

Proposed adults commissioning priorities for Integrated Commissioning Unit

ICU Mission Statement: To focus on commissioning a comprehensive range of high quality “end to end” integrated health and social care services for people in Croydon and using health and social care commissioning resources more efficiently and, over time, achieving better value for money.

ICU Commissioning Principles: These overarching principles are based on CCG and Council principles.

- Commissioning will be evidence-based
- Focus on good outcomes for individuals, their families and communities
- Enhance quality and value for money via market development
- Promote personalised care and support, close to home
- Effective management of current and future demand for services.
- Promote Prevention, Self-Care/Management and Shared Decision making
- Promote integrated care & support which puts the patient or service user at its heart and gives them genuine choice
- Governance arrangements will be clear, workable and understood by everyone working in the ICU
- Our systems, processes and protocols with partners will assure quality and safety in commissioned services

Service Lead	H&WB Priority	Commissioning Priority	Commissioning Objective
	Preventing Illness and Injury and helping people recover		
Working Age Adults Lead: Alan Hiscutt		Helping people to recover from substance misuse	<ul style="list-style-type: none"> Complete implementation of Phase 2 of the drug and alcohol recommissioning project by April 2016
		Improving the health of people with learning disabilities	<ul style="list-style-type: none"> LD healthchecks
Mental Health & Substance Misuse Lead: Susan Grose		Prevent mental health problems developing and to treat and support those with mental illness are enhanced through a focus on prevention and early intervention and increased resilience.	<p>To increase capacity in the Promoting Recovery (Psychosis) Teams. Ensuring people with a diagnosis of significant psychosis receive care and treatment within promoting recovery teams. And reduce the caseloads of these teams to increase the quality of healthcare.</p> <ul style="list-style-type: none"> Increase capacity of the early intervention service so that caseloads reduce. Evidence suggests that outcomes for young people with psychosis can be positively affected if their duration of untreated psychosis is reduced. Explore the possibility of developing an early detection service which will work with local GPs, colleges and youth organisations to educate people about psychosis and early signs and symptoms.
Older People, LTC, EoL & Carers Lead: Amanda Lloyd		<ul style="list-style-type: none"> Implement the re-procured framework for domiciliary care provision (including care, support, re-ablement, end-of-life and health care, housing-based support – value c£85m) working to a clear contract specification which incorporates commercial incentives if individual outcomes are achieved 	<ul style="list-style-type: none"> Improve the quality of services which support people to live safely at home Ensure appropriate services for people at the end of their life which gives them confidence to die in their place of choice
	Preventing premature
