Committee

Whilst the conservative administration supports the implementation of 20mph in roads where residents have highlighted problems of incidents/accidents and high speeds we are unable to support a blanket zone in the North of the borough.

We do not believe that the £300,000 spent would provide value for money in an area where the average speed was recorded at 24 mph and the support for the scheme was somewhat underwhelming at around 3% of residents affected. This resource should be directed to support schemes where residents have highlighted concerns and vehicles are speeding.

This does not provide value for money and is therefore inconsistent with the budget.

We the undersigned call in the decision as per the attached proforma
