flooding and other issues such as amenity. The Plan should be read as a whole and policies with respect to these issues will be applied as relevant to

I was glad to see 'garden grabbing' was considered by Mr Chris Phelps, top of his list of offending policies.

It's an issue that has blighted our end of Caterham drive for too long. A greedy developer bought a bungalow on a large plot of land, with the intention of razing it to the ground and erecting SIX properties with inadequate parking, on the threshold of a nature reserve, which already suffers flooding due to overbuild and poor drainage infrastructure. The community joined forced, pulled together and battled, that application was turned down. He reapplied to build three terrace houses (no other exist on a street one mile long, each dwelling offered parking for one and a half cars, yes that's 1/2 a car, ridiculous), with very long back gardens OR rather, enough space to annex off a plot and build three more when the dust settles.

Sadly the council seem to be on the side of those wreaking havoc in a neighbourhood (claiming the importance of 'affordable housing' as a right to destroy the character of a place and affecting the general street scene), rather than supporting those living there, the very ones who pay council tax to keep these planning officers employed.

6. Policy DM2  
Development on garden land. The proposal is very weak and is in breach of the London's Strategic Housing Land Availability Assessment, which forms the basis of London Plan housing targets and assumes that garden land will not be developed. However, the draft Croydon Local Plan says:  
"The Council will permit new dwellings or other development within the curtilment or garden of an existing dwelling or the redevelopment of existing dwellings and their curtilment or gardens where:  
a) it will complement the local character; and  
b) biodiversity is protected" (page 18, Croydon Local Plan Detailed Policies & Proposals).  
I find it hard to understand how the biodiversity can be protected when you are taking away the gardens.

The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. The wording of the policy has been amended to further detail the criteria for this type of development. Garden development will only be permitted where it is in keeping with and subservient to the original dwelling and the surrounding character; wb)A minimum length of 10m and no less than 1/2 or 200sqm (whichever is the smaller) of the existing garden area is retained for the host property, after the subdivision of the garden; and where there would not be a detrimental impact on existing and future occupants in terms of overlooking and outlook. The policy does not explicitly refer to biodiversity, flooding and other issues such as amenity. The Plan should be read as a whole and policies with respect to these issues will be applied as relevant to

Chris Lynam

Object

DM2

The criteria for permitting new dwellings or other development within the curtilage of gardens of an existing dwelling are too weak and do not meet the NPPF instructions to Local Planning Authorities. The National Planning Policy Framework Para 48 and 53, and the London Plan require Local Planning Authorities to define policies to "resist developments" on garden land. The relaxation of the criteria in Policy DM2 is contrary to this guidance and directions from the NPPF.

Change

The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. The wording of the policy has been amended to further detail the criteria for this type of development. POLICY DM2 Development on Garden land. Garden land should not be developed on Forestdale, the green areas were provided as safe areas by Wates for children to play safely and also to give the estate character. Also there is an abundance of wildlife and flora that add to it being a wonderful place to bring up a family as it was originally intended by Wates. Is Croydon intending to house people in small squatlike flats and sheds built on this land? This is what we see illegal immigrants living in and what you will try to do legally!!!!

I am already stressed by the changing face of the pleasant place in which I have lived for 29 years. I currently reside in the family home on Forestdale. At the end of my terrace we have already had the council give permission for a family home to be converted into 6 flatlets with a shared kitchen. Local residents were not consulted as the council had a ruling whereby we were unable to object, although we tried. Access is on a shared path that runs above the garages in front of our houses to the converted one at the end. There is often rubbish left outside on the walkway and garage area and one of the current residents drives his motorbike on the path past our homes when he likes at speed. From what I gather they are all single troubled men. Parking is an absolute nightmare. The area in which I live is changed and not for the better. There are also larger numbers of people living in some of the houses nearby. Our small corner has become a dangerous area to live and has already changed for the worse. Please, please do not allow these proposals to be put through or this will happen to the rest of the estate. I can see that what was a well designed family estate intended to be a safe haven by the builder Wates, changing into concrete jungle, a ghetto, a place for the dissatisfied, troubled and disaffected and a place where criminality is the norm. I feel afraid of what the future holds when I look at these plans and I feel heartily sick. Please do what is right and do not pass these proposals.

The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. The wording of the policy has been amended to further detail the criteria for this type of development. I would like to object to parts of the recent Croydon Local Plan with particular reference to the following proposals, as they all will lead to degradation of the natural environment:-

DM2 Infill building on existing gardens

DM44.2 Table 11.17 site 661 Loss of Green belt (it's there for a reason!) There must be more suitable site

DM44.2 Table 11.17 site 662 Loss of Green belt

DM31.4 Reclassification of areas of special interest

The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. The wording of the policy has been amended to further detail the criteria for this type of development. Garden development will only be permitted where it is in keeping with and subservient to the original dwelling and the surrounding character; wb)A minimum length of 10m and no less than 1/2 or 200sqm (whichever is the smaller) of the existing garden area is retained for the host property, after the subdivision of the garden; and where there would not be a detrimental impact on existing and future occupants in terms of overlooking and outlook. The policy does not explicitly refer to biodiversity, flooding and other issues such as amenity. The Plan should be read as a whole and policies with respect to these issues will be applied as relevant to

No I don't believe the approached proposed in H5 Back Land and Back Garden Development is appropriate at all for Croydon to meet its Strategic Objectives.

The listed Preferred option for Policy DM2 where ' The Council will permit new dwellings or other development within the curtilage or garden of an existing dwelling or the redevelopment of existing dwellings and their curtilage or gardens where:

a. It will complement the local character; and b. Biodiversity is protected.' is flawed as it will be open to interpretation and lead to excessive, unreasonable and out of character development that will not enhances the borough's natural environment.

Furthermore, the evidence stated in paragraph 4.19 clearly states that 'London's Strategic Housing Land Availability Assessment, which forms the basis of London Plan housing targets for Croydon, assumes that garden land will not be developed. Therefore, no allowance is made for developing on garden land in the London Plan's housing target for Croydon. As such, the protection of some gardens from development by this policy will not impact on meeting Croydon's housing targets.' therefore there is no need to amend Policy DM2 and permit new dwellings or other development with the curtilage or garden of existing dwelling in order to fulfil London Plan's housing target for Croydon.

I don't believe the approach is deliverable. it will lead to excessive, unreasonable and out of character development that will not enhances the borough's natural environment and it is also unnecessary.

Sustainability is also open to interpretation and may not be aligned with the aim to complement local character and protect biodiversity.

Just wish to reiterate my initial point regarding the modification of Policy DM2: Development on garden land.

No I don't believe and object to the approached proposed in H5 Back Land and Back Garden Development is appropriate at all for Croydon to meet its Strategic Objectives.

The listed Preferred option for Policy DM2 where ' The Council will permit new dwellings or other development within the curtilage or garden of an existing dwelling or the redevelopment of existing dwellings and their curtilage or gardens where:

a. It will complement the local character; and b. Biodiversity is protected.' is flawed as it will be open

The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. The wording of the policy has been amended to further detail the criteria for this type of development. Garden development will only be permitted where it is in keeping with and subservient to the original dwelling and the surrounding character; wb)A minimum length of 10m and no less than ½ or 200sqm (whichever is the smaller) of the existing garden area is retained for the host property, after the subdivision of the garden; and where there would not be a detrimental impact on existing and future occupants in terms of overlooking and outlook. The policy does not explicitly refer to biodiversity, flooding and other issues such as amenity. The Plan should be read as a whole and policies with respect to these issues will be applied as relevant to

to interpretation and lead to excessive, unreasonable and out of character development that will not enhance the borough's natural environment.  
 The evidence stated in paragraph 4.19 clearly states that 'London's Strategic Housing Land Availability Assessment, which forms the basis of London Plan housing targets for Croydon, assumes that garden land will not be developed. Therefore, no allowance is made for developing on garden land in the London Plan's housing target for Croydon. As such, the protection of some gardens from development by this policy will not impact on meeting Croydon's housing targets.' therefore there is no need to amend Policy DM2 and permit new dwellings or other development with the curtilage or garden of existing dwelling in order to fulfil London Plan's housing target for Croydon.

3151/01/002/DM2/O	Gillian Edwards	Object	DM2	Policy DM2 - it will complement the local character; this is too open to interpretation and could end up with gardens being used for development. Once one development is approved, others follow and the character changes.	Change	The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. DM2

We have lived in Sanderstead for over 40 years, and have thoroughly enjoyed the areas to the south of Croydon being unspoilt. In our view these ill conceived proposals will change this area beyond recognition and take away that for which it is well known and valued. Please rethink, and do not continue with the proposed policies set out below and which can be found in your Local Plan:  
Policy DM2 (p18)

Change

The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. The wording of the policy has been amended to further detail the criteria for this type of development. Garden development will only be permitted where it is in keeping with and subservient to the original dwelling and the surrounding character; w)A minimum length of 10m and no less than 1/2 or 200sqm (whichever is the smaller) of the existing garden area is retained for the host property, after the subdivision of the garden; and where there would not be a detrimental impact on existing and future occupants in terms of overlooking and outlook. The policy does not explicitly refer to biodiversity, flooding and other issues such as amenity. The Plan should be read as a whole and policies with respect to these issues will be applied as relevant to

the Council's proposed policy on development on garden land - Policy DM2 - is much too weak. London's Strategic Housing Land Availability Assessment, which forms the basis of London Plan housing targets, assumes that garden land will not be developed. However, the draft Croydon Local Plan says:  
"The Council will permit new dwellings or other development within the curtilage or garden of an existing dwelling or the redevelopment of existing dwellings and their curtilage or gardens where:  
a) it will complement the local character; and  
b) biodiversity is protected" (page 18, Croydon Local Plan Detailed Policies & Proposals).  
The first of these two tests in particular is highly subjective and therefore very weak. I will call for Policy DM2 to include a much stronger presumption against development on garden land.

The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. The wording of the policy has been amended to further detail the criteria for this type of development. Garden development will only be permitted where it is in keeping with and subservient to the original dwelling and the surrounding character; wb)A minimum length of 10m and no less than 1/2 or 200sqm (whichever is the smaller) of the existing garden area is retained for the host property, after the subdivision of the garden; and where there would not be a detrimental impact on existing and future occupants in terms of overlooking and outlook. I live in Purley, and am writing with regards to the Croydon Local Plan, about which I have the following comments:

2. Policy DM2 allows garden development to become much easier, and will provide cover for developers to be given planning consent to build on gardens. I oppose this policy as it will remove green space from our neighbourhood, and allow development on a purely subjective basis.

Change

The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. The wording of the policy has been amended to further detail the criteria for this type of development. DM2

allows for more building on land that was previously gardens. At present there is a robust National and London policy that protects gardens as greenbelt land. As a local resident I have seen my area (Kenley) and surrounding areas suffer greatly from over development of gardens. Quiet simply once a garden is built on there is destruction of biodiversity that has developed over many years. The council seems to want to allow development as long as this diversity is maintained. No attempt to preserve it can succeed once the area is built on.

Change

The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. Furthermore, I also object to policy DM2 - the proposed development on garden land.

What right do you the council have to take away homeowners gardens?

For many homeowners, one of the defining factors in the final decision to purchase the property is the availability of a personal outdoor space, in this case, a garden.

We work hard to make our garden a place not just for us to enjoy but for wildlife and nature to flourish in an ever increasing concrete jungle, it's an absolute disgrace the council can even consider taking this away from homeowners to build on.

Change

The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. DM2

Gardens are classified as greenfield, Nationally as well as by the London Council., and therefore generally protected from 'back garden development'. To weaken this policy with such phrases as allowing such building on gardens if "it will complement the local character and biodiversity is protected" is simply a 'smoke screen for allowing developers an easier access to planning approval - and should be rejected. There is already too much 'back land development', and its consequent deterioration of local environments. the policy should remain as it stands AND BE STRENGTHENED rather than 'watered down' to allow building on gardens.

Change

The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. DM2

Policy DM2 (p18) allows "garden grabs" to become much easier. National policy and London policy classifies gardens as greenfield, and there is an assumption against developing on gardens. However the new Policy DM2 says that the council will allow building on gardens if "it will complement the local character and biodiversity is protected". This is totally subjective and basically eliminates any protection against development. Yet again another way to remove green space from our neighbourhood and I oppose making it easier to build on gardens.

Change

The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. The wording of the policy has been amended to further detail the criteria for this type of development. 3350/01/002/DM2/O

Mr Robert Watson

Object

DM2

I live in crofters mead forestdale and cannot see any benefits to the areas mentioned in the above proposals. I am sure it would be better to refurbish existing properties in the area concerned and create more green areas for residents and their children to enjoy. create more sensible car parking areas people will buy cars regardless of not having a parking space and simply park in an existing space thus creating a problem for somebody else. transport for London have already created a problem by their introduction of double yellow lines which in some areas are not required. why anybody would want to create a traveller camp at pear tree farm is beyond me surely a nice new housing complex would be more suitable. forestdale and surrounding area is a very nice place to live and I cannot see any improvement to the area in your proposals. I understand that these proposals are inappropriate and unacceptable these are my views on the matter.

Change

The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. The wording of the policy has been amended to further detail the criteria for this type of development. Garden development will only be permitted where it is in keeping with and subservient to the original dwelling and the surrounding character; w) A minimum length of 10m and no less than 1/2 or 200sqm (whichever is the smaller) of the existing garden area is retained for the host property, after the subdivision of the garden; and where there would not be a detrimental impact on existing and future occupants in terms of overlooking and outlook. The policy does not explicitly refer to biodiversity, flooding and other issues such as amenity. The Plan should be read as a whole and policies with respect to these issues will be applied as relevant to

I also object to the Council's proposed policy on development on garden land - Policy DM2 - is much too weak. London's Strategic Housing Land Availability Assessment, which forms the basis of London Plan housing targets, assumes that garden land will not be developed. However, the draft Croydon Local Plan says:  
"The Council will permit new dwellings or other development within the curtilage or garden of an existing dwelling or the redevelopment of existing dwellings and their curtilage or gardens where:  
a) it will complement the local character; and  
b) biodiversity is protected" (page 18, Croydon Local Plan Detailed Policies & Proposals).  
The first of these two tests in particular is highly subjective and therefore very weak. Policy DM2 needs to include a much stronger presumption against development on garden land.

DM2

Not for nothing did London's Strategic Housing Land Availability Assessment exclude gardens! The notion of 'complementing the local character' is completely spurious - a fish-and-chip shop or a nightclub could be argued to complement local residential development! From my own local experience I could take you to locations in Shirley and Addiscombe where recent buildings do anything but complement the environment in the view of any reasonable person.

Change

The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. The wording of the policy has been amended to further detail the criteria for this type of development. Garden development will only be permitted where it is in keeping with and subservient to the original dwelling and the surrounding character; w)A minimum length of 10m and no less than 1/2 or 200sqm (whichever is the smaller) of the existing garden area is retained for the host property, after the subdivision of the garden; and where there would not be a detrimental impact on existing and future occupants in terms of overlooking and outlook. The policy does not explicitly refer to biodiversity, flooding and other issues such as amenity. The Plan should be read as a whole and policies with respect to these issues will be applied as relevant to

DM2

This seems a very vague policy, however it could lead to completely inappropriate development on garden land.

Change

The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. The wording of the policy has been amended to further detail the criteria for this type of development. Garden development will only be permitted where it is in keeping with and subservient to the original dwelling and the surrounding character; w)A minimum length of 10m and no less than 1/2 or 200sqm (whichever is the smaller) of the existing garden area is retained for the host property, after the subdivision of the garden; and where there would not be a detrimental impact on existing and future occupants in terms of overlooking and outlook. The policy does not explicitly refer to biodiversity, flooding and other issues such as amenity. The Plan should be read as a whole and policies with respect to these issues will be applied as relevant to

I also strongly object to Garden Grabbing Policy DM2 (p18) refers. You only have to look around Sanderstead and surrounding areas to see how much land has been lost to Garden Grabbing. And this is with current planning laws in place. The loss of garden space has impacted on the habitat for birds and insects and there is also less natural soil surface area for rainwater drainage, Even with current legislation in place, some home owners and landlords in and around Croydon area have exploited the current planning regulations and have built, one can only describe them as permanent out building structures disguised as garden sheds, when in fact these structures are little more than illegal dwellings for vulnerable people needing a place to live. The Council hardly has the resource to police this growing problem and then to further relax the current rules and regulations seems like madness to me. We really need to tighten the regulations on Garden Grab even further and not relax them.

I firmly believe that having strong planning regulations protects our environment and encourages/forces developers to take Brown Field sites more seriously rather than take the easy options.

The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. The wording of the policy has been amended to further detail the criteria for this type of development. Garden development will only be permitted where it is in keeping with and subservient to the original dwelling and the surrounding character; wb)A minimum length of 10m and no less than ½ or 200sqm (whichever is the smaller) of the existing garden area is retained for the host property, after the subdivision of the garden; and where there would not be a detrimental impact on existing and future occupants in terms of overlooking and outlook. This Policy DM2 allows "garden  
grabs2

Change

The proposal to build on garden land if it complements the local character is subjective. A developer and land seller will have the opposite view to local residents who don't wish to see their properties overlooked by new properties located in back gardens.

If back land development on green belt gardens is to be considered there must be specific distances stated between properties to reduce overlooking. Adequate access to the back land development, allowing for emergency vehicles and refuse collection. One or two properties built between two rows of street frontage houses would be out of place and spoil the character.

The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. The wording of the policy has been amended to further detail the criteria for this type of development. Garden development will only be permitted where it is in keeping with and subservient to the original dwelling and the surrounding character; wb)A minimum length of 10m and no less than 1/2 or 200sqm (whichever is the smaller) of the existing garden area is retained for the host property, after the subdivision of the garden; and where there would not be a detrimental impact on existing and future occupants in terms of overlooking and outlook. The policy does not explicitly refer to biodiversity, flooding and other issues such as amenity. The Plan should be read as a whole and policies with respect to these issues will be applied as relevant to

The proposal relating to garden development is flawed for reasons outlined below.

Change

The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. The wording of the policy has been amended to further detail the criteria for this type of development. Garden development will only be permitted where it is in keeping with and subservient to the original dwelling and the surrounding character; w)A minimum length of 10m and no less than 1/2 or 200sqm (whichever is the smaller) of the existing garden area is retained for the host property, after the subdivision of the garden; and where there would not be a detrimental impact on existing and future occupants in terms of overlooking and outlook. The policy does not explicitly refer to biodiversity, flooding and other issues such as amenity. The Plan should be read as a whole and policies with respect to these issues will be applied as relevant to

Specifically we consider that almost all proposals to build residences on gardens would be a threat to local character and biodiversity. In our assessment, developments on gardens big enough to accommodate an additional residence will always have adverse consequences, including consequences captured by the two grounds for objection – biodiversity and local character. Therefore what is the point of the change?

We do not understand why the council is seeking to increase the stress and worry placed on local residents, many of whom are elderly and without access to IT, for what appears to be a pointless policy change.

Moreover, we would have thought dealing with speculative applications would also be a drain on council staffing resources that could be better deployed on measures more likely to lead to improved housing provision in Croydon.

A key aspect of sustainable development is the quality of life of people who live here Like many local residents we chose to move to Purley from inner London some years ago in search of peace, good air quality, biodiversity and quality of life. Having a good sized garden surrounded by similar properties in a stable area was key to our decision to move and continues to be key to our quality of life.

The Riddlesdown estate was carefully and deliberately designed to provide accommodation of a particular type. Allowing inappropriate building on gardens would destroy the character of the local area forever.

Fear of speculative applications Our fear is that introducing subjectivity into planning regulations will lead to speculative planning applications and the buying up of properties by developers with a view to creating several residences on one site.

Stress and time wasting arising Whilst we consider that we would have good grounds for objecting to such development in properties located nearby on the two grounds specified we do not want to be involved in the wasted time and effort

this would involve. More generally, we do not understand why the council is seeking to increase the stress and worry placed on local residents, many of whom are elderly and without access to IT, for what appears to be a pointless policy change.

To sum up we strongly object to the proposal and see no reason to deviate from national planning guidance which treats gardens as greenfield land.

Like many local residents we chose to move to Purley from inner London some years ago in search of peace, good air quality, biodiversity and quality of life. Having a good sized garden surrounded by similar properties in a stable area was key to our decision to move and continues to be key to our quality of life. DM2

To cram more and more houses and flats into the designated areas would destroy their character and to build on existing green belt and back gardens would be completely inappropriate, as well as placing additional stress on local facilities and amenities.  
I urge the Council to reconsider these proposals and adopt a more sensitive agenda using only space and land capable of absorbing additional development.

Change

The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. The wording of the policy has been amended to further detail the criteria for this type of development. Garden development will only be permitted where it is in keeping with and subservient to the original dwelling and the surrounding character; wb)A minimum length of 10m and no less than 1/2 or 200sqm (whichever is the smaller) of the existing garden area is retained for the host property, after the subdivision of the garden; and where there would not be a detrimental impact on existing and future occupants in terms of overlooking and outlook. DM2

I am writing to you to tell you that I object to a number of points in Croydon Councils Local Plan. I have listed some of the issues with which I object below.  
1. Policy DM2 (p18)  
I object to the reclassification of gardens as greenbelt. Gardens provide a huge amount of green space in South Croydon and help define the character of the area. This character is less urban than further into London. By maintaining green belt status for gardens the urban sprawl will be avoided which is one of the aims of the green belt. It is vital to maintain the green belt and avoid a further unwanted expansion of an already struggling London.

Change

The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. The wording of the policy has been amended to further detail the criteria for this type of development. Garden development will only be permitted where it is in keeping with and subservient to the original dwelling and the surrounding character; w) A minimum length of 10m and no less than 1/2 or 200sqm (whichever is the smaller) of the existing garden area is retained for the host property, after the subdivision of the garden; and where there would not be a detrimental impact on existing and future occupants in terms of overlooking and outlook. The policy does not explicitly refer to biodiversity, flooding and other issues such as amenity. The Plan should be read as a whole and policies with respect to these issues will be applied as relevant to

DM2

I object to Policy DM2 - Development of garden land - why loose much needed green garden land...?

Change

The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. The wording of the policy has been amended to further detail the criteria for this type of development. Garden development will only be permitted where it is in keeping with and subservient to the original dwelling and the surrounding character; w)A minimum length of 10m and no less than 1/2 or 200sqm (whichever is the smaller) of the existing garden area is retained for the host property, after the subdivision of the garden; and where there would not be a detrimental impact on existing and future occupants in terms of overlooking and outlook. The policy does not explicitly refer to biodiversity, flooding and other issues such as amenity. The Plan should be read as a whole and policies with respect to these issues will be applied as relevant to

Lastly, the Council's proposed policy on development on garden land, Policy DM2.. i.e relaxing the rules for allowing back garden developments. I don't believe such development will complement the local character of Shirley. Again , such building will impact on local infrastructure. More parking spaces will be needed to deal with the extra residences resulting in more strain on the local roads, especially, Wickham Road, the red route. As the name implies, SpringPark is an area of springs and I would be concerned about possible changes to the water table if such development were to go ahead. I therefore would object to such relaxation of the current rules.

The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. The wording of the policy has been amended to further detail the criteria for this type of development. Garden development will only be permitted where it is in keeping with and subservient to the original dwelling and the surrounding character; w)A minimum length of 10m and no less than 1/2 or 200sqm (whichever is the smaller) of the existing garden area is retained for the host property, after the subdivision of the garden; and where there would not be a detrimental impact on existing and future occupants in terms of overlooking and outlook. The policy does not explicitly refer to biodiversity, flooding and other issues such as amenity. The Plan should be read as a whole and policies with respect to these issues will be applied as relevant to

As a local affected resident, I am registering my comments and objections to the proposals as documented in the Croydon Local Plans CLP1.1 and CLP2

2 Proposed Policy DM2 Development on Garden Land.  
The criteria for permitting new dwellings or other development within the curtilage of gardens of an existing dwelling are too weak and do not meet the NPPF instructions to Local Planning Authorities. The National Planning Policy Framework Para 48 and 53, and the London Plan require Local Planning Authorities to define policies to "resist developments" on garden land. The relaxation of the criteria in Policy DM2 is contrary to this guidance and directions from the NPPF.

The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. The wording of the policy has been amended to further detail the criteria for this type of development. Garden development will only be permitted where it is in keeping with and subservient to the original dwelling and the surrounding character; w)A minimum length of 10m and no less than 1/2 or 200sqm (whichever is the smaller) of the existing garden area is retained for the host property, after the subdivision of the garden; and where there would not be a detrimental impact on existing and future occupants in terms of overlooking and outlook. DM2

I wish to object to this policy. For centuries parks and green spaces have been an important part of urban living where people can walk and relax. It would be a sad day if these open spaces were lost for ever. We have enjoyed open places and do not want to see them lost for future generations when with a bit of imagination brownfield sites could be considered ahead of the green belt. Future generations will not thank us for destroying their heritage , and character of their local community. We are aware of the need for housing but here in Sanderstead we have already seen a lot of development in recent years, and its character slowly being eroded.

Change

The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. The wording of the policy has been amended to further detail the criteria for this type of development. The wording of the policy has been amended to further detail the criteria for this type of development. Garden development will only be permitted where it is in keeping with and subservient to the original dwelling and the surrounding character; w)A minimum length of 10m and no less than 1/2 or 200sqm (whichever is the smaller) of the existing garden area is retained for the host property, after the subdivision of the garden; and where there would not be a detrimental impact on existing and future occupants in terms of overlooking and outlook. The policy does not explicitly refer to biodiversity, flooding and other issues such as amenity. The Plan should be read as a whole and policies with respect to these issues will be applied as relevant to

This is subjective and weak. It also goes against London's Strategic Housing Land Availability Assessment, which forms the basis of London Plan housing targets, and assumes that garden land will not be developed.

It also indicates a short term approach, and the greater density and intensification will not result in the type of sustainable communities being sought.

There should in fact be a stronger presumption against the development on garden land.

The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. Object

DM2

Sixth, the Council's proposed policy on development on garden land - Policy DM2 - is much too weak. London's Strategic Housing Land Availability Assessment, which forms the basis of London Plan housing targets, assumes that garden land will not be developed. However, the draft Croydon Local Plan says: "The Council will permit new dwellings or other development within the curtilage or garden of an existing dwelling or the redevelopment of existing dwellings and their curtilage or gardens where:  
a) it will complement the local character; and  
b) biodiversity is protected" (page 18, Croydon Local Plan Detailed Policies & Proposals).  
The first of these two tests in particular is highly subjective and therefore very weak. Policy DM2 should include a much stronger presumption against development on garden land.

Change

The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. DM2

The Council's proposed policy on development on garden land - Policy DM2 - is much too weak. London's Strategic Housing Land Availability Assessment, which forms the basis of London Plan housing targets, assumes that garden land will not be developed. However, the draft Croydon Local Plan says: The Council will permit new dwellings or other development within the curtilage or garden of an existing dwelling or the redevelopment of existing dwellings and their curtilage or gardens where:  
a) it will complement the local character; and  
b) biodiversity is protected (page 18, Croydon Local Plan Detailed Policies & Proposals).  
The first of these two tests in particular is highly subjective and therefore, I believe, very weak. I ask for Policy DM2 to include a much stronger presumption against development on garden land.

Change

The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. The wording of the policy has been amended to further detail the criteria for this type of development. Garden development will only be permitted where it is in keeping with and subservient to the original dwelling and the surrounding character; wb)A minimum length of 10m and no less than 1/2 or 200sqm (whichever is the smaller) of the existing garden area is retained for the host property, after the subdivision of the garden; and where there would not be a detrimental impact on existing and future occupants in terms of overlooking and outlook. The policy does not explicitly refer to biodiversity, flooding and other issues such as amenity. The Plan should be read as a whole and policies with respect to these issues will be applied as relevant to

DM2

This appears to allow 'garden grabbing' to become much easier for developers to use what is officially classed as 'green sites'. There should be a presumption against building on gardens. I oppose making it 'easier' to build on gardens and so oppose this Policy DM2

Change

The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. The wording of the policy has been amended to further detail the criteria for this type of development. Garden development will only be permitted where it is in keeping with and subservient to the original dwelling and the surrounding character; w)A minimum length of 10m and no less than 1/2 or 200sqm (whichever is the smaller) of the existing garden area is retained for the host property, after the subdivision of the garden; and where there would not be a detrimental impact on existing and future occupants in terms of overlooking and outlook. The policy does not explicitly refer to biodiversity, flooding and other issues such as amenity. The Plan should be read as a whole and policies with respect to these issues will be applied as relevant to

I wish to object to many of the points currently being proposed in the new recently published draft "Local Plan" that is currently in the public domain for consultation.

Points that I wish to object to are noted below.

1.Potential for Garden infill

As you are aware current National policy and London policy classifies gardens as greenfield, and there is an assumption against developing on gardens. However the new Policy DM2 (p18) says that the council will allow building on gardens if 'it will complement the local character and biodiversity is protected'. Garden infill, by definition, will not complement the local character and will always reduce biodiversity simply through the lost footprint area of land built on. The assumption that 'it will complement the local character' is totally subjective and thus is a much reduced form of protection against garden infilling, and will provide for the possibility for developers to be given planning consent to build on gardens. I oppose the possibility of making it easier to build on gardens as it will remove green space from the neighbourhood and, through overcrowding and building, completely change its character. The presumption against building garden infill should remain.

The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. The wording of the policy has been amended to further detail the criteria for this type of development. Garden development will only be permitted where it is in keeping with and subservient to the original dwelling and the surrounding character; wb)A minimum length of 10m and no less than ½ or 200sqm (whichever is the smaller) of the existing garden area is retained for the host property, after the subdivision of the garden; and where there would not be a detrimental impact on existing and future occupants in terms of overlooking and outlook. The policy does not explicitly refer to biodiversity, flooding and other issues such as amenity. The Plan should be read as a whole and policies with respect to these issues will be applied as relevant to

It is with regret that I feel the need to object to the following proposals:-

Purley skyscraper Policy DM40.1.

I feel this proposal is completely out of keeping with the surrounding area and I strongly oppose it.

Garden acquisition Policy DM2

This will make 'garden grabs' far too easy in my opinion, is far too subjective and is therefore a far weaker form of protection.

Sanderstead Lidl site Policy DM41.3

This proposal will likely cause real problems to traffic in the vicinity and I do not think it is an appropriate site for retail development.

Loss of Green Belt at Coombe Playing Fields and Croham Hurst Policy DM44.2

I believe that both of these locations should remain Green Belt and that re-designation is inappropriate. It will impact the area badly and in conjunction with other changes steadily change the nature of the area for the worse.

The Gypsy/Traveller site on Conduit Lane Policy DM44.2

Finally I most strongly object to Council plans to develop a Gypsy/Traveller site here. I feel it is totally inappropriate placing this on Green Belt land and is in direct contravention of the "Planning Policy for Traveller Sites" published by the Government just last August!

CR8 5JH

The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. The wording of the policy has been amended to further detail the criteria for this type of development. Garden development will only be permitted where it is in keeping with and subservient to the original dwelling and the surrounding character; w)A minimum length of 10m and no less than 1/2 or 200sqm (whichever is the smaller) of the existing garden area is retained for the host property, after the subdivision of the garden; and where there would not be a detrimental impact on existing and future occupants in terms of overlooking and outlook. The policy does not explicitly refer to biodiversity, flooding and other issues such as amenity. The Plan should be read as a whole and policies with respect to these issues will be applied as relevant to

I was raised on the Ballards Farm Estate and now live in Sanderstead and plan to remain here for the rest of my life. I am appalled and some of the proposals in this document. I feel a strong threat to some of the lovely and vital designated green belt spaces we have always enjoyed in this area. Please do not remove them; they help make the areas that are away from the main town such a pleasant place to live.

These are my objection to proposals in the above document and I hope they will be taken into account when decisions are made.

#### Policy DM2 Development on Garden Land

I am aghast that you propose to go against the National Planning Policy which prioritises Brownfield developments and classes gardens as green belt as this is a national standard that should be adhered to. The evidence you have quoted in 4.15 shows that this is the case. 4.16 of your evidence must be adhered to so residents who know the area have a right of making the full impact of any development clear to planners. I have first hand experience that the findings quoted in 4.17 are the reality of what happens when a garden space is built on. Giving reference to the statements of 4.15, 4.16, 4.17 you cannot then conclude that the Council should allow building on Garden Land and I notice there is only 1 option, so that is not an option. What about the option to adhere to the National Planning Policy?

Your justification for this change of stance is not realistic. The council seem not to understand that builders are building only building to make money and they want to maximize the space available and will sell the property and have no concern of the visual impact of their building or the invasion of existing resident's privacy and the additional impact of traffic to the area. Builders know that the council do not have the resources to check developments so basically create as big a building as possible to maximize their profit. If you allow this proposal this situation will get worse.

To say bio-diversity must be protected is not realistic either. I have seen builders get the land, chop down a garden full of beautiful mature trees and then tell planners there are no trees or wildlife there. By time the residents know what is happening it is too late as residents are not aware of their rights or

The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. The wording of the policy has been amended to further detail the criteria for this type of development. Garden development will only be permitted where it is in keeping with and subservient to the original dwelling and the surrounding character; w)A minimum length of 10m and no less than ½ or 200sqm (whichever is the smaller) of the existing garden area is retained for the host property, after the subdivision of the garden; and where there would not be a detrimental impact on existing and future occupants in terms of overlooking and outlook. The policy does not explicitly refer to biodiversity, flooding and other issues such as amenity. The Plan should be read as a whole and policies with respect to these issues will be applied as relevant to

planning rules and need protecting by their local planning department. It is very detrimental to the character of existing streets to "shoehorn" buildings in and causes wildlife that will have been there for many years to lose their habitat. The retention of trees and green areas in a residential area is vital. These areas are important to maintain good air in the area and provide a soothing break to the eye from buildings and should not be lost. Surely there are many Brownfield sites and land with derelict properties on in the Croydon area that should be prioritised for development and could be improved. The back gardens must remain designated as green belt and I object strongly to this proposal.

Gardens acquisition – this tactic is far too general and enabling. It risks the spoliation of areas of greenery and pleasant living conditions for no gain. The conditions of acquisition must be tightly drawn with stringent criteria if such a policy is even considered.

Change

The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. Garden development will only be permitted where it is in keeping with and subservient to the original dwelling and the surrounding character; w)A minimum length of 10m and no less than 1/2 or 200sqm (whichever is the smaller) of the existing garden area is retained for the host property, after the subdivision of the garden; and where there would not be a detrimental impact on existing and future occupants in terms of overlooking and outlook. The policy does not explicitly refer to biodiversity, flooding and other issues such as amenity. The Plan should be read as a whole and policies with respect to these issues will be applied as relevant to

Policy DM2 on development on garden land, which is too weak.

London's Strategic Housing Land Availability Assessment assumes that garden land will not be developed. The plan's proposal that the Council will permit new dwellings or other development where "it will complement the local character" is very subjective and extremely difficult to determine.

The proposed uses of Policy DM31.4 and Policy DM2 are inconsistent with the Croydon Local Plan's Strategic Objective 5: Ensure that high quality new development both integrates, respects and enhances the borough's natural environment and built heritage.

The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. The wording of the policy has been amended to further detail the criteria for this type of development. Garden development will only be permitted where it is in keeping with and subservient to the original dwelling and the surrounding character; w)A minimum length of 10m and no less than 1/2 or 200sqm (whichever is the smaller) of the existing garden area is retained for the host property, after the subdivision of the garden; and where there would not be a detrimental impact on existing and future occupants in terms of overlooking and outlook. DM2

We have recently experienced flooding in the area and in the country. It has been explained repeatedly that concreting over any green areas contributes to the severity of the floods. Purley is already an area prone to flooding so any loss of gardens and green areas would be detrimental to the entire area and the environment generally.

Change

The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. The wording of the policy has been amended to further detail the criteria for this type of development. DM2

Policy DM2 (p18) allows 'garden grabs; to become much easier. National policy and London policy classifies gardens as greenfield, and there is an assumption against developing on gardens. But new Policy DM2 says that the council will allow building on gardens if it will complement the local character and biodiversity is protected'. This is totally subjective and so is a much weaker form of protection, and will provide cover for developers to be given planning consent to build on gardens. I oppose making it easier to build on gardens as it will remove green space from our neighbourhood. There should be a presumption against building on gardens.

Change

The policy complies with the provisions of the NPPF and the London Plan. Reference:- 128 504 541 542 548

I am a resident of Shirley and strongly object to the current proposals to build on green belt land on the Shirley Oaks and surrounding areas.

There are plenty of brown sites that are unoccupied and could fulfill the purpose of providing new homes. Shirley is already tight for school places. St John's, in Spring Park Road, is increasing to 2 form entry already with the number of children living locally requiring education. The 367 bus serving the Shirley Oaks Village is infrequent and much more transport will be required. Parking is already a nightmare and with the lack of parking contemplated with the new build supply the problem will only get worse. There will be an incredible build up of traffic on the already congested Wickham Road and other local roads.

I believe this proposed building of traveller's sites and homes will change the whole ethos of Shirley and cause resentment and the lowering of living standards. This is a particular area of standard housing and should not be changed by the building of blocks of houses. Garden land should not be built on and this is an inappropriate development and should not be allowed to go ahead. Metropolitan Open Land has the same protection as the Green Belt and the rules should be followed accordingly..

The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. The wording of the policy has been amended to further detail the criteria for this type of development. Garden development will only be permitted where it is in keeping with and subservient to the original dwelling and the surrounding character; w)A minimum length of 10m and no less than ½ or 200sqm (whichever is the smaller) of the existing garden area is retained for the host property, after the subdivision of the garden; and where there would not be a detrimental impact on existing and future occupants in terms of overlooking and outlook. The policy does not explicitly refer to biodiversity, flooding and other issues such as amenity. The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. The wording of the policy has been amended to further detail the criteria for this type of development. Garden development will only be permitted where it is in keeping with and subservient to the original dwelling and the surrounding character; w)A minimum length of 10m and no less than 1/2 or 200sqm (whichever is the smaller) of the existing garden area is retained for the host property, after the subdivision of the garden; and where there would not be a detrimental impact on existing and future occupants in terms of overlooking and outlook. The policy does not explicitly refer to biodiversity, flooding and other issues such as amenity. The Plan should be read as a whole and policies with respect to these issues will be applied as relevant to

I am grateful to the Council for consulting on the detailed policies and proposals that will make up the Croydon Local Plan. There is much in the document that I agree with, but some of the proposals would, in my opinion, change the character of parts of Croydon very much for the worse. I hope you will forgive me if I focus on these areas of contention. I am therefore writing to formally object to:

1. de-designation of the Metropolitan Open Land around Shirley Oaks Village;

2. the use of the following five sites for housing:

- land at Poppy Lane reference number 128;

- Stroud Green Pumping Station, 140 Primrose Lane reference number 504;

- land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House reference number 541;

- land to the west of Shirley Oaks Road reference number 542; and

- land to the rear of 5-13 Honeysuckle Gardens reference number 548.

If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces. Building housing on them would mean the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of this part of Shirley. As far as I can see, these are the only bits of Metropolitan Open Land in the whole borough which the Council is proposing to de-designate and allow housing to be built on. Why has Shirley Oaks been singled out in this way?

3. the use of the following locations as gypsy/traveller sites:

- Coombe Farm off Oaks Road reference number 502;

- Coombe Lodge Nurseries off Conduit Lane reference number 661; and

- Pear Tree Farm and Pear Tree Farm Cottage on Featherbed Lane reference number 755;

As the Council acknowledges, all three of these sites are in the Green Belt and one of them borders a Site

The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. The wording of the policy has been amended to further detail the criteria for this type of development. Garden development will only be permitted where it is in keeping with and subservient to the original dwelling and the surrounding character; w) A minimum length of 10m and no less than 1/2 or 200sqm (whichever is the smaller) of the existing garden area is retained for the host property, after the subdivision of the garden; and where there would not be a detrimental impact on existing and future occupants in terms of overlooking and outlook. The policy does not explicitly refer to biodiversity, flooding and other issues such as amenity. The Plan should be read as a whole and policies with respect to these issues will be applied as relevant to

of Nature Conservation Interest.  
Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly:

“Traveller sites (temporary or permanent) in the Green Belt are inappropriate development”.

The Council's approach is clearly in breach of that policy. All three sites are also some distance from public services and they are all in the same part of the borough (two are in Heathfield ward, one just over the border in Croham). Why has Heathfield been singled out in this way? If the Council really needs, as it claims, to quadruple the number of gypsy/traveller sites in the borough - which I would question - they should look elsewhere (for example, off the Purley Way where the existing site is);

4.focussed intensification associated with gradual change of an area's local character under Policy DM31.4 of the Shirley Road Shopping Parade, Shirley local centre and Forestdale. Shirley Road Shopping Parade is surely worthy of protecting rather than replacing with medium-rise blocks? Shirley local centre is defined not just as a stretch of the Wickham Road (where some intensification may be appropriate) but Ridgemount Avenue, Wickham Avenue, Peregrine Gardens, West Way Gardens, the northern section of Hartland Way and the western parts of Bennetts Way and Devonshire Way. Replacing the largely semi-detached buildings in these residential roads with medium-rise blocks would completely change the character of Shirley. Replacing the largely terraced housing and small blocks of flats in Forestdale with medium-sized blocks would completely change that area too;

5.Policy DM2 on development on garden land, which is too subjective and therefore too weak. There should be a much stronger presumption against development on garden land; and

6.Policy DM28, which should allow higher levels of parking in developments of low public transport accessibility. Restricting parking spaces in such areas doesn't lead to fewer people owning their own car; it just leads to greater competition for existing spaces.

DM2

I wish to object to the following items in Croydon Council's Local Plan 1. Garden Grabbing as listed in Policy DM2 (p18) will allow building on gardens as long as it will complement the local character and biodiversity is protected. Having gone through this process with my neighbour on Pampisford Road which resulted in permission being granted to turn his property and garden into 9 flats and a garage with access to the Close, we can say this is totally subjective and so should be a presumption against building on gardens. Also this does away with our green spaces, reducing bio-diversity and increasing the risk of flooding.

Change

The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. Soundness - DM2  
Justified

I strongly oppose to building in gardens. Firstly gardens are an important space for individuals to relax in from their busy lives. Gardens are also spaces for birds and wildlife. By reducing them our wildlife will gradually disappear. Also the reduction in trees and shrubs will cause more flooding, as there will be no roots to suck up the water. The trees also produce oxygen, which we breathe in, so this will result in more health problems.

Change

The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. DM2

Dear Councillors, I would like to officially put forward to you my strong objection to some of the policies that you are proposing within Croydon. My objections are particularly directed to the following policies:  
DM2 Garden grab

Change

The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. The wording of the policy has been amended to further detail the criteria for this type of development. Garden development will only be permitted where it is in keeping with and subservient to the original dwelling and the surrounding character; w)A minimum length of 10m and no less than 1/2 or 200sqm (whichever is the smaller) of the existing garden area is retained for the host property, after the subdivision of the garden; and where there would not be a detrimental impact on existing and future occupants in terms of overlooking and outlook. The policy does not explicitly refer to biodiversity, flooding and other issues such as amenity. The Plan should be read as a whole and policies with respect to these issues will be applied as relevant to

The Council's proposed policy on development on garden land - Policy DM2 - is much too weak. London's Strategic Housing Land Availability Assessment, which forms the basis of London Plan housing targets, assumes that garden land will not be developed. However, the draft Croydon Local Plan says:

"The Council will permit new dwellings or other development within the curtilage or garden of an existing dwelling or the redevelopment of existing dwellings and their curtilage or gardens where:

a) it will complement the local character; and

b) biodiversity is protected" (page 18, Croydon Local Plan Detailed Policies & Proposals).

The first of these two tests in particular is highly subjective and therefore very weak. I object to this strongly.

The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. The wording of the policy has been amended to further detail the criteria for this type of development. Garden development will only be permitted where it is in keeping with and subservient to the original dwelling and the surrounding character; wb)A minimum length of 10m and no less than 1/2 or 200sqm (whichever is the smaller) of the existing garden area is retained for the host property, after the subdivision of the garden; and where there would not be a detrimental impact on existing and future occupants in terms of overlooking and outlook. DM2

There is a suggestion that the planning hurdle relating to the use of gardens for further buildings will lead, inevitably, to an increase in building density and, more importantly, to a loss of open ground to handle water run off. We have recently experienced flooding in the Borough and loss of gardens to hard structure will not be helpful in preventing further incidents. I am also concerned that some applications are being made to build outbuildings for offices in gardens, changing the character of purely residential areas.

Object to Policy DM 2 on development on garden land.

This is subjective and weak. It also goes against London's Strategic Housing Land Availability Assessment, which forms the basis of London Plan housing targets, and assumes that garden land will not be developed.

It also indicates a short term approach, and the greater density and intensification will not result in the type of sustainable communities being sought.

There should in fact be a stronger presumption against the development on garden land. More densely populated areas will result in more cars, more pressure on busy roads during peak hours and more crowding on buses as well as reducing the green areas that help absorb the heavy rainfalls that are becoming more of a concern.

The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. The wording of the policy has been amended to further detail the criteria for this type of development. Object

DM2

Such development is often very contentious and causes unbelievable distress and harm to residents in the immediate and wider locality. Short term development approvals which are sometimes ill conceived, poorly designed, lack respect for the historical style of local housing stock, maybe politically motivated, and are often only for the developer's personal financial and selfish gain, should have no place in the Council's planning policies and should be rigorously vetted by cross party reviews. The proposed policy is too weak and subjective, and does not comply with the London Plan.

Change

The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. Soundness - DM2  
Effective

I am grateful to the Council for consulting on the detailed policies and proposals that will make up the Croydon Local Plan. There is much in the document that I agree with, but some of the proposals would, in my opinion, change the character of parts of Croydon very much for the worse. I hope you will forgive me if I focus on these areas of contention. I am therefore writing to formally object to:  
5. Policy DM2 on development on garden land, which is too subjective and therefore too weak. There should be a much stronger presumption against development on garden land.

Change

Object

DM2

Policy DM2 on development on garden land  
Any relaxation of policy on garden land would greatly affect Shirley, which is an area of two-storey family houses, many with large gardens. To permit development of rear gardens would be disastrous, since gardens provide a vital environmental and ecological support. The proposed criteria to allow such development are subjective, allowing wide variety in interpretation: the policy needs stiffening to incorporate a much stronger assumption against development on garden land. This is especially needed, given that the London Strategic Housing Land Availability Assessment, which forms the basis of London Plan housing targets, assumes that garden land will not be developed at all.

Change

The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. DM2

I object to Policy DM2: Development on Garden Land, as the policy is too weak, too subjective and does not comply with the London Plan.

Change

The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. The wording of the policy has been amended to further detail the criteria for this type of development. Garden development will only be permitted where it is in keeping with and subservient to the original dwelling and the surrounding character; w)A minimum length of 10m and no less than 1/2 or 200sqm (whichever is the smaller) of the existing garden area is retained for the host property, after the subdivision of the garden; and where there would not be a detrimental impact on existing and future occupants in terms of overlooking and outlook. The policy does not explicitly refer to biodiversity, flooding and other issues such as amenity. The Plan should be read as a whole and policies with respect to these issues will be applied as relevant to

Proposed Policy DM2 Development on Garden Land.  
The criteria for permitting new dwellings or other development within the curtilage of gardens of an existing dwelling are too weak and do not meet the NPPF instructions to Local Planning Authorities.

The NPPF states at para 46 the Local Planning Authorities should set out policies to 'resist' inappropriate development on garden land — the proposed policies gives guidance by which needs to be considered for 'approval' of development on garden land. The first criteria, where "It would complement the local character?" is highly subjective and unquantifiable. The second criteria, "where biodiversity is protected" is also too vague and indeterminable to make any informed judgement I object to these criteria being used in the determination of acceptable development on garden land, as they undermine the presumption against development on garden land and therefore ask for stronger positive criteria "to resist" development on garden land to be defined.

The National Planning Policy Framework Part 48 and 53, and the London Plan require Local Planning Authorities to define policies to "resist development" on garden land. The relaxation of the criteria in Policy DM2 is contrary to this guidance and directions from the NPPF.

For the reasons given above:

1. I do not think that the preferred approach is the most appropriate for Croydon to help us meet our Strategic Objectives set out in Section 3.
2. The preferred approach is deliverable, but not acceptable,
3. I do not think the preferred approach enables sustainable development, because it will compromise the ability to meet the needs of future generations.
4. I recommend that consultation documents of such importance are given much wider publicity.

The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. The wording of the policy has been amended to further detail the criteria for this type of development. Garden development will only be permitted where it is in keeping with and subservient to the original dwelling and the surrounding character; w)A minimum length of 10m and no less than 1/2 or 200sqm (whichever is the smaller) of the existing garden area is retained for the host property, after the subdivision of the garden; and where there would not be a detrimental impact on existing and future occupants in terms of overlooking and outlook. Object to DM2 as it is too weak

Change

The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. The wording of the policy has been amended to further detail the criteria for this type of development. Garden development will only be permitted where it is in keeping with and subservient to the original dwelling and the surrounding character; w)A minimum length of 10m and no less than 1/2 or 200sqm (whichever is the smaller) of the existing garden area is retained for the host property, after the subdivision of the garden; and where there would not be a detrimental impact on existing and future occupants in terms of overlooking and outlook. The policy does not explicitly refer to biodiversity, flooding and other issues such as amenity. The Plan should be read as a whole and policies with respect to these issues will be applied as relevant to

The Plan should be read as a whole and policies with respect to these issues will be applied as relevant to

I understand the need for regeneration, new housing and for spaces for travellers to rest. However I am deeply concerned as to your current plans in using Croydon's fabulous green spaces and encroaching on and changing existing, thriving communities with vague plans for developments. We have brownfield sites that could be used for these purposes as well as alternative proposals. I am writing to strongly object to; 1. The focused intensification with gradual change of area's local character under policy DM31.4 of Forestdale and Policy DM2 development of garden land. Forestdale is currently a family estate with young couples and families living in small maisonettes and family houses. Why on earth would we want to 'alter over time,' have 'large buildings with strong frontage's and 'development on garden land' in this wonderful green estate with protected trees? The centre of Croydon has fantastic new developments of some such homes which are urban living for those who desire it- you do not need to encroach on family housing and gardens to do this. It would completely change the character of the homes and family areas where children still play safely outside to have 'Medium Rise blocks with associated grounds.'

The Policy DM2 clearly assumes that garden land will not be developed and therefore the arguments that it will 'complement the local character' to lose such small gardens as they are in small terraced houses has no valid argument on the estate as it stands and they are inappropriate and weak. There is absolutely no detail as to how 'biodiversity' is to protected- vague and weak again.

The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. The wording of the policy has been amended to further detail the criteria for this type of development. Garden development will only be permitted where it is in keeping with and subservient to the original dwelling and the surrounding character; wb)A minimum length of 10m and no less than ½ or 200sqm (whichever is the smaller) of the existing garden area is retained for the host property, after the subdivision of the garden; and where there would not be a detrimental impact on existing and future occupants in terms of overlooking and outlook. Object to DM 2 on development on garden land is too weak

The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. The wording of the policy has been amended to further detail the criteria for this type of development. Garden development will only be permitted where it is in keeping with and subservient to the original dwelling and the surrounding character; w)A minimum length of 10m and no less than 1/2 or 200sqm (whichever is the smaller) of the existing garden area is retained for the host property, after the subdivision of the garden; and where there would not be a detrimental impact on existing and future occupants in terms of overlooking and outlook. The policy does not explicitly refer to biodiversity, flooding and other issues such as amenity. The Plan should be read as a whole and policies with respect to these issues will be applied as relevant to

Proposed Policy DM2 Development on Garden Land.  
The criteria for permitting new dwellings or other development within the curtilage of gardens of an existing dwelling are too weak and do not meet the NPPF instructions to Local Planning Authorities.

The NPPF states at para 46 the Local Planning Authorities should set out policies to 'resist' inappropriate development on garden land — the proposed policies gives guidance by which needs to be considered for 'approval' of development on garden land. The first criteria, where "It would complement the local character?" is highly subjective and unquantifiable. The second criteria, "where biodiversity is protected" is also too vague and indeterminable to make any informed judgement I object to these criteria being used in the determination of acceptable development on garden land, as they undermine the presumption against development on garden land and therefore ask for stronger positive criteria "to resist" development on garden land to be defined.

The National Planning Policy Framework Part 48 and 53, and the London Plan require Local Planning Authorities to define policies to "resist development" on garden land. The relaxation of the criteria in Policy DM2 is contrary to this guidance and directions from the NPPF.

For the reasons given above:

1. I do not think that the preferred approach is the most appropriate for Croydon to help us meet our Strategic Objectives set out in Section 3.
2. The preferred approach is deliverable, but not acceptable,
3. I do not think the preferred approach enables sustainable development, because it will compromise the ability to meet the needs of future generations.
4. I recommend that consultation documents of such importance are given much wider publicity.

The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. The wording of the policy has been amended to further detail the criteria for this type of development. Garden development will only be permitted where it is in keeping with and subservient to the original dwelling and the surrounding character; w)A minimum length of 10m and no less than 1/2 or 200sqm (whichever is the smaller) of the existing garden area is retained for the host property, after the subdivision of the garden; and where there would not be a detrimental impact on existing and future occupants in terms of overlooking and outlook. 1. I do not think that the preferred approach is the most appropriate for Croydon to help us meet our Strategic Objectives set out in Section 3.
2. The preferred approach is deliverable, but not acceptable,
3. I do not think the preferred approach enables sustainable development, because it will compromise the ability to meet the needs of future generations.
4. I recommend that consultation documents of such importance are given much wider publicity.

The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. The wording of the policy has been amended to further detail the criteria for this type of development. Garden development will only be permitted where it is in keeping with and subservient to the original dwelling and the surrounding character; w)A minimum length of 10m and no less than 1/2 or 200sqm (whichever is the smaller) of the existing garden area is retained for the host property, after the subdivision of the garden; and where there would not be a detrimental impact on existing and future occupants in terms of overlooking and outlook. The policy does not explicitly refer to biodiversity, flooding and other issues such as amenity. The Plan should be read as a whole and policies with respect to these issues will be applied as relevant to

## 2 Proposed Policy DM2 Development on Garden Land

The criteria for permitting new dwellings or other development within the curfiage of gardens of an existing dwelling are too weak. The first criteria, where "It would complement the local character" is highly subjective and unquantifiable. The second criteria, "where biodiversity is protected" is also weak. I object to these criteria being used in the determination of acceptable development on garden land, and ask for stronger criteria to be defined. The National Planning Policy Framework Para 48 and 53, and the London Plan require Local Planning Authorities to define policies to resist developments on garden land. The relaxation of the criteria in Policy DM2 is contrary' to these requirements.

For the reasons given above:

1. I do not think that the preferred approach is the most appropriate for Croydon to help us meet the Strategic Objectives set out in Section 3.
2. The preferred approach is deliverable, but not acceptable.
3. I do not think the preferred approach enables sustainable development, because it will compromise the ability of future generations to meet their own needs.

