Introduction

- CCG Commissioning Intentions are informed by the following planning processes:
 - Two year operating plan;
 - Five year strategic plan.
- They indicate to our current and potential new providers how we intend to shape the system that provides health services to the population of Croydon.
- As well as outline how we will respond to the publication of changes to the national priorities for the NHS by NHS England.
- Council Commissioning Intentions are set out in various service area strategies and the embryonic Market Position Statement, and are informed by the Children and Families Partnership priorities, annual financial planning cycle, the JSNA and national/ local policy development.

Joint Commissioning

Joint Commissioning Intentions
