### **Important Parking Information**

Dear Occupier,

#### **Re: Proposal to Introduce a Controlled Parking Zone in The Crescent Area.**

The purpose of this letter is to consult you on your views on a possible Controlled Parking Zone (CPZ) in your road. This consultation follows petitions from residents concerned with the high level of parking in The Crescent Area.

Complaints have been received that increased parking is creating obstruction and safety concerns for residents and other road users. These parking concerns could be managed by one of the options stated below and as indicated on the attached questionnaire:

- 1) Extend the existing CPZ (East Outer Zone) to include The Crescent Area. The existing East Outer Zone has "Shared Use" Permit/Pay & Display bays and yellow line waiting restrictions. The existing East Outer Zone operational time is 9am to 5pm, Monday to Saturday.
- 2) Extend the existing CPZ to include The Crescent Area, but with a longer operational time of 8am to 8pm, Monday to Sunday.

It is the Council's policy to engage with local residents before making decisions that affect them. Please complete the attached questionnaire as your views are important to us. Once completed, please return in the enclosed pre-paid envelope. The deadline for responding is **Friday 11 November 2016**.

All responses received by 11 November 2016 would be presented in a report to the next Traffic Management Advisory Committee (TMAC) for its consideration at its next meeting at **6.30pm, 19 December 2016** in the Town Hall, Katharine Street, Croydon. The report will be available to view from **12 December 2016** using the following link: [www.croydon.gov.uk/democracy/dande/minutes/committees](http://www.croydon.gov.uk/democracy/dande/minutes/committees)

It is important that you respond because your views will influence the decision on whether or not to introduce parking controls in your road. The enclosed fact sheet gives further information on CPZs and how the scheme would operate if introduced in your road.

Please do not hesitate to contact the engineer in charge of this consultation, **Huda Wahab**, on **020 8667 8258** or by email **Huda.Wahab@croydon.gov.uk** if you require further information or clarification on this consultation.

Yours faithfully,

**David Wakeling**