4. I recommend that consultation documents of such importance are given much wider publicity.

The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. The wording of the policy has been amended to further detail the criteria for this type of development. Garden development will only be permitted where it is in keeping with and subservient to the original dwelling and the surrounding character; wb)A minimum length of 10m and no less than ½ or 200sqm (whichever is the smaller) of the existing garden area is retained for the host property, after the subdivision of the garden; and where there would not be a detrimental impact on existing and future occupants in terms of overlooking and outlook. The policy does not explicitly refer to biodiversity, flooding and other issues such as amenity. This suggestion appears to be a reversal of the existing council policy which ceased to permit 'infill' development some years ago. The statement "The Council will permit new dwellings or other development within the curtilage or garden of an existing dwelling or the redevelopment of existing dwellings and their curtilage or gardens where:

- a) It will complement the local character; and
- b) Biodiversity is protected".

The broad statement suggesting what the Council will permit within the curtilage or garden of an existing development is far too broadly drawn and appears to almost imply that anything is possible and potentially acceptable. The statement requires to be more definitive or prescriptive in order to provide more guidance. Gardens are a major factor in the biodiversity of the area and require more protection. Statement a) is essentially not a statement of policy since what might complement the local character is entirely subjective.

The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. The wording of the policy has been amended to further detail the criteria for this type of development. Garden development will only be permitted where it is in keeping with and subservient to the original dwelling and the surrounding character; wb)A minimum length of 10m and no less than 1/2 or 200sqm (whichever is the smaller) of the existing garden area is retained for the host property, after the subdivision of the garden; and where there would not be a detrimental impact on existing and future occupants in terms of overlooking and outlook. The policy does not explicitly refer to biodiversity, flooding and other issues such as amenity. The Council's proposals to soften their requirements for back garden developments by PERMITTING NEW DEVELOPMENTS IN BACK GARDENS is of GREATEST CONCERN

The recent increase in the rate of approval of back garden developments has severely damaged the character of the Monks Orchard area in which I reside. Our Local Council directly oppose the requirements and intentions of Central Government in this regard. Their attitude towards back garden developments and the maintenance of local character is inappropriate, as back garden developments are NOT required to meet the Local Authorities Strategic Objectives. The proposed policies are NOT deliverable or sustainable. I am appalled that the Local Authority would even contemplate these proposals. This action will potentially degrade every property within the Croydon area.

1. The Croydon Local Authority proposes to soften their requirements for Back Garden developments by PERMITTING new developments in back gardens — (providing local character and biodiversity is protected). This policy contradicts the requirements of THE LONDON PLAN which requires that Garden Land will NOT BE DEVELOPED. See my list of other country wide regulations which oppose the promotion of back garden developments below under general comments, note 3)

2. The terms "complement the local character" and "protect biodiversity" are INADEQUATELY DEFINED. These terms are therefore open to interpretation/mis-interpretation.

3. Back Garden developments, by definition, increase residential density and reduce garden size. This reduces amenity space, and biodiversity.

THIS CREATES/ENCOURAGES INAPPROPRIATE OVERDEVELOPMENT.

Overdevelopment degrades the character of an area, reduces surface water absorption which can increase the risk of flooding in areas such as Monks Orchard. Additionally the reduction in biodiversity has a further adverse effect on amenity and the overall value of property, land and the

The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. The wording of the policy has been amended to further detail the criteria for this type of development. Garden development will only be permitted where it is in keeping with and subservient to the original dwelling and the surrounding character; w)A minimum length of 10m and no less than ½ or 200sqm (whichever is the smaller) of the existing garden area is retained for the host property, after the subdivision of the garden; and where there would not be a detrimental impact on existing and future occupants in terms of overlooking and outlook. The policy does not explicitly refer to biodiversity, flooding and other issues such as amenity. The Plan should be read as a whole and policies with respect to these issues will be applied as relevant to

environment  
for the community.

4. The imposition of back garden  
developments in Monk Orchard is  
NOT  
NECESSARY to meet Croydon's  
strategic objectives.

5. The NPPF instructs LPA's to  
develop policies to RESIST  
development  
on garden land, NOT to provide  
means to allow development on  
garden  
land.

1. The Monks Orchard area is a  
respected and desirable residential  
area.

Residents and their families have  
moved into this area because they  
appreciate the relative peace, open  
space and the character of this area  
which is blessed with both variations  
in property size and the individuality of  
garden character and size.

This desirability and the variation of  
property and garden sizes support an  
integrated community of large and  
small families and both young and  
the old,  
in appropriate properties.

AN INCREASE IN BACK GARDEN  
PROPERTIES WILL REDUCE THE  
VARIETY OF PROPERTY SIZE AND  
TYPE, AND REDUCE THE  
APPROPRIATE AMENITY SPACE  
NECESSARY TO SUPPORT THE  
YOUNG AND THE SENIOR  
MEMBERS OF THE COMMUNITY.  
COMMUNITY

CARE AND SPIRIT WILL BE LOST.  
OPPORTUNITIES TO SUPPORT  
THE  
ELDERLY AND PHYSICALLY AND  
MENTALLY DISADVANTAGED  
MEMBERS OF OUR SOCIETY  
WITHIN THE COMMUNITY WILL BE  
LOST.

Residents in Monks Orchard have  
recently witnessed deterioration in the  
character of their area This  
deterioration has been principally  
precipitated by

over development. This over  
DEVELOPMENT HAS INCLUDED  
THE  
APPROVAL OF UNWANTED AND  
INAPPROPRIATE BACK GARDEN  
DEVELOPMENTS. It is disappointing  
that the Local Authority have chosen  
to

ignore the intentions of National and  
London requirements to approve  
these  
developments which are not needed  
to satisfy the demands of new  
housing  
within the Croydon area.

The electorate are unlikely to accept  
further deterioration in the quality of  
their  
homes, gardens and environment.

This policy cannot enable sustainability as it will:

- Promote inappropriate over development
- Increase the potential of flooding (by reducing water absorption and loss of water absorption by trees etc.)
- Reduce carbon dioxide capture (by reducing areas of photosynthesis)
- Reduce oxygen release (by reducing areas of photosynthesis).
- Reduce biodiversity (there have been many siting's of badgers and bats in the area).
- Have a strong adverse impact on the character of the area (by the loss of garden area, loss of openness and loss of amenity).
- Reduce of desirability of the area.
- Require additional schools, doctors, dentists, power facilities etc.
- Roads will become incapable of coping with increased traffic and parking.

The following comments relate specifically to proposals for back garden developments but can also be applied to the loss of green land generally as the latter impacts on the character of Croydon generally

1. The NPPF states that "Local Planning Authorities should consider the case for setting out policies "TO RESIST INAPPROPRIATE DEVELOPMENT ON GARDEN

LAND" NOT to provide the means to allow development on garden land. The proposed policy is without doubt a relaxation of the current regulations and therefore is designed to ENCOURAGE BACK GARDEN DEVELOPMENTS.

2. The London Plan supports a "PRESUMPTION AGAINST" GARDEN LAND DEVELOPMENT. The proposed policy is designed to ENCOURAGE BACK GARDEN DEVELOPMENTS. This contradicts the words and intentions of the mayor of London.

3. The LHS4 for Croydon assumes that garden land will "NOT BE DEVELOPED" Croydon Local Authority is sending out the message that they intend to PROMOTE back garden developments.

4. The proliferation of back garden developments is NOT necessary to fulfil the quota of new properties required to be built within Croydon.

5. Policy H5 states that back garden sites WILL ONLY BE PERMITTED

where they  
RESPECT THE CHARACTER AND  
PROTECT THE AMENITY OF  
ADJOINING  
RESIDENTIAL AREAS.  
This requirement is, in practical  
terms, almost impossible to fulfil. See  
paragraph 2.3 above

---

7306/01/002/DM2/O

I D Grant

Object

DM2

I would like to register my objection to Policy DM2 in the Plan. While I do not object to appropriate development of garden land, I do not believe that there should be a presumption in favour of such development, but rather that each such application should be considered on its own merits and demerits.

Change

The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. The wording of the policy has been amended to further detail the criteria for this type of development. Garden development will only be permitted where it is in keeping with and subservient to the original dwelling and the surrounding character; wb)A minimum length of 10m and no less than ½ or 200sqm (whichever is the smaller) of the existing garden area is retained for the host property, after the subdivision of the garden; and where there would not be a detrimental impact on existing and future occupants in terms of overlooking and outlook. The policy does not explicitly refer to biodiversity, flooding and other issues such as amenity. The Plan should be read as a whole and policies with respect to these issues will be applied as relevant to

Garden usage for development:  
I am not against reasonable development of gardens for own purpose providing sufficient garden is left to preserve green space. However I am against the trend for developers to target garden areas, if the adjacent neighbours object to it. Also the minimum separation lengths are inadequate.

Change

The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. The wording of the policy has been amended to further detail the criteria for this type of development. Garden development will only be permitted where it is in keeping with and subservient to the original dwelling and the surrounding character; wb)A minimum length of 10m and no less than 1/2 or 200sqm (whichever is the smaller) of the existing garden area is retained for the host property, after the subdivision of the garden; and where there would not be a detrimental impact on existing and future occupants in terms of overlooking and outlook. The policy does not explicitly refer to biodiversity, flooding and other issues such as amenity. The Plan should be read as a whole and policies with respect to these issues will be applied as relevant to

2764/03/001/4.025/O	Mr Derek Ritson <i>Monks Orchard Residents Associa</i>	Object	4.025	This paragraph is not strong enough. Existing trees which do not have TPO's can be felled prior to a development proposal- what guarantee can be afforded to mature trees of significant specimens on private land which do not have TPO's which are likely to be in an awkward position for redevelopment proposals? We have evidence that developers fell trees which are awkwardly positioned for a proposed development prior to placing a planning application or entering into pre-application discussions with the LPA. TPO's should be placed on mature good specimens trees on private land. Substantial important mature tree specimens on private land should be the subject of TPO's for the protection of the environment and for the benefit of future generations irrespective of whether development on the site is possible or envisaged.	The paragraph should ensure that TPOs are placed on mature trees on private	Change	The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. The wording of the policy has been amended to further detail the criteria for this type of development. Garden development will only be permitted where it is in keeping with and subservient to the original dwelling and the surrounding character; wb)A minimum length of 10m and no less than ½ or 200sqm (whichever is the smaller) of the existing garden area is retained for the host property, after the subdivision of the garden; and where there would not be a detrimental impact on existing and future occupants in terms of overlooking and outlook. The policy does not explicitly refer to biodiversity, flooding and other issues such as amenity. The Plan should be read as a whole and policies with respect to these issues will be applied as relevant to
0203/03/037/DM3/C	Mr Charles King <i>East Coulsdon Residents' Associat</i>	Comment	DM3	Retirement Homes: Studies undertaken by McCarthy Stone and others have shown that where older people are forced to move more than a few miles from existing homes, friends and relatives, their quality of life is reduced and they become more isolated and more dependent on social services. To reduce the problem it is best to provide a mixture of housing including retirement homes in every community. The Cane Hill and the Town Centre redevelopments provide an opportunity to provide retirement homes in the Town Centre near to shops, doctors and public transport.	Change	The policy states that where there is an identified need within the borough, planning permission for residential care homes will be granted. This would not require residents of the borough to move away form the area to acquire this type of accommodation. Policy DM3 has been amended and welcomes supported living schemes in the borough.	

0320/01/008/DM3/S	Mr Tarsem Flora <i>Flora Associates</i>	Support	DM3	Residential Care + Nursing Homes		Welcome support	
				We note that although Croydon has more of such homes than any other borough, it does recognize that 1118 bed spaces will be needed by 2020 and 1450 by 2030. Hopefully these will be encouraged in areas other than in Purley which is already oversaturated with some 45 such homes (counted by PWRA some 10 years ago). We agree with preferred Option 1.			
2083/01/007/DM3/O	Mr Stewart Murray <i>Greater London Authority</i>	Object	DM3	As highlighted by paragraph 4.33 the sufficient provision of suitable housing for Croydon's aging population is critical. The revised Plan should refer to the London Plan's monitoring benchmarks for the provision of specialist housing for older people set out in table A5.1 of the London Plan and set out in its proposed policy how Croydon will seek to encourage provision to meet that need, including, potentially through led higher density mixed use redevelopment in Croydon's town centres.	The policy should refer to the London Plan's monitoring benchmarks for the provision of specialist housing for older people.	No change	The policy does not set out to restrict the development of new residential care or nursing homes where there is an identified need in the borough. This will be in accordance with Annex Five 'Specialist Housing for Older People' of the London Plan.
2168/01/004/DM3/O	Mr Duncan Clarke <i>London Borough of Sutton</i>	Object	DM3	The London Borough of Sutton is concerned that the policy limits the provision of care homes to residents within the London Borough of Croydon. The care home market for self-funders is not arranged on local authority boundaries and, therefore, it is difficult to see how the council will be able to make this policy effective.	The policy should not limit the provision of care homes to only residents of Croydon.	No change	The policy states that planning permission for new residential care or nursing homes will be permitted where there is an identified need in the borough. The policy therefore accords with the London Plan and aims to meet the demand for this type of accommodation in the borough.
2598/01/006/DM3/O	H A Chakera	Object	Soundness - Justified DM3	I strongly object to your policies .  DM 2 DM 40 DM 40.4 DM 41.3 DM 44.2, DM 28 DM 3 DM 31.4  Local shopping parades are empty due to draconian parking charges Whitgift and Centrale are empty Office Blocks empty		No change	There are no reasons given for the objection so no change can be made to the policy and its wording.

2851/01/002/DM3/O	Ms Frances Leece	Object	DM3	<p>The Plan's evidence base does not support the restricting of further residential care and nursing homes in the borough. On the contrary, the evidence makes clear that there is and will be, a need for further provision over the period to 2036. Local planning authorities should count housing provided for older people, including residential institutions in Use Class C2, against their housing requirement. The approach taken, which may include site allocations, should be clearly set out in the Local Plan.</p> <p>The emerging Local Plan fails to demonstrate how it plans to meet the needs of the future, especially with an ageing population. How will Croydon Borough be specifically and properly addressing national policy which responds to increased, and increasing, trends of an elderly population who need specialised care facilities or homes to meet their needs?</p> <p>The emerging policy fails to explicitly demonstrate how it will be meeting the needs of an ageing population with specific care and housing needs. In addition, the emerging policy is not compliant with national planning policy and guidance, which explicitly outlines that a range of housing types and sizes must be delivered by Croydon Council to meet the growing older population and the needs they have.</p> <p>The Council is asked to amend emerging Policy DM3 to reflect the objectively assessed housing need and national planning policy and guidance, to ensure the Plan meets its need for housing older people. This in turn will also meet its overall housing need, as older people will move into suitable accommodation out of houses that are too large for their need, which in turn will release family accommodation for those in need of larger homes.</p>	No change	<p>The policy states that planning permission for new residential care or nursing homes will be permitted where there is an identified need for this type of accommodation. This is in compliance with the National Planning Policy Framework and the London Plan. Accommodation of this nature is accounted for in the housing requirement for the borough and it is recognised that its provision often frees up housing within the area.</p>
-------------------	------------------	--------	-----	---	-----------	---

0203/03/038/Residential Annexes (Option 2)/C	<p>Mr Charles King <i>East Coulsdon Residents' Associat</i></p>	Comment	Residential Annexes (Option 2)	<p>Residential annexes: We are not opposed to houses adding residential annexes with separate internal facilities but are strongly of view that they should share the entrance to the existing property nor should they extend to the boundary fence in order not to alter the street scene by turning semi-detached properties into rows of terraced houses.</p> <p>We do not object to the annex remaining as a separate annex or to be incorporated back into a single dwelling as circumstances change.</p>	No change	<p>As set out in Option 2 (alternative policy), residential annexes would be permitted where they are ancillary to the main residence, share communal facilities within the main dwelling and have a single shared entrance. Other policies in the Plan would determine the appropriate siting and layout of the proposal in line with the area's design and local character.</p>

Comment

In the last few years Croydon has lost thousands of jobs. Big employers have shut down or moved their operations inc. Age Concern (Astral House, Norbury), Allders, BT (Delta Point), Nestle. Others have reduced the number of employees, like the Home Office and the Council. It is not clear which sectors all these lost jobs have been in. New jobs have been created but these seem to be mainly in construction and in small businesses, especially in digital technology. The draft Borough Profile 2015 provides the latest analysis:

No change

The comment is noted

*Croydon TUC*

-The number of jobs in Croydon is estimated to have fallen over the last 10 years. In 2003 there were estimated to have been 153,000 jobs, down to 130,000 jobs in 2013. 'Latest estimates for 2014 suggest that Croydon has a much higher than average proportion of jobs in the wholesale and retail sectors; and in the public administration, education and health sectors.'

- In 2011 Croydon was a net exporter of workers. 54.8% of the 88,300 people who were recorded as working in Croydon in 2011 also lived in Croydon. However this cohort only accounts for 34.4% of the 140,600 Croydon residents whose place of work was recorded in the 2011 Census.'

- Nearly half of workers travelling in to Croydon for work drove to work in a car or van.

Comment

The Group welcomes much of the aims and objectives of the proposed Local Plan. However as the planning system is about finding a balance between competing land use proposals, it has to be as robust as possible in order to be able to defend the interests of residents against both Government and London Mayor requirements and the continuing loosening of controls over planning, at the same time as cuts in funding of Government grant by the Council and an increase the planning applications is overstressing the resources of the Council to adequately scrutinize applications and enforce infringements.

Welcome support

The comment is noted

*Croydon TUC*

2.The group is particularly concerned that forces outside the Council's control such as private developers rental and sale prices, the increasing role of private landlords, the continuing effect of the austerity measures, will simply increase the inequalities and social deprivation, and largely benefit newcomer residents who can afford the Borough's rising housing costs, and non-residents who come into Croydon to work, rather than existing residents who have a wide variety of needs which are not being met.

3.In August 2014 the Croydon TUC working party on the Council's Growth Plan submitted an analysis and made a number of recommendations. It received no response and it was only as a result of a challenge at the Whitgift CPO Public Inquiry that Jo Negrini, now Director Place, agreed to hold a meeting. At it she made it clear that she was not prepared to discuss the recommendations and some of there were outside her officer remit and should be discussed with the relevant Cabinet members. A request for a meeting with those members has not been replied to. This was drawn to in the list of unanswered letters and emails submitted to the Leader in a public question at the 7 December Council meeting. The detailed reply promised by the Leader is still awaited.

4.Despite this apparent ignoring of the Working Party report a number of issues it raised appear to be addressed in the Local Plan documents

1956/03/002/Non-specific/C

Kevin Smith

Comment

5. The Growth Plan working party report contained the following view of Croydon which summed up the views of many people many people at the time and many more have since. 'Croydon has not got have enough jobs for all the people who live in it. Central and North Croydon are already overcrowded with people in terms of the transport and car parking infrastructure and rubbish and litter. The railway, road and bus networks are overloaded. The Westfield/Hammerson development will not lift off in the way that the Westfield complexes in Stratford and White City have because of the overloaded transport system. The big employers, whose workers underpinned the retailers in the Whitgift Centre, have left the Borough. Public sector jobs have been cut. As employers cut back on workers and or cut wages there is less money for the Local economy. The projected 16,000 increase in the number of residents will further strain the system with people having to go out of Croydon for work. The building jobs will be short term; and the retail jobs low paid. Attempting to regenerate the neglected district centres could make things worse. The Growth Plan seems to be based on cramming more people in without improvements to the infrastructure. The quality of life has dramatically deteriorated in some of the districts with the increase in population and the further competition to use road space, both in terms of traffic flow and parking. There are not enough schools to meet the needs of children of the growing population. Moving around Croydon is now an uncomfortable challenge. More flats and houses along the London Rd will simply increase the number of residents. Unless there are more jobs there will be an increase in poverty. Proposals to increase the night time economy will add to the existing unacceptable level of noise. For many long term residents the quality of life has deteriorated so much in the last 5-6 years that more and more are talking about moving out of Croydon. Council officers talk about people wanting to live in South Croydon but are forced to live in North Croydon because they have no other options because of housing costs. The high population turnover, especially in the North leads to disengagement from social and political action, and the danger of increasing racism and xenophobia. The Council's Growth Plan seems committed to making these problems worse. Instead of a Growth Plan the Council should be adopting a

Comment

Inequalities are increasing in parts of the Borough, especially in the North. There has been no significant reduction in inequalities in New Addington and Fieldway since the early 2000s, despite the investment of public money and the operation of some excellent community led projects. The Council has not analysed why there has been no significant improvement. Further benefit cuts, wage restraint and rising private rents and house sale prices, will increase inequalities across the Borough. The working group is not convinced that the Local Plan policies and proposals will help to reduce inequalities except in the sense that as house prices and rents rise lower income residents will be forced out of the Borough.

7. The draft Borough Profile 2015 produced for the Strategic Partnership Croydon indicates how those inequalities are increasing. The main points in it are as follows:

- Four North Croydon wards (Waddon, Broad Green, Selhurst, and Norbury) saw their population increase by more than 19% between 2001 and 2011.
- Croydon has become relatively more deprived between 2010 and 2015.
- Low income contributes towards 22.5% of the overall deprivation score.
- In Croydon 26.9% of jobs, approximately 24,000 jobs, are estimated to be below London living wage.
- Croydon has the fourth lowest ratio of average earnings (for full-time workers) to average house prices across London.
- In Croydon 23.2% of children are living in families affected by income deprivation, and is ranked the 70th most deprived authority
- Croydon's lack of skills and attainment in the population make it 220th most deprived borough out of the 326 English Local authorities.
- Croydon is the 22nd most deprived authority for crime with situation is worst in the North and the Centre.
- In relation to the barriers to housing and services (e.g. average distance to key services such as a GP surgery, primary school, post office, and a general store or supermarket household overcrowding, homelessness and housing affordability, Croydon is ranked the 19th most deprived authority.
- In relation to the indoor and outdoor living environments (houses without central heating, the proportion of houses that are in poor condition, air quality and road traffic accidents that cause injury to pedestrians and

2154/01/011/5.015/S	Ms Anna Arthur <i>Croydon Arts Network</i>	Support	Soundness - Effective	5.015	The Arts Network welcomes the Council's understanding of the importance of small neighbourhood centres and its recognition that there is a role in facilities in them to meet the leisure and culture needs of the community.	Welcome support	

2083/01/014/DM4 (Table 5.1)/O	Mr Stewart Murray <i>Greater London Authority</i>	Object	DM4 (Table 5.1)	The Mayor welcomes Croydon's ambitions to support its town centres through consolidation and re-invigoration, including by enabling units outside core frontages to be redeveloped for housing. However, its approach to 'all other uses' in the Main and Secondary Retail Frontage may miss opportunities for wider land uses that could contribute to the viability and vibrancy of the town centre. In this regard, the wording in Table 5.1 should be amended to allow for other land uses that the Council deems would contribute to the viability and vibrancy of the town centre, while not detracting from its retail function	Table 5.1 should be amended to permit other uses which can contribute to the viability and vibrancy of town centres.	Change	DM4: Development in Croydon Metropolitan Centre, District and Local Centres will permit B1 uses in Secondary Retail Frontages to support the provision of office, research & development and light industrial workshops in town centres.
2819/02/002/DM4 (Table 5.1)/C	Peter Dolling	Comment	Soundness - Effective DM4 (Table 5.1)	Can you also please get a better balance of retail outlets in the high street there are far too many fast food outlets.		No change	DM4: Development in Croydon Metropolitan Centre, District and Local Centres restricts the number and concentration of hot food takeaways in main and secondary retail frontages within centres.
1592/01/003/DM4 (Table 5.2)/S	<i>Croydon Partnership Ltd</i>	Support	DM4 (Table 5.2) Croydon Metropolitan Centre	A number of changes to the Policies Map are suggested. In particular, it is proposed to extend the Primary Shopping Area (PSA) in CMC to include the entire Whitgift 'block', as well as the shops in George Street heading towards and up to east Croydon Station. We support the proposed expansion of the defined PSA as set out in the consultation document which would bring the existing, outdated, PSA boundary in line with the OAPF's Retail Core boundary. This proposed change will enable the Council's Proposals Map to be brought in line with the Croydon OAPF in terms of the Council's policy aspirations for comprehensive development in a significant part of the Retail Core.		Welcome support	
1949/01/022/DM4 (Table 5.2)/C	Beth Havelock <i>Transport for London</i>	Comment	DM4 (Table 5.2) Croydon Metropolitan Centre	Whilst TfL is satisfied with the extension of the Primary Shopping Area, it does include roads that form part of the tram network. It should be noted that any retail units should not impact on the highway or movement of pedestrians, cyclists and transport services.	Any retail units should not impact on the highway or movement of pedestrians, cyclists and transport services.	No change	The impact on the highway or movement of pedestrians, cyclists or transport services would be assessed at any planning application.

1610/01/038/DM4 (Table 5.2)/O  
 Mr Sean Creighton  
 Norbury Residents Association Joi

Object	Soundness - Justified	DM4 (Table 5.2)  Norbury (preferred option)	<p>1.The Plan proposes to redefine the District Centre.</p> <p>2.Option 1 would delete the northern stretch from Norbury Brook and the former office buildings and the fire station in the south.</p> <p>3.The JPC has no objection to this.</p> <p>4.Option 1 would downgrade the 1433-1493 to secondary retail status from main retail function. The document states: 'The MRF at this point is interspersed already with non A1 uses and whilst there is an argument for keeping the designation, there is a counter argument that it is a stopping the development of a restaurant quarter in this location.'</p> <p>5.In the past the Council has not consulted the Residents Associations about what their reaction to a Restaurant Quarter in this location would be. The general view of residents who express their view is that there is already more than enough restaurants and cafes in the District Centre. No justification is given by the Council as to why a Restaurant Quarter should be developed. There is also a danger that down grading a secondary shopping parade will prevent the ability of the Council to ensure there is an improved retail mix especially given the growing number of homes and rising population on both side of the District Centre. There is also a case for the current secondary retail frontages further south to the fire station to be given main retail frontage designation particularly with the large increase in population in the former office buildings of Astral and Windsor Houses on the other side of London Rd</p> <p>6.The alternative Option retains the stretch north of Norbury Brook but includes the deletion of the southern stretch. It includes the redesignation to SRF of 1433 to 1493. It also proposed to remove the SRF designation from 1327-9 and 1341-1371, which the JPC assumes will give them MRF status.</p>	Proposed amendments to Option 1  - Retain the MRF designation for 1433-1493 London Rd.  - Redesignate all the SRF parades as MRF.	No change	Redesignated all Secondary Retail Frontages as Main Retail Frontages will not allow for a flexibility of uses in the District Centre as Main Retail Frontages seek to protect A1 uses. The designation of 1433-1493 as secondary retail frontage would allow for a flexible range of uses in the Centre.
--------	-----------------------	---	---	---	-----------	--

1947/02/001/DM4 (Table 5.2)/O	Mr A Thompson  <i>The Co-Operative Group</i>	Object	DM4 (Table 5.2)  Norbury (preferred option)	The Proposed Change is to remove the 'Main Retail Frontage' from 1485-1489 London Road and to replace it with 'Secondary Retail Frontage'. We object to this change in designation. The Co-operative Group has plans to reinstate Class A1 uses (through the provision of a convenience store) along the London Road frontage of its ownership, which includes 1485-1489 London Road, replacing the vacant units that currently exist. This is part of a wider vision which includes residential development on adjacent land on Fairview Road. Given the close presence of the Main Retail Frontage on the east side of London Road, Class A1 uses in these units on the western side of London Road would also be deserving of a Main Retail Frontage designation. Class A1 uses in this location, via the provision of a new convenience store, would enhance the vitality and viability of Norbury District Centre. The units at 1485-1489 London Road should be designated as Main Retail Frontage rather than Secondary Retail Frontage to reflect the proposed Class A1 use of these properties.	No change	The change from Main Retail Frontage to Secondary Retail Frontage reflects the current use of the frontage and will allow for a greater mix of uses. This will not preclude any A1 uses coming forward in that frontage.
-------------------------------	--	--------	---	---	-----------	--

1947/01/001/DM4 (Table 5.2)/O	Mr A Thompson  <i>The Co-Operative Group</i>	Object	DM4 (Table 5.2)  Norbury (preferred option)	The Proposed Change is to remove the 'Main Retail Frontage' from 1485-1489 London Road and to replace it with 'Secondary Retail Frontage'. 0320/01/007/DM4.1/S	Mr Tarsem Flora  <i>Flora Associates</i>	Support	DM4.1	Employment  We accept Option 1	Welcome support	
---------------------	--	---------	-------	--------------------------------------	-----------------	--

2041/18/001/DM4.2/C	<i>McKay Securities</i>	Comment	DM4.2	Policy DM4.2 should be amended to make clear that the proposals and changes of use which accord with table 5.1 relate to use of the ground floor only. All town centre uses are appropriate in town centres and these include a much wider variety of uses than those within Class A. If the Policy is retained in its current form it will prevent all other town centre uses outside of Class A from coming forward and will reduce flexibility and economic strength of the town centre. The policy as drafted is very restrictive and will not encourage the amount of new commercial development required (and identified) to come forward. The policy therefore will not achieve, and is inconsistent with, policies SP3.3(a), SP3.11, SP3.13(a) or paragraph 7.32 of the Croydon Local Planning Strategic Policies.	Policy DM4.2 should be amended to make clear that the proposals and changes of use which accord with table 5.1 relate to use of the ground floor only.	Change	DM4.2 has been amended to make clear that it relates to ground floor units only.
2041/17/001/DM4.2/C	<i>McKay Securities</i>	Comment	DM4.2	Policy DM4 should be amended to make clear that schemes which are not mixed use but instead propose a single, town centre use, will be acceptable and there will be no impediments or policy requirements to satisfy. The policy as drafted is very restrictive and will not encourage the amount of new commercial development required (and identified) to come forward. The policy therefore will not achieve, and is inconsistent with, policies SP3.3(a), SP3.11, SP3.13(a) or paragraph 7.32 of the Croydon Local Planning Strategic Policies.		No change	Non mixed-use developments would be acceptable provided that they comply with DM4.2 and Table 5.1
2041/07/001/DM4.3/C	<i>McKay Securities</i>		DM4.3	Policy DM4.3a is unrealistically restrictive to require that specific end users will be identified as occupiers of units prior to a planning application being made, and in effect means that only personal planning permissions will be granted. There is no justification for this within the NPPF or the NPPG and will prevent the market from providing spaces and units flexibly to respond to the needs of future occupiers.		No change	The policy does not require specific end occupiers to be identified prior to any planning application be made. DM4.3b sets out if there is no end occupier is identified at the time the application is made then the developer will be required to ensure a fitting out of the ground floor once an end occupier is identified to prevent units being left vacant.

2041/08/001/DM4.3/C	McKay Securities		DM4.3	Policy DM4.3b is unreasonable and takes no account of how the property industry is structured or how land is owned. In some circumstances it may be appropriate for landlords to offer to fit out their tenant's premises, but in other cases, shell and core developments are what tenants require. It is unreasonably onerous to require all tenants to be provided with a fully fitted out unit whatever the circumstances, and will only delay and constrict the pipeline of new commercial floorspace, to the detriment of the local economy.	No change	The policy seeks to secure that potential occupiers of new shell and core units in new developments outside designated frontages (which are in themselves less likely to be attractive to new occupiers) are not put off from locating in a lower value location by ensuring that the initial contract includes a free fitting out for the new unit. This is to avoid the situation of empty shell and core units blighting the street scene. The policy also aims to encourage residential development at ground floor level too by disincentivising developers from providing unviable, unusable commercial space in lower value locations.	
1610/02/011/DM5 (Table 5.4)/C	Mr Sean Creighton Norbury Residents Association Joi	Comment	Soundness - Effective DM5 (Table 5.4)	While welcoming the introduction of a new 'Neighbourhood Centres' designation AECOM 2 (para 10.1.3) states that it how will 'will be important to ensure that the policy approach to these areas is flexible, and is monitored closely to.'	No change	The policy approach is considered to be flexible.	
2830/01/001/DM5 (Table 5.4)/S	Ms Valerie Humfress	Support	DM5 (Table 5.4) Selsdon Park Road/Featherbed Lane	I agree with the proposal to include Forestdale in the Selsdon district which is our natural District centre. I also approve of the concept of designating a Neighbourhood centre at the Selsdon Park Road/Featherbed Lane junction. This is a thriving centre and convenient for local residents. It has a small supermarket, two chemists, a newsagent with sub post office, bakery, launderette, GP surgery and dentist so it's good to protect these services. There are also restaurants for fish and chips and Indian food plus daytime cafes and takeaways. The loss of the bank to become a betting shop was a shame although there are cash points at the newsagent and petrol station. There are also good public transport links. Some intensification in this locality may be appropriate if carefully designed and does not adversely affect the existing residents or businesses. Therefore I would not object if the intensification is only in the area shown marked as DM31.4 on the Changes of Policies map of Selsdon indicated in blue (page 165).	Welcome support	The comment is noted and support welcomed.	
0120/02/017/DM5.1/O	Addiscombe Residents Associatio	Object	DM5.1	We support this in principal however this policy lack detail	The policy should be more detailed.	No change	The comment is noted. It is relatively detailed as to what would and what wouldn't be permitted in Neighbourhood Centres.

2605/01/017/DM5.1/O	Ian Broyd	Object		DM5.1	We support this in principal however this policy lack detail	The policy should be more detailed.	No change	Policy DM5.1 is considered to be sufficiently detailed to achieve the intended purpose. Further, Policy DM5.1 will be implemented alongside policy DM5.2 and Table 5.3 which seeks to maintain the vitality and vibrancy of neighbourhood centres by liming large scale retail development outside of centres.
1956/03/023/DM6/O	Kevin Smith Croydon TUC	Object	Soundness - Effective	DM6	<p>1.The working party notes that the proposed policies on the mix of uses in shopping parades do not appear to reflect concerns of residents over the growing number of betting, money lending and fast food shops. It recommends that the policies be tightened up to ensure that it has some influence to curtail the growth of these uses.</p> <p>2.The working party notes that the list of local shopping parades does not discuss the potential future threats to them. For example Elmfield Way shopping centre, which is mentioned in the supporting evidence Excel sheet, is a small collection of local shops including a Post Office, pharmacy, butcher, grocer, hair dresser and dry cleaner. It appears to be under commercial pressure from supermarkets in Sanderstead and Selsdon (the florist has recently closed) but it remains quite vibrant and provides the best focus for the local community in the CR2 0 area.</p>	The Council should include a paragraph in the Local Plan on how it can support shopping parades from being adversely affected by commercial pressures elsewhere.	No change	Hot food takeaways (A5 uses) will not be permitted in shopping parades. Shopping parades in Croydon tend to offer local services which are unlikely to be affected by larger supermarkets. For this reason it is considered that it is not necessary for impact assessments for retail applications outside a designated centre to assess the impact on shopping parades. They will continue to assess the impact on the Metropolitan, District and Local Centres.
2128/03/023/DM6 (Table 5.6)/O	Cllr Steve O'Connell AM	Object		DM6 (Table 5.6) Old Lodge Lane	I also have concerns around the reclassification of parts of the Old Lodge Lane Shopping parade that I feel would have a negative effect on the vibrancy of that area, if we were to lose some retail.	Old Lodge Lane should continue to be designated as a shopping parade.	No change	This parade has been reassessed and does not meet the criteria to remain designated as a shopping parade as it contains less than 6 retail units. However, this does not mean that the remaining shops will close as those that remain will stay open if they are commercially viable. Likewise being designated as a Shopping Parade doesn't mean that the shops will stay open if they are not commercially viable.

2760/01/001/DM6 (Table 5.6)/O	Mr David Hooper	Object	DM6 (Table 5.6)	Question: I wish to comment on the Croydon Plan and the impact for the local shopping parade opposite New Valley School in Old Lodge Lane, Purley/Kenley Ward. I understand that there is a move by the Council, in the Plan, to de-classify this parade, which includes flats, restaurant and a Costcutter store. If this happens, then it could theoretically mean that the whole block could become housing and the commercial outlets could therefore disappear. I would like to insist that the Costcutter general store is essential for the local community, because if were to disappear, there would be no local shops for more than a mile. There are many people in the area who are elderly and have mobility problems, plus there are many people living in Council housing (Croftleigh Estate) who do not have there own transport.If the shop were to close and be taken over as housing, it would be a disaster for the area and particularly for local residents. De-classification of the parade should not be allowed to happen.	No change	This parade has been reassessed and does not meet the criteria to remain designated as a shopping parade as it contains less than 6 retail units. However, this does not mean that the remaining shops will close as those that remain will stay open if they are commercially viable. Likewise being designated as a Shopping Parade doesn't mean that the shops will stay open if they are not commercially viable.
-------------------------------	-----------------	--------	-----------------	---	-----------	---

2812/01/003/DM6 (Table 5.6)/O	Cllr Jan Buttinger  <i>London Borough of Croydon</i>	Object	Soundness - Justified	DM6 (Table 5.6)	The Old Lodge Lane shops must also be maintained.  They are vital for the elderly and vulnerable residents who live in this remote part of Kenley.	The Old Lodge Lane shops must also be maintained.	No change	This parade has been reassessed and does not meet the criteria to remain designated as a shopping parade as it contains less than 6 retail units. However, this does not mean that the remaining shops will close as those that remain will stay open if they are commercially viable. Likewise being designated as a Shopping Parade doesn't mean that the shops will stay open if they are not commercially viable.
-------------------------------	--	--------	-----------------------	-----------------	--	---	-----------	---

2805/01/002/DM6 (Table Mr Ken Baker  
5.6)/O

Object

DM6 (Table 5.6)  
  
Portland  
Road/Sandown Road

The designation of Shopping Parade should be applied to more stretches than just the "Dip" (as it is known locally) of Market Parade and those which are not currently within a Conservation Area. It is already an unbelievable anomaly that no.147 was excluded from this long-standing designation- resulting in yet another loss to our street vibrancy- but now that our Government has seen fit to 'relax' Planning restrictions on "Change of Use", the protection of our significant shopping 'hubs' becomes even more vital. Currently, the designation of more Parades would seem the only way of achieving this goal. I accept- as PPR's Regeneration Strategy did- that one cannot force a commercial property to succeed and some will succumb to the increasing market pressure to convert to much-needed dwellings, but what used to be a continuous ribbon of shops in Portland Road has already begun to evolve organically into clusters of commercial outlets. With South Norwood's still attractive property prices and the huge benefit of our transport links (the more recent Overground in particular) our area is set to improve hugely and the influx of more people- especially young professionals- will force a demand for higher quantity and quality of commercial outlets on our main street. Once a shop premises is lost, however, it is very difficult to regain; Parade designation could halt a rush to convert.  
The existing 'parades' at the SE end of Portland Road are prime claimants for "Parade" status, but I would also cite nos.88-110 for such designation- especially when viewed in conjunction with 113-121 opposite:

88-110 Portland Road should be designated as a shopping parade.

No change

These units have previously been assessed and did not meet the criteria to be designated as a shopping parade.

2776/01/005/DM7 (Table Cllr Helen Pollard  
5.7)/C

*London Borough of Croydon*

Comment

Soundness -  
Effective

DM7 (Table 5.7)

The Restaurant Quarter should retain a diversity of retail activity. Planning that favours restaurants/bars over other shops and offices is counter-productive economically and socially in this part of South Croydon.

No change

These parades have been designated to support the Restaurant Quarter and so only certain uses are permitted to support and maintain these uses. Other retail and town centre uses are permitted in the remainder of the Metropolitan Centre.

1592/01/002/DM8/S	Croydon Partnership Ltd	Support	DM8	<p>Draft Policy DM8 sets out the preferred approach to development in edge of centre and out of centre locations. The Council wishes to ensure that the vitality and viability of the Borough's town centres is maintained and increased. They aim to do this by requiring new development proposals for main town centre uses in edge of centre and out of centre locations to be in accordance with Table 5.9 and by applying planning conditions to control development proposals including the subdivision of units, extensions and the range and mix of convenience and comparison goods sold. Table 5.9 sets out that in edge of centre and out of centre locations all proposals which result in a unit greater than 2,500m<sup>2</sup> for Class A1 - A4, office and other main town centre uses will be required to submit an Impact Assessment to the Council. CLP support the principle of the proposals set out in DM8 and consider them necessary to ensure that Croydon Metropolitan Centre's (CMC) vitality and viability is enhanced as the Council wishes, and to ensure that the Retail Core can meet its policy aspirations as set out in the London Plan's Strategic Policy Direction for the CMC and in the Croydon OAPF. However, this support is on the basis that the proposed changes to the Policies Map are also brought forward.</p>	Welcome support		
1592/01/004/DM8/C	Croydon Partnership Ltd	Comment	DM8	<p>We would request that if the preferred option for Policy DM8 is to be adopted as drafted, it is brought forward in unison with the proposed amendments to the PSA (which are identified as arising from draft Policy DM4). The two changes are meant to work hand in hand, and progressing one without the other will result in a disjointed Local Plan.</p>	<p>DM8 should be brought forward in unison with the proposed amendments to the PSA.</p>	No change	<p>This policy is to be brought forward with the proposed amendments to the PSA.</p>

Wyeval Garden Centres Ltd

Object

DM8 (Table 5.9)

It is noted that the preferred option for Policy DM8 seeks to restrict any extension to the floor area of existing out-of-centre retail sites to 10% of the original building. This is considered unduly restrictive, for reasons already raised with the Council in our correspondence dated 28th November 2013.

Garden centres have very specific characteristics which render an out of centre location essential. The goods that they sell have a very high bulk to low value ratio which render a town centre site unviable and impractical. In addition, the space requirements resulting from the nature of the goods sold, means that a 10% increase in floor area is unlikely to be sufficient to make a meaningful contribution to improving the efficiency or viability of the business.

Accordingly, our client objects to the overly restrictive nature of Policy DM8 which would restrict the sustainable development of existing specialist businesses by preventing them from extending their existing operations sufficiently so as to maintain their responsiveness and competitiveness in a changing market. This would serve to reduce the competitiveness of the business and could lead to its eventual demise, to the detriment of the local economy. In this manner the policy would not assist in meeting the Council's Strategic Objective of making Croydon a place of opportunity which fosters enterprise and reduces economic deprivation and unemployment.

Given, the specific characteristics of garden centres and the goods they sell, they are not in direct competition with the high street and accordingly the relaxation of the proposed criteria as it relates to such specialist uses would not undermine the Council's intended support for the town centre. In this regard they can be viewed as more akin to office development or other town centre uses, whose location does not undermine the retail function of an identified centre.

it is requested that Policy DM8 be amended to accommodate the specific needs of certain specialist retailers such as garden centres, by excluding them from the general category of Class A1 – A4 uses and, as a minimum, by including them in the class with offices and other main town centre uses which would impose an increased threshold limit on new development of 20% of the original building.

No change

Table 5.9 offers flexibility to existing occupiers by allowing them to increase by up to 10% without the requirement for a sequential test. Once this threshold has been met no further expansion will be permitted to support the Metropolitan Centre, District and Local Centres. It is not considered that garden centres have special circumstances that require them to be excluded from the A1 to A4 uses.

0203/03/027/DM9/S	Mr Charles King <i>East Coulsdon Residents' Associat</i>	Support	DM9	<p>Ulswater Crescent: We are strongly in favour of this being designated as industrial and were very pleased when Waitrose selected this site for their Dot Com Fulfilment Centre employing over 600 people when fully operational. However, we do feel that where there is a case for local community use, that provides employment and provides services to the local community a change of use should be permitted on a case by case basis.</p> <p>Gateway Business Park: This area adjacent to the bypass is being redeveloped with modern building mainly of glass and metal cladding construction for the vehicle retail. These types of buildings are suitable for the bypass, but not for the Town Centre. We have supported the construction of these buildings and the car sales outlets that they have attracted</p>	Welcome support	
2770/01/002/DM9/C	Mr Peter May	Comment	DM9	<p>DM9 If indeed there is a requirement to increase the number of premises for industrial / warehouse useage I would agree that turning existing low density industrial / warehouse useage into higher density useage makes sense. However, it has to be very clear that there really is a need to increase this and that proper drainage is built into such scheme to deal with the inevitable increase in rainfall run-off and flood risk that this will cause. In addition that the increase in traffic demand is also properly taken into account.</p>	Welcome support	<p>The support is welcome. Other policies of the plan already consider flood risk and impact of new development.</p>

## 6 Urban Design and Local Character

<i>Ref No</i>	<i>Representor Company or Organisation</i>	<i>Participation at EIP</i>	<i>Object or Support</i>	<i>Soundness</i>	<i>Policy, Site or Paragraph</i>	<i>Summary of Representation</i>	<i>Summary of Proposed Changes</i>	<i>Council's Response</i>	<i>Council's Proposed Action</i>
1610/01/007/Non-specific/C	Mr Sean Creighton  <i>Norbury Residents Association Joi</i>		Comment			<p>Norbury Station Railway Bridge. This needs to be improved e.g. with murals on the walls; large art works. The road under the bridge should be widened and a tunnel provided for pedestrians.</p> <p>Bin collection. The Council must improve its bin and rubbish collection services. There are health issues with rodents and foxes routing around in black sacks.</p> <p>There should be better enforcement against spitting and dropping chewing gum, cyclists riding on pavements, litter dropping and fly-tipping and planning infringements, dog fouling, parking infringements, dangerous driving and speeding. In particular there should be action against the illegal car sales lot by Norbury Station.</p>		No change	<p>The Council values the positive contribution that public art plays in enhancing Croydon's public realm and where appropriate will encourage public art to be incorporated.</p> <p>Matters relating to road widening, bin collection, health and safety, anti-social behaviour and traffic offences are not matters that can be considered through the Local Plan process.</p>
0105/04/001/6.012/O	<i>Monks Orchard Residents Associa</i>		Object		6.012	<p>The paragraph indicates that an increase in the communal amenity space from those identified in the Mayor of London's Housing Supplementary Planning Guidance. However we have searched the London Plan and the supplementary planning guidance and cannot find any parameter for "Communal Open Space" so what is the increased amount? At least bring forward the current UDP Policy RO12 into CLP2. If not specified, developers will not offer any communal open space for residents of developments for multiple occupation or blocks of flats. The private amenity space for balconies is specified in the London Plan; however, that is private amenity space, there is no specified allocation given per occupant of houses or flats with multiple occupation for "communal open space" for those occupants so developers will only offer what they can get away with! Without an allocation of communal open space the flats and dwellings of multiple occupation will become the future slums.</p>	Saved UDP RO12 should be included in the Detailed Policies.	Change	<p>The policy has been amended to include a specific policy</p> <p>"DM10.6In addition to the provision of private amenity space, proposals for new flatted development and major housing schemes will also need to incorporate high quality communal outdoor amenity space that is designed to be flexible, multifunctional, accessible and inclusive."</p>

2764/16/001/6.013/O	Mr Derek Ritson <i>Monks Orchard Residents Associa</i>	Object	6.013	London Plan Table 3.3- Only provides GIA, only gives 'Private Amenity Space' for children's play areas and then only for 10 or more units. So below 10 units, Kids play in the street! CLP1 states that Policy RO12 could be retained or a new policy provided for 2017 in CPL2. UDP Policy RO12 does adequately give a requirement. Therefore we suggest that RO12 be retained. Any New Policy which does not specify the allowance of "Communal Open Land" for residents of houses of multiple occupation or blocks of flats would be detrimental to future generations living in those places of occupation. If there is no definitive requirement, developers will not provide any communal open land and planning officers or the planning committee will not be able to refuse an application on grounds of lack of communal open space. We really do not require concrete everywhere! An allocation as given in UDP RO12 would ensure that developers maintain an area of communal open space for any developments for multiple occupation - especially those that do not have balconies.	Saved UDP Policy R012 should be retained or a policy should set out the requirements for communal open space.	Change	An additional policy (DM10.4) will be added with the following wording. "In addition to the provision of private amenity space, proposals for new flatted development and major housing schemes will also need to incorporate high quality communal amenity space that is designed to be flexible, multifunctional, accessible and inclusive."
0535/01/002/6.023/O	Mr Peter Morgan	Object	6.023	Parking should be convenient to the user. This key principle should be made clear in the LDF. This necessity often means close to the main entrance. Parking to the front of the budding will often be the best location.		No change	The Council acknowledges and understands the need to accommodate parking within new developments however this must be balanced with the need for good design, including the need to ensure all developments are inclusive and accessible. The design and layout of front gardens, including the number and location of forecourt parking, can play an important role in creating a sense of 'arrival' and can either postively enhance or detract from local character.
0203/03/012/6.050/S	Mr Charles King <i>East Coulsdon Residents' Associat</i>	Support	6.050	Public Realm 6.50 A well-designed, cared for and high quality public realm <sup>13</sup> plays an important role in reinforcing the perception of Croydon as a welcoming, safe and accessible place. Croydon's aspirations for its public realm are outlined in the Croydon Local Plan Strategic Policies SP4.6 to SP4.10.  We support and believe this applies equally to the outer district town centres		Welcome support	

0203/01/049/6.098/C	Mr Charles King <i>East Coulsdon Residents' Associat</i>	Comment		6.098	Public Art is a way of making a Town Centre interesting and celebrating its past history. Art can range from blue plaques, information boards to statues and water features. Also opening up the Surrey Iron Railway ancient monument will contribute to making the town an interesting place to visit. The Council should commit to providing public art in the town centre as way of keeping interest in the town centre and reflecting its history.	The Council should commit to providing public art in Coulsdon town centre.	No change	The Council values the positive contribution that public art plays in enhancing Croydon's public realm and where appropriate will encourage public art to be incorporated.
2154/01/012/6.102/O	Ms Anna Arthur <i>Croydon Arts Network</i>	Object	Soundness - Effective	6.102	The Arts Network welcomes the inclusion of the policy on public art, but considers it is limited in its vision.	Amend paragraph to say 'Public art should not be confined to statues, but can be incorporated in imaginative, simple and cost effective ways such as bespoke paving, gates, lighting, signage, street furniture, playground equipment, railings and landscaping, and mural paintings, ceramic murals, decorative roof pelmets, and substantial works of art of flat roofs especially where they will be visible to pedestrians given their location'	Change	The reason justification includes some of the forms of public art outlined above. The reason justification has been amended to incorporate bargeboards and works of art on the building's elevation. The text now reads "By considering public art during the early stages of the design process and clarifying the scope at the beginning of the Design Team Service process, opportunities can be taken to integrate public art into the fabric of the development itself in more imaginative ways. Public art should not be confined to statues, but can be incorporated in imaginative, simple and cost effective ways such as bespoke paving, gates, lighting, signage, street furniture, playground equipment, railings and landscaping, murals (painted or ceramic), decorative bargeboards or. Works of art incorporated on elevations where they will be visible to pedestrians."
2843/01/010/6.128/O	<i>Minerva</i>	Object		6.128	This paragraph should clearly cross refer to the current list of Croydon Panoramas and Local Designated Views.	This paragraph should clearly cross refer to the current list of Croydon Panoramas and Local Designated Views.	Change	Policy DM16: Views and Landmarks, paragraph 6.127 has been amended to include a reference to table 5.2 of the Croydon Local Plan: Strategic Policies

2843/01/011/6.135/O	Minerva	Object	6.135	It is considered that this paragraph is appropriate; however the following text should be added for clarification "heritage setting is not itself a heritage asset or a heritage designation but its value lies in what it contributes, if anything, to the significant of the relevant heritage asset".	The paragraph should be amended to include "heritage setting is not itself a heritage asset or a heritage designation but its value lies in what it contributes, if anything, to the significant of the relevant heritage asset".	No change	Both the National Planning Policy Framework and the recent guidance (The setting of Heritage Assets - Historic Environment Good Practice Advice in Planning: 3) published by Historic England provide a detailed explanation about the setting of heritage assets. Both these documents are listed as key evidence within the reason justification.  It is considered that these documents along with the Council's Conservation Area General Guidance, the individual Conservation Area Appraisal and Management Plan and the Local Heritage Area Review sets out the features and characteristics, and the contribution they make to the setting and character of Croydon's heritage Assets.
2077/01/003/6.145/O	Mr David Page Mid Croydon Conservation Area A	Object	6.145	Why should new building be discouraged from copying? Surely in many cases this will integrate the new building with the old ones?		No change	Copying heritage assets would have detrimental impact on the recognition of their original qualities, their quality and authenticity of their setting. Attempts to replicate historic buildings usually result with significant discrepancies mainly due to technological progress. They should be considered as pastiche rather than copies. Such an approach does not constitute good design as described in paragraphs 60-64 of the National Planning Policy Framework.
2077/01/004/6.150/C	Mr David Page Mid Croydon Conservation Area A	Comment	6.150	How does this paragraph square with the Westfield Development planning permission which will have a massive impact on the conservation area? Or will this policy only apply to applications the Council is not in favour of?		No change	Each proposal is assessed on its own merit. Applications in conservation areas (and those affecting heritage assets) will need to demonstrate that it will result in a high quality development that would respect and positively enhance or preserve the character and appearance of the conservation area.

DM10 (Table 6.1)

Amenity space in flatted developments- We accept minimum standards as set out in Table 6.1 (p. 54)  
Please can the council define amenity space - e.g. balconies, gardens, green roofs etc. (6.32 to 6.43 noted).Also need to clarification of amenity space / play space.

Change

An additional policy (DM10.4) will be added with the following wording. "In addition to the provision of private amenity space, proposals for new flatted development and major housing schemes will also need to incorporate high quality communal amenity space that is designed to be flexible, multifunctional, accessible and inclusive."

---

2764/18/004/DM10  
(Table 6.1)/O

Mr Derek Ritson

Object

DM10 (Table 6.1)

1 Bedroom House or Flat Minimum Private Amenity Space of 5m2. If this is the allocation for a house, the amenity space would be less than the width of the house and only about half a metre wide which is about the dimensions of a pathway. And if this amenity space is shared between the front and rear of the property it's half a pathway at front & rear? How can this dimension be acceptable! How close would be the adjacent dwelling? Would it be possible to get the scaffolding up between the properties to actually build them? This Private Amenity allowance describes the amenity space for a balcony of a flat- not a house! If this amenity space is shared between front and rear of a house- the front door would open onto the street? Are we going back to the 20's style of development that actually opened on to the pavements like those shown in Coronation Street? Why is there a difference between affordable housing? Why the difference, presumably those in affordable housing can afford more children? Presumably the poor kids have only room for one arm or leg to play in the allotted space, the rest of the poor souls' bodies must be indoors and it's even less for the unaffordable house. These amenity standards are laughable- it's questionable if a builder could actually build to these limits. Barely enough room to get the scaffolding up between developments. These dimensions must be for flats as they are inappropriate for houses. What is the point of such stupid limits when facing windows of opposite housing developments must not be less than 18m (i.e. 9m deep for each facing rear garden) which would practically provide a minimum 9m deep by the width of the house as the minimum amenity space allowable for any house? Are new dwellings to be built with hardly any distance from the pavement where pedestrians could peer in through the windows? What has happened to the building line to ensure least disturbance from vehicle noise, vibration and safety sight lines at junctions? Where has common sense gone? Do we have a chunk of no-mans-land between them to get the 18m distance between the facing windows? i.e. the old rear passageway between gardens? Where should the wheelie bins be located- front or rear of the property and is there enough space for them? These standards most likely allow more space for wheelie bins than amenity space for humans. Come up with some sensible figures which relate to the physical requirements

The standards for private amenity space should be reviewed and increased.

