9. EQUALITIES IMPACT

- 9.1 The health and wellbeing board, as a committee of the council, has a statutory duty to comply with the provisions set out in the Equality Act 2010. The board must, in the exercise of all its functions, have due regard to the need to comply with the three arms or aims of the general equality duty. Case law has established that the potential effect on equality should be analysed at the initial stage in the development or review of a policy, thus informing policy design and final decision making.
- 9.2 Paper authors should carry out an equality analysis if the report proposes a big change to a service or a small change that affects a lot of people. The change could be to any aspect of the service – including policies, budgets, plans, facilities and processes. The equality analysis is a key part of the decision-making process and will be considered by board members when considering reports and making decisions. The equality analysis must be appended to the report and have been signed off by the relevant director.
- 9.3 Guidance on equality analysis can be obtained from the council's equalities team.