No change

The minimum amenity space standards align with the minimum private space requirements outlined in the Mayor for London's Housing Supplementary Guidance March 2016. When applications are assessed consideration is given to how it responds to site constraints. These include constraints such as local character, the site layout (including the quality and usability of amenity space) and impact on adjacent occupiers. This approach is in line with the National Planning Policy Framework, the London Plan and other policies within the Croydon Local Plan.

					for human habitation.			
2776/01/004/DM10 (Table 6.1)/O	Cllr Helen Pollard  <i>London Borough of Croydon</i>	Object	Soundness - Effective	DM10 (Table 6.1)	"Green Poverty": I am unconvinced that there is sufficient rigour in thinking through green and open space for residents in high density housing. Reference is made to other planning frameworks regarding statutory requirements but this should be spelt out much more clearly in our own Croydon Plan.	Paragraph 6.2 Key Evidence will be updated to reference the Mayor of London's updated Housing SPG. Additionally, a new policy will be added with the following wording. "In addition to the provision of private amenity space, proposals for new flatted development and major housing schemes will also need to incorporate high quality communal amenity space that is designed to be flexible, multifunctional, accessible and inclusive."	Change	Paragraph 6.2 Key Evidence will be updated to reference the Mayor of London's updated Housing SPG. An additional policy (DM10.4) will be added with the following wording. "In addition to the provision of private amenity space, proposals for new flatted development and major housing schemes will also need to incorporate high quality communal amenity space that is designed to be flexible, multifunctional, accessible and inclusive."
2842/01/063/DM10 (Table 6.1)/O	Cllr Richard Chatterjee  <i>London Borough of Croydon</i>	Object	Soundness - Effective	DM10 (Table 6.1)	The general lack of communal land for resident's flats is unsatisfactory as should be included, as much existing communal land is already overworked.		Change	An additional policy (DM10.4) will be added with the following wording. "In addition to the provision of private amenity space, proposals for new flatted development and major housing schemes will also need to incorporate high quality communal amenity space that is designed to be flexible, multifunctional, accessible and inclusive."
0115/02/002/DM10.1/C	Mr Bob Sleeman	Comment		DM10.1	It is highly desirable to attract high quality architectural design and the Council will have to be very strong with developers to achieve this.  In the light of experience of the generally dismal quality of domestic architecture in this country since about 1930, the council will have to be very strong with developers to achieve a higher standard. One has only to look at the design of quite recent infilling blocks of flats to see how little has been secured so far. Planners have already allowed the eye-sore that replaced the Black Horse pub and more recently the proposed metal box structure on the corner of Shirley Road and Shirley Avenue.		No change	Your comment has been noted.

1302/01/003/DM10.1/C	Mr Graham Saunders <i>Historic England</i>	Comment	DM10.1	Under Policy DM 10 Design and Character, we would advise that the policy needs to reflect the need for developments to enhance and sensitivity respond to both the built form and spaces' that define places. This also includes, in line with the NPPF ('Requiring good design'), ensuring developments respond to and integrate with the historic environment (NPPF para's 58 and 61). At present this is not explicitly expressed.	recognition of heritage interest review of policy wording to accommodate HE comments	Change	The policy on Design and Character has now been amended to read  "DM11.1 To ensure that development enhances and sensitively responds to the predominant built form and spaces that define the character of places, proposals should respect: a) The development pattern, layout and siting; b) The scale, height, massing, density and mix; and c) The appearance, existing materials and built and natural features of the surrounding area."
2041/09/001/DM10.1/C	<i>McKay Securities</i>		DM10.1	Policy DM10.1 is too restrictive as it anchors all new development to the context established by the predominant built form. This will make it difficult to achieve bigger, taller and larger new buildings which are able to house and employ more people and contribute to the economic growth and strength of Croydon. The policy needs to be amended to make it clear the circumstances in which such new development is encouraged, and able to come forward. In the meantime, the policy conflicts with, will not achieve policies SP3.3, SP3.11, SP3.13(a), and SP4.5 of the Croydon Local Planning Strategic Policies.	he policy needs to be amended to make it clear the circumstances in which such new development is encouraged, and able to come forward.	No change	The Design and Character Policies should not be read in isolation of the rest from the plan. Policies such as those in the Places of Croydon Section place emphasis on allowing for growth, whether this is through focussed intensification or through natural evolution.

Object Soundness - DM10.1  
Effective

Appendix 4 to this Croydon Local Plan: Strategic Policies sets out the policies in the current Unitary Development Plan (UDP) that will be replaced by this the Croydon Local Plan: Strategic Policies Development Plan Document and those which will be were saved until they are replaced by the Croydon Local Plan: Detailed Policies and Proposals Development Plan Document.  
As far as we can determine the current policy RO12 is not carried forward into CLP1 or CLP2 although it as listed as being replaced in CLP2. There are 74 mentions of "Open Space" in the document but only one reference to "Communal"open space for residential developments which does not provide an adequate definition of requirement. i.e. an allocation of local open space per person (as previously defined in Policy RO12).

It is stated in The Croydon Local Plan - Strategic Policies (Partial Review) (Preferred & Alternative Options) under table (page 170) "Open Land and Outdoor Recreation" that UDP Policy 'RO12 - Local Open Land in Residential schemes' is to be replaced by Croydon Local Plan Detailed Policies & Proposals in 2017 - but we cannot find any reference to such Policy document to the requirement or definition for 'Communal Open Land' space requirements in Residential Schemes'?

Please carry forward RO12 into CPL1 & 2 Otherwise developers will ignore the need to provide any communal open space as part of their development proposals and will provide plans that maximises profit against the well-being of future occupants. Also, we have not found an equivalent specific requirement (i.e. an allocation per person) in the London Plan, only general statements that developers will ignore. These developments without communal open space would become the slums of future generations. If it is not defined, it would not be possible to reject an application with no communal open space provided in a development. The lack of a specific definition will allow developers to concrete over Croydon irrespective of any subjective character requirement. UDP RO12 Planning permission will not be granted for residential development unless recreational open space arising from the needs generated by the proposal is provided at a standard of 2.43ha per 1000 people.  
Commutated payments for off-site provision based on this standard will be acceptable where:  
a) The site is within an area of high density in accordance with policy H10 (and shown on Map 5); or  
b) The scheme is for less than 30 units or the site less than 0.5ha net area; or  
c) The proposal involves the conversion of buildings. When determining the level of provision or commuted payment, the Council will take into account whether the site lies within an area of Local Park deficiency, shown on Map 6.

The London Plan (not a good enough specification; RO12 is better)  
B The design of all new housing developments should enhance the quality of local places, taking into account physical context; local character; density; tenure and land use mix; and relationships with, and provision of, public, communal and open spaces, taking particular account of the needs of children and older people.  
C LDFs should incorporate minimum space standards that generally conform with Table 3.3. The Mayor will, and boroughs should, seek to ensure that new development reflects these standards.

Change

Policy DM10 has been amended to clarify the requirement for both communal and play space to be incorporated. The policy now reads as follows:

DM10.4 All To ensure that proposals for new residential development will need to provide private amenity space that. include private amenity space and flatted development and major housing schemes also include communal amenity space, the amenity space provided should:  
a)Be Is of high quality design, and enhancing and respecting the local character of the surrounding area;  
b)Complies with Supplementary Planning Document 3 Designing for Community Safety or equivalent;  
c)Be Is sited to ensure private outdoor amenity space can be adequately screened;  
d)Provides functional space;  
e)Provides a minimum amount of private amenity space of 5m2 per 1-2 person unit and an extra 1m2 per extra occupant thereafter; and  
f)All flatted development and developments of 10 or more houses must provide a minimum of 10m2 per child of new play space, calculated using the Mayor of London's population yield calculator and as set out in Table 6.1 below. The calculation will be based on all units being for affordable or social rent unless a signed Section 106 Agreement states otherwise.

DM10.5 All flatted development and developments of 10 or more houses must provide a minimum of 10m2 per child of new play space, calculated using the Mayor of London's population yield calculator and as set out in Table 6.1 below. The calculation will be based on all units being for affordable or social rent unless a signed Section 106 Agreement states otherwise.

DM10.6 In addition to the

provision of private amenity space, proposals for new flatted development and major housing schemes will also need to incorporate high quality communal outdoor amenity space that is designed to be flexible, multifunctional, accessible and inclusive.

2762/01/003//O	Mr James Robertson	Object		<p>Character needs to be much more closely defined in terms of objective measures such as the following but not excluding other factors:</p> <ul style="list-style-type: none"> <li>* mix of housing especially preserving family houses less profitable for upgrading than the creation of multiple occupation often to barely minimum standards,</li> <li>* a presumption against approval of retrospective or major variations to granted permission, such as last minute and or covert conversions to flats</li> <li>* development architectural style and footprint, 1</li> </ul> <p>* parking provision similar to existing and</p> <p>* avoiding radical changes to density (not necessarily the same as footprint).</p>	No change	<p>Whilst the character of an area can be defined using objective measures such as patterns of development, landscape and architectural style,</p> <p>Provisions for retrospective planning permission and variations to planning permissions are made within planning legislation and are not matters that can be considered through the Local Plan process.</p> <p>Matters relating to road widening, bin collection, health and safety, anti-social behaviour and traffic offences are not matters that can be considered through the Local Plan process.</p>
----------------	--------------------	--------	--	---	-----------	--

0203/03/036/DM10.4/C	Mr Charles King <i>East Coulsdon Residents' Associat</i>	Comment	DM10.4	<p>Amenity and play spaces are essential in large new developments, but should not be at the expense of and discourage the use local parks.</p>	No change	<p>Amenity spaces are provided for use by the occupants of the development. Parks are for use by the whole community and often contain facilities and host activities which small residential ameity spaces are unlike to be able to provide, therefore it is unlikely that these spaces would replace the need for parks.</p>

1865/01/003/DM10.4/C Colin Sims

DM10.4

Proposed Policy DM10 Design and Character; 10.4 Communal Open Space. I object to the relaxation of allocation of communal open space for residential dwellings of multiple occupation or for flats. The current policy specifies that planning permission will not be granted for residential development unless recreational open space arising from the needs generated by the proposal is provided at a standard of 2.43ha per 1000 people.

Change

An additional policy (DM10.4) will to added with the following wording. "In addition to the provision of private amenity space, proposals for new flatted development and major housing schemes will also need to incorporate high quality communal amenity space that is designed to be flexible, multifunctional, accessible and inclusive."

The new policy at 10.4 only specifies private amenity areas and play space for children. It does not specify communal open space for the number of occupants of a residential development.

1868/01/003/DM10.4/O Danusia Spink

Object

DM10.4

I object to the relaxation of allocation of communal open space for residential dwellings of multiple occupation or for flats. The current policy specifies that planning permission will not be granted for residential development unless recreational open space arising from the needs generated by the proposal is provided at a standard of 2.43ha per 1000 people. The new policy at 10.4 only specifies private amenity areas and play space for children. It does not specify communal open space for the number of occupants of a residential development.

Change

An additional policy (DM10.4) will to added with the following wording. "In addition to the provision of private amenity space, proposals for new flatted development and major housing schemes will also need to incorporate high quality communal amenity space that is designed to be flexible, multifunctional, accessible and inclusive."

The policies for intensification will result in lack of amenity space or communal open space for the residents of future developments of high residential and housing density.  
2. The Private amenity space allocations are such that residents will need a measure of communal open space to avoid an overbearing and claustrophobic amenity.  
3 Developers will be able to propose developments with minimal community open space allocations and planning officers or the planning committee would not have sufficient ground to refuse those applications  
4. We don't want developers concreting over all of Croydon!  
5. The current allocation of 2.43ha per 1000 people is appropriate and should be retained.

2764/08/001/DM10.4/O	Mr Derek Ritson <i>Monks Orchard Residents Associa</i>	Object	DM10.4	<p>As future policies are for intensification, it is more imperative to ensure that developers provide adequate communal open space for the future residents of a proposed high density development for multiple occupancy or for Flats/Apartments. Therefore a definition of the appropriate communal open space allowance should be provided for ALL occupiers (not just Children's play areas). The policy proposals only give Communal open space for childrens' play areas. What areas are available for the adults and parents of those children if they require to relax in an open space; do they have to relax and unwind in the children's play areas?</p> <p>The policy does not state communal open space allocation for the number of occupants for multiple occupancy development. RO12 Should be retained or an equivalent policy with specified parameters should be proposed. Without adequate definition, developers will not provide any acceptable level of communal open space for occupants of multiple occupancy dwellings or flats. If RO12 is not applied, this replaced policy would be a retrograde policy for people housed in accommodation which does not have access to adequate local open space. This change of policy (or lack of policy retention) is not for the benefit of the community to which the council is stakeholder, or for retaining the character of an area, but for the benefit of developers to allow greater profit on proposed site developments. The replacement policy is not conducive to decent living requirements for future generations and is not adequately specified. The new policy does not even have a requirement for "Commutated payments for off-site provision" based on any standard! As far as we can determine, The London Plan or the NPPF does not give any guidance on this important issue- but they should.</p>	The policy should provide requirements for communal open space for all occupiers and not just children's play space. The policy should include this or Saved UDP Policy R012 should be retained.	Change	An additional policy (DM10.4) will to added with the following wording. "In addition to the provision of private amenity space, proposals for new flatted development and major housing schemes will also need to incorporate high quality communal amenity space that is designed to be flexible, multifunctional, accessible and inclusive."
2766/01/001/DM10.4/C	B Wilson <i>W.R. Newland and Sons Ltd</i>	Comment	DM10.4	The minimum amenity space standards should allow for semi-private communal amenity space to be provided in developments of flats where space such as balconies cannot be provided due to site constraints.	Change	An additional policy (DM10.4) will to added with the following wording. "In addition to the provision of private amenity space, proposals for new flatted development and major housing schemes will also need to incorporate high quality communal amenity space that is designed to be flexible, multifunctional, accessible and inclusive."	

2822/01/006/DM10.4/O	<i>Menta Redrow LTD</i>	Object	DM10.4	DM10.4(f) refers to child play space and would appear to seek provision on site for all children. This is inconsistent with the Mayors approach and will clearly not be deliverable for high density town centre schemes. The policy should be amended to refer directly to the Mayors guidance, which should be applied.	The policy should reflect the Mayor's guidance on the provision of child play space.	No change	The policy takes into account Policy 3.6 of the London Plan and accord with the GLA Supplementary Planning Guidance Shaping Neighbourhoods: Children and Young People's Play and Informal Recreation (2012) which outlines distances which children can be expected to travel to access these facilities. The reason justification clarifies that the GLA supplementary guidance should be used when assessing play space provision.
2843/01/006/DM10.4/O	<i>Minerva</i>	Object	DM10.4	DM10.4(f) refers to child play space and would appear to seek provision on site for all children. 2942/01/002/DM10.4/O Dr Anwar Ansair  
AA Homes and Housing

Object

DM10.4

The requirement for all affordable housing of over 10 units to provide 10sqm per child of new play space is considered to be onerous. Not all buildings being converted to flats where there is an affordable housing requirement have enough amenity space to provide play space to this standard or even at all. The policy does not take account of the change in government policy which could occur as a result of the Housing and Planning Bill that a significant amount of 'affordable' housing would need to be starter homes and be sold off after 5 years, nor that the council will be required to sell off amounts of its own or housing association housing. Policies appropriate to local authority housing may be less appropriate for housing which becomes market housing. The policy is not clear as regards whether the amenity space for children is required in housing in the private sector-the wording should be changed to clarify which types/tenures of dwellings are included. Existing buildings which are suitable for conversion to flats would not always have space around them to convert into play space. Whilst it is likely and expected that balconies could be added to converted buildings to provide amenity space at any level of the building to meet the London Plan requirement of 5sqm per person with incremental 1 sqm per person, the amenity space for children is likely to be required at ground floor level. On more central sites there is unlikely to be sufficient space to provide amenity space at ground floor level so this standard is unreasonable. There is also a good case for not requiring any play space for 1-bedroom units which are unlikely to have a significant child yield. Provision of play space for children is desirable in principle and helps to socialise children and give them opportunities to play together. However, it is considered that especially in conversion schemes, this is unlikely to be achievable and is not a practical policy.

The playspace requirements should be reduced, particularly where it involves conversions of existing buildings. The policy should also make clear what type of affordable housing it relates to and whether it applies to the private sector.

No change

The reason justification clearly states that play space requirements are applicable for all developments, in private sector. The policy takes into account Policy 3.6 of the London Plan and accord with the GLA Supplementary Planning Guidance Shaping Neighbourhoods: Children and Young People's Play and Informal Recreation (2012) which outlines distances which children can be expected to travel to access these facilities. The reason justification clarifies that the GLA supplementary guidance should be used when assessing play space provision.

Object

DM10.4

The London Plan Indicates an increase in the communal amenity space from those identified in the Mayor of London's Housing Supplementary Planning Guidance but does not state any value or any increased allocation per resident in hectares. However CLP2 has relaxed the requirement for "Communal Open Space" by omitting UDP saved policy RO12. Bring forward current UDP Policy RO12 into CLP2, Or even increase the allowance per person above the RO12 quoted 2.43ha per 1000 persons. If not specified, developers will not offer any communal open space for residents of blocks of flats. The private amenity space for balconies is specified in the London Plan, but no specified allocation is given for "communal open space." Communal open space benefits the local residents in multiple occupation premises or flats. To reduce the allowance is a retrograde step. We don't want developers to be allowed to concrete over everything? The relaxation of policy for the allocation of 'communal open land' for multiple occupancy dwellings and flats is against the policy of the London Plan and would result in developers not providing any reasonable communal open land as part of their proposals. Planning Officers and members of the planning committee could NOT refuse an application on grounds of insufficient communal open land as there is no specific requirement in the policies. Any refusal could be overturned on appeal as there would be no justification for a refusal.

Saved UDP Policy R012 should be retained or the policy should set out requirements for communal open space.

Change

An additional policy (DM10.4) will be added with the following wording. "In addition to the provision of private amenity space, proposals for new flatted development and major housing schemes will also need to incorporate high quality communal amenity space that is designed to be flexible, multifunctional, accessible and inclusive."

What does this actually mean - is the distance between facing windows 18m or 21m? Why specify a tolerance? The minimum distance should be specified. The policy is negated by the sentence "but adhering rigidly" So if it restricts density, the distance is undeterminable. Under what criteria can it be less than 18m? If a developer specifies it as less than 18m? What can planning officers do to require a developer to meet the requirement of 18m. This policy is unenforceable. Extremely weak definition. Under what circumstances can the facing windows distances be less than 18m? If a proposal is put before the LPA for a development with facing windows less than 18m could that be acceptable? If so any development proposal with facing windows less than 18m mrefused by the LPA could be appealed as there is a get out clause. So the reference really is to "show how the policy would NOT work!" The policy as it stands is unenforceable and not deliverable. Policies proposed by the Spatial Planning Team should be sufficiently robust in their definition to be enforceable otherwise developers will just resort to appeals if the Planning officers or committee recommend a refusal.

The minimum distances should defined so that the policy is enforceable. Change

The minimum amenity space standards align with the minimum private space requirements outlined in the Mayor for London's Housing Supplementary Guidance March 2016. When applications are assessed consideration is given to how it responds to site constraints. These include constraints such as local character, the site layout (including the quality and usability of amenity space) and impact on adjacent occupiers. This approach is in line with the National Planning Policy Framework, the London Plan and other policies within the Croydon Local Plan. The distance of 18m was not referred to in the policy but as a guide as there was insufficient evidence to support specifying a set minimum distance.

For clarity an additional policy (DM10.4) will be added with the following wording. "In addition to the provision of private amenity space, proposals for new flatted development and major housing schemes will also need to incorporate high quality communal amenity space that is designed to be flexible, multifunctional, accessible and inclusive."

1592/01/005/DM10.5/O	<i>Croydon Partnership Ltd</i>	Object	DM10.5	<p>Draft Policy DM10 considers matters of Design and Character and DM10.5 is concerned specifically with ensuring the amenity of the occupiers of adjoining buildings. The draft policy proposes that the Council will support proposals for development which ensure that the amenity of the occupiers of adjoining buildings are protected and do not result in direct overlooking of private outdoor space (with the exception of communal open space) or significant loss of existing sunlight or daylight levels of adjoining occupiers. We consider that when the application site is in the town centre draft Policy DM10.5 is overly prescriptive and does not allow for sufficient flexibility for development proposals to come forward which are considered acceptable against the relevant assessment criteria. An element of direct overlooking is, in our opinion, an inevitable consequence of development in Croydon town centre. The wording of DM10.5 should be amended to include the required flexibility:</p> <p>"The Council will support proposals for development that ensure that the amenity of the existing occupiers of adjoining buildings are not materially adversely affected."</p>	DM10.5 should be amended for greater flexibility to "The Council will support proposals for development that ensure that the amenity of the existing occupiers of adjoining buildings are not materially adversely affected."	No change	The reason justification provides sufficient flexibility to accommodate well-designed proposals that are neighbourly, whilst allowing the privacy of existing and future occupiers (of the proposed development) to be protected.
2942/01/003/DM10.7/O	Dr Anwar Ansair <i>AA Homes and Housing</i>	Object	DM10.7	<p>This is a policy which supports Strategic Objective 5 which is about improving the design standard/appearance of buildings and ensuring that new development fits in. The policy is too open to subjective application and would depend for interpretation on the particular view of any individual officer as to what is sympathetic to the context. There is not enough detail to steer developers or decision makers in the design policies. Generally, the detail of the design policy is set out in the supporting text rather than in the policies themselves so that the whole of this section has to be read to understand what is the intention of the policy. More detailed examples could be used or more specific advice-perhaps within a design supplementary planning guidance. It is a good thing to want to design roofs or other new elements of buildings so that they make a positive contribution to the character of an area. The policy as written can be interpreted very subjectively and there should be more supporting text or possibly diagrams to clarify how the policy should be applied.</p>	The policy should be made less subjective and contain more detail within the policies rather than the supporting text, along with diagrams.	No change	Your objection is noted. Policies in the plan should be read in conjunction with other policies and supplementary guidance. The policies are applied on a borough wide level and cover a wide range of topics, therefore would not be able to incorporate the level of detail suggested. The level of information requested would normally be found in supplementary planning guidance. Additional guidance (listed as Key Evidence in paragraph 6.2) such as the Borough Character Appraisal (2015) in appendix 4, the Character Typology (2015) in appendix 5 provide descriptions of local character.

2690/01/007/DM10.8/O	Miss Nicola Hume <i>Persimmon Homes</i>	Object	DM10.8	In general we support the urban design and local character principles in the Local Plan. However, the wording on 10.8(d) is onerous. The 'natural habitats' definition is too broad as it encompasses all areas. When developing a site, Persimmon make efforts to retain as many existing trees and vegetation on a site; however this is not always viable or safe when progressing a site. Persimmon believe that the wording should be changed so that the definition is not as restrictive.	The wording of this policy should be amended to be less restrictive.	No change	The contribution that soft landscaping can make reaches beyond the positive impact it can have on the character and appearance of an area. Impacts include contributing to the borough's green infrastructure reinforces wildlife habitats and reducing flood risk. Whilst the policy recognises its importance, it provides a degree of flexibility that allows landscaping to be re-provided on site.
0102/03/002/DM11.1/O	<i>Joint LPA Receivers</i>	Object	DM11.1	Objection to DM11 as not most appropriate for Croydon to help meet the Strategic Objectives and not deliverable and does not enable sustainable development.		No change	The objection is noted.
2846/01/011/DM11.3/C	Alison and Kemal Hairettin	Comment	DM11.3	DM11: High street to residential conversions should not be allowed in parades with high commercial or community usage. Where conversions are agreed consideration should be given to the look and character of the facade - use of brick rather than render should be encouraged		No change	Residential conversions on shopping parades, in protected areas and where the loss of retail units would detrimentally effect the viability and vitality of an area permission can be refused.  The National Planning Policy Framework states that "planning policies and decisions should not attempt to impose architectural styles or particular tastes..." Whilst there is scope for policies to provide guidance on materials this must be justified. Unlike the place specific policies the Shop Front Design and Security Policy is applicable to the whole borough. This would include areas where the predominant material may be render. In these locations prohibiting the use of render would be problematic.

0120/02/016/DM13.1/O	<i>Addiscombe Residents Associatio</i>	Object	DM13.1	This is a contentious matter in residential areas where houses are converted into flats and the front of the property ends up being littered with big numbers of landfill bins, recycling bins. There should be a policy on use of commercial bins for conversions, very tight requirements for sensible siting and design of the refuse storage housing. Same for newly built properties of more than say 3 flats.	The policy should address refuse and cycling for conversions.	No change	The supporting text within the reason justification provides guidance about how refuse and recycling storage should be incorporated within existing building that has been converted. Additionally, the Council's Public Realm and Safety Department have particular refuse and recycling requirements which will have to be met. Since these requirements may change, the policies have been drafted to allow the flexibility to increase the amount of refuse and recycling storage provision. This approach aligns with Standard 22 paragraph 2.3.20 of the Mayor of London's Housing Supplementary Guidance Local Plan 2016 Implementation Framework.
0203/03/040/DM13.1/S	Mr Charles King <i>East Coulsdon Residents' Associat</i>	Support	DM13.1	Recycling: Adequate provision for Recycling provision must be included on new buildings and conversions to ensure that it is not stored in the street.		Welcome support	
0320/01/010/DM13.1/S	Mr Tarsem Flora <i>Flora Associates</i>	Support	DM13.1	Refuse and Recycling Agree with Option 1		Welcome support	The support is welcomed.

0320/01/011/DM13.1/O	Mr Tarsem Flora <i>Flora Associates</i>	Object	DM13.1	Currently a number of recycling and refuse bins are left on the public footpaths destroying the ambience and quality of the street scene.	No change	To address this issue the policy has been drafted to encourage developers to consider refuse and recycling at an early stage of the design. This should help to ensure that refuse and recycling can be sensitively incorporated within each development. The supporting text within the reason justification provides guidance about how refuse and recycling storage should be incorporated within existing building that has been converted. Additionally, the Council's Public Realm and Safety Department have particular refuse and recycling requirements which will have to be met. Since these requirements may change, the policies have been drafted to allow the flexibility to increase the amount of refuse and recycling storage provision. This approach aligns with Standard 22 paragraph 2.3.20 of the Mayor of London's Housing Supplementary Guidance – Local Plan 2016 Implementation Framework.

2605/01/016/DM13.1/O	Ian Broyd	Object	DM13.1	This is a contentious matter in residential areas where houses are converted into flats and the front of the property ends up being littered with big numbers of landfill bins, recycling bins. There should be a policy on use of commercial bins for conversions, very tight requirements for sensible siting and design of the refuse storage housing. Same for newly built properties of more than say 3 flats.	The policy should address refuse and cycling for conversions.	No change	The supporting text within the reason justification provides guidance about accomodating refuse and recycling resulting from conversions of houses to flats. The Council's Public Realm and Safety Department has particular refuse and recycling requirements which will have to be met. Since these requirements may change, the policies have been drafted to allow the flexibility to increase the amount of refuse and recycling storage provision
2942/01/004/DM13.1/O	Dr Anwar Ansair <i>AA Homes and Housing</i>	Object	DM13.1	Where a building is being converted to flats, whilst individual owners/tenants are likely to have a domestic or kitchen bin, they would need also to have refuse and recycling bins for collections by the council/contractor. Due to the configuration and limited areas of space, it will not always be practical for the bin stores to be within the building. This is an onerous requirement which will take up inside space that could be converted to accommodation or provide an entrance area. On most sites there would usually be space to provide an external bin store convenient to most residents within an accessible but not obtrusive part of the curtilage. It is not common in any existing residential dwellings for bin stores to be anywhere other than in either the rear garden where there is an alley or in a covered enclosure in the front garden or communal curtilage. This is true of houses and flats. To expect that for all new development, bins could only be kept within the building and not in an enclosure in the site which is convenient to all provided it is reasonable located is an unreasonable and onerous policy. It is also likely that such a bin area would require external ventilation so that it would act as a heat sink which would reduce the efficiency of the heating for the building. Also, where a building is being converted into a large number of flats, this could take up a large area which could become less economic to provide. Provision of internal bin stores with external ventilation could result in reductions in the efficiency of heating . Where there are flats, it may be easier and more accessible for all users to go to an external bin store than go to a bin room in a particular part of the building.	The policy should not require all refuse or cycling bins to be included within the building.	No change	The supporting text within the reason justification provides guidance about how refuse and recycling storage should be incorporated within existing building that has been converted. Additionally, the Council's Public Realm and Safety Department have particular refuse and recycling requirements which will have to be met. Since these requirements may change, the policies have been drafted to allow the flexibility to increase the amount of refuse and recycling storage provision. This approach aligns with Standard 22 paragraph 2.3.20 of the Mayor of London's Housing Supplementary Guidance – Local Plan 2016 Implementation Framework.

2041/10/001/DM13.2/O	<i>McKay Securities</i>	Object	DM13.2	<p>Policies DM13.2 to 5 should be deleted as they provide excessive levels of detail in relation to the objective set by policy DM13.1d which is to provide safe conveniently located and easily accessible waste refuse facilities and layouts. The remainder of the Policy is an attempt to define what constitutes these criteria and they are excessively detailed and repetitive.</p> <p>Commercial waste disposal is now undertaken by private contractors and individual businesses are responsible for making their own arrangements for waste refuse removal. This works satisfactorily without the need for the significant detail set out in policies DM13.2 to 13.5. Because commercial refuse disposal works very well without such regulation, there is no reason why residential refuse collection cannot operate on the same basis.</p> <p>If these standards are adopted they will also result in the homogenisation of building design, and produce developments that are awkwardly detailed and designed more in relation to refuse requirements than to their street context.</p>	Policies DM13.2 to 5 should be deleted	Change	<p>Policies DM13.2 are necessary to ensure waste can be sustainably and effectively managed, therefore will be retained.</p> <p>Policies DM13.3 - DM13.5 outline the Council's Public Realm and Safety Department requirements for new developments, however to allow future flexibility should these requirements change, policies DM13.3 - DM13.5 has been removed.</p>
----------------------	-------------------------	--------	--------	---	--	--------	---

1592/01/006/DM13.3/O	<i>Croydon Partnership Ltd</i>	Object	DM13.3	<p>Draft Policy DM13 seeks to provide clear guidance on the location and design of refuse and recycling facilities within developments that come forward in the Borough. DM13.3 looks to ensure that the location and design of refuse and recycling facilities are treated as an integral element of the overall design through the implementation of a number of measures and seeks to ensure that such facilities are easily accessible by operators.</p> <p>We support the principle of Draft Policy DM13 and consider providing clear guidance for refuse and recycling within developments to be a sensible approach. However, we consider that criteria (a)- (e)of DM13.3 are overly prescriptive and do not provide sufficient flexibility. We would therefore request that rather than adopting a blanket-approach, individual sites should be considered on a case by case basis, taking into account local context and</p>	The policy should consider refuse and recycling on a case by case basis, taking into account local context and suitability.	Change	<p>Policies DM13.2 are necessary to ensure waste can be sustainably and effectively managed, therefore will be retained.</p> <p>Policies DM13.3 - DM13.5 outline the Council's Public Realm and Safety Department requirements for new developments, however to allow future flexibility should these requirements change, policies DM13.3 - DM13.5 has been removed.</p> <p>The supporting text in the reason justification provides guidance about how refuse and recycling storage should be incorporated within existing buildings that has been converted. The policy and supporting text provides flexibility for a number of different types of development ranging from new builds through to conversions. However the guiding principle of DM13 is to ensure that refuse and recycling is considered at an early enough stage of the design process to ensure it can be sensitively incorporated into every development.</p>
----------------------	--------------------------------	--------	--------	---	---	--------	---

2041/10/002/DM13.3/O	<i>McKay Securities</i>	Object	DM13.3	<p>Policies DM13.2 to 5 should be deleted as they provide excessive levels of detail in relation to the objective set by policy DM13.1d which is to provide safe conveniently located and easily accessible waste refuse facilities and layouts. 0203/03/063/DM14/C	<p>Mr Charles King <i>East Coulsdon Residents' Associat</i></p>	Comment	DM14	<p>Public Art is a way of making a Town Centre interesting and celebrating its past history. Art can range from blue plaques, information boards to statues and water features. Also opening up the Surrey Iron Railway ancient monument will contribute to making the town an interesting place to visit. The Council should commit to providing public art in the town centre as way of keeping interest in the town centre and reflecting its history.</p>	No change	<p>The Council values the positive contribution that public art plays in enhancing Croydon's public realm and where appropriate will encourage public art to be incorporated.</p>	

2041/11/001/DM14/O	McKay Securities	Object		DM14	It is onerous for all major schemes to be required to provide public art. It may not be appropriate in many situations as neither the building nor its street context may be suitable for the provision of public art. The policy should be redrafted to make clear that where developments qualify, and are suitable to provide public art, then they should do so using the criteria set out in (a) to (e) of Policy DM14. If this revision is not made then schemes will have to bear the cost of providing public art without reference to the need for it or the desirability for it in a given location. This will simply add unnecessary cost to the scheme and could detract from the quality of the environment.	No change	The Council values the positive contribution that public art plays in enhancing Croydon's public realm and where appropriate will encourage public art to be incorporated. Public art should not be confined to statues, but can be incorporated in imaginative, simple and cost effective ways such as bespoke paving, gates, lighting, signage, street furniture, playground equipment, railings and landscaping, murals (painted or ceramic), decorative bargeboards or works of art incorporated on elevations where they will be visible to pedestrians. This list highlights a few of the many ways in which public art can be incorporated into developments and demonstrates that its provision does not have to be onerous.
0082/02/002/DM15.1/O	Ms Anne Bridge Canning and Clyde Road Resident	Object	Soundness - Effective	DM15.1	The Metropolitan Centre has been identified as being suitable for tall buildings. The Local Plan needs to state specifically that very tall buildings should not be allowed on the edge of the Metropolitan Centre where there are significantly lower residential buildings. Although there is some provision for this in DM15, there are sufficient potential get-outs so DM15 needs to address the edge of / bordering on Metropolitan Centre area specifically.	No change	The detailed guidance in relation to tall and large buildings can be found in the Croydon Opportunity Area. The Croydon Opportunity Area Planning Framework provides clear and relatively detailed guidance on tall buildings and development in the 'Edge' areas.
0115/04/015/DM15.1/O	Mr Bob Sleeman	Object		DM15.1	I am also disappointed that the Council hasn't taken the opportunity to amend its tall buildings policy so that the tallest buildings have to be built in the centre of the tall buildings zone with heights gradually decreasing as you approach the two-storey residential housing that surrounds the town centre.	No change	The detailed guidance in relation to tall and large buildings can be found in the Croydon Opportunity Area. The Croydon Opportunity Area Planning Framework provides clear and relatively detailed guidance on tall buildings and development in the 'Edge' areas.

0120/02/020/DM15.1/O	Addiscombe Residents Associatio	Object		DM15.1	The Metropolitan Centre has been identified as being suitable for tall buildings. The Local Plan needs to state specifically that very tall buildings should not be allowed on the edge of the Metropolitan Centre where there are significantly lower residential buildings. Although there is some provision for this in DM15, there are sufficient potential get-outs so DM15 needs to address the edge of/ bordering on Metropolitan Centre area specifically. Tall buildings should not be approved in District Centres- the predominant height in Addiscombe District Centre should remain the same.	The policy should address tall buildings at the edge of the Metropolitan Centre and in District Centres.	No change	The detailed guidance in relation to tall and large buildings can be found in the Croydon Opportunity Area. The Croydon Opportunity Area Planning Framework provides clear and relatively detailed guidance on tall buildings and development in the 'Edge' areas.
0122/05/015/DM15.1/O	Mrs Hilary Chelminski Addiscombe & Shirley Park RA	Object	Soundness - Effective	DM15.1	I am also disappointed that the Council hasn't taken the opportunity to amend its tall buildings policy so that the tallest buildings have to be built in the centre of the tall buildings zone with heights gradually decreasing as you approach the two-storey residential housing that surrounds the town centre.		No change	The detailed guidance in relation to tall and large buildings can be found in the Croydon Opportunity Area. The Croydon Opportunity Area Planning Framework provides clear and relatively detailed guidance on tall buildings and development in the 'Edge' areas.
0320/01/012/DM15.1/S	Mr Tarsem Flora Flora Associates	Support		DM15.1	Tall and Large Buildings-We accept preferred Option 1 - in particular the statement that the tall or large buildings respect and enhance local character		Welcome support	
0320/01/013/DM15.1/O	Mr Tarsem Flora Flora Associates	Object		DM15.1	-In saying that very often 'matching character' reduces the chance of a modern cutting edge technology DESIGNS for new buildings. The council appears to encourage good design but continue to approve schemes which fall short of this. Why is this so?		No change	This comment is not related to the Local Plan
0391/01/006/DM15.1/C	Mrs Mira Armour HOME Residents Associaton	Comment		DM15.1	DM15 Tall buildings The Metropolitan Centre has been identified as being suitable for tall buildings. The Local Plan needs to state specifically that very tall buildings should not be allowed on the edge of the Metropolitan Centre where there are significantly lower residential buildings. There are potential ways of avoiding compliance with DM15, so this policy needs to address the edge of / bordering on Metropolitan Centre area specifically.	The Local Plan needs to state specifically that very tall buildings should not be allowed on the edge of the Metropolitan Centre where there are significantly lower residential buildings	No change	The detailed guidance in relation to tall and large buildings can be found in the Croydon Opportunity Area. The Croydon Opportunity Area Planning Framework provides clear and relatively detailed guidance on tall buildings and development in the 'Edge' areas.

0391/02/006/DM15.1/C	Mrs Mira Armour <i>HOME Residents Associaton</i>	Comment		DM15.1	DM15 Tall buildings The Metropolitan Centre has been identified as being suitable for tall buildings. The Local Plan needs to state specifically that very tall buildings should not be allowed on the edge of the Metropolitan Centre where there are significantly lower residential buildings. 0391/01/007/DM15.1/O	Mrs Mira Armour <i>HOME Residents Associaton</i>	Object		DM15.1	District Centres are not suitable for Tall buildings		No change	Objection noted, not substantiated in planning terms
0391/02/007/DM15.1/O	Mrs Mira Armour <i>HOME Residents Associaton</i>	Object		DM15.1	District Centres are not suitable for Tall buildings		No change	Objection noted, not substantiated in planning terms
0407/01/002/DM15.1/O	A Douthwaite	Object	Soundness - Effective	DM15.1	I am joining our MP, Gavin Barwell, in objecting to the tall buildings policy for the Menta development on Cherry Orchard Road contained in the Croydon Local Plan.  Cherry Orchard Road is right on the (residential) edge of the tall buildings zone. Addiscombe residents have previously objected to the erection of tall buildings along Cherry Orchard Road. They are completely at odds with the character of the adjoining residential area composed of mainly 2-storey terraced houses. (There has already been some incursion with the 2 office blocks on the eastern side of Cherry Orchard Road between the Addiscombe and Cedar Roads and Cedar Road and Oval Road.)		No change	The tall buildings policy should not be read in isolation. It should be read in conjunction with other policies contained within the Local Plan such as but not limited to policies in The Places of Croydon and the Urban Design and Local Character sections of the local plan. Detailed guidance in relation to tall and large buildings can be found in the Croydon Opportunity Area. The Croydon Opportunity Area Planning Framework provides clear and relatively detailed guidance on tall buildings and development in the 'Edge' areas.
1159/01/001/DM15.1/O	Mr John Ingman <i>Park Hill Residents' Association</i>	Object		DM15.1	I am writing on behalf of Park Hill Residents Association (which I chair) and which represents some 2,600 households in this part of East Croydon. We would urge that in considering the location of tall buildings in the Metropolitan Centre, the Council should concentrate the tallest buildings in the centre of that area and keep those in the perimeter of this area to a lesser height. This would avoid conflicts such as those created by the construction of Altitude 25 in Altyre Road adjacent to low storey houses.	The policy should be amended so that tall buildings are only permitted in the Metropolitan Centre.	No change	The tall buildings policy should not be read in isolation. It should be read in conjunction with other policies contained within the Local Plan such as but not limited to policies in The Places of Croydon and the Urban Design and Local Character sections of the local plan. Detailed guidance in relation to tall and large buildings can be found in the Croydon Opportunity Area. The Croydon Opportunity Area Planning Framework provides clear and relatively detailed guidance on tall buildings and development in the 'Edge' areas.

1302/01/011/DM15.1/C	Mr Graham Saunders <i>Historic England</i>	Comment	DM15.1	Under Policy DM15 Tall and large buildings, the wording should ensure that proposals are assessed against the significance of heritage assets that may be affected by tall building proposals. At present the policy operates from the basis that all potential issues relating to the historic environment have been sufficiently considered. In general we support the Council's commitments to providing plan-led approach to dealing with tall buildings (including further details in the character area policies of DM32-47), but there are likely to be proposals that haven't been foreseen, and which the current policy may appear insufficient to address.	strengthen Tall Buildings Policy to reflect the potential of harm to heritage assets  include in the policy that proposals will be permitted where they: (a) are of exceptional quality and design and conserve or enhance the significance of the area's heritage assets, their setting and the wider historic environment	Change	The tall buildings policy should not be read in isolation. It should be read in conjunction with other policies contained within the Local Plan, such as but not limited to policy DM17 Heritage Assets and Conservation. Nevertheless, DM15 has been reworded to place greater emphasis on the significance of heritage assets.
1592/01/008/DM15.1/O	<i>Croydon Partnership Ltd</i>	Object	DM15.1	Criterion d proposes that buildings taller than 40 storeys will need to incorporate amenity space such as sky gardens, atriums and roof terraces that are accessible to the public as well as residents of the development. We consider that the wording of Policy DM15(d) should be amended to add flexibility to the approach towards amenity space to buildings over 40 storeys. We would suggest that individual sites should be considered on a case by case basis so that they can be assessed on their own merits and their ability to provide the proposed amenity space, in particular significant town centre developments where the residential use is just one element of the scheme.	Criterion d should be amended so that the ability for schemes to provide private amenity space is considered on a case by case basis.	No change	Every application is assessed on a case by case basis. The Mayor for London's Housing Supplementary Guidance March 2016 sets out minimum amenity space standards. In addition to the need to provide private amenity space DM10.4 requires communal amenity space to be provided. Where developments are taller than 40 storeys DM15.1d allows for some flexibility in the way in which amenity space can be provided.
1592/01/007/DM15.1/S	<i>Croydon Partnership Ltd</i>	Support	DM15.1	Draft Policy DM15 seeks to bring Croydon's Local Plan in line with the adopted Croydon OAPF by controlling the location and design of tall and large buildings within the Borough. Option 1 (i.e. the 'Preferred Option') seeks to ensure that tall or large buildings be located in the areas identified for such buildings as set out in the OAPF; be in locations which have a minimum PTAL rating of 4; incorporate a sensitive approach to articulation and composition which is proportionate to their scale; and incorporate a mix of publically accessible uses and spaces. We support Option 1 in this respect and consider it sensible to introduce such a policy to bring the Croydon Local Plan in line with the OAPF.		Welcome support	

1827/01/017/DM15.1/O	Jane & Paul Riley	Object	Soundness - Effective	DM15.1	Will be calling on the Council to amend its tall buildings policy so that the tallest buildings have to be in the centre of town, not right on the edge of the tall buildings zone next to two-storey residential housing.	No change	The detailed guidance in relation to tall and large buildings can be found in the Croydon Opportunity Area. The Croydon Opportunity Area Planning Framework provides clear and relatively detailed guidance on tall buildings and development in the 'Edge' areas.	
1918/01/017/DM15.1/O	Mr Gareth Champion	Object	Soundness - Effective	DM15.1	Will be calling on the Council to amend its tall buildings policy so that the tallest buildings have to be in the centre of town, not right on the edge of the tall buildings zone next to two-storey residential housing.	No change	The detailed guidance in relation to tall and large buildings can be found in the Croydon Opportunity Area. The Croydon Opportunity Area Planning Framework provides clear and relatively detailed guidance on tall buildings and development in the 'Edge' areas.	
1968/01/006/DM15.1/O	Gavin Barwell	Object		DM15.1	I am also disappointed that the Council hasn't taken the opportunity to amend its tall buildings policy so that the tallest buildings have to be built in the centre of the tall buildings zone with heights gradually decreasing as you approach the two storey residential housing that surrounds the town centre.	No change	The detailed guidance in relation to tall and large buildings can be found in the Croydon Opportunity Area. The Croydon Opportunity Area Planning Framework provides clear and relatively detailed guidance on tall buildings and development in the 'Edge' areas.	
2041/20/001/DM15.1/O	<i>McKay Securities</i>	Object		DM15.1	For Croydon to meet its development aspirations as well as those of sustainable development, and set out in Policies SP3.3, SP3.11, SP3.13(a), SP4.5 and paragraph 4.45 of the Croydon Local Planning Strategic Policies a significant number of new large buildings will need to be constructed in Croydon. It is necessary therefore for a policy to set out more clearly the criteria by which these buildings will be allowed to come forward. Policy 15.1.c requires tall buildings to be of exceptional quality which is extremely onerous and it is not clear why this class of buildings have to be of exceptional quality. It is accepted that high quality buildings are necessary to create environmental improvements and the creation of places but the requirement for the more onerous standard of exceptional quality is not justified or explained. It is likely that if this criterion is retained many tall buildings which could provide much needed homes and jobs will be stuck in the planning or pre-planning pipeline for an indeterminate period while an elusive exceptional design is sought. This will prevent urgently needed development coming forward as easily as it should.	Policy 15.1.c requires tall buildings to be of exceptional quality which is extremely onerous and it is not clear why this class of buildings have to be of exceptional quality.	No change	The requirement of design of exceptional quality is due to their size and scale and increased densities arising from tall buildings the impact on their surroundings and extent of the impact can be greater than that of conventionally sized buildings. The detailed guidance in relation to tall and large buildings can be found in the Croydon Opportunity Area. The Croydon Opportunity Area Planning Framework provides clear and relatively detailed guidance on tall buildings and development in the 'Edge' areas.

2041/12/001/DM15.1/O	<i>McKay Securities</i>	Object		DM15.1	Policy DM15.2 - It is not clear why tall buildings should have their ground and first floors available for publicly accessible uses and spaces while smaller buildings do not. Tall and large buildings can integrate well in a local area through sympathetic design, active frontages and through improvements and enhancements that can be achieved through CIL payments. It is not clear why public access is also required, or why this is a criterion for integration within a local area and it does not understand the commercial requirements of either tenants, landlords or owners. This policy should be deleted.	This policy should be deleted.	No change	The detailed guidance in relation to tall and large buildings can be found in the Croydon Opportunity Area. The Croydon Opportunity Area Planning Framework provides clear and relatively detailed guidance on tall buildings and development in the 'Edge' areas.
2083/01/017/DM15.1/O	Mr Stewart Murray <i>Greater London Authority</i>	Object		DM15.1	The Mayor welcomes the development management approach to tall buildings, including the need for exceptional quality and the supporting text which places the emphasis on the streetscape, local views and the integration with public realm at street level.		Welcome support	
2605/01/020/DM15.1/O	Ian Broyd	Object		DM15.1	The Metropolitan Centre has been identified as being suitable for tall buildings. The Local Plan needs to state specifically that very tall buildings should not be allowed on the edge of the Metropolitan Centre where there are significantly lower residential buildings. Although there is some provision for this in DM15, there are sufficient potential get-outs so DM15 needs to address the edge of/ bordering on Metropolitan Centre area specifically. Tall buildings should not be approved in District Centres- the predominant height in Addiscombe District Centre should remain the same.	The policy should address tall buildings at the edge of the Metropolitan Centre and in District Centres.	No change	The detailed guidance in relation to tall and large buildings can be found in the Croydon Opportunity Area. The Croydon Opportunity Area Planning Framework provides clear and relatively detailed guidance on tall buildings and development in the 'Edge' areas.
2823/01/001/DM15.1/O	Margaret Chan	Object	Soundness - Effective	DM15.1	You have not amended your tall buildings policy, so that you will continue to allow tall buildings to be built right up against normally-sized residential properties in East Croydon. Such developments severely restrict the views and access to sunlight and fresh air of residents		No change	The tall buildings policy should not be read in isolation. It should be read in conjunction with other policies contained within the Local Plan such as but not limited to policies in The Places of Croydon and the Urban Design and Local Character sections of the local plan. Detailed guidance in relation to tall and large buildings can be found in the Croydon Opportunity Area. The Croydon Opportunity Area Planning Framework provides clear and relatively detailed guidance on tall buildings and development in the 'Edge' areas.

2843/01/007/DM15.1/O	Minerva	Object		DM15.1	The policy should be reworded to the following "and do not harm the setting of designated heritage assets". As stated in Historic England's guidance on setting, not all aspects of the setting of a heritage asset will necessarily contribute to the significance of a heritage asset. As set out in paragraphs 132-135 of the NPPF, harm to the significance of a designated heritage asset may be balanced by the public benefit provided by the development proposal.	The policy should be reworded to the following "and do not harm the setting of designated heritage assets".	No change	A designated heritage asset will carry more weight in planning terms when determining a planning application for a tall or large building, however the policy is worded to enable consideration of the impact on all heritage assets in the local context. Each planning application is considered on its merits and in the context of the National Planning Policy Framework, the London Plan and Croydon's adopted Local Plan: Strategic Policies and Development Plan Documents.
2868/01/001/DM15.1/O	Graham Lyon	Object		DM15.1	My main concern about the proposals for Addiscombe and East Croydon is that the Council isn't amending its tall buildings policy. When the Menta planning application for a 50+ storey tower on Cherry Orchard Road was approved by the previous Conservative Council, both Labour councillors and I agreed that very tall buildings weren't appropriate on this site. However, now that they are running the Council those same councillors haven't changed the Council's policy.  I will be calling on the Council to amend its tall buildings policy so that the tallest buildings have to be in the centre of town, not right on the edge of the tall buildings zone next to two-storey residential housing.		No change	The tall buildings policy should not be read in isolation. It should be read in conjunction with other policies contained within the Local Plan such as but not limited to policies in The Places of Croydon and the Urban Design and Local Character sections of the local plan. Detailed guidance in relation to tall and large buildings can be found in the Croydon Opportunity Area. The Croydon Opportunity Area Planning Framework provides clear and relatively detailed guidance on tall buildings and development in the 'Edge' areas.
2871/01/001/DM15.1/O	Dianne Darak	Object	Soundness - Effective	DM15.1	I am writing to express my concern at the height of the buildings being developed around East Croydon. These will be completely out of character with the 2 storey Victorian houses on the roads within a few metres opposite. They will be overlooking the gardens of those houses and blocking out sunlight during the winter months, when the sun is especially low. As well as taking away the privacy of the owners using their gardens.		No change	The tall buildings policy should not be read in isolation. It should be read in conjunction with other policies contained within the Local Plan such as but not limited to policies in The Places of Croydon and the Urban Design and Local Character sections of the local plan. Detailed guidance in relation to tall and large buildings can be found in the Croydon Opportunity Area. The Croydon Opportunity Area Planning Framework provides clear and relatively detailed guidance on tall buildings and development in the 'Edge' areas.

2898/01/001/DM15.1/O	Michelle Waterman	Object		DM15.1	The policy should be amended so that the tallest buildings have to be in the centre of town, not right on the edge of the tall buildings zone next to two-storey residential housing. I am already concerned at the impact the MENTA buildings will have on the area without the Council planning to add additional super storey buildings in my back yard.	No change	The tall buildings policy should not be read in isolation. It should be read in conjunction with other policies contained within the Local Plan such as but not limited to policies in The Places of Croydon and the Urban Design and Local Character sections of the local plan. Detailed guidance in relation to tall and large buildings can be found in the Croydon Opportunity Area. The Croydon Opportunity Area Planning Framework provides clear and relatively detailed guidance on tall buildings and development in the 'Edge' areas.
3029/01/017/DM15.1/O	Mr Paul Newton <i>Addington Village Residents Assoc</i>	Object	Soundness - Effective	DM15.1	Will be calling on the Council to amend its tall buildings policy so that the tallest buildings have to be in the centre of town, not right on the edge of the tall buildings zone next to two-storey residential housing.	No change	The detailed guidance in relation to tall and large buildings can be found in the Croydon Opportunity Area. The Croydon Opportunity Area Planning Framework provides clear and relatively detailed guidance on tall buildings and development in the 'Edge' areas.
3077/01/015/DM15.1/O	Mrs Clare Gardner	Object	Soundness - Effective	DM15.1	8. Council's tall building policy: should be amended so that the tallest buildings must be in the centre of town, not right on the edge of the tall buildings zone next to two-storey residential housing.	No change	The detailed guidance in relation to tall and large buildings can be found in the Croydon Opportunity Area. The Croydon Opportunity Area Planning Framework provides clear and relatively detailed guidance on tall buildings and development in the 'Edge' areas.
3080/01/016/DM15.1/O	Mr John Mills	Object		DM15.1	I am also disappointed that the Council hasn't taken the opportunity to amend its tall buildings policy so that the tallest buildings have to be built in the centre of the tall buildings zone with heights gradually decreasing as you approach the two-storey residential housing that surrounds the town centre.	No change	A tall building, by definition is a building that is taller than the predominant built form that surrounds it. Planning applications are determined on their merits and the surrounding character and context will be taken into consideration in assessing each case.

3087/01/007/DM15.1/O	Mrs Halina Tutt	Object	DM15.1	I am unhappy about the proposals for Addiscombe and East Croydon that the Council isn't amending its tall buildings policy. When the Menta planning application for a 50+ storey tower on Cherry Orchard Road was approved by the previous Conservative Council, both Labour councillors and Gavin Barwell agreed that very tall buildings weren't appropriate on this site. However, now that they are running the Council, those same councillors haven't changed the Council's policy!. I will be supporting Gavin Barwell to call on the Council to amend its tall buildings policy so that the tallest buildings have to be in the centre of town, not right on the edge of the tall buildings zone next to two-storey residential housing. There are too many tall building in Croydon anyway. Have you ever looked out into town when you are on a train and are pulling into East Croydon Station. Its dreadful. We simply do not need any more.	No change	The detailed guidance in relation to tall and large buildings can be found in the Croydon Opportunity Area. The Croydon Opportunity Area Planning Framework provides clear and relatively detailed guidance on tall buildings and development in the 'Edge' areas.
3087/01/006/DM15.1/O	Mrs Halina Tutt	Object	DM15.1	I am unhappy about the proposals for Addiscombe and East Croydon that the Council isn't amending its tall buildings policy. When the Menta planning application for a 50+ storey tower on Cherry Orchard Road was approved by the previous Conservative Council, both Labour councillors and Gavin Barwell agreed that very tall buildings weren't appropriate on this site. However, now that they are running the Council, those same councillors haven't changed the Council's policy!. I will be supporting Gavin Barwell to call on the Council to amend its tall buildings policy so that the tallest buildings have to be in the centre of town, not right on the edge of the tall buildings zone next to two-storey residential housing. There are too many tall building in Croydon anyway. Have you ever looked out into town when you are on a train and are pulling into East Croydon Station. Its dreadful. We simply do not need any more.	No change	The detailed guidance in relation to tall and large buildings can be found in the Croydon Opportunity Area. The Croydon Opportunity Area Planning Framework provides clear and relatively detailed guidance on tall buildings and development in the 'Edge' areas.
3145/01/016/DM15.1/O	Mr David Harwood	Object	DM15.1	I wish to see an amendment in the councils tall building policy, that is that the tallest buildings can only be sited in the centre of Croydon, nor should they be erected near or next to much smaller buildings	No change	The detailed guidance in relation to tall and large buildings can be found in the Croydon Opportunity Area. The Croydon Opportunity Area Planning Framework provides clear and relatively detailed guidance on tall buildings and development in the 'Edge' areas.

3151/01/001/DM15.1/O	Gillian Edwards	Object		DM15.1	Tallest building policy - the tallest buildings should be confined to the town centre and not the outskirts e.g. Cherry Orchard Rd. This is unsightly and changes the character of the area	No change	The detailed guidance in relation to tall and large buildings can be found in the Croydon Opportunity Area. The Croydon Opportunity Area Planning Framework provides clear and relatively detailed guidance on tall buildings and development in the 'Edge' areas. DM15 sets out location where new development can be significantly taller or larger than the predominant scale and massing of buildings. These include locations identified in Croydon Opportunity Area Planning Framework and Masterplans. This policy must be considered in conjunction with the other policies within the Croydon Local Plan Strategic Policies and the Croydon Local Plan Detailed Policies (Preferred and Alternative Options) including the place specific policies. This would mean that policies provide some flexibility to allow for growth whilst respecting existing scale and character.
3215/01/015/DM15.1/O	Mr Steve White ASPRA	Object	Soundness - Effective	DM15.1	I am also disappointed that the Council hasn't taken the opportunity to amend its tall buildings policy so that the tallest buildings have to be built in the centre of the tall buildings zone with heights gradually decreasing as you approach the two-storey residential housing that surrounds the town centre.	No change	The detailed guidance in relation to tall and large buildings can be found in the Croydon Opportunity Area. The Croydon Opportunity Area Planning Framework provides clear and relatively detailed guidance on tall buildings and development in the 'Edge' areas.
3337/01/017/DM15.1/O	Mr Roger Willaimes	Object	Soundness - Effective	DM15.1	Will be calling on the Council to amend its tall buildings policy so that the tallest buildings have to be in the centre of town, not right on the edge of the tall buildings zone next to two-storey residential housing.	No change	The detailed guidance in relation to tall and large buildings can be found in the Croydon Opportunity Area. The Croydon Opportunity Area Planning Framework provides clear and relatively detailed guidance on tall buildings and development in the 'Edge' areas.
3356/01/017/DM15.1/O	Mr Rishi Gohill	Object	Soundness - Effective	DM15.1	Will be calling on the Council to amend its tall buildings policy so that the tallest buildings have to be in the centre of town, not right on the edge of the tall buildings zone next to two-storey residential housing.	No change	The detailed guidance in relation to tall and large buildings can be found in the Croydon Opportunity Area. The Croydon Opportunity Area Planning Framework provides clear and relatively detailed guidance on tall buildings and development in the 'Edge' areas.

3358/01/017/DM15.1/O	Joy Harris	Object	Soundness - Effective	DM15.1	Will be calling on the Council to amend its tall buildings policy so that the tallest buildings have to be in the centre of town, not right on the edge of the tall buildings zone next to two-storey residential housing.	No change	The detailed guidance in relation to tall and large buildings can be found in the Croydon Opportunity Area. The Croydon Opportunity Area Planning Framework provides clear and relatively detailed guidance on tall buildings and development in the 'Edge' areas.
3378/01/018/DM15.1/O	Veronica Fox	Object	Soundness - Effective	DM15.1	<p>My main concern about the proposals for Addiscombe and East Croydon is that the Council isn't amending its tall buildings policy. The Croydon Opportunity Area Planning Framework provides clear and relatively detailed guidance on tall buildings and development in the 'Edge' areas.
4223/01/015/DM15.1/O	Mrs Mary Lane	Object		DM15.1	I am also disappointed that the Council hasn't taken the opportunity to amend its tall buildings policy so that the tallest buildings have to be built in the centre of the tall buildings zone with heights gradually decreasing as you approach the two-storey residential housing that surrounds the town centre.	No change	The detailed guidance in relation to tall and large buildings can be found in the Croydon Opportunity Area. The Croydon Opportunity Area Planning Framework provides clear and relatively detailed guidance on tall buildings and development in the 'Edge' areas.

2822/01/008/DM15.2/O	<i>Menta Redrow LTD</i>	Object	DM15.2	DM15.2 seeks "ground and first floors" to incorporate a mix of publically accessible uses and spaces. This will not be appropriate in all locations. For example this may result in too much space of that type being provided in a physically large site and equally would be overly onerous in a less tall building given that the policy can apply to proposals as low as 6 storeys. The policy should seek active ground floor uses where appropriate.	The policy should be amended to seek active ground floor uses where appropriate.	No change	This policy has been included to ensure that ground floors of tall and large buildings integrate within the streetscape and positively respond to the local character and the use of the term 'where appropriate' would render the policy meaningless as clarity would be lost on where this policy would apply. Given their size and their potential impact it is equally important to ensure ground floors do not have large areas of blank frontages, even in buildings of six storeys, and are designed to incorporate passive surveillance.
2843/01/008/DM15.2/O	<i>Minerva</i>	Object	DM15.2	DM15.2 seeks "ground and first floors" to incorporate a mix of publically accessible uses and spaces. This will not be appropriate in all locations. The policy should seek active ground floor uses where appropriate.	The policy should be amended to seek active ground floor uses where appropriate.	No change	This policy has been included to ensure that ground floors of tall and large buildings integrate within the streetscape and positively respond to the local character and the use of the term 'where appropriate' would render the policy meaningless as clarity would be lost on where this policy would apply. Given their size and their potential impact it is equally important to ensure ground floors do not have large areas of blank frontages, even in buildings of six storeys, and are designed to incorporate passive surveillance.
0115/02/001/DM16/C	Mr Bob Sleeman		DM16	The 16 PoC for Adiscombe doesn't consider it needs "views and Landmarks"  It should be there in order to recognize landmarks such as the former Ashburton Library, Leslie Arms, East INDIA Houses and Clyde Road, Churches and the Cattle-trough should be all recognised as Landmarks		No change	These suggestions for Local Designated Landmarks were all assessed when they were suggested in 2013 and did not meet all the criteria for a Local Designated Landmark. The Assessment is on the Council's website as Local Plan Evidence.

2843/01/009/DM16/O	<i>Minerva</i>	Object	DM16	The policy should be reworded to the following "Developments should conserve or enhance the Croydon panorama". It is considered that conserve in this context means 'not harm'. Unlike the London View Management Framework, the views mentioned within this policy do not have geometrically defined corridors to strategic corridors and therefore the extract "and should seek to avoid buildings that tightly define the edges of the viewing corridors" is not relevant.	The policy should be reworded to say that "Developments should conserve or enhance the Croydon panorama". The reference to viewing corridors should be reviewed.	No change	The viewing corridor is not defined but the view point is identified and to ensure that the policy aligns with the Croydon Local Plan:Strategic Policies, Policy SP4.2 which requires development to ' b)protect Local Designated Views, Croydon Panoramas, the setting of Landmarks other important vistas and skylines, and that the Local Designated Landmark is not overcrowded by the proposed development and visually obscured, the reference to the viewing corridor is made. The policy, in addition to complying with the Croydon Local Plan:Strategic Policies Policy SP4.2 ,is worded as ' Developments should enhance... ' to align with Objective 5 of the Croydon Local Plan: Strategic Policies which states 'Ensure that high quality new development both integrates, respects and enhances the borough's natural environment and built heritage.'
0320/01/014/DM17.1/S	Mr Tarsem Flora <i>Flora Associates</i>	Support	DM17.1	Heritage assets and conservation- Accept Option 1		Welcome support	
1302/01/015/DM17.1/C	Mr Graham Saunders <i>Historic England</i>	Comment	DM17.1	We still have concerns with regards to the treatment of heritage assets, where proposal for intensification takes place within the setting of assets. This could be through individual sites or through a culmination of sites in historically sensitive locations. We would seek to be assured that sufficient policy checks are in place that ensures future developments are sustainable (e.g. deliver equally economic, social and environmental dimensions of sustainable development). Acceptance of our advice on the Strategic Policy Document and comments on policies such as DM10 and DM15 would help towards addressing this concern.	Borough Character - assurances in delivering intensification / check soundness / incorporate HE amendments to policies DM 10, DM 15.1 and to Strategic Policies	No change	The comments are noted and your comments on Croydon Local Plan: Strategic Policies and Policy DM10 and DM15 have been considered and responded to, other than those made on parts of the to the Strategic Policies that were not proposed changes and therefore not being consulted on.

2077/01/002/DM17.1/O	Mr David Page <i>Mid Croydon Conservation Area A</i>	Object	DM17.1	What is the defintion of signficance? Does it have an established meaning in planning law? If not there should be a defintion provided.	No change	National Planning Policy Framework provides definition of the term 'Significance': 'the value of a heritage asset to this and future generation because of its heritage interest, which may be archaeological, architectural, artistic or historic. This significance may derive not only from its physical presence but also from its setting'.	
2843/01/012/DM17.1/O	<i>Minerva</i>	Object	DM17.1	Policy DM17.1 should be reworded to the following "preserve or enhance". Policy DM17.1(a)- As set out in paragraphs 132-135 of the NPPF, harm to the significance of a designated heritage asset may be balanced by the public benefit provided by the development proposal. Policy DM17.1(b) should be reworded to the following "Proposals for development will only be permitted if they will preserve or enhance those aspects of setting that contribute to the significance of the heritage asset.". It is considered that preserve (or conserve in the NPPF) in this context means not harm. As stated in Historic England's guidance on setting, not all aspects of the setting of a heritage asset will necessarily contribute to the significance of a heritage asset. The value of the setting of a heritage asset lies in what it contributes, if anything, to the significance of the heritage asset; it is not itself a heritage asset of intrinsic historic or architectural interest. As set out in paragraphs 132-135 of the NPPF, harm to the significance of a designated heritage asset may be balanced by the public benefit provided by the development proposal.	The policy should be reworded to take account of the NPPF and Historic England guidance.	No change	Policy 17.1 with its current wording 'protect and enhance' directly reflects on paragraphs 126 and 137 of the NPPF and Policy 7.8 of the London Plan. Similarly Paragraph 17.1 e) directly reflects on public benefit considerations when assessing proposals affecting heritage assets. The policy should be read in conjunction with NPPF and therefore will be maintained in its current form.
0203/01/042/DM17.3/C	Mr Charles King <i>East Coulsdon Residents' Associat</i>	Comment	DM17.3	These are important in maintaining and reflecting the history of local areas. Bradmore Green Conservation area along with its listed buildings and St John's church is one of the nicest parts of Old Coulsdon and Croydon should remain a conservation area and treated as such.	Bradmore Green Conservation Area should continue to be a conservation area.	No change	No changes to the Conservation Areas are proposed in the Local Plan.

2843/01/013/DM17.3/O	<i>Minerva</i>	Object	DM17.3	<p>Policy DM17.3 should be reworded to state "To preserve or enhance". Policy DM17.3(C) should be reworded to state "All alterations and extensions should preserve or enhance the character, features and those aspects of setting that contribute to the significance of the building or monument and must not adversely affect the assets significance". As stated in Historic England's guidance on setting, not all aspects of the setting of a heritage asset will necessarily contribute to the significance of a heritage asset. The value of the setting of a heritage asset lies in what it contributes, if anything, to the significance of the heritage asset; it is not itself a heritage asset of intrinsic historic or architectural interest. As set out in paragraphs 132-135 of the NPPF, harm to the significance of a designated heritage asset may be balanced by the public benefit provided by the development proposal.</p>	The policy should be amended to reflect the NPPF and Historic England guidance.	No change	<p>Policy 17.3 with its current wording 'protect and enhance' directly reflects on paragraphs 126 and 137 of the NPPF and Policy 7.8 of the London Plan and therefore will be maintained in its current form. Alterations and extensions would amend the original form and appearance of the heritage asset and therefore such activity cannot be considered as sensu stricto preservation. Therefore the proposed wording 'should enhance' will be maintained.</p>
1574/01/002/DM17.4/O	<p>Mr Gordon Thompson <i>Mid Croydon Conservation Area A</i></p>	Object	Soundness - Effective DM17.4	<p>Part of "Addiscombe Place" is also a declared conservation area (the East India Estate). Parts of this conservation area have, in the past, been utterly wrecked by the proliferation of house-demolition/rebuild as nondescript blocks of flats. Do we really want more of the same? Although the Council makes reassuring noises about giving priority to preserving our heritage, are we safe from the recurrence of such massive suburban vandalism, or from building in back-gardens and on other precious open land, if push comes to shove?</p>	No change	<p>The East India Estate Conservation Area Appraisal and Management Plan was adopted by the full Council in 2013. It contains in-depth analysis of the heritage significance, and guidance for a whole range of development activities - from window replacement to new development. The document has a status of Supplementary Planning Document and is a material consideration for any planning application in the area.</p>	

2843/01/014/DM17.4/O	<i>Minerva</i>	Object	DM17.4	<p>Policy DM17.4 should be reworded to the following "To preserve or enhance the character, appearance and those aspects of setting that contribute to the significance of Conservation Areas.." As stated in Historic England's guidance on setting, not all aspects of the setting of a heritage asset will necessarily contribute to the significance of a heritage asset. The value of the setting of a heritage asset lies in what it contributes, if anything, to the significance of the heritage asset; it is not itself a heritage asset of intrinsic historic or architectural interest. Policy DM17.4(a) should be reworded to the following "The demolition of a building that makes a positive contribution to the special character and appearance of a Conservation Area will be treated as either less than substantial or substantial harm". Although a conservation area is a designated heritage asset, not all elements of a conservation area will necessarily contribute in the same amount to its significance. Consideration of the value to the character and appearance of the conservation area of non-designated heritage assets judged to be positive contributors should be assessed on a case by case basis. As set out in the NPPG, "substantial harm is a high test, so it may not arise in many cases. For example, in determining whether works to a listed building constitute substantial harm, an important consideration would be whether the adverse impact seriously affects a key element of its special architectural or historic interest". Therefore it is doubtful that the loss of a non-designated positive contributor is likely to result in significant harm to a conservation area. Furthermore, if the positive contributor is not a designated heritage asset then the judgement on its positive contribution may be a subjective opinion and not have been designated though a robust analysis of the asset.</p>	The policy should be amended to reflect the NPPG and Historic England guidance.	No change	<p>Policy 17.4 with its current wording 'protect and enhance' directly reflects on paragraphs 126 and 137 of the NPPF and Policy 7.8 of the London Plan and therefore will be maintained in its current form. The wording of Policy 17.4 (a) directly reflects on content of Conservation Area Appraisals and Management Plans which clearly identify value of particular properties in the context of special character of particular conservation areas. Croydon Council is in the process of preparing those documents for the remaining 5 conservation areas, whilst all the others have already been adopted as Supplementary Planning Documents. Given the clarity of the evidence and guidance regarding buildings in conservation areas the current wording of DM17.4a will be maintained.</p>
0203/01/043/DM17.5/C	Mr Charles King <i>East Coulsdon Residents' Associat</i>	Comment	DM17.5	<p>The Old Smitham School flint building in Chipstead Valley Road should be added to the list of locally listed buildings.</p>	The Old Smitham School should be a Locally Listed Building.	No change	<p>The proposals of including the Old Smitham School flint building in Chipstead Valley Road will be included in the Council's list of properties to be considered for the Local List of Historic Buildings, which will be reviewed in the future.</p>

2041/15/001/DM17.5/C <i>McKay Securities</i>	Comment	DM17.5	Either the Local List of Buildings of Architectural Importance SPD should be incorporated within the LDF, or this reference should be deleted because it is not clear how long this will remain in force or what its future equivalent might be. This commits the policy to a potentially unknown but different document in the future, that might be prepared on the back of a different evidence base creating uncertainty. The policy is unlikely to be sound therefore	No change	The Local List of Buildings of Historic or Architectural Importance SPD remains a valid reference and should the List be reviewed it will be adopted also as an SPD.
2041/14/001/DM17.5/C <i>McKay Securities</i>	Comment	DM17.5	It is not clear why all alterations and extensions must enhance a building's character. It is possible that within a scheme there may be elements that detract as well as enhance the building and yet overall, the conservation balance is such that the scheme has a positive impact, and is therefore acceptable. As drafted the policy does not have any flexibility and does not reflect this concept of the conservation balance and the overall impact of a scheme upon a building or an area.	No change	The policy is designed to support creative approach to alterations and extensions providing they enhance the building's character. Paragraph 6.145 explains the approach take which discourages new development from copying existing buildings providing the final result has a positive impact.
2041/13/001/DM17.5/C <i>McKay Securities</i>	Comment	DM17.5	Policy DM17.5 deals with locally listed buildings. As drafted it does not correctly reflect the advice set out in the NPPF. DM17.5a gives substantial weight to protecting and enhancing locally listed buildings yet the NPPF makes clear that the demolition of a locally listed building requires a balanced judgement to be made having regard to the scale of any harm or loss and the significance of the heritage asset in relation to the proposals for redevelopment. Protecting all locally listed buildings in this way is heavy handed and unimaginative and does not accurately reflect the approach set out in the NPPF. The Policy is unlikely to be sound or achieve the protection sought.	Change	The policy is complementary to NPPF and the London Plan and should be read in conjunction with the above. In order to flag up the option of demolition the bullet point a will be expanded to read: 'Substantial weight will be given to protecting and enhancing Locally Listed Buildings; where demolition is proposed, it should be demonstrated that all reasonable attempts have been made to retain all or part of the building'

DM17.5 should be reworded to state "to protect or enhance the character, appearance and those aspects of setting that contribute to the significance of Locally Listed Buildings within the borough, the Council will..." As stated in Historic England's guidance on setting, not all aspects of the setting of a heritage asset will necessarily contribute to the significance of a heritage asset. The value of the setting of a heritage asset lies in what it contributes, if anything, to the significance of the heritage asset; it is not itself a heritage asset of intrinsic historic or architectural interest. DM17.5(b) should be reworded to state "all alterations and extensions should preserve or enhance the building's character, setting and features and must not adversely affect the significance of the building". The policy should be reworded to the following "All development proposals must preserve and/or enhance War Memorials and other monuments, and those aspects of their settings that contributes to their significance". As stated in the Historic England's guidance on setting, not all aspects of the setting of a heritage asset will necessarily contribute to the significance of a heritage asset.

The policy should be amended to reflect Historic England guidance.

No change

Policy 17.5 with its current wording 'protect and enhance' directly reflects on paragraphs 126 and 137 of the NPPF and Policy 7.8 of the London Plan and therefore will be maintained in its current form. Alterations and extensions would amend the original form and appearance of the heritage asset and therefore such activity cannot be considered as sensu stricto preservation. Therefore the proposed wording 'should enhance' will be maintained.

1610/01/003/Non-specific/C	Mr Sean Creighton  <i>Norbury Residents Association Joi</i>		Comment			<p>Norbury does not have the infrastructure to deal with an increased population. There is pressure on schools, hospitals and GP practices. There is no space in current GP practices for the growing number of new residents to sign up. Where will new GP services be provided? How will schools be expanded to offer places to new growing number of children in the area?</p> <p>The automatic toilet at the entrance to Norbury Park needs to be dealt with as it often does not work. Toilets should be provided in the parks. There should be a scheme to allow customers to use their toilet facilities. The toilets should be re-opened at the train stations.</p> <p>Litter and fly-tipping. This is perhaps the biggest cause of complaint. The delays in collecting the road sweepers orange sacks encourages more rubbish dumping.</p> <p>Public attitudes and communication. Many local residents need to be proactive in taking a pride in the locality. There needs to be improved methods of communication in the area with a central community notice board, and better use of websites and social media.</p> <p>Norbury Library. This should not be closed.</p>		No change	The comments are noted
0069/03/002/DM18.1/C	Mr Fred Wallis  <i>The Save Purley Pool Campaign</i>		Comment		DM18.1	Seems to provide some reassurance. This policy is similar to that in the RUDP, the Core Strategy, CLP1.1 and was also that endorsed by the Planning Inspector (Report to Croydon Council Dec 17th 2012).		No change	The Comments are noted and welcomed

0084/02/004/DM18.1/O	Mr Dale Greetham <i>Sport England</i>	Object	DM18.1	Sport England welcomes the inclusion of this policy and the supporting text regarding protection of existing community facilities and proposals for new community facilities. However, Policy DM18 and the supporting text should ensure it is consistent with and supports the guidance contained in the NPPF regarding any proposed provision or loss of indoor and outdoor sports facilities. This policy could also usefully add specific reference to the protection of playing field land and the strict exceptions set out in the NPPF and Sport England's adopted Playing Fields Policy. Sport England would therefore recommend that this policy and support text should be revised to reflect Sport England's Land Use Planning Policy Statement 'Planning for Sport Aims and Objectives' and Paragraph 74 of the NPPF and Sport England's Playing Fields Policy. It should be noted that Sport England will normally oppose development that would lead to the loss of, or prejudice the use of, all or part of a playing field, without meeting at least one of the specific exception criteria identified in Sport England's Playing Fields Policy.	The policy and the supporting text should reference playing fields and indoor and outdoor sport facilities. It should reflect Sport England's Land Use Planning Policy Statement, Paragraph 74 of the NPPF and Sport England's Playing Fields Policy.	No change	The definition of "Community Facilities" in Appendix 1 - Glossary includes facilities providing for the "recreational, leisure and cultural needs of the community". It is considered that this broad definition covers the the points raised  Appendix 1 is in the Croydon Local Plan: Strategic Policies
0320/01/015/DM18.1/O	Mr Tarsem Flora <i>Flora Associates</i>	Object	DM18.1	Community Facilities (P. 82) DM 18.1 under Option 1 states "The council will ensure the provision of a network of community facilities ..... protecting existing community sites that serve the needs of the community". In spite of this a large majority of people in Purley are deeply concerned that our swimming pool in High Street Purley is scheduled to be discontinued ? !! See further comments elsewhere on this.		Change	The site is allocated for 'Mixed use redevelopment incorporating public car park, new leisure facilities including a swimming pool and other community facilities, healthcare facility, creative and cultural industries enterprise centre, retail or residential accomodation'.
2695/01/011/DM18.1/C	Cllr Chris Wright <i>London Borough of Croydon</i>	Comment	DM18.1	We also query why there is no policy to protect school playing fields from non educational development.		No change	The definition of "Community Facilities" in Appendix 1 - Glossary includes facilities providing for the " educational ,recreational, leisure and cultural needs of the community". It is considered that this broad definition covers the points raised as this would include school playing fields.  Appendix 1 is in the Croydon Local Plan: Strategic Policies

2746/01/002/DM18.1/C  
Ross Anthony  
*Theatres Trust*

Comment

DM18.1

The Trust's main concern with the policy SP3 is that the supporting text at paragraph 4.35 notes that Council will protect existing cultural facilities, however, this is not reflected in the actual wording of the Policy. Paragraph 4.35 correctly reflects the guidance in Item 156 and item 70 of the NPPF which states that to deliver the social, recreational and cultural facilities and services that the community needs, planning policies and decisions should guard against unnecessary loss of valued facilities. Also to ensure that established facilities and services are retained and able to develop for the benefit of the community. We therefore recommend SP3.1 is amended to read: The Council will protect cultural facilities and promote the growth and expansion of Cultural and Creative Industries to make Croydon a better place to live and to act as a driver of growth and enterprise in the local economy. Alternatively, detailed Policy DM18 could be amended to include cultural facilities as well as community facilities.

The NPPF notes that culture is an important part of the social aspect of sustainable development and that the safeguarding and promotion of facilities for cultural health and wellbeing is an essential aspect of sustainable communities.

detailed Policy DM18 could be amended to include cultural facilities as well as community facilities.

No change

The definition of "Community Facilities" in Appendix 1 - Glossary includes facilities providing for the "recreational, leisure and cultural needs of the community". It is considered that this broad definition covers the points raised

Appendix 1 is in the Croydon Local Plan: Strategic Policies

2764/18/003/DM18.1/O	Mr Derek Ritson <i>Monks Orchard Residents Associa</i>	Object		DM18.1	The distribution of community facilities across the borough are not spread equally in relation to the areas of population. Some areas have significantly more community facilities than other areas. What are the policies to identify areas that are lacking in appropriate community facilities and what are the policies to equalise the distribution of such facilities across the borough? As there are no policies listed in DM18 to enhance communities' facilities in areas lacking in those appropriate facilities, this should be defined and included in CLP2. The Shirley Place is lacking in community facilities compared to the rest of the Borough. Before allowing any expansion of populations, ensure that adequate infrastructure and community facilities are provided to support any expansion. There are no policies listed to meet this requirement. Make an analysis of required community facilities per proportion of population served and identify any areas of deficiency of those appropriate facilities. This analysis should facilitate evidence to introduce policies to promote the provision in those areas identified as deficient and to prevent expansion in areas of currently over provision or sufficient facilities.	The policy should set out how it will increase community facilities in those areas which do not have adequate community facilities. The Council should undertake an analysis of required community facilities per proportion of population served and identify any areas of deficiency of those appropriate facilities.	No change	DM18.1 aims to ensure the provision of a network of community facilities throughout the borough  DM18.4 provides support for new community uses also throughout the borough and also in particular in areas in the vicinity of a Neighbourhood Centre or are a change of use of an existing unit in a Shopping Parade
2781/01/013/DM18.1/S	Graham Bass	Support		DM18.1	Very much support the policy of protecting facilities, for example pubs, that are important to the life of relatively isolated communities.		Welcome support	
2842/01/060/DM18.1/O	Cllr Richard Chatterjee <i>London Borough of Croydon</i>	Object	Soundness - Effective	DM18.1	There is generally inadequate recognition of the lack of community facilities in Shirley, and the need to at least preserve the existing ratio of amenity space to habitable rooms.		No change	The comments are noted . However the Policy on Community Facilities aims to provide a network of community facilities where there is an identified need and the policy facilitates new community facilities and encourages them .However the Local Plan on its own cannot deliver new facilities.
0069/03/003/DM18.2/C	Mr Fred Wallis <i>The Save Purley Pool Campaign</i>	Comment		DM18.2	Policy DM18.2/18.3 We believe the distinction between commercial and non-commercial facilities is neither needful nor meaningful and should be dispensed with. Policy DM18.2a We do not believe that the question of financial viability of an operator is the concern of the council and therefore should not be in this policy. Questions of financial viability for contracts, leases etc are the concern of the council and are dealt with elsewhere.		Change	The distinction between commercial and non-commercial facilities has now been removed

2041/16/001/DM18.2/C	McKay Securities	Comment	DM18.2	<p>There is a need for additional NHS facilities within the Croydon Opportunity Area arising from the enhanced levels of development that are anticipated to be directed to this area over the coming plan period. This need has not been identified and is not subject to an evidence base, and the NHS should be made to provide one if a policy is being difficult to secure facilities. In addition, given that new development within the Croydon Opportunity Area will be expected to help make provision for the NHS, then the criteria by which this will be sought should be set out in this policy. In particular, the process by which the NHS is given first refusal over sites needs to be a clear and transparent guide to that process, and if this approach is taken should include timescales. The absence of a clear evidence base for the NHS facilities and lack of a clear procedure for seeing such facilities via schemes means that the scheme does create continuity, and is not justified. It is unlikely to be sound therefore.</p>	No change	<p>If a site has healthcare facilities listed as a preferred use then the NHS do not have first refusal over the whole site. Rather they must be approached before permission will be granted to see if they would like to take up some floor space within any proposed development. It is not necessary to include a mechanism for this in the policy on providing community facilities.</p>	
2781/01/014/DM18.2/C	Graham Bass	Comment	DM18.2	<p>I should like in this context to see specific mention of The Lord Roberts in Upper Woodcote Village. As a general grocer &amp; Post Office it serves the needs of those, of all ages, who live nearby &amp; who otherwise would have to drive quite a way to find an alternative &amp; that's to ignore the many others for whom, in the context of the Village Green, it is a recreational destination.</p>	<p>The Lord Roberts in Upper Woodcote Village should be referenced.</p>	No change	<p>If the existing use is as a post office this would now be considered a community use and loss of this community use would need be justified as it is a protected use. Any redevelopment or change of use of this site would be dealt with on their merits and subject to the submission of a planning application and the consideration of these land use issues</p>

0069/03/004/DM18.3/C

Mr Fred Wallis

Comment

DM18.3

Policy DM18.2/18.3

Change

*The Save Purley Pool Campaign*

We believe the distinction between commercial and non-commercial facilities is neither needful nor meaningful and should be dispensed with.

The distinction between commercial and non-commercial facilities has now been removed

Many references are made in CLP2 to reinforcing retail frontages. It might be thought that here was a policy not only requiring detailed planning for new buildings but also a policy for demolishing old buildings in order to rebuild with new retail frontages. There seems to be little evidence in CLP2 that this is so; with the sole exception of the Purley Leisure Centre.

Purley Leisure Centre is not alone in being built on a retail frontage. With the exception of the leisure centre in New Addington all other council leisure centres in Croydon are also built on retail frontages. In an Appendix to this submission are photographs of South Norwood, Thornton Heath and Waddon Leisure Centres. The last of these was built in 2011, well within the period of the drafting of the Croydon Local Plan. Why then was Waddon built on a retail frontage when it would have been well known at that time that Croydon was reinforcing its retail frontages? We submit that the introduction of the retail frontage requirement is arbitrary and spurious, an artifice to gain control of the Purley leisure centre and as such is in breach of the London Plan and therefore illegal. It also represents a breach of trust with the public.

Purley Leisure Centre. Remove Main Retail Frontage designation so that a community facility continues to be protected by Policies SP5 and DM18". Should the designation stand or not? If not, why not?

0069/03/005/DM18.3/C	Mr Fred Wallis <i>The Save Purley Pool Campaign</i>	Comment	DM18.3	<p>"The Council will permit the loss of existing non-commercial community facilities where Community facilities for a specific end user (either on site or off site as part of a comprehensive re-development) that meet current or future needs, are provided".</p> <p>This policy completely undermines ANY protection to community facilities. "Community facilities for a specific end user" completely decouples the "existing use" from a "future use". So a reading room could replace a library. Also, the "on site or off site" means "anywhere".</p> <p>Similarly, "Part of a comprehensive redevelopment" suggests that any loss of facility would be made up in a future development. But, as is well known, there are no guarantees as to whether, where, when or what replacement would be built.</p>	Change	<p>The distinction between commercial and non-commercial facilities has now been removed. This should remove any confusion over when community facilities are permitted for redevelopment or change of use</p>
1610/02/001/DM18.3/C	Mr Sean Creighton <i>Norbury Residents Association Joi</i>	Comment	Soundness - Effective DM18.3	<p>School Playing Fields</p> <p>1. Why is there no policy to protect school playing fields and grounds from non-educational development?</p> <p>2. Given the emphasis on the health and well-being role of open spaces and gardens why is there no discussion of the value or pupils of school playing fields for physical activity, day light exposure, gardening projects?</p> <p>5. Why is there no policy for safeguarding library buildings and site proposals for their retention as libraries and as community facilities?</p>	No change	<p>The definition of "Community Facilities" in Appendix 1 - Glossary includes facilities providing for the "recreational, leisure and cultural needs of the community". It is considered that this broad definition covers the points raised as both libraries and school playing fields would be included as Community Uses.</p> <p>Appendix 1 is in the Croydon Local Plan: Strategic Policies</p>

This need has not been identified and is not subject to an evidence base, and the NHS should be made to provide one if a policy is being difficult to secure facilities.</p> <p>In addition, given that new development within the Croydon Opportunity Area will be expected to help make provision for the NHS, then the criteria by which this will be sought should be set out in this policy. In particular, the process by which the NHS is given first refusal over sites needs to be a clear and transparent guide to that process, and if this approach is taken should include timescales.</p> <p>The absence of a clear evidence base for the NHS facilities and lack of a clear procedure for seeing such facilities via schemes means that the scheme does create continuity, and is not justified. It is unlikely to be sound therefore.</p>	No change	<p>If a site has healthcare facilities listed as a preferred use then the NHS do not have first refusal over the whole site. Rather they must be approached before permission will be granted to see if they would like to take up some floor space within any proposed development. It is not necessary to include a mechanism for this in the policy on providing community facilities.</p>
0069/03/006/DM18.4/C	Mr Fred Wallis <i>The Save Purley Pool Campaign</i>	Comment	DM18.4	<p>We believe that this policy is overly prescriptive and redundant and that rules covering other developments already cover community facilities. Overall, Policy DM 18 is opaque/inaccessible to the general public. Moreover, it provides significant loopholes for developers to build whatever they wish rather than what the community needs. The CLP 2 should be specific about key facilities such as a pool in Purley.</p>	Change	<p>The distinction between commercial and non-commercial facilities has now been removed. This should remove any confusion over when community facilities are permitted for redevelopment or change of use and should strengthen the protection to existing community facilities</p>

(Option 1)/C

Mr Sean Creighton

*Norbury Residents Association Joi*

Comment

Soundness - DM19 (Option 1)  
Effective

I support Option 1 over Option 2 as this makes it much clearer what the Council's approach will be than Option 1. It needs strengthening in order to ensure that the views of the local community in the area where the pub is located are taken into account.

I have previously argued the case for protection in articles on Croydon Citizen:  
How can we protect the heritage of Croydon's pubs?

---

By Sean Creighton - Wednesday  
15th January, 2014

---

Sean Creighton explores the rich cultural and historical heritage that pubs have given us and is slowly being eroded

---

Over the last 18 months in Croydon The Ship of Fools on London Road has become a Sainsbury's Local, the Swan & Sugarloaf a Tesco Express, Morrison's has gone for the Red Deer in Brighton Road, and Aldi for the Red Lion. But it is not just the supermarkets that are targeting pub purchases; other property developers as well, especially to convert to residential use. Residents appear to be powerless to stop the demise of pubs.

The fight-back developments in Wandsworth show that this need not be the case. So far, spurred on by community campaigns over the Castle in Battersea High Street, and the Wheatsheaf at Tooting Bec, the council has used the planning tools Assets of Community Value, Article 4 Directions and local listing. At the 4th December council meeting councillors unanimously agreed to explore all the options to try and protect popular pubs.

When I lived in Wandsworth (1970-1995) there were 30 pubs in a 20 minute walk from where I lived in Wandsworth Town Centre, and four minutes from the independent brewery Youngs. I settled on using a Youngs Pub, the Two Brewers, diagonally opposite Wandsworth Municipal Buildings Town Hall. It was the centre of local political discussion among Labour and Conservative councillors after meetings, and a meeting place for organising activities associated with campaigning when people did not agree with what the council was doing. In 1990 an upper floor room of the pub was used by

I propose the addition to Detailed Policy DM19 Option 1 of:  
'and no community support for it remaining a public house'  
to be inserted at the end of the first sentence.

No change

The policy on protecting public houses aims to ensure that planning permission will not be granted for the demolition or change of use of a public house unless it can be shown that there is not a defined need for the public houses. If it can be shown that there is no community benefit in retaining the land use as a pub then the policy is flexible enough to allow its loss and redevelopment or change of use

BBC TV to film a 3,000 strong demonstration outside the town hall campaigning against cuts to voluntary organisations and threatened cuts to primary and secondary schools. It was one of the main stories on national news that night.

Leaving aside politics, rock and pop groups start off doing the circuit of pubs. They are an essential part of the infrastructure of popular music. In the early 60s a folk club ran at the Swan & Sugar Loaf, and local resident Ralph McTell played at the Whitgift Arms. The tradition of live music continues today in pubs like the Dog & Bull.

Croydon's Save the David Lean Cinema Campaign has shown how a pub venue like the Spread Eagle can be used for film shows. It will soon also host theatre, e.g. Babylon from 4th-6th February, combining politics and folk.

The fewer the pubs (and bars) there are, the more street drinking there will be

While pubs can contribute to problems associated with drunkenness, criminality, disorder and violence, they are better environments for responsible drinking compared to street corners outside or near the large number of shops that are now allowed to sell alcohol. The fewer the pubs (and bars) there are, the more street drinking there will be. Local breweries were important elements in the local economies of many areas, providing employment, and local purchasing. Croydon's earliest known brewer was back in the 16th century, and later there was Crowley & Overton/Page & Overton. It has a new micro-brewery, The Cronx, based at Vulcan Way. The taste for the unique flavours of different real beers means that they can be transported from different parts of the country. Since 1986 over a million pints of Devon-based Palmers beer has been supplied to the Claret Free House in Lower Addiscombe.

Inns, taverns and pubs have played a variety of roles for centuries, as places for people to socialise, stay over night, hold dinners, have meetings, court, and organise political, cultural and sporting activity. Many have long histories, changing their roles through time, and being rebuilt or modernised. Just up the railway line at Clapham Junction, Battersea's Falcon Pub goes back to before 1800, and was rebuilt in 1882/3. It survives today with its curved frontage as a result of being listed in a community campaign against an office and shops redevelopment of the station.

Pubs helped to build mass democracy, welfare provision and civic society

One of the most important historic roles of inns and pubs was in the development of British associational life, particularly of the labour movement and friendly societies, helping to build mass democracy, welfare provision and civic society. In the 18th and 19th centuries there were very few alternative meeting facilities available. Even business consortia launching a new economic development project would meet in pubs, like the one meeting in Wandsworth Town who planned the Surrey Iron Railway from Wandsworth into Croydon. For publicans having organisations using them meant a regular and steady trade, helping sustain them as viable businesses. Conviviality and fellowship was one of the main drivers for organisations wanting to meet in pubs, for a drink before or after the meeting, and for social and fund-raising activities.

Once cycling became an organised activity in the later decades of the 19th century, club runs from London into the countryside would often stop for lunch or tea at a public house, even if alcohol drink was not quaffed. And for rural and small town pubs, this weekend trade could be an important boost to business.

Since the 1980s Battersea & Wandsworth Trades & Labour Council's Workers Beer Company has provided beer at political, community and music festivals, including Reading and Glastonbury, generating funds for community, trade union, political and overseas aid organisations, and they run the Bread and Roses pub in Clapham Manor Street.

Understandably the temperance and teetotal movements, and their supporters in organisations that traditionally met in pubs, continually argued for meetings to be held elsewhere. This became easier once churches, local council and other facilities became available. The temperance and teetotal movements also set up their own facilities, including billiard halls, cafés, coffee shops and hotels, which could also be used as meeting facilities.

Ironically many of these have now been turned into pubs and bars. In Croydon the first Ruskin House was set up in The Railway Temperance Hotel which the local trade unions purchased with financial help from Mrs Ada King-Lewis, a member of the Croydon United Temperance Council. The Hotel stood on the corner of St. Michaels and Station Road. Its opening was

announced in the first issue of the Croydon Pioneer, the labour movement's local newspaper. Ruskin House started selling alcohol in the 1940s. The bar remains today an important part of its facilities, and is home of the continuing story of folk music in the borough. If we value the role of pubs in Croydon then the least we can expect is that councillors work across parties to examine the options to protect those under threat, following the example set in Wandsworth.

Betting, fast food and the protection of heritage – can Croydon learn from Wandsworth?

---

By Sean Creighton - Monday 1st December, 2014

---

So what's planned for our high streets? Sean Creighton looks at protection for communities and the environment

---

Norbury residents recently refused to withdraw their objections to the licence application of Paddy Power, the chain of betting shops, to cover an existing shop at 1421 London Road and its planning-approved expansion to 1423 next door. This refusal highlights the limited powers of the council to control the spread of betting shops in local high streets. This is because the law and regulations about the award of betting shop licences are so tight that the assumption is that licence applications have to be granted. The only basis on which an application can be refused is if the police object on the basis of actual criminal activity. Paddy Power's representatives made it clear to the sub-committee that having a double frontage on London Road and a side entrance on Stanford Road will improve its competitive edge with the William Hill betting shop situated diagonally opposite. The changes will give extra space for the comfort of its customers, and allow for improved supervision of customers and betting behaviour. Paddy Power's representative argued that each of the points raised by objectors had no validity in terms of the grounds that could be considered. I want the sub-committee to go behind Paddy Power's rhetoric and examine how it operates. There are limits on objectors at the licence hearing. They can only speak

---

to their written objection. My raising additional questions put the sub-committee members on edge. I was allowed to submit a sheet with them on, on the basis that they could not be taken into account in reaching a decision and, given that fact, Paddy Power raised no objection. My verbal remarks were based on an attempt to see if the sub-committee was prepared to go behind Paddy Power's rhetoric to examine the details of the way it operated. Although this was ruled out as not relevant, sub-committee members did ask their own questions on some aspects of operational detail. Paddy Power was agreeable to letting them have the information, on the basis that it was not relevant to the decision that could be taken.

The sub-committee did not comment on my suggestion that it request the Cabinet consider bringing in an Article 4 Direction, as over 120 authorities had done up to January 2014. I suggested that the council's failure to do so represented a failure to look after the interests of residents in Norbury and elsewhere in the borough.

Tory Wandsworth has also come late in the day in addressing this issue and for the time being has ruled out the adoption of an Article 4 Direction, but is currently consulting on a supplementary planning document: 'Town Centre Uses'. This document proposes 'that in locations which already have four or more betting shops within a 400m radius, the council will seek to resist any additional units, either through the application of an Article 4 Direction, conditions to exclude betting shops related to proposals for A2 use, or the potential requirement to submit a planning application according to the Government's proposed changes to the Use Class Order.'

The Wandsworth draft also addresses the role of pubs, including their heritage and community value. It sets out a detailed list of criteria to assess these values. I discussed the issues involved in protecting pubs in the Citizen last January.

Croydon faces enormous planning challenges

Wandsworth is also suggesting that it create zones around schools to prevent more than four fast food takeaways being approved. Croydon Council should be considering as a matter of urgency drafting a similar supplementary planning document. Developers present Labour-controlled Croydon with enormous challenges in planning, from the drastic cuts in planning regulation and enforcement inherited from the Tories, and in the acknowledged neglect of the historic

built environment as discussed in another recent Citizen article. Wandsworth Tories have had few reservations about the long-term effects of the activities of private developers, particularly in Nine Elms and Wandsworth Town Centre. They are currently consulting on a major redevelopment project for Wandsworth High Street and Garratt Lane to replace its two office blocks and the South Thames College Tower. The development raises all sorts of issues about the nature of the town centre, the generation of extra traffic, the proposed move of the library and turning the court house into a restaurant or retail outlet. Development puts pressure on the environment and community. Craftily, the planning consultation is taking place before the council adopts a supplementary planning document on planning obligations on which it is currently consulting. The document recognises that 'development comes with its pressures on the environment and community, the impact on our roads, schools and general amenity. Conversely, development can improve our environment, whether it is the use of renewable energy, improved landscaping or more functional use of our urban environment.'

The draft identifies how the council will use its planning powers 'to ensure new development contributes to a safer, healthier and more prosperous Wandsworth and will be a material consideration in the assessment of planning applications'. It says it will seek to ensure development incorporates high quality design, mitigates any adverse impacts and contributes to the needs of the local community. The document sets out the circumstances where planning obligations requiring financial contributions under the Community Infrastructure Levy will be used.

Wandsworth Council is also working on a historic environment supplementary planning document for consultation. The two supplementary planning document consultation drafts can be accessed here: [Town Centre Uses and Planning Obligations](#). I hope that Croydon will look to drafting its own supplementary planning documents on planning obligations and the historic environment

2691/01/006/DM19  
(Option 1)/O

*Hyde Housing Association*

Object

DM19 (Option 1)

Hyde Housing Association are not supportive of Option 1, which seeks to introduce a blanket protection to public houses, and instead consider that Public Houses should, instead, be protected where they provide a recognised community benefit. There are a number of public houses within the borough that do not contribute in a positive manner to the community and a blanket protection of such uses would be counterproductive to good planning. Similarly there are public houses that do provide a community benefit, and those should be listed as community assets in order to protect them from demolition and change of use proposals. We are supportive of proposed Option 2.

No change

The policy on protecting public houses aims to ensure that planning permission will not be granted for the demolition or change of use of a public house unless it can be shown that there is not a defined need for the public houses. If it can be shown that there is no community benefit in retaining the land use as a pub then the policy is flexible enough to allow its loss and redevelopment or change of use

2708/01/003/DM19  
(Option 1)/O

*Sainsbury's Supermarkets Ltd*

Object

DM19 (Option 1)

Policy should include adherence to Assets of Community Value regulations.

No change

The policy does take account of ACVs. In the event that a public house is listed on the Assets of Community Value register and is offered for sale, the local community is given six months to prepare a bid to buy it. In such circumstances the marketing statement could be reduced to a period of a minimum continuous period of twelve months in addition to the six months that the community has to prepare a bid to buy it

2766/01/002/DM19  
(Option 1)/C

B Wilson

Comment

DM19 (Option 1)

The 18 month marketing period for a public house or other community facility is excessive and longer than is required. A 6-12 month period is considered to be more appropriate.

No change

*W.R. Newland and Sons Ltd*

In requiring an 18 month marketing period, the policy also fails to acknowledge the recent changes in permitted development for A4 uses to a variety of other use classes under The Town and Country Planning (General Permitted Development) (England) Order 2015 together with the general shift in drinking patterns, which is likely to render some pubs being no longer viable or required. Weight should equally be given to whether a pub is listed as an asset of community value reflecting whether the pub is truly valued by the local community.

As currently drafted the policy will result in a number of surplus unviable premises left vacant. This will have a more detrimental impact on the visual amenities of areas due to premises being boarded up and prevent alternative forms of development which might include much needed housing from coming forward.

The 18 month marketing period for a public house or other community facility is a common method considered appropriate for determining whether there is a demand or need for particular land uses that are usually vacant. It has been used for employment uses for many years and has been well established as a tool to determine the extent of viability and need. It is not considered that a 6-12 month period can achieve this.

2942/01/005/DM19  
(Option 1)/O

Dr Anwar Ansair

*AA Homes and Housing*

Object

DM19 (Option 1)

The policy states that planning permission will not be granted for demolition or change of use of a pub unless the council is satisfied that there is not a defined need for a pub. One of the justifications for change of use from a public house is that the owner has marketed the pub for 18 months without success. This takes no account of a building that was built as a pub but has not been used as a pub for a long time. It is not clear whether the policy is meant to apply to a building where the last lawful use was a pub-if so it could be a long time since it was last used and that the area has changed in character. Two of the definitions of defined need for a pub are that it is a listed building or a locally listed building. The building may be listed and be of architectural merit, but this does not necessarily mean that it should stay a pub if it is not viable or if it has been empty a long time. The policy also asks for a demonstration that there is no need or demand for a pub at the site. The total set of tests is a difficult set of tests to jump through. They mix the historic value of the public house as a building with its function as a public house. A pub could be very poor architecturally but be a good and important community facility and thus need to be retained. Or the building could be of high architectural merit but now be in the wrong place and no longer needed. This is not a logical set of tests. For the reasons set out above-just because a public house is listed or locally listed it does not mean that it is necessary to keep it. The pub may well not be viable and the building could be changed to another use without any harm to the architectural character of the building. If the applicant states when they apply for change of use or demolition that there really is no need or demand, then it is reasonable for the council to ask for this to be demonstrated by a marketing exercise and this is common in many other councils' policies. With regard to the preferred option, the wording is not clear: In a) The policy requires assessing what constitutes a shortfall; also what does 'of this type' mean? Is the policy trying to appraise different types of pubs? If there is a viability test, then the separate CAMRA test c)-seems unnecessary. If the alternative policy option is chosen, that is to apply the same test for loss of pubs as any other loss of community facilities; to follow the procedure set out in DM 18, then the criteria for loss of the pub also includes the marketing test. This is

The tests set out in the policy should be revised as they confuse the issue of whether the pub is used and whether it is of historic merit. Just because the building is listed or locally listed doesn't mean it is viable or needed as a pub. The CAMRA test is also not required alongside the viability test.

No change

The pub policy takes account of the viability of protecting pubs . If it can be demonstrated that there is not an identified need then the policy is flexible enough to allow the loss of the pub use and redevelopment or change of use

sensible when the public house is in use or has recently gone out of use but does not take account of pubs that have gone out of use a longer period ago and then there is a request to change the use. The building not providing a community use if it is empty and it would be better to bring it back into use. The tests for whether a pub should be retained or not mix issues regarding the loss of the use with whether or not the building is of historic merit. It would be more sustainable to keep the building in use for something else especially if it is listed as an active use could ensure that the building is kept in good order. A pub building falling into disrepair is not an asset in any circumstances. The marketing test would help to assess whether a pub again is the right solution for keeping the building in use. Then there is the consideration of how much development can the site be used for and whether this is more sustainable than the existing building.

---

2816/01/001/7.007/C Matthew Taylor

Soundness - 7.007  
Justified

Welcome support

I disagree with approach to the development of new community facilities detailed in paragraph 7.7. I find it difficult to imagine how the council can plan community facilities without the continued presence of the Purley pool and Gymnasium. However, I note that the Policy has been reviewed and the community facility at Purley Pool has been removed from the main retail frontage to avoid any unintended consequences.

I therefore conclude that with this change this is an appropriate policy.

2764/09/001/8.023/O	Mr Derek Ritson Monks Orchard Residents Associa		Object		8.023	A local area is subject to surface water problems, then any minor development could exacerbate surface water problems for neighbouring dwellings so why ignore extensions of less than 250m2 or household developments within the curtilage of the existing dwelling or physical extensions to the existing dwelling? In some areas, surface water dissipation is already a problem depending on the permeability of the subsoil; in these areas, any development which removes surface area would exacerbate an already existing problem. Prior to development proposals, soil tests should be performed in any area that has surface water dissipation problems, to establish the level of the water table, the type and permeability of the subsoil and its propensity to absorb and dissipate additional surface water during high precipitation. The policy should not exclude the "creation of a separate dwelling within the curtilage of an existing dwelling" from the sequential test and the exception test. If garden development is allowed then sequential and exception tests should be performed in any areas subject to surface water problems.	If garden development is allowed then the sequential and exception tests should be performed in any areas subject to surface water problems.	No change	Table 8.1 sets out that the sequential test and exception tests will be required if the site is at risk from other sources of flooding, including surface water. The creation of a separate dwelling within the curtilage of the existing dwelling is not considered minor development in flooding terms and will require the sequential test and exception test. However small household extensions are considered to be minor development in government guidance and a sequential test cannot be applied to them.

Comments as follows- We need to ask how and where in Croydon is the Council planning to make SPACE for WATER. I presume this is meant to be in the form of ponds or water holding balancing lakes.</p> <p>Also (p. 144) how is the Council planning to DECULVERT section of Caterham Borne, especially in Purley area.</p> <p>Please refer to the practical proposals put forward by the "Community Flood Plan – Purley" a flood group set up by EA's and GLA's Initiative.</p>	No change	The comment is noted. Space for water will need to be made available within new developments in order to achieve less than greenfield run off rates.	
2128/01/003/DM23.1/C	Cllr Steve O'Connell AM	Comment		DM23.1	<p>There is a need for a number of small areas in the Borough to be assessed for their problems of flooding and excess surface water drainage and the dangers of allowing more housing developments on green spaces e.g. as in Pollards Hill area. More work is needed on tracing the historic streams and tributaries that run off the hills in Croydon to determine whether there may be potential problems in the future.</p>	Areas of the borough need to be assessed for risk of flooding and surface water draingage before new more housing is permitted. It also provides further detail on flood risk in the borough.	No change	All sites allocated in the Plan will be assessed for all types of flood risk as part of the Strategic Flood Risk Assessment.

2842/01/058/DM23.1/C	Cllr Richard Chatterjee <i>London Borough of Croydon</i>	Comment	Soundness - Effective	DM23.1	Recognition of the surface water implications and flood potential of Chaffinch Brook, The Beck, and Ravensbourne Brook should be included;	No change	Any planning application would be required to consider flooding from all sources which includes the Chaffinch Brook, The Beck, and Ravensbourne Brook.
2842/01/062/DM23.1/O	Cllr Richard Chatterjee <i>London Borough of Croydon</i>	Object	Soundness - Effective	DM23.1	The effect of cumulative development, including of small developments such as outbuildings used for accommodation, leading to flood risk, has not been recognised.	No change	All new developments will be required to incorporate SuDS and have less than greenfield run off rates. This means the cumulative impact of development will be less than if the site were not developed.
2766/01/003/DM23.2/C	B Wilson <i>W.R. Newland and Sons Ltd</i>	Comment		DM23.2	Sustainable drainage systems are a national requirement on all major housing development sites. The Government however excluded minor housing developments of 9 or fewer units due to the cost being prohibitive and likely to restrict development from coming forward at a time when there is a national need for additional housing. This equally applies to development in Croydon. The policy should therefore be amended to only require SUDS on developments of 10 or more dwellings so that it is consistent with national policy.  The policy should therefore be amended to only require SUDS on developments of 10 or more dwellings so that it is consistent with national policy.	No change	The Council considers that sustainable drainage systems should be incorporated into all developments due to the risk of surface water flooding in the borough.
0320/01/019/DM23.3/O	Mr Tarsem Flora <i>Flora Associates</i>	Object		DM23.3	Also it is not practical in my view (as a professional and serving on the Env Agency Thames Flood Committee) to incorporate SUDS in "all developments"-SUDS need to be properly understood by the planning officers and enforce it only where it is practical. (para DM 23.3 need to be looked at again)	No change	Flooding from different sources is a considerable problem in Croydon so it is considered appropriate to require Sustainable Urban Drainage Systems in all new developments in the borough.

1592/01/009/DM23.3/O	<i>Croydon Partnership Ltd</i>	Object	DM23.3	<p>The Preferred Option for draft Policy DM23 states that the Council will ensure that development reduces flood risk and minimises the impact of flooding by steering development to the areas with a lower risk of flooding; applying the Sequential Test and Exception Test in accord with Table 8.1; and taking account of all sources of flooding from fluvial, surface water, groundwater, sewers, reservoirs and ordinary watercourses. In addition, sustainable drainage systems are required in all development and should ensure surface run-off is managed as close to the source as possible; accord with the London Plan Sustainable Drainage Hierarchy; achieve better than greenfield runoff rates; be designed to be multifunctional and incorporate sustainable drainage into landscaping and public realm to provide opportunities to improve amenity and biodiversity; and be designed with consideration of future maintenance. Whilst CLP support the principle of this policy, we consider that a degree of flexibility should be added into the wording. Individual sites should be assessed on a case by case basis, taking into account their overall contribution to the Borough as well as their ability to meet the technical assessment criteria.</p>	<p>The policy should be more flexible by assessed sites on a case by case basis, taking into their overall contribution to the Borough as well as their ability to meet the technical assessment criteria.</p>	No change	<p>Paragraph 8.25 provides sufficient flexibility by setting out that if greenfield run off rates cannot be achieved it should be justified to the Council and developments should be achieving greenfield runoff rates in line with the London Plan.</p>
2083/01/023/DM23.3/O	Mr Stewart Murray <i>Greater London Authority</i>	Object	DM23.3	<p>The policy could incorporate a more proactive approach to ensure that developments within catchments with a flood risk contribute to reducing this risk through SuDS.</p>	<p>The policy could incorporate a more proactive approach to ensure that developments within catchments with a flood risk contribute to reducing this risk through SuDS.</p>	No change	<p>Requiring all developments to incorporate SuDS will assist developments within catchments at risk of flooding contribute to reducing flood risk.</p>

2177/01/004/DM23.3/O	Miss Vanessa Garner <i>Network Rail Infrastructure Limited</i>	Object	DM23.3	<p>DM23.3 states that Sustainable drainage systems are required in all development. No exceptions are set out. It may not be feasible or practical to provide them. This is not considered to accord with the NPPG which states that 'Whether a sustainable drainage system should be considered will depend on the proposed development and its location'. Additionally, and more widely, when considering major development, as defined in the Town and Country Planning (Development Management Procedure) (England) Order 2015, sustainable drainage systems should be provided unless demonstrated to be inappropriate.' It adds further that 'Particular types of sustainable drainage systems may not be practicable in all locations. It could be helpful therefore for local planning authorities to set out those local situations where they anticipate particular sustainable drainage systems not being appropriate.'</p>	No change	<p>Applicants will be required to investigate the suitability of different type of SuDS as part of meeting the requirements of this policy. If the requirements of this policy cannot be met this will need to be justified to the Lead Local Flood Authority. The Council is currently working to provide additional SuDS guidance for developers.</p>
----------------------	---	--------	--------	--	-----------	---

---

2764/10/001/DM23.3/O	Mr Derek Ritson <i>Monks Orchard Residents Associa</i>	Object	DM23.3	<p>The policy needs to take account of sub-soil in the respective areas of Croydon as the SuDS system is not suitable for areas with sub-soil of London Clay. Areas with sub-soil of London Clay are not suitable for SuDS infiltration systems. The policy should not require all but should require tests to establish whether a SuDS system would be suitable. Evidence from the BGS states for Croydon:</p> <p>26%: compatible for infiltration SuDS  5%: probably compatible for infiltration SuDS  23% opportunities for bespoke infiltration SuDS  46%: very significant constraints indicated</p> <p>Soil tests need to be undertaken prior to a proposed development to establish the water table level and estimate the worst case level by extrapolation with the period of measurement and the rest of the year. This information should be included in the design and access statement for proposed developments, especially those in areas which suffer surface water dissipation problems. The Shirley and Ashburton area, north of the A232 has large areas of London Clay subsoil which does not absorb rainwater. We therefore suffer from areas with high water tables and surface water problems during rainfall. The increase allowance recently of back-garden developments has reduced the vegetation which absorbs rainwater thus exacerbating an already difficult situation and flash flooding is more frequent. Thus any proposed development in this region will have a detrimental effect on surface water run-off which needs to be considered by planners and developers. A SuDS infiltration system will not be effective if the subsoil cannot speedily absorb water.</p>	<p>The policy should not require all developments to incorporate SuDS to the presence of Clay in the borough. Developments should be required to undertake soil tests to establish the water table level.</p>	No change	<p>Applicants will be required to investigate the suitability of different types of SuDS as part of meeting the requirements of this policy. If the requirements of this policy cannot be met then this will need to be justified to the Lead Local Flood Authority. The Council is currently working on providing additional SuDS guidance for applicants.</p>

9 Green Grid

<i>Ref No</i>	<i>Representor Company or Organisation</i>	<i>Participation at EIP</i>	<i>Object or Support</i>	<i>Soundness</i>	<i>Policy, Site or Paragraph</i>	<i>Summary of Representation</i>	<i>Summary of Proposed Changes</i>	<i>Council's Response</i>	<i>Council's Proposed Action</i>
0203/03/048/Non-specific/C	Mr Charles King  <i>East Coulsdon Residents' Associat</i>		Comment			Farthing Downs, Happy Valley and Coulsdon Common : These form a continues area of Green Belt from Coulsdon to Caterham and Kenley owned by Croydon and The Corporation of London, are Sites of Specific Scientific Interest (SSSI) and should be treated and managed as such. No building work other than that associated the needs of these areas should be allowed and they should remain open spaces in perpetuity for the enjoyment of all. The London loop section 5 from Coulsdon South to Hamsey Green runs through all these sites and is an important country walk for Londoners.		No change	No changes are proposed to Farthing Downs, Happy Valley and Coulsdon Common. They will remain Green Belt and Sites of Specific Scientific Interest.
1610/01/016//O	Mr Sean Creighton  <i>Norbury Residents Association Joi</i>		Object	Soundness - Effective		School Playing Fields and green spaces. There is a need for these to be protected in the Plan and added as a list.	There is a need for these to be protected in the Plan and added as a list.	No change	School playing fields and green spaces which are protected as Metropolitan Green Belt, Metropolitan Open Land and Local Green Spaces will be shown on the Policies Map.
1610/01/008/Non-specific/C	Mr Sean Creighton  <i>Norbury Residents Association Joi</i>		Comment			The Parks. Increased population means a need for more well managed parks and open spaces with swings etc are needed. There need to be more bins and seats in Norbury Park. The building in Norbury Park should be used as a café with a toilet. Park keepers and Friends groups are needed. Improved notices are needed at both entrances to Norbury Hall Park. The parks should have paddling pools, picnic areas, proper repairs, play areas, better grounds keeping, walled gardens, adult fitness zones, improved landscaping, and a variety of sports areas and pitches. Norbury Brook should be made a feature. Green Norbury. More trees should be planted. Graffiti around green spaces needs to be cleaned. More flowers and trees needed in London Rd. The verges along Green Lane need to be protected from being driven over by residents to get into their front garden areas. The cutting down of trees along Norbury Brook should be stopped.		No change	The improvements to parks and green spaces are not a matter for the Local Plan.

2166/01/002/Non-specific/O	Mr Clark Dunstan	Object	Soundness - Effective	The proposed policies do not give sufficient protection from development to the Borough's dwindling Green Space. In a borough that has a growing population and increasing density in the north of the borough the policies do not protect the natural environment that are a resource for learning and also vital to being a healthy "heart" borough for exercise. There has been insufficient study to identify new areas of scientific and environmental interest within the borough.	No change	The Local Plan sets out green spaces which are protected as Metropolitan Green Belt, Metropolitan Open Land and Local Green Spaces. It also identified additional Sites of Nature Conservation Importance.
3004/01/005/Non-specific/O	Mr John Pewtress	Object		Green belt. This should be preserved, wherever possible. There may be one or two small pockets where development may be appropriate if in character with the surrounding area. There are many vacant or derelict sites within the borough that should be developed before any green belt land is used.	No change	Only 3 green belt sites are being proposed in order to meet the need for school places in the borough.
4130/01/005//O	Mr Peter Merry	Object		5. Policy DM24: The gardens around St James Church (now residential), at the junction of Sydenham Road and St James's Road should be designated as Local Green Space in the same way as other parks in the borough.	Change	The gardens at St James's Church have been assessed against the criteria for designation as Local Green Space and meet them so the site will be designated as Local Green Space in the Local Plan.
1350/05/027/9.005/O	Helen Buckland <i>Environment Forum</i>	Object	9.005	Detailed Policies paras 9.5 and 9.6. Local Green Spaces Proposed amendment: Insert into Detailed policy para 9.12 'communal gardens attached to blocks of flats, school playing fields, greens spaces by the side of roads and green spaces on church land other than burial grounds.' Supporting statement The Forum welcomes the inclusion of the new category of Local Green Spaces as explained in Detailed Policies paras 9.5 and 9.6, but considers that it is too limited because it does not include communal gardens attached to blocks of flats, school playing fields, greens spaces by the side of roads and green spaces on church land other than burial grounds. In line with its views on local green spaces the Forum recommends that a list of each of the categories communal gardens attached to blocks of flats, school playing fields, greens spaces by the side of roads, and green spaces on church land other than burial grounds be compiled as additions to the lists of Green Spaces.	No change	As communal gardens are not publically accessible, even if the criteria were added, sites would need to meet two other criteria to be designated as Local Green Space, which is considered unlikely.

1350/05/028/9.006/O	Helen Buckland <i>Environment Forum</i>	Object	9.006	<p>Detailed Policies paras 9.5 and 9.6. Local Green Spaces</p> <p>•Proposed amendment: Insert into Detailed policy para 9.12 'communal gardens attached to blocks of flats, school playing fields, greens spaces by the side of roads and green spaces on church land other than burial grounds.'</p> <p>•Supporting statement The Forum welcomes the inclusion of the new category of Local Green Spaces as explained in Detailed Policies paras 9.5 and 9.6, but considers that it is too limited because it does not include communal gardens attached to blocks of flats, school playing fields, greens spaces by the side of roads and green spaces on church land other than burial grounds. 1350/05/017/9.024/S	Helen Buckland <i>Environment Forum</i>	Support		9.024	The Forum welcomes the statements on: •natural wildlife heritage in Detailed Policies paras 9.24 and 9.25. This gives further support to its recommendations on the inclusion of extra categories of green spaces.	Welcome support	
1350/05/018/9.025/S	Helen Buckland <i>Environment Forum</i>	Support		9.025	The Forum welcomes the statements on: •natural wildlife heritage in Detailed Policies paras 9.24 and 9.25. This gives further support to its recommendations on the inclusion of extra categories of green spaces.	Welcome support	
1350/05/011/9.026/S	Helen Buckland <i>Environment Forum</i>	Support		9.026	The Forum support paragraphs 9.26 to 9.29 on ways in which developments can contribute positively to greening the environment.	Welcome support	
1350/05/012/9.027/S	Helen Buckland <i>Environment Forum</i>	Support		9.027	The Forum support paragraphs 9.26 to 9.29 on ways in which developments can contribute positively to greening the environment.	Welcome support	
1350/05/013/9.028/S	Helen Buckland <i>Environment Forum</i>	Support		9.028	The Forum support paragraphs 9.26 to 9.29 on ways in which developments can contribute positively to greening the environment.	Welcome support	
1350/05/014/9.029/S	Helen Buckland <i>Environment Forum</i>	Support		9.029	The Forum support paragraphs 9.26 to 9.29 on ways in which developments can contribute positively to greening the environment.	Welcome support	
0790/01/134/9.031/C	Mr Mathew Frith <i>London Wildlife Trust</i>	Comment	Soundness - Justified	9.031	In para 9.31 (Review of Sites of Nature Conservation Importance carried out in 2013 and 2014), there is no reference to the Sites of Metropolitan Importance for Nature Conservation (SMI) of which there are 13 in Croydon, all forming a significant ecological asset for the borough. We believe there is an inconsistency in this approach, for example the Review identifies a suite of enhanced Sites of Borough (Grade I) but these could not be compared with SMIs, so full hierarchy could not be evaluated.	No change	A review of the Sites of Metropolitan Importance for Nature Conservation in Croydon is outside the scope of the Local Plan as they are assessed as being important across the whole of London and should be assessed at a London level.
1350/05/020/9.033/S	Helen Buckland <i>Environment Forum</i>	Support		9.033	The Forum support -the recognition of water and railway corridors in Detailed Policies paras. 9.32 to 9.36 as areas that help wildlife habitat and biodiversity	Welcome support	
1350/05/021/9.034/S	Helen Buckland <i>Environment Forum</i>	Support		9.034	The Forum welcomes the statement - the recognition of water and railway corridors in Detailed Policies paras. 9.32 to 9.36 as areas that help wildlife habitat and biodiversity	Welcome support	

1350/05/022/9.035/S	Helen Buckland <i>Environment Forum</i>	Support		9.035	The Forum welcomes the statement on the recognition of water and railway corridors in Detailed Policies paras. 9.32 to 9.36 as areas that help wildlife habitat and biodiversity		Welcome support	
1350/05/023/9.036/S	Helen Buckland <i>Environment Forum</i>	Support		9.036	The Forum welcomes the statement on the recognition of water and railway corridors in Detailed Policies paras. 9.32 to 9.36 as areas that help wildlife habitat and biodiversity		Welcome support	
0080/03/001/DM24 (Table 9.1)/O	Mrs Reiko Pepper	Object	Soundness - Effective	DM24 (Table 9.1)	I am the owner of a site west of Hawkhurst Road and north of Longwood Road in Kenley. As a lot of land in Croydon is at risk of flooding and my site is of higher ground I would like its designation changed from Green Belt to Local Green Space to be managed by a local water company as a local woodland park.		No change	Local Green Space cannot be part of a wider open area such as Green Belt. Also the Green Belt designation does not preclude the land being used as a local woodland park or it being managed by a local water company.
0203/03/053/DM24 (Table 9.1)/S	Mr Charles King <i>East Coulsdon Residents' Associat</i>	Support		DM24 (Table 9.1)	We support the Council maintaining the following open spaces : Grovewood Hill, Chaldon Way Gardens, Coulsdon Coppice (Bleakfield Shaw, North & Stonyfield Shaw); Coulsdon Iron Railway Embankment, Stoats Nest Village. In Old Coulsdon Bradmore Green, Land at Rogers Close, Land to rear of Goodenough Close, Middle Close and Weston Close, Lacy Green and St John the Evangelist's churchyard		Welcome support	We welcome the support for these open spaces noting the Stoats Nest Village is not a protected open space (although it is a proposed Local Heritage Area).
0203/01/040/DM24 (Table 9.1)/C	Mr Charles King <i>East Coulsdon Residents' Associat</i>	Comment		DM24 (Table 9.1)	Coulsdon has three excellent parks at Coulsdon Memorial Ground Marpit Lane, Grange Park Old Coulsdon and Rickman Hill Park. Between them they offer a good range of equipment for all ages except the 9-16 year olds. A skate park should be provided at one of the parks for the uses of 9-16 year olds and the best place for this would be Rickman Hill Park. The facilities need to be kept up to date. At Grange Park the children's play area needs to be refreshed and brought up to date.	The facilities in Rickman Hill Park and Grange Park need to be improved.	No change	This is outside of the scope of the Croydon Local Plan.
1610/01/055/DM24 (Table 9.1)/O	Mr Sean Creighton <i>Norbury Residents Association Joi</i>	Object	Soundness - Justified	DM24 (Table 9.1)	The JPC is pleased that there is recognition of some of the open spaces in the area. It welcomes Strategies para 7.55 re-the local parks and from January will be helping to explore the possibility of establishing Friends groups with the advice of the specialist Council officer and Friends groups elsewhere. There are a range of other open spaces which are not listed and which the JPC suggests should be in order to protect them.	Add to List of Local Green Spaces in Norbury: St Philips' Church grounds	No change	This site has been assessed and does not meet the criteria for Local Green Space.

1610/01/057/DM24 (Table 9.1)/O	Mr Sean Creighton  <i>Norbury Residents Association Joi</i>	Object	Soundness - Justified	DM24 (Table 9.1)	The JPC is pleased that there is recognition of some of the open spaces in the area. It welcomes Strategies para 7.55 re-the local parks and from January will be helping to explore the possibility of establishing Friends groups with the advice of the specialist Council officer and Friends groups elsewhere. There are a range of other open spaces which are not listed and which the JPC suggests should be in order to protect them.	Add to List of Local Green Spaces in Norbury: Green space in front of Semley Rd Church	No change	This site has been assessed and does not meet the criteria for Local Green Space.
1610/01/054/DM24 (Table 9.1)/O	Mr Sean Creighton  <i>Norbury Residents Association Joi</i>	Object	Soundness - Justified	DM24 (Table 9.1)	The JPC is pleased that there is recognition of some of the open spaces in the area. It welcomes Strategies para 7.55 re-the local parks and from January will be helping to explore the possibility of establishing Friends groups with the advice of the specialist Council officer and Friends groups elsewhere. There are a range of other open spaces which are not listed and which the JPC suggests should be in order to protect them.	Add to List of Local Green Spaces in Norbury: Norbury Manor Primary school playing field.	No change	This site has been assessed and does not meet the criteria for Local Green Space.
1610/01/022/DM24 (Table 9.1)/O	Mr Sean Creighton  <i>Norbury Residents Association Joi</i>	Object	Soundness - Justified	DM24 (Table 9.1)	Local Green Spaces. There needs to be greater protection for the small green spaces such as within the boundaries of church sites and on streets, and the small squares and triangles of land such as St Helen's Green.		No change	This site has been assessed and does not meet the criteria for Local Green Space.
1610/02/005/DM24 (Table 9.1)/C	Mr Sean Creighton  <i>Norbury Residents Association Joi</i>	Comment	Soundness - Effective	DM24 (Table 9.1)	3.Why are there no proposals for the development of additional open spaces in North Croydon? 4.Why are there no proposals for the safeguarding of specific small green spaces across the Borough such as at St Helen's Rd in Norbury?		No change	This site has been assessed and does not meet the criteria for Local Green Space.
1610/01/060/DM24 (Table 9.1)/O	Mr Sean Creighton  <i>Norbury Residents Association Joi</i>	Object	Soundness - Justified	DM24 (Table 9.1)	The JPC is pleased that there is recognition of some of the open spaces in the area. It welcomes Strategies para 7.55 re-the local parks and from January will be helping to explore the possibility of establishing Friends groups with the advice of the specialist Council officer and Friends groups elsewhere. There are a range of other open spaces which are not listed and which the JPC suggests should be in order to protect them.	Add to List of Local Green Spaces in Norbury: The Briar Road Green	No change	This site has been assessed and does not meet the criteria for Local Green Space.

1610/01/056/DM24 (Table 9.1)/O	Mr Sean Creighton  <i>Norbury Residents Association Joi</i>	Object	Soundness - Justified	DM24 (Table 9.1)	The JPC is pleased that there is recognition of some of the open spaces in the area. It welcomes Strategies para 7.55 re-the local parks and from January will be helping to explore the possibility of establishing Friends groups with the advice of the specialist Council officer and Friends groups elsewhere. There are a range of other open spaces which are not listed and which the JPC suggests should be in order to protect them.	Add to List of Local Green Spaces in Norbury: St Helen's Green	No change	This site has been assessed and does not meet the criteria for Local Green Space.
1610/01/058/DM24 (Table 9.1)/O	Mr Sean Creighton  <i>Norbury Residents Association Joi</i>	Object	Soundness - Justified	DM24 (Table 9.1)	The JPC is pleased that there is recognition of some of the open spaces in the area. It welcomes Strategies para 7.55 re-the local parks and from January will be helping to explore the possibility of establishing Friends groups with the advice of the specialist Council officer and Friends groups elsewhere. There are a range of other open spaces which are not listed and which the JPC suggests should be in order to protect them.	Add to List of Local Green Spaces in Norbury: The Pollards Hill former allotment site	No change	This site is included in the Local Green Space designation for Pollards Hill.
1610/01/059/DM24 (Table 9.1)/O	Mr Sean Creighton  <i>Norbury Residents Association Joi</i>	Object	Soundness - Justified	DM24 (Table 9.1)	The JPC is pleased that there is recognition of some of the open spaces in the area. It welcomes Strategies para 7.55 re-the local parks and from January will be helping to explore the possibility of establishing Friends groups with the advice of the specialist Council officer and Friends groups elsewhere. There are a range of other open spaces which are not listed and which the JPC suggests should be in order to protect them.	Add to List of Local Green Spaces in Norbury: The Pollards Hill Triangle	Change	This site has met the criteria for Local Green Space and therefore will be designated as Local Green Space in the Local Plan.
2083/01/010/DM24 (Table 9.1)/S	Mr Stewart Murray  <i>Greater London Authority</i>	Support		DM24 (Table 9.1)	The Mayor welcomes the new designations of Local Green Space.		Welcome support	
2128/01/009/DM24 (Table 9.1)/O	Cllr Steve O'Connell AM	Object		DM24 (Table 9.1)	There needs to be greater protection for the small green spaces such as within the boundaries of church sites and on streets, and the small squares and triangles of land such as St Helen's Green.	St Helen's Green should be a Local Green Space.	No change	This site has been assessed and does not meet the criteria for Local Green Space.
2586/01/010/DM24 (Table 9.1)/O	Anna Bannon	Object		DM24 (Table 9.1)	Policy DM24- The gardens around St. James Church (now residential), at the junction of Sydenham Road and St. James's Road should be designated as Local Green Space in the same way as other parks in the borough.		Change	The Memorial Garden at St. James will be included in the proposed Local Green Spaces in the Proposed Submission draft of the Croydon Local Plan.

2679/01/002/DM24 (Table 9.1)/O	Mrs Valerie Mickelburgh	Object		DM24 (Table 9.1)	The de-designation of green belt areas to metropolitan is seen as a way around the law leaving the Council years later using this land for building. Destroying the structure of Croydon.		No change	The sites which are be re-designated from Green Belt to Metropolitan Open Land will still have the same level as protection but will be given a more appropriate designation.
2739/01/009/DM24 (Table 9.1)/O	Mr Colin Campbell	Object	Soundness - Justified	DM24 (Table 9.1)	Policy DM24: the gardens around St James Church (now residential) at the junction of Sydenham Road and St James's Road should be designated as Local Green Space in the same way as other parks in the borough.	The gardens around St James Church (now residential) at the junction of Sydenham Road and St James's Road should be designated as Local Green Space	Change	This site has been designated as Local Green Space.
2764/11/001/DM24 (Table 9.1)/O	Mr Derek Ritson <i>Monks Orchard Residents Associa</i>	Object		DM24 (Table 9.1)	Ashburton Playing Fields is missing from the list.	Add Ashburton Playing Fields to the list.	No change	Ashburton Playing Fields continue to be designated as Metropolitan Open Land. Table 9.1 sets out the sites to be designated as Local Green Space.
2774/01/009/DM24 (Table 9.1)/O	Cllr Susan Winborn <i>London Borough of Croydon</i>	Object		DM24 (Table 9.1)	:Policy DM24. The gardens around St James Church at the junction of Sydenham Road and St James Road should be designated as Local Green Space in the same way as other parks in the Borough.		Change	This site has met the criteria for Local Green Space and therefore will be designated as Local Green Space in the Local Plan.
2776/01/001/DM24 (Table 9.1)/O	Cllr Helen Pollard <i>London Borough of Croydon</i>	Object	Soundness - Justified	DM24 (Table 9.1)	Policy DM24: The gardens around St James Church (now residential), at the junction of Sydenham Road and St James's Road should be designated as Local Green Space in the same way as other parks in the borough.		Change	This site has met the criteria for Local Green Space and therefore will be designated as Local Green Space in the Local Plan.
2799/01/001/DM24 (Table 9.1)/O	Mr Terence Meredith	Object		DM24 (Table 9.1)	I am writing to object to Croydon dropping the status of the green to low amenity value. I know Croydon have to build more homes everywhere but this green is an important space to residents and any houses should be built on brown field sites and not spoil people's environments.		No change	Stoats Nest Village Green was assessed and did not meet the criteria for Local Green Space.
2839/02/025/DM24 (Table 9.1)/O	Cllr Yvette Hopley <i>London Borough of Croydon</i>	Object	Soundness - Justified	DM24 (Table 9.1)	Would like to see protection of green space opposite Hamsey Green pond. This is an important open space.		No change	This site has been assessed and does not meet the criteria to be designated as Local Green Space.
3077/01/012/DM24 (Table 9.1)/O	Mrs Clare Gardner	Object	Soundness - Justified	DM24 (Table 9.1)	5. Policy DM24: The gardens around St James Church (now residential), at the junction of Sydenham Road and St James's Road should be designated as Local Green Space in the same way as other parks in the borough.		Change	The gardens around St James' Church have been assessed and do meet the criteria for designation as Local Green Space so they will be designated as such in the next draft of the Local Plan.

4199/01/009/DM24 (Table 9.1)/O	Mr F Partovi	Object		DM24 (Table 9.1)	The Gardens around St James Church at the junction with Sydenham Road and St James Rd should be designated as a local green space.	Change	This site has met the criteria for Local Green Space and therefore will be designated as Local Green Space in the Local Plan.
0790/01/039/DM24 (Table 9.1)/C	Mr Mathew Frith <i>London Wildlife Trust</i>	Comment	Soundness - Justified	DM24 (Table 9.1)	Addiscombe Railway Park	We support these additions.	Welcome support
0790/01/123/DM24 (Table 9.1)/S	Mr Mathew Frith <i>London Wildlife Trust</i>	Support	Soundness - Justified	DM24 (Table 9.1)	Addiscombe Recreation Ground	We support these additions.	Welcome support

2789/01/005/DM24 (Table 9.1)/C	R P Reed	Comment		DM24 (Table 9.1)  Copse Hill Spinney	The only other comment I have is Copse Hill Spinney. I do not understand, from the brief detail given, how this relatively small, heavily wooded site can be both a new Local Green Space and a new Site of Nature Conservation Importance. I would have thought, given its size, this site can only be one or the other.	No change	The site can have two designations as it meets the criteria for both.

0790/01/059/DM24 (Table 9.1)/C	Mr Mathew Frith  <i>London Wildlife Trust</i>	Comment	Soundness - Justified	DM24 (Table 9.1)  Coulsdon Coppice (Bleakfield Shaw)	We support these additions.	Welcome support

2839/01/013/DM24 (Table 9.1)/C	Cllr Yvette Hopley  <i>London Borough of Croydon</i>	Comment	Soundness - Effective	DM24 (Table 9.1)  Purley Beeches	Purley Beeches, Sanderstead Plantation, Sanderstead Pond and Wettern Tree Gardens are considered local green spaces along with All Saints Church yard and cemetery and the allotments. They are quite different - Purley Beeches, Sanderstead Plantation & Wetton Tree Gardens should have protected issues around the woodland?	No change	Purley Beeches is also covered by a Site of Nature of Conservation Importance designation which specifically protects the ecological value of the site.

2839/02/013/DM24 (Table 9.1)/C	Cllr Yvette Hopley  <i>London Borough of Croydon</i>	Comment	Soundness - Effective	DM24 (Table 9.1)  Purley Beeches	Purley Beeches, Sanderstead Plantation, Sanderstead Pond and Wettern Tree Gardens are considered local green spaces along with All Saints Church yard and cemetery and the allotments. They are quite different - Purley Beeches, Sanderstead Plantation & Wetton Tree Gardens should have protected issues around the woodland?	No change	Purley Beeches is also covered by a Site of Nature of Conservation Importance designation which specifically protects the ecological value of the site.
0790/01/089/DM24 (Table 9.1)/C	Mr Mathew Frith  <i>London Wildlife Trust</i>	Comment	Soundness - Justified	DM24 (Table 9.1)  Queen's Road Cemetery	We support these additions.	Welcome support	
0790/01/090/DM24 (Table 9.1)/C	Mr Mathew Frith  <i>London Wildlife Trust</i>	Comment	Soundness - Justified	DM24 (Table 9.1)  Roke Play Space	We support these additions.	Welcome support	
0790/01/091/DM24 (Table 9.1)/C	Mr Mathew Frith  <i>London Wildlife Trust</i>	Comment	Soundness - Justified	DM24 (Table 9.1)  Rotary Field	We support these additions.	Welcome support	
0790/01/028/DM24 (Table 9.1)/O	Mr Mathew Frith  <i>London Wildlife Trust</i>	Object	Soundness - Justified	DM24 (Table 9.1)  Sanderstead Plantation	We object to this. The Green Belt designation should be retained rather than the Plantation re-designated as Local Green Space. The site, a Site of Borough Importance for Nature Conservation, is still part of the wider Green Belt designation, at the northern edge of Selsdon Park Hotel grounds with only the Addington Road serving as a 'barrier' (roads fall within the Green Belt elsewhere); in our view the Plantation still meets criteria for protection as Green Belt.	No change	Sanderstead Plantation is an important open space that requires the same level of protection that its existing Green Belt designation affords it. It is surrounded on all sides by built up area (with the Green Belt around Selsdon Park at a diagonal to Sanderstead Plantation and not directly opposite) so it is incorrectly designated as Green Belt (which should by definition surround a built up area or provide a buffer between it and the next built up area, so it will be re-designated as Local Green Space which provides an identical level of protection but is a more appropriate designation for this area.
1788/01/009/DM24 (Table 9.1)/O	Alice Desira	Object	Soundness - Justified	DM24 (Table 9.1)  Sanderstead Plantation	Sanderstead plantation is also being downgraded from Green Belt to Metropolitan Open Land, which I also object to.	No change	Sanderstead Plantation is an important open space that requires the same level of protection that its existing Green Belt designation affords it. As it surrounded on all sides by built up area it is incorrectly designated as Green Belt (which should by definition surround a built up area or provide a buffer between it and the next built up area, so it will be re-designated as Local Green Space which provides an identical level of protection but is a more appropriate designation for this area.

1793/01/003/DM24 (Table 9.1)/O	Amit Patel  <i>BK Financial Management Limited</i>	Object		DM24 (Table 9.1)  Sanderstead Plantation	Sanderstead plantation is also being downgraded from Green Belt to Metropolitan Open Land. I object to all these downgrades.	No change	Sanderstead Plantation is an important open space that requires the same level of protection that its existing Green Belt designation affords it. As it surrounded on all sides by built up area it is incorrectly designated as Green Belt (which should by definition surround a built up area or provide a buffer between it and the next built up area, so it will be re- designated as Local Green Space which provides an identical level of protection but is a more appropriate designanation for this area.
1915/01/006/DM24 (Table 9.1)/O	Andrew Hilton	Object		DM24 (Table 9.1)  Sanderstead Plantation	The Plan proposes a loss of green belt land (DM44.2, Table 11.17 - Coombe Playing Fields), declassification of green belt to Open Metropolitan Land under SP7 of the Strategic Plan affecting Croham Hurst Woods and Sanderstead Plantation. Please note my objections to the loss of current classification the effective downgrading of these areas.	No change	Sanderstead Plantation is an important open space that requires the same level of protection that its existing Green Belt designation affords it. As it surrounded on all sides by built up area it is incorrectly designated as Green Belt (which should by definition surround a built up area or provide a buffer between it and the next built up area, so it will be re- designated as Local Green Space which provides an identical level of protection but is a more appropriate designanation for this area.
1926/02/003/DM24 (Table 9.1)/O	Councillor Luke Clancy	Object	Soundness - Justified	DM24 (Table 9.1)  Sanderstead Plantation	I object to the de-designation of Purley Downs as Green Belt and to the de-designation of Sanderstead Plantation as Green Belt.	No change	Sanderstead Plantation is an important open space that requires the same level of protection that its existing Green Belt designation affords it. As it surrounded on all sides by built up area it is incorrectly designated as Green Belt (which should by definition surround a built up area or provide a buffer between it and the next built up area, so it will be re- designated as Local Green Space which provides an identical level of protection but is a more appropriate designanation for this area.

2181/01/007/DM24 (Table 9.1)/O	Ray & Anne Smith	Object		DM24 (Table 9.1)  Sanderstead Plantation	Object to Loss of Green Belt on all three sites at Coombe Playing Fields, Croham Hurst and Sanderstead Plantation and SP7		No change	Sanderstead Plantation is an important open space that requires the same level of protection that its existing Green Belt designation affords it. As it surrounded on all sides by built up area it is incorrectly designated as Green Belt (which should by definition surround a built up area or provide a buffer between it and the next built up area, so it will be re-designated as Local Green Space which provides an identical level of protection but is a more appropriate designation for this area.
2220/01/002/DM24 (Table 9.1)/O	Mr Brandon Costa	Object	Soundness - Effective	DM24 (Table 9.1)  Sanderstead Plantation	The Sanderstead Plantation is right behind our house and we use it all the time to take the kids in there with the dogs and play. The kids love playing hide and seek and climbing trees. I think that in this era where kids do not play enough outside it is a shame to take away their local green area.	I believe that Sanderstead Plantation should stay part of the Green Belt as if this was removed the next step is building on it.	No change	Sanderstead Plantation is an important open space that requires the same level of protection that its existing Green Belt designation affords it. As it surrounded on all sides by built up area it is incorrectly designated as Green Belt (which should by definition surround a built up area or provide a buffer between it and the next built up area, so it will be re-designated as Local Green Space which provides an identical level of protection but is a more appropriate designation for this area.
2366/01/001/DM24 (Table 9.1)/O	Adrian Little	Object		DM24 (Table 9.1)  Sanderstead Plantation	Sanderstead Plantation and Croham Hurst are both unique and must be kept as Green Belt land for their views and amenity as lungs for Croydon & London.		No change	Sanderstead Plantation is an important open space that requires the same level of protection that its existing Green Belt designation affords it. As it surrounded on all sides by built up area it is incorrectly designated as Green Belt (which should by definition surround a built up area or provide a buffer between it and the next built up area, so it will be re-designated as Local Green Space which provides an identical level of protection but is a more appropriate designation for this area.

2602/01/002/DM24 (Table 9.1)/O	Kirsty Currie	Object	Soundness - Justified	DM24 (Table 9.1)  Sanderstead Plantation	It has been brought to our attention by the MP for South Croydon, Chris Philp, that there is a proposal to downgrade Sanderstead plantation from Green Belt to Metropolitan Open Land. We wish to ask for clarification of this proposal eg will this mean that commercial or residential development be allowed to take places on this area? We feel that this land is well used by local residents (especially young families and dog owners such as ourselves) and is a valuable area for maintaining local wildlife. We use this area on a daily basis and feel that our young family have much to gain from it remaining as an area where they can enjoy and learn about nature and woodland life and would like to keep it as such rather than the site being developed for commercial or residential purposes.	No change	Sanderstead Plantation is an important open space that requires the same level of protection that its existing Green Belt designation affords it. As it surrounded on all sides by built up area it is incorrectly designated as Green Belt (which should by definition surround a built up area or provide a buffer between it and the next built up area, so it will be re-designated as Local Green Space which provides an identical level of protection but is a more appropriate designation for this area.
2603/01/001/DM24 (Table 9.1)/O	Isabelle Samlalsingh	Object	Soundness - Justified	DM24 (Table 9.1)  Sanderstead Plantation	The Sanderstead Plantation is right behind our house and we use it all the time to take the kids in there with the dogs and play. The kids love playing hide and seek and climbing trees. I think that in this era where kids do not play enough outside. It is a shame to take away their local green area..I believe that Sanderstead Plantation should stay part of the Green Belt as if this was removed the next step is building on it	No change	Sanderstead Plantation is an important open space that requires the same level of protection that its existing Green Belt designation affords it. As it surrounded on all sides by built up area it is incorrectly designated as Green Belt (which should by definition surround a built up area or provide a buffer between it and the next built up area, so it will be re-designated as Local Green Space which provides an identical level of protection but is a more appropriate designation for this area.
2635/01/008/DM24 (Table 9.1)/O	Paul Sandford  <i>Bourne Society</i>	Object		DM24 (Table 9.1)  Sanderstead Plantation	I object to the de-designation of Sanderstead Plantation as Green Belt	No change	Sanderstead Plantation is an important open space that requires the same level of protection that its existing Green Belt designation affords it. As it surrounded on all sides by built up area it is incorrectly designated as Green Belt (which should by definition surround a built up area or provide a buffer between it and the next built up area, so it will be re-designated as Local Green Space which provides an identical level of protection but is a more appropriate designation for this area.

2647/01/004/DM24 (Table 9.1)/O	Mr Steve Lucas	Object		DM24 (Table 9.1)  Sanderstead Plantation	Inconsistent with the NPPF without good reason		No change	Sanderstead Plantation is an important open space that requires the same level of protection that its existing Green Belt designation affords it. As it surrounded on all sides by built up area it is incorrectly designated as Green Belt (which should by definition surround a built up area or provide a buffer between it and the next built up area, so it will be re- designated as Local Green Space which provides an identical level of protection but is a more appropriate designanation for this area.
2657/01/012/DM24 (Table 9.1)/C	Rebecca Pullinger  <i>CPRE London</i>	Comment	Soundness - Justified	DM24 (Table 9.1)  Sanderstead Plantation	The Council should explicitly state the reasons behind any changes in designation to Green Belt or Metropolitan Open Land and make clear why a designation has changed from one to the other, as this is not clearly understood by residents who have contacted us.		Change	The evidence supporting this proposed change will be published on the Council's website.
2657/01/017/DM24 (Table 9.1)/O	Rebecca Pullinger  <i>CPRE London</i>	Object	Soundness - Effective	DM24 (Table 9.1)  Sanderstead Plantation	While this site is separated from the wider Green Belt designation, the publicly accessible woodland still meets criteria for protection as Metropolitan Open Land and should therefore be allocated as such: according to Greenspace Information for Greater London, the site is a Grade II site of Borough Wide importance, is well used by the local community and is known for its variety of flora and its spectacular bluebells.	The Green Belt designation at Sanderstead Plantation should be changed to Metropolitan Open Land rather than being removed altogether.	No change	Sanderstead Plantation is an important open space that needs to be protected. It is proposed that be re- designated as Local Green Space because is is not connected to the Metropolitan Green Belt surrounding London and it is too small to be considered Metropolitan Open Land. However as the three designations (Green Belt, Metropolitan Open Land and Local Green Space) have the same status and level of protection there is no material impact from the proposed change in designation.
2692/01/002/DM24 (Table 9.1)/O	C Inge	Object		DM24 (Table 9.1)  Sanderstead Plantation	Please could you count my objections to the loss of Green Belt and in particular for not felling trees. Sanderstead Plantation is regularly visited and monitored by the RSPB. We need to retain all the trees and shrubs and wildlife habitat. New trees have been planted. There are badger setts including a rare completely white badger, which I have seen. Small but important area of woodland.		No change	Sanderstead Plantation is an important open space that requires the same level of protection that its existing Green Belt designation affords it. As it surrounded on all sides by built up area it is incorrectly designated as Green Belt (which should by definition surround a built up area or provide a buffer between it and the next built up area, so it will be re- designated as Local Green Space which provides an identical level of protection but is a more appropriate designanation for this area.

2801/01/005/DM24 (Table 9.1)/C	Mr and Mrs Michael Somers		DM24 (Table 9.1)	As guardians of the locality, we appeal to you not to surrender any green belt land or to downgrade Croham Hurst Woods or Sanderstead Plantation. We need to be able to rely on them as lungs for the area.	No change	Sanderstead Plantation is an important open space that requires the same level of protection that its existing Green Belt designation affords it. As it surrounded on all sides by built up area it is incorrectly designated as Green Belt (which should by definition surround a built up area or provide a buffer between it and the next built up area, so it will be re-designated as Local Green Space which provides an identical level of protection but is a more appropriate designation for this area.
2803/01/004/DM24 (Table 9.1)/O	Mr John Massie	Object	DM24 (Table 9.1)	There must be no attempt to downgrade any currently designated Green Belt to Open Land. Again if we want Croydon to be a place in which people want to live then all our present Green Belt land must have the strongest possible protection from inappropriate use and urban encroachment.	No change	Sanderstead Plantation is an important open space that requires the same level of protection that its existing Green Belt designation affords it. As it surrounded on all sides by built up area it is incorrectly designated as Green Belt (which should by definition surround a built up area or provide a buffer between it and the next built up area, so it will be re-designated as Local Green Space which provides an identical level of protection but is a more appropriate designation for this area.
2804/01/008/DM24 (Table 9.1)/O	Jim Gibbons	Object	DM24 (Table 9.1)	Sanderstead Planation is also being downgraded from Green Belt to Metropolitan Open Land. I object to all these downgrades as I consider that they have no bio-diversity protection if they are.	No change	Sanderstead Plantation is an important open space that requires the same level of protection that its existing Green Belt designation affords it. As it surrounded on all sides by built up area it is incorrectly designated as Green Belt (which should by definition surround a built up area or provide a buffer between it and the next built up area, so it will be re-designated as Local Green Space which provides an identical level of protection but is a more appropriate designation for this area.

2839/02/008/DM24 (Table 9.1)/O	Cllr Yvette Hopley  <i>London Borough of Croydon</i>	Object	Soundness - Effective	DM24 (Table 9.1)  Sanderstead Plantation	Object about the designation from Green belt to Metropolitan open land. Weakens the value of the protection. Recently Ealing council downgraded some of its green belt to Metropolitan Open Land and now they are building on that land (against advice). This is a slippery slope.	No change	Sanderstead Plantation is an important open space that requires the same level of protection that its existing Green Belt designation affords it. As it surrounded on all sides by built up area it is incorrectly designated as Green Belt (which should by definition surround a built up area or provide a buffer between it and the next built up area, so it will be re-designated as Local Green Space which provides an identical level of protection but is a more appropriate designation for this area.
2839/01/014/DM24 (Table 9.1)/C	Cllr Yvette Hopley  <i>London Borough of Croydon</i>	Comment	Soundness - Effective	DM24 (Table 9.1)  Sanderstead Plantation	Purley Beeches, Sanderstead Plantation, Sanderstead Pond and Wettern Tree Gardens are considered local green spaces along with All Saints Church yard and cemetery and the allotments. They are quite different - Purley Beeches, Sanderstead Plantation & Wetton Tree Gardens should have protected issues around the woodland?	No change	Sanderstead Plantation is also covered by a Site of Nature of Conservation Importance designation which specifically protects the ecological value of the site.
2839/01/008/DM24 (Table 9.1)/O	Cllr Yvette Hopley  <i>London Borough of Croydon</i>	Object	Soundness - Effective	DM24 (Table 9.1)  Sanderstead Plantation	Object about the designation from Green belt to Metropolitan open land. Weakens the value of the protection.	No change	Sanderstead Plantation is an important open space that requires the same level of protection that its existing Green Belt designation affords it. As it surrounded on all sides by built up area it is incorrectly designated as Green Belt (which should by definition surround a built up area or provide a buffer between it and the next built up area, so it will be re-designated as Local Green Space which provides an identical level of protection but is a more appropriate designation for this area.
2839/02/014/DM24 (Table 9.1)/C	Cllr Yvette Hopley  <i>London Borough of Croydon</i>	Comment	Soundness - Effective	DM24 (Table 9.1)  Sanderstead Plantation	Purley Beeches, Sanderstead Plantation, Sanderstead Pond and Wettern Tree Gardens are considered local green spaces along with All Saints Church yard and cemetery and the allotments. They are quite different - Purley Beeches, Sanderstead Plantation & Wetton Tree Gardens should have protected issues around the woodland?	No change	Sanderstead Plantation is also covered by a Site of Nature of Conservation Importance designation which specifically protects the ecological value of the site.

2906/01/005/DM24 (Table 9.1)/O	Mr Gerald Smith	Object	DM24 (Table 9.1)	Policy DM44.2 (page 179) - Loss of Green Belt Areas I object strongly to the downgrading of Coombe Wood Playing Fields/Croham Hurst and Sanderstead Plantation to facilitate housing development. There is not a lot of greenery in Croydon as a whole (particularly in the north of the borough) so why remove what we have?	No change	Sanderstead Plantation is an important open space that requires the same level of protection that its existing Green Belt designation affords it. As it surrounded on all sides by built up area it is incorrectly designated as Green Belt (which should by definition surround a built up area or provide a buffer between it and the next built up area, so it will be re-designated as Local Green Space which provides an identical level of protection but is a more appropriate designation for this area.
2968/01/002/DM24 (Table 9.1)/O	Mr Jason Vine	Object	DM24 (Table 9.1)	I send you this email to state my objection to your current plans to downgrade the status of Sanderstead Plantation (policy number SF7).	No change	Sanderstead Plantation is an important open space that requires the same level of protection that its existing Green Belt designation affords it. As it surrounded on all sides by built up area it is incorrectly designated as Green Belt (which should by definition surround a built up area or provide a buffer between it and the next built up area, so it will be re-designated as Local Green Space which provides an identical level of protection but is a more appropriate designation for this area.
2976/01/001/DM24 (Table 9.1)/O	Mr James Walsh	Object	DM24 (Table 9.1)	As a local resident benefitting from living in proximity to the Sanderstead plantation, I have learned with considerable concern of the proposal to downgrade the designation of the Sanderstead plantation from Green belt to local green space. The ecology report prepared for the council recommended that the plantation be upgraded from a grade 2 to grade 1 site of borough importance. This is because of the unique ecological importance of the plantation to the people of Croydon and London. I object to the downgrading of this site to local green space from Green belt. We cannot afford to lose more rare green land to urban development. Current and future generations of people need this land preserved for the enjoyment and education of all the residents of the borough. I would be grateful if you could advise me of the outcome of the re designation proposal. Also, can you please advise, whether the council's plans to upgrade the site to grade 1 as recommended in by the ecology report?	No change	Sanderstead Plantation is an important open space that requires the same level of protection that its existing Green Belt designation affords it. As it surrounded on all sides by built up area it is incorrectly designated as Green Belt (which should by definition surround a built up area or provide a buffer between it and the next built up area, so it will be re-designated as Local Green Space which provides an identical level of protection but is a more appropriate designation for this area.

2978/01/008/DM24 (Table 9.1)/O	Mr James Marland	Object		DM24 (Table 9.1)  Sanderstead Plantation	No downgrade of Sanderstead Plantation. They should remain greenbelt land and protected.	No change	Sanderstead Plantation is an important open space that requires the same level of protection that its existing Green Belt designation affords it. As it surrounded on all sides by built up area it is incorrectly designated as Green Belt (which should by definition surround a built up area or provide a buffer between it and the next built up area, so it will be re- designated as Local Green Space which provides an identical level of protection but is a more appropriate designagation for this area.
2983/01/002/DM24 (Table 9.1)/O	Mrs Jennie Bridge	Object	Soundness - Justified	DM24 (Table 9.1)  Sanderstead Plantation	I send you this email to state my objection to your current plans to downgrade the status of Sanderstead Plantation ( policy number SF7). My garden backs onto the plantation and I feel that if this policy goes ahead the future of the plantation will be unsure.	No change	Sanderstead Plantation is an important open space that requires the same level of protection that its existing Green Belt designation affords it. As it surrounded on all sides by built up area it is incorrectly designated as Green Belt (which should by definition surround a built up area or provide a buffer between it and the next built up area, so it will be re- designated as Local Green Space which provides an identical level of protection but is a more appropriate designagation for this area.
2991/01/005/DM24 (Table 9.1)/O	Anna Bond	Object	Soundness - Justified	DM24 (Table 9.1)  Sanderstead Plantation	Loss of Green Belt – (1) Coombe Playing Fields, (2) Croham Hurst, (3) Sanderstead Plantation The Coombe Playing Fields, currently Green Belt, are being proposed for development in Policy DM44.2, Table 11.17, site 662 (p179). The site should remain as green belt. Croham Hurst Woods are being de- designated from Green Belt to Metropolitan Open Land in Policy SP7 of the Strategic Plan (p55 of Policies Map).	No change	Sanderstead Plantation is an important open space that requires the same level of protection that its existing Green Belt designation affords it. As it surrounded on all sides by built up area it is incorrectly designated as Green Belt (which should by definition surround a built up area or provide a buffer between it and the next built up area, so it will be re- designated as Local Green Space which provides an identical level of protection but is a more appropriate designagation for this area.

2996/01/001/DM24 (Table 9.1)/O	Catherine Evans	Object	DM24 (Table 9.1)  Sanderstead Plantation	I wish to log my objection to the plans to change Sanderstead Plantation from Green Belt to Metropolitan Open Land.	No change	Sanderstead Plantation is an important open space that requires the same level of protection that its existing Green Belt designation affords it. As it surrounded on all sides by built up area it is incorrectly designated as Green Belt (which should by definition surround a built up area or provide a buffer between it and the next built up area, so it will be re-designated as Local Green Space which provides an identical level of protection but is a more appropriate designation for this area.
-----------------------------------	-----------------	--------	---	---	-----------	---

3011/01/003/DM24 (Table 9.1)/O	Mr Joseph Trickey	Object	DM24 (Table 9.1)  Sanderstead Plantation	I wish to state my strong objection to any diminution of local green spaces. The draft local plan Policy DM 44.2 and Policy SP7 propose redesignation from Green Belt status to Metropolitan Open Land for Croham Hurst and also for the Sanderstead Plantation and Coombe Playing Field. The value of maintaining protection for these spaces for health and environmental reasons must be evident to everyone responsible for their protection. For many years I, along with many others, have used these open spaces and woodlands to walk around the area and also for walking into Croydon town. One of Croydon's great assets is in the number of green spaces available for the public's recreation, and it is clear from public meetings that the people of Croydon see them as of great benefit. Not only is the public prepared to use them but as is seen from the associations like the Friends of Croham Hurst Woods and the Friends of Wetton Gardens people are also prepared to work for their improvement. I should like reassurance that the redesignation of the land will not result in any erosion of the areas open for walking and for leisure in general	No change	Sanderstead Plantation is an important open space that requires the same level of protection that its existing Green Belt designation affords it. As it surrounded on all sides by built up area it is incorrectly designated as Green Belt (which should by definition surround a built up area or provide a buffer between it and the next built up area, so it will be re-designated as Local Green Space which provides an identical level of protection but is a more appropriate designation for this area.
-----------------------------------	-------------------	--------	---	--	-----------	---

3022/01/002/DM24 (Table 9.1)/O	Mr Martin Bridge	Object	Soundness - Justified	DM24 (Table 9.1)  Sanderstead Plantation	I send you this email to state my objection to your current plans to downgrade the status of Sanderstead Plantation ( policy number SF7). My garden backs onto the plantation and I feel that if this policy goes ahead the future of the plantation will be unsure.	No change	Sanderstead Plantation is an important open space that requires the same level of protection that its existing Green Belt designation affords it. As it surrounded on all sides by built up area it is incorrectly designated as Green Belt (which should by definition surround a built up area or provide a buffer between it and the next built up area, so it will be re-designated as Local Green Space which provides an identical level of protection but is a more appropriate designation for this area.
3150/01/004/DM24 (Table 9.1)/O	Felicity Taylor	Object		DM24 (Table 9.1)  Sanderstead Plantation	Policy DM44.2 - I want to object to the de-designation of Croham Hurst Woods and Sanderstead Plantation. I live only a couple of roads away from Croham Hurst Woods. We walk in there almost every week. We must give this land the best protection possible and that means keeping it green belt. Please reconsider this decision the green spaces for our children and future generations are in your hands. Please don't throw away our green spaces. In order to make Croydon a great place to live we need places to walk in, play in and enjoy.	No change	Sanderstead Plantation is an important open space that requires the same level of protection that its existing Green Belt designation affords it. As it surrounded on all sides by built up area it is incorrectly designated as Green Belt (which should by definition surround a built up area or provide a buffer between it and the next built up area, so it will be re-designated as Local Green Space which provides an identical level of protection but is a more appropriate designation for this area.
3173/01/001/DM24 (Table 9.1)/S	Mr David Collins	Support	Soundness - Effective	DM24 (Table 9.1)  Sanderstead Plantation	I would like to object to any future proposals to build on the Sanderstead Plantation. Policy no SP7	Welcome support	

Object	Soundness - Justified	DM24 (Table 9.1)		No change	
Sanderstead Plantation			<p>I wish to register my strong objection ( via daughters email ) on the proposed Loss of Green Belt proposals which will have a detrimental effect on the residential amenity of the neighbourhoods around Sanderstead Plantation, Croham Hurst Woods and Coombe Playing Fields</p> <p>I strongly object to Croydon Council's proposals to change the status of Sanderstead Plantation from Metropolitan Green Belt to Local Green Space, Croham Hurst Woods de designated from Green Belt to Metropolitan Open Land, and Coombe Playing Fields being proposed for development.</p> <p>The current designation of Sanderstead Plantation and Croham Hurst Woods sites provides the protection the sites need from unwanted development and there are no benefits to residents in changing the designation. The proposals will destroy the character of the areas which need to be preserved.</p> <p>Other objections:</p> <ul style="list-style-type: none"><li>• Adverse effect on the residential amenity of neighbours, by reason of noise, disturbance, overlooking, loss of privacy, wildlife, overshadowing, etc.</li><li>• Unacceptably high density / overdevelopment of Coombe Playing Fields site, especially as it involves loss of the open aspect of the neighbourhoods</li><li>• Visual impact of the sites and surrounding neighborhoods and a detrimental effect on the character of our</li><li>• As the local plan sets out what the Council will allow to be built over next 20 years , all a planning application on Sanderstead Plantation or Croham Hurst Woods need to do is be consistent with the local plan to be passed thus ruining these sites and the neighborhood amenities forever</li><li>• Increased density of the population of these sites including overcrowding which is also a health and safety concern</li><li>• The detrimental effects change of land status of Sanderstead Plantation and Coombe Hurst Woods and the proposed development of Coombe Playing Fields on the character of the neighbourhood. Coombe Hurst Woods is a mature wood with beech and oak trees which will be under threat eg less trees, increase in noise, litter</li><li>• Design (including bulk and massing, detailing and materials, if these form part of the application)</li></ul>		<p>Sanderstead Plantation is an important open space that requires the same level of protection that its existing Green Belt designation affords it. As it surrounded on all sides by built up area it is incorrectly designated as Green Belt (which should by definition surround a built up area or provide a buffer between it and the next built up area, so it will be re-designated as Local Green Space which provides an identical level of protection but is a more appropriate designation for this area.</p>

				<ul style="list-style-type: none"> <li>• The proposed development of Coombe Playing Fields would be over-bearing, out-of-scale or out of character in terms of its appearance compared with existing vicinity</li> <li>• The loss of existing views from neighbouring properties would adversely affect the residential amenity of neighbouring owners</li> </ul>		
3260/01/009/DM24 (Table 9.1)/O	Wayne Starr	Object	DM24 (Table 9.1)  Sanderstead Plantation	Also the downgrading of greenbelt sites at Coombe Playing Fields, Croham Hurst and Sanderstead Plantation should not be considered an option. These areas should be preserved and fought for not downgraded.	No change	Sanderstead Plantation is an important open space that requires the same level of protection that its existing Green Belt designation affords it. As it surrounded on all sides by built up area it is incorrectly designated as Green Belt (which should by definition surround a built up area or provide a buffer between it and the next built up area, so it will be re-designated as Local Green Space which provides an identical level of protection but is a more appropriate designation for this area.
3275/01/012/DM24 (Table 9.1)/O	Suzanne Connor	Object	DM24 (Table 9.1)  Sanderstead Plantation	<p>With reference to the Local Plan which has been proposed, please note my objection to the following policies:</p> <ul style="list-style-type: none"> <li>&gt;</li> <li>&gt; Garden Grabbing</li> <li>&gt; Policy DM2</li> <li>&gt;</li> <li>&gt; Purley Skyscraper authorisation</li> <li>&gt; Policy DM40.1</li> <li>&gt;</li> <li>&gt; Purley Pool</li> <li>&gt; Policy 40.4, Table 11.3, Site 30</li> <li>&gt;</li> <li>&gt; Purley Parking</li> <li>&gt; Policy 40.4, Table 11.3,</li> <li>&gt;</li> <li>&gt; Sanderstead "Lidl" Site</li> <li>&gt; Policy DM41.3, Table 11.14, site 306</li> <li>&gt;</li> <li>&gt; Gypsy/Traveller site on Conduit Lane, next to Coombe Wood Gardens</li> <li>&gt; Policy DM44.2, Table 11.17, site 661</li> <li>&gt;</li> <li>&gt; Loss of Green Belt – (1) Coombe Playing Fields, (2) Croham Hurst, (3) Sanderstead Plantation</li> <li>&gt; The Coombe Playing Fields, currently Green Belt, are being proposed for development in Policy DM44.2, Table 11.17, site 662</li> <li>&gt;</li> <li>&gt; Lack of Parking in new developments</li> <li>&gt; Policy DM28</li> <li>&gt;</li> <li>&gt; More Protection; Less "Intensification"</li> <li>&gt; Policy DM31.4</li> </ul>	No change	Sanderstead Plantation is an important open space that requires the same level of protection that its existing Green Belt designation affords it. As it surrounded on all sides by built up area it is incorrectly designated as Green Belt (which should by definition surround a built up area or provide a buffer between it and the next built up area, so it will be re-designated as Local Green Space which provides an identical level of protection but is a more appropriate designation for this area.

3312/01/009/DM24 (Table 9.1)/O	Mr Richard Brandwood	Object	DM24 (Table 9.1)  Sanderstead Plantation	Loss of Green Belt – Sanderstead Plantation. - The status of this site should remain the same - and not be changed.	No change	Sanderstead Plantation is an important open space that requires the same level of protection that its existing Green Belt designation affords it. As it surrounded on all sides by built up area it is incorrectly designated as Green Belt (which should by definition surround a built up area or provide a buffer between it and the next built up area, so it will be re- designated as Local Green Space which provides an identical level of protection but is a more appropriate designanation for this area.
3339/01/003/DM24 (Table 9.1)/O	Mr Keith Watt	Object	DM24 (Table 9.1)  Sanderstead Plantation	These are valuable and well used green spaces.	No change	Sanderstead Plantation is an important open space that requires the same level of protection that its existing Green Belt designation affords it. As it surrounded on all sides by built up area it is incorrectly designated as Green Belt (which should by definition surround a built up area or provide a buffer between it and the next built up area, so it will be re- designated as Local Green Space which provides an identical level of protection but is a more appropriate designanation for this area.
3357/01/002/DM24 (Table 9.1)/O	Joy Gadsby	Object	DM24 (Table 9.1)  Sanderstead Plantation	I am very much opposed to the downgrading of Croham Hurst and Sanderstead Plantation from Green Belt to Metropolitan Open Land. Both these sites are of historical interest. Croham Hurst is shown on early 17th Century Maps and consequent maps and also has a Bronze Age archaeological site at its highest point. Sanderstead Plantation has been in existence at least from the latter half of the 18th Century and is a valuable conservation site for a wide range of biodiversity. Both sites should be protected as far as possible and are valuable to the well being of the public.	No change	Sanderstead Plantation is an important open space that requires the same level of protection that its existing Green Belt designation affords it. As it surrounded on all sides by built up area it is incorrectly designated as Green Belt (which should by definition surround a built up area or provide a buffer between it and the next built up area, so it will be re- designated as Local Green Space which provides an identical level of protection but is a more appropriate designanation for this area.

3373/01/005/DM24 (Table 9.1)/O	Mrs Kim Vella  Croydon Council	Object	DM24 (Table 9.1)  Sanderstead Plantation	Loss of Green Belt – (1) Coombe Playing Fields, (2) Croham Hurst, (3) Sanderstead Plantation The Coombe Playing Fields, currently Green Belt, are being proposed for development in Policy DM44.2, Table 11.17, site 662 (p179). The site should remain as green belt. Croham Hurst Woods are being de- designated from Green Belt to Metropolitan Open Land in Policy SP7 of the Strategic Plan (p55 of Polices Map). Sanderstead plantation is also being downgraded from Green Belt to Metropolitan Open Land. I object to all these downgrades.	No change	Sanderstead Plantation is an important open space that requires the same level of protection that its existing Green Belt designation affords it. As it surrounded on all sides by built up area it is incorrectly designated as Green Belt (which should by definition surround a built up area or provide a buffer between it and the next built up area, so it will be re- designated as Local Green Space which provides an identical level of protection but is a more appropriate designagation for this area.
3389/01/002/DM24 (Table 9.1)/O	Mr A Young	Object	DM24 (Table 9.1)  Sanderstead Plantation	The changes would change the character of our local area. There for I would like to object to the above policy changes.	No change	Sanderstead Plantation is an important open space that requires the same level of protection that its existing Green Belt designation affords it. As it surrounded on all sides by built up area it is incorrectly designated as Green Belt (which should by definition surround a built up area or provide a buffer between it and the next built up area, so it will be re- designated as Local Green Space which provides an identical level of protection but is a more appropriate designagation for this area.
3420/01/003/DM24 (Table 9.1)/O	Mr & Mrs Tarran	Object	DM24 (Table 9.1)  Sanderstead Plantation	We wish to object to the downgrading of status of the following open spaces Coombe Playing Fields Croham Hurst Sanderstead Plantation Under NO circumstances should these open spaces be downgraded	No change	Sanderstead Plantation is an important open space that requires the same level of protection that its existing Green Belt designation affords it. As it surrounded on all sides by built up area it is incorrectly designated as Green Belt (which should by definition surround a built up area or provide a buffer between it and the next built up area, so it will be re- designated as Local Green Space which provides an identical level of protection but is a more appropriate designagation for this area.

All the sites meet the Metropolitan green belt criteria for designation. There is absolutely no need to downgrade ANY of them to local green space. They should remain as metropolitan green belt. It would be deliverable but not the right approach. It is very short sighted and so very sad that Croydon Council are treating our precious trees, open spaces and few remaining rural aspects of our borough in this way. No, this compromises future generations. In 9.1 it states the "trees and green spaces mitigate higher temperatures as a result of climate change". Any alterations to the greenbelt status will ultimately damage the trees and green spaces, which will not meet the needs of future generations. They too have the right to listen to the birds, go for walks, sit in the park, train for triathlons and marathons, sit on a swing, photograph nature, or play with their friends outside and not on the street. This proposed policy change is wrong. Future generations have the right to a good quality of life, one we should be looking to enhance not devalue. Our children and grandchildren have the right to a better future living in Croydon. There has been no time to respond properly to this proposal. The time limit and date for submission just before Christmas has made it impossible to give the consideration such a grave alteration requires. I have spoken to over 100 people, none of whom know about the council proposals. This has not been a fair and informed consultation for those who live and work in the London Borough on Croydon. I object in the strongest possible terms to the way in which Croydon Council have gone about this consultation of our Green belt land and I speak for many many council tax payers who have not had the time to respond to this proposal.

Sanderstead Plantation is an important open space that requires the same level of protection that its existing Green Belt designation affords it. As it is surrounded on all sides by built up area it is incorrectly designated as Green Belt (which should by definition surround a built up area or provide a buffer between it and the next built up area, so it will be re-designated as Local Green Space which provides an identical level of protection but is a more appropriate designation for this area.

We would like to register our objection to the plan to down grade some of the wonderful nature reserves we have in Croydon. These were protected "Green Belt" areas and were protected for a reason. This was so Croydon residents could find clean air & peaceful places to go and enjoy the nature around us. We can see no benefits to us or anyone else in Croydon with these plans. We can only assume that by lowering the status of these areas that they will be easily disposed of. If there is another reason please can you explain? Otherwise we see this is an underhand and irresponsible way of reducing some of Croydon's well loved open spaces. We are particularly concerned about the plan to down-grade the Sanderstead Plantation from green belt to "Metropolitan Open Land" The plantation is a known nature reserve and a place of scientific interest with a variety of wild flowers, plants, birds, including owls, bats, and other small animals living within it. This is a local amenity used by individuals and families, some who just want a pleasant woodland walk and enjoy the peacefulness that the plantation offers. It is also used by many others such as dog walkers, walking groups, it is also a popular space for bird lovers who enjoy the sights and sounds of a wide variety of wild and exotic birds. The Sanderstead Plantation is a regular meeting place for our local volunteer conservation group who work regularly and tirelessly to preserve and protect this space by maintaining pathways and ensuring that wild habitats of the creatures living there are protected. This voluntary work needs to be encouraged so that our trees and wild flowers are not lost. Croydon's reputation as a decent place to live and raise ones family has suffered greatly over recent years! Everyone in the borough needs to be assured that there are enough open spaces where they can enjoy woodland walks, playing fields in these "Green Belt" protected open spaces.

Sanderstead Plantation is an important open space that requires the same level of protection that its existing Green Belt designation affords it. As it surrounded on all sides by built up area it is incorrectly designated as Green Belt (which should by definition surround a built up area or provide a buffer between it and the next built up area, so it will be re-designated as Local Green Space which provides an identical level of protection but is a more appropriate designation for this area.

3474/01/013/DM24 (Table 9.1)/O	Mr Dennis King  <i>Sanderstead Residents' Associatio</i>	Object	Soundness - Justified	DM24 (Table 9.1)  Sanderstead Plantation	Sanderstead Plantation Ancient woodland planted for the management of timber, now a woodland recreation area providing 8 acres for wild life preservation and recreation. There can be no reason for the proposed change	No change	Sanderstead Plantation is an important open space that requires the same level of protection that its existing Green Belt designation affords it. As it surrounded on all sides by built up area it is incorrectly designated as Green Belt (which should by definition surround a built up area or provide a buffer between it and the next built up area, so it will be re-designated as Local Green Space which provides an identical level of protection but is a more appropriate designation for this area.
3477/01/004/DM24 (Table 9.1)/O	Mr Derek Smith	Object		DM24 (Table 9.1)  Sanderstead Plantation	We are horrified and strongly object to learn recently that Croydon Council has proposals for the re-designation of a number of open areas (public playing fields and woodland) in the Selsdon/Sanderstead, South Croydon area. The purpose of the proposed re-designation is clear to everyone that is to say, new development at some point in time. We recognise the need to increase housing stock, however, the need for adequate public amenities increases with development, and finding the space to provide these becomes increasing more difficult. We should not try solving one problem only to create a more serious one. When public green spaces are no longer available it will become impossible to remove developments to create such spaces. We should therefore treasure the few public open spaces that exist, and not see them as opportunities for development when there are opportunities still existing in brown field sites. It should be kept in mind that the creation of mature woodland etc. would typically take 50 or more years. South Croydon does not have an abundance of such areas, therefore, we need to think seriously when considering changes to any public spaces especially woodland.	No change	Sanderstead Plantation is an important open space that requires the same level of protection that its existing Green Belt designation affords it. As it surrounded on all sides by built up area it is incorrectly designated as Green Belt (which should by definition surround a built up area or provide a buffer between it and the next built up area, so it will be re-designated as Local Green Space which provides an identical level of protection but is a more appropriate designation for this area.

3518/01/002/DM24 (Table 9.1)/O	Mrs Joesphine Gable	Object	DM24 (Table 9.1)	As a resident of Church Way I would like to object in the strongest terms to the proposed downgrading of Sanderstead Plantation from Green Belt to Metropolitan Open Land. I fail to understand the objective behind this unless it is to ultimately change the usage completely by developing the site. I believe that this de-designation would have a major negative impact on the character of our neighbourhood and would ask you to re-consider this action or further guarantee that these changes will be held for a minimum of 100 years from implementation.	No change	Sanderstead Plantation is an important open space that requires the same level of protection that its existing Green Belt designation affords it. As it surrounded on all sides by built up area it is incorrectly designated as Green Belt (which should by definition surround a built up area or provide a buffer between it and the next built up area, so it will be re-designated as Local Green Space which provides an identical level of protection but is a more appropriate designation for this area.	
3538/01/002/DM24 (Table 9.1)/O	Liz Turner	Object	DM24 (Table 9.1)	Please reconsider many of the policies that change the character of Sanderstaed	No change	Sanderstead Plantation is an important open space that requires the same level of protection that its existing Green Belt designation affords it. As it surrounded on all sides by built up area it is incorrectly designated as Green Belt (which should by definition surround a built up area or provide a buffer between it and the next built up area, so it will be re-designated as Local Green Space which provides an identical level of protection but is a more appropriate designation for this area.	
3545/01/007/DM24 (Table 9.1)/O	Linda Bevin	Object	Soundness - Justified	DM24 (Table 9.1)	I object to the de-designation of Purley Downs Golf Club and adjoining land, and Sanderstead Plantation as Green Belt. In light of the aforementioned additions, this appears to be a total contradiction of policies.	No change	Sanderstead Plantation is an important open space that requires the same level of protection that its existing Green Belt designation affords it. As it surrounded on all sides by built up area it is incorrectly designated as Green Belt (which should by definition surround a built up area or provide a buffer between it and the next built up area, so it will be re-designated as Local Green Space which provides an identical level of protection but is a more appropriate designation for this area.

3553/01/001/DM24 (Table 9.1)/O	Maria Eagle	Object	DM24 (Table 9.1)	I totally agree with the objections made Chris Philp with regard to the proposal that is being considered by the council for changing the status of the land from metropolitan green belt to local green space. If our local green areas are under threat with plans for building more homes in these green spaces , I totally object. Build up areas , concrete jungles only harbour crime. We require to preserve the character of our area and the lovely green areas for generations to come... once destroyed you cannot retrieve these areas. If the proposal goes ahead all the sense of pride of our beautiful area will disappear from this community and all the motivation the community has to make our area beautiful, clean and safe will be blotted out.	No change	Sanderstead Plantation is an important open space that requires the same level of protection that its existing Green Belt designation affords it. As it surrounded on all sides by built up area it is incorrectly designated as Green Belt (which should by definition surround a built up area or provide a buffer between it and the next built up area, so it will be re-designated as Local Green Space which provides an identical level of protection but is a more appropriate designation for this area.
3570/01/005/DM24 (Table 9.1)/O	Mr & Mrs Adams	Object	DM24 (Table 9.1)	These sites should all remain as Green Belt and should not be downgraded. Croham Hurst in particular is a biological Site of Special Scientific Interest (SSSI) and a Site of Metropolitan Importance for Nature Conservation. We believe all these plans will devastate our green spaces, and will have a very damaging impact to the character of the local area, and we object strongly.	No change	Sanderstead Plantation is an important open space that requires the same level of protection that its existing Green Belt designation affords it. As it surrounded on all sides by built up area it is incorrectly designated as Green Belt (which should by definition surround a built up area or provide a buffer between it and the next built up area, so it will be re-designated as Local Green Space which provides an identical level of protection but is a more appropriate designation for this area.
3592/01/008/DM24 (Table 9.1)/O	Nicola Shipp	Object	DM24 (Table 9.1)	As a resident of Croydon all my life, I wish to register my opposition to the following "plans".... DM44.2 SITE 662 – The change of status for Coombe Playing Fields, Croham Hurst Woods and Sanderstead Plantation is of great concern. Homes must not be built on these site as the whole area would suffer by additional traffic and the already growing strain to services. Not to mention, spoiling lovely open spaces.	No change	Sanderstead Plantation is an important open space that requires the same level of protection that its existing Green Belt designation affords it. As it surrounded on all sides by built up area it is incorrectly designated as Green Belt (which should by definition surround a built up area or provide a buffer between it and the next built up area, so it will be re-designated as Local Green Space which provides an identical level of protection but is a more appropriate designation for this area.

3712/01/001/DM24 (Table 9.1)/O	Mr Nick Peiris	Object	DM24 (Table 9.1)	I strongly oppose the destruction of any designated "Green Belt" land within our Borough. De-classifying such designated sites is certainly not the answer! A BIG "NO" to DOWNGRADING of existing Green Belt land including 1. Croham Hurst 2. Sanderstead Plantation 3. Coombe Playing Fields 4. Conduit Lane.	No change	Sanderstead Plantation is an important open space that requires the same level of protection that its existing Green Belt designation affords it. As it surrounded on all sides by built up area it is incorrectly designated as Green Belt (which should by definition surround a built up area or provide a buffer between it and the next built up area, so it will be re-designated as Local Green Space which provides an identical level of protection but is a more appropriate designation for this area.

I was informed yesterday (16th December) of your consultation process into the possible category changes of Sanderstead Plantation from Metropolitan Green Belt Land to Local Green Space.

I have the following comments:- I only discovered of this plan through a piece of paper pushed through my front door by the distraught volunteer organisation who do a fantastic job of looking after the Plantation. No previous consultation has been provided to me, neither through my letter box nor displayed in the neighbourhood. I asked a friend who lives directly opposite the wood on the Addington Road whether they had heard anything and they also knew nothing of these plans. I checked on the Croydon web-site and couldn't find any reference to the downgrading of the plantation. The website that holds this information is impossible for the average person to access and decipher. It uses terminology that means nothing to the non-experts and even when you do access the document it appears to show no action to the area in question. It appears to have the 'If you can't convince them confuse them' attitude. I decided to phone the council to check to see if the note was a hoax. I was informed, no it was real but because of resource available to the council the level of consultation was limited. That is simply not good enough. How can this be a consultation if you don't include those people who are directly affected? Indeed, I understand there was some sort of forum a few weeks back yet even the volunteer association that looks after the woods were unaware of that event. How rude is it that to treat the people of this borough in this way. No matter what the budget restraints costs are minimal to consult by either local posters or a mail drop to the neighbouring houses as any planning permission would be addressed.

The council representative informed me the plantation was being downgraded because it was surrounded on three sides by residential development. This logic ignores that this is one of, if not the only area that affords a continuous canopy. It links other areas of important green areas affords Croham Hurst, Selsdon Park then the Selsdon Wood nature reserve.

The council website informs us that it is a "site of nature conservation importance". This unique 8.8 hectares of woodland has a large biodiversity inc. Badgers, Owls and a

Sanderstead Plantation is an important open space that requires the same level of protection that its existing Green Belt designation affords it. As it surrounded on all sides by built up area it is incorrectly designated as Green Belt (which should by definition surround a built up area or provide a buffer between it and the next built up area, so it will be re-designated as Local Green Space which provides an identical level of protection but is a more appropriate designation for this area.

noted spread of tree species (the whole concept of the plantation all those years ago, was to grow and large spread of indigenous species); hence its name. Its biodiversity is not just animals but also plants; notable are the Bluebells in spring which have recently been the best we have seen in a long time. These unrestricted open all hours' woods serves the whole community. If the consultation hadn't been so badly flawed (i.e. consultation via stealth). The plans to down grade the status of the Plantation jeopardizes the green belt of South Croydon. As you can see from the satellite picture this is not an isolated area of green space, in an urban environment, but is part of the larger connecting green belt which forms the boundary of South Croydon. I am sure the local outrage would be immense if more people were informed of these proposals when. This whole plan is simply not acceptable. Indeed, the idea and approach is as outrageous as the plan management itself.

---

I have lived in Sanderstead for nearly 30 years and wish to register my strong objection on the proposals which I believe will have an adverse effect on the sits and residential amenity of the neighbourhoods around Sanderstead Plantation, Croham Hurst Woods and Coombe Playing Fields

I strongly object to Croydon Council's proposals to change the status of Sanderstead Plantation from Metropolitan Green Belt to Local Green Space, Croham Hurst Woods de designated from Green Belt to Metropolitan Open Land, and Coombe Playing Fields being proposed for development.

The current designation of Sanderstead Plantation and Croham Hurst Woods sites provides the protection the sites need from unwanted development and there are no benefits to residents in changing the designation. If the proposals for the Coombe Playing Fields are passed Croydon will LOSE one of the few areas of natural beauty. There will be fewer places to go for family walks, fewer oak and beech trees which will have an adverse effect on the health and well being of local residents potentially resulting in detrimental effects of mental health ultimately putting a strain on Croydon Council's Social Service and local NHS.

- Adverse effect on the residential amenity of neighbours, by reason of noise, disturbance, overlooking, loss of privacy, wildlife, overshadowing, etc.
- Unacceptably high density / overdevelopment of Coombe Playing Fields site, especially as it involves loss of the open aspect of the neighbourhoods
- Visual impact of the sites and surrounding neighborhoods and a detrimental effect on the character of our
- As the local plan sets out what the Council will allow to be built over next 20 years , all a planning application on Sanderstead Plantation or Croham Hurst Woods need to do is be consistent with the local plan to be passed thus ruining these sites and the neighborhood amenities forever
- Increased Density of the population of these sites including overcrowding which is also a health and safety concern
- The detrimental effects change of land status of Sanderstead Plantation and Coombe Hurst Woods and the proposed development of Coombe

Sanderstead Plantation is an important open space that requires the same level of protection that its existing Green Belt designation affords it. As it surrounded on all sides by built up area it is incorrectly designated as Green Belt (which should by definition surround a built up area or provide a buffer between it and the next built up area, so it will be re-designated as Local Green Space which provides an identical level of protection but is a more appropriate designation for this area.

Playing Fields on the character of the neighbourhood. Coombe Hurst Woods is a mature wood with beech and oak trees which will be under threat eg less trees, increase in noise, litter

- Design (including bulk and massing, detailing and materials, if these form part of the application)
- The proposed development of Coombe Playing Fields would be over-bearing, out-of-scale or out of character in terms of its appearance compared with existing vicinity
- The loss of existing views from neighbouring properties would adversely affect the residential amenity of neighbouring owners

3767/01/004/DM24 (Table 9.1)/O	Mr K Dawson	Object	Soundness - Justified	DM24 (Table 9.1)  Sanderstead Plantation	<p>I have had the opportunity to read the proposals in the recently published Local Plan for Croydon and am submitting my views by the 18 December 2015 deadline.</p> <p>I also object to the down-grading of Green Belt land to Metropolitan Open Land in Policy SP7 of the Strategic Plan as the protections in place against developing these areas are likely to be compromised, specifically Croham Hurst and Sanderstead Plantation.</p> <p>There are plenty of 'Brown field' sites where much needed 'affordable' residential development can take place, although of course it is more expensive to do this and therefore economically desirable for developers and construction companies!</p> <p>However, it is the responsibility of national and local government to ensure that Brown field sites should be the primary focus, and prevent more green spaces in urban areas disappearing.</p>	No change	Sanderstead Plantation is an important open space that requires the same level of protection that its existing Green Belt designation affords it. As it surrounded on all sides by built up area it is incorrectly designated as Green Belt (which should by definition surround a built up area or provide a buffer between it and the next built up area, so it will be re-designated as Local Green Space which provides an identical level of protection but is a more appropriate designation for this area.
3795/01/009/DM24 (Table 9.1)/O	Mr Tony Connor	Object		DM24 (Table 9.1)  Sanderstead Plantation	<p>With reference to the Local Plan which has been proposed, please note my objection to the following policies</p> <p>Loss of Green Belt (1) Coombe Playing Fields, (2) Croham Hurst, (3) Sanderstead Plantation</p> <p>The Coombe Playing Fields, currently Green Belt, are being proposed for development in Policy DM44.2, Table 11.17, site 662</p>	No change	Sanderstead Plantation is an important open space that requires the same level of protection that its existing Green Belt designation affords it. As it surrounded on all sides by built up area it is incorrectly designated as Green Belt (which should by definition surround a built up area or provide a buffer between it and the next built up area, so it will be re-designated as Local Green Space which provides an identical level of protection but is a more appropriate designation for this area.

3796/01/013/DM24 (Table 9.1)/O	Mr Tony Sales	Object	DM24 (Table 9.1)  Sanderstead Plantation	I am emailing to record my objection to the following policies within the 'Local Plan'.	No change	Sanderstead Plantation is an important open space that requires the same level of protection that its existing Green Belt designation affords it. As it surrounded on all sides by built up area it is incorrectly designated as Green Belt (which should by definition surround a built up area or provide a buffer between it and the next built up area, so it will be re-designated as Local Green Space which provides an identical level of protection but is a more appropriate designation for this area.
3800/01/004/DM24 (Table 9.1)/O	Ann Nussey	Object	DM24 (Table 9.1)  Sanderstead Plantation	Loss of Green Belt (1) Coombe Playing Fields, (2) Croham Hurst, (3) Sanderstead Plantation The Coombe Playing Fields, currently Green Belt, are being proposed for development in Policy DM44.2, Table 11.17, site 662 (p179). The site should remain as green belt. Croham Hurst Woods are being de-designated from Green Belt to Metropolitan Open Land in Policy SP7 of the Strategic Plan (p55 of Polices Map). Sanderstead plantation is also being downgraded from Green Belt to Metropolitan Open Land. I object to all these downgrades.	No change	Sanderstead Plantation is an important open space that requires the same level of protection that its existing Green Belt designation affords it. As it surrounded on all sides by built up area it is incorrectly designated as Green Belt (which should by definition surround a built up area or provide a buffer between it and the next built up area, so it will be re-designated as Local Green Space which provides an identical level of protection but is a more appropriate designation for this area.
3812/01/010/DM24 (Table 9.1)/O	Mr Peter Spragg	Object	DM24 (Table 9.1)  Sanderstead Plantation	Loss of Green Belt '(1) Coombe Playing Fields, (2) Croham Hurst, (3) Sanderstead Plantation. The Coombe Playing Fields, currently Green Belt, are being proposed for development in Policy DM44.2, Table 11.17, site 662 (p179). The site should remain as green belt. Croham Hurst Woods are being de-designated from Green Belt to Metropolitan Open Land in Policy SP7 of the Strategic Plan (p55 of Polices Map). Sanderstead plantation is also being downgraded from Green Belt to Metropolitan Open Land. I object to all these downgrades.	No change	Sanderstead Plantation is an important open space that requires the same level of protection that its existing Green Belt designation affords it. As it surrounded on all sides by built up area it is incorrectly designated as Green Belt (which should by definition surround a built up area or provide a buffer between it and the next built up area, so it will be re-designated as Local Green Space which provides an identical level of protection but is a more appropriate designation for this area.

3813/01/010/DM24 (Table 9.1)/O	Mr Brandon Hannan	Object	DM24 (Table 9.1)	The Coombe Playing Fields, currently Green Belt, are being proposed for development in Policy DM44.2, Table 11.17, site 662 (p179). The site should remain as green belt. Croham Hurst Woods are being de-designated from Green Belt to Metropolitan Open Land in Policy SP7 of the Strategic Plan (p55 of Policies Map). Sanderstead plantation is also being downgraded from Green Belt to Metropolitan Open Land. I object to all these downgrades.	No change	Sanderstead Plantation is an important open space that requires the same level of protection that its existing Green Belt designation affords it. As it surrounded on all sides by built up area it is incorrectly designated as Green Belt (which should by definition surround a built up area or provide a buffer between it and the next built up area, so it will be re-designated as Local Green Space which provides an identical level of protection but is a more appropriate designation for this area.	
3829/01/008/DM24 (Table 9.1)/O	Dr L Bowen-Long	Object	Soundness - Justified	DM24 (Table 9.1)	Loss of Green Belt & Playing Fields – the proposal to alter land use categories for Coombe Playing Fields, Croham Hurst and Sanderstead Plantation are unnecessary and undesirable down-gradings of land areas which help to maintain Croydon Borough as more than just a concrete jungle. There should be balance between the locations of urban sprawl and natural green areas which the local residents can enjoy. Do not progress further with such changes of classification.	No change	Sanderstead Plantation is an important open space that requires the same level of protection that its existing Green Belt designation affords it. As it surrounded on all sides by built up area it is incorrectly designated as Green Belt (which should by definition surround a built up area or provide a buffer between it and the next built up area, so it will be re-designated as Local Green Space which provides an identical level of protection but is a more appropriate designation for this area.
3837/01/004/DM24 (Table 9.1)/O	Mr & Mrs Hooper	Object	DM24 (Table 9.1)	I also oppose the redesignation of Croham Hurst Woods and Sanderstead plantation. This is quite contrary to the national aim to improve sporting facilities.	No change	Sanderstead Plantation is an important open space that requires the same level of protection that its existing Green Belt designation affords it. As it surrounded on all sides by built up area it is incorrectly designated as Green Belt (which should by definition surround a built up area or provide a buffer between it and the next built up area, so it will be re-designated as Local Green Space which provides an identical level of protection but is a more appropriate designation for this area.	

3846/01/005/DM24  
(Table 9.1)/O

Cllr M Gatland

Object

Soundness -  
Justified

DM24 (Table 9.1)

Sanderstead  
Plantation

I wish to object to the following  
The use of the following as traveller  
or gypsy sites Coombe Lodge  
Nurseries site ref 661 Coombe  
Farm. Site ref 502 This is  
inappropriate development on  
Greenbelt.  
The de designation from Greenbelt of  
Croham Hurst Woods  
Coombe rd Playing Fields  
Sanderstead Plantation  
Does not comply with SP7.2 and the  
protection of the green grid

No change

Sanderstead Plantation is an  
important open space that  
requires the same level of  
protection that its existing  
Green Belt designation  
affords it. As it surrounded  
on all sides by built up area  
it is incorrectly designated  
as Green Belt (which should  
by definition surround a built  
up area or provide a buffer  
between it and the next built  
up area, so it will be re-  
designated as Local Green  
Space which provides an  
identical level of protection  
but is a more appropriate  
designagation for this area.

3848/01/003/DM24  
(Table 9.1)/O

Mrs Linda Etheridge

Object

DM24 (Table 9.1)

Sanderstead  
Plantation

It would be extremely detrimental to  
the local area and in particular  
detrimental to the environment  
should the area of Coombe Playing  
Fields, Croham Hurst and the  
Sanderstead Plantation be subject to  
becoming 'a local Green Space'  
which could then be subject to the  
possibility of being sold for  
development by the council. As a  
resident of Sanderstead I am  
shocked to learn that these changes  
are being considered. Your  
negotiations are being considered at  
a very busy time of the year when  
most people do not have time to  
object. Moreover the preservation of '  
open spaces' for our children of the  
future as well as to stop the flow of  
climate change should be protected  
from the dessimation of the council  
and the builder! It is beyond reason  
to consider changing three areas in  
the south of the borough. One can  
only imagine that the council intends  
to create an area similar to the  
concrete spaces of central Croydon.  
Moreover I am appalled by these  
proposals and the attitude of town  
hall councils who lack any  
consideration of or for the community  
of South Croydon. Therefore the loss  
of green belt (1) Coombe Playing  
Fields, (2) Croham Hurst, (3)  
Sanderstead Plantation must not go  
ahead as proposed.

No change

Sanderstead Plantation is an  
important open space that  
requires the same level of  
protection that its existing  
Green Belt designation  
affords it. As it surrounded  
on all sides by built up area  
it is incorrectly designated  
as Green Belt (which should  
by definition surround a built  
up area or provide a buffer  
between it and the next built  
up area, so it will be re-  
designated as Local Green  
Space which provides an  
identical level of protection  
but is a more appropriate  
designagation for this area.

3851/01/002/DM24 (Table 9.1)/O	Mr Mike Etheridge	Object		DM24 (Table 9.1)  Sanderstead Plantation	Re-designation of Coombe Playing Fields, Croham Hurst Woods, and Sanderstead Plantation from 'Green Belt' to 'Metropolitan Open Land'. I hereby register my objection to the proposals and consider that any development of these areas would be detrimental to the local environments and associated wildlife.	No change	Sanderstead Plantation is an important open space that requires the same level of protection that its existing Green Belt designation affords it. As it surrounded on all sides by built up area it is incorrectly designated as Green Belt (which should by definition surround a built up area or provide a buffer between it and the next built up area, so it will be re- designated as Local Green Space which provides an identical level of protection but is a more appropriate designagation for this area.
3861/01/007/DM24 (Table 9.1)/O	Mr Neil Walker	Object		DM24 (Table 9.1)  Sanderstead Plantation	It is not appropriate to downgrade these sites from Green Belt to Metropolitan Open Land.	No change	Sanderstead Plantation is an important open space that requires the same level of protection that its existing Green Belt designation affords it. As it surrounded on all sides by built up area it is incorrectly designated as Green Belt (which should by definition surround a built up area or provide a buffer between it and the next built up area, so it will be re- designated as Local Green Space which provides an identical level of protection but is a more appropriate designagation for this area.
3862/01/005/DM24 (Table 9.1)/O	Mr M Blount	Object	Soundness - Justified	DM24 (Table 9.1)  Sanderstead Plantation	I have considered details of the proposed Croydon Local Plan and have the following objections on the basis that they will: detract from the local areas, dramatically change the local areas, dramatically change the character of local areas, have a significant adverse effect on an already overloaded infrastructure, including roads, public transport, public open space, environment and emergency, health and support services.  2. I object to any proposed re- designation of Green Belt and MOL.	No change	Sanderstead Plantation is an important open space that requires the same level of protection that its existing Green Belt designation affords it. As it surrounded on all sides by built up area it is incorrectly designated as Green Belt (which should by definition surround a built up area or provide a buffer between it and the next built up area, so it will be re- designated as Local Green Space which provides an identical level of protection but is a more appropriate designagation for this area.

3896/01/015/DM24 (Table 9.1)/O	Mr M Veldeman	Object	DM24 (Table 9.1)	Downgrading of any green spaces is again unacceptable. Our green spaces are valuable for people, the environment and wild life. It is becoming more relevant these days, not a luxury but a necessity and downgrading it is a slippery slope to losing it. Maybe this is the intention.	No change	Sanderstead Plantation is an important open space that requires the same level of protection that its existing Green Belt designation affords it. As it surrounded on all sides by built up area it is incorrectly designated as Green Belt (which should by definition surround a built up area or provide a buffer between it and the next built up area, so it will be re-designated as Local Green Space which provides an identical level of protection but is a more appropriate designation for this area.
3940/01/009/DM24 (Table 9.1)/O	Shirley Shephard	Object	DM24 (Table 9.1)	The Coombe Playing Fields, currently Green Belt, are being proposed for development in Policy DM44.2, Table 11.17, site 662 (p179). The site should remain as green belt. Croham Hurst Woods are being de-designated from Green Belt to Metropolitan Open Land in Policy SP7 of the Strategic Plan (p55 of Polices Map). Sanderstead plantation is also being downgraded from Green Belt to Metropolitan Open Land. I object to all these downgrades	No change	Sanderstead Plantation is an important open space that requires the same level of protection that its existing Green Belt designation affords it. As it surrounded on all sides by built up area it is incorrectly designated as Green Belt (which should by definition surround a built up area or provide a buffer between it and the next built up area, so it will be re-designated as Local Green Space which provides an identical level of protection but is a more appropriate designation for this area.
3946/01/004/DM24 (Table 9.1)/O	Mr & Mrs Burns	Object	DM24 (Table 9.1)	We have been made aware that both Sanderstead Plantation along with Croham Hurst Woods are to be re designated/ downgraded from Green Belt land to Metropolitan Open Land.  We strongly object to this action as it may mean in future years that they could be built on. It is important to retain our open spaces and the Green Belt .	No change	Sanderstead Plantation is an important open space that requires the same level of protection that its existing Green Belt designation affords it. As it surrounded on all sides by built up area it is incorrectly designated as Green Belt (which should by definition surround a built up area or provide a buffer between it and the next built up area, so it will be re-designated as Local Green Space which provides an identical level of protection but is a more appropriate designation for this area.

3955/01/002/DM24 (Table 9.1)/O	Mrs M Brewster	Object	Soundness - Justified	DM24 (Table 9.1)  Sanderstead Plantation	I wish to log my objections to these proposals. Croydon often gets a bad press and going into the town centre, whilst there is lots of choice, is not always a pleasant experience. However, in my opinion, one of the most important things Croydon does have going for it, is its abundant open spaces and woodland, which helps to make it a nice place to live. Any threat to the public's access to these amenities would be detrimental to the quality of life currently being experienced. I strongly object to any proposals which would impinge on this. I am particularly concerned with the proposal in respect of Sanderstead Plantation.	No change	Sanderstead Plantation is an important open space that requires the same level of protection that its existing Green Belt designation affords it. As it surrounded on all sides by built up area it is incorrectly designated as Green Belt (which should by definition surround a built up area or provide a buffer between it and the next built up area, so it will be re-designated as Local Green Space which provides an identical level of protection but is a more appropriate designation for this area.
3963/01/003/DM24 (Table 9.1)/O	Mrs Yendall	Object		DM24 (Table 9.1)  Sanderstead Plantation	Would like to support her local MP Chris Philp with his concerns regarding Loss of Green Belt - (1)Coombe Playing Fields, (2) Croham Hurst, (3) Sanderstead Plantation. She objects strongly to all these downgrades.	No change	Sanderstead Plantation is an important open space that requires the same level of protection that its existing Green Belt designation affords it. As it surrounded on all sides by built up area it is incorrectly designated as Green Belt (which should by definition surround a built up area or provide a buffer between it and the next built up area, so it will be re-designated as Local Green Space which provides an identical level of protection but is a more appropriate designation for this area.
3980/01/003/DM24 (Table 9.1)/O	Mr & Mrs Connolly	Object		DM24 (Table 9.1)  Sanderstead Plantation	We strongly object to the Council's proposals as set out in SP7 of its Strategic Plan to downgrade Sanderstead Plantation and Croham Hurst Woods from Green Belt to Metropolitan Open Land status and the consequent erosion of protection for these ancient and much appreciated local amenities.  Please remove these sites from the Plan.	No change	Sanderstead Plantation is an important open space that requires the same level of protection that its existing Green Belt designation affords it. As it surrounded on all sides by built up area it is incorrectly designated as Green Belt (which should by definition surround a built up area or provide a buffer between it and the next built up area, so it will be re-designated as Local Green Space which provides an identical level of protection but is a more appropriate designation for this area.

3987/01/002/DM24 (Table 9.1)/O	Mr P Doherty	Object	Soundness - Justified	DM24 (Table 9.1)  Sanderstead Plantation	I wish to place on record my grave concern about Sanderstead Plantation. I object to the council changing the land from Metropolitan Green Belt to Local Green Space. The current designation provides the protection that the site needs and I can see no benefit arising from the lowering of that designation.	No change	Sanderstead Plantation is an important open space that requires the same level of protection that its existing Green Belt designation affords it. As it surrounded on all sides by built up area it is incorrectly designated as Green Belt (which should by definition surround a built up area or provide a buffer between it and the next built up area, so it will be re-designated as Local Green Space which provides an identical level of protection but is a more appropriate designation for this area.
3990/01/003/DM24 (Table 9.1)/O	Mr P Upton	Object		DM24 (Table 9.1)  Sanderstead Plantation	I confirm that I object to any changes to the designation of the Sanderstead Plantation	No change	Sanderstead Plantation is an important open space that requires the same level of protection that its existing Green Belt designation affords it. As it surrounded on all sides by built up area it is incorrectly designated as Green Belt (which should by definition surround a built up area or provide a buffer between it and the next built up area, so it will be re-designated as Local Green Space which provides an identical level of protection but is a more appropriate designation for this area.
4021/01/002/DM24 (Table 9.1)/O	Mr & Mrs Gifford	Object		DM24 (Table 9.1)  Sanderstead Plantation	We do not agree with the proposed changes and therefore consider that Sanderstead Plantation should remain as Green Belt	No change	Sanderstead Plantation is an important open space that requires the same level of protection that its existing Green Belt designation affords it. As it surrounded on all sides by built up area it is incorrectly designated as Green Belt (which should by definition surround a built up area or provide a buffer between it and the next built up area, so it will be re-designated as Local Green Space which provides an identical level of protection but is a more appropriate designation for this area.

4034/01/005/DM24 (Table 9.1)/O	Ms S Quay	Object		DM24 (Table 9.1)  Sanderstead Plantation	These precious sites should keep their green belt status.	No change	Sanderstead Plantation is an important open space that requires the same level of protection that its existing Green Belt designation affords it. As it surrounded on all sides by built up area it is incorrectly designated as Green Belt (which should by definition surround a built up area or provide a buffer between it and the next built up area, so it will be re- designated as Local Green Space which provides an identical level of protection but is a more appropriate designagation for this area.
4108/01/010/DM24 (Table 9.1)/O	The Chudasama Family	Object	Soundness - Justified	DM24 (Table 9.1)  Sanderstead Plantation	Policy DM44.2, Table 11.17, site 662 (p179). The site should remain as green belt. Croham Hurst Woods are being de-designated from Green Belt to Metropolitan Open Land in Policy SP7 of the Strategic Plan (p55 of Policies Map). Sanderstead planation is also being downgraded from Green Belt to Metropolitan Open Land. I object to all these downgrades.	No change	Sanderstead Plantation is an important open space that requires the same level of protection that its existing Green Belt designation affords it. As it surrounded on all sides by built up area it is incorrectly designated as Green Belt (which should by definition surround a built up area or provide a buffer between it and the next built up area, so it will be re- designated as Local Green Space which provides an identical level of protection but is a more appropriate designagation for this area.
4117/01/008/DM24 (Table 9.1)/O	Cllr S Brew	Object		DM24 (Table 9.1)  Sanderstead Plantation	I object to the de-designation of Sanderstead Plantation as Green Belt.	No change	Sanderstead Plantation is an important open space that requires the same level of protection that its existing Green Belt designation affords it. As it surrounded on all sides by built up area it is incorrectly designated as Green Belt (which should by definition surround a built up area or provide a buffer between it and the next built up area, so it will be re- designated as Local Green Space which provides an identical level of protection but is a more appropriate designagation for this area.

4411/01/007/DM24 (Table 9.1)/O	Maurice Brennan	Object		DM24 (Table 9.1)  Sanderstead Plantation	4.Loss of Green Belt – (1) Coombe Playing Fields, (2) Croham Hurst, (3) Sanderstead Plantation in Policy DM44.2, Table 11.17, site 662 (p179). These sites should remain as green belt and not downgraded	No change	Sanderstead Plantation is an important open space that requires the same level of protection that its existing Green Belt designation affords it. As it surrounded on all sides by built up area it is incorrectly designated as Green Belt (which should by definition surround a built up area or provide a buffer between it and the next built up area, so it will be re-designated as Local Green Space which provides an identical level of protection but is a more appropriate designation for this area.
0790/01/097/DM24 (Table 9.1)/C	Mr Mathew Frith  <i>London Wildlife Trust</i>	Comment	Soundness - Justified	DM24 (Table 9.1)  Sanderstead Pond (and Green)	We support these additions.	Welcome support	
0790/01/098/DM24 (Table 9.1)/C	Mr Mathew Frith  <i>London Wildlife Trust</i>	Comment	Soundness - Justified	DM24 (Table 9.1)  Scrub Shaw	We support these additions.	Welcome support	
0790/01/099/DM24 (Table 9.1)/C	Mr Mathew Frith  <i>London Wildlife Trust</i>	Comment	Soundness - Justified	DM24 (Table 9.1)  Selsdon Recreation Ground	We support these additions.	Welcome support	
0790/01/100/DM24 (Table 9.1)/C	Mr Mathew Frith  <i>London Wildlife Trust</i>	Comment	Soundness - Justified	DM24 (Table 9.1)  Shirley Oaks playing field and wood	We support these additions.	Welcome support	
2729/01/004/DM24 (Table 9.1)/C	Mr G Simmonds			DM24 (Table 9.1)  Shirley Oaks playing field and wood	Object to site at Shirley Oaks Playing field and wood ( Local Green Space ) as the site is undeliverable for the following: Lack of evidence to support de-designation as the report relies entirely on opinion uninformed by actual specifics of land use and forms an important of Shirleys green infrastructure The land is used for recreation and its loss would be contrary to the Mayors Pan Policy 17.7 which highlights the positive aspects of MOL such as play areas for children and amenity areas for grandparents to play with their children, play areas for kids going home from school and also for others such as dogwalkers. The land should be retained as MOL as it meets the criteria set out by the London Plan.	No change	The site does not meet the criteria for Metropolitan Open Land but does meet the criteria for Local Green Space. The designation offers the same level as protection as Metropolitan Open Land but is a more suitable designation for this site.

2904/01/001/DM24 (Table 9.1)/O	Mrs C E Wilson	Object		DM24 (Table 9.1)  Shirley Oaks playing field and wood	I wish to object to the detailed proposal in Policy DM24(ii) in relation to land identified as Shirley Oaks playing field and wood Lvi on page 144 Map GS-L (Site). The site is owned by Shirley Oaks Management Limited Company. The site is presently protected by the designation of the MOL. Separate objections have been made in relation to the proposal to de-designate this land as MOL. Those objections are repeated for the purpose of this representation. The designation as MOL should remain.	No change	The site does not meet the criteria for Metropolitan Open Land but does meet the criteria for Local Green Space. The designation offers the same level as protection as Metropolitan Open Land but is a more suitable designation for this site.
2905/02/001/DM24 (Table 9.1)/O	Mr S F A Wilson	Object		DM24 (Table 9.1)  Shirley Oaks playing field and wood	I wish to object to the detailed proposal in Policy DM24(ii) in relation to land identified as Shirley Oaks playing field and wood Lvi on page 144 Map GS-L (Site). 1949/01/021/DM24 (Table 9.2)/C	Beth Havelock  <i>Transport for London</i>	Comment		DM24 (Table 9.2)	TfL requests further discussions with the Council about the Green Belt boundaries in the Elmers End area. Although this is not included in the amended designation section, TfL would like to look at the options of changing the boundaries for this area to ensure it does not restrict the aspirations to provide a second platform or double tracking.	The Green Belt boundaries at Elmers End should be assessed.	No change	The boundaries cannot be amended as no information has been submitted by Transport for London setting out their requirements for this site. In any case, local transport infrastructure which can demonstrate a requirement for a Metropolitan Open Land location would be permitted, provided it preserves the openness of the Metropolitan Open Land and is compatible with its purpose and reason for being designated Metropolitan Open Land.

2766/01/004/DM24 (Table 9.2)/C	B Wilson  <i>W.R. Newland and Sons Ltd</i>	Comment	DM24 (Table 9.2)	Provision should be made for the planned release of Green Belt sites to meet the objectively assessed housing needs identified in the SHMA. Paragraph 47 of the NPPF requires LPAs to plan for this need. This need should be met through site allocations following a Green Belt review. The proposed extensions to the Metropolitan Green Belt are not necessary. There are several sites in the borough which do not meet the objectives of Green Belt policy within the NPPF and could be released following such a review.	No change	The Local Plan has not released any Green Belt sites to meet its objectively assessed housing need, adopting an urban only approach consistent with the NPPF and the London Plan.
3962/01/002/DM24 (Table 9.2)/O	Mrs Y Shah	Object	DM24 (Table 9.2)	I do agree with you therefore ask you to act accordingly and reject the proposals made for green spaces.	No change	Unable to respond to this representation as it is not clear which proposals for which green spaces are objected to .
2787/01/012/DM24 (Table 9.2)/S	Cllr John Stephenson  <i>Reigate and Banstead Borough Co</i>	Support	DM24 (Table 9.2)  Coulsdon Iron Railway Embankment	I support the inclusion of the Coulsdon Iron Railway Embankment within the Green Belt.	Welcome support	
0092/02/006/DM24 (Table 9.2)/S	  <i>Riddlesdown Residents Associatio</i>	Support	DM24 (Table 9.2)  Green adjoining St Edmund's Church	RRA support the new Metropolitan Green Belt to the Green adjoining St Edmund's Church.	Welcome support	
0092/02/004/DM24 (Table 9.2)/S	  <i>Riddlesdown Residents Associatio</i>	Support	DM24 (Table 9.2)  Land off Lower Barn Road	RRA support the new Metropolitan Green Belt to the land off Lower Barn Road.	Welcome support	
0092/02/005/DM24 (Table 9.2)/S	  <i>Riddlesdown Residents Associatio</i>	Support	DM24 (Table 9.2)  Land on Riddlesdown Road	RRA support the new Metropolitan Green Belt to the land on Riddlesdown Road.	Welcome support	

4014/01/005/DM24 (Table 9.2)/O	Mr R Swatton	Object		DM24 (Table 9.2)	Policy SP7.2 & DM 24 Table 9.2 I object to the change of designation for the "Land south of Croham Hurst" Why redefine this" Metropolitan Green Belt "as "Metropolitan Open Land" unless there are alternative future plans for this land? Logistically this land totally unsuitable for residential development and impractical, the installation of the required services would be a considerable burden to existing utilities. The infrastructure is also totally unsuitable for such consideration Change of use to this land could only be undertaken at considerable cost. Also as previously mentioned any change of use for this land, for residential purposes, in view of the current political structure of Croydon South implementation of such policy may be deemed as a route to gerrymandering" Any redevelopment would also have a significant impact on the local residents, many of whom have resided in this area for many years.	No change	The designation protects the land from development so comments about its development are incorrect.
0092/02/007/DM24 (Table 9.2)/S	<i>Riddlesdown Residents Associatio</i>	Support		DM24 (Table 9.2)  Sanderstead Recreation Ground	RRA support the new Metropolitan Green Belt at Sanderstead Recreation Ground.	Welcome support	
0790/01/037/DM24.1/S	Mr Mathew Frith <i>London Wildlife Trust</i>	Support	Soundness - Effective	DM24.1	We support this.	Welcome support	
1350/05/008/DM24.1/S	Helen Buckland <i>Environment Forum</i>	Support		DM24.1	The Forum support DM24.1	Welcome support	
2619/01/001/DM24.1/S	Ross Holdgate <i>Natural England</i>	Support		DM24.1	Natural England is generally supportive of Policies DM24 and DM25 which are designed to protect and enhance green spaces and biodiversity.	Welcome support	
2657/01/013/DM24.1/C	Rebecca Pullinger <i>CPRE London</i>	Comment	Soundness - Effective	DM24.1	The council should also state clearly where and how Green Belt areas will be protected and enhanced in line with National and Regional policy.	No change	The policy sets out that the Green Belt will be protected as per national planning policy.
2787/01/011/DM24.1/O	Cllr John Stephenson <i>Reigate and Banstead Borough Co</i>	Object		DM24.1	I support the Council's policies on Green Belt land etc, the need to prevent the unrestricted sprawl of London and to safeguard the countryside from encroachment.	Welcome support	
2981/01/001/DM24.1/S	Mr & Mrs Jean & Peter Vile	Support	Soundness - Consistent with National	DM24.1	We both agree that we do not want to lose any of our green belt. And the parking in the area is truly so bad especially in Coulsdon.	Welcome support	

3324/01/002/DM24.1/S	Mr Dale Cornish	Support	Soundness - Justified	DM24.1	<p>Further to the concerning developments planned for Upper Shirley, I enclose a letter against the proposals.</p> <p>Supplementary to this, I believe that, although I may never be able to live there, the green areas there are very important for Croydon as a whole. Living in South End I often relax in this area at the weekends, or with my family. To destroy this rare serenity with any kind of additional housing/accommodation (whoever the envisaged residents, be these travellers or lifelong Croydon residents) seems to totally undermine the importance of the green belt and how important these spaces are.</p>	Welcome support	
3526/01/001/DM24.1/S	Linda Stevens	Support	Soundness - Justified	DM24.1	<p>I wish to voice my concerns regarding the following:</p> <p>I totally object to any reduction of green space in the borough of Croydon in favour of development.</p>	Welcome support	
3717/01/001/DM24.1/S	Jill Complin	Support	Soundness - Effective	DM24.1	<p>I would like to add my name to say I am worried about the effect of all our green spaces being lost. To build on the places our children can run free is very important to me. I also think building on gardens is very shortsighted. We really need space for all our wellbeing.</p>	Welcome support	
3729/01/001/DM24.1/O	Mr J Luthra	Object	Soundness - Effective	DM24.1	<p>I own several properties in Croydon and belong to a large family who all strongly object to the local plan on the basis it encourages:</p> <p>-Destruction of local green spaces</p>	No change	The draft Local Plan protects important Local Green Spaces across the borough.
3732/01/002/DM24.1/S	Mr Roy Irons	Support	Soundness - Effective	DM24.1	<p>I am very much opposed to any development on 'greenfield' sites. Croydon is already a part of 'The Great Wen', which I do not believe should be allowed to expand into the green belt, or to swallow what is still green within it, thus creating a huge slum.</p>	Welcome support	

3862/01/001/DM24.1/S	Mr M Blount	Support	Soundness - Effective	DM24.1	I have considered details of the proposed Croydon Local Plan and have the following objections on the basis that they will: detract from the local areas, dramatically change the local areas, dramatically change the character of local areas, have a significant adverse effect on an already overloaded infrastructure, including roads, public transport, public open space, environment and emergency, health and support services.  1. I object to any proposed building on designated Green Belt and Metropolitan Open Land (MOL).	Welcome support	The only buildings allowed on Metropolitan Green Belt and Metropolitan Open Land are those that are in accord with national planning policy on the development of Green Belt land.
0790/01/038/DM24.2/S	Mr Mathew Frith <i>London Wildlife Trust</i>	Support	Soundness - Effective	DM24.2	We support this.	Welcome support	
1350/05/009/DM24.2/S	Helen Buckland <i>Environment Forum</i>	Support		DM24.2	The Forum supports Policy DM24.2	Welcome support	
2619/01/004/DM24.2/S	Ross Holdgate <i>Natural England</i>	Support		DM24.2	Natural England is generally supportive of Policies DM24 and DM25 which are designed to protect and enhance green spaces and biodiversity.	Welcome support	

2766/01/013/DM24.2/O B Wilson  
W.R. Newland and Sons Ltd

Object

DM24.2

The proposed 20% allowance for the increase in size of dwellings above their original form as at 1948, or after if built subsequently, is unduly prohibitive and also detrimental to the local construction industry. The policy is outdated in terms of its approach and does not take account of generous permitted development rights in the GPDO for the enlargement of houses. Increases in the size of a dwelling above 20% need not be disproportionate. The 100m<sup>2</sup> limit also has no bearing on whether an extension is disproportionate. A 100m<sup>2</sup> or 20% increase on one building maybe disproportionate but not on another. Other authorities consider increases of 30-50% in floorspace or volume to not be disproportionate as a guideline which is not fixed in planning policy. The preferred option for this part of the policy serves no useful purpose and is inconsistent with national policy in paragraph 79 of the NPPF. The policy fails to provide sufficient flexibility for property owners to enlarge their buildings to meet their needs and therefore conflicts with the objectives of sustainable development. Consideration should be given to increasing the floorspace or volume allowances in the policy or alternatively providing more flexible guideline figures to be included in supporting text. Permitted development rights should not be removed by condition except in truly exceptional circumstances.

No change

The figures in DM24.2 have been selected to reflect what would be considered to be a disproportionate addition for buildings in the Green Belt and therefore inappropriate development.

2942/01/006/DM24.2/O	Dr Anwar Ansair <i>AA Homes and Housing</i>	Object		DM24.2	This is a very strongly worded policy that could limit quite small extensions to small buildings by using the formula '20% of the original floorspace or 100sqm whichever is the smaller'. It is noted that the Council will take account of use of roof spaces or basements as living spaces and also look at the size of the existing curtilage. The test for any structure in the Metropolitan Green Belt should be (i) whether it impacts on the openness of the green belt, that is it is a qualitative assessment and (ii) whether it is 'disproportionate, over and above the size of the original building' (NPPF paragraph 89). This is a relative, not absolute consideration. An arbitrary maximum floorspace increase percentage does not address either of these considerations. The reasons for not stating such a figure were well explained in the text (paragraph 6.17) supporting policy R03 of the Croydon Replacement Unitary Development Plan: 'there are other factors to be taken into account. Therefore setting a ceiling on percentage increases is not appropriate.' The limit on increase in volume is ill-thought out and cannot be justified. It would be unreasonable harsh on small buildings that they cannot increase in size by more than 20% even if this will not harm the openness of the Green Belt. The main question to be asked of the development should be what is the impact on the green belt, not an arbitrary number.	The 20% of the original floorspace or 100sqm should be removed as it will impact on extensions to small buildings. The policy should address the considerations of paragraph 89 in the NPPF rather than using fixed numbers to assess the impact on the Green Belt.	No change	The figures in DM42.2 have been selected to reflect what would be considered a disproportionate addition for buildings in the Green Belt and therefore inappropriate development.
0203/01/037/DM25/C	Mr Charles King <i>East Coulsdon Residents' Associat</i>	Comment		DM25	The areas of Farthing Downs, Happy Valley and Coulsdon Common form a continuous area of Green Belt from Coulsdon to Caterham and Kenley owned by Croydon and The Corporation of London, are Sites of Specific Scientific Interest (SSSI) and should be treated and managed as such. No building work other than that associated the needs of these areas should be allowed and they should remain open spaces in perpetuity for the enjoyment of all. The London loop section 5 from Coulsdon South to Hamsey Green runs through all these sites and is an important country walk for Londoners.	These areas should continue to be protected and no development should be permitted.	No change	These areas continue to be protected as Sites of Specific Scientific Interest.
0790/01/124/DM25/S	Mr Mathew Frith <i>London Wildlife Trust</i>	Support	Soundness - Effective	DM25	We support this		Welcome support	
1350/05/010/DM25/S	Helen Buckland <i>Environment Forum</i>	Support		DM25	The Froum supports Policy DM25		Welcome support	

2041/02/001/DM25/O	<i>McKay Securities</i>	Object	DM25	Policy DM25c requires all major developments to provide productive landscapes which, ideally, are managed by a school, community group or residents association. This is not an outcome that will receive commercial support. It will require tenants and landlords to give access to sites to allow people who would have no other connection with the site, who do not have any legal relationship with the tenant, landlord or freeholder. To do so is unreasonable and unworkable. In addition, it is not clear that all or most developments will be suitable for a productive landscape and therefore this policy should either be deleted or its emphasis should be reduced so that it seeks only the encouragement of productive landscapes.	The policy should be deleted or its emphasis should be reduced so that it seeks only the encouragement of productive landscapes.	No change	Paragraph 9.29 states that where they can be managed by a school, community group or residents' association allotments, community gardens and growing spaces should be explored. Where this is not possible other forms of productive landscapes should be used.
2177/01/005/DM25/O	Miss Vanessa Garner <i>Network Rail Infrastructure Limited</i>	Object	DM25	Part d) of Policy DM25 requires development to have no adverse impact on land with biodiversity or geo-diversity value as designated on the Policies Map. It does not take account of different levels of impact and potential mitigation. It should seek net enhancement. Para 109 of the NPPF states that planning system should contribute to and enhance the natural and local environment by 'minimising impacts on biodiversity and providing net gains in biodiversity where possible'		No change	DM25 a), b) and c) seek to increase and improve biodiversity through new developments.
2619/01/005/DM25/C	Ross Holdgate <i>Natural England</i>	Comment	DM25	With regard to DM25d we would recommend the text is amended to recognise the hierarchy of biodiversity designations which ranges from those of national (and international) to local level. This is in accordance with Paragraph 113 of the NPPF which states: Distinctions should be made between the hierarchy of international, national and locally designated sites, so that protection is commensurate with their status and gives appropriate weight to their importance and the contribution they make to wider ecological networks.		No change	All sites have been given the same level of protection so that developments will not be permitted that have an adverse impact on land with biodiversity or geo-diversity value.

2762/01/002/DM25/O	Mr James Robertson	Object		DM25	Biodiversity is often an unknown issue on a site and developers have no incentive to investigate or declare it if they know about it. Even the Council itself has been unaware of the English Nature requirements for example in the case of protection of endangered stag beetles in the Purley area. Flora as well as fauna are at threat. Tree removal goes ahead by spurious claims of danger, undermining of buildings and assertion of lack of merit in suburban trees that fail to meet what would be national collection standards. Again, tree removal becomes incremental with a sequence of applications as development work proceeds, masking the overall effect of development. Instead there should be an explicit biodiversity assessment required of developers appropriate to the scale of development, taking account of known biodiversity, both flora and fauna. * Applications should be required to provide an overall assessment of biodiversity impact of development with the presumption that piecemeal 'creeping' additional applications will be refused. * The Council should consult English Nature and others to provide a checklist for developers of local flora and fauna for consideration and impact/amelioration assessment. * 'Planning approval sought' notices posted locally should highlight biodiversity issues specific to the application	Change	Paragraph 9.36 will be amended to set out when an ecological assessment is required.
0790/01/061/DM25 (Table 9.3)/S	Mr Mathew Frith <i>London Wildlife Trust</i>	Support	Soundness - Justified	DM25 (Table 9.3)	Whilst in principle support this, there is no rationale as to why 9 new sites have been selected. The Review of SINCs identified 10 new sites; 9 have been proposed but without justification.	No change	The report identified 11 potential sites. One of the sites identified in the report is already a Site of Nature Conservation Importance and no access could be gained to the other site so it is not possible to designate it.
0790/01/125/DM25 (Table 9.3)/S	Mr Mathew Frith <i>London Wildlife Trust</i>	Support	Soundness - Justified	DM25 (Table 9.3) Copse Hill Spinney	We support this	Welcome support

0320/01/021/DM26/O	Mr Tarsem Flora  <i>Flora Associates</i>	Object		DM26	Policy DM 2.6 Trees (P. 111) Option 1-I do not like the wording NOT permitting Development in b, c and d. An applicant /agent (professional) may be able to justify good reasons for the work required and council should have an OPEN MIND to listen to professional views !!	No change	Trees are important to Croydon and therefore the policy is appropriately worded.
0790/01/135/DM26/S	Mr Mathew Frith  <i>London Wildlife Trust</i>	Support	Soundness - Effective	DM26	We support this.	Welcome support	

1350/05/030/DM26/O	Helen Buckland <i>Environment Forum</i>	Object	DM26	<p>Submission from the Croydon TUC Croydon Assembly Environment Forum</p> <p>Detailed Policy DM26. Trees Proposed amendment</p> <p>Add new para Detailed policy para 9.41(a):</p> <p>'Given the importance of railways as natural wildlife habitat corridors, the Council will encourage Network Rail not to cut down trees along railway lines without consulting the Council and residents whose properties back on to railway lines and where trees have to be cut down for safety reasons that alternative planting will enhance the natural wildlife corridor importance of railway lines.'</p> <p>Supporting statement</p> <p>The Forum welcomes Detailed Policy DM26 with its recognition of the importance of trees, but believes it needs strengthening to improve the safeguarding of clusters of trees, and to control the continual cutting down of trees along railway lines by Network Rail.</p>	No change	Works by Network Rail to trees along the railway line do not require planning permission and therefore the Local Plan cannot control them.
2762/01/004/DM26/O	Mr James Robertson	Object	DM26	<p>Tree removal goes ahead by spurious claims of danger, undermining of buildings and assertion of lack of merit in suburban trees that fail to meet what would be national collection standards. Again, tree removal becomes incremental with a sequence of applications as development work proceeds, masking the overall effect of development.</p>	No change	No changes can be made to the policy as a result of this comment as it is not clear which part of the policy is being commented on.

*Appendix 1*

<i>Ref No</i>	<i>Representor Company or Organisation</i>	<i>Participation at EIP</i>	<i>Object or Support</i>	<i>Soundness</i>	<i>Policy, Site or Paragraph</i>	<i>Summary of Representation</i>	<i>Summary of Proposed Changes</i>	<i>Council's Response</i>	<i>Council's Proposed Action</i>
2787/01/010/Sites for Gypsy and Traveller pitches/O	Cllr John Stephenson  <i>Reigate and Banstead Borough Co</i>		Object		Sites for Gypsy and Traveller pitches	Whilst it may not be viable to demolish existing buildings for Gypsy and Traveller pitches, it seems unnecessarily restrictive to have this as a policy.	The Council should consider sites which have existing buildings.	No change	Unviable sites would not be deliverable and therefore would not be a sound allocation. Notwithstanding this the Council has reviewed again the possible sites for Gypsies and Traveller pitches and considered in more detail the impact of existing buildings as the three sites proposed in the Preferred and Alternative Options consultation would not be deliverable for other reasons.

1302/01/017/Non-specific/S	Mr Graham Saunders  <i>Historic England</i>		Support			We welcome the inclusion of the Borough Character Appraisal as part of the Detailed Policies document. We would suggest this inclusion is carried forward to the final document.	Include Borough Character Appraisal in the final veriosn of the CLP document	Welcome support	
2787/01/001/Coulsdon/C	Cllr John Stephenson  <i>Reigate and Banstead Borough Co</i>		Comment		Coulsdon	It took a little while to realise that the Summary of Coulsdon and Associated Maps 24-29 related only to the historical / current situation. It is noted that Coulsdon has recently benefited from a town centre bypass, but one wonders whether it was cost effective. It is also noted that there is congestion at peak times at the junction of Woodcote Grove Road, Lion Green Road and Chipstead Valley Road. That is absolutely correct. It is also true that there is severe congestion near the schools on Portnalls Road and Chipstead Valey Road at arrival and leaving times.		No change	Comments are noted.

## Standard Rep 1

Ref no. suffix	Object or support	Soundness	Document	Chapter	Policy, site or paragraph	Summary of representation	Summary of proposed changes	Council's response	Council's proposed action
/DM32.2/O	Object		CLP2 – Detailed Policies and Proposals (Preferred and Alternative Options)	11 The Places of Croydon	DM32.2 755	Object to the use of Pear Tree Farm and Pear Tree Farm Cottage on Featherbed Lane as a location for a gypsy/traveller site (reference number 755)		Change	The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
/DM31 (Table 11.2)/O	Object		CLP2 – Detailed Policies and Proposals (Preferred and Alternative Options)	11 The Places of Croydon	DM31 (Table 11.2) Forestdale	Object to focussed intensification associated with gradual change of area's local character under Policy DM31.4 of Forestdale		Change	Croydon's suburbs will have sustainably grown to accommodate homes to contribute to the borough's housing need. The challenge for the Croydon Local Plan is to enable growth and regeneration in the local context while recognising the local character and distinctiveness. To achieve this this designation will be amended so that it does not include homes on smaller plots of land focussing instead on Selsdon Park Road, Gravel Hill, parts of Featherbed Lane and key corner plots. The objective of policy DM31.4 is to maximise use of the existing growth capacity, to focus growth in sustainable locations and to support a smart spatial vision for the borough. Spatially, additional growth would strengthen the potential for further development of public transport and other uses which require a certain level of localised demand. The proposed areas meet criteria referring to infrastructure availability and accessibility; deliverability of growth based on local character. The policy opens up opportunities for more intensive development in selected areas and enables gradual change of character over time. It would also positively encourage spatial quality and

									distinctiveness of Croydon local and neighbourhood centres. The complete review is available on the Council's website on the evidence base pages which support the Croydon Local Plan.
/DM2/O	Object	Soundness – Effective	CLP2 – Detailed Policies and Proposals (Preferred and Alternative Options)	4 Homes	DM2	Object to Policy DM2 on development on garden land, which is too weak		Change	The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. The wording of the policy has been amended to further detail the criteria for this type of development. Garden development will only be permitted where it is in keeping with and subservient to the original dwelling and the surrounding character; a minimum length of 10m and no less than ½ or 200sqm (whichever is the smaller) of the existing garden area is retained for the host property, after the subdivision of the garden; and where there would not be a detrimental impact on existing and future occupants in terms of overlooking and outlook. The policy does not explicitly refer to biodiversity, flooding and other issues such as amenity. The Plan should be read as a whole and policies with respect to these issues will be applied as relevant to such applications.
/DM28 (Option 1)/O	Object	Soundness – Effective	CLP2 – Detailed Policies and Proposals (Preferred and Alternative Options)	10 Transport and Communication	DM28 (Option 1)	Object to Policy DM28, which should allow higher levels of parking in developments of low public transport accessibility	This policy should allow higher levels of parking in developments of low public transport accessibility	Change	The policy will be amended to require increased provision of car club/pool car spaces where reduced levels of car parking are proposed compared to the maximum level set out in the London Plan. This will ensure that residents of developments with

									<p>reduced amounts of parking can live in them without needing their own car and adding to pressure of on-street parking. The requirement for cycle parking will also be amended to encompass motorcycles and mobility scooters.</p> <p>Coupled with the approach to sustainable growth of the suburbs (which will make them more sustainable places in which to live) set out in the Plan there is no need to permit higher parking standards in areas of lower PTAL beyond that already referenced in the supporting text.</p>

## Standard Rep 2

Ref no. suffix	Object or support	Soundness	Document	Chapter	Policy, site or paragraph	Summary of representation	Summary of proposed changes	Council's response	Council's proposed action
/DM43.4/O	Object		CLP2 – Detailed Policies and Proposals (Preferred and Alternative Options)	11 The Places of Croydon	DM43.4 128	Object to the use of land at Poppy Lane (reference number 128) for housing	If the Council will not keep them as Metropolitan Open Land, this site should at least be designated as Local Green Space	No change	The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.
/DM43.4/O	Object		CLP2 – Detailed Policies and Proposals (Preferred and Alternative Options)	11 The Places of Croydon	DM43.4 504	Object to the use of Stroud Green Pumping Station, 140 Primrose Lane (reference number 504) for housing	If the Council will not keep them as Metropolitan Open Land, this site should at least be designated as Local Green Space	No change	The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.

Ref no. suffix	Object or support	Soundness	Document	Chapter	Policy, site or paragraph	Summary of representation	Summary of proposed changes	Council's response	Council's proposed action
/DM43.4/O	Object		CLP2 – Detailed Policies and Proposals (Preferred and Alternative Options)	11 The Places of Croydon	DM43.4 541	Object to the use of land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House (reference number 541) for housing	If the Council will not keep them as Metropolitan Open Land, this site should at least be designated as Local Green Space	Change	As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.
/DM43.4/O	Object		CLP2 – Detailed Policies and Proposals (Preferred and Alternative Options)	11 The Places of Croydon	DM43.4 542	Object to the use of land to the west of Shirley Oaks Road (reference number 542) for housing	If the Council will not keep them as Metropolitan Open Land, this site should at least be designated as Local Green Space	Change	As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.
/DM43.4/O	Object		CLP2 – Detailed Policies and Proposals (Preferred and Alternative Options)	11 The Places of Croydon	DM43.4 548	Object to the use of land at land to the rear of 5-13 Honeysuckle Gardens (reference number 548) for housing	If the Council will not keep them as Metropolitan Open Land, this site should at least be designated as Local Green Space	Change	As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.
/DM43.4/O	Object		CLP2 – Detailed Policies and Proposals (Preferred and Alternative Options)	11 The Places of Croydon	DM43.4 502	Object to the use of the Coombe Farm off Oaks Road (reference number 502) as a Gypsy and Traveller site		Change	The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
/DM44.2/O	Object		CLP2 – Detailed Policies and Proposals (Preferred and Alternative Options)	11 The Places of Croydon	DM44.2 661	Object to the use of the Coombe Lodge Nurseries off Conduit Lane (reference number 661) as a Gypsy and Traveller site		Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from a wood chipper located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
/DM31 (Table 11.2)/O	Object		CLP2 – Detailed Policies and	11 The Places of Croydon	DM31 (Table 11.2) Area of the	Object to the focussed intensification associated with gradual change of area's local character under Policy DM31.4 of the Shirley Road Shopping Parade		Change	Croydon's suburbs will have sustainably grown to accommodate homes to

The policy does not explicitly refer to biodiversity, flooding and other issues such as amenity. The Plan should be read as a whole and policies with respect to these issues will be applied as relevant to such applications.
/DM28 (Option 1)/O	Object	Soundness – Effective	CLP2 – Detailed Policies and Proposals (Preferred and Alternative Options)	10 Transport and Communication	DM28 (Option 1)	Object to Policy DM28, which should allow higher levels of parking in developments of low public transport accessibility	This policy should allow higher levels of parking in developments of low public transport accessibility	Change	The policy will be amended to require increased provision of car club/pool car spaces where reduced levels of car parking are proposed compared to the maximum level set out in the London Plan. This will ensure that residents of developments with reduced amounts of parking can live in them without needing their own car and adding to pressure of on-street parking. The requirement for cycle parking will also be amended to encompass motorcycles and mobility scooters. Coupled with the approach to sustainable growth of the suburbs (which will make them more sustainable places in which to live) set out in the Plan there is no need to permit higher parking standards in areas of lower PTAL

		with national policy	Policies and Proposals (Preferred and Alternative Options)			Belt. Policy E of Planning Policy for Travellers Sites published by the government in August [2015] says very clearly: "Traveller sites (temporary or permanent) in the Green Belt are inappropriate development". The Council's approach is clearly in breach of this policy.			indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
/DM44.2/O	Object	Soundness – Consistent with national policy	CLP2 – Detailed Policies and Proposals (Preferred and Alternative Options)	11 The Places of Croydon	DM44.2 661	Object to proposed Gypsy and Traveller site at Coombe Lodge Nurseries off Conduit Lane (reference number 661). This site is in the Green Belt and borders a Site of Nature Conservation Importance. Policy E of Planning Policy for Travellers Sites published by the government in August [2015] says very clearly: "Traveller sites (temporary or permanent) in the Green Belt are inappropriate development". The Council's approach is clearly in breach of this policy.		Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from a wood chipper located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
/DM43.4/O	Object	Soundness – Consistent with national policy	CLP2 – Detailed Policies and Proposals (Preferred and Alternative Options)	11 The Places of Croydon	DM43.4 504	Object to Stroud Green Pumping Station (reference number 504) being used as a site for Gypsy and Traveller pitches. This site is not only Metropolitan Open Land but has a listed building which Thames Water use as offices. It is also prone to flooding and in Planning Policy for Traveller's Sites published in August 2015 it clearly says in Policy B reference 13g: "do not locate sites in areas at high risk of flooding, including functional flood plains, given the particular vulnerability of caravans".		No change	This site was not proposed as a site for Gypsy and Traveller pitches.
/DM31 (Table 11.2)/O	Object	Soundness - Justified	CLP2 – Detailed Policies and Proposals (Preferred and Alternative Options)	11 The Places of Croydon	DM31 (Table 11.2) Area of the Shirley Road Shopping Parade	<p>The local draft Plan identifies two other areas of Shirley as locations where the Council wants to see "focussed intensification associated with gradual change of area's local character"</p> <p>The two areas around Shirley Road Shopping Parade and the Shirley Library which have been targeted are roads of semi-detached houses where families have lived for years, it is a settled community and it is completely unacceptable that family houses should be replaced by medium-rise blocks of flats, the character of the area would change completely and would mean neighbours in conflict with each other.</p>		Change	Croydon's suburbs will have sustainably grown to accommodate homes to contribute to the borough's housing need. The challenge for the Croydon Local Plan is to enable growth and regeneration in the local context while recognising the local character and distinctiveness. To achieve this this designation will be amended so that it applies to the buildings along Wickham Road and Shirley Road (combining the area with that of Shirley Local Centre), key corner plots and excludes the majority of residential streets away from the main roads. The objective of policy DM31.4 is to maximise use of the existing growth capacity, to focus growth in sustainable locations and to support a smart spatial vision for the borough.

/DM2/O	Object	Soundness – Effective	CLP2 – Detailed Policies and Proposals (Preferred and Alternative Options)	4 Homes	DM2	Any weakening of policy on garden land would greatly affect Shirley; it is an area primarily of two storey family houses, many with large gardens. Although in some circumstances and where it would not affect surrounding properties it might be appropriate. But to unleash developers on back gardens would be a catastrophe, gardens are the lungs of the city and Shirley has suffered more than most.		Change	The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. The wording of the policy has been amended to further detail the criteria for this type of development. Garden development will only be permitted where it is in keeping with and subservient to the original dwelling and the surrounding character; a minimum length of 10m and no less than ½ or 200sqm (whichever is the smaller) of the existing garden area is retained for the host property, after the subdivision of the garden; and where there would not be a detrimental impact on existing and future occupants in terms of overlooking and outlook. The policy does not explicitly refer to biodiversity, flooding and other

						<p>each pitch. With planning for 20 pitches this would mean 60 families and 60 mobile homes, not to mention additional caravans in tow, trucks, vans, trailers and cars.</p> <p>5. National guidelines state that the site should not overwhelm the next nearest settlement. The residents of Oaks Farm, Oaks Road and Oaks Lane (all in isolated positions) would certainly be overwhelmed. How will social cohesion be achieved with the local residents? Residents are also concerned about conflict between Romany travellers and Irish travellers.</p> <p>6. There is a long history of planning application refusals and avoidance of planning permission at Coombe Farm. The reasons for this should be re-visited.</p> <p>7. Oaks Farm, which is a wedding venue, is the adjacent property to Coombe Farm. Whenever travellers are in the vicinity there is an adverse effect on the amount of business generated, not only for them but also for the Premier Inn in Coombe Road.</p> <p>8. Shirley Park Golf Club is also affected by these proposals and we understand they have written separately on many different aspects of flaws in the Planning proposals.</p>			
/DM44.2/O	Object	Soundness - Justified	CLP2 – Detailed Policies and Proposals (Preferred and Alternative Options)	11 The Places of Croydon	DM44.2 661	<p>I am writing to object to the use of the following locations as travellers/gypsy sites:</p> <p><u>Coombe Lodge Nurseries off Conduit Lane (Ref No 661)</u></p> <p>1. This site is also in the green belt and according to Government Policy is deemed inappropriate.</p> <p>2. The Council has gone to great expense to protect the site from mobile travellers and this seems to have been a great waste of taxpayers' money if they now allow a permanent site.</p> <p>3. Several businesses which make a big contribution to the local economy and also provide much needed amenity to the public will be detrimentally affected by the site.</p> <p>4. Coombe Gardens, which are beautifully landscaped and contain many memorials to war dead and families' loved ones, will be completely overwhelmed</p>		Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from a wood chipper located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

/DM31 (Table 11.2)/O	Object	Soundness - Justified	CLP2 – Detailed Policies and Proposals (Preferred and Alternative Options)	11 The Places of Croydon	DM31 (Table 11.2) Forestdale	Identifies Forestdale as a location where the Council wants to see “focussed intensification associated with gradual change of area’s local character” under Policy DM31.4 The idea that the largely terraced housing and small blocks of flats in Forestdale should be replaced by medium-rise blocks is unacceptable - it would completely change the character of the area.		Change	Croydon's suburbs will have sustainably grown to accommodate homes to contribute to the borough's housing need. The challenge for the Croydon Local Plan is to enable growth and regeneration in the local context while recognising the local character and distinctiveness. To achieve this this designation will be amended so that it does not include homes on smaller plots of land focussing instead on Selsdon Park Road, Gravel Hill, parts of Featherbed Lane and key corner plots. The objective of policy DM31.4 is to maximise use of the existing growth capacity, to focus growth in sustainable locations and to support a smart spatial vision for the borough. Spatially, additional growth would strengthen the potential for further development of public transport and other uses which

Ref no. suffix	Object or support	Soundness	Document	Chapter	Policy, site or paragraph	Summary of representation	Summary of proposed changes	Council's response	Council's proposed action
									require a certain level of localised demand. The proposed areas meet criteria referring to infrastructure availability and accessibility; deliverability of growth based on local character. The policy opens up opportunities for more intensive development in selected areas and enables gradual change of character over time. It would also positively encourage spatial quality and distinctiveness of Croydon local and neighbourhood centres. The complete review is available on the Council's website on the evidence base pages which support the Croydon Local Plan.
/DM2/O	Object	Soundness – Effective	CLP2 – Detailed Policies and Proposals (Preferred and Alternative Options)	4 Homes	DM2	The Council's proposed policy on development on garden land - Policy DM2- is much too weak and if allowed, would fundamentally affect Forestdale's green environment.		Change	The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. The wording of the policy has been amended to further detail the criteria for this type of development. Garden development will only be permitted where it is in keeping with and subservient to the original dwelling and the surrounding character; a minimum length of 10m and no less than ½ or 200sqm (whichever is the smaller) of the existing garden area is retained for the host property, after the subdivision of the garden; and where there would not be a detrimental impact on existing and future occupants in terms of overlooking and outlook. The policy does not explicitly refer to biodiversity, flooding and other issues such as amenity. The Plan

									should be read as a whole and policies with respect to these issues will be applied as relevant to such applications.
/DM28 (Option 1)/O	Object	Soundness – Effective	CLP2 – Detailed Policies and Proposals (Preferred and Alternative Options)	10 Transport and Communication	DM28 (Option 1)	Policy DM28 of the draft Plan will allow developers to provide fewer parking spaces in areas of low public transport accessibility than the London Plan allows for. Parking provision in Forestdale is already stretched. The Council assumes that this will lead to fewer people owning their own car. In fact, it will lead to more and more pressure on on-street parking.		Change	The policy will be amended to require increased provision of car club/pool car spaces where reduced levels of car parking are proposed compared to the maximum level set out in the London Plan. This will ensure that residents of developments with reduced amounts of parking can live in them without needing their own car and adding to pressure of on-street parking. The requirement for cycle parking will also be amended to encompass motorcycles and mobility scooters. Coupled with the approach to sustainable growth of the suburbs (which will make them more sustainable places in which to live) set out in the Plan there is no need to permit higher parking standards in areas of lower PTAL beyond that already referenced in the supporting text.
/DM32.2/O	Object	Soundness – Consistent with national policy	CLP2 – Detailed Policies and Proposals (Preferred and Alternative Options)	11 The Places of Croydon	DM32.2 755	Identifies Pear Tree Farm and Pear Tree Farm Cottage on Featherbed Lane as a location for a gypsy/traveller site with 15-20 pitches The Council acknowledges that this site is in the Green Belt. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly: “Traveller sites (temporary or permanent) in the Green Belt are inappropriate development”.		Change	The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

Ref no. suffix	Object or support	Soundness	Document	Chapter	Policy, site or paragraph	Summary of representation	Summary of proposed changes	Council's response	Council's proposed action
									biodiversity, flooding and other issues such as amenity. The Plan should be read as a whole and policies with respect to these issues will be applied as relevant to such applications.
/DM10.4/O	Object	Soundness – Effective	CLP2 – Detailed Policies and Proposals (Preferred and Alternative Options)	6 Urban Design and Local Character	DM10.4	I object to the relaxation of allocation of communal open space for residential dwellings of multiple occupation or for flats. The current policy specifies that planning permission will not be granted for residential development unless recreational open space arising from the needs generated by the proposal is provided at a standard of 2.43ha per 1000 people. The new policy at 10.4 only specifies private amenity areas and play space for children. It does not specify communal open space for the number of occupants of a residential development.		Change	An additional clause will be added to Policy DM10 to emphasise that communal open space is required in new developments. The proposed standards are higher than those in the London Plan and the Mayor's Housing SPG and reflect the fact that the existing policy has not delivered open space at this level in higher density areas of the borough. In developments with houses in most cases other policies of the Plan will mean that gardens will need to be provided with levels of open space higher than those required by this policy.
/DM43.4/O	Object		CLP2 – Detailed Policies and Proposals (Preferred and Alternative Options)	11 The Places of Croydon	DM43.4 128	I object to the de-designation of Metropolitan Open Land in the vicinity of Shirley Oaks Road and Shirley Oaks Village. The land should be at least designated as Local Green Space, for its protection from development. This open space provides a green corridor between Shirley Oaks and the surrounding areas, and should be retained in its present form. Not only would these developments entail the loss of the green corridor between Shirley Oaks and the surrounding areas, the local road infrastructure would not be able to cope with the additional traffic. Also, the local schools are over-subscribed as well as the already-stretched social and healthcare facilities would be overloaded.		No change	The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.
/DM43.4/O	Object		CLP2 – Detailed Policies and Proposals (Preferred and Alternative Options)	11 The Places of Croydon	DM43.4 504	I object to the de-designation of Metropolitan Open Land in the vicinity of Shirley Oaks Road and Shirley Oaks Village. The land should be at least designated as Local Green Space, for its protection from development. This open space provides a green corridor between Shirley Oaks and the surrounding areas, and should be retained in its present form. Not only would these developments entail the loss of the green corridor between Shirley Oaks and the surrounding areas, the local road infrastructure would not be able to cope with the additional traffic. Also, the local schools are over-subscribed as well as the already-stretched social and healthcare facilities		No change	The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce

Ref no. suffix	Object or support	Soundness	Document	Chapter	Policy, site or paragraph	Summary of representation	Summary of proposed changes	Council's response	Council's proposed action
						would be overloaded.			flood risk in the area overall.
/DM43.4/O	Object		CLP2 – Detailed Policies and Proposals (Preferred and Alternative Options)	11 The Places of Croydon	DM43.4 541	I object to the de-designation of Metropolitan Open Land in the vicinity of Shirley Oaks Road and Shirley Oaks Village. The land should be at least designated as Local Green Space, for its protection from development. This open space provides a green corridor between Shirley Oaks and the surrounding areas, and should be retained in its present form. Not only would these developments entail the loss of the green corridor between Shirley Oaks and the surrounding areas, the local road infrastructure would not be able to cope with the additional traffic. Also, the local schools are over-subscribed as well as the already-stretched social and healthcare facilities would be overloaded.		Change	As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.
/DM43.4/O	Object		CLP2 – Detailed Policies and Proposals (Preferred and Alternative Options)	11 The Places of Croydon	DM43.4 542	I object to the de-designation of Metropolitan Open Land in the vicinity of Shirley Oaks Road and Shirley Oaks Village. The land should be at least designated as Local Green Space, for its protection from development. This open space provides a green corridor between Shirley Oaks and the surrounding areas, and should be retained in its present form. Not only would these developments entail the loss of the green corridor between Shirley Oaks and the surrounding areas, the local road infrastructure would not be able to cope with the additional traffic. Also, the local schools are over-subscribed as well as the already-stretched social and healthcare facilities would be overloaded.		Change	As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.
/DM43.4/O	Object		CLP2 – Detailed Policies and Proposals (Preferred and Alternative Options)	11 The Places of Croydon	DM43.4 548	I object to the de-designation of Metropolitan Open Land in the vicinity of Shirley Oaks Road and Shirley Oaks Village. The land should be at least designated as Local Green Space, for its protection from development. This open space provides a green corridor between Shirley Oaks and the surrounding areas, and should be retained in its present form. Not only would these developments entail the loss of the green corridor between Shirley Oaks and the surrounding areas, the local road infrastructure would not be able to cope with the additional traffic. Also, the local schools are over-subscribed as well as the already-stretched social and healthcare facilities would be overloaded.		Change	As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.
/DM32.2/O	Object	Soundness – Consistent with national policy	CLP2 – Detailed Policies and Proposals (Preferred and Alternative Options)	11 The Places of Croydon	DM32.2 755	Policy DM43, reference Site 502 Coombe Farm reference Site 661 Coombe Lodge Nurseries and reference Site 755 Pear Tree Farm and Pear Tree Cottage. I object to the use of any of these locations for the creation of Gypsy/Traveller sites. All three locations are within the Green Belt and Coombe Farm is on a site of an Archaeological Priority Zone and contains an area of Nature Conservation Importance. Such development is in breach of Policy E of Planning Policy for Traveller Sites, which says that “Traveller Sites (temporary or permanent) in the Green Belt are inappropriate development”. All three sites are also a considerable distance from public services. I believe that the proposal to create three new Gypsy/Traveller sites by		Change	The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

I believe that the proposal to create three new Gypsy/Traveller sites by 2017 and 39 by 2036 is excessive and will have an adverse effect on the borough.		Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from a wood chipper located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

### Standard Rep 10

This representation was not duly made as it contained derogatory language about Gypsies and Travellers, specific ethnic groups protected by the Equalities Act 2010.

### Standard Rep 11

Ref no. suffix	Object or support	Soundness	Document	Chapter	Policy, site or paragraph	Summary of representation	Summary of proposed changes	Council's response	Council's proposed action
/DM2/O	Object	Soundness – Effective	CLP2 – Detailed Policies and Proposals (Preferred and Alternative Options)	4 Homes	DM2	Policy DM2 (p18) allows “garden grabs” to become much easier. National policy and London policy classifies gardens as greenfield, and there is an assumption against developing on gardens. But new Policy DM2 says that the council will allow building on gardens if “it will complement the local character and biodiversity is protected”. This is totally subjective and will always diminish protection for biodiversity as it destroys potential habitats. This policy will provide cover for developers to be given planning consent to build on gardens. I oppose making it easier to build on gardens as it will remove		Change	The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. The wording of the policy has been

Ref no. suffix	Object or support	Soundness	Document	Chapter	Policy, site or paragraph	Summary of representation	Summary of proposed changes	Council's response	Council's proposed action
						<p>green space from our neighbourhood. There should be a presumption against building on gardens.</p> <p>Policy DM2: Development on Garden Land, as the policy is too weak, too subjective and does not comply with the London Plan.</p>			<p>amended to further detail the criteria for this type of development. Garden development will only be permitted where it is in keeping with and subservient to the original dwelling and the surrounding character; a minimum length of 10m and no less than ½ or 200sqm (whichever is the smaller) of the existing garden area is retained for the host property, after the subdivision of the garden; and where there would not be a detrimental impact on existing and future occupants in terms of overlooking and outlook. The policy does not explicitly refer to biodiversity, flooding and other issues such as amenity. The Plan should be read as a whole and policies with respect to these issues will be applied as relevant to such applications.</p>
/DM40.1/O	Object	Soundness – Justified	CLP2 – Detailed Policies and Proposals (Preferred and Alternative Options)	11 The Places of Croydon	DM40.1	<p>Policy DM40.1 (p166) says that a skyscraper of 16 floors can be built in the centre of Purley. It appears that this policy is written with the specific site opposite Pizza Express on Purley Cross in mind. I am totally opposed to this. A skyscraper of 16 floors will completely change the character of Purley town centre and is wholly out of keeping with the rest of Purley town centre which is no higher than 5 floors.</p>		No change	<p>Croydon will have sustainably grown to accommodate homes to contribute to the borough's housing need. Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework. The Purley District Centre is one of areas with high level of accessibility to public services, including transport, and therefore suitable to accommodate its share of sustainable growth. The proposed landmark building, significantly taller than predominant up to 8 storey urban fabric, would maximise use of the sustainable location of the district centre, strengthen recognition and importance of Purley in the borough and also on the southern approach to Central London. Since consultation in 2013, the</p>

									Further Alterations to The London Plan (FALP) were adopted which incorporate a significant increase in housing target from 1330 to 1435. Furthermore the London Plan is clear that this target should be considered as minimum. The partial review of Croydon Local Plan (CLP 1.1) set the strategy to accommodate growth within urban area. The currently proposed landmark scheme in Purley is 16 storeys high. It received positive recommendation from officers and the Planning Committee
/DM40.4/O	Object	Soundness – Effective	CLP2 – Detailed Policies and Proposals (Preferred and Alternative Options)	11 The Places of Croydon	DM40.4 30	Policy 40.4, Table 11.3, Site 30 (p168) talks about redeveloping the current Purley Pool and multi-story car park site.	Redevelopment would be welcome, but any new leisure centre must include a pool and the policy should make this clear. It should also make clear that the total number of public parking spaces should not go down.	Change	The site is allocated for 'Mixed use redevelopment incorporating public car park, new leisure facilities including a swimming pool and other community facilities, healthcare facility, creative and cultural industries enterprise centre, retail or residential accomodation'.
/DM40.4/O	Object	Soundness – Effective	CLP2 – Detailed Policies and Proposals (Preferred and Alternative Options)	11 The Places of Croydon	DM40.4 61	Policy 40.4, Table 11.3, Site 61 (p168). This car park at 54-58 Whytecliffe Road South is being re-designated as residential.	Given the parking problems in Purley town centre, any new scheme should have at least as many public parking spaces as the current car park.	Change	Any development will require the retention of some of the existing parking spaces.
/DM41.3/O	Object	Soundness – Justified	CLP2 – Detailed Policies and Proposals (Preferred and Alternative Options)	11 The Places of Croydon	DM41.3 306	Policy DM41.3, Table 11.14, site 306 (p171) says that retail can be built on the old Good Companions Pub site at the junction of Limsfield Road and Tithepit Shaw Road. This site is owned by Lidl and has been the subject of a previous planning application by them. A Lidl or similar store on this site is anticipated to cause traffic chaos.	This site should only be considered for tasteful residential development, and not for retail.	No change	The site will continue to be allocated in the Proposed Submission draft. Any development of the site would be required to satisfy all other policies of the Local Plan which would include those which consider traffic generation and management. It is considered appropriate for both retail and residential uses.
/DM43.4/O	Object	Soundness – Consistent with national	CLP2 – Detailed Policies and	11 The Places of Croydon	DM43.4 502	The council plans to create a Gypsy/Traveller site here. This is a greenbelt site, and it is not appropriate to put a traveller site here. Policy E of “Planning Policy for Traveller Sites”,		Change	The site is in private ownership and the land owners have indicated they would not be

Ref no. suffix	Object or support	Soundness	Document	Chapter	Policy, site or paragraph	Summary of representation	Summary of proposed changes	Council's response	Council's proposed action
		policy	Proposals (Preferred and Alternative Options)			published by the Government in August, says very clearly: "Traveller sites (temporary or permanent) in the Green Belt are inappropriate development".			interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
/DM44.2/O	Object	Soundness – Consistent with national policy	CLP2 – Detailed Policies and Proposals (Preferred and Alternative Options)	11 The Places of Croydon	DM44.2 661	The council plans to create a Gypsy/Traveller site here. This is a greenbelt site, and it is not appropriate to put a traveller site here. Policy E of "Planning Policy for Traveller Sites", published by the Government in August, says very clearly: "Traveller sites (temporary or permanent) in the Green Belt are inappropriate development".		Change	This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from a wood chipper located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
/DM44.2/O	Object		CLP2 – Detailed Policies and Proposals (Preferred and Alternative Options)	11 The Places of Croydon	DM44.2 662	The Coombe Playing Fields, currently Green Belt, are being proposed for development in Policy DM44.2, Table 11.17, site 662 (p179).	The site should remain as green belt.	No change	There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
/DM24 (Table 9.1)/O	Object		CLP2 – Detailed Policies and Proposals (Preferred and Alternative Options)	9 Green Grid	DM24 (Table 9.1) Sanderstead Plantation	Sanderstead Plantation is also being downgraded from Green Belt to Metropolitan Open Land. I object strongly to all these downgrades, which show a cynical disregard for conservation efforts.		No change	Sanderstead Plantation is an important open space that requires the same level of protection that its existing Green Belt designation affords it. As it surrounded on all sides by built up area it is incorrectly designated as Green Belt (which should by definition surround a built up area or provide a buffer between it and the next built up area, so it will be re-designated as Local Green Space which provides an identical level of protection but is a more appropriate designation for this area.
/DM28	Object	Soundness –	CLP2 –	10 Transport	DM28	Policy DM28 (p115-116) of the draft Plan will require	I will be calling for	Change	The policy will be amended to

Ref no. suffix	Object or support	Soundness	Document	Chapter	Policy, site or paragraph	Summary of representation	Summary of proposed changes	Council's response	Council's proposed action
(Option 1)/O		Effective	Detailed Policies and Proposals (Preferred and Alternative Options)	and Communication	(Option 1)	developers to provide fewer parking spaces in areas of low public transport accessibility than the London Plan allows for. The Council assumes that this will lead to fewer people owning their own car. In fact, it will lead to more and more pressure on on-street parking.	Policy DM28 to allow higher levels of parking in all locations than the London Plan contemplates, because so many of our District centres (such as Purley and Coulsdon) already have very severe parking problems.		<p>require increased provision of car club/pool car spaces where reduced levels of car parking are proposed compared to the maximum level set out in the London Plan. This will ensure that residents of developments with reduced amounts of parking can live in them without needing their own car and adding to pressure of on-street parking. The requirement for cycle parking will also be amended to encompass motorcycles and mobility scooters.</p> <p>Coupled with the approach to sustainable growth of the suburbs (which will make them more sustainable places in which to live) set out in the Plan there is no need to permit higher parking standards in areas of lower PTAL beyond that already referenced in the supporting text.</p>
/DM29/O	Object	Soundness – Effective	CLP2 – Detailed Policies and Proposals (Preferred and Alternative Options)	10 Transport and Communication	DM29	Policy DM29 (p120) prohibits temporary car parks. This is too restrictive as temporary car parks may sometimes be needed.		Change	Temporary car parks are used by landowners as an easy way to make use of land that is not being developed. The only instance that a temporary car park may be justified is when it is a time limited replacement of a permanent car park that is being redeveloped. The supporting text of Policy DM29 will be amended to reflect this and provide justification for a departure from the formal policy.
/DM35/O	Object	Soundness – Effective	CLP2 – Detailed Policies and Proposals (Preferred and Alternative Options)	11 The Places of Croydon	DM35 945	Policy DM35, Table 11.8, Site 945 (p146) is the current Waitrose on Brighton Road, which will close when the new one on Lion Green road opens. The plan contemplates residential and healthcare uses, but	I believe that ground floor retail should be allowed as well as potentially healthcare, and require as many public car parking spaces as there are currently on the site. The parking is especially important given the current	No change	The site is in a good location to provide much needed homes and healthcare facilities for the borough rather than be used for providing car parking spaces. Site 372, Lion Green Road car park, will require the retention of car parking spaces which will address the need for some parking in Coulsdon.

						<p>development would cause increased traffic congestion at both of these exits. Parking at the end of Shirley Oaks Road, near exit to Wickham Road (Red Route) has increased the hazard. In summary the proposals for this area i.e. high density building can only lead to increased congestion, increased risk of environment pollution resulting in risk to personal safety and health.</p> <p>All residents strongly object to this proposal.</p>			
/DM43.4/O	Object		CLP2 – Detailed Policies and Proposals (Preferred and Alternative Options)	11 The Places of Croydon	DM43.4 548	<p>This area is owned by the Shirley Oaks Management Ltd. 488 residents are shareholders in this company. This land was transferred to the above company in 1985 and designated as open amenity land by Croydon Council for use of residents as the gardens of the dwellings built by Heron Homes were very small.</p> <p>This area of open amenity land is fully utilised by the residents and others for recreation and leisure and are clearly identified as private land. High density building in this area would result in lack of pleasure and leisure amenity for present residents, increase traffic congestion and an increased risk to residents' personal safety and health especially through high pollution levels.</p> <p>Primrose Lane and Shirley Oaks Road form the perimeter road within Shirley Oaks and exit on to the very congest roads Shirley Road and Wickham Road (A312) (sic) both of which are unable to cope with the present volume of traffic. During rush hours the perimeter road is used as a cut through (rat run) this results in speeding, frequent road traffic incidents/accidents). Exiting on to either the Wickham Road or the Shirley Road is at present dangerous and difficult, further development would cause increased traffic congestion at both of these exits. Parking at the end of Shirley Oaks Road, near exit to Wickham Road (Red Route) has increased the hazard. In summary the proposals for this area i.e. high density building can only lead to increased congestion, increased risk of environment pollution resulting in risk to personal safety and health.</p> <p>All residents strongly object to this proposal.</p>		Change	As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

			Proposals (Preferred and Alternative Options)			<p>Open Land, and indeed states that "The strongest protection should be given to London's MOL and inappropriate development refused". The Policy lays out what needs to be established to designate an area as MOL, but does not make it clear how a Council can re-designate an area, I therefore object to any permanent Traveller site being constructed on MOL and especially if the area is simply going to be re-designated without any consultation with the local residents and businesses.</p> <p>I object strongly that Croydon Council can re-designate Metropolitan Open Land or Green Belt land to suit their needs to accommodate a permanent pitch. I cannot see any Planning justification to change the designation, nor for the intrusion into the lives of the residents of Oaks Road and surrounding area. This will massively affect the urban attractiveness of the area and have both emotional and financial repercussions on many lives.</p> <p>Policy 7.18 relating to Protection of Open Spaces clearly states that open spaces in London must be protected, and any loss must be resisted. I cannot believe the Council would want to go against both of these policies laid down by The London.</p> <p>This Club not only provides sport and social activities to over 700 members in the local vicinity, but also provides an important ecological role in the area. The proposed site of Coombe Farm as a site for Gypsies and Travellers has come as a shock to everyone in the area, as borne out by the recent press coverage and attendance at the Consultation Meetings.</p> <p>The history of unauthorised "pitches" in this area over the past few years has left a bitter resentment, especially in view of the residual mess and threatening behaviour that has always accompanied their trespass. On each occasion that Gypsies/Travellers have been in the area, the club members here have been threatened with physical and verbal abuse. This behaviour is totally unacceptable and despite the subsequent eviction of the Travellers on each occasion, the residual psychological effect on tax payers and constituents' lives cannot be trivialised. We also have a large junior Section and children play the course during holidays as well as weekends. They are often unaccompanied and the parents need to know they are in a safe environment. This would certainly not be the case in the parents' minds if there was any chance of aggressive behaviour, as previously experienced, towards these children. I am certain that you would not wish to be responsible for putting children in any sort of potentially dangerous situation.</p>			interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

/DM24 (Table 9.1)/O	Object	Soundness – Justified	CLP2 – Detailed Policies and Proposals (Preferred and Alternative Options)	9 Green Grid	DM24 (Table 9.1) Sanderstead Plantation	<p>We are writing regarding the proposed re-designation of Sanderstead Plantation from Metropolitan Green Belt to Local Green Space.</p> <p>We have concerns over this re-designation and would like confirmation that the site will protected from future development, due to the following, as stated in your Open Space Needs Assessment Document:</p> <p style="padding-left: 40px;">Close proximity to the community it serves, a special tranquil area, natural open space, site of nature conservation, local in character and easily accessible to the public.</p> <p>As an active group of conservation volunteers, we have maintained Sanderstead Plantation for in excess of 16 years and have achieved regeneration and improved the Plantation's biodiversity and amenity value as a resource for the local community.</p> <p>We believe the current designation meets the requirement of this site and therefore can see no purpose in degrading its status thus losing the existing protection of a valuable public resource.</p> <p>We therefore object to these proposals as this also does not comply with Policy 5P7 and protection of the Green Grid.</p>		No change	Sanderstead Plantation is an important open space that requires the same level of protection that its existing Green Belt designation affords it. As it surrounded on all sides by built up area it is incorrectly designated as Green Belt (which should by definition surround a built up area or provide a buffer between it and the next built up area, so it will be re-designated as Local Green Space which provides an identical level of protection but is a more appropriate designation for this area.

## Appendix 5

### Summary of the main comments received on Croydon Local Plan: Detailed Policies and Proposals (Preferred and Alternative Options) consultation November 2015 and the Council's response and changes made to Croydon Local Plan: Detailed Policies and Proposals (Proposed Submission).

Policy as in November 2015 consultation document	Summary of comments	Summary of changes made to Croydon Local Plan: Detailed Policies and Proposals (Proposed Submission)
Overarching comments	Comments about the complexity of the documents, their ease of use and the length of the consultation period.	The document has been made easier to read including a guide to which policies apply to which type of development and what is proposed in each Place.
Chapter on Homes	Support assisted living and believe that planning policy should tie in with our over 65's commissioning. Keeping older people independent and safe in their own environment without having to keep our elderly in care homes should be a priority. Don't see this in the strategy.	The plan already supports the provision of sheltered accommodation as supported assisted living through the implicit support for smaller units in Policy DM1 and the explicit support for supported living in Policy DM3.
Policy DM1: Housing choice for sustainable communities	<p>It is not clear that the basis for the proposed 130m<sup>2</sup> internal area in para 4.13?</p> <p>More family housing is needed. There are too many rental properties and properties turned into flats. The new flats and apartments will need car parking spaces.</p> <p>A greater number of smaller houses are required in Coulsdon.</p> <p>There is a need to control conversions so as not to lose three and four bedroom properties.</p> <p>The requirement for 3 bedroom homes should be reduced in line with the Strategic Housing Market</p>	No changes to policy other than it will be amended to say that the protection of small family homes and 3-bedroom properties will apply to redevelopment as well as conversion. The policy otherwise encourages a mix of units (both large and small) on sites across the borough and does not conflict with either the London Plan or the Croydon Opportunity Area Planning Framework.

Policy as in November 2015 consultation document	Summary of comments	Summary of changes made to Croydon Local Plan: Detailed Policies and Proposals (Proposed Submission)
	<p>Assessment and London Plan, particularly in areas of low PTAL.</p> <p>20% three bedroom or larger units are proposed in the majority of the Opportunity Area. This includes Mid Croydon where Delancey are in early pre-application discussions with the Council regarding residential development. A requirement for 20% three bedroom units in this location is considered overly restrictive as the actual amount of three bed homes a site is capable of accommodating will vary significantly depending on its nature, location, target market and site specific economics. This proportion of 3 bed units for market housing is not considered appropriate in the Mid-Croydon area and, given their unsuitability, will act as a drag on viability potentially resulting in a lower provision of affordable housing. The OAPF provides for flexibility and a case by case consideration of mix. The Policy should be amended to allow for flexibility and not be a minimum requirement.</p>	
Policy DM2: Development on garden land	<p>New development, including backland development, should only be permitted if the impact on infrastructure has been assessed as part of the Design and Access Statement. Data on infrastructure should be made available to developers.</p> <p>The policy should set out the</p>	<p>The policy complies with the provisions of the NPPF and the London Plan. The Council has not chosen to introduce a presumption against development on back gardens as it is not considered that restricting this type of development is justified or could be robustly evidenced. The wording of the policy has</p>

Policy as in November 2015 consultation document	Summary of comments	Summary of changes made to Croydon Local Plan: Detailed Policies and Proposals (Proposed Submission)
	<p>requirement for when an ecology report is required.</p> <p>The policy should require applicants to provide the curtilage area and the footprint of the host dwelling with any application. The area of the partitioned new curtilage, the footprint of the proposed development and the proposed number of habitable rooms should all be provided for any new dwellings so that the housing and residential densities of Housing and Residential Densities of the proposed development can be calculated to assess the impact on local character.</p> <p>This policy should recognise the wide ranging importance of gardens and should emphasise a presumption against development on garden land.</p> <p>The wording “complement the local character” is too vague and too capable of different interpretations to give the protection of gardens proposed in the rest of the document.</p> <p>More weight needs to be given than in the current wording on the quality of life for people in new and existing homes.</p> <p>The Mayor raises concern that a change in character could result across Croydon due to the borough's proposed back gardens policy. The proposed documents provide limited</p>	<p>been amended to further detail the criteria for this type of development. Garden development will only be permitted where it is in keeping with and subservient to the original dwelling and the surrounding character; a minimum length of 10m and no less than ½ or 200sqm (whichever is the smaller) of the existing garden area is retained for the host property, after the subdivision of the garden; and where there would not be a detrimental impact on existing and future occupants in terms of overlooking and outlook. The policy does not explicitly refer to biodiversity, flooding and other issues such as amenity. The Plan should be read as a whole and policies with respect to these issues will be applied as relevant to such applications.</p>

Policy as in November 2015 consultation document	Summary of comments	Summary of changes made to Croydon Local Plan: Detailed Policies and Proposals (Proposed Submission)
	<p>guidance on how this will be implemented. Further guidance should be provided on how this policy is implemented. The policy should take account of the criteria in the Mayor's Housing SPG when deciding whether to release garden land.</p> <p>A resident's group supports limitations on garden developments in order to preserve the green environment and provide sources of food for wildlife, essential for pollination and a balanced environment. They note that were a policy to be adopted to oppose garden developments, it would further reduce the space available for housing and add even further to the densely developed and inhabited centre. The requirement to protect biodiversity should not limit garden development as it will reduce the space available for housing.</p> <p>Insufficient protection is given against the construction of outbuildings including in gardens</p>	
Policy DM3: Residential care and nursing homes	<p>The policy should refer to the London Plan's monitoring benchmarks for the provision of specialist housing for older people.</p> <p>The London Borough of Sutton is concerned that the policy limits the provision of care homes to residents within the London Borough of Croydon. The care home</p>	The policy now includes a reference to support for supported living in Croydon.

Policy as in November 2015 consultation document	Summary of comments	Summary of changes made to Croydon Local Plan: Detailed Policies and Proposals (Proposed Submission)
	<p>market for self-funders is not arranged on local authority boundaries and, therefore, it is difficult to see how the council will be able to make this policy effective.</p> <p>The Plan's evidence base does not support the restricting of further residential care and nursing homes in the borough. On the contrary, the evidence makes clear that there is and will be a need for further provision over the period to 2036. The emerging policy fails to explicitly demonstrate how it will be meeting the needs of an ageing population with specific care and housing needs. In addition, the emerging policy is not compliant with national planning policy and guidance, which explicitly outlines that a range of housing types and sizes must be delivered by Croydon Council to meet the growing older population and the needs they have. The Council is asked to amend emerging Policy DM3 to reflect the objectively assessed housing need and national planning policy and guidance, to ensure the Plan meets its need for housing older people. This in turn will also meet its overall housing need, as older people will move into suitable accommodation out of houses that are too large for their need, which in turn will release family accommodation for those in need of larger homes.</p> <p>Croydon has, in some parts of</p>	

Policy as in November 2015 consultation document	Summary of comments	Summary of changes made to Croydon Local Plan: Detailed Policies and Proposals (Proposed Submission)
	the Borough, plenty of choice. But not in Shirley. I would like to see a preferred option to establish at least one more nursing home in Shirley.	
Residential annexes	We are not opposed to houses adding residential annexes with separate internal facilities but are strongly of view that they should share the entrance to the existing property nor should they extend to the boundary fence in order not to alter the street scene by turning semi-detached properties into rows of terraced houses. We do not object to the annex remaining as a separate annex or to be incorporated back into a single dwelling as circumstances change.	No changes to the proposed approach of relying on other policies of the Local Plan.
Chapter on Employment	A policy to promote the burgeoning cultural and creative quarter that is developing in the Crystal Palace triangle should be framed, in a similar vein to the proposed Restaurant Quarter policy, DM7	DM4: Development in Croydon Metropolitan Centre, District and Local Centres will permit B1 uses in Secondary Retail Frontages to support the provision of office, research & development and light industrial workshops in town centres.
Policy DM4: Development in Croydon Metropolitan Centre, District and Local Centres	The Mayor welcomes Croydon's ambitions to support its town centres through consolidation and re-energization, including by enabling units outside core frontages to be redeveloped for housing. However, its approach to 'all other uses' in the Main and Secondary Retail Frontage may miss opportunities for wider land uses that could contribute to the viability and vibrancy of the town centre. In this regard, the wording in Table 5.1	DM4: Development in Croydon Metropolitan Centre, District and Local Centres will permit B1 uses in Secondary Retail Frontages to support the provision of office, research & development and light industrial workshops in town centres.  No other changes to the policy.

Policy as in November 2015 consultation document	Summary of comments	Summary of changes made to Croydon Local Plan: Detailed Policies and Proposals (Proposed Submission)
	<p>should be amended to allow for other land uses that the Council deems would contribute to the viability and vibrancy of the town centre, while not distracting from its retail function</p> <p>Can you please get a better balance of retail outlets in the high street there are far too many fast food outlets.</p> <p>Norbury Option 1 – Support for the removal of the northern stretch of London Road past Norbury Brook and the former office buildings and the fire station in the south from Norbury District Centre.</p> <p>Norbury Option 1 would downgrade the 1433-1493 to secondary retail status from main retail function. The document states: ‘The MRF at this point is interspersed already with non A1 uses and whilst there is an argument for keeping the designation, there is a counter argument that it is a stopping the development of a restaurant quarter in this location.’ The general view of residents who express their view is that there is already more than enough restaurants and cafes in the District Centre. There is also a case for the current secondary retail frontages further south to the fire station to be given main retail frontage designation particularly with the large increase in population in the former office buildings of Astral and Windsor Houses on</p>	

Policy as in November 2015 consultation document	Summary of comments	Summary of changes made to Croydon Local Plan: Detailed Policies and Proposals (Proposed Submission)
	<p>the other side of London Rd</p> <p>Policy DM4 should be amended to make clear that schemes which are not mixed use but instead propose a single, town centre use, will be acceptable and there will be no impediments or policy requirements to satisfy. The policy as drafted is very restrictive and will not encourage the amount of new commercial development required (and identified) to come forward. The policy therefore will not achieve, and is inconsistent with, policies SP3.3 (a), SP3.11, SP3.13 (a) or paragraph 7.32 of the Croydon Local Planning Strategic Policies.</p> <p>Policy DM4.2 should be amended to make clear that the proposals and changes of use which accord with table 5.1 relate to use of the ground floor only.</p> <p>Policy DM4.3b is unreasonable and takes no account of how the property industry is structured or how land is owned. In some circumstances it may be appropriate for landlords to offer to fit out their tenant's premises, but in other cases, shell and core developments are what tenants require. It is unreasonably onerous to require all tenants to be provided with a fully fitted out unit whatever the circumstances, and will only delay and constrict the</p>	

Policy as in November 2015 consultation document	Summary of comments	Summary of changes made to Croydon Local Plan: Detailed Policies and Proposals (Proposed Submission)
	pipeline of new commercial floor space, to the detriment of the local economy.	
Policy DM5: Development in Neighbourhood Centres	The policy should be more detailed.	No changes to this policy.
Policy DM6: Development in Shopping Parades	<p>Morland Road should remain a shopping parade as this area has had an increase in number of viable outlets (pharmacy and new restaurant).</p> <p>The Old Lodge Lane shops must also be maintained. They are vital for the elderly and vulnerable residents who live in this remote part of Kenley.</p>	No change to this policy. The removal of designation from certain areas does not mean that the remaining shops will close if there are still customers to make them viable. Neither does the existence of a designation mean that the shops won't close if there are insufficient customers to maintain them as a business.
Policy DM7: Development in Restaurant Quarter Parades	The Restaurant Quarter should retain a diversity of retail activity. Planning that favours restaurants/bars over other shops and offices is counter-productive economically and socially in this part of South Croydon.	No changes to this policy. These parades have been designated to support the Restaurant Quarter and so only certain uses are permitted to support and maintain these uses. Other retail and town centre uses are permitted in the remainder of the Metropolitan Centre.
Policy DM8: Development in edge of centre and out of centre locations	<p>It is noted that the preferred option for Policy DM8 seeks to restrict any extension to the floor area of existing out-of-centre retail sites to 10% of the original building. This is considered unduly restrictive.</p> <p>It is requested that Policy DM8 be amended to accommodate the specific needs of certain specialist retailers such as garden centres, by excluding them from the general category of Class A1 – A4 uses and, as a minimum, by including them in the class with offices and other main</p>	<p>No changes proposed to this policy.</p> <p>Table 5.9 offers flexibility to existing occupiers by allowing them to increase by up to 10% without the requirement for a sequential test. Once this threshold has been met no further expansion will be permitted to support the Metropolitan Centre, District and Local Centres. It is not considered that garden centres have special circumstances that require them to be excluded from the A1 to A4 uses.</p>

Policy as in November 2015 consultation document	Summary of comments	Summary of changes made to Croydon Local Plan: Detailed Policies and Proposals (Proposed Submission)
	town centre uses which would impose an increased threshold limit on new development of 20% of the original	
Policy DM9: Expansion of industrial and warehousing premises in Strategic, Separated and Integrated Industrial Locations	If indeed there is a requirement to increase the number of premises for industrial / warehouse usage then turning existing low density industrial / warehouse usage into higher density usage makes sense.	No changes proposed to this policy.
Policy DM10: Design and character	<p>The London Plan Indicates an increase in the communal amenity space from those identified in the Mayor of London's Housing Supplementary Planning Guidance but does not state any value or any increased allocation per resident in hectares. However CLP2 has relaxed the requirement for "Communal Open Space" by omitting UDP saved policy RO12. Bring forward current UDP Policy RO12 into CLP2. If not specified, developers will not offer any communal open space for residents of blocks of flats.</p> <p>The minimum distances (window to window) should be defined so that the policy is enforceable. What does 18-21m actually mean? Why specify a tolerance? The minimum distance should be specified.</p> <p>The standards for private amenity space should be reviewed and increased. 1 Bedroom House or Flat Minimum Private Amenity Space of 5m<sup>2</sup>. If this is the</p>	Policy DM10 has been amended to clarify the requirement for both communal and play space to be incorporated and that it refers to spaces that define that character of an area as well as the buildings.

Policy as in November 2015 consultation document	Summary of comments	Summary of changes made to Croydon Local Plan: Detailed Policies and Proposals (Proposed Submission)
	<p>allocation for a house, the amenity space would be less than the width of the house and only about half a metre wide which is a about the dimensions of a pathway.</p> <p>The general lack of communal land for resident's flats is unsatisfactory as should be included, as much existing communal land is already overworked.</p> <p>Under Policy DM 10 Design and Character, we would advise that the policy needs to reflect the need for developments to enhance and sensitivity respond to both the built form and spaces' that define places. This also includes, in line with the NPPF ('Requiring good design'), ensuring developments respond to and integrate with the historic environment (NPPF para's 58 and 61). At present this is not explicitly expressed.</p> <p>Policy DM10.1 is too restrictive as it anchors all new development to the context established by the predominant built form. This will make it difficult to achieve bigger, taller and larger new buildings which are able to house and employ more people and contribute to the economic growth and strength of Croydon. The policy needs to be amended to make it clear the circumstances in which such new development is encouraged, and able to</p>	

Policy as in November 2015 consultation document	Summary of comments	Summary of changes made to Croydon Local Plan: Detailed Policies and Proposals (Proposed Submission)
	<p>come forward.</p> <p>Amenity and play spaces are essential in large new developments, but should not be at the expense of and discourage the use local parks.</p> <p>DM10.4 (f) refers to child play space and would appear to seek provision on site for all children. This is inconsistent with the Mayors approach and will clearly not be deliverable for high density town centre schemes. The policy should be amended to refer directly to the Mayors guidance, which should be applied.</p> <p>The requirement for all affordable housing of over 10 units to provide 10sqm per child of new play space is considered to be onerous. Not all buildings being converted to flats where there is an affordable housing requirement have enough amenity space to provide play space to this standard or even at all. The play space requirements should be reduced, particularly where it involves conversions of existing buildings. The policy should also make clear what type of affordable housing it relates to and whether it applies to the private sector.</p> <p>DM10.5 is concerned specifically with ensuring the amenity of the occupiers of adjoining buildings. We consider that when the</p>	

Policy as in November 2015 consultation document	Summary of comments	Summary of changes made to Croydon Local Plan: Detailed Policies and Proposals (Proposed Submission)
	<p>application site is in the town centre draft Policy DM10.5 is overly prescriptive and does not allow for sufficient flexibility for development proposals to come forward which are considered acceptable against the relevant assessment criteria. An element of direct overlooking is, in our opinion, an inevitable consequence of development in Croydon town centre. The wording of DM10.5 should be amended to include the required flexibility.</p> <p>The policy should be made less subjective and contain more detail within the policies rather than the supporting text, along with diagrams.</p> <p>The wording on 10.8(d) is onerous. The 'natural habitats' definition is too broad as it encompasses all areas. When developing a site, Persimonn make efforts to retain as many existing trees and vegetation on a site; however this is not always viable or safe when progressing a site. Persimonn believe that the wording should be changed so that the definition is not as restrictive.</p>	
Policy DM11: Shop front design and security	Residential conversions should not be allowed in parades with high commercial or community usage. Policy should encourage the use of brick.	No change as this is covered by the employment policies of the Local Plan already.
Policy DM13: Refuse and recycling	This is a contentious matter in residential areas where houses are converted into flats and the front of the property	Policies DM13.3 -DM13.5 have been removed. No other changes as the supporting text within the reason justification

Policy as in November 2015 consultation document	Summary of comments	Summary of changes made to Croydon Local Plan: Detailed Policies and Proposals (Proposed Submission)
	<p>ends up being littered with big numbers of landfill bins, recycling bins. There should be a policy on use of commercial bins for conversions, very tight requirements for sensible siting and design of the refuse storage housing. Same for newly built properties of more than say 3 flats.</p> <p>Policies DM13.2 to 5 should be deleted as they provide excessive levels of detail in relation to the objective set by policy DM13.1d which is to provide safe conveniently located and easily accessible waste refuse facilities and layouts.</p>	<p>provides guidance about accommodating refuse and recycling resulting from conversions of houses to flats.</p>
Policy DM14: Public art	<p>The Council should commit to providing public art in Coulsdon town centre.</p> <p>The Arts Network welcomes the inclusion of the policy on public art, but considers it is limited in its vision.</p> <p>It is onerous for all major schemes to be required to provide public art. It may not be appropriate in many situations as neither the building nor its street context may be suitable for the provision of public art. The policy should be redrafted to make clear that where developments qualify, and are suitable to provide public art, then they should do so using the criteria set out in (a) to (e) of Policy DM14.</p>	No changes to the policy.
Policy DM15: Tall and large buildings	The Metropolitan Centre has been identified as being	No changes to the policy.

Policy as in November 2015 consultation document	Summary of comments	Summary of changes made to Croydon Local Plan: Detailed Policies and Proposals (Proposed Submission)
	<p>suitable for tall buildings. The Local Plan needs to state specifically that very tall buildings should not be allowed on the edge of the Metropolitan Centre where there are significantly lower residential buildings.</p> <p>Tall buildings should not be approved in District Centres.</p> <p>The policy should be amended so that tall buildings are only permitted in the Metropolitan Centre.</p> <p>Criterion d proposes that buildings taller than 40 storeys will need to incorporate amenity space such as sky gardens, atriums and roof terraces that are accessible to the public as well as residents of the development. We consider that the wording of Policy DM15 (d) should be amended to add flexibility to the approach towards amenity space to buildings over 40 storeys. We would suggest that individual sites should be considered on a case by case basis so that they can be assessed on their own merits and their ability to provide the proposed amenity space.</p> <p>Policy 15.1.c requires tall buildings to be of exceptional quality which is extremely onerous and it is not clear why this class of buildings have to be of exceptional quality.</p> <p>Policy DM15.1 should be reworded to the following "and</p>	

Policy as in November 2015 consultation document	Summary of comments	Summary of changes made to Croydon Local Plan: Detailed Policies and Proposals (Proposed Submission)
	<p>do not harm the setting of designated heritage assets"</p> <p>It is not clear why tall buildings should have their ground and first floors available for publicly accessible uses and spaces while smaller buildings do not.</p> <p>The policy should seek active ground floor uses where appropriate.</p>	
Policy DM16: Views and Landmarks	<p>The policy should be reworded to the following "Developments should conserve or enhance the Croydon panorama". It is considered that conserve in this context means 'not harm'. Unlike the London View Management Framework, the views mentioned within this policy do not have geometrically defined corridors to strategic corridors and therefore the extract "and should seek to avoid buildings that tightly define the edges of the viewing corridors" is not relevant.</p>	Policy made clearer but no change in effect.
Policy DM17: Heritage assets and conservation	<p>As stated in Historic England's guidance on setting, not all aspects of the setting of a heritage asset will necessarily contribute to the significance of a heritage asset. The value of the setting of a heritage asset lies in what it contributes, if anything, to the significance of the heritage asset; it is not itself a heritage asset of intrinsic historic or architectural interest. As set out in paragraphs 132-135 of the NPPF, harm to the significance of a designated heritage asset may be</p>	<p>Amend Policy DM17.5. The policy is complementary to NPPF and the London Plan and should be read in conjunction with the above. In order to flag up the option of demolition the bullet point a will be expanded to read: 'Substantial weight will be given to protecting and enhancing Locally Listed Buildings; where demolition is proposed, it should be demonstrated that all reasonable attempts have been made to retain all or part of the building'</p>

Policy as in November 2015 consultation document	Summary of comments	Summary of changes made to Croydon Local Plan: Detailed Policies and Proposals (Proposed Submission)
	<p>balanced by the public benefit provided by the development proposal. The policy should be reworded to take account of the NPPF and Historic England guidance.</p> <p>DM17.5 – Either the Local List of Buildings of Architectural Importance SPD should be incorporated within the LDF, or this reference should be deleted because it is not clear how long this will remain in force or what its future equivalent might be.</p> <p>As drafted it does not correctly reflect the advice set out in the NPPF. DM17.5a gives substantial weight to protecting and enhancing locally listed buildings yet the NPPF makes clear that the demolition of a locally listed building requires a balanced judgement to be made having regard to the scale of any harm or loss and the significance of the heritage asset in relation to the proposals for redevelopment.</p> <p>DM17.5 – It is not clear why all alterations and extensions must enhance a building's character. It is possible that within a scheme there may be elements that detract as well as enhance the building and yet overall, the conservation balance is such that the scheme has a positive impact, and is therefore acceptable. As drafted the policy does not have any flexibility and does not reflect this concept of the</p>	

Policy as in November 2015 consultation document	Summary of comments	Summary of changes made to Croydon Local Plan: Detailed Policies and Proposals (Proposed Submission)
	conservation balance and the overall impact of a scheme upon a building or an area.	
Chapter on Community Facilities	Crystal Palace FC request a specific policy about Selhurst Park and its importance to the borough (to protect the stadium and facilitate its growth/regeneration)	A specific policy about Crystal Palace Football Club has been added to the Local Plan.
Policy DM18: Providing and protecting community facilities	<p>The policy and the supporting text should reference playing fields and indoor and outdoor sport facilities. It should reflect Sport England's Land Use Planning Policy Statement, Paragraph 74 of the NPPF and Sport England's Playing Fields Policy.</p> <p>Policy DM18 could be amended to include cultural facilities as well as community facilities.</p> <p>The distribution of community facilities across the borough are not spread equally in relation to the areas of population. Some areas have significantly more community facilities than other areas. The policy should set out how it will increase community facilities in those areas which do not have adequate community facilities.</p> <p>There is a need for additional NHS facilities within the Croydon Opportunity Area arising from the enhanced levels of development that are anticipated to be directed to this area over the coming plan period. This need has not been identified and is not subject to an evidence base,</p>	<p>The distinction between commercial and non-commercial facilities has now been removed.</p> <p>No other changes to the Policy as it covers the types of facility listed in the comments both the protection of and the consideration of proposals for new facilities.</p>

Policy as in November 2015 consultation document	Summary of comments	Summary of changes made to Croydon Local Plan: Detailed Policies and Proposals (Proposed Submission)
	<p>and the NHS should be made to provide one if a policy is being used to secure facilities. In addition, given that new development within the Croydon Opportunity Area will be expected to help make provision for the NHS, then the criteria by which this will be sought should be set out in this policy.</p> <p>We believe the distinction between commercial and non-commercial facilities is neither needful nor meaningful and should be dispensed with.</p> <p>Why is there no policy to protect school playing fields and grounds from non-educational development?</p> <p>Why is there no policy for safeguarding library buildings and site proposals for their retention as libraries and as community facilities?</p> <p>We believe that this policy is overly prescriptive and redundant and that rules covering other developments already cover community facilities. Overall, Policy DM 18 is opaque/inaccessible to the general public. Moreover, it provides significant loopholes for developers to build whatever they wish rather than what the community needs.</p>	
Policy DM19: Protecting Public Houses	Public Houses should be protected where they provide a recognised community benefit. There are a number of public houses within the	No changes to the policy.

Policy as in November 2015 consultation document	Summary of comments	Summary of changes made to Croydon Local Plan: Detailed Policies and Proposals (Proposed Submission)
	<p>borough that do not contribute in a positive manner to the community and a blanket protection of such uses would be counterproductive to good planning. Similarly there are public houses that do provide a community benefit, and those should be listed as community assets in order to protect them from demolition and change of use proposals.</p> <p>We would seek to include an additional requirement to the policy which ensures that the heritage interest of the public house has been assessed prior to any decisions for its change of use or demolition.</p> <p>Propose the addition to Detailed Policy DM19 Option 1 of: 'and no community support for it remaining a public house' to be inserted at the end of the first sentence.</p> <p>The policy states that planning permission will not be granted for demolition or change of use of a pub unless the council is satisfied that there is not a defined need for a pub. One of the justifications for change of use from a public house is that the owner has marketed the pub for 18 months without success. This takes no account of a building that was built as a pub but has not been used as a pub for a long time. It is not clear whether the policy is meant to apply to a building where the last lawful use was a pub-if so it could be a long time since it</p>	

Policy as in November 2015 consultation document	Summary of comments	Summary of changes made to Croydon Local Plan: Detailed Policies and Proposals (Proposed Submission)
	<p>was last used. The tests set out in the policy should be revised as they confuse the issue of whether the pub is used and whether it is of historic merit. Just because the building is listed or locally listed doesn't mean it is viable or needed as a pub. The CAMRA test is also not required alongside the viability test.</p>	
<p>Policy DM21: Sustainable Design and Construction</p>	<p>The policy should reference the Mayor's Air Quality Neutral policy and his The Control of Dust and Emissions during Construction and Demolition SPG.</p>	<p>The reasoned justification makes reference to this SPG.</p>
<p>Policy DM23: Sustainable Drainage Systems and Reducing Flood Risk</p>	<p>Recognition of the surface water implications and flood potential of Chaffinch Brook, The Beck, and Ravensbourne Brook should be included.</p> <p>The effect of cumulative development, including of small developments such as outbuildings used for accommodation, leading to flood risk, has not been recognised.</p> <p>The policy could incorporate a more proactive approach to ensure that developments within catchments with a flood risk contribute to reducing this risk through SuDS.</p> <p>The policy should not require all developments to incorporate SuDS to the presence of Clay in the borough. Developments should be required to undertake soil tests to establish the water table level.</p>	<p>No changes to the policy.</p>

Policy as in November 2015 consultation document	Summary of comments	Summary of changes made to Croydon Local Plan: Detailed Policies and Proposals (Proposed Submission)
Chapter on Green Grid	School Playing Fields and green spaces. There is a need for these to be protected in the Plan and added as a list.	School playing fields and green spaces which are protected as Metropolitan Green Belt, Metropolitan Open Land and Local Green Spaces will be shown on the Policies Map.
Policy DM24: Metropolitan Green Belt, Metropolitan Open Land and Local Green Spaces	<p>Add to list of Local Green Spaces the following:</p> <ul style="list-style-type: none"> <li>The Briar Road Green (Norbury)</li> <li>Norbury Manor Primary School playing field</li> <li>St Helen's Green (Norbury)</li> <li>The Pollards Hill Triangle (Norbury)</li> <li>The Pollards Hill former allotment site (Norbury)</li> <li>St Philips' Church grounds (Norbury)</li> <li>Green space in front of Semley Rd Church (Norbury)</li> <li>The gardens around St James Church (now residential) at the junction of Sydenham Road and St James's Road (Broad Green &amp; Selhurst)</li> <li>Stoats Nest Green (Coulsdon)</li> <li>Green space opposite Hamsey Green pond (Sanderstead)</li> <li>The green at the junction of Temple Avenue and Southway (Shirley)</li> <li>The existing wooded site delineated by Bushey Road, Ash Road, Bridle Road and Oak Avenue (Shirley)</li> </ul> <p>The Council should explicitly state the reasons behind any changes in designation to Green Belt or Metropolitan Open Land (regarding Sanderstead Plantation) and make clear why a designation has hanged from one to the</p>	<p>Pollards Hill Triangle and St James's Road gardens have been designated as Local Green Space. The other sites were assessed and did not meet the criteria for designation.</p> <p>No other changes to the Policy or sites.</p>

Policy as in November 2015 consultation document	Summary of comments	Summary of changes made to Croydon Local Plan: Detailed Policies and Proposals (Proposed Submission)
	<p>other, as this is not clearly understood by residents who have contacted us.</p> <p>TfL requests further discussions with the Council about the Green Belt boundaries in the Elmers End area. Although this is not included in the amended designation section, TfL would like to look at the options of changing the boundaries for this area to ensure it does not restrict the aspirations to provide a second platform or double tracking.</p> <p>The council should also state clearly where and how Green Belt areas will be protected and enhanced in line with National and Regional policy.</p> <p>The 20% of the original floorspace or 100sqm should be removed as it will impact on extensions to small buildings. The policy should address the considerations of paragraph 89 in the NPPF rather than using fixed numbers to assess the impact on the Green Belt. The reasons for not stating such a figure were well explained in the text (paragraph 6.17) supporting policy R03 of the Croydon Replacement Unitary Development Plan. Rather than setting an arbitrary number the main question to be asked of the development should be what is the impact on the green belt?</p>	
Policy DM25: Biodiversity	With regard to DM25d we would recommend the text is	Paragraph 9.36 now sets out when an ecological

Policy as in November 2015 consultation document	Summary of comments	Summary of changes made to Croydon Local Plan: Detailed Policies and Proposals (Proposed Submission)
	<p>amended to recognise the hierarchy of biodiversity designations which ranges from those of national (and international) to local level. This is in accordance with Paragraph 113 of the NPPF which states: Distinctions should be made between the hierarchy of international, national and locally designated sites, so that protection is commensurate with their status and gives appropriate weight to their importance and the contribution they make to wider ecological networks.</p>	<p>assessment is required.</p>
Policy DM26: Trees	<p>Tree removal goes ahead by spurious claims of danger, undermining of buildings and assertion of lack of merit in suburban trees that fail to meet what would be national collection standards. Again, tree removal becomes incremental with a sequence of applications as development work proceeds, masking the overall effect of development.</p>	<p>No changes to the policy.</p>
Chapter on Transport and Communication	<p>Extra traffic flows created by development, in my view, makes it important for the council to be acute in its consideration of air quality in Waddon. Waddon hosts the key vehicular route from the south into our growing town centre. Air pollution measurements on the Purley Way show that at rush hour peaks that air pollution comes very close to breaching acceptable limits. In these circumstances I would ask that consideration be given to the</p>	<p>No changes to the Plan.</p>

Policy as in November 2015 consultation document	Summary of comments	Summary of changes made to Croydon Local Plan: Detailed Policies and Proposals (Proposed Submission)
	<p>practicalities of including within the revised Plan flexibility for the promotion of Park &amp; Ride facilities in the Borough. The protection of a route for trams to Purley that would mitigate car borne pollution in the Waddon community, maximise ease of access to central Croydon for shoppers and promote the Plan's aspiration for increased public transport use would also be important in protecting air quality locally.</p>	
<p>Policy DM27: Promoting sustainable travel and reducing congestion</p>	<p>DM27 needs to take into account that there will always be people who want to use cars</p> <p>As drafted, the policy will not always be practically achievable if Croydon's growth potential is to be realised.</p>	<p>No changes to the policy.</p>
<p>Policy DM28: Car and cycle parking in new development</p>	<p>There should be a presumption against developments with a reduced amount of car parking</p> <p>The policy should be amended to increase the amount of parking in areas of low public transport accessibility</p> <p>Policy should ensure new garages are built to accommodate modern cars.</p> <p>A requirement for motorcycle parking should be introduced alongside car and cycle parks in residential developments and this should consider security and storage facilities.</p> <p>Reconsider the strategy of the quantum of parking for</p>	<p>The policy will be amended to require increased provision of car club/pool car spaces where reduced levels of car parking are proposed compared to the maximum level set out in the London Plan. This will ensure that residents of developments with reduced amounts of parking can live in them without needing their own car and adding to pressure of on-street parking. The requirement for cycle parking will also be amended to encompass motorcycles and mobility scooters. The policy has also been amended to require developments that result in the loss of car parking to demonstrate that there is no need for those spaces.</p>

Policy as in November 2015 consultation document	Summary of comments	Summary of changes made to Croydon Local Plan: Detailed Policies and Proposals (Proposed Submission)
	<p>developments relating to the existing transport facilities (Public Transport Accessibility Levels), for outer London towns like Purley and reject the idea of central London of zero parking facilities and include a reasonable policy to deal with commuter parking.</p> <p>The policy should make reference to the OAPF and its parking scenarios.</p>	
Policy DM29: Temporary car parks	It is wrong not to allow temporary car parks on demolition sites and open spaces where there is a clear need to create temporary car parking to either relieve existing sites or replace existing car parks that are being refurbished or under reconstruction. We are of the view a temporary car park should be created on Cane Hill until the Lion Green Road site has been completed.	The only instance that a temporary car park may be justified is when it is a time limited replacement of a permanent car park that is being redeveloped. The supporting text of Policy DM29 will be amended to reflect this and provide justification for a departure from the formal policy.
Policy DM30: Telecommunications	Sites of Importance for Nature Conservation should be included under DM30.1b.	No changes to the policy as covered by other policies of the Plan.
Policy DM31: Positive character of the Places of Croydon	DM31.1 - We support the demolition of old life expired large properties and their replacement with a greater number of smaller houses, apartments and flats on the same site provided that this does not lead to overcrowding. We believe this is more desirable than turning large unsuitable properties into multiple occupation. We are opposed to the replacement of existing good quality property that is not life expired and still suitable for occupation as this can radically alter the existing	No changes to the policy but significant amendments to the boundaries to the areas of focused intensification removing many areas that consist solely of housing on smaller plots (Policy DM31.4).

Policy as in November 2015 consultation document	Summary of comments	Summary of changes made to Croydon Local Plan: Detailed Policies and Proposals (Proposed Submission)
	<p>street scene.</p> <p>Policy DM31.2: Positive Character of the Places of Croydon, should be amended so that it only applies to areas where there is already a predominance of three storey buildings or at least a mixed character.</p> <p>DM31.4 – The boundaries should be re-drawn to remove the predominantly two storey residential roads that should not be subject to change.</p> <p>DM31.4 – The plans for intensification of residential development are unacceptable and will overburden the already problematic local road infrastructure.</p> <p>DM31.4 (Shirley) – The bulk of the proposed intensification area has a PTAL score of only 2, some parts as low as 1a. The council already knows there are existing traffic problems in Shirley even before any houses are built - see page 253 of transport strategy document which notes high car dependency due to poor public transport and peak time congestion.</p> <p>DM31.4 (Forestdale) – lots of misunderstanding that assumed the policy applied to the Forestdale Estate (it doesn't) rather than the proposed neighbourhood centre.</p>

Policy as in November 2015 consultation document	Summary of comments	Summary of changes made to Croydon Local Plan: Detailed Policies and Proposals (Proposed Submission)
Addington	<p>see the regeneration of the western side of Central Parade, I don't believe 12-storey tower blocks are appropriate nor do I think this is what the people of New Addington want.</p> <p>With Regards to Policy DM32.1b , I am against the building of more housing here as we need to function as a community, and this little area with pool/hall is what the keep this New Addington community together. There is more green belt around Kenley, Purley or Coulsdon where it is not overcrowded already. New Addington is not the area for more housing; We would benefit more from more decent smaller shops and less of the monopoly on the parade. Provide us with a new leisure centre, Centre for Families and the Elderly. Same goes for the traveller site- we do not need more bad vibes here, please let us get ourselves on our feet first. We all area standing together trying our best to give New Addington a better name as we have loads of good people around here too.</p> <p>We would like to take this opportunity to draw the attention of the Council to a site controlled by Persimmon Homes located in Addington. This site currently lies within the Green Belt, however to what extent this land meets the purposes of the Green Belt, outlines in paragraph 80</p>	<p>has had its proposed use amended to make clear that any formal playing field will need to be relocated (on an adjacent site). Development will also only be permitted as part of a rationalisation of the community facilities on the Fieldway estate with no existing use being forced to close as a result of the development of this site.</p> <p>Site 755 (Pear Tree Farm) has been removed from the Plan as the landowner is not willing to sell the site for Gypsy and Traveller use. The provision of Gypsy and Traveller pitches will be made by expanding the existing site at Lathams Way and by allocating the Purley Oaks depot as a Gypsy and Traveller site.</p> <p>No other changes to this policy or sites.</p>

Policy as in November 2015 consultation document	Summary of comments	Summary of changes made to Croydon Local Plan: Detailed Policies and Proposals (Proposed Submission)
	<p>of the NPPF is contentious. We believe that this site could accommodate residential development.</p> <p>Timebridge site – London Wildlife Trust concerned about loss of open space.</p> <p>Central Parade – objections to the amount of housing proposed on the site</p> <p>Secondary school (Rowdown Fields) – what is need and can public transport and road network cope?</p> <p>Pear Tree Farm – Landowner does not wish to sell site. London Wildlife Trust objects on grounds of impact of Sites of Nature Conservation Importance of Metropolitan value. Site is used by the Croydon Auto Bike scheme that trains people who have been riding motorbikes illegally to use them legally and safely. New Addington has a huge problem with motorbike being ridden on green spaces and on the roads by underage youths, surely this is reason enough not to consider using this space. Concern that the existing waste facility would need to be moved (but where to). The assessment of potential sites for Gypsy and Traveller pitches proceeded from an erroneous starting point of "absolute" requirements that were neither justified nor supported by the Council's existing gypsy and</p>	

Policy as in November 2015 consultation document	Summary of comments	Summary of changes made to Croydon Local Plan: Detailed Policies and Proposals (Proposed Submission)
	traveller policy. The Evidence Paper is lacking in detail, and the scoring criteria overly simplistic.	
Policy DM33: Addiscombe	<p>DM33.1 – Clause e from previous policy (“Incorporate or retain traditional shop front elements such as stall riser’s fascias and pilasters”) should be reinstated.</p> <p>The policy should address the area around East Croydon station/off Cherry Orchard Road.</p> <p>DM33.2 – The policy needs to be more detailed in order to revitalise the retail areas and resolve the transport and traffic issues.</p> <p>I would propose to consider extending tramlink to Shirley as the area in between is poorly covered, before it is built up even more. Perhaps a new tram line ending via Ashburton fields, or from Elmers end to Addington.</p> <p>The World of Golf site should be included in Table 11.6 for residential development (including a significant area of publicly assessable open space and a new community facility).</p> <p>Rees House and Morland Lodge – this should be a housing site as it is not large enough for a secondary school.</p> <p>Rear of The Cricketers, 47 Shirley Road - The allocation</p>	<p>Clause e has been restored to the policy.</p> <p>No other changes to the policy or sites (other than to remove sites under construction).</p>

Policy as in November 2015 consultation document	Summary of comments	Summary of changes made to Croydon Local Plan: Detailed Policies and Proposals (Proposed Submission)
	<p>is speculative and would maybe undermine the present pub. Concern about impacts on access to the adjacent MOL site.</p> <p>130 Oval Road – 10-57 homes on this site is ludicrous – it could only be achieved by building flats which would be out of character with this area and many properties would be overlooked.</p>	
Policy DM34: Broad Green and Selhurst	<p>DM34.3 should not allow for 6 storey development around the Lombard Roundabout as intensification of this area is already having an impact on local amenities and infrastructure</p> <p>The Whitehorse Community Centre and The Aztec Centre in Boulogne Road and adjoining grass space provide a suitable footprint for a new secondary school, when seen in conjunction with the existing Crescent site that has the potential to be reorganised. Crescent Primary School are seeking to engage Croydon Council, who own these premises. We are therefore requesting that Croydon Council make these premises available for free school development.</p> <p>Land at AFC Croydon - this site continues to meet the criteria for Metropolitan Open Land designation and so it is wholly inappropriate to allocate the site for a school. Policy as in November 2015 consultation document	Summary of comments	Summary of changes made to Croydon Local Plan: Detailed Policies and Proposals (Proposed Submission)
	<p>would almost certainly lead to increased traffic even with improved public transport.</p> <p>If 103 Canterbury Road is to be considered as suitable for a primary school, then the area will require significant transport and road safety improvements.</p> <p>Valley Park (B&amp;Q) - The Council should consider the suitability of residential development given that the site is in Flood Zone 2. The site should also not be allocated for redevelopment which may affect the operation of B&amp;Q.</p> <p>Valley Park – site should include the Stewarts Plastics site.</p>	
<p>Policy DM35: Coulsdon</p>	<p>Developments in Coulsdon should provide retirement homes.</p> <p>We support the use of the remaining space on Leaden Hill for town centre housing, but this must have adequate parking to reflect the number of dwellings as it is in a town centre location in a controlled parking zone.</p> <p>A site for a small town centre garden should be identified.</p> <p>If the Calat Centre is closed the southern car park should be separated from the site and continue to be used as a public car park. The site could be used for other community uses, retail, commercial or</p>	<p>Site 372 (Lion Green Road) has had its proposed use amended to reference car parking.</p> <p>No other changes to the policy or sites.</p>

Policy as in November 2015 consultation document	Summary of comments	Summary of changes made to Croydon Local Plan: Detailed Policies and Proposals (Proposed Submission)
	<p>housing.</p> <p>We are of the view a temporary car park should be created on Cane Hill until the Lion Green Road site has been completed.</p> <p>Cane Hill – Barrett Homes object to the inclusion of community facilities in this proposed allocation.</p> <p>Secondary School in Portnalls Road – Comments about traffic impacts of a new school. The allocation should include community facilities so that the school facilities can provide a community use.</p> <p>Existing Waitrose store - This site should be used for retail, education, medical centre and a public car park. A number of comments requesting a public car park to be provided on this site at rear of existing building with ground floor retail remaining in the building. Also suggested as a multi-storey car park.</p>	
Policy DM36: Croydon Opportunity Area	Disagree in particular that the area lying to the west side of East Croydon Station Cherry Orchard Road, Addiscombe Grove, Addiscombe Road and Colson Road can be "successfully managed by General policies" (11.79) unlike London Road and Sydenham Road and Lansdowne Road areas. This area is also unique given the proximity to low rise traditional housing.	<p>Site 138 (Land to east of East Croydon station) has had its boundary corrected.</p> <p>Site 142 (1 Lansdowne Road) has been amended and now includes Voyager House.</p> <p>Site 162 (St Georges House) has been amended to reference other town centre uses.</p> <p>Site 172 (Ruskin Square) has been merged with Site 243</p>

Policy as in November 2015 consultation document	Summary of comments	Summary of changes made to Croydon Local Plan: Detailed Policies and Proposals (Proposed Submission)
	<p>The tall buildings policy should be addressed and there should be no tall buildings over 25 floors on Cherry Orchard Road/Addiscombe Road due to proximity to low rise residential buildings.</p> <p>Norfolk House and has been suggested by the landowner as being suitable for mixed use high density redevelopment which could include retail, office, hotel and residential uses.</p> <p>A comprehensive redevelopment of the vacant lots and untidy buildings in Park Street should be considered</p> <p>Grants Entertainment Centre, 14 High St. should be retained as a community facility with alternative uses: soft play, free gym, internet café, performance spaces.’</p> <p>MENTA site – boundary is incorrect. Comment from the developer that the uses could be more flexible worded as consented scheme has not been implemented. Other comments that any new scheme should be limited to 25 storeys.</p> <p>1 Lansdowne Road – The allocation should include Voyager House.</p> <p>St George’s House – the allocation should include other town centre uses in addition to current permission (from the</p>	<p>(Lansdowne Road surface car park) and the proposed use for the whole site will be as for Site 172 with no reference to a primary school (or a theatre).</p> <p>Site 21 (Former Royal Mail sorting office) has had its proposed use amended to include a cycle hub.</p> <p>Site 231 (Seagas House) has had its proposed use amended so that community uses would be a preferred acceptable use and other town centre uses would also be acceptable.</p> <p>Apollo and Lunar Houses (Sites 218 and 236) have both had their proposed use amended to state that development will only take place if the sites are no longer required by the Home Office.</p> <p>Site 393 (Whitgift Centre) has had the reference to improved transport infrastructure removed as this was referring to improvements outside of the site.</p> <p>Site A200 - (Dingwall Road multi-storey car park) will now be allocated for residential development and public car parking.</p> <p>No other changes to policies and sites (other than removing sites under construction).</p>

Policy as in November 2015 consultation document	Summary of comments	Summary of changes made to Croydon Local Plan: Detailed Policies and Proposals (Proposed Submission)
	<p>developer)</p> <p>Stephenson House – local residents object to it being allocated for a primary school on grounds of access to the site and safety and loss of office space.</p> <p>St George's Walk, Katharine House and Park House, Park Street – the allocation should be more flexible, remove number of homes and include Seagas House (from the developer)</p> <p>Former Royal Mail Sorting Office - The allocation should include a parcel collection Office. Allocation should also include hotel and/or office.</p> <p>Seagas House – should be an arts and heritage centre and not a residential conversion. The best use for the building within the public, commercial, community realm would be as craft workshops, creative studios both in the artistic and digital industries, an industrial and craft centre shop, a gallery, museum and local information centre for visitors to Croydon and possibly and desirably with a performance space for 150 to 200 audience inside in an atrium or Shakespeare's Globe type theatre with banked seating</p> <p>Poplar Walk car park and, 16-44 Station Road – allocation should reflect planning permission/application</p>	

Policy as in November 2015 consultation document	Summary of comments	Summary of changes made to Croydon Local Plan: Detailed Policies and Proposals (Proposed Submission)
	<p>Lunar House and Apollo House were built to operate as offices (Use Class B1a) and the Home Office wishes to ensure that the buildings can remain in office use for so long as required.</p> <p>9-11 Wellesley Road – there is a potential for a tall building (up to 40 storeys) on this site which could deliver up to 400 homes and this should be reflected in the allocation.</p> <p>Surface car park, Lansdowne Road – Site is part of wider Ruskin Square development and landowner will not sell it to be used as a primary school.</p> <p>5 and 7 Cairo New Road – It is inappropriate for the Council to suggest that the site of 5 Cairo New Road can be split into two sites and developed as two separate entities. They should be seen as one site and the D1 one use should not be restricted to the northern part of the site.</p> <p>Whitgift Centre - the reference to improved transport infrastructure should be removed as it relates to the borough as a whole and not this specific site. It is likely that many existing businesses will struggle to survive when they have to close or re-locate for the Whitgift Centre to be demolished. Those seeking to move into the new Centre will face higher rental costs of the new shop floor space and business rates compared with</p>	

Policy as in November 2015 consultation document	Summary of comments	Summary of changes made to Croydon Local Plan: Detailed Policies and Proposals (Proposed Submission)
	<p>current levels. Existing businesses have no guarantee they will be able to move into the new Centre.</p> <p>Corinthian House - the preferred use should be amended to make clear it is a site suitable for redevelopment, and should state: "Residential and/or any town centre use including hotel and offices. Retail use will be acceptable if the sequential and impact tests can be met.</p>	
Policy DM37: Crystal Palace and Upper Norwood	<p>A policy to promote the burgeoning cultural and creative quarter that is developing in the triangle should be framed, in a similar vein to the proposed Restaurant Quarter policy, DM7.</p> <p>St John the Evangelist Vicarage, Sylvan Road – Any redevelopment must take care not to damage the setting of the vicarage but rather to enhance it.</p>	No changes to policy or sites.
Policy DM38: Kenley and Old Coulsdon	<p>A further policy should be added to enhance and mark the entrance into the borough along the main A23 and A22 corridors.</p> <p>Gayfere House should be allocated for development (it is in Green Belt on edge of Old Coulsdon).</p>	No changes to policy or sites.
Policy DM39: Norbury	A further policy should be added to enhance and mark the entrance into the borough along London Road in Norbury.	<p>The site at 1485-1489 London Road is considered to be appropriate to be allocated for retail and residential.</p> <p>No other changes to policy or</p>

Policy as in November 2015 consultation document	Summary of comments	Summary of changes made to Croydon Local Plan: Detailed Policies and Proposals (Proposed Submission)
	<p>DM39.1 should only allow for 5 storey buildings on corner buildings and junctions</p> <p>Replace Detailed Policy DM39.1 by  'Within Norbury District Centre, to facilitate growth and to enhance the distinctive character, developments should:</p> <ul style="list-style-type: none"> <li>a. Complement Maintain the existing predominant building heights of the shopping and housing parades 2 storeys up to a maximum of 5 storeys;</li> <li>b. Ensure proposal for large buildings are visually consistent with the predominant urban grain; and</li> <li>b. Retain the design features of the upper stories and roofs of shopping parades</li> <li>c. Seek opportunity to provide direct access from the south of London Road to Norbury railway station.</li> <li>d. Propose heights the same as the neighbouring shopping parades where single and 2 storey parades are proposed for redevelopment.</li> <li>e. Seek opportunity to provide direct access from the south of London Road to Norbury railway station." <p>Allocate 1485-1489 London Road and Fairview Road for development of retail and residential uses.</p> <p>S G Smith, 409-411 Beulah Hill – Allocate the site for the extension of the existing St John's College</p> </li></ul>	<p>sites.</p>

Policy as in November 2015 consultation document	Summary of comments	Summary of changes made to Croydon Local Plan: Detailed Policies and Proposals (Proposed Submission)
	<p>Multiple objections to the alternative uses of sites in Norbury (where preferred use is no change).</p>	
<p>Policy DM40: Purley</p>	<p>DM40.1 – I agree that proposals should complement existing predominant building heights of 3 to 8 storeys. There is no need for a potential new landmark building but if there is to be one it should be no more than 8 storeys. Anything higher would detract from the character of the district and be overbearing. Lack of parking for a tall building also an issue raised.</p> <p>DM40.1 - Purley Baptist Church would like the policy amended to say a landmark building of up to 17 storeys.</p> <p>GLA - It is unclear why a new landmark building is suggested for Purley District Centre as this is the only location where a building of this prominence and potential height is specified. Where the potential for relatively tall building is proposed, additional text or cross-referencing to wider design policies such as proposed policies of SP4.6 of CLP1.1 and DM15 of CLP2 should be included to ensure that such buildings are of an exceptionally high quality design and complement the existing streetscape, contribute to the public realm and wider character of the area and wider views.</p>	<p>Site 30 (Purley Swimming Pool) has had the proposed use amended so that it is now Mixed use redevelopment incorporating public car park, new leisure facilities including a swimming pool and other community facilities, healthcare facility, creative and cultural industries enterprise centre, retail or residential accommodation.</p> <p>Site 61 (Car park, 54-58 Whytecliffe Road South) has had the proposed use amended so that it includes residential use and car parking.</p> <p>Site A324 (Purley Oaks Depot) will now be allocated for a Gypsy and Traveller site.</p> <p>No other changes to policy or sites.</p>

Policy as in November 2015 consultation document	Summary of comments	Summary of changes made to Croydon Local Plan: Detailed Policies and Proposals (Proposed Submission)
	<p>112 Brighton Road should be allocated as a primary school instead of site 490. The site has a total area of 0.30ha.</p> <p>Purley Swimming Pool – The site should include a requirement for a swimming pool and the current level of parking 30 should remain.</p> <p>Tesco site – Potential for housing but 990 homes is too many.</p> <p>Purley Baptist Church – Same comments as for DM40.1</p> <p>95-111 Brighton Road – The site should be extended to include the properties at the end of Old Lodge Lane and should provide a 25m pool/gym in addition to the primary school.</p> <p>95 -111 Brighton Road – The site should be allocated for mixed use, including residential.</p> <p>Car park, 54-58 Whytecliffe Road South – any development should provide as many car parking spaces as there are there now.</p>	
Policy DM41: Sanderstead	<p>DM41.1 and DM41.2 – Concerned about intensification of both Sanderstead village and Hamsey Green.</p> <p>359-367 Limpsfield Road – The site should be allocated for a mixed use scheme of residential and commercial.</p>	<p>359-367 Limpsfield Road – has been allocated for a mixed use scheme of residential and commercial.</p> <p>No other changes to policy or sites.</p>

Policy as in November 2015 consultation document	Summary of comments	Summary of changes made to Croydon Local Plan: Detailed Policies and Proposals (Proposed Submission)
	<p>Former Good Companions site – The site should be allocated for residential and not retail.</p> <p>Former Good Companions site – This should be retail only but with controlled access.</p>	
Policy DM42: Selsdon	Allocate Old Selsdon Garage on Addington Road	Old Selsdon Garage on Addington Road has been allocated for residential use with commercial use on the ground floor.
Policy DM43: Shirley	<p>Land on Shirley Oaks Road and rear of Honeysuckle Gardens – the land is owned entirely on behalf of the resident shareholders by a resident run management company (SOML) which is bound to preserve that space and which also has a specific object in its Memorandum of Association requiring it to resist any attempt to enforce regulations or plans which impact negatively on the estate. Regardless of its covenants in this regard it is understood that SOML has no wish to develop or to allow the development of the land in question. The gardens are all too small and the space is there to make up for small gardens. Also on the land to the west of Shirley Oaks Road coming from the Wickham Road there is a Synagogue. The Synagogue, their car park and frontage are owned by the Jewish Community and they have no plans to sell this land. The Synagogue is on consecrated land and is in fact</p>	<p>Sites 541, 542 and 548 (Land on Shirley Oaks Road and to rear of Honeysuckle Gardens) has been removed from the Plan as there is no willing landowner.</p> <p>Site 548 will become Local Green Space giving it the same level of protection as Metropolitan Green Belt and Metropolitan Open Land.</p> <p>Site 456 (Shirley Garden Centre) has been removed from the Plan as it is unlikely that it could be developed during the Plan period.</p> <p>Site 502 (Coombe Farm) will now be allocated for residential use as it is a previously developed site in the Metropolitan Green Belt but the landowner is not willing to sell the site for Gypsy and Traveller use. The provision of Gypsy and Traveller pitches will be made by expanding the existing site at Lathams Way and by allocating the Purley Oaks depot as a Gypsy and</p>

Policy as in November 2015 consultation document	Summary of comments	Summary of changes made to Croydon Local Plan: Detailed Policies and Proposals (Proposed Submission)
	<p>the only Synagogue in Croydon. It is discriminatory to have identified this site without first consulting with the Board of Management.</p> <p>Land on Poppy Lane – The soil on which Shirley Oaks is located is of a clay type and is therefore impervious: another reason why it reacts to surface water flooding the way it does. The large area of grassland is ideal for ‘making room for water’ as a water storage area, thus to remove this pooling facility will mean the rain will have to find somewhere else to go, which would inevitably mean flooding for Shirley Oaks residents.</p> <p>Shirley Garden Centre – Shirley Garden Centre is identified as a potential housing allocation for 15 – 39 units. [Site owner] advises that the site is unlikely to be deliverable within the Plan period due to the presence of a number of long-leasehold flats on the site.</p> <p>Coombe Farm – development of site for Gypsy and Traveller pitches does not comply with Policy SP2.7.</p> <p>Coombe Farm – landowner does not wish to sell site for Gypsy and Traveller use.</p> <p>Stroud Green Pumping Station – no substantial objections but a lot of comments about it being a Gypsy and Traveller site (because it was once</p>	<p>Traveller site.</p> <p>Site 938 (Shrublands) has been removed from the Plan as there is no definitive boundary. Selected sites may be developed subject to planning permission as part of the Council New Build Programme.</p> <p>No other changes to policy or sites.</p>

Policy as in November 2015 consultation document	Summary of comments	Summary of changes made to Croydon Local Plan: Detailed Policies and Proposals (Proposed Submission)
	<p>considered as such but not included in the Plan itself).</p> <p>Shrublands estate and the adjacent land to the east, south and west requires protection from further building other than housing on some redundant garages, for the benefit of local residents, especially younger children, as the density of occupation is high; the views from the existing upper storeys such as 170-224 ('The Ship') towards central London should be recognised and protected.</p> <p>Land opposite Shirley Oaks Hospital, Poppy Lane - The land is the freehold property of the shareholders of the Addiscombe Woodside and Shirley Leisure Gardens Ltd. On these grounds alone we object to its development. In addition to this, in recent years this land has been turned into a nature reserve, now home to numerous flora and fauna including, we understand protected species. This is a vital asset of the Society, much used by its members and visitors and previously prone to flooding before being properly managed.</p>	
Policy DM44: South Croydon	Normanton Park Hotel - The rear of the site should be considered for possible expansion of St. Peter's School, as it adjoins the school play areas. A separate suggestion that fewer houses are built, with space for more cars to park away from Normanton Road. The traffic	Site 661 (Coombe Nurseries) will not be allocated for a Gypsy and Traveller site as the noise from industrial machinery on an adjacent site means it is not suitable for any residential use. The provision of Gypsy and Traveller pitches will be made by expanding the existing site at Lathams Way

Policy as in November 2015 consultation document	Summary of comments	Summary of changes made to Croydon Local Plan: Detailed Policies and Proposals (Proposed Submission)
	<p>flow on Normanton Rd is really awful now, mainly because most of the road space is taken up by parked cars. Visitors to, and residents in, the many relatively new flats tend to park on the street because parking area within the apartment complexes is inadequate.</p> <p>Coombe Nurseries - Transition Town have expressed an interest in restoring this site to a proper nursery facility, utilising the existing greenhouses for the growing of food, which would be a sustainable and appropriate activity within this green belt site. The group is very keen to register the site as an asset of community value and to present an alternative plan. Development of site for Gypsy and Traveller pitches does not comply with Policy SP2.7. If the site is to be allocated an alternative site should be found for the existing occupier.</p> <p>Coombe Nurseries – build a school and not Gypsy and Traveller pitches.</p> <p>Coombe Road Playing Field s – The site should not be allocated if it involves the loss of sports facilities or playing fields (Sport England).</p> <p>Coombe Road Playing Fields – The site should remain as Green Belt.</p> <p>Coombe Road Playing Fields – Wallington County</p>	<p>and by allocating the Purley Oaks depot as a Gypsy and Traveller site.</p> <p>No other changes to the policy or sites.</p>

	<p>(Grammer) School is interested in the site and developing a new secondary school there.</p> <p>Coombe Road Playing Fields – Use the site to relocate and expand the existing Archbishop Tenison’s school.</p> <p>Coombe Road Playing Fields – can public transport and road network cope?</p>	
Policy DM45: South Norwood and Woodside	DM45.1 – A policy should be considered for Portland Road that would help to manage the return of retail units to residential use, thereby concentrating the retail offer.	This is covered by existing policies and designations of the Plan. No changes to the policy or sites (other than to remove sites under construction).
Policy DM46: Thornton Heath	<p>DM46.2 - Should avoid buildings up to 6 storeys unless they are on corner plots or landmark sites.</p> <p>585-603 London Road and 2 Dunheved Road should be included in Table 11.19 as 'Continued hotel use'.</p> <p>3B Torridge Road – Site has an active employment use on it and should not be allocated for residential development.</p> <p>Grass area adjacent to, 55 Pawsons Road – The loss of such green space in this densely populated area should be avoided.</p> <p>Grass area adjacent to, 55 Pawsons Road – Rowland Brothers would like to support the de-designation of this land as local open land, but with the addition of a car parking</p>	<p>Site 266 (3B Torridge Road) has been removed from the Plan as it is in use as a scattered employment site.</p> <p>A400 (Day Lewis House) is now proposed as a residential development as the lawful use is an office (Class B1a) which is not protected in this location.</p> <p>No other changes to the policy or sites.</p>

Policy as in November 2015 consultation document	Summary of comments	Summary of changes made to Croydon Local Plan: Detailed Policies and Proposals (Proposed Submission)
	<p>area on the area (to provide space for their vehicles and customers and to avoid carrying coffins to vehicles parked on Northbrook Road). A petition has been submitted to support this.</p> <p>Croydon University Hospital site - Any shrinkage of the site to allow for residential development must very carefully consider the parking and infrastructure impact on an already densely 499 populated part of the borough.</p> <p>54 Northwood Road - A waste transfer site is not appropriate in a residential area and so site should be included in the list of preferred sites rather than an alternative option and preferred option should be residential. (Business is a skip hire business)</p> <p>Day Lewis House – Part of the site has prior approval for conversion from office to residential. Only ground floor has an industrial use. Other floors are a community use (without planning permission) and office. Therefore, it should be allocated for residential use as it is no different from other sites allocated as such.</p>	
Policy DM47: Waddon	<p>DM47.2 – The Plan should be updated to reflect the improvements to Five Ways (TfL).</p> <p>Concern about the large number of sites in Waddon in comparison to some other areas of the borough. They</p>	<p>Site 11 (Waddon Garden Centre) will no longer be allocated for a secondary school as there is no willing landowner. It is now proposed for residential use.</p> <p>No other changes to policy or sites.</p>

Policy as in November 2015 consultation document	Summary of comments	Summary of changes made to Croydon Local Plan: Detailed Policies and Proposals (Proposed Submission)
	<p>object to both school sites (Waddon Garden Centre and Heath Clark). Concern about loss of popular and diverse shops along Purley Way. They support a masterplan for the area and a new local centre.</p> <p>Landowner of Waddon Garden Centre objects to its allocation as a school.</p> <p>Heath Clark – Croydon College wants it allocated for residential use alone as they don't need it for education purposes. CPRE is concerned about the loss of Local Open Land.</p> <p>Morrisons – number of homes on this site is questioned.</p> <p>Sea Cadets (the Waldrons) – the requirement for community use should be removed and the site should be allocated solely for residential as there has been no interest in the site.</p> <p>294-330 Purley Way – landowner says that a mix of retail, commercial and residential would not be deliverable since commercial tenants are seeking accommodation in Croydon centre rather than out of town and the values in residential accommodation would not be attractive enough in a strong-trading and established retail area.</p>
